ENVIRONMENTAL PROTECTION AGENCY

[FRL–2868–9]

California State Motor Vehicle Pollution Control Standards; Amendments Within the Scope of Previous Waivers of Federal Preemption; Summary of Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Scope of Waiver of Federal Preemption.

SUMMARY: The California Air Resources Board (CARB) has notified EPA that it has adopted amendments to its test procedures for 1985 and subsequent model year diesel-powered passenger cars, light-duty trucks amd medium-duty vehicles equipped with periodically regenerating particulate trap oxidizer systems. The amendments were adopted to account for the fluctuating emissions from these trap systems, and thus to yield more representative particulate emissions test reaults. I find these amendments to be within the scope of previous waivers of Federal preemption granted to California for its particulate standards and accompanying enforcement procedures. Since these amendments are within the scope of these waivers, a public hearing or comment period to consider them is not necessary. However, if any party asserts an objection to these findings within 30 days of the date of publication of this notice, EPA will consider holding a public hearing to provide an opportunity to present testimony and evidence to show that there are issues to be addressed through a section 209(b) waiver determination and that I should reconsider my findings. Otherwise, these findings will become final at the expiration of this 30-day period.

DATES: Any objection to the findings in this notice must be filed within 30 days of the date of this notice; otherwise, at the expiration of this 30-day period these findings will become final. Upon the receipt of any timely objection, EPA will consider scheduling a public hearing in a subsequent **Federal Register** notice.

ADDRESSES: Any objection to the findings in this notice should be filed with Mr. Donald E. Zinger, Acting Director, Manufacturers Operations Division (EN–340–F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

Copies of the California amendments at issue in this notice, a decision document containing an explanation of my determination, and documents used in arriving at this determination, are available for public inspection during normal working hours (8:00 a.m. to 4:00 p.m.) at the Environmental Protection Agency, Central Docket Section, Gallery I, 401 M Street, SW., Washington, DC 20460 (Docket EN–85–07). Copies of the decision document can be obtained from EPA's manufacturers Operations Division by contacting Mr. Bergovoy as noted below.

FOR FURTHER INFORMATION CONTACT: Richard Bergovoy, Attorney/Advisor, Manufacturers Operation Division (EN–340–F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 382–2522.

SUPPLEMENTARY INFORMATION: I have determined that CARB's amendments are within the scope of a waiver of Federal preemption previously granted pursuant to section 209(b) of the Clean Air Act, as amended (Act).[1] Specifically, the amendments supplement certification testing procedures for diesel-powered vehicles in order to make possible more representative

California State Motor Vehicle Pollution Control Standards; Amendments Within the Scope of Previous Waivers of Federal Preemption; Summary of Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Scope of Waiver of Federal Preemption.

SUMMARY: The California Air Resources Board (CARB) has notified EPA that it has adopted amendments to its test procedures for 1985 and subsequent model year diesel-powered passenger cars, light-duty trucks amd medium-duty vehicles equipped with periodically regenerating particulate trap oxidizer systems. The amendments were adopted to account for the fluctuating emissions from these trap systems, and thus to yield more representative particulate emissions test reaults. I find these amendments to be within the scope of previous waivers of Federal preemption granted to California for its particulate standards and accompanying enforcement procedures. Since these amendments are within the scope of these waivers, a public hearing or comment period to consider them is not necessary. However, if any party asserts an objection to these findings within 30 days of the date of publication of this notice, EPA will consider holding a public hearing to provide an opportunity to present testimony and evidence to show that there are issues to be addressed through a section 209(b) waiver determination and that I should reconsider my findings. Otherwise, these findings will become final at the expiration of this 30-day period.

DATES: Any objection to the findings in this notice must be filed within 30 days of the date of this notice; otherwise, at the expiration of this 30-day period these findings will become final. Upon the receipt of any timely objection, EPA will consider scheduling a public hearing in a subsequent **Federal Register** notice.

ADDRESSES: Any objection to the findings in this notice should be filed with Mr. Donald E. Zinger, Acting Director, Manufacturers Operations Division (EN–340–F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

Copies of the California amendments at issue in this notice, a decision document containing an explanation of my determination, and documents used in arriving at this determination, are available for public inspection during normal working hours (8:00 a.m. to 4:00 p.m.) at the Environmental Protection Agency, Central Docket Section, Gallery I, 401 M Street, SW., Washington, DC 20460 (Docket EN–85–07). Copies of the decision document can be obtained from EPA's manufacturers Operations Division by contacting Mr. Bergovoy as noted below.

FOR FURTHER INFORMATION CONTACT: Richard Bergovoy, Attorney/Advisor, Manufacturers Operation Division (EN–340–F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 382–2522.

SUPPLEMENTARY INFORMATION: I have determined that CARB's amendments are within the scope of a waiver of Federal preemption previously granted pursuant to section 209(b) of the Clean Air Act, as amended (Act).[1] Specifically, the amendments supplement certification testing procedures for diesel-powered vehicles in order to make possible more representative

[1] 49 FR 18887 (May 3, 1984).

St. James consent order by 39,178,666 gallons, which represents St. James' total sales of all covered products during the consent order period.

[7] Purchasers identified in the ERA audit of St. James as having allegedly been overcharged may also submit information to show that they are entitled to larger refunds than those indicated in Appendix A.

VOL 50 ISS 141 JL 23 1985 UMI

particulate measurements from cars equipped with periodically regenerating particulate trap oxidizer systems. The new test procedures permit CARB to calculate a correction factor to account for the fact that the emissions test cycle is 11 miles long, but that periodically regenerating trap oxidizers release accumulated particulates once every 40 to 80 miles. The amended procedures require extra emissions tests to measure the vehicle in both the regeneration and non-regeneration modes.

These changes do not affect California's determination that its standards are, in the aggregate, at least as protective as Federal standards, raise no new issues regarding previous EPA waiver decisions, and do not affect the consistency of California's requirements with respect to section 202(a) of the Act. A full explanation of my determination is contained in a decision document, which may be obtained from EPA as noted above.

Since these amendments are included within the scope of previously granted waivers of Federal preemption, a public hearing to consider them is not necessary. The public has not had an opportunity to comment in advance of this determination. Therefore, my determination on these amendments will become final at the expiration of 30 days following publication of this notice, unless an objection is filed and a public hearing is scheduled.

My decision will affect not only persons in California but also the manufacturers located outside the State who must comply with California's requirements in order to produce motor vehicles for sale in California. For this reason, I hereby determine and find that this decision is of nationwide scope and effect. Under section 307(b) of the Act, judicial review of this action is available only by filing a petition for review in the United States Court of Appeals for the District of Columbia Circuit within 60 days of publication.

This action is not a rule for the purposes of Executive Order 12291, 46 FR 13193 (February 19, 1981). It does not "implement, interpret, or prescribe law or policy." Therefore it is not subject to review by the Office of Management and Budget as required for rules and regulations by Executive Order 12291. Additionally, a Regulatory Impact Analysis is not being prepared under the executive order for this "within the scope" determination since it is not a rule.

This action also is not a "rule" as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2), because EPA is not required to undergo prior "notice and comment" under section 553(b) of the Administrative Procedure Act, or any other law. Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small entities.

Dated: July 18, 1985.

Charles N. Freed,

Acting Assistant Administrator for Air and Radiation.

National Drinking Water Advisory Council; Open Meeting

Under section 10(a)(2) of Pub. L. 92-423, "The Federal Advisory Committee Act," notice is hereby given that a meeting of the National Drinking Water Advisory Council established under the Safe Drinking Water Act, as amended (42 U.S.C. S300f *et seq.*), will be held at 8:30 a.m. on August 8, 1985, and at 8:00 a.m. on August 9, 1985, at the EPA Headquarters, Room 3906 Mall Area, 401 M Street, SW., Washington, DC 20460. Council subcommittees will be meeting at EPA Headquarters on August 7, 1985.

The purpose of the meeting is to provide the Council with an update on the development of the Revised Primary Drinking Water Regulations and the Amendments to the Safe Drinking Water Act. Additional agenda items will include a status on the Underground Injection Control Program and the Pesticide Survey.

This meeting will be open to the public. The Council encourages the hearing of public statements and will allocate a portion of its meeting time for public participation. Oral statements will be limited to five minutes. It is preferred that there be one presenter for each statement. Any outside parties interested in presenting an oral statement should petition the Council by telephone at (202) 382-5533. The petition should include the topic of the proposed statement, the petitioner's telephone number and should be received by the Council before August 2, 1985.

Any person who wishes to file a written statement can do so before or after a Council meeting. Accepted written statements will be recognized at the Council meeting and will be part of the permanent meeting record.

Any member of the public wishing to attend the Council meeting, present an oral statement, or submit a written statement, should contact Ms. Charlene Shaw, Office of Drinking Water (WH-550), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

The telephone number is: Area Code 202/382-5533.

Dated: July 12, 1985.

Henry L. Longest II,

Acting Assistant Administrator for Water.

Science Advisory Board; Environmental Health Committee; Acute Effects Subcommittee; Open Meeting

Under Pub. L. 92-463, notice is hereby given that a two-day meeting of the Acute Effects Subcommittee of the Science Advisory Board will be held on August 15-16, 1985, in Conference Room 3906-3908, Waterside Mall, U.S. Environmental Protection Agency, 401 M Street, Southwest, Washington, DC. The meeting will start at 9:00 a.m. on August 15, 1985, and adjourn no later than 4:30 p.m. on August 16, 1985. The purpose of the meeting is to review a draft document, prepared by the Office of Toxic Substances, which describes criteria for listing chemical substances of concern for acute exposures.

For additional information on the draft document, please contact Dr. Edward A. Klein by phone at (202) 382-3790 or by mail to: TSCA Assistance Office (TS-799), 401 M Street, SW., Washington, DC, 20460. The meeting will be open to the public. Any member of the public wishing to attend, to present information to the Subcommittee, or to obtain further information, should contact either Dr. Daniel Byrd, Executive Secretary to the Subcommittee, or Mrs. Brenda Johnson, by telephone at (202) 382-2552 or by mail to: Science Advisory Board (A-101F), 401 M Street, SW., Washington, DC 20460, no later than c.o.b. Tuesday, August 13, 1985.

Dated: July 15, 1985.

Terry F. Yosie,

Staff Director, Science Advisory Board.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[Docket: FEMA-REP-4-WV-1]

Receipt of Radiological Emergency Response Plans; Pennsylvania

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Receipt of Plan.

SUMMARY: For continued operation of nuclear power plants, the Nuclear Regulatory Commission requires approved licensee and State and local governments' radiological emergency response plans. Since FEMA has a responsibility for reviewing the State and local government plans, the State of West Virginia has submitted its radiological emergency plans to the FEMA Regional Office. These plans support nuclear power plants which impact on West Virginia, and include the plans of a county which is near the Duquesne Light Company's Beaver Valley Power Station located in Shippingport, Pennsylvania.

DATE: Plans received: June 30, 1985.

FOR FURTHER INFORMATION CONTACT: Mr. Paul P. Giordana, Regional Director, Federal Emergency Management Agency Region III, Liberty Square Building, 105 South 7th Street, Philadelphia, Pennsylvania 19106.

Notice: In support of the Federal requirement for emergency response plans, FEMA has established a Rule describing its procedures for review and approval of State and local governments' radiological emergency response plans. Pursuant to this FEMA Rule (44 CFR 350.8), "Review and Approval of State Radiological Emergency Plans and Preparedness," the State Radiological Emergency Plan for West Virginia and Hancock County, a portion of which is located within the ten-mile EPZ of the Beaver Valley Power Station, has been received by the Federal Emergency Management Agency Region III.

Copies of the Plan are available for review at the FEMA Region III Office, or they will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests, as set out in subpart C of 44 CFR Part 5. There are 934 pages in the document, reproduction fees are $.10 a page payable with the request for copy.

Comments on the Plan may be submitted in writing to Mr. Paul Giordana, Regional Director, at the above address within thirty days of this Federal Register notice.

Dated: July 10, 1985.

Paul P. Giordana,

Regional Director.

BILLING CODE 6718-01-M

[Docket No.: FEMA-REP-6-TX-1]

The Texas State Emergency Management Plan Site-Specific to the Comanche Peak Steam Electric Station

ACTION: Certification of FEMA Findings and Determination.

In accordance with the Federal Emergency Management Agency (FEMA) rule 44 CFR 350, the State of Texas submitted its plans relating to the Comanche Peak Steam Electric Station to the Director of FEMA Region VI on June 10, 1982, for FEMA review and approval. On February 5, 1985, the Regional Director forwarded his evaluation to the Associate Director for State and Local Programs and Support in accordance with section 350.11 of the FEMA rule. Included in this evaluation is a review of the State and local plans around the Comanche Peak Steam Electric Station, an evaluation of the joint exercise conducted on December 14, 1983, in accordance with section 350.9 of the FEMA rule, and a public meeting held on January 24, 1984, to discuss the site-specific aspects of the State and local plans around the Comanche Peak Steam Electric Station in accordance with section 350.10 of the FEMA rule. In addition the Regional Director submitted an addendum dated October 12, 1984, that considered the revision of plans and preparedness. This last evaluation reported that the remaining outstanding deficiences have been resolved.

Based on the evaluation by the Regional Director and the review by the FEMA Headquarters staff, I find and determine that the State and local plans and preparedness of the Comanche Peak Steam Electric Station are adequate to protect the health and safety of the public living in the vicinity of the plant. These offsite plans and preparedness are assessed as adequate in that they provide reasonable assurance that appropriate protective actions can be taken offsite in the event of a radiological emergency and are capable of being implemented. The adequacy of the public alert and notification system has been verified by FEMA in accordance with the joint Nuclear Regulatory Commission/FEMA criteria set forth in NUREG-0654/FEMA-REP-1, Rev. 1, Appendix 3, and in the "Standard Guide for the Evaluation of Alert and Notification Systems for Nuclear Power Plants" (FEMA-43).

FEMA will continue to review the status of offsite plans and preparedness associated with the Comanche Peak Steam Electric Station in accordance with section 350.13 of the FEMA rule.

For further details with respect to this action, refer to Docket File FEMA-REP-6-TX-1 maintained by the Regional Director, FEMA Region VI, Federal Center, Denton, Texas 76201.

Dated: July 15, 1985.

For the Federal Emergency Management Agency.

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

[FR Doc. 85-17406 Filed 7-22-85; 8:45 am]

BILLING CODE 6718-01-M

[Docket No.: FEMA-REP-6-LA-2]

The Louisiana Peacetime Radiological Response Plan Site-Specific to Waterford III Steam Electric Station

ACTION: Certification of FEMA Findings and Determination.

In Accordance with the Federal Emergency Management Agency (FEMA) rule 44 CFR Part 350, the State of Louisiana submitted its plans relating to the Waterford III Steam Electric Station to the Director of FEMA Region VI on June 10, 1982, for FEMA review and approval. On April 3, 1985, the Regional Director forwarded his evaluation to the Associate Director for State and Local Programs and Support in accordance with § 350.11 of the FEMA rule. Included in this evaluation is review of the State and local plans around the Waterford III Steam Electric Station, an evaluation of the joint exercise conducted on February 8, 1984, in accordance with § 350.9 of the FEMA rule, and a public meeting held on May 3, 1983, to discuss the site-specific aspects of the State and local plans around the Waterford III Steam Electric Station in accordance with § 350.10 of the FEMA rule. In addition, the Regional Director submitted an addendum dated March 6, 1985 that considered revisions in plans and preparedness. This last evaluation reported that the remaining outstanding deficiencies have been resolved.

VOL 50 ISS 141 JL 23 1985 UMI

Based on the evaluation by the Regional Director and the review by the FEMA Headquarters staff, I find and determine that, subject to the condition stated below, the State and local plans and preparedness for the Waterford III Steam, Electric Station are adequate to protect the health and safety of the public living in the vicinity of the plant. These offsite plans and preparedness are assessed as adequate in that they provide reasonable assurance that appropriate protective actions can be taken offsite in the event of a radiological emergency and are capable of being implemented. The condition for the above approval is that the adequacy of the public alert and notification system already installed and operational must be verified as meeting the standards set forth in Appendix 3 of the Nuclear Regulatory Commission/FEMA criteria in NUREG–0654/FEMA–REP–1, Rev. 1, and in the "Standard Guide for the Evaluation of Alert and Notification Systems for Nuclear Power Plants" (FEMA–43).

FEMA will continue to review the status of offsite plans and preparedness associated with the Waterford III Steam Electric Station in accordance with § 350.13 of the FEMA rule.

For further details with respect to this action, refer to Docket File FEMA–REP–6–LA–2 maintained by the Regional Director, FEMA Region VI, Federal Center, Denton, Texas 76201.

Dated: July 15, 1985.

For the Federal Emergency Management Agency.

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, D.C. Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 15 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 212–010286–005.

Title: Italy-U.S.A. North Atlantic Pool Agreement.

Parties:

Costa Armatori, S.p.A.
Jugolinija
Zim Israel Navigation Company, Ltd.
Farrell Lines, Inc.
Sea-Land Service, Inc.
Medamerica Express Service
Nedlloyd Lines

Synopsis: The proposed amendment would modify the agreement to clarify the scope of the agreement, revise the withdrawal provisions and make certain nonsubstantive changes to the language of the agreement. It would delete "Italia" Societa Per Azioni di Navigazione, S.p.A. as a party to the agreement, add Nedlloyd Lines and the joint service Medamerica Express Service ("Italia" Societa Per Azioni di Navigazione, S.p.A. is a member of the joint service) as parties to the agreement. It would also revise the pool shares, pool period, definition of "pool cargo" and the penalties for earnings in excess of maximum pool shares.

By Order of the Federal Maritime Commission.

Dated: July 18, 1985.

Bruce A. Dombrowski,

Acting Secretary.

[FR Doc. 85–17488 Filed 7–22–85; 8:45 am]

BILLING CODE 6730–01–M

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, D.C. Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No: 226–010783.

Title: Equipment Interchange Agreement Between Orient Overseas Container Line, Ltd. and Totem Ocean Trailer Express, Inc.

Parties:

Orient Overseas Container Line, Ltd.
Totem Ocean Trailer Express, Inc.

Synopsis: The proposed agreement would permit the parties to exchange empty and loaded equipment in connection with a nonexclusive transshipment agreement between the parties involving shipments moving between Alaska and the Far East.

Agreement No: 217–010784.

Title: Transamerican Steamship Corporation/The National Shipping Company of Saudi Arabia Space Charter Agreement.

Parties:

Transamerican Steamship Corporation (TSC)
The National Shipping Company of Saudi Arabia (NSCSA)

Synopsis: The proposed agreement would permit TSC to charter space on the vessels of NSCSA and to utilize related equipment in connection with the carriage of cargo in the trade from U.S. Atlantic and Gulf Coast ports and from inland and coastal points in the United States via such ports to ports and inland and coastal points on the Red Sea.

Agreement No: 218–010785.

Title: Nonexclusive Transshipment Agreement Between Orient Overseas Container Line, Ltd. and Totem Ocean Trailer Express, Inc.

Parties:

Orient Overseas Container Line, Ltd.
Totem Ocean Trailer Express, Inc.

Synopsis: The proposed agreement would establish a non-exclusive, intermodal transshipment arrangement between the parties in the trade between points in Alaska and points in the Far East, with transshipment at Seattle or Tacoma, Washington.

By Order of the Federal Maritime Commission.

Dated: July 18, 1985.

BILLING CODE 6730–01–M

FEDERAL RESERVE SYSTEM

Gibson Investment Co.; Application To Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1)) of the Board's Regulation Y (12 CFR 225.23(a)(1) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompained by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 12, 1985.

A. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Gibson Investment Company,* Gibson, Iowa; to engage *de novo* directly in the activity of making commercial and real estate loans, both direct and indirect, by purchasing overlines from banks, including its subsidiary bank, and to retain the commercial lending activity it has already conducted. These activities would be conducted in the state of Iowa.

Board of Governors of the Federal Reserve System, July 17, 1985.

James AcAfee,

Associate Secretary of the Board.

[FR Doc. 85–17420 Filed 7–22–85; 8:45 am]

BILLING CODE 6210–01–M

National Banc of Commerce Co. et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than August 14, 1985.

A. Federal Reserve Bank of Richmond (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *National Banc of Commerce Company,* Charleston, West Virginia; to acquire 100 percent of the voting shares of The First National Bank of Belle, West Virginia.

2. *Rappahannock Bankshares, Inc.,* Washington, Virginia; to become a bank holding company by acquiring 66.67 percent of the voting shares of The Rappahannock National Bank of Washington, Washington, Virginia.

B. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *First Commercial Bancshares, Inc.,* Jasper, Alabama; to acquire 100 percent of the voting shares or assets of First Commercial Bank, Birmingham, Alabama, a *de novo* bank.

C. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Lena Bancorp, Inc.,* Lena, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of Lena State Bank, Lena, Illinois.

D. Federal Reserve Bank of St. Louis (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *General Bancshares Corporation,* St. Louis, Missouri; to acquire 100 percent of the voting shares or assets of The Hillsboro National Bank, Hillsboro, Illinois through the merger of its parent, HNB Bancorp, Inc., Hillsboro, Illinois and General Bancshares Corporation of Illinois, Belleville, Illinois, a wholly-owned subsidiary of Applicant.

2. *Lake Hamilton Enterprises, Inc.,* Little Rock, Arkansas; to acquire 96.88 percent of the voting shares or assets of The Bank of Harrisburg, Harrisburg, Arkansas.

3. *Oblong Banchsares, Inc.,* Oblong, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of The First National Bank of Oblong, Oblong, Illinois.

E. Federal Reserve Bank of Dallas (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Security North Corporation,* Amarillo, Texas; to become a bank holding company by acquiring 80 percent of the voting shares of Banccentral, Amarillo, Texas.

Board of Governors of the Federal Reserve System, July 17, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Commission on the Evaluation of Pain; Meeting

AGENCY: Department of Health and Human Services.

ACTION: Notice of meeting.

SUMMARY: This notice announces the schedule and proposed agenda of the forthcoming meeting of the Commission on the Evaluation of Pain (the Commission). This notice also describes the purpose, structure, and termination date of the Commission.

DATE: General session—August 8, 1985, 8:30 a.m. to 5:00 p.m. General session—August 9, 1985, 8:30 a.m. to 5:00 p.m.

ADDRESS: National Academy of Sciences, 2101 Constitution Avenue, NW., Washington, DC 20037.

FOR FURTHER INFORMATION CONTACT: Nancy Dapper, Executive Director, Commission on the Evaluation of Pain, Room 118, Altmeyer Building, 6401 Security Boulevard, Baltimore, Maryland 21235; (301) 597–1597.

SUPPLEMENTARY INFORMATION: The Commission is established and governed by the provisions of section 3(b) (1) through (6) of the Social Security Disability Benefits Reform Act of 1984 (Pub. L. 98–460). The purpose of the Commission is to conduct a study

VOL

JL
23
1985
UMI

concerning the evaluation of pain in determining under Titles II and XVI of the Social Security Act whether an individual is under a disability. The study is to be conducted in consultation with the National Academy of Sciences.

The study will consist of expert testimony and a review of research data regarding how pain should be considered in making disability determinations under Titles II and XVI. The Commission may engage technical assistance in order to carry out its function.

The Commission is to submit a report, consisting of the findings of the study and any recommendations, to the Secretary of Health and Human Services (the Secretary) who in turn is to submit the report to the Committee on Way and Means of the House of Representatives and to the Committee on Finance of the Senate.

The statute provides that the Commission terminate on December 31, 1985. This is also the deadline for the Secretary to submit the report.

The Secretary has appointed the members of the Commission in accordance with the provisions of the statute. This notice announces the second working meeting of the Commission. The Commission is chaired by Kathleen M. Foley, M.D.

This meeting is open to the public. Anyone wishing to submit his or her views for consideration by the Commission should send them to the Executive Director of the Commission at her address shown above.

A transcript of the Commission meeting will be made available to the public on an at-cost-of-duplication basis. The transcript can be ordered from the Executive Director of the Commission.

Agenda

August 8, 1985

8:30 a.m.—General session of expert testimony and research data presentations.
5:00 p.m.—Adjourn general session.

August 9, 1985

8:30 a.m.—General session of (1) continued expert testimony and research data presentations, (2) discussions on the agenda, priorities, and date of the next meeting, and (3) writing assignments.
5:00 p.m.—Adjourn the meeting.

Dated: July 17, 1985.

Nancy J. Dapper,

Executive Director, Commission on the Evaluation of Pain.

BILLING CODE 4190-11-M

Office of Human Development Services

Statement of Organization, Functions, and Delegations of Authority

AGENCY: Administration on Developmental Disabilities, HHS.

ACTION: Notice of Change to Statement of Organization, Functions, and Delegations of Authority.

SUMMARY: This notice amends Part D of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services, Office of Human Development Services (OHDS), as published in the **Federal Register** on October 27, 1983 (48 FR 49697) to: (1) Establish a Management Services Staff office; (2) change the title of the "Division of Program Operations" to "Program Operations Division" and revise its functions; and (3) change the title of the "Division of Program Development and Demonstrations" to "Program Development Division" and revise its functions.

EFFECTIVE DATE: August 8, 1985.

FOR FURTHER INFORMATION CONTACT: Casimer Wichlacz, Deputy Commissioner, Administration on Developmental Disabilities.

The changes are as follows:

1. Part D, Chapter DF, "The Administration on Developmental Disabilities", as published in the **Federal Register** on October 27, 1983 (48 FR 49697), is to be deleted in its entirety and replaced by the following:

DF.00 Mission. The Administration on Developmental Disabilities (ADD) is the principal OHDS component established to enable States to increase the provision of quality services to persons with developmental disabilities through the design and implementation of a comprehensive and continuing State Plan. This plan makes optimal use of all existing Federal and State resources for the provision of treatment, services and habilitation in the least restrictive environment and provides assurance for the protection of rights of all individuals with developmental disabilities.

ADD advises the Assistant Secretary for Human Development Services on the formulation, development, and implementation of policies affecting developmentally disable persons. Reviews legislation and other policies affecting developmentally disabled persons. Acts as an advocate to assure the rights of handicapped persons. Serves as a clearinghouse and resource for information for service providers at the national, regional, State and local levels in the development of policies and programs to reduce or eliminate physical, mental, social and environmental barriers experienced by developmentally disabled persons. Supports and encourages programs or services to prevent developmental disabilities.

DF.10 Organization. The Administration on Developmental Disabilities is under the direction of the Commissioner, who reports directly to the Assistant Secretary for Human Development Services. The Administration on Developmental Disabilities consists of:

Office of the Commissioner
Management Services Staff
Program Operations Division
Program Development Division
Regional Offices of the Administration on Developmental Disabilities, Regions III, VI, VII, and IX

DF.20 Functions. Office of the Commissioner provides executive leadership and direction to ADD. Establishes goals and objectives for programs for developmentally disabled persons; directs the administration of formula and discretionary grant programs of the Developmental Disabilities Assistance and Bill of Rights Act of 1984, Pub. L. 98-527. Provides technical assistance and initiates policy relative to the provision of services to persons with developmental disabilities under the ADD authorizing statute; serves as advisor to the Assistant Secretary on programs, issues and problems affecting handicapped individuals and on the concerns of developmentally disabled persons. Assures consideration of the rights and needs of the developmentally disabled and other handicapped individuals in Human Development Services program planning and policy development.

Serves as a focal point on matters and issues concerning developmentally disabled persons for the various OHDS Regional Offices, the Commissioner/ADD, other ADD Divisions, and other OHDS Headquarters staff. Facilitates interagency program coordination and program integration to meet the needs of developmentally disabled persons. Formulates policies affecting the developmentally disabled and identifies services to promote independence, productivity, community integration and to assure their rights and entitlements. Coordinates with OHDS Regional Administrators on program issues and progress affecting their region and coordinates Developmental Disabilities (DD) Program objectives requiring involvement of other OHDS programs at the regional level.

Reviews and analyzes reports and makes contacts with governmental and non-governmental agencies and individuals to secure necessary information for policy development.

Identifies administrative, legislative and regulatory changes or developments necessary for the application of effective and consistent Federal policy for persons with developmental disabilities.

B. Management Services Staff plans, coordinates, and controls ADD policy, planning, and management activities. Manages the development of legislative proposals, regulations and policies for ADD. Develops and recommends the implementation of policies in coordination and consultation with the Office of Policy and Legislation (OPL), OHDS.

In coordination with OPL and the Office of Management Services (OMS), in the Office of Human Development Services, monitors the execution of program plans consistent with the Department's requirements and OHDS procedures. Formulates budget and legislative plans consistent with Departmental and ADD requirements.

Coordinates the reporting by ADD units to the Department of Health and Human Services/OHDS management system, including reports on short-range initiatives. Develops reports on the overall ADD program that are required by the Department and the Congress.

Tracks financial status of all program and salaries and expenses accounts and provides financial data to the Commissioner. Provides funds control for program and salaries and expenses accounts to include making fund commitments, obligations, and reconciliation of accounts with the Department's accounting system. Furnishes assistance to program specialists on Departmental financial management and on development of ADD fiscal and budget procedures; coordinates with appropriate HDS staff offices in carrying out these functions. Performs audit coordination activities for ADD audits, assuring appropriate response and coordination with HDS.

Provides a wide range of management and administrative services in support of all ADD programs and activities. Expedites the progress of all procurements and personnel actions. Serves as the ADD Executive Secretariat, controlling the flow of correspondence, including coordination of Freedom of Information Act requests. Coordinates with appropriate OHDS units in implementing administrative requirements and procedures.

In coordination with the Office of Public Affairs/OHDS, developments a strategy for increasing public awareness of the needs of developmentally disabled persons and programs designed to meet their needs.

Oversees all ADD data collection, information, maintenance, and preparation of final reports on program data. Carries out special projects, including gathering information and assisting in preparation of briefings and reports. Coordinates preparation of the ADD statistical budget submission and related OMB forms clearance activities.

C. Program Operations Division is responsible for the development of Federal guidelines, criteria and procedures which govern delivery of services authorized by the Act under the Basic State Grants Program and the Protection and Advocacy Grants Program. Provides coordination and guidance for programs applicable to individuals with developmental disabilities.

Develops procedures and methods for monitoring and analysis of State Plans under the Basic State Grants Program to assure consistent application of ADD policies and procedures. Carries out routine and special analysis of State Plans. Monitors the Basic State Grants Program and Protection and Advocacy Grants Program, developing reports on progress, accomplishments and problems; preparing recommendations for actions that will further the ADD program goals and objectives; and, initiates action to resolve identified problems.

Advises Commissioner on trends, issues, and progress; contributes to the development and implementation of long and short range plans, goals, and objectives. Develops strategies and designs for joint reviews of State Plans of other Federal/State program services. Identifies potential areas for development of interagency agreements and jointly funded service initiatives for State program services. Serves as the focal point for the initiation, execution, administration, monitoring and follow-up of interagency agreements and resulting activities.

Provides administrative and committee management support to the National Council on the Handicapped and other Federal commissions or interagency committees established by statute or administrative policy. Plans and coordiantes special conferences involving Federal and non-Federal agencies.

Provides program and administrative guidance to ADD Regional staff on matters pertaining to the Basic State Grants Program and the Protection and Advocacy Grants Program. Maintains liaison and routine communication with the ADD Regional Offices to facilitate the flow of information between Central Office and the Regional Offices concernig State developmental disabilities activity and to assist the Commissioner in maximization of program quality. Assists in the identification and resolution of policy and program issues. Develops and maintains a comprehensive information base on programs and activities for developmentally disabled persons on a national basis, as well as individual State profiles.

Manages a task force on the placement of persons with developmental disabilities in competitive employment. Directs the planning and supervises the development of this special initiative. Coordinates Federal efforts in this area with the private business sector.

D. Program Development Division provides program development services, including program evaluation, environmental reform, specialized services initiatives, and demonstration projects. Provides direction to assist applicants for discretionary grants and contracts authorized under the Act; reviews discretionary grants for the Commissioner; facilitates State review and comment on applications for discretionary grants and contracts; makes recommendations to the Commissioner on requests for discretionary grants and contracts and assists in monitoring and evaluating national level discretionary grants.

Plans for and implements experimental program services based on feedback from State and local organizations on program needs. Formulates and prepares annual demonstration, and evaluation plans. Coordinates and administers the University Affiliated Facilities (UAF's) activities, and develops quality assurance criteria for the UAF Program.

Originates cross-cutting research, demonstration and evaluation initiatives with other units of ADD, OHDS, HHS, and other governmental Departments.

Develops and initiates guidelines, issuances and actions with team participation by other units of ADD, OHDS, HHS and other governmental agencies to fulfill the mission and goals of the Developmental Disabilities Assistance and Bill of Rights Act.

Works with the Small and Disadvantaged Business Utilization Specialist in the Office of Equal Opportunity and Civil Rights to identify minority-owned firms that have capabilities to perform contracts and advises such firms about ADD programs.

VOL 50 ISS 141 JL 23 1985 UMI

In liaison with HDS/OMS and the Office of Program Development (OPD), is responsible for discretionary grants and contracts management, technical assistance, and training activities. Reviews and analyzes data and information regarding developmental disabilities programs and services, and coordinates the dissemination of project results and information to other interested agencies and the public.

Serves as liaison with national consumer organizations representing developmentally disabled constituents; advising the Commissioner on matters and concerns of consumer representative groups, including inter-governmental representatives; provides liaison activity between national organizations and program administrative offices; and provides coordination on consumer representatives' involvement in planning and program policy direction for the ADD program.

Coordinates national program trends with other OHDS programs and HHS agencies. Studies, reviews and analyzes other Federal programs providing services applicable to developmentally disabled persons for the purpose of integrating and coordinating programs.

Provides leadership and staff support for a Task Force on Board and Care. This includes providing administrative and technical supervision of staff assigned to the Task Force by other Federal agencies and serving as the focal point for the Department for information on board and care to public and private agencies and the general public. Develops guidelines and promotes the adoption of appropriate standards for institutions and service providers in the area of board and care.

Serves as the focal point for activities and ADD requirements in support of the Decade of the Disabled.

F. The Regional Offices of the Administration on Developmental Disabilities are located in Regions III, VI, VII, and IX. The areas designated by the standard Federal Regions are covered by the ADD Regional Offices as follows: Regions I, II, and III by Region III; Regions IV and VI by Region VI; Regions V, VII, and VIII by Region VII; and Regions IX and X by Region IX. Each office, under the direct supervision of the Regional Administrator, serves as the administrative focus between the Central Office and State and local governments and other organizations for the consideration of program issues and policies affecting service needs and rights of developmentally disabled persons.

Provides information for and contributes to the development of national policy for the developmental disabilities program. Establishes goals and objectives for the area served based on national policy and program priorities of ADD. In collaboration with Regional Administrators, provides direction and coordination on the implementation of the developmental disabilities program and advises the Commissioner, Administration on Developmental Disabilities, regarding issues which hamper efforts to implement the developmental disabilities program.

Works with State and local program administrators and public officials to promote developmental disabilities programs and services provided under the Act. Reviews, for compliance with Federal requirements, and approves developmental disabilities State plans, amendments and annual reports. Assists States and local governments, as requested, in the development and operation of the Basic State Grant Program and the State Protection and Advocacy Systems.

Recommends successful practices and/or takes positive action which will facilitate efforts of States to fill gaps in their programs.

Provides assistance to applicants for discretionary grants and contracts authorized under the Act. Makes recommendations for approval or disapproval of discretionary grants and contracts. Assists in monitoring and evaluating University Affiliated Facilities (UAFs) grants and special projects of national significance.

Interprets statutes and regulations consistent with policy guidance of the Central Office. Insures adherence by recipients of funds to program objectives, applicable policy, regulations and procedures as set forth by ADD and OHDS. Assists agencies and grantees in interpreting policy and assists in the resolution of specific operational issues.

Collaborates with the OHDS Regional Director, Office of Fiscal Operations, in planning the conduct of financial reviews. Makes decisions on approval, referral, or disallowances of claims for Federal financial participation, and reviews estimates, budget projections, and reports of expenditure for the formula grant programs and grants to UAFs and Satellite Centers.

Coordinates ADD program activities with other programs of OHDS and other Federal programs at the Regional and State levels to enhance regional assistance for programs for the developmentally disabled. Advises on opportunities for coordination between and among other Federal program services. Analyzes programs for developmentally disabled persons funded by States through other Federal-State programs in the area served.

Consults with Regional Administrators on the planning and implementation of cross-cutting program initiatives concerning developmentally disabled persons across OHDS programs in their area relative to children, youth and families, the aging, and Native Americans. Develops and promotes linkages between the DD program and other Federal/State program services in the States through leadership in the development, design, and implementation of comprehensive program service plans.

Dated: July 17, 1985.

Approved:

Dorcas R. Hardy,

Assistant Secretary for Human Development Services.

BILLING CODE 4130-01-M

National Institutes of Health

Recombinant DNA Research; Availability of Analysis of Public Comments

AGENCY: National Institutes of Health, PHS, DHHS.

ACTION: Notice.

SUMMARY: A previous **Federal Register** notice (50 FR 14794-14796, April 15, 1985) announced the availability for public comment of the Environmental Assessment and Finding of No Significant Impact (EA-FONSI) dated January 21, 1985, "concerning the application to the National Institutes of Health (NIH), under the NIH Guidelines for Research Involving Recombinant DNA Molecules, of Drs. Steven Lindow and Nickolas Panopoulos of the University of California, Berkeley, to field test ice-nucleation-minus bacteria prepared by recombinant DNA techniques for purposes of biological control of frost damage to plants." In addition, the April 15, 1985, notice requested "comments on the need for a programmatic Environmental Impact Statement in connection with NIH approvals of proposals to release into the environment organisms containing recombinant DNA molecules." In response to the April 15, 1985, notice, fifteen letters were received. These letters were analyzed in a June 19, 1985, memorandum from Dr. Bernard Talbot, Deputy Director, National Institute of Allergy and Infectious Diseases, to Dr. James Wyngaarden, Director, NIH. This notice announces the availability of that June 19, 1985, memorandum, which is described below.

ADDRESS: The June 19, 1985, memorandum is available upon a request to the NIH Office of Recombinant DNA Activities (ORDA), Building 31, Room 3B10, National Institutes of Health, Bethesda, Maryland 20205.

FOR FURTHER INFORMATION CONTACT: Dr. William J. Gartland, ORDA, Building 31, Room 3B10, National Institutes of Health, Bethesda, Maryland 20205, (301) 496-6051.

SUPPLEMENTARY INFORMATION: The June 19, 1985, memorandum, mentioned above, analyzes the letters received using the following structure:

Analysis of Comments on January 21, 1985, EA-FONSI
- Comments Praising the EA-FONSI
- Comments Criticizing the EA-FONSI
- Additional Comments and Response to Comments on EA-FONSI

Analysis of Comments on Need for Programmatic EIS
- Comments Indicating a Programmatic EIS is Not Required
- Comment Indicating the Need for a Programmatic EIS "Is Unlikely to Be Resolved in the Near Future"
- Comment Indicating a Programmatic EIS is Required
- Response to Comments on Requirement for Programmatic EIS

Comments and Response to Comments on Adequacy of April 15, 1985, **Federal Register** Notice.

Based on the analysis of the comments, thirteen recommendations were made. On July 2, 1985, Dr. James Wyngaarden, Director, NIH, concurred with each of the thirteen recommendations. Among the recommendations are: Specific changes to be made in the January 21, 1985, EA-FONSI which provide further clarification of the safety of the proposed field test; a reaffirmation of the adequacy of the EA-FONSI; a reaffirmation of the Finding of No Significant Impact; and a finding that a programmatic Environmental Impact Statement is not needed at this time.

Three attachments to the June 19, 1985, memorandum are: a copy of the January 21, 1985, EA-FONSI; a copy of the April 15, 1985, **Federal Register** notice; and copies of the public comments received.

Dated: July 15, 1985.

James B. Wyngaarden, M.D.,

Director, National Institutes of Health.

BILLING CODE 4140-01-M

Social Security Administration

St. Lucia; Finding Regarding Foreign Social Insurance or Pension System

AGENCY: Social Security Administration, HHS.

ACTION: Notice of Finding Regarding Foreign Social Insurance or Pension System—St. Lucia.

Finding: Section 202(t)(1) of the Social Security Act (42 U.S.C. 402(t)(1)) prohibits payment of monthly benefits to any individual who is not a United States citizen or national for any month after he or she has been outside the United States for 6 consecuitve months. This prohibition does not apply to such an individual where one of the exceptions described in sections 202(t)(2) through 202(t)(5) of the Social Security Act (42 U.S.C. 402(t)(2) through (t)(5)) affects his or her case.

Section 202(t)(2) of the Social Security Act provides that, subject to certain residency requirements of section 202(t)(11), the prohibition against payment shall not apply to any individual who is a citizen of a country which the Secretary of Health and Human Services finds has in effect a social insurance or pension system which is of general application in such country and which:

(a) Pays periodic benefits, or the actuarial equivalent thereof, on account of old age, retirement, or death; and

(b) Permits individuals who are United States citizens but not citizens of that country and who qualify for such benefits to receive those benefits, or the actuarial equivalent thereof, while outside the foreign country regardless of the duration of the absence.

The Secretary of Health and Human Services has delegated the authority to make such a finding to the Commissioner of Social Security. The Commissioner has redelegated that authority to the Director of the International Policy Staff. Under that authority the Director of the International Policy Staff has approved a finding that St. Lucia, beginning August 4, 1984, has a social insurance system of general application which:

(a) Pays periodic benefits, or the actuarial equivalent thereof, on account of old age, retirement, or death; and

(b) Permits United States citizens who are not citizens of St. Lucia to receive such benefits, or their actuarial equivalent, at the full rate without qualification or restriction while outside St. Lucia.

Accordingly, it is hereby determined and found that St. Lucia has in effect, beginning August 4, 1984, a social insurance system which meets the requirements of section 202(t)(2) of the Social Security Act (42 U.S.C. 402(t)(2)).

This revises our previous finding (published March 12, 1982 at 47 FR 10911), that St. Lucia does not have in effect a social security insurance or pension system which meets the requirements of section 202(t)(2) of the Social Security Act.

FOR FURTHER INFORMATION CONTACT: Roy G. Hatch, Room 1104 West High Rise Building, 6401 Security Boulevard, Baltimore, Maryland 21235, (301) 594-6122.

Dated: July 16, 1985.

BILLING CODE 4310-JA-M

Minerals Management Service

Development Operations Coordination Document; Chevron U.S.A. Inc.

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the Receipt of a Proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Chevron U.S.A. Inc., has submitted a DOCD describing the activities it proposes to conduct on Lease OCS-G 1240, Block 51, South Timbalier Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Leeville, Louisiana.

DATE: The subject DOCD was deemed submitted on July 12, 1985.

ADDRESSES: A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Ms. Angie Gobert; Minerals Management Service; Gulf of Mexico OCS Region; Rules and Production; Plans, Platform and Pipeline Section; Exploration/Development Plans Unit; Phone (504) 838-0876.

SUPPLEMENTARY INFORMATION: The purpose of this Notice is to inform the public, pursuant to section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected states, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Dated: July 15, 1985.

John L. Rankin,

Regional Director, Gulf of Mexico OCS Region.

BILLING CODE 7035-01-M

[Docket No. AB-12 (Sub-93)]

Southern Pacific Transportation Company; Abandonment; in St. Martin Parish, LA; Findings

The Commission has issued a certificate authorizing Southern Pacific Transportation Company to abandon its 13.04-mile rail line between St. Martinville (milepost 5.66) and Breaux Bridge (milepost 18.70) in St. Martin Parish, LA. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that: (1) A financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and the applicant no later than 10 days from publication of this Notice. The following notation shall be typed in bold face on the lower left-hand corner of the envelope containing the offer: "Rail Section, AB-OFA". Any offer previously made must be remade within this 10-day period.

Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 and 49 CFR Part 1152.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Antitrust Division

United States v. American Airlines, Inc., et al.; Proposed Final Judgment and Competitive Impact Statement; Consent Decree

Notice is hereby given, pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C 16(b)-(h), that a proposed Final Judgment, Stipulation, and Competitive Impact Statement (CIS) have been filed with the United States District Court for the Northern District of Texas in *United States of America* v. *American Airlines, Inc., et al.*, CA 3-83-0325-D. The Complaint in this case alleged that defendants Robert L. Crandall and American Airlines attempted to monopolize the provision of airline passenger services for airline travelers beginning, ending, or connecting their trips at Dallas/Fort Worth International Airport (DFW) in violation consisted of an attempt by defendent American, acting through its president, defendent Crandall, to control prices on the affected DFW routes by asking the president of Braniff Airways to raise Braniff's prices and by assuring him that American's prices would be increased proportionately.

The proposed Final Judgment enjoins defendant American from discussing the pricing of airline passenger services with other airline carriers except when necessary to implement legitimate joint activites specified in the proposed Final Judgment.

The proposed Final Judgment also enjoins defendant Crandall from discussing the pricing of airline passenger services with the management employees of any other airline carrier.

Crandall is also required to consult with a company lawyer before communicating with officials of any other airline carrier, and to make notes of all such conversations as well as any discussions with American's vendors and creditors pertaining to other airlines' fares. These notes must be made available to the Department on request.

Public comment is invited within the staturory 60-day comment period. Such comments and responses thereto will be published in the **Federal Register** and filed with the Court. Comments should be directed to Elliott M. Seiden, Chief, Transportation Section, Antitrust Division, P.O. Box 481, Washington, D.C. 20530, (202) 724-6349.

Joseph H. Widmar,

Director of Operatiogs, Antitrust Division.

U.S. District Court for the Northern District of Texas—Dallas Division

[CA3-83-0325-D]

Filed: July 12, 1985.

United States of America, Plaintiff, v. *American Airlines, Inc., and Robert L. Crandall*, Defendants.

Stipulation and Proposed Final Judgment

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The parties consent that a Final Judgment in the attached form may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stripulation, this Stipulation shall be of no effect whatever, and the making of this Stipulation shall be without prejudice to any party in this or any other proceeding.

Dated:

For the Plaintiff: Charles F. Rule, *Acting Assistant Attorney General;* Joseph H. Widmar, *Director, Office of Operations;* Elliott M. Seiden, *Chief, Transportation Section;* James R. Weiss, *Assistant Chief, Transportation Section;*

For the Defendants: Robert E. Cooper, Gibson, Dunn & Crutcher, 333 South Grand Avenue, Los Angeles, CA 90071, *Counsel for American Airlines, Inc. and Robert L. Crandall;* Cecil E. Munn, Cantey, Hanger, Gooch, Munn, & Collins, 1600 First National Bank Building, Fort Worth, TX 76039; Joseph A. Tate, Schnader, Harrison, Segal & Lewis, 1600 Market Street, Philadelphia, PA 19103, *Counsel for Robert L. Crandall;* John L. Hauer, Akin, Gump, Strauss, Hauer & Feld, 4100 First City Center, 1700 Pacific Avenue, Dallas, TX 75201.

U.S. District Court for the Northern District of Texas—Dallas Division

[Civil Action No. CA 3-83-0325-D]

Filed: July 12, 1985.

United States of America, Plaintiff, v. *American Airlines, Inc., and Robert L. Crandall*, Defendants.

Final Judgment

Plaintiff, United States of America, having filed its Complaint in this action on February 23, 1983, and plaintiff and defendants, by their respective attorneys, having consented to the entry of this Final Judgment without trial or adjudication of any issue of fact herein, and without this Final Judgment constituting any evidence against or an admission by any party with respect to any such issue;

Now, therefore, before the taking of any testimony and without trial or adjudication of any issue of fact herein and upon consent of the parties hereto, it is hereby,

Ordered, adjudged, and decreed as follows:

I

This Court has jurisdiction of the subject matter of this action and of each of the parties consenting thereto. The Complaint states a claim upon which relief may be granted against each defendant under section 2 of the Sherman Act, 15 U.S.C. 2.

II

As used herein, the term:

(A) "Communication" means a statement, comment, question, or answer, that may take place in person, in writing, or over the telephone;

(B) "Scheduled communication" means a communication that has been previously arranged for a particular time or place;

(C) "Group discussion" means a communication in which at least three (3) people are participating;

(D) "Management employee" means any employee whose corporate title is "chief executive officer," "chief operating officer," "president," "senior vice president," "vice president," "assistant vice president," or any employee whose duties are functionally equivalent to an employee with one of these titles, and any other employee who has a decision-making role, whether or not other persons must also play a role in order for a final decision to be reached, in the process by which a scheduled airline passenger carrier sets, determines, modifies, or cancels a fare for the provision of scheduled airline passenger service;

(E) "Scheduled airline passenger carrier" means a firm or business that provides scheduled airline passenger service;

(F) "Scheduled airline passenger service" means the provision, at regular times and over regular routes, of air transportation to individuals traveling between an origin city and a destination city; and

(G) "City-pair" means the set of two cities consisting of the origin city and the destination city between which scheduled airline passenger service is provided.

III

This Final Judgment applies to each defendant. Regarding defendant American Airlines, Inc. (hereinafter "American"), this Final Judgment also applies to its Board of Directors, officers, employees, agents, subsidiaries, successors and assigns. This Final Judgment also applies to all other persons in active concert or participation with either of the defendants and who shall have received actual notice of this Final Judgment by personal service or otherwise.

IV

Defendant American shall required, as a condition of the sale or other disposition of all, or substantially all, of the assets used by it in the provision of scheduled airline passenger service, that the acquiring party agree to be bound by the provisions of this Final Judgment, and that such agreement be filed with this Court.

V

Defendant American shall provide written notice to the plaintiff no later than thirty (30) days before the effective date of any action whereby defendant American: (1) Changes its name; (2) liquidates or otherwise ceases operation; (3) is acquired by or becomes a subsidiary of another firm. Defendant American also shall provide written notice to plaintiff no later than fifteen (15) days after it declares bankruptcy or

VOL 50 ISS 141 JUL 23 1985 UMI

estimates or acquires a subsidiary whose business activities are among those covered by this Final Judgment.

VI

Defendant Robert L. Crandall shall provide written notice to the plaintiff no later than thirty (30) days after the effective date of any action whereby defendant Crandall accepts or assumes employment in any position with any firm, other than American, that provides scheduled airline passenger service.

VII

Defendant American is enjoined and restrained for a period of five years from discussing, referring to, or mentioning fares or fare structures of any scheduled airline passenger carrier, including American, in a communication with any scheduled airline passenger carrier other than American, except under the following conditions, exceptions, or circumstances:

(A) When necessary to establish, implement, or modify a joint fare with another scheduled airline passenger carrier;

(B) When necessary to establish, implement, or modify a fare for air transportation between the United States and a foreign country, between foreign countries, or within a foreign country, under the auspices of the International Air Transport Association ("IATA");

(C) When necessary to establish, implement, or modify participation by a scheduled airline passenger carrier in American's Advantage frequent flyer program, or by American in another carrier's frequent flyer program;

(D) When necessary to maintain the intergity of the data base of American's SABRE computerized reservations system or to mainain the integrity of American's information contined in the data base of a computerized reservations system used by a scheduled airline passenger carrier other than American;

(E) When necessary, in the event of a cancelled flight, oversale, or other operational emergency, to arrange for transportation of American's passengers on another carrier, or another carrier's passengers on American;

(F) When necessary to develop tour, convention, special event or other group travel arrangements, as long as the discussion is limited to fares for airline passenger services on routes not served by American and the discussion is otherwise consistent with applicable federal and state laws; or

(G) After American has received an explicit written assurance from the Assistant Attorney General in charge of the Antitrust Division of the U.S. Department of Justice that the Antitrust Division has no present intention to prosecute the specific discussions and conduct in which American proposes to engage.

VIII

Defendant American shall:

(A) Inform its employees about the substance of this Final Judgment no later than thirty (30) days following its entry;

(B) Provide the members of its Board of Directors, its management employees and its other employees with responsibilities affected by this decree with a copy of this Final Judgment, a written explanation of its terms and conditions, and written directions to abide by its terms and conditions, no later than thirty (30) days following entry of this Final Judgment or following appointment or employment; and

(C) Submit an affidavit to the Assistant Attorney General in charge of the Antitrust Division setting forth the fact and manner of compliance with section VIII(B) no later than sixty (60) days following the entry of this Final Judgment and annually thereafter for the five years duration of this Final Judgment.

IX

In addition to the provisions of section VII hereof, defendant Robert L. Crandall is enjoined and restrained for a period of two years from directly or indirectly discussing, referring to or mentioning fares or fare structures of any scheduled airline passenger carrier, including American, in a communication with a member of the Board of Directors or management employee of any scheduled airline passenger carrier other than American.

X

Prior to any scheduled communication relating to any aspect of the airline industry between defendant Robert L. Crandall and a member of the Board of Directors or management employee of a scheduled airline passenger carrier other than American, defendant Robert L. Crandall shall, for a period of two years, review with an attorney from the Office of the General Counsel of American the subject matter of the proposed communication and the advisability of having counsel present during the communication.

XI

Defendant Robert L. Crandall shall, for a period of two years, maintain written notes of all communications relating to any aspect of the airline industry that he has with any member of the Board of Directors or management employee of any scheduled airline passenger carrier other than American, in accordance with the following terms, conditions, and exceptions:

(A) Each communication governed by this section XI shall be reflected in a separate note;

(B) Each note must be made as contemporaneously as reasonably practicable to the communication that it describes, but in no event later than 48 hours following each communication;

(C) Each note must contain, at a minimum, the following information:

(1) The names, known airline affiliations, and known positions or title of all persons participating in or present during the communication;

(2) The date, location, time and approximate duration of the communication;

(3) The form of the communication, *e.g.*, in person, in writing, by telephone; and

(4) A description of all subject matters relating to the airline industry or to the business of any scheduled airline passenger carrier that were discussed, referred to, or mentioned during the communication;

(D) If during any communication governed by this section XI, fares or fare structures were discussed by anyone participating in the communication, then the note for that communication must set forth a detailed description of the substance of that aspect of the communication and must also indicate which participants made which comments;

(E) With respect to any communication regarding any aspect of the airline industry made or heard by defendant Robert L. Crandall at a speech or presentation, or group discussion immediately before or after such a speech or presentation, at which a member of the Board of Directors or management employee of any scheduled airline passenger carrier other than American is present who is known by Robert L. Crandall at the time of the communication to hold such a position, the requirements of paragraphs (C) and (D) of this section XI shall not apply and instead the following terms, conditions, and exceptions shall apply:

(1) Each such note must contain, at a minimum, the following information:

(a) The date, location, time and approximate duration of the speech or presentation;

(b) A brief description of the subject matter, or subject matters, of the speech or presentation; and

(c) The entity or organization that provided the forum or sponsored the speech or presentation;

(2) Notwithstanding anything contained in this paragraph (E) of this section XI, any communication (other than a speech or presentation) between defendant Robert L. Crandall and any president, chief executive officer, or chief operating officer of any scheduled airline passenger carrier other than American that is otherwise governed by any part of this section XI must be reported in full compliance with the provisions of paragraphs (C) and (D), if the position of that officer is known to defendant Robert L. Crandall at the time of the communication;

(F) With respect to any communication regarding any aspect of the airline industry made or heard by defendant Robert L. Crandall during a meeting of the Air Transport Association, the requirements of this Section XI shall not apply only if counsel for the Association is present and minutes of the meeting are kept.

(G) Defendant Robert L. Crandall shall review each note with an attorney from the Office of the General Counsel of American as soon as reasonably practicable following each communication, but in any event no later than one (1) week following each communication;

(H) The notes shall be maintained by defendant Robert L. Crandall in his office at the corporate headquarters of American;

(I) Defendant Robert L. Crandall shall permit the Department of Justice to inspect the notes upon reasonable notice, and when the Department so requests, shall make the notes available for inspection by the Department at a mutually convenient location in Washington, D.C.; and

(J) Defendant Robert L. Crandall shall submit an affidavit to the Assistant Attorney General in charge of the Antitrust Division every three (3) months attesting to the fact that he has complied with the terms of this Final Judgment, that the notes requried by this section XI are accurate and complete, and that he has reviewed each note with counsel for American.

XII

For a period of two years, whenever defendant Robert L. Crandall has any communication with representatives of any of American's vendors, suppliers, creditors or lenders during which there is any discussion, reference, or mention of the fares or fare structures of any scheduled airline passenger carrier other than American, then Robert L. Crandall must indicate the facts surrounding that communication in the notes described in section XI above, and in accordance with the requirements set forth in subsections (A) through (D) of that section.

XIII

Defendants American and Robert L. Crandall are enjoined and restrained from soliciting, requesting, or authorizing any person to engage in conduct that, if done by defendants, would violate any provision of this Final Judgment.

XIV

If defendant Robert L. Crandall leaves the employment of American and later assumes employment with another scheduled airline passenger carrier, the obligations of defendant Crandall specified in sections IX, X, XI, and XII of this Final Judgment will remain obligations that he must meet subject to the modification that, regarding defendant Crandall only, all instances of the name "American" contained in this Final Judgment will be changed to the name of the new scheduled airline passenger carrier with which defendant Crandall assumes employment. Defendant American will continue to be bound by all applicable provisions of this Final Judgment.

XV

For the purpose of determining or securing compliance with this Final Judgment, and subject to any legally recognized privilege, from time to time:

(A) Duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to a defendant made to its principal office, be permitted:

(1) Access during office hours of such defendant to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of such defendant, who may have counsel present, relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, employees and agents of such defendant, who may have counsel present, regarding any such matters;

(B) Upon the written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division made to a defendant's principal office, such defendant shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may be requested;

(C) No information or documents obtained by the means provided in this section XV shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law; and

(D) If at the time information or documents are furnished by a defendant to the plaintiff, such defendant represents and identifies in writing the material in any such information or documents to which a claim of protection may be asserted under Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant marks each pertinent page of such material, "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then ten (10) days notice shall be given by the plaintiff to such defendant prior to divulging such material in any legal proceeding (other than a grand jury proceeding) to which that defendant is not a party.

XVI

The Final Judgment will expire on the fifth (5th) anniversary of its date of entry or, with respect to any particular provision, on any earlier date specified.

XVII

Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions hereof, for the enforcement of compliance herewith, and for the punishment of any violation hereof.

XVIII

Entry of this Final Judgment is in the public interest. Entered on this —— day of ———, 1985.

United States District Judge.

U.S. District Court for the Northern District of Texas—Dallas Division

[CA3–83–0325–D]

Filed: July 12, 1985.

United States of America, plaintiff, v. *American Airlines, Inc., and Robert L. Crandall*, defendants.

VOL 50 ISS 141 JL 23 1985 UMI

Competitive Impact Statement

Pursuant to section 2(b) of the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h), the United States files this Competitive Impact Statement relating to the proposed Final Judgment submitted for entry in this civil antitrust proceeding.

I

Nature and Purpose of the Proceeding

On February 23, 1983, the United States filed a civil antitrust Complaint in the United States District Court for the Northern District of Texas under section 4 of the Sherman Act (15 U.S.C. 4) to enjoin defendants, American Airlines, Inc. and Robert L. Crandall from continuing or renewing violations of § 2 of the Sherman Act as amended (15 U.S.C. 2).

The defendant American Airlines, Inc. (hereinafter "American") is a wholly-owned subsidiary of AMR Corporation and is in the principal business of providing scheduled airline passenger and freight services. American's principal business office is located in Fort Worth, Texas. The defendant Robert L. Crandall at the time of the Complaint was president of American. Defendant Crandall is currently Chairman of American's Board of Directors and is American's chief executive. His office is located at American's headquarters in Fort Worth.

The Complaint alleges that on or about February 1, 1982, the defendants, American and Robert L. Crandall, unlawfully attempted joint and collusive monopolization between American and Braniff Airways, Inc. (hereinafter "Braniff") of scheduled airline passenger service in a number of the city pairs served by both carriers at the Dallas-Fort Worth Internation Airport (DFW). The Complaint alleges that the unlawful attempt to monopolize consisted of an attempt by defendant Robert L. Crandall, acting in his capacity as the president of American, to cause Howard Putnam, who at the time of the Complaint was president and chief executive officer of Braniff, to raise the prices charged by Braniff by means of a direct oral request to Mr. Putnam that Braniff do so cupoled with Mr. Crandall's assurance that American would follow.

The instant case was filed to achieve the following purposes: (1) To terminate defendants' unlawful attempts to monopolize airline passenger services, and (2) to prevent any further attempt at monopolization of airline passenger services. Consistent with these objectives, the Complaint sought a judgment by the Court that the defendants had attempted to monopolize trade and commerce in violation of § 2 of the Sherman Act. The Complaint sought an order to enjoin defendant American from discussing or communicating with any other company that provides scheduled airline passenger service any matter related to the pricing of such service and to enjoin defendant Robert L. Crandall for a period of two years from serving as president, chief executive officer or in any other position having pricing responsibility or authority with any company providing scheduled airline passenger service. Similarly, the Complaint sought an order enjoining American for a period of two years from employing Robert L. Crandall as the president, chief executive officer or in any other position having pricing responsibility.

II

Description of Practices Giving Rise to the Alleged Violations

The following describes the practices or events giving rise to the alleged violation of the Sherman Act. This description is made in sufficient detail to permit understanding of the relief provided in the proposed Final Judgment. At the same time, this description refrains from revealing matters that occurred before a grand jury that investigated possible violations of the Sherman Act in the provision of airline passenger services in the Dallas-Fort Worth area. Disclosure of such matters without a showing of particularized need would violate Rule 6(e) of the Federal Rules of Criminal Procedure.

A. Trade and Commerce

The trade and commerce alleged in the Complaint as the subject of defendants' attempt to monopolize is the provision at regular times and over regular routes of air transportation to individuals traveling between an origin city and a destination city when that travel involved DFW as the traveler's beginning, ending or connecting point on a city-pair route. The city pair means the origin city and the destination city between which scheduled airline passenger service is provided.

In February of 1982, American and Braniff were engaged in the provision of scheduled airline passenger service in competition with one another in numerous city pairs. In 1981 and 1982, American and Braniff served many of the same city pairs to and from DFW on a nonstop basis. In addition, both served many of the same city pairs for which a connection at DFW was necessary.

DFW is one of the largest airports in the United States. By February of 1982, both American and Braniff had established and maintained extensive hubbing operations centered at DFW. Many major airline passenger carriers structure the supply of their services around airports in network configurations or complexes called hubs. The term derives from the fact that routes of an airline maintaining a hub operation resemble the hub and spokes of a wheel with the airport, such as DFW, as the hub and the routes to other cities radiating outward like spokes. By hubbing the carrier can gather passengers from many points and concentrate them at the hub location at a number of times during the day. The carrier can then arrange connections for those passengers to many other locations. Thus, hubbing allows a carrier to serve many city pairs that might not independently support nonstop service, e.g., from a small city in Texas to New York City.

In 1981 and early 1982, the hubs of both Braniff and American at DFW consisted of "feeder" routes and "trunk" routes. Many of the feeder routes originated at cities in Texas, Oklahoma or Louisiana. Many of Braniff's and American's passengers then connected at DFW to the respective carrier's "trunk" routes en route to cities generally located a further distance from DFW. Generally, "feeder" routes are shorter haul, thin routes, with few passengers destined to or coming from any one city. By offering connections at the hub airport to many destinations at approximately the same time, hubbing carriers can carry on one "feeder" flight many passengers with different destinations. Thus, these routes provide feed traffic to long haul "trunk" routes and vice versa.

This feed traffic permitted American and Braniff to offer more long haul destinations and to operate their long haul trunk routes with more passengers per flight than either carrier could have by providing only service originating or terminating at DFW without the benefit of feed traffic. For another carrier to have entered the DFW nonstop and connecting city-pair markets and compete successfully with either American or Braniff, entry would have been required on a number of routes to replicate the feed advantages available to Braniff and American because of their DFW hub systems.

The extent to which an entering or expanding carrier needed a similar hubbing operation to compete effectively with Braniff and American magnified the effect of other entry barriers at DFW. For example, at the time of the alleged attempt to monopolize and continuing until at least September 1983, air traffic control capacity at many airports was limited as a result of the August 3, 1981 strike by the Professional Air Traffic Controllers Organization. The Federal Aviation Administration (FAA), through a series of regulations known generally as Special Federal Aviation Regulations (SFARs) No. 44. *et seq.*, formalized the imposition of restrictions on the number of allowable carrier landings per hour, i.e., slots, at approximately 22 of the nation's larger airports, including DFW. The Complaint alleges that the limited availability of slots acted as a significant barrier to entry for any carrier seeking to enter or expand service in any significant number of city pairs where the origin, destination or connecting airport is slot-constrained. In particular, the Complaint alleges the slot-constraints at DFW prevented any carrier from adding or expanding service at DFW by more than several city pairs or frequencies, making it difficult for the other carrier to capture the efficiencies afforded American and Braniff by their DFW hubs.

There were potentially other barriers to a carrier's successful entry or expansion at DFW. The unavailability of gate or terminal space may act as an entry barrier. This is particularly so when the entering carrier needs enough gate space to develop its own feed traffic to compete successfully with the airport's hub carriers. At the time of the conduct alleged in the Complaint, all constructed terminal and gate space at DFW was in use. While DFW had space for addtional construction, there is significant lagtime between the approval of construction and utilization of a gate facility.

Another potential entry barrier at DFW related to American's SABRE system. American developed a computer reservations system called SABRE in the late 1970's. SABRE is in use in approximately 90 percent of the travel agencies in the Dallas-Fort Worth area and about 40 percent of the nation's travel agencies. At the time of the conduct alleged in the complaint, SABRE's display of carriers' flights for sale by the travel agent was biased in favor of the host American and to a lesser extent for cohosts. Braniff was a cohost. Entering and expanding carriers needed access to SABRE and visibility on SABRE to compete effectively in city pairs with DFW as one point on the flight. SABRE thus acted as an impediment to a carrier entering or expanding at DFW if the carrier could not acquire sufficient visibility on the SABRE system.

B. The Alleged Conduct

The Complaint alleges that on or about February 1, 1982, the defendants, acting through American's chief executive officer, Robert L. Crandall, with specific intent, unlawfully attempted to join in collusive monopolization with Braniff of scheduled airline passenger service in a number of the city pairs served by the DFW hub. Defendants effectuated this attempt to monopolize during a telephone conversation with Braniff's Chief Executive Officer, Howard Putnam, during which conservation, defendant Crandall proposed that both carriers raise their fares by 20%.

In the fall of 1981, Braniff, faced with continuing heavy losses, attempted to create a market niche for itself by becoming a low fare carrier. Accordingly, in November 1981 Braniff lowered its fares significantly. American matched Braniff's fares to prevent losing great numbers of passengers to Braniff. According to the company's own reports, by matching Braniff's low fares, American lost approximately $12 million per month in December 1981 and January 1982. In that context, defendant Crandall, the Complaint alleges, told his rival at Braniff that both carriers could exist at DFW and "there ain't no room for Delta." He also reminded Braniff's president that Eastern and Delta co-existed in Atlanta for many years. Then defendant Crandall suggested that his rival raise fares by 20% and assured Putnam that American would follow and raise its prices. Putnam refused defendant Crandall's offer.

The Complaint alleges that defendant Crandall's conversation with his rival illustrates his specific intent to control the pricing of airline passenger services in DFW city-pair markets and that, had Braniff's chief executive accepted the offer, there would have been an immediate creation of market power, i.e., the power to control prices by American and Braniff in numerous city-pair routes involving DFW.

Because American and Braniff had dominant market shares and over a ninety percent share on many city-pair routes involving DFW and because entry was difficult due to American's and Braniff's hubs coupled with DFW slot-constraints, scarce DFW gate facilities, and SABRE bias, any price-fixing agreement between Braniff and American would have created sustainable market power without threat of entry by carriers offering lower fares on any significant number of city pairs.

C. Market Changes Since the Complaint Was Filed

Since the filing of the Complaint in February 1983, the market structure for travelers enplaning, deplaning or stopping at DFW has changed. Braniff has substantially reduced its service and presence at DFW. On May 13, 1982, Braniff filed for protection from creditors under Chapter 11 of the Bankruptcy Code. A reorganized Braniff began services to nineteen destinations from DFW in March 1984. Late in 1984, however, Braniff dropped service to ten of those destinations.

On the other hand, Amercian has substantially increased its presence at DFW following Braniff's bankruptcy in May 1982. In February 1982, American's share of enplanements at DFW was approximately 46 percent, followed by Braniff with 30 percent and Delta with 14 percent of DFW enplanements. Data for the first quarter of 1985 show that American accounted for 59 percent of all DFW enplanements during the period compared with Delta's 21.8 percent and Braniff's four percent of DFW enplanements.

American continues to enlarge its DFW hub and spoke operations, enabling it to serve more routes and to offer greater frequencies than competitors lacking such an extensive hub. Currently, American flies to approximately 85 cities nonstop from DFW with about 300 departures per day during peak seasons while its most significant DFW challenger, Delta, flies to only about 40 cities with about 125 departures per day. Additionally, the American Eagle program, in which American provides connecting service with local commuter carriers, has increased American's feed potential at DFW.

Formalized FAA slot-constraints are no longer an entry barrier at DFW. In the fall of 1983, the FAA removed DFW from the list of slot-constrained airports. This does not mean, however, that air traffic control capacity at DFW is necessarily sufficient to accommodate unlimited entry during the most popular landing times.

The Civil Aeronautics Board recently enacted industry-wide rules to eliminate bias in computer reservations systems, including American's SABRE. The rules went into effect in November 1984 and are overseen by the Department of Transportation. The Antitrust Division will continue to monitor the rules' ability to restore airline competition displaced by biased computer reservations systems. It is too soon after the rules' implementation, however, to determine

VOL 50 ISS 141 JL 23 1985 UMI

the extent to which SABRE continues to be an impediment to entry in airline passenger services at DFW.

As noted above, the unavailability of airport gate and terminal space to accommodate expanding or entering carriers can be a barrier to entry in much the same way that slot-constraints are; that is, it may be difficult to obtain sufficient space at an airport to develop a hub operation that can challenge the airport's major hub carriers who possess the advantages of feed traffic. In 1982, at the time of the conduct alleged in the Complaint, American held slightly more than one-third of the total DFW gate space. American has since constructed additional DFW gates and, at the end of 1984, American acquired nine additional DFW gates from Braniff. American now controls nearly one-half of the total gates available at DFW.

D. Defendants

The Complaint names two defendants, American Airlines, Inc., a wholly-owned subsidiary of AMR, Inc., organized and existing under the laws of the state of Delaware and Robert L. Crandall, American's current Chairman of its Board of Directors. Both American's and Crandall's principal business office is at 4200 American Boulevard, Fort Worth, Texas.

III

Explonation of the Proposed Judgment

The United States and the defendants have stipulated that the Court may enter the proposed Final Judgment after compliance with the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)–(h). The proposed Final Judgment provides that the entry of the Final Judgment does not constitute any evidence against or an admission by any party with respect to any issue of fact under the provisions of section (e) of the Antitrust Procedures and Penalties Act. The proposed Final Judgment may not be entered until the Court determines that entry is in the public interest.

A. Prohibited Conduct

1. *Overview.* The proposed Final Judgment addresses the dangerous probability of joint monopolization presented by the conduct allegedly engaged in by defendants and the subject of this Complaint. There is a dangerous probability that an attempt jointly to monopolize air transportation might be successful when airline executives meet or otherwise engage in communications about fares or fare structures in the airline industry and when the carriers together would have substantial market power in one or a number of city pairs. In those situations the continuation of competition in air transportation may be dependent upon one executive's refusal to a suggestion made by another carrier's executive. The Final Judgment, therefore, focuses on the discussions which defendants engage in with executives of other airline carriers.

2. *Specific Sections of the Proposed Final Judgment.*—a. *Section VII.* Section VII prohibits American from discussing the pricing of airline services with other scheduled airline passenger carriers except in particular situations specified in the Final Judgment. The exceptions are designed for those occasions when, as part of its legitimate airline business, American must discuss fares with employees of other airline carriers and the discussions are unlikely to have anticompetitive potential.

The proposed Final Judgment sets forth with particularity those situations where discussions about fares between American and other airline carrier representatives may take place. They are as follows: First, fare discussions are allowed when required to implement joint fares with other carriers. Joint fares are fares for interline connecting service where the separate segments of a city pair are provided by different carriers. Joint fares allow two carriers to provide one fare and ticket for the passenger who desires or needs to take one carrier to a connecting point and switch to another carrier before reaching the final destination. By developing joint fares, carriers can offer additional service that may compete with nonstop and online connecting service. Joint fares, thus, may enhance consumer welfare. At the same time, discussions on joint fares are unlikely to be anticompetitive because they do not require discussing fares for competitive service on any one city pair.

Second, American is allowed to discuss fares with other carriers when the discussion is necessary to implement fares in foreign air transportation. Discussions about foreign fares are allowed by statute and also by this Final Judgment if the discussions are in accord with procedures established by the United States Department of Transportation, pursuant to 49 U.S.C. 412 and 414.

Third, American is allowed to discuss fares with other carriers to the extent such discussion is necessary to implement another scheduled airline passenger carrier's participation in American's frequent flyer program or American's participation in another carrier's frequent flyer program. Such discussions may be necessary to determine the percentage of a bonus fare that will be repaid to the host carrier for participation in that carrier's frequent flyer program. Such discussions are unlikely to lead to competitive problems because the discussion must be limited to that which is necessary to implement participation in the frequent flyer programs.

Fourth, section VII(D) provides an exception for those occasions when it may be necessary for American to relay and receive correct fare information from other carriers for purposes of maintaining the integrity of the airlines' computer reservations systems.[1] There may be situations when, for example, one carrier's submission of data for display on the system is unclear and the carriers must discuss the discrepancy to assure a correct listing. Therefore, an exception to the prohibited conduct is made for those discussions which are necessary for the accuracy of the data base systems.

Fifth, section VII(E) provides that the general injunction against discussing fares will not apply on those rare occasions when a carrier must cancel a flight due to an operational emergency and must arrange for the transportation of its ticketed passengers on another carrier. These inter-airline discussions about fares are permitted when necessary to determine the fares at which the other carrier's passengers will be carried.

Sixth, section VII(F) allows American to discuss with other airlines special, one-time discounted fare packages for convention, tour or special event proposals if American and the other carrier are not discussing fares for city pair service both carriers provide. Such special event fare discounting is likely to benefit consumers.

Finally, section VII(G) provides that if other situations arise when American must discuss fares or fare structures with other airline carriers, American may notify the Antitrust Division and request a written assurance from the Assistant Attorney General in charge of the Antitrust Division that the Division would not prosecute the specific discussions and conduct at issue. If it appears that the benefits of the proposed conduct would more likely outweigh consumer welfare losses, and American, accordingly, has received written approval from the Antitrust Division, the prospoed discussions may take place.

[1] Most airlines list flights and fares of other carriers in their own internal reservations systems and airline vendors of computer reservations systems, such as American, include the flights and fares of most other carriers in the systems they sell to travel agents.

b. *Section IX.* Section IX prohibits defendant Crandall from directly or indirectly discussing, referring to, or mentioning airline fares or fare structures with board members or management employees of other scheduled airline passenger carriers. Defendant Crandall is strictly enjoined from such discussions and may not participate as can other American employees in discussions permitted specifically by the exceptions in Section VII(A)–(F).

The term management employee, as defined by the Judgment, includes the officers of the company at the level of chief executive or chief operating officer, president, senior vice president, vice president, and assistant vice president. Management employee, as defined in the proposed Judgment, also includes all employees who have a decision-making role in pricing the airline's services. *See* Section II, Definitions.[2]

Section IX seeks to eliminate the opportunity for defendant Crandall to attempt to monopolize jointly or to monopolize jointly with any other scheduled airline passenger carrier by obtaining joint control airline prices.

c. *Section X.* Section X requires defendant Crandall to discuss with an American Airline's attorney the subject matter of any proposed communication about the airline industry that Crandall has scheduled with a management employee of another airline carrier. This provision is designed to assure that in those circumstances with a high potential for anticompetitive discussions or communications violative of this proposed Final Judgment, Crandall will have previously spoken with counsel and may have counsel present during the communication.

d. *Section XI.* Section XI requires Crandall to maintain for two years a written record of all his communications with other airline industry executives. These written notes must contain a separate entry for each such communication and the identification of the communicant. Moreover, the written record must indicate the date, location and time of the communication, the form of the communication and must contain a brief description of the subject matters relating to the airline industry that were discussed. In addition, if ther is a discussion about airline fares of fare structures, Crandall's written notes must contain a detailed description of that part of the conversation and must indicate which participants made which comments. The record must be made within 48 hours following the communication and must be reviewed with an attorney from American no later than one week following the communication. Furthermore, defendant Crandall must submit an affidavit to the Assistant Attorney General in charge of the Antitrust Division every three months attesting that he has complied with the terms of the judgment and that his written record is accurate and complete.

There may be occasions when Crandall must attend an industry speech or presentation or is involved in group discussions before or after the speech when matters relating to the airline industry are discussed and when it would be extremely difficult to follow the reporting requirements of section XI(A)–(D). In those situations, section XI(E) provides that Crandall need only record the date, location, time and duration of the speech, a brief description of the subject matter of the speech or presentation, and the entity or organization that provided the forum for the speech or presentation. Even at a speech or presentation, however, section XI provides that if defendant Crandall has a conversation with a president or chief executive officer of another airline carrier, the conversation must be separately recorded as required by section XI(A)–(D).

Section XI is designed to discourage conversations with other airline executives that may have a high potential for anticompetitive results. This section is not designed to prevent defendant Crandall from communicating with other airline executives on matters related to the airline industry when those conversations are unlikely to have anticompetitive potential. Section XI is also designed to allow the Department of Justice to review defendant Crandall's communications with other airline executives to deter anticompetitive communications and to take appropriate action, if necessary, to eliminate any anticompetitive effects in their incipiency.

e. *Section XII.* Section XII requires defendant Crandall to include in his written record of communications with other airline exectives a written record of his communication with American's vendors or suppliers, creditors or lenders if there has been any discussion with those parties about the fares or fare structures of any other scheduled airline passenger carrier. This section is designed to discourage discussions about the fares of competitors with supplies and lenders used by both American and the competitor. That is, section XII seeks to deter defendant Crandall from attempting to control prices jointly with other carriers indirectly through discussions with vendors or lenders of both carriers. The provision seeks to prevent, for example, a situation where Crandal could suggest to one of American's lenders that the competitive, low fares of another carrier were preventing American from business success, and that it would be, therefore, in the supplier's or lender's interest to encourage the other carriers to raise prices. To deter such anticompetitive discussions, this provision requires that should Crandall participate in any of these discussions, written notes must be made. Section XII also seeks to provide the Antitrust Division with information to eliminate the anticompetitive effects of such discussions in their incipiency.

g. *Section XIII.* Section XIII enjoins American and Robert Crandall from soliciting, requesting, or authorizing other persons to engage in conduct that, if done by defendants, would violate any provision of this judgment. This section is designed to prevent defendants American and Robert Crandall from indirectly engaging in conduct that they are prohibited from doing directly.

h. *Section XIV.* Section XIV provides that those sections of the proposed Final Judgment that apply solely to Crandall stay with defendant Crandall should be later assume employment with another airline carrier during the two-year duration of those terms of the decree. Thus, the obligations of defendant Crandall specified in sections IX, X, XI, and XII of the Final Judgment will remain his obligations with the modification that those aspects of his obligations relating to his employer will be his new employer instead of American. Even if defendant Crandall leaves the employ of American, defendant American will continue to be bound by all applicable provisions of the Final Judgment.

3. *Affirmative Obligations.* Sections IV, V, VIII, and XV of the proposed Final Judgment impose a number of affirmative obligations upon the defendants. Section IV requires American, as a condition of the sale or other disposition of all, or substantially

[2] The injunction in section IX and the requirements set forth in Sections X and XI relating to defendant Crandall's communications with employees of other airline carriers are limited to the other carrier.s management employees rather than all employees. This limitation is not intended to condone conversations about prices between defendant Crandall and lower-level employees of other airlines. Rather, the limitation acknowledges that airline carriers are corporations with many employees whose responsibilities are unrelated to the setting of airline prices and that only those employees with management responsibilities could actually implement anticompetitive proposals.

VOL 50 ISS 141 JL 23 1985 UMI

all of its airline passenger services assets, that the acquiring party agree to be bound by the provisions of this proposed Final Judgment and that the agreement be filed with the Court. Section IV seeks to assure that the terms of the proposed Final Judgment will not be circumvented by sale of the company.

Section V requires that defendant American provide written notice to the Antitrust Division no later than thirty (30) days before American changes its name, liquidates or ceases operations, or becomes acquired by or becomes a subsidiary of another firm. American must also give the Antitrust Division notice within fifteen (15) days after it declares bankruptcy, or establishes or acquires subsidiary whose business activities are among those covered by the Judgment. The purpose of this section is to ensure that the plaintiff will have notice of any such transactions so that the government can take appropriate action to protect its interests in securing compliance with this Judgment.

Section VIII requires defendant American to inform its employees about the substance of the Final Judgment, within 30 days of its entry. Section VIII additionally requires defendant American to furnish a copy of the Judgment within 30 days of its entry to American's Board of Directors, its management employees as defined in the Judgment and other employees with responsibilities affected by the decree and to provide them a written explanation of the Judgment's terms and conditions and instructions to abide by its terms and conditions. New board members, management employees and other employees affected by the decree must be given a copy of the Final Judgment and a written explanation and instructions concerning the decree. Section VIII also requires defendant American to submit an affidavit to the Antitrust Division attesting that it has initially complied with Section VIII and in what manner it has complied. Defendant American must annually thereafter attest that it has complied with section VIII with respect to new board members and employees.

Section XV places an obligation on American to cooperate with the plaintiff's efforts to monitor compliance with the proposed Judgment. Defendant American must permit duly authorized representatives of the Department of Justice access to inspect and copy documents at its principal office.

Under section XV(B), defendant American must provide written reports, under oath, if requested, with respect to compliance matters. Section XV(A)(2) requires that American permit the Department of Justice to interview its officers, employees, and agents regarding subjects covered by the Judgment.

4. *Obligations of the United States.*—a. *Section XV(C).* Under Section XV(C) the Department of Justice is barred from divulging information obtained under section XV to anyone except a duly authorized representative of the Executive Branch of the United States government. Such disclosure is not barred, however, in any legal proceedings to which the plaintiff is a party or for the purpose of securing compliance with the Final Judgment or as otherwise provided by law.

b. *Section XV(D).* Under section XV(D) each defendant may assert a claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure when such defendant provides to the Justice Department information or documents required under the compliance provisions of the Final Judgment. If any defendant asserts such a claim, the plaintiff will provide the defendant with 10 days notice prior to disclosing such material.

B. Scope of the Proposed Judgment

1. *Duration of the Judgment—Section XVI.* Except as otherwise provided, the proposed Final Judgment will remain in effect for a period of five (5) years from the date of entry. Time durations of less than the five year period, i.e., a two year period, are provided for in those provisions specifically addressed to defendant Crandall. This is because the Complaint sought injunctive provisions of only two-years duration for defendant Crandall and because affirmative obligations are imposed on Crandall which require him to keep a written record of certain of his communications. The specific provisions that have time limitations of two years are the following: Sections IX, X, XI, and XII.

2. *Persons Bound by the Judgment—Section III.* Section III of the proposed Final Judgment provides that its terms shall apply to the defendants and to American's subsidiaries, sucessors, assigns, officers, directors, employees, and agents, and to all other persons in active concert or participation with either of the defendants and who received actual notice of this Final Judgment by personal service or otherwise.

3. *Effect of the Proposed Judgment on Competition.* The proposed Judgment is intended to prevent the defendants from continuing any attempts jointly to monopolize or jointly monopolizing airline passenger service with other airline carriers on any one city pair or collection of city pairs. The Judgment is intended to ensure that defendants will comply with the provisions of the antitrust laws. The proposed Judgment seeks to ensure that opportunities for attempts at joint monopolization of the type alleged in the Complaint be eliminated. That is, the proposed Judgment seeks to ensure that opportunities for competition in the provision of airline passenger services not be hindered because of communications about fares between defendants and other carriers. The affirmative obligations of the decree are designed to assure that American's management is aware of the obligations under the decree in order to avoid a repetition of the behavior that allegedly occurred.

The Department of Justice believes that the proposed Final Judgment contains adequate provisions to prevent further violations by the defendants of the type upon which the Complaint is based. The Department believes that disposition of the lawsuit without further litigation is appropriate because the proposed Judgment should be as effective in eliminating opportunities for a recurring violation of the type alleged in the Complaint as would the relief originally requested. Given the relief proposed in this Judgment, the additional expense of litigation would not result in additional public benefit.

IV

Remedies Available to Potential Private Litigants

Section 4 of the Clayton Act (15 U.S.C. 15) provides that any person who has been injured in his or her business or property as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages such person has suffered, as well as costs and reasonable attorneys' fees. Entry of the proposed Final Judgment in this proceeding will neither impair nor assist the bringing of any such private antitrust action. Under the provisions of section 5(a) of the Clayton Act, 15 U.S.C. 16(a), this Final Judgment has no *prima facie* effect in any subsequent private lawsuits that may be brought against these defendants.

V

Procedures Available for Modification of the Proposed Consent Judgment

As provided by the Antitrust Procedures and Penalties Act, any person who wishes to comment upon the proposed Final Judgment may submit written comments to Elliott M. Seiden, Chief, Transportation Section, Antitrust Division, Department of Justice, Washington, D.C. 20530, within the 60-day period provided by the Act. These comments and the responses to them will be filed with the Court and published in the **Federal Register**. All comments will be given due consideration by the Department of Justice which remains free to withdraw its consent to the proposed Judgment at any time prior to entry of the Judgment if it should determine that some modification is necessary.

VI

Alternatives to the Proposed Consent Judgment

The proposed Final Judgment differs from the relief sought in the Complaint. The government initially sought to have defendant Crandall barred for two years from employment with an airline in a position of authority over the airline's pricing. Defendant Crandall exhibited a disregard for the antitrust laws if, as alleged in the Complaint, during his conversation with Braniff's Putnam, Crandall ignored Putnam's warning that they should not be talking about prices and responded that he and Putnam could talk about anything they wanted to talk about. Defendant Crandall's alleged disregard of the antitrust laws led the Antitrust Division to seek his debarment from the leadership of any company in the airline industry. The airline industry, because each separate city-pair market is likely to have few participants, is readily susceptible to monopolistic or joint monopolistic behavior if there are barriers to entry in the markets.

This proposed Final Judgment does not restrict defendant Crandall's employment with an airline, as sought in the Complaint, but is designed to remove opportunities for defendant Crandall to repeat the alleged conduct or to attempt, in some other way, to jointly control airline markets with other carriers. The plaintiff believes that the proposed Judgment provides sufficient protection from repetition of the alleged or similar conduct that it is unnecessary, in this instance, to expend the substantial additional resources of trial to seek to prohibit Crandall's employment in the airline industry.

The Department considered prohibiting American from soliciting or consummating agreements with other carriers not to compete in the context of negotiating sales, transfers or leases of properties and facilities of American Airlines, such as gates at congested airports. It was determined that such relief should not be included. First, it was not closely related to the behavior that was the essence of the violation charged in the Complaint. Second, limited non-competition agreements are not necessarily anticompetitive. For these reasons, the considered relief was rejected.

VII

Determinative Materials

There are no materials or documents which the Government regards as determinative in formulating this proposed Judgment. Therefore, none are being filed with this Competitive Impact Statement pursuant to section B of the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b).

Respectfully submitted,

Anne E. Blair,

Michael H. Simon,

R. Timothy Slattery,

Attorneys, U.S. Department of Justice, P.O. Box 481, Washington, D.C. 20530, (202) 724-6469.

BILLING CODE 4410-01-M

Proposed Termination of Final Judgment; United States v. Volkswagen of America, Inc.

Notice is hereby given that Volkswagen of America, Inc. ("VWoA"), Riviera Motors, Inc. ("Riviera"), and World-Wide Volkswagen Corp. ("World-Wide"), have filed with the United States District Court for the District of New Jersey a motion to terminate the final judgment in *United States* v. *Volkswagen of America, Inc.*, Civil No. 1232-57, and the Department of Justice ("Department"), in a stipulation also filed with the Court, has consented to termination of the judgment, but has reserved the right to withdraw its consent for at least seventy (70) days after the publication of this notice. The complaint in this action, filed in 1957, alleged, as amended, that VWoA, its independent regional distributors, and its U.S. franchised Volkswagen dealers were engaged in a resale-price-maintenance conspiracy to the effect that the distributors would sell Volkswagen automobiles and parts to the dealers at wholesale prices fixed by VWoA and the dealers would sell to purchasers at retail prices also fixed by VWoA. The Final Judgment filed on May 7, 1962, enjoins VWoA and its 14 U.S. distributors, all of whom were named as defendants, from requiring any Volkswagen distributor or dealer to adhere to any specified or suggested price in selling Volkswagen automobiles and parts. Of the 14 U.S. Volkswagen distributors named as defendants in the complaint only two—World-Wide Volkswagen Corp. and Riviera Motors, Inc.—still survive as independent entities.

The Department has filed with the Court a memorandum setting forth the reasons the Department believes that termination of the Final Judgment would serve the public interest. Copies of the complaint, the Final Judgment, the motion papers of VWoA, Riviera, and World-Wide, the stipulation containing the Government's consent to that motion, the Government's memorandum, and all further papers filed with the Court in connection with this motion will be available for inspection in the Legal Procedure Unit of the Antitrust Division, Room 7416, United States Department of Justice, Tenth Street and Pennsylvania Avenue NW., Washington, D.C. 20530 (telephone: 202-633-2481), and at the Office of the Clerk of the United States District Court for the District of New Jersey, United States Court House and Post Office, Third Floor, Federal Square, Newark, New Jersey 07102. Copies of any of these materials may be obtained from the Legal Procedure Unit upon request and payment of the copying fee set by Department of Justice regulations.

Interested persons may submit comments regarding the proposed termination of the Final Judgment to the Department. Such comments must be received within sixty days, and will be filed with the court. Comments should be addressed to Ralph T. Giordano, Chief, New York Office, Antitrust Division, Department of Justice, 26 Federal Plaza, Room 3630, New York, New York 10278 (telephone: 212-264-0383).

Joseph H. Widmar,

Director of Operations, Antitrust Division.

Bureau of Prisons

Intent To Prepare Draft Environmental Impact Statement (DEIS) for the Construction of a Federal Correctional Facility, Lafayette Township, McKean County, PA

AGENCY: Federal Bureau of Prisons, Justice.

ACTION: Notice of intent to prepare a draft environmental impact statement (DEIS).

SUMMARY:

1. Proposed Action: The U.S. Department of Justice, Federal Bureau of

VOL 50 ISS 141 JL 23 1985 UMI

Prisons has determined that a new medium security prison with an adjacent satellite camp is needed in its system. A 192.62-acre tract of land at the McKean County Industrial Park near Bradford, Pennsylvania is being evaluated for the site of the facility. The proposal calls for the construction of a 550-bed facility to house medium security inmates and a 150-bed satellite camp housing minimum security inmates. Approximately 60–70 acres would be required for road access, inmate housing, administration and program spaces and service and support facilities. In addition, exercise areas would be included in the needed acreage.

2. In the process of evaluating the tract of land, the following aspects will receive a detailed examination: Wetlands, threatened and endangered species, cultural resources, unique and prime farmlands, and socioeconomic impacts.

3. Alternatives: In developing the DEIS, the options of no action and alternatives sites for the proposed facility will be fully and thoroughly examined.

4. Scoping Process: A number of meetings have been held with area officials and concerned citizens. Additional meetings including at least one public meeting will be held during the last week of July and the first part of August, 1985.

5. DEIS Preparation: The DEIS should be available for public review and comment in August or September, 1985.

6. Address: Questions concerning the proposed action and the DEIS can be answered by: Mary S. Galey, Project Manager, Facilities Development and Operations, U.S. Bureau of Prisons, 320 First Street, NW., Washington, D.C. 20534, Telephone: (202) 272–6871.

Dated: June 17, 1985.

Mary S. Galey,

Acting Chief, Office of Facilities Development and Operations, Federal Bureau of Prisons, Department of Justice.

BILLING CODE 4410–05–M

DEPARTMENT OF LABOR

Office of the Secretary

Agency Forms Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its responsibility under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the proposed forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

On each Tuesday and/or Friday, as necessary, the Department of Labor will publish a list of the Agency forms under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of any particular revision they are interested in.

Each entry will contain the following information:

The Agency of the Department issuing this form.

The title of the form.

The (OMB) and Agency form numbers, if applicable.

How often the form must be filled out.

Who will be required to or asked to report.

Whether small businesses or organizations are affected.

An estimate of the number of responses.

An estimate of the total number of hours needed to fill out the form.

The number of forms in the request for approval.

An abstract describing the need for and uses of the information collection.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, Telephone 202–523–6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–5526, Washington, D.C. 20210. Comments should also be sent to the OMB reviewer, Nancy Wentzler, Telephone 202–395–6880, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3208, NEOB, Washington, D.C. 20503.

Any member of the public who wants to comment on a form which has been submitted to OMB shuld advise Mr. Larson of this intent at the earliest possible date.

Collection of Information in Current Rules

Mine Safety and Health Administration
Rock Burst Detection Plan (30 CFR 57.3035)
On occasion
Businesses and other for profit; small businesses or organizations
6 respondents; 72 hours

Requires metal and nonmetal mine operators to develop a rock burst detection plan within 90 days after a rock burst has been experienced. Plans are required to be made available to MSHA inspectors and are used by the mine operator for work assignments to assure miner safety and to schedule correction work.

Extension

Employment and Training Administration
Annual State WIN Plans
1205–0214; ETA RC 16
Annual
State or local governments
30 respondents; 2,310 hours; no forms

The State WIN Plan is the basic planning and management tool utilized by the national and regional offices to ensure State compliance with legislation, regulation and national office goals. It is the vehicle for providng allocation levels to State agencies. Respondents are State staff.

Signed at Washington, D.C. this 18th day of July 1985.

Paul E. Larson,

Departmental Clearance.

BILLING CODE 4510–30/4510–43–M

Employment and Training Administration

Trade Adjustment Assistance for Workers; General Administration Letter No. 10–85, Change 1

Public Law 98–369—the Deficit Reduction Act of 1984—amended the Trade Act of 1974 to enable workers to receive up to 26 additional weeks of trade readjustment allowance (TRA) by beginning the additional 26-week period with the first week the worker is in training, if such training was applied for in a timely manner and is approved after the last week of basic TRA entitlement, and to increase the maximum amount payable for job search allowances and maximum lump sum amount payable for relocation allowances from $600 to $800. The amendments became effective July 18, 1984.

On May 23, 1985, the Department of Labor issued General Administration Letter No. 10–85 which provided operating instructions to all State employment security agencies for implementing the amendments in Pub. L. 98–369. The GAL was published in the

Federal Register on June 11, 1985. (FR Vol. 50, No. 112, page 24598).

Based on comments and suggestions received by the Department during the public comment period on the proposed rule implementing the amendments, the Department agreed that the December 18, 1983 date in proposed rule 20 CFR 635.65(a) is not required by statute and will be deleted in the final rule. Therefore the operating instruction in Paragraphs 5(a) of GAL 10–85 was amended by deleting the December 18, 1983 date. The revised operating instructions are contained in General Administration Letter No. 10–85, Change 1, which is published below.

Dated: July 15, 1985.

Roberts T. Jones,

Acting Deputy Assistant Secretary of Labor.

U.S. Department of Labor, Employment and Training Administration, Washington, D.C. 20213

Classification: TRA.
Correspondence symbol: TET.
Date: July 10, 1985.
Expiration date: June 30, 1986.

Directive: General Adminstration Letter No. 10–85, Change 1.

To: All State Employment Security Agencies.

From: Barbara Ann Farmer, Acting Administrator, Office of Regional Management.

Subject: Role of State Employment Security Agencies in Implementing Amendments to the Trade Act of 1974 in the Deficit Reduction Act of 1984.

1. *Purpose.* To advise SESA officials of a revision to the operating instructions issued in the GAL 10–85, dated May 23, 1985, for implementing amendments to the Trade Act of 1974 in sections 2671 and 2672 of the Deficit Reduction Act of 1984 (Pub. L. 98–369).

2. *Reference.* Trade Act of 1974 (Pub. L. 93–618). Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35). Deficit Reduction Act of 1984 (Pub. L. 98–369) and GAL 10–85.

3. *Background.* GAL 10–85 was based on the supplemental proposed rule to 20 CFR Part 635, implementing the Deficit Reduction Act amendments to the Trade Act, published in the Federal Register on April 15, 1985 (FR Vol. 50, No. 72, page 14720). A copy of the proposed rule was attached to GAL 10–85.

Paragraph 5(a) in the GAL provided that up to 26 additional weeks of TRA for training could begin with the first week of TRA for training could begin with the week of such training if the training was approved after the last week of entitlement to basic TRA. The claimant had to apply for the training within 210 days after the certification under which the claimant was covered or, if later, within 210 days after the date of the claimant's first separation. Additionally, according to paragraph 5(a), to be eligible for the additional weeks of TRA under the operating instructions the claimant was required to have filed a timely bona fide application for training on or after December 18, 1983, and to have had the application approved on or after July 18, 1984.

Based on comments and suggestions received by Department during the public comment period on the proposed rule, the Department agreed that the December 18, 1983 date is not required by the statute and made the decision to delete the date from § 635.65(a) of the final regulations. This date would have prohibited workers who filed a timely bona fide application for training on or before December 18, 1983 from qualifying for the 26 additional weeks of TRA payments.

The revised operating instructions with the December 18, 1983 date deleted are presented below.

4. *Basic Provisions of the New Amendments.*

(a) *Duration of TRA.* Section 233(a)(3) of the Trade Act of 1974 is revised to permit workers to receive up to 26 additional weeks of TRA payments in the 26-week period that begins with the first week of such training, if the training is approved after the last week of entitlement to basic TRA otherwise payable to the individual.

To be eligible under this provision an individual must make a bona fide application for such training within 210 days after the certification under which the individual is covered or, if later, within 210 days after the date of the individual's first total or partial separation.

To be eligible to receive additional weeks of TRA beginning the first week of such training a worker must have filed a timely bona fide application for training which was approved on or after July 18, 1984.

(b) *Job Search Allowance.* The total job search allowances paid to an individual under a certification may not exceed $800 (previously $600) providing the inividual filed a timely application for job search allowance that is approved on or after July 18, 1984. The total allowances approvable before that date may not exceed $600.

(c) *Relocation Allowance.* The lump sum payment for relocation, equal to 3 times the individual's average weekly wage, may not exceed $800 (previously $600) providing the worker filed timely for relocation allowance that is approved on or after July 18, 1984.

5. *Action Required.* SESAs should implement the amendments to the Trade Act in sections 2671 and 2672 of the Deficit Reduction Act of 1984, immediately by taking the following actions:

(a) Inform appropriate SESA staff that the December 18, 1983 date in the operating instructions has been deleted and that all workers who filed timely bona fide applications for training may qualify for additional weeks of TRA under the revised operating instructions.

(b) Notify all TAA eligibility workers who might be affected by the change of the provisions of the new legislation and the potential impact on their TRA benefits while in training.

(c) Make necessary adjustments in benefits payable.

6. *Effective Date.* These amendments to Chapter 2—Adjustment Assistance for Workers, of Title II of the Trade Act of 1974 became effective July 18, 1984.

7. *Regulations.* Regulations published in the Federal Register as a final rule will take precedence over GAL 10–85 and this Change 1.

8. *Inquiries.* Inquiries should be directed to appropriate regional office.

[FR Doc. 85–17480 Filed 7–22–85; 8:45 am]

BILLING CODE 4510–30–M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period July 8, 1985–July 12, 1985.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

VOL 50 ISS 141 JL 23 1985 UMI

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–15,862; Burlington Industries, Inc., Blended Fabric Div., Lincolnton, NC

TA–W–15,780; Jenkins Brothers Corp., Bridgeport, CT

TA–W–15,844; Philips ECG, Inc., Seneca Falls, NY

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA–W–15,942; Colorado Westmoreland, Inc., Orchard Valley Mine, Paonia, CO

Aggregate U.S. imports of bituminous coal are negligible.

TA–W–15,970; Uranerz USA, Inc., Casper, WY

The uranium mined by the subject firm was incidental to research activities, and was not marketed.

TA–W–15,962; International Jensen, Inc., Schiller Park, IL

The worker firm does not produce an article as required for certification under section 222 of Trade Act of 1974.

Affirmative Determinations

TA–W–15,897; Pester Refining Co., El Dorado, KS

A certification was issued covering all workers of the firm separated on or after January 1, 1985

TA–W–15,823; USM Corp., Unit Sole Div., Kenton, TN

A certification was issued covering all workers of the firm separated on or after March 13, 1984 and before January 13, 1985.

TA–W–15,828; Indiana Glass Co., Dunkirk, IN

A certification was issued covering all workers of the firm separated on or after October 1, 1984

TA–W–15,865; Tennessee Fan Co., Fayetteville, TN

A certification was issued covering all workers of the firm separated on or after March 7, 1984 and before January 1, 1985.

TA–W–15,881; Boyd Lumber Corp., Tonasket, WA

A certification was issued covering all workers of the firm separated on or after February 26, 1984 and before December 31, 1984

TA–W–15,900; Tennessee Chemical Co., Copperhill Co., Copperhill, TN

A certification was issued covering all workers of the firm separated on or after January 1, 1985.

TA–W–15,883; Ellen Tracy, Inc., Carlstadt, NJ

A certification was issued covering all workers of the firm separated on or after February 7, 1984.

TA–W–15,899; Teledyne Amco, Mohnton, PA

A certification was issued covering all workers of the firm separated on or after March 27, 1984

TA–W–15,855; Tally Togs, Inc., Hoboken, NJ

A certification was issued covering all workers of the firm separated on or after August 15, 1984 and before February 1, 1985.

TA–W–15,954; J & K Values, Inc., Newark, NJ

A certification was issued covering all workers of the firm separated on or after April 11, 1984 and before December 31, 1984

TA–W–15,814; East Point Seafood Co., South Bend, WA

A certification was issued covering all workers of the firm separated on or after March 18, 1984

TA–W–15,885; Hoover-NSK Bearing Co., Wayne, NJ

A certification was issued covering all workers of the firm separated on or after February 1, 1985.

TA–W–15,779; General Electric Co., Mobile Communications Div., Lynchburg, VA

A certification was issued covering all workers engaged in employment related to the production of cellular mobile telephone separated on or after November 1, 1984.

I hereby certify that the aforementioned determinations were issued during the period July 8, 1985–July 12, 1985. Copies of these determinations are available for inspection in Room 6434, U.S. Department of Labor, 601 D Streets NW., Washington, D.C. during normal business hours or will be mailed to persons who write to the above address.

Dated: July 16, 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 85–17483 Filed 7–22–85; 8:45 am]

BILLING CODE 4510–30–M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 2, 1985.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 2, 1985.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 15th day of July 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510–26–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–250 and 50–251]

Florida Power & Light Co.; Order Modifying Licenses to Confirm Additional Licensee Commitments on Emergency Response Capability

I

Florida Power and Light Company (Turkey Point Plant, Units 3 and 4) (the licensee) is the holder of Facility Operating License Nos. DPR–31 and DPR–41 which authorize the operation of the Turkey Point Plant, Unit Nos. 3 and 4 (the facilities) at steady-state power levels not in excess of 2200 megawatts thermal. The facilities are pressurized water reactors (PWRs) located in Dade County, Florida.

II

Following the accident at Three Mile Island Unit No. 2 (TMI–2) on March 28, 1979, the Nuclear Regulatory Commission (NRC) staff developed a number of proposed requirements to be implemented on operating reactors and on plants under construction. These requirements include Operational Safety, Siting and Design, and Emergency Preparedness and are intended to provide substantial additional protection in the operation of nuclear facilities and significant upgrading of emergency response capability based on the experience from the accident at TMI–2 and the official studies and investigations of the accident. The requirements are set forth in NUREG–0737, "Clarification of TMI Action Plan Requirements," and in Supplement 1 to NUREG–0737, "Requirements for Emergency Response Capability." Among these requirements are a number of items consisting of emergency response facility operability, emergency procedure implementation, addition of instrumentation, possible control room design modification, and specific information to be submitted.

On December 17, 1982, a letter (Generic Letter 82–33) was sent to all licensees of operating reactors, applicants for operating licenses, and holders of construction permits enclosing Supplement 1 to NUREG–0737. In this letter operating reactor licensees and holders of construction permits were requested to furnish the following information, pursuant to 10 CFR 50.54(f), no later than April 15, 1983:

(1) A proposed schedule for completing each of the basic requirements for the items identified in Supplement 1 to NUREG–0737, and

(2) A description of plans for phased implementation and integration of emergency response activities including training.

III

The licensee responded to Generic Letter 82–33 by letter dated April 15, 1983. By letters dated May 5, May 20, July 25, 1983, January 30 and February

VOL 50 ISS 141 JL 23 1985 UMI

14, 1984, the licensee modified several dates as a result of negotiations with the NRC staff. In these submittals, the licensee made commitments to complete the basic requirements. The licensee's commitments included (1) dates for providing required submittals to the NRC, (2) dates for implementing certain requirements, and (3) a schedule for providing implementation dates for other requirements. The staff found that these dates were reasonable and achievable dates for meeting the Commission requirements and concluded that the schedule proposed by the licensee would provide timely upgrading of the licensee's emergency response capability. On February 23, 1984, the NRC issued "Order Confirming Licensee Commitments on Emergency Response Capability" which confirmed the licensee's Commitments.

IV

The February 23, 1984, Order stated that for those requirements for which the licensee committted to a schedule for providing implementation dates, those dates would be reviewed, negotiated and confirmed by a subsequent order. In conformance with the milestones in the February 23, 1984 Order, as supplemented by the licensee's letter dated May 10, 1985, the licensee provided the implementation schedules for Regulatory Guide 1.97 requirements.

The attached Table summarizing the licensee's schedular commitments for the above item was developed by the NRC staff from the information provided by the licensee. The staff reviewed the licensee's May 10, 1985 letter and discussed the dates with the licensee. The schedules are based on upcoming refueling outages which are necessary to implement the required modifications and changes.

The NRC staff finds that these dates are reasonable and achievable dates for meeting the Commission requirements. The NRC staff concludes that the schedule proposed by the licensee will provide timely upgrading of the licensee's emergency response capability.

In view of the foregoing, I have determined that the implementation of the licensee's commitments are required in the interest of the public health and safety and should, therefore, be confirmed by an immediately effective Order.

V

Accordingly, pursuant to sections 103, 161i, 161o and 182 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204 and 10 CFR Part 50, It is hereby ordered, effective immediately, that license Nos. DPR–31 and DPR–41 are modified to provide that the licensee shall:

Implement the specific items described in the Attachment to this ORDER in the manner described in the licensee's submittal noted in Section IV herein no later than the dates in the Attachment.

Extension of time for completing these items may be granted by the Director, Division of Licensing, for good cause shown.

IV

The licensee or any other person with an adversely affected interest may request a hearing on this Order within 20 days of the date of publication of this Order in the **Federal Register**. Any request for a hearing should be addressed to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy should be sent to the Executive Legal Director at the same address. A request for hearing shall not stay the immediate effectiveness of this order.

If a hearing is to be held, the Commission will issue an Order designating the time and place of any such hearing.

If a hearing is held concerning this Order, the issue to be considered at the hearing shall be whether the licensee should comply with the requirements set forth in Section V of this Order.

This Order is effective upon issuance.

Dated in Bethesda, Maryland this 15th day of July 1985.

For the Nuclear Regulatory Commission.

Hugh L. Thompson, Jr.,

Director, Division of Licensing, Office of Nuclear Reactor Regulation.

TURKEY POINT PLANT.—LICENSEE'S ADDITIONAL COMMITMENTS ON SUPPLEMENT 1 TO NUREG–0737

Title	Requirements	Licensee's completion schedule (or status)
1. Regulation Guide 1.97—Application to Emergency Response Facilities	3b. Implement (installation or upgrade) requirements	Unit 3—Startup Cycle 10 refueling (approx. June 30, 1985). Unit 4—Startup Cycle 11 refueling (approx. March 31, 1986).

[Docket Nos. STN 50–498 OL; STN 50–499 OL; ASLBP No. 79–421–07 OL]

Houston Lighting and Power Co. et al.; Continuation of Evidentiary Hearings

July 17, 1985.

Before Administrative Judges Charles Bechhoefer, Chairman, Dr. James C. Lamb, Frederick J. Shon. In the matter of Houston Lighting and Power Company, et al. (South Texas Project Units 1 and 2).

Following the hearing sessions described in the Notice of Evidentiary Hearings, dated May 29, 1985 (50 FR 23564–65, June 4, 1985), hearings will continue (to the extent necessary) on July 29–August 3, 1985, August 5–9, 1985, and August 13–16, 1985, at the University of Houston Law School, University Park, Room 215, Teaching Unit II, 4800 Calhoun, Houston, Texas 77004. The hearings will be held from 9:00 a.m. to 6:00 p.m. each day, except that the sessions on Monday, July 29, 1985 and Tuesday, August 13, 1985, will commence at 9:30 a.m., the session on Saturday, August 3, 1985, will conclude by approximately 1:00 p.m., and the sessions on Friday, August 9, 1985 and Friday, August 16, 1985, will extend until approximately mid-afternoon.

Dated at Bethesda, Maryland this 17th day of July, 1985.

For the Atomic Safety and Licensing Board.

Charles Bechhoefer,

Chairman, Administrative Judge.

BILLING CODE 7590–01–M

[Docket Nos. 50–315 and 50–316]

Indiana & Michigan Electric Co.; Order Modifying License To Confirm Additional Licensee Commitments on Emergency Response Capability

I

Indiana and Michigan Electric Company (IMEC) (D.C. Cook Nuclear Plant Unit Nos. 1 and 2) (the licensee) is the holder of Facility Operating License Nos. DPR–58 and DPR–74 which authorizes the operation of the Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2 (the facilities) at steady-state power levels not in excess of 3250 and 3411 megawatts thermal, respectively. The facilities are pressurized water reactors (PWRs) located in Berrien County, Michigan.

II

Following the accident at Three Mile Island Unit No. 2 (TMI–2) on March 28, 1979, the Nuclear Regulatory Commission (NRC) staff developed a number of proposed requirements to be implemented on operating reactors and on plants under construction. These requirements include Operational Safety, Siting and Design, and Emergency Preparedness and are intended to provide substantial additional protection in the operation of nuclear facilities and significant upgrading of emergency response capability based on the experience from the accident at TMI–2 and the official studies and investigations of the accident. The requirements are set forth in NUREG–0737, "Clarification of TMI Action Plan Requirements," and in Supplement 1 to NUREG–0737, "Requirements for Emergency Response Capability." Among these requirements are a number of items consisting of emergency response facility operability, emergency procedure implementation, addition of instrumentation, possible control room design modification, and specific information to be submitted.

On December 17, 1982, a letter (Generic Letter 82–33) was sent to all licensees of operating reactors, applicants for operating licenses, and holders of construction permits enclosing Supplement 1 to NUREG–0737. In this letter operating reactor licensees and holders of construction permits were requested to furnish the following information, pursuant to 10 CFR 50.54(f), no later than April 15, 1983:

(1) A proposed schedule for completing each of the basic requirements for the items identified in Supplement 1 to NUREG–0737, and

(2) A description of plans and phased implementation and integration of emergency response activities including training.

III

IMEC responded to Generic Letter 82–33 by letter dated April 15, 1983. By letters dated August 2, 1983, January 30, 1984, and February 10, 1984, IMEC provided additional information and dates as a result of negotiations with the NRC staff. In these submittals, IMEC made commitments to complete the basic requirements by providing either a completion date for the item or an intermediate date for providing a commitment to a completion date. The intermediate dates (status dates) were based on IMEC target completion dates for the item.

On June 12, 1984, the NRC issued "Order Confirming Licensee Commitments on Emergency Response Capability" which confirmed IMEC's Commitments.

IV

The June 12, 1984, Order stated that for those requirements for which IMEC committed to a schedule for providing implementation dates, those dates would be reviewed, negotiated and confirmed by a subsequent order. In conformance with the milestones in the June 12, 1984 Order, IMEC's letters dated September 28, 1984, February 28 and April 29, 1985 provided completion schedules for the following requirements:

1. Safety Parameter Display System (SPDS).	1b. SPDS fully operational and operators trained.
2. Detailed Control Room Design Review (DCRDR).	2b. Submit a summary report to the NRC including a proposed schedule for implementation.
4. Upgrade Emergency Operation Procedures (EOPs).	4b. Implement the upgraded EOPs.
5. Emergency Response Facilities.	5a. Technical Support Center. 5b. Operations Staging Area. 5c. Emergency Response Facility.

The attached Table summarizing IMEC's schedular commitments for the above items was developed by the NRC staff from the information provided by IMEC. The NRC staff finds that these dates are reasonable and achievable dates for meeting the Commission requirements. The NRC staff concludes that the schedule proposed by the licensee will provide timely upgrading of the licensee's emergency response capability.

In view of the foregoing, I have determined that the implementation of IMEC's commitments are required in the interest of the public health and safety and should, therefore, be confirmed by an immediately effective Order.

V

Accordingly, pursuant to Sections, 103, 161i, 161o and 182 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204 and 10 CFR Part 50, It is hereby ordered, effective immediately, That license DPR–20 is modified to provide that the licensee shall:

Implement the specific items described in the Attachment to this ORDER in the manner described in IMEC's submittals noted in Section IV herein no later than the dates in the Attachment.

Extension of time for completing these items may be granted by the Director, Division of Licensing, for good cause shown.

VI

Any other person with an adversely affected interest may request a hearing on this Order within 20 days of the date of publication of this Order in the **Federal Register**. Any request for a hearing should be addressed to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy should be sent to the Executive Legal Director at the same address. A request for hearing shall not stay the immediate effectiveness of this order.

If a hearing is to be held, the Commission will issue an Order designating the time and place of any such hearing.

If a hearing is held concerning this Order, the issue to be considered at the hearing shall be whether the licensee should comply with the requirements set forth in Section V of this Order.

This Order is effective upon issuance.

Dated in Bethesda, Maryland this 12th day of July, 1985.

For the Nuclear Regulatory Commission.

Hugh L. Thompson, Jr.,

Director, Division of Licensing, Office of Nuclear Reactor Regulation.

Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed public meetings of the ACRS Subcommittees and meetings of the full Committee, the following preliminary schedule is published to reflect the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published June 17, 1985 (50 FR 25133). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the Federal Register approximately 15 days (or more) prior to the meeting. It is expected that the sessions of the full Committee meeting designated by an asterisk(*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and Subcommittee meetings usually begin at 8:30 a.m. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the August 1985 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634–3265, ATTN: Barbara Jo White) between 8:15 a.m. and 5:00 p.m., Eastern Time.

ACRS Subcommittee Meetings

Joint Waste Management and Procedures and Administration, July 30, 1985, Washington, DC. The Subcommittee will review the ACRS Role in the Civilian High-Level Radioactive Waste Management Program.

Reactor Radiological Effects, July 31, 1985, Washington, DC. The Subcommittee will review INPO's Radiation Protection Program, particularly as it relates to a similar and related NRC program.

Emergency Core Cooling Systems, July 31, 1985, Washington, DC. The Subcommittee will: continue the review of the proposed revision to Appendix K of 10 CFR 50.46; discuss implementation of General Electric, 10 CFR Part 50 Appendix K analysis effort; discuss RCP trip issue resolution; and discuss NPR's ECCS-related issues of ongoing concern.

Class 9 Accidents, August 1, 1985, Washington, DC. The Subcommittee will continue its discussion of the draft NUREG–0956, "Source Term Reassessment" with the NRC Staff.

Class 9 Accidents, August 2, 1985, Washington, DC. The Subcommittee will discuss with the NRC Staff and IDCOR the status of programs related to extending the results of the reference plants and how this relates to the ACRS recommended search for outliers program.

Qualification Program for Safety-Related Equipment, August 6, 1985, Washington, DC. The Subcommittee will discuss NRC Staff resolution of USI A–46, "Seismic Qualification of Equipment in Operating Plants."

Long Range Plan for NRC, August 7, 1985, Washington, DC. The Subcommittee will continue discussions on developing comments on a long range plan for the NRC. Topics under discussion are primarily technical issues related to the regulation of nuclear power plant safety and safety regulation over the next 5 to 10 years. The outline of a comprehensive long range plan being developed by the EDO and OPE will also be reviewed.

GESSAR II, August 7, 1985, Washington, DC. The Subcommittee will continue its review of GESSAR II for a Final Design Approval applicable to future plants.

Joint ECCS and Fluid Dynamics, August 27, 1985, Washington, DC. The Subcommittees will: (1) Review the status of hydrodynamic loads issue for plants with Mark I–III containment; (2) review AEOD report on Interfacing LOCAs; and (3) review the USI A–43, "Containment Emergency Sump Performance" resolution proposal.

Metal Components, September 4 and 5, 1985, Washington, DC. The Subcommittee will review Regulatory Guide 1.99, Revision 2 and other related concerns, and discuss the status of the NDT of piping program and the HSST program.

Reactor Operations, September 9, 1985, Washington, DC. The Subcommittee will discuss recent operating experiences.

Regulatory Activities, September 10, 1985, Washington, DC. The Subcommittee will review: (1) Regulatory Guide 1.23, Revision 1, "Meteorological Measurement Programs for Nuclear Power Plants," (2) proposed Regulatory Guide (Task No. IC 609–5), "Criteria for Power, Instrumentation, and Control Portions of Safety Systems," and (3) Regulatory Guide 1.105, Revision 2, "Instrument Setpoints for Safety-Related Systems" (tentative).

Long Range Plan for NRC, September 11, 1985, Washington, DC. The Subcommittee will continue discussions on developing comments on a long range plan for the NRC. Topics to be discussed are primarily technical issues related to the regulation of nuclear power plant safety and safety regulation over the next 5 to 10 years.

River Bend, September 11, 1985, Washington, DC. The Subcommittee will review Gulf States Utilities Company's application for a full power operating license.

Joint Structural Engineering and Seismic Design of Piping, September 23 and 24, 1985, Washington, DC. The Subcommittee will review the status of research programs on containment integrity, seismic margins, piping reliability, and other related matters.

Reliability Assurance (Valves), October 8, 1985, Washington, DC. The Subcommittee will continue discussions on valve reliability. A risk perspective on valve performance will be sought. Also to be studied is the importance of valves from a safety standpoint.

Long Range Plan for NRC, October 9, 1985, Washington, DC. The Subcommittee will continue discussions on developing comments on a long range plan for the NRC. Topics to be discussed are primarily technical issues related to the regulation of nuclear power plant safety and safety regulation over the next 5 to 10 years.

Advanced Reactors, Date to be determined (August/September), Washington, DC. The Subcommittee will discuss the proposed policy for regulation of advanced nuclear power plants.

Human Factors, Date to be determined (August/September), Washington, DC. The Subcommittee will explore methods for deciding what actions should be automated in nuclear power plant operation.

Decay Heat Removal Systems, Date to be determined (September, tentative), Washington, DC. The Subcommittee will continue the review of NRR resolution position for USI A–45.

ECCS, Date to be determined (September/October), Palo Alto, CA. The Subcommittee will continue the review of the joint NRC/B&WOG/EPRI/B&W joint IST Program. A visit is planned to the EPRI Stanford Research Institute facilities supporting this Program.

Joint Reactor Radiological Effects and Fire Protection, Date to be determined (October), Washington, DC. The Subcommittee will review the increased N–16 radioactivity and fire protection problems in using hydrogen addition to BWRs to reduce IGSCC.

Scram Systems Reliability (formerly ATWS), Date to be determined (October), Washington, DC. The Subcommittee will continue the review of the status of ATWS Rule implementation effort and related issues.

Quality and Quality Assurance In Design and Construction, Date to be determined (October, tentative), Washington, DC. The Subcommittee will: (1) Review the final Rule on the "Important to Safety Issue", and (2) be briefed on the "NRC Quality Assurance Program Implementation Plan."

Reliability and Probabilistic Assessment, Date to be determined (Fall, tentative), Washington, DC. The Subcommittee will review the probabilistic risk assessment for Millstone 3.

ACRS Full Committee Meeting

August 8–10, 1985: Items are *tentatively* scheduled.

*A. *Davis-Bessie Nuclear Power Station*—briefing regarding evaluation of recent loss of steam generator feedwater.

*B. *San Onofre Nuclear Plant Unit No. 1*—review of systematic evaluation report.

*C. *General Electric Standard Safety Analysis Report (GESSAR II)*—continue ACRS review for an FDA for this type of facility.

*D. *Alvin W. Vogtle Nuclear Plant Units 1 and 2 (tentative)*—review request for an operating license for this facility.

*E. *Indian Point Nuclear Station*—discuss implementation of probabilistic risk assessment for this nuclear station.

*F. *NRC Long Range Plan*—review proposed long range plan for NRC regulatory activities.

*G. *Seismic Qualification of Equipment in Operating Nuclear Power Plants*—discuss USI A–46 regarding methodology to quality equipment in operating nuclear plants to function during and following seismic events.

*H. *NRC Maintenance and Surveillance Program Plan*—review proposed NRC program plan.

*I. *NRC General Design Criteria*—review proposed changes in NRC General Design Criteria (10 CFR Part 50, Appendix A—General Design Criteria for Nuclear Power Plants).

*J. *Inspection Program of the NRC Office of Inspection and Enforcement*—briefing regarding inspection activities of the NRC Office of Inspection and Enforcement (tentative).

*K. *NRC Regulatory Program regarding Management and Disposal of Radioactive Wastes*—discuss proposed ACRS participation in the NRC regulatory program regarding management and disposal of radioactive wastes.

*L. *ACRS Effectiveness*—Report of ACRS Panel on ACRS effectiveness and participation in NRC regulatory activities.

*M. *ACRS Subcommittee Activities*—the members will hear and discuss reports of designated ACRS subcommittees regarding current activities, including proposed changes in 10 CFR Part 50, Appendix K—ECCS evaluation; radiation protection program of INPO; and reliability of scram breakers in nuclear power plant safety systems.

*N. *Future Activities*—discuss anticipated ACRS subcommittee activities and proposed topics for ACRS consideration.

*O. *Activities of ACRS Members*—the activities of members as nongovernment employees will be discussed (tentative).

September 12–14, 1985—Agenda to be announced.

October 10–12, 1985—Agenda to be announced.

Dated: July 17, 1985.
John C. Hoyle,
Advisory Committee Management Officer.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Cincinnati Stock Exchange, Inc.

July 16, 1985.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the following stocks:

El Torito Restaurants, Inc.
Common Stock, $0.01 Par Value, (File No. 7–8499)
Flight Safety Int'l, Inc.
Common Stock, $0.10 Par Value, (File No. 7–8500)
La Quinta Motor Inns
Common Stock, $0.10 Par Value, (File No. 7–8501)
Redman Industries
Common Stock, $1.00 Par Value, (File No. 7–8502)
Saul (B.F.) Real Estate Inv. Trust
Shares of Beneficial Interest (SBI), (File No. 7–8503)
Supermarkets General Corp.
Common Stock, $1.00 Par Value, (File No. 7–8504)
Tonka Corp.
Common Stock, 0.66 2/3 Par Value, (File No. 7–8505)
Technicom Int'l Inc.
Common Stock, $0.01 Par Value, (File No. 7–8506)

These securities are listed and registered on one of more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before August 6, 1985, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such

VOL 50 ISS 141 JL 23 1985 UMI

applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

(Release No. 34-22254; SR-MSRB-85-12)

Self-Regulatory Organizations; Filing and Immediate Effectiveness of Proposed Rule Change by Municipal Securities Rulemaking Board

The Municipal Securities Rulemaking Board ("MSRB") on May 15, 1985, submitted copies of a proposed rule change pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") and Rule 19b-4 thereunder, to increase the fee each municipal securities dealer is required to pay to the MSRB, based on its placement of new issue municipal securities. The purpose of the fee is to provide a continuing source of revenue to defray the costs and expenses of operating the Board and administering its activities.

This proposed rule change has become effective, pursuant to section 19(b)(3)(A) of the Act. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Interested persons are invited to submit written comments concerning the submission within 21 days from the date of publication in the **Federal Register.** Persons submitting written comments should file six copies thereof with the Secretary of the Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Reference should be made to File No. SR-MSRB-85-12.

Copies of the submission and all related items, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying at the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, D.C. Copies of the filing and any subsequent amendments also will be available at the principal office of the MSRB.

For the Commission, by the Division of Market Regulation pursuant to delegated authority. 17 CFR 200.30-3(a)(12).

Dated: July 17, 1985.

John Wheeler,

Secretary.

[FR Doc. 85-17434 Filed 7-22-85; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 22247; File No. SR-NSCC-85-6]

Self-Regulatory Organizations; National Securities Clearing Corp.; Filing and Immediate Effectiveness of Proposed Rule Change

On June 21, 1985, the National Securities Clearing Corporation ("NSCC") filed with the Commission a proposed rule change under section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"). The Commission is publishing this notice to solicit public comment on the proposal.

Currently, NSCC's CNS Projection Report contains a tear-off portion which Members use to submit Exemptions.[1] NSCC intends to eliminate the use of a tear-off section on its CNS Projection Report and instead, to supply Members with Exemption forms. Accordingly, the proposal eliminates the reference in NSCC's written procedures to a tear-off portion of the CNS Projection Report for submission of Exemptions.

NSCC believes that because the proposal merely changes one of the formats which Members can use to submit CNS Exemptions, it does not affect NSCC's ability to safeguard securities and funds in its custody or control or for which it is responsible. NSCC believes, therefore, that the proposal is consistent with section 17A of the Act.

NSCC's proposal has become effective under section 19(b)(3)(A) of the Act and subparagraph (e) of Securities Exchange Act Rule 19b-4. At any time within 60 days from the date the proposal was filed, however, the Commission may summarily abrogate the proposal if it appears to the Commission that abrogation is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Copies of all documents related to the proposal, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, may be inspected and copied at the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, D.C., and at NSCC's principal offices.

Written data, views and arguments concerning the proposal are invited within 21 days from the date this notice is published in the **Federal Register.** Please file six copies of comments, referring to File No. SR-NSCC-85-6, with the Secretary of the Commission, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549, by August 13, 1985.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Dated: July 17, 1985.

John Wheeler,

Secretary.

[FR Doc. 85-17435 Filed 7-22-85; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-22244; File Nos. SR-PCC-85-03 and SR-PSDTC-85-04]

Self-Regulatory Organizations; Pacific Clearing Corp. and Pacific Securities Depository Trust Co.; Proposed Rule Changes

Pacific Clearing Corporation ("PCC") and Pacific Securities Depository Trust Company ("PSDTC") (together, "PCC/PSDTC") on June 3, 1985, submitted proposed rule changes to the Commission under Section 19(b)(1) of the Securities Exchange Act of 1934. Amendments to the proposals were filed on July 2, 1985. The Commission is publishing this notice to solicit comments on the proposals.

PCC/PSDTC's proposed rule changes, as amended, would require bank participants to provide PCC/PSDTC with certain periodic financial statements already filed with the banks' respective state or federal banking authorities.[1] PCC/PSDTC currently require financial reports from broker-dealer participants, but not bank participants. Under the proposals, bank participants would be required to file with PCC/PSDTC their balance sheets, income statements and statements of changes in equity capital.[2]

PCC/PSDTC believe that the proposals are consistent with section 17A of the Act because they would enable PCC/PSDTC to improve their monitoring processes and therefore would facilitate the clearance and settlement of securities transactions and the safeguarding of securities and funds. Specifically, PCC/PSDTC believe that they would obtain more information about their bank participants' financial condition by requiring those participants to submit quarterly financial reports. PCC/PSDTC believe that these reports would enable them to improve their evaluation of the financial risks faced by PCC/PSDTC and their participants.

Copies of all documents relating to the proposal, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, may be inspected and copied at the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, D.C. and at PCC/PSDTC's principal offices.

To assist the Commission in determining whether to approve the proposals or to institute disapproval proceedings, the Commission invites public comment on the proposals. Please refer to File Nos. SR-PCC-85-03 and SR-PSDTC-85-04 and file six copies of comments with the Secretary of the Commission, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549, by August 13, 1985.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

Dated: July 16, 1985.

Shirley E. Hollis,

Assistant Secretary.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Application of New Wien Airlines, Inc. d/b/a/ Wien Airlines for Certificate Authority Under Subpart Q

AGENCY: Department of Transportation.

ACTION: Notice of Order to Show Cause (Order 85-7-44), Docket 43060.

SUMMARY: The Department is directing all interested persons to show cause why it should not issue an order finding New Wien Airlines, Inc. d/b/a Wien Airlines fit, transferring the certificate of public convenience and necessity issued to Wien Air Alaska, Inc., by Order 82-12-131 to New Wien, for authority to engage in scheduled interstate and

---

[1] Under NSCC's continuous net settlement system, daily projection reports show participants' settlement obligations for the following day. Short positions in securities will be settled automatically through deliveries from participants' depository accounts unless a participant "exempts" the short position (*i.e.*, unless a participant directs NSCC not to settle the short position or a portion of it).

[1] The reports required under PCC/PSDTC's proposals are already prepared by their bank participants and filed with the appropriate state or federal regulatory authorities. Thus, PCC/PSDTC believe that the submission of these reports to PCC/PSDTC would not impose any significant additional regulatory or administrative burdens on bank participants.

[2] PCC Rule II, Section 4(b); PCC Rule XIII, Section 2; PSDTC Rule 2, Section 4(b); and PSDTC Rule 10, Section 2 authorize PCC/PSDTC to require participants to provide information relating to their financial condition.

overseas air transportation, and cancelling the domestic all-cargo service certificate issued to Wien Air Alaska, Inc., by Order 78-1-86.

DATES: Persons wishing to file objections shall do so no later than August 6, 1985; answers to objections shall be filed no later than August 16, 1985.

ADDRESSES: Objections and answers to objections should be filed in Docket 43060 and addressed to the Documentary Services Division, U.S. Department of Transportation, 400 Seventh Street, SW., Room 4107, Washington, DC 20590, and should be served upon the persons listed in Attachment B to the order.

FOR FURTHER INFORMATION CONTACT: Juliana M. Winters, (202) 426-7631, Office of Aviation Enforcement and Proceedings, or Linda L. Lundell, (202) 755-3812, Office of Aviation Operations, Special Authorities Division, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590.

SUPPLEMENTARY INFORMATION: The complete text of Order 85-7-44 is available from our Documentary Services Division at the address above. Persons outside the metropolitan area may send a postcard request for Order 85-7-44 to that address.

Dated: July 17, 1985.

Matthew V. Scocozza,

Assistant Secretary for Policy and International Affairs.

Minority Business Resource Center Advisory Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the Minority Business Resource Center Advisory Committee to be held August 22, 1985, at 10:00 a.m., at the Los Angeles Airport Marriott Hotel, 5855 West Century Boulevard, Los Angeles, California. The agenda for the meeting is as follows:

—Status of MBRC programs
—WBE initiative

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify the Minority Business Resource Center not later than the day before the meeting. Information pertaining to the meeting may be obtained from Ms. Betty Chandler, Minority Business Resource Center, 400 7th Street, SW, Washington, D.C. 20580, telephone (202) 426-2852. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on July 17, 1985.

Amparo B. Bouchey,

Director, Office of Small and Disadvantaged Business Utilization.

BILLING CODE 4910-62-M

DEPARTMENT OF THE TREASURY

Customs Service

[T.D. 85-122]

Fish; Tariff-Rate Quota for Calendar Year 1985

AGENCY: Customs Service, Treasury.

ACTION: Announcement of the quota quantity on certain fish for Calendar Year 1985.

SUMMARY: The tariff-rate quota for fish pursuant to item 110.55 (TSUS) for the 1985 Calendar Year is 56,822,178 pounds.

EFFECTIVE DATES: The 1985 tariff-rate quota is applicable to fish described in item 110.50, TSUS, which are entered, or withdrawn from warehouse, for consumption during Calendar Year 1985.

FOR FURTHER INFORMATION CONTACT: William J. Wagner, III, Head, Quota Section, General Programs Branch, Duty Assessment Division, Office of Commercial Operations, U.S. Customs Service, Washington, D.C. 20229, (202) 556-8592.

SUPPLEMENTARY INFORMATION: This tariff-rate quota for fish is equal to 15 percent of the average aggregate apparent annual consumption in the United States of fish, fresh, chilled or frozen, fillets, steaks, and sticks of cod, cusk, haddock, hake, pollock, and rosefish, for the 3 preceding years, as provided for in Headnote 1, part 3A Schedule 1, and item 110.50, TSUS.

It has been determined that the average aggregate consumption for Calendar Years 1982 through 1984 was 378,814,524 pounds. Therefore, the quota quantity for fish, item 110.50, TSUS for Calendar Year 1985 is 56,822,178 pounds.

William von Raab,

Commissioner of Customs.

U.S. Production, Entries of American Fisheries, and Imports for Consumption of: Fresh or frozen fillets, steaks and sticks of cod, haddock, hake, pollock, cusk and rosefish.

POUNDS—1982-1984

BILLING CODE 4820-02-M

Internal Revenue Service

1986 Individual Income Tax Return Electronic Filing Pilot

AGENCY: Internal Revenue Service, Treasury.

ACTION: Electronic filing pilot.

SUMMARY: A growing number of tax preparation firms use computers to prepare individual income tax returns. To take advantage of this trend, the Internal Revenue Service (IRS) is planning to conduct a pilot of electronic filing in 1986. In this pilot, qualified automated return preparers will electronically transmit tax year 1985 individual income tax returns to the IRS. The pilot will be limited to refund returns prepared for taxpayers in the Phoenix, Arizona; Cincinnati, Ohio; and Raleigh-Durham-Fayetteville, North Carolina metropolitan areas.

Electronic filing eliminates most of the manual processes required to handle paper returns. Thus, IRS expects to reduce by two to three weeks the time required to issue refunds on electronically filed returns. However, this result of more rapid refunds cannot be guaranteed by IRS because, as with any return, errors made by the taxpayer, the preparer or the IRS, may cause delays.

Interested firms that prepare returns in the three metropolitan pilot sites should write to the Assistant Commissioner (Planning, Finance and Research), IRS, 1111 Constitution Avenue, NW, Washington, D.C. 20224, Attn: Electronic Filing Project, or alternatively call the Project Office at (202) 566-7541, for detailed requirements that must be met to qualify for participation in this pilot. As a basic requirement, firms should have at least two years of experience in the automated preparation of tax returns. Firms wishing to be considered for participation in this pilot must apply to the Service by September 12, 1985.

John L. Wedick, Jr.,

Assistant Commissioner (Planning, Finance and Research).

BILLING CODE 4830-01-M

UNITED STATES INFORMATION AGENCY

President's International Youth Exchange Initiative

The United States Information Agency (USIA) announces the establishment of an international youth exchange organization index.

Purpose

USIA intends to conduct a series of limited solicitations during fiscal year 1986, whereby specific organizations will be invited to submit proposals in competition for exchange projects initiated by USIA. For each project, the Agency will identify organizations that are deemed competent to implement the project and solicit proposals from them to conduct the exchanges. Organizations will be chosen for consideration from a list maintained by USIA for this purpose. This list will be known as the index. It is anticipated that the index will facilitate the grant review process for this year's grants competitions by enabling all organizations to submit basic documentation at one time, rather than with each proposal submitted, as in the past. This announcement is not a request for proposals.

Eligibility

Youth exchange organizations may be listed in the index by submitting program information and a uniform set of documents as outlined below. Inclusion in the index does not guarantee selection in any limited solicitation, nor even an invitation to submit a proposal. It also does not signify any degree of US Government approval for an organization or its programs. Organizations must be incorporated not-for-profit in the United States and the focus of their activities should be international youth exchange or youth service. The term youth in this context refers to individuals aged 15-25. Organizations that have current grants under the President's International Youth Exchange Initiative may find it advisable to participate in this exercise in order to guarantee that USIA has up-to-date information on the full breadth of each organization's program. Although the index listing is not a requirement for being considered for a request for proposals, it will be the principal source of information for USIA in determining whether an organization might be interested in a given project.

Documentation for the Index

The Youth Exchange Staff of USIA will distribute a form to facilitate this collection of data. Organizations may request the form by writing to the address at the end of this announcement. The data includes the following:

Name of organization.
Address and phone number.
Date of incorporation.
Previous legal names, if any.
Names and titles of key officers (chief executive, program, and financial officers) in the central office.
Total institutional annual budget.

American regional offices:

Number and location.
Number of paid employees in each.
Number of volunteers attached to each.

Affiliates abroad:

Number and location of affiliates.
Profit/not-for-profit status of each.
Number of paid staff in each.
Number of volunteers attached to each.

Brief description of the program or programs currently conducted by your organization; information should include at a minimum:

Project type (e.g., year long academic homestay program) and title (e.g., Americans Overseas).
Duration of each exchange program (e.g., academic year—9 months).
Nature of program, including the standard age range of participants and significant activities (e.g., American youth aged 15-19 are placed in high schools abroad, stay with host families, receive orientation for two weekends during the 3 months prior to departure, etc.)
Tuition, program fee, or cost.

Quantitative data:

The number of participants, outbound and inbound, for each program for the 1985 calendar year or the 1985-86 academic year by country.
The number of participants for any program that is ongoing but which may be in hiatus during 1985 (e.g., the organization may have been conducting exchanges with Brazil for several years, but had no exchanges in 1985).
The number of years that your organization has been active in each country where you conduct exchanges.

This data is critcial to the intended use of the index.

Additionally the following documents should be enclosed with the form:

Articles of incorporation and evidence of legal changes of name.
Proof of tax exempt status.
List of the organization's board of directors or similar governing body.
The latest annual report and current audited financial statement.

VOL
50
ISS
141
JL
23
1985
UMI

Statement whether organization has J–1 visa designation. If not, a description of type of visa used to bring foreign participants to the United States.

Organizations interested in being considered for grants must supply the following documents related to anti-discrimination and equal employment opportunity:

1. A statement of assurance of equal employment opportunity and compliance, signed by a responsible officer of the organization.
2. Data describing the employment profile of the organization by sex, minority status, age and handicap.
3. A copy of any existing Affirmative Action Plan of the organization, if there are more than 50 employees.

The information and documentation described above should be received in USIA no later than August 31, 1985. Please address all correspondence on this matter to: Youth Exchange Staff, Room 255, USIA, 301 Fourth Street, SW., Washington, D.C. 20547. For further information call (202) 485–7299.

Dated: July 18, 1985.

Ronald L. Trowbridge,

Associate Director, Bureau of Educational and Cultural Affairs.

2

FEDERAL COMMUNICATIONS COMMISSION

July 18, 1985.

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, July 25, 1985, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, D.C.

Agenda, Item No. and Subject

General—1—Title: Report and Order to allocate spectrum for the provision of a new Radiodetermination Satellite Service (RDSS). Summary: The FCC will consider an amendment to the Table of Frequency Allocations to provide allocations for radiodetermination satellite service.

Private Radio—1—Title: Amendment of Part 90 Subpart M of the Commission's Rules Governing the Application Processing Procedures for the 800 MHz Private Land Mobile Band. Summary: The Commission is adopting a Report and Order to amend its rules governing the application processing procedures for the 800 MHz and land mobile band to encourage the expansion of fully loaded trunked systems.

Common Carrier—1—Title: Western Union Application for Review of Order Authorizing RCA American Communications to Modify its Space Stations in the 12/14 GHz Bands. Summary: The Commission will consider arguments made by Western Union that a decision by the Common Carrier Bureau on January 25, 1985 authorizing RCA American to increase the power of its traveling-wave tube amplifiers on certain of its satellites was in error.

Common Carrier—2—Title: Western Union Telegraph Company Petitions for Reconsideration of the 1983 Authorizations to Construct, Launch and Operate Space Stations in the Domestic Fixed-Satellite Service. Summary: The Commission will consider arguments made by Western Union that the Commission's decision (94 FCC 2d 467 (1983) not to permit Western Union to substitute a new satellite system for one that was abandoned was erroneous.

Common Carrier—3—Title: Petition for Reconsideration by Advanced Business Communications, Inc. Summary: The Commission will consider arguments made by ABCI that the Commission's decision, released February 27, 1985, which declared ABCI's space station authorizations null and void was in error. Title: Application for Review by Rainbow Satellite, Inc. Summary: The Commission will consider arguments made by Rainbow that a decision by the Common Carrier Bureau released February 14, 1985 which declared Rainbow's space station authorizations null and void was in error. Title: Applications for Review by United States Satellite Systems, Inc. Summary: The Commission will consider arguments made by USSSI that a decision by the Common Carrier Bureau relesed February 14, 1985, which declared USSSI's space station authorizations null and void was in error.

Common Carrier—4—Title: Licensing Space Stations in the Domestic Fixed-Satellite Service (CC Docket No. 85–135). Summary: The Commission will consider revisions to Part 25 of the rules and other matters pertaining to the qualifications of domestic fixed-satellite applicants.

Common Carrier—5—Title: Assignment of Orbital Locations to Space Stations in the Domestic Fixed-Satellite Service. Summary: The Commission will consider an orbit assignment plan for new and previously authorized space stations.

Common Carrier—6—Title: *Amendment of Sections 64.702 of the Commission's Rules and Regulations (Third Computer Inquiry).* Summary: the Commission will consider whether to institute a new Computer Inquiry rulemaking proceeding proposing revision of the Second Computer Inquiry ("Computer II") treatment of enhanced and non-communications services, and to address related issues that have arisen in the past, including: protocol conversion; colocation issues integrated services digital networks (ISDN); voice message storage services; and the Computer II (but not Part 68) treatment of network channel termingating equipment (NCTE). Title: Report and Order regarding the establishment of satellite systems providing international communication services CC Docket No. 84–1299, and Memoranda Opinions and Orders regarding the applications filed by Orion Satellite Corporation, International Satellite Inc., RCA American Communications, Inc., Cygnus Satellite Corporation, and Pan American Satellite Corporation. Summary: The Commission will consider whether to issue a Report and Order regarding the establishment of satellite systems which would provide international communications services. The Commission will also consider whether to issue Memoranda Opinions, Orders and Authorizations on the five applications filed by Orion Satellite Corporation, International Satellite, Inc., RCA American Communications, Inc., Cygnus Satellite Corporation, and Pan American Satellite Corporation.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Judith Kurtich, FCC Office of Congressional and Public Affairs, telephone number (202) 254–7674.

William J. Tricarico,

Secretary, Federal Communications Commission.

Part II

Department of the Treasury

Customs Service

Privacy Act of 1974, Notices of Systems of Records

VOL 50 ISS 141 JL 23 1985 UMI

DEPARTMENT OF THE TREASURY

Customs Service

Privacy Act of 1974: Periodic Publication of all Privacy Act Systems of Records

The Department of the Treasury is systematically republishing all of its systems of records notices. This notice updates the information for the systems of records maintained by the U.S. Customs Service. The notices for these systems of records were last published by the Federal Register in the Privacy Act Issuances 1984 Compilation, pages 714–767.

The Department has eliminated Appendix AA which listed blanket-type routine uses. The applicable routine uses now appear in each system of records. All other changes are editorial in nature and consist principally of address changes, revision of organizational titles, and transfer of functions. None of the changes require an altered system report as prescribed by 5 U.S.C. 552a(o).

The U.S. Customs Service has deleted 10 systems of records for the reasons noted below.

Dated: July 15, 1985

John F.W. Rogers,

Assistant Secretary of the Treasury (Management).

Deletions

CS .124—Inspector Training Quarterly Checklist Forms and Inspector Correspondence Course Enrollment Forms (Obsolete)
CS .253—Vehicle Microfiche File (Not a Customs system of records)

The following systems contain no personal information and are not Privacy Act Systems of Records:

Treasury/Customs .001

SYSTEM NAME:

Acceptable Level of Competence, Negative Determination-Treasury/Customs.

SYSTEM LOCATION:

Personnel Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any employee of U.S. Customs Service Northeast Region, who receives a negative determination regarding acceptable level of competence.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employee's name, Social Security number, position description, grade, and correspondence containing specific reasons for negative determination.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and stored in locked file cabinets.

RETRIEVABILITY:

The records are filed by the individual's name.

SAFEGUARDS:

Direct access is limited to the Director and five employees of the Personnel Division. In addition to being stored in locked cabinets, the area in which these records are stored is locked during non-duty hours and the building is guarded by uniformed security police.

RETENTION AND DISPOSAL:

Records are retained until the employee leaves the Customs Service.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information is furnished by the employee, employee's supervisor and the Federal Employee Appeals Authority.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .002

SYSTEM NAME:

Accident Reports-Treasury/Customs.

SYSTEM LOCATION:

Logistics Management Division, Southeast Region, 99 SE 5th Street, Miami, FL 33131; Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any employee of Southeast Region who has had an accident on Government property or in an official vehicle since 1973.

CATEGORIES OF RECORDS IN THE SYSTEM:

Standard Government forms dealing with accidents and personal injuries.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended. Executive Order 11807 and Section 19 of Occupational Health & Safety Act of 1970; 5 U.S.C. 8101–8150, 8191–8193.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to employee's beneficiary in event of death following the accident or injury or to employee's agent in case of disability. (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to

VOL 50 ISS 141 JL 23 1985 UMI

obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case folder is maintained in an unlocked drawer in chronological order by date.

RETRIEVABILITY:

Each case is identified by employee name and date of accident.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Logistics Management Division within the Southeast Region Headquarters Building. During non-working hours the room in which the metal container is located is locked.

RETENTION AND DISPOSAL:

Accident Record files are retained in accordance with the Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Logistics Management Division, Southeast Region, Headquarters, 99 S.E. 5th Street; Logistics Management Specialist, Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, CA 94105.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information originates with employees who have been injured and/or have been involved in accidents during the exercise of their official duties. Also included are witness reports and statements, the employees' supervisors' statements and doctors' reports.

Treasury/Customs .269

SYSTEM NAME:

Accounts Payable Voucher File-Treasury/Customs.

SYSTEM LOCATION:

Financial Management Division, U.S. Customs Service, South Central Region, 1440 Canal Street, New Orleans, LA 70112.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All South Central Region personnel to whom travel and other disbursements are made. All individuals who provide goods and services to the South Central Region.

CATEGORIES OF RECORDS IN THE SYSTEM:

Invoices and travel/other vouchers and supporting disbursements schedules.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders in unlocked file cabinets.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Usage limited to Regional personnel; cabinets are located in rooms which are locked during non-working hours.

RETENTION AND DISPOSAL:

In accordance with Records Control Manual; records are disposed of when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Financial Management Division, U.S. Customs Service, South Central Region, 1440 Canal Street, New Orleans, LA 70112.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Invoices and travel/other vouchers submitted by the individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .014

SYSTEM NAME:

Advice Requests (Legal) (Pacific Region)—Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are the subject of any request for legal advice by another office within Customs, another Government agency, or the private individual himself. An example would be a requested by a District Director for advice as to whether or not a violation of a Customs law for which a penalty may be assessed has occurred.

CATEGORIES OF RECORDS IN THE SYSTEM:

Intra-agency or inter-agency memoranda and reports of investigation and other documents submitted by the requesting office for use in handling the request. Correspondence from the private individual submitting the request.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended; Reorganization Plan No. 1 of 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or

VOL 50 ISS 141 JL 23 1985 UMI

other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal file cabinet.

RETRIEVABILITY:

Each case file is identified in a manual alphabetical card file by the name of the individual who is the subject of the request and in the alphabetical file folder within the metal file cabinet by the name of the individual who is the subject of the request.

SAFEGUARDS:

The metal file cabinet described above is maintained within the area assigned to the Office of the Regional Counsel within the Federal Building. During non-working hours the room in which the metal file cabinet is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Request for legal advice files are retained until there is no longer any space available for them within the metal file cabinet, at which time files are transferred to the Federal Record Center or destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, 211 Main Street, San Francisco, CA 94105.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information comes from the memoranda or correspondence from the office or individual requesting the advice and from any supporting documents that office or individual may transmit.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .021

SYSTEM NAME:

Arrest/Seizure/Search Report and Notice of Penalty File-Treasury/Customs.

SYSTEM LOCATION:

Office of the District Director of Customs, Room 228, United States Customs Service, 335 Merchant Street, Honolulu, HI 96813.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are suspected of attempting to smuggle, or have smuggled, merchandise or contraband into the United States; individuals who have undervalued merchandise upon entry into the United States; vessels and aircraft which have been found to be in violation of Customs laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of individuals, vessels, aircraft, identifying factors; nature of violation or suspected violation; circumstances surrounding violation or suspected violation; date and place of violation or suspected violation; and on-site disposition actions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each report is assigned a case number and filed accordingly in a locked, metal file located in the Office of the Director of Patrol.

RETRIEVABILITY:

Each report is identified in a manual alphabetical card file by the name of the individual, vessel or aircraft.

SAFEGUARDS:

In addition to being stored in a locked metal cabinet, these records are located in a locked room, the keys of which are controlled and issued only to authorized personnel.

RETENTION AND DISPOSAL:

These records are retained for one year (1) or until action has been completed.

SYSTEM MANAGER(S) AND ADDRESS:

District Director of Customs, U.S. Customs Service, Post Office Box 1641, Honolulu, HI 96806.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I) and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .022

SYSTEM NAME:

Attorney Case File-Treasury/Customs.

SYSTEM LOCATION:

Office of Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are parties in litigation with the United States Government or sub-units, or employees or officers thereof, in matters which affect or involve the U.S. Customs Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Seizure reports, investigative reports, Customs forms and documents relative to the case, petitions for relief, decisions on petitions, other background information relating to the litigation, motions, orders, etc., filed in connection with the litigation; investigative reports relative to an individual's economic ability to pay a claim.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records maintained in file folders.

RETRIEVABILITY:

Records indexed by name of private individual involved in the litigation.

SAFEGUARDS:

Open case files maintained in file cabinets with access by Regional Counsel and his staff only; closed case files maintained in locked cabinet with keys retained by Regional Counsel and his staff only.

RETENTION AND DISPOSAL:

Retained until there is no longer any space available within metal cabinets, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files is received from U.S. Customs employees, reports of investigation, Customs penalty case files, other Government agencies, parties involved in litigation, banks and credit bureaus, administrative proceedings regarding disciplinary action taken against Customs Service employees, Equal Opportunity complaints, denials of tort claims, denials of information under the Freedom of Information Act, and from other parties' information pertinent to the litigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3). (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .285

SYSTEM NAME:

Automated Index to Central Enforcement Files-Treasury/Customs.

SYSTEM LOCATION:

Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Known violators of U.S. Customs laws. (2) Convicted violators of U.S. Customs and/or drug laws in the United States and foreign countries. (3) Suspected violators of U.S. Customs or other related laws. (4) Private yacht masters and pilots arriving in the U.S. (5) Individuals filing official U.S. Government forms 4790 (Currency and Monetary Instruments Reporting), 4789 (Currency Transaction Report), 90.22–1 (Foreign Banking Act Report).

CATEGORIES OF RECORDS IN THE SYSTEM:

A listing of Memoranda of Information Received, Reports of Investigations; Search/Arrest/Seizure Reports, Currency and Monetary Instrument Reports, Currency Transaction Reports, reports on Foreign Banking transactions, reports on Fines, Penalties, and Forfeitures, reports required by Private Aircraft Reporting System, reports required by the Private Yacht Reporting System, reports on vessel violations, Investigation Program Analyst (IPA) reports relating to an individual, various other correspondence (letter, memoranda, etc.), which relates to an individual in the Treasury Enforcement Communications System.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and Treasury Department Order No. 165, Revised, as amended. Authority for the collection and maintenance of the report included in the system is: 19 U.S.C. 1603; 19 U.S.C. 1431; 19 U.S.C. 1624; 19 U.S.C. 66; 31 CFR Part 103.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to

opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc and tape, microfiche.

RETRIEVABILITY:

Name, personal identification numbers, Customs case number, document's central file number.

SAFEGUARDS:

(1) All Central Files users must have a full field background investigation. (2) The "need to know" principle applies. (3) Procedural and physical safeguards are utilized such as accountability and receipt records, guard patrolling restricted areas, alarm protection systems, special communication security. (4) Access is limited to all Office of Investigations terminals and all Law Enforcement Systems Division Headquarters and San Diego terminals.

RETENTION AND DISPOSAL:

Records will be maintained in the Automated Index to Central Enforcement files for as long as the associated document or microfiche is retained. Records will be destroyed by erasure of the magnetic disc and by burning or shredding the microfiche.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H), and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .270

SYSTEM NAME:

Background-Record File of Non-Customs Employees-Treasury/Customs.

SYSTEM LOCATION:

Offices of District Directors, North Central Region, Chicago IL 60603, for addresses. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past non-Customs personnel requiring a background investigation to gain admittance to restricted U.S. Customs premises.

CATEGORIES OF RECORDS IN THE SYSTEM:

Report of background investigations, names, addresses, Social Security numbers and date and place of birth, etc. of non-Customs employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and stored in file cabinets in each District Director's office within the North Central Region, Chicago, IL 60603.

RETRIEVABILITY:

Each file is identified by the name of the non-Customs employee.

SAFEGUARDS:

The file cabinets are maintained within the area assigned to the District Director. During nonworking hours the room and/or building in which the file cabinet is located is locked.

RETENTION AND DISPOSAL:

Employee name data is retained during the period the non-Customs employee requires admittance to restricted areas.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, as appropriate in the North Central Region, Chicago, IL 60603.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this file originates from the individual non-Customs employee working for a private contractor who requires admittance to restricted U.S. Customs premises, from reports of background investigation which include interviews of Customs personnel and private parties and from other Customs internal documents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .028

SYSTEM NAME:

Baggage Declaration-Treasury/Customs.

SYSTEM LOCATION:

Located at the District and Port Directors' offices in the Ogdensburg, New York district. (Northeast Boston).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons required to make a written baggage declaration.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, items declared and value.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 5311 *et seq;* 31 CFR Part 103, 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relations to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes (original 4790's are stored at the appropriate Customs port of entry or departure, original 4789's are stored by IRS in Ogden, UT, and original 90 22–1's are stored at Customs Headquarters in Washington, D.C.).

RETRIEVABILITY:

By name and other unique identifiers.

SAFEGUARDS:

Procedural and physical safeguards are utilized such as accountability and receipt access, guards patrolling the area, restricted access and alarm protection systems, special communication security, etc.

RETENTION AND DISPOSAL:

Indefinte.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Investigations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229

VOL 50 ISS 141 JL 23 1985 UMI

VOL 50 ISS 141 JL 23 1985 UMI

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual. (See 5 U.S.C. 552a (e)(4)(G) and (f)(1).)

RECORD ACCESS PROCEDURE:

This system of records may not be accessed under the Privacy Act for the Purpose of inspection.

CONTESTING RECORD PROCEDURES:

Since this system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual and those records, if any, cannot be inspected, the system may not be accessed under the Privacy Act for the purpose of contesting the content of the record.

RECORD SOURCE CATEGORIES:

This system contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .030

SYSTEM NAME:

Bankrupt Parties-in-Interest—Treasury/Customs.

SYSTEM LOCATION:

Regional Headquarters in Southwest Region, U.S. Customs Service, 500 Dallas Street, Suite 1280 Houston, TX 77002.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals indebted to U.S. Customs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Listed by name, address, port of service, bill number, and dollar amount of delinquent receivables.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 89–508, the "Federal Claims Collection Act of 1966;" 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information consists of copies of letters or memoranda issued to or received from individuals. Records of phone calls and copies of documents related to the individual's transaction.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .032

SYSTEM NAME:

Biographical Files (Headquarters)—Treasury/Customs.

SYSTEM LOCATION:

Public Information Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and the Regional Public Information offices located at the addresses listed in Customs Appendix A.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

General biographical records are maintained on all Customs employees for new release and public information purposes.

CATEGORIES OF RECORDS IN THE SYSTEM:

General biographical information including home address, date and place of birth, educational background, work experience, honors and awards, hobbies, and other information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USERS:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is maintained in file cabinets in the Public Information Division at Customs Headquarters.

RETRIEVABILITY:

File folders are identified by the name of the person and are filed in alphabetical order.

SAFEGUARDS:

The office in which the records are located is locked during non-working hours and the building is guarded by uniformed guards.

RETENTION AND DISPOSAL:

Files are retained during the individual's tenure as an employee of the Customs Service, after which the files are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Public Information Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The individual involved, Customs personnel officers and co-workers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .037

SYSTEM NAME:

Cargo Security File-Treasury/Customs.

SYSTEM LOCATION:

Special Agent in Charge, Room 350, Patrick V. McNamara Building, 477 Michigan Avenue, Detroit, MI 48226; Special Agent in Charge, Room 210, 55 Erieview Plaza, Cleveland, OH 44114.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Longshoremen, Customs Bonded Warehouse employees, licensed Cartmen employees and other persons having access to cargo.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, place of employment, residence, criminal records, date of birth, Social Security numbers, photographs, descriptions and other identifying data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has

requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in loose-leaf binders and cross indexed index cards showing license numbers are kept in a metal box. They are kept in the communications room for rapid access.

RETRIEVABILITY:

Names of companies and individuals can be retrieved by checking the loose-leaf binders kept in an alphabetical listing. License plate numbers are listed in numerical sequence on index cards.

SAFEGUARDS:

The records are kept in a room within the office which is locked when not in use. Keys are available only to employees, and are not accessible to persons other than employees. Employees having access to the room have received a security background investigation and clearance. The offices are located in buildings with guards, and admittance is controlled by sign-in, sign-out sheets after regular hours.

RETENTION AND DISPOSAL:

Information remains in the system until no longer needed. The records are disposed of by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Special Agent In Charge, Room 350, Patrick V. McNamara Building, 477 Michigan Avenue, Detroit, MI 48226; Special Agent in Charge, Room 210, 55 Erieview Plaza, Cleveland, OH 44114.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4)(G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .271

SYSTEM NAME:

Cargo Security Record System-Treasury/Customs.

SYSTEM LOCATION:

District Director, 600 South Street, New Orleans, LA 70130; District Director, P.O. Box 2748, Mobile, AL 36601.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Drivers of motor vehicles of licensed cartmen and lightermen; properties and operators of each class of Customs bonded warehouse and their employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record on drivers of motor vehicles contain information relating to personal statistical data, physical characteristics, history of past employments, previous five years residences, alias (if any), citizenship, military records, criminal record other than traffic violations, use of narcotic drugs, and photograph. Name of operator of bonded warehouse and employees.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Customs Bonded Carriers' employees and correspondence.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury Customs .041

SYSTEM NAME:

Cartmen or Lightermen-Treasury/Customs.

SYSTEM LOCATION:

Customs ports, districts, and regional offices. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and firms who have applied for or hold a license as a bonded cartman or lighterman and individuals employed by cartman or lightermen.

CATEGORIES OF RECORDS IN THE SYSTEM:

Internal Customs Service memoranda and related materials regarding applications for licenses and identification cards, reports of investigations for approving these licenses and identification cards and card files showing outstanding identification cards and their location. Files also include fingerprint cards.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies reponsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil,

VOL 50 ISS 141 JL 23 1985 UMI

criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained in a metal file cabinet in the office maintaining the system, or on magnetic disc.

RETRIEVABILITY:

Each case file is identified in a manual alphabetical card file by the name of the licensed cartman or lighterman and in the alphabetical file folder by the name of the licensed cartman or lighterman. Each employee's record is filed in a manual alphabetical card file cross-referenced with company names.

SAFEGUARDS:

The file is placed in a metal file cabinet at the work site. At locations where work is not performed on a 24-hour basis the work area is locked and only authorized persons are permitted in the building.

RETENTION AND DISPOSAL:

Files are reviewed at least once a year at which time cancelled I.D. cards may be removed. Closed CF 3078's may also be removed, but normally are held for approximately three years in case a new application is received from the same company or transferred to another company after a new investigation.

SYSTEM MANAGER(S) AND ADDRESS:

Port Directors, District Directors, and Regional Commissioners of the U.S. Customs Service. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), e(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .042

SYSTEM NAME:

Case and Complaint File-Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, U.S. Customs Service, North Central Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual initiating a court case or against whom a court case is brought; any individual involved in a personnel action, either initiating a grievance, discrimination complaint, or unfair labor practice complaint against the U.S. Customs Service or against whom a disciplinary or other adverse action is initiated; claimants or potential claimants under the Federal Tort Claim Act; individuals involved in accidents with U.S. Customs Service employees; U.S. Customs Service employees involved in accidents; persons seeking relief from fines, penalties and forfeitures and restoration of proceeds from the sale of seized and forfeited property; requesters under the Freedom of Information Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

The System contains the individual's name, the type of case, the uniform filing guide number, the Regional Counsel's office file number, by whom the matter was referred, the district where the action originated, if applicable.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each alphabetical card is inserted in a metal file drawer.

RETRIEVABILITY:

Each card is identified alphabetically by the individual's name described in Category of Individual and the filing is alphabetically used by last name.

SAFEGUARDS:

The metal filing drawer containing the alphabetical cards described above is maintained within the area assigned to the Office of the Regional Counsel, North Central Region at 55 E. Monroe Street, Chicago, IL 60603. During non-working hours, the room in which the metal filing drawer is located is locked and access to the building is controlled at all times by uniformed guards with a check-in system for employees. Only employees of the Regional Counsel's office and authorized building personnel have keys to the building.

RETENTION AND DISPOSAL:

These files are retained until there is no longer space available for them within the metal filing drawer at which time the oldest cards for closed files will be transferred to the storage area within the confines of the office. The storage area is a large area containing cardboard boxes and metal storage cabinets, unable to be locked.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel of Customs, Room 1417, United States Customs Service, 55 E. Monroe Street, Chicago, IL 60603.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained on these cards originates with the initiation of any action by an individual which is channeled through the Regional Counsel's office. Additional information is identifying information for locating the particular case file relating to the court case, personnel action, tort claim, relief petition, or request under the Freedom of Information Act.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .043

SYSTEM NAME:

Case Files (Regional Counsel-South Central Region)—Treasury/Customs.

SYSTEM LOCATION:

The system is located at 1440 Canal Street, New Orleans, LA 70112, Office of the Regional Counsel, South Central Region, United States Customs Service.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) The first category of individuals on whom records are maintained in the system includes employees who have filed adverse actions, equal employment opportunity complaints, and grievances within the South Central Region; employees who have filed tort claims under the Military Personnel and Civilian Employees Act; employees of the Regional Counsel's staff with regard to travel, training, evaluations, and other related personnel records; and applications for employment submitted to the Office of the Regional Counsel by prospective employees; (2) The second category of individuals on whom records are maintained in the system includes those individuals not employed by the agency who have filed equal employment opportunity complaints; tort claims under the Federal Tort Claims Act; tort claims filed under the Small Claims Act; individuals who have outstanding Customs bills submitted for collection; individuals, corporations, partnerships, and proprietorships who have filed supplemental petitions on fines, penalties, and forfeitures within the South Central Region; files relating to individuals, corporations, partnerships, and proprietorships upon whom criminal case reports are prepared pending litigation and prosecution for violation of 19 U.S.C. 1305, 18 U.S.C. 542, 18 U.S.C. 545, 18 U.S.C. 549, 18 U.S.C. 1001, 18 U.S.C. 496, and 18 U.S.C. 371; on individuals, corporations, partnerships, and proprietorships who have filed supplemental petitions submitted in civil and technical violations for 19 U.S.C. 1592, 19 U.S.C. 1453, 19 U.S.C. 1448, 19 U.S.C. 1584, irregular deliveries, shortages and overages; and miscellaneous civil and technical violations.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of records maintained in the system are personnel actions; tort claims; collection efforts; supplemental petitions for fines, penalties, and forfeitures case in the South Central Region; criminal case reports for pending litigation and prosecution of cases in the South Central Region; supplemental petitions for civil and technical violations committed within the South Central Region; and employment applications for positions in the Office of the Regional Counsel, South Central Region.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are currently maintained in alphabetical file folders which are filed in two steel filing cabinets in the Office of the Regional Counsel, South Central Region, and they are maintained under lock and key outside the ordinary business hours.

RETRIEVABILITY:

Records maintained by the Office of the Regional Counsel, South Central Region, are retrievable by identifying the character of the record (i.e., adverse action, grievance, tort claim, criminal case), then by comparable statute or regulation, and then alphabetically by name and identifier. In addition, each case file is similarly identified on the alphabetical file folder within the steel filing cabinet.

SAFEGUARDS:

(a) The steel filing cabinets described above are maintained within the area assigned to the Office of the Regional Counsel, 1440 Canal Street, New Orleans, LA 70112. During non-working hours the room in which the locked steel cabinets are located is locked, and access to the building is controlled at all times by uniformed guards; (b) The policies and practices of the Office of the Regional Counsel regarding access controls are that only members of the staff of the Office of the Regional Counsel have access to the records maintained by the office.

RETENTION AND DISPOSAL:

Individual records are placed into a file of closed cases by category as stated above, and within each category by name. The oldest closed cases are forwarded to the Federal Records Center in accordance with the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

The agency official responsible for the system of records maintained by the Office of the Regional Counsel is the Regional Counsel, South Central Region, United States Customs Service, 1440 Canal Street, New Orleans, LA 70112.

NOTIFICATION PROCEDURE:

See Appendix A.

RECORD SOURCE CATEGORIES:

The categories of sources of records in this system are the individual himself and files compiled by the United States Customs Services by using employers, other government agency resources, financial institutions, educational institutions attended, and previous employers. Additional information in these files is also derived from reports of investigation regarding the enforcement of civil or criminal statutes, administrative proceedings regarding disciplinary action taken against Customs Service employees, equal opportunity complaints, investigations of tort claims, the processing of inter-office memoranda information requested under the Freedom of Information Act, and the investigation regarding the collection of debts due the Government

VOL 50 ISS 141 JL 23 1985 UMI

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .044

SYSTEM NAME:

Certificates of Clearance—Treasury/Customs.

SYSTEM LOCATION:

Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All employees of the Northeast Region, Boston, MA who have transferred, retired or resigned.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documented detailed information on an "in-house" prepared form indicating that the employee has returned all Government property in his personal possession and that the employee has cleared all debts owing to Customs such as unearned uniform allowances and travel advances.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data is stored in file folders by District and name of employee in a metal file cabinet in the work area of the Payment Section.

RETRIEVABILITY:

The file is retrievable by District and name of employee.

SAFEGUARDS:

The file is located within an office that is locked during non-working hours. The building is guarded by uniformed security policy and only authorized persons are permitted entry to the building.

RETENTION AND DISPOSAL:

The files are kept for 10 years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in the system originates at the District where the individual is employed.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .045

SYSTEM NAME:

Claims Act File-Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles Street, Los Angeles, CA 90053.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current or former Customs employees who have filed, or may file claims under the Military Personnel and Civilian Employees' Claim Act of 1964 for damage to or loss of personal property incident to their service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents relating to the administrative handling of the claim and documents submitted by the claimant in support of the claim.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 240–243; 31 CFR Part 4; Treasury Department Administrative Circular No. 131, August 19, 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to any inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted alphabetically in a file folder which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified alphabetically in the file folder within the metal container by the name of the person who has filed or may file a claim.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Office of the Regional Counsel within the New Federal Building. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

These files are retained indefinitely or until there is no longer any space available for them within the metal container, at which time the oldest closed files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles Street, Los Angeles, CA 90053.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates with a Treasury Department Form No. 3079, Civilian Employee Claim For Loss or Damage to Personal Property, which is completed and filed with the Customs Service by the claimant. Additional information contained in these files may be separately provided by the claimant or by the claimant's supervisor. Where a claim is not filed, the information is limited to the investigative reports of damage to or loss of personal property of a Customs employee.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .046

SYSTEM NAME:

Claims Case File-Treasury/Customs.

SYSTEM LOCATION:

Office of Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110; Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105; Office of the Regional Counsel, Suite 1220, 500 Dallas Street, Houston, TX 77002.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Parties who have filed claims for damage or injury against the Government, or against whom the Government has a claim for damage or injury in matters which affect or involve the U.S. Customs Service; private individuals or Government employees who are involved in the incident which gave rise to the claim.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports relative to the circumstances of the claim (including accident reports provided by Customs personnel, agents' investigative reports, correspondence between Customs and the claimant or his representative); reports relative to an individual's ability to pay a claim for damages.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records maintained in file folders.

RETRIEVABILITY:

Records indexed by name of private individual making a claim or against whom a claim is made; cross-referenced file with name of Government employee, if any, involved.

SAFEGUARDS:

Open case files maintained in file cabinets with access by Regional Counsel and his staff only; closed case files maintained in locked cabinet with keys retained by Regional Counsel and staff only.

RETENTION AND DISPOSAL:

Retained until there is no longer any space available within metal cabinets, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110; Regional Counsel, 211 Main Street, San Francisco, CA 94105; Regional Counsel, Suite 1220, U.S. Customs Service, 500 Dallas Street, Houston, TX 77002.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files is received from U.S. Customs employees, reports of investigation, credit checks, private individuals involved in the claims, other Governmemt agencies and other individuals with pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .049

SYSTEM NAME:

Claims (Receivable and Payable)—Treasury/Customs.

SYSTEM LOCATION:

Financial Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who have presented claims for payments by Customs or one involved in debts due Customs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documented detailed information concerning the claims or debts involved in each case and related financial data on individuals involved in the debt or claim.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data is stored in file folders maintained in a metal file cabinet under the physical security of the Chief, Accounting Branch of the Financial Management Division.

RETRIEVABILITY:

The file is retrieved by the name of the individual on subject matter.

SAFEGUARDS:

The files are located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

RETENTION AND DISPOSAL:

The files on unusual cases are kept as long as needed or reference; routine cases are destroyed.

VOL 50 ISS 141 JL 23 1985 UMI

SYSTEM MANAGER(S) AND ADDRESS:

Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in the system is obtained from the Personnel Department and the Payroll Data Center.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .050

SYSTEM NAME:

Community Leader Survey-Treasury/Customs.

SYSTEM LOCATION:

Equal Employment Opportunity Officer, U.S. Customs Service, Southwest Region, 500 Dallas Street, Suite 1240, Houston, TX 77002.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The names, titles, and organization of persons who may be construed to be occupying a community leadership role and who may be in a position to furnish information or have some influence in regard to the equal employment opportunity program area.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records consist of a card index of the names, titles, and organization of community leaders.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

An alphabetical card listing filed in a metal file cabinet.

RETRIEVABILITY:

Listed and filed alphabetically.

SAFEGUARDS:

The metal file cabinet described above is maintained within the area assigned to the Equal Employment Opportunity Officer. During non-working hours this office area is locked and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

To be useful, this information file must be kept current. Non-current files will be destroyed locally.

SYSTEM MANAGER(S) AND ADDRESS:

Equal Employment Opportunity Officer, U.S. Customs Service, Southwest Region, 500 Dallas Street, Suite 1240, Houston, TX 77002.

NOTIFICATION PROCEDURES:

See Customs Appendix A.

RECORD ACCESS PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information included in these files is developed from local agencies (city, county, state, and Federal) and from local civil organizations.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .051

SYSTEM NAME:

Complaints Against Customs Personnel—Treasury/Customs.

SYSTEM LOCATION:

Director, District Patrol Division, 600 South Street, New Orleans, LA 70130; Director, District Patrol Division, Room 213, International Trade Center, 250 N. Water Street, Mobile, AL 36602.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past employees of the Patrol Division and U.S. Customs Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Letters and official government memoranda.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (e) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained in file folders and stored in locked metal cabinets.

RETRIEVABILITY:

File folders for this system are filed according to Customs filing code system.

SAFEGUARDS:

File is maintained in locked, metal file cabinet, the keys of which are controlled by the custodian of the files. Those departmental officials who may occasionally be granted access consistent with their positions have been cleared by a full field background investigation and granted appropriate security clearance for critical sensitive positions. During non-working hours, the room housing the metal cabinets is locked.

RETENTION AND DISPOSAL:

Complaints against Customs Personnel files are normally destroyed by shredding after one (1) year. If there are any pending complaints, the file may be kept until the case is closed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, District Patrol Division, 600 South Street, New Orleans, LA 70130.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates from any Federal, state or local law enforcement agencies or individuals, from any private business or individuals who may have any complaints against Customs personnel.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .053

SYSTEM NAME:

Confidential Source Identification File-Treasury/Customs.

SYSTEM LOCATION:

Components of this system are located in the Office of Investigations, U.S. Customs Service Headquarters, and the Office of Management Integrity, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and the offices of the Area Directors (Management Integrity) located in New York, Chicago, Los Angeles and Miami. Their addresses are as follows: 6 World Trade Center, Room 502, New York, NY 10048; 55 E. Monroe Street, Suite 1539, Chicago, IL 60603; 300 N. Los Angeles Street, Los Angeles, CA 90053; and 99 SE 5th Street, Miami, FL 33131.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals (sources) supplying confidential information to the U.S. Customs Service, Office of Investigations and Office of Management Integrity.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains some or all of the following information: name (actual or assumed), source (identifying) number, date number assigned, address, citizenship, occupational information, date and place of birth, physical description, photograph, miscellaneous identifying number such as Social Security number, driver's license number, FBI number, passport number, Customs Form 4621 documenting information received from confidential source, amount and date of monetary payment made to source for information supplied, criminal record, copy of driver's license, and copy of alien registration care.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; 19 U.S.C. 1619; and 16 U.S.C. Chapter 27.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are kept in locked cabinets. Access during working hours is limited to authorized personnel.

RETRIEVABILITY:

Office of Investigations and Office of Management Integrity—The name of each source is filed in both alphabetical order and by location of the submitting office.

SAFEGUARDS:

In addition to being stored in secure metal cabinets with government approved locks, the files are located in closely watched rooms of the Office of Investigations and the Office of Management Integrity. Headquarters, and in the four Area Director (Management Integrity) offices. Personnel maintaining the files are selected for their reliability, among other qualities, and afforded access only after having been cleared by a full field investigation. During non-working hours the rooms in which the records are located are locked and access to the building is controlled by uniformed security guards.

RETENTION AND DISPOSAL:

The Office of Investigations destroys a file when it no longer has any utility by either shredding or burning; the Office of Management Integrity reviews files annually for relevance and necessity, and when a file no longer has any utility, it is destroyed either by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Investigations, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW, Washington, D.C. 20229, for those components of the system maintained by the Office of Investigations; Director, Internal Security Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and Area Directors (Management Integrity) located in the four U.S. Customs areas for those components of the system maintained by the Office of Management Integrity.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .054

SYSTEM NAME:

Confidential Statements of Employment and Financial Interests—Treasury/Customs.

SYSTEM LOCATION:

Located in the Regional office or Personnel Management Division, U.S. Customs Service, of each region and headquarters, according to Customs Appendix A.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Those employees as listed in Treasury Personnel Manual Chapter 735 Subpart C, Section 0.735–320, Customs Appendix A, and the currently effective edition of Customs Circular PER–2–PER (Subject: Personnel; Departmental Rules of Conduct and Requirements Concerning Financial Statement).

CATEGORIES OF RECORDS IN THE SYSTEM:

Form TD 3087, Confidential Statement of Employment and Financial Interests.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose

VOL 50 ISS 141 JL 23 1985 UMI

pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are indexed by name.

SAFEGUARDS:

Records are maintained in locked safe.

RETENTION AND DISPOSAL:

Records are destroyed two (2) years after employee leaves a position in which a statement is required, or two (2) years after the employee leaves the agency, whichever is earlier.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, U.S. Customs Service, Washington, D.C. 20229, or appropriate Regional Principal Field Officer.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Individuals required to submit Form TD 3087.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .056

SYSTEM NAME:

Congressional and Public Correspondence File—Treasury/Customs.

SYSTEM LOCATION:

Support Staff, Office of Inspection and Personnel Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Those persons sending letters of inquiry or complaint concerning Customs activities and procedures.

CATEGORIES OF RECORDS IN THE SYSTEM:

Incoming correspondence, the agency's reply, and related materials.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Correspondence records are maintained in file folders and on cards.

RETRIEVABILITY:

Correspondence records are identified by the name of the person making inquiry or complaint. The cards are then filed alphabetically.

SAFEGUARDS:

Access to the records is granted only to authorized Customs personnel. During non-working hours the room in which the records are located in locked and access to the building is controlled by uniformed security police.

RETENTION AND DISPOSAL:

The records are maintained from two to five years and then destroyed or retired to the Federal Records Center as appropriate.

SYSTEM MANAGER(S) AND ADDRESS:

Office Manager, Support Staff, Office of Inspection and Director, Personnel Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Correspondence and related records and materials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .057

SYSTEM NAME:

Container Station Operator Files—Treasury/Customs.

SYSTEM LOCATION:

Offices of District Directors, North Central Region, Chicago, IL (see Customs Appendix A).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past container station operators and employees that require an investigation and related information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Report of investigations, application and approval or denial of bond to act as container station operator and other Customs Service memoranda. Names, addresses, Social Security numbers, and dates and places of birth of persons employed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; Customs Regulations, Part 19.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information

to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and stored in file cabinets in each District Director's office within the North Central Region, Chicago, IL.

RETRIEVABILITY:

Each file is identified by the name of the container station operator.

SAFEGUARDS:

The file cabinets are maintained within the area assigned to the District Director. During non-working hours, the room and/or building in which the file cabinet is located is locked.

RETENTION AND DISPOSAL:

These files are disposed of in accordance with the Treasury Records Control Manual. Employee name data retained for period of employment with container station operator.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, each district within the North Central Region, Chicago, IL. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this file originates from the individual applicant for container station operator bond, from reports of investigation and other Customs memoranda.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .058

SYSTEM NAME:

Cooperating Individual Files-Treasury/Customs.

SYSTEM LOCATION:

These files are located in regional and local Customs Patrol Offices within the United States. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons providing confidential information to the U.S. Customs Service Patrol Division.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records include: assumed names; actual names; code numbers; addresses; telephone numbers; physical descriptions; miscellaneous identifying numbers such as Social Security numbers, driver's license number, etc., date individual's record was established; amount and date of reward paid for information supplied.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All files and indices relating to cooperating individuals are stored in metal file cabinets secured with combination locks in a government secured building.

RETRIEVABILITY:

The name of each coperating individual is filed in alphabetical order by assumed name and by actual name. The indices are maintained in the same alphabetical order and are also cross-referenced by the Patrol Division alpha numeric code number. All other identifying data is used for verification of identity rather than method of retrieval.

SAFEGUARDS:

In addition to being stored in secure metal cabinets with government approved locks, the metal files are kept locked when not in use and located in a closely watched room of the Patrol Division. Personnel maintaining the files are selected for their reliability among other qualities, and they are afforded access only after having been cleared by a full field investigation. The files are given the same treatment as material classified as Secret. During duty hours, Patrol Divison personnel maintain visual control and during off-duty hours the area containing the files is locked.

RETENTION AND DISPOSAL:

Retention periods have been established for records contained in the file in accordance with the Treasury Records Control Manual. When a file no longer has any utility, it is destroyed either by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

The Regional Patrol Director in Regional Customs Patrol Offices; the District Patrol Director in District Patrol Offices; and the Supervisory Customs Patrol Officer in suboffices of District Customs Patrol. (See Customs Appendix A.)

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .061

SYSTEM NAME:

Court Case File—Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles Street, Los Angeles, CA 90053; Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105; Office of the Regional Counsel, U.S. Customs Service, North Central, Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are parties in litigation with the United States Government or subunits or employees or officers thereof, in matters which affect or involve the United States Customs Service.

VOL 50 ISS 141 JL 23 1985 UMI

CATEGORIES OF RECORDS IN THE SYSTEM:

Court documents with exhibits, reports of investigations, Internal Customs Service memoranda summarizing or relating to the matter in controversy and other background information relating to the subject matter or origin of the litigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

28 U.S.C. 2676, 19 U.S.C. 1603, E.O. 6166. 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified by the name of the person against whom the Government has initiated the litigation, or by the name of the person who initiated the litigation against the Government.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Office of the Regional Counsel. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

These files are retained until there is no longer any space available for them within the metal container, at which time the oldest closed files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, Room 7422, United States Customs Service, 300 N. Los Angeles Street, Los Angeles, CA 90053; Regional Counsel, U.S. Customs Service, 211 Main Street, San Francisco, CA 94105; Regional Counsel, Room 1417, U.S. Customs Service, 55 E. Monroe Street, Chicago, IL 60603.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates with a request by a District Director to the appropriate United States Attorney that he institutes suitable judicial action to enforce the forfeiture of merchandise and vehicles, or the value thereof, which had been imported or used in violation of the Customs laws, and upon which final administration action has taken place. Information in this file also originates with the filing of a complaint by a private person against the Government, and by the filing of a complaint by the Government against private persons or former employees to enforce the collection of debts due the Government. Information in the files is also derived from reports of investigation regarding the enforcement of civil or criminal statutes and denial of tort claims.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .064

SYSTEM NAME:

Credit Card File—Treasury/Customs.

SYSTEM LOCATION:

Logistics Management Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Headquarters Customs Service Employees to whom national gasoline credit cards and Hertz/Avis automobile rental cards have been issued.

CATEGORIES OF RECORDS IN THE SYSTEM:

Credit card numbers, names, and signatures of employees to whom credit cards have been issued, and the date of issuance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Alphabetically by name or by credit card number.

RETRIEVABILITY:

A portion of the index cards are identified by the name of the person to whom the credit card was issued in the case of credit cards which have been permanently assigned to higher level Customs Service officers and such index cards are filed alphabetically. The remainder of the index cards relate to credit cards which are issued to Customs Service officers or employees on a one-transaction basis, and these index cards are filed by the applicable credit card number.

SAFEGUARDS:

The metal cabinet in which the index cards are placed is locked, and the room in which the metal cabinet is located is locked during non-working hours. The building is guarded by uniformed security police, and only authorized persons are permitted in the building.

RETENTION AND DISPOSAL:

Index cards filed alphabetically by name are retained during the period that the officials named thereon are in possession of the credit cards, and these index cards are disposed of when the officials are no longer in possession of the credit cards. Index cards filed by credit card number are retained until all signature lines have been used, at which time these index cards are discarded.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Headquarters Support Branch, Logistics Management Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system is obtained from Customs Service records and is also furnished by the officers or employees to whom the credit cards have been issued.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .272

SYSTEM NAME:

Currency Declaration File (IRS Form 4790)—Treasury/Customs

SYSTEM LOCATION:

One or more offices of District Directors of Customs or suboffices under the District Director's jurisdiction (for addresses of District Directors, see Customs Appendix A).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals departing from or entering the country who filed IRS Form 4790.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, identifying number, birthdate, address, citizenship, visa date and place, immigration alien number, kinds and amounts of monetary instruments, address in the United States or abroad, passport number and country, and arrival or departure information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 1101; 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Form 4790 is maintained in a file folder or binder in an open storage rack.

RETRIEVABILITY:

They are indexed and filed by name in the folder or binder.

SAFEGUARDS:

The office and building are locked during non-working hours.

RETENTION AND DISPOSAL:

The records are retained from one to five years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

District Directors of Customs.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information on the IRS Form 4790 originates from the individual or Customs agent reporting the bringing in or taking out of currency or monetary instruments exceeding 5,000 dollars.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .287

SYSTEM NAME:

Customs Automated Licensing Information System (CALIS)-Treasury/Customs.

SYSTEM LOCATION:

ADP Branch, U.S. Customs Service, 6 World Trade Center, New York, NY 10048.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and firms who have applied for or been granted licenses in the New York Region as customhouse brokers, or as bonded cartmen or lightermen, and officers, employees and associates of licensed customhouse brokers or licensed bonded cartmen or lightermen; individuals who have applied for or been granted approval to act as container station operators or bonded warehouse proprietors, firms which have applied for approval or been approved as container stations or bonded warehouses, and officers, employees and associates of approved container stations or approved bonded warehouses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, addresses, Social Security numbers, dates of birth, and other pertinent data extracted from Reports of Investigation, Regulatory Audit reports, Treasury Enforcement Communications System entries, and Search, Arrest, and Seizure Reports, information obtained from informants, reports from or to other law enforcement bodies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 1621; 19 CFR Part 111, 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; 19 U.S.C. 1561; 19 CFR Part 112; 19 CFR Part 19; 19 U.S.C. 1556.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To disclose information to foreign governments in accordance with formal or informal international agreements. (e) To provide information to a congressional office in response to an inquiry made at the request of the

VOL 50 ISS 141 JL 23 1985 UMI

individual to whom the record pertains. (f) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (g) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (h) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc.

RETRIEVABILITY:

Records can be retrieved by name or personal identification numbers and by employer's name and employer's identification numbers.

SAFEGUARDS:

Access to the office where records are maintained is controlled at all times. A password is required to gain access to records in the computer. The office where the records are maintained is locked during non-working hours. The records are available to those personnel in Operational Analysis and other appropriate Customs personnel on a "need to know" basis.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes, and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Operational Analysis Officer, U.S. Customs Service, 6 World Trade Center, Room 748, New York, NY 10048.

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed under the Privacy Act for the purpose of inspection.

CONTESTING RECORD PROCEDURES:

Since this system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual and those records, if any, cannot be inspected, the system may not be accessed under the Privacy Act for the purpose of contesting the content of the record.

RECORD SOURCE CATEGORIES:

This system contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .069

SYSTEM NAME:

Customhouse Brokers File-Treasury/Customs.

SYSTEM LOCATION:

Office of the Chief Counsel, Entry, Licensing and Restricted Merchandise Branch, Entry Procedures and Penalties Division; U.S. Customs Service Headquarters, 1301 Constitution Avenue NW., Washington, D.C. 20229, and Customs regional, district and port offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Licensed customhouse brokers, employees of customhouse brokers, individuals or firms who have applied for a broker's license.

CATEGORIES OF RECORDS IN THE SYSTEM:

Internal Customs Service memoranda and related material regarding proposed administrative disciplinary action against customhouse brokers for violation of the regulations governing the conduct of their business; broker applications and related material.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 1641; 19 CFR Part 111; 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal container, or on magnetic disc.

RETRIEVABILITY:

Each case file is identified in a manual alphabetical card file by the name of the customhouse broker and in the alphabetical file folder within the metal container by the name of the customhouse broker.

SAFEGUARDS:

The files described above are maintained in Customs Service Buildings. During non-working hours the room in which the files are located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Customhouse broker files are retained until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Record Center.

SYSTEM MANAGER(S) AND ADDRESS:

Chief Counsel; Director, Entry Procedures and Penalties Divisions, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, Customs regional commissioners, district directors, and port directors.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS CATEGORIES:

The information contained in these files originates from audits of or investigations into the conduct of customhouse brokers' businesses, applications for licenses, references as to character, court records, and local credit reporting services.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .077

SYSTEM NAME:

Disciplinary Action and Resulting Grievance or Appeal Case Files-Treasury/Customs.

SYSTEM LOCATION:

Located in the Personnel Management Division of each Region and Headquarters, and in District, Port, and appropriate post of duty offices. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs employees on whom disciplinary action is pending or has occurred.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records on such action as leave restriction letters, reprimands, suspension, adverse actions, etc., and resulting grievance or appeal by employee. Copies of correspondence, management requests for assistance, evidentiary materials on which action is contemplated, proposed or taken, regulatory material, examiners' reports, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in manila folders.

RETRIEVABILITY:

Records are indexed by name.

SAFEGUARDS:

Records are maintained in a locked file and stampled "For Official Use Only".

RETENTION AND DISPOSAL:

Records are maintained for five years and then transferred to Federal Records Center where they are maintained for fifteen years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, in each region and Headquarters, or appropriate managerial official in employee's district, port, or post of duty. (See Custom Appendix A.)

RECORD SOURCE CATEGORIES:

Supervisors and supervisory records and notes; evidentiary materials supporting planned, proposed, or accomplished actions; grievance letters submitted by employee, grievance examiner, etc.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .078

SYSTEM NAME:

Disclosure of Information File-Treasury/Customs.

SYSTEM LOCATION:

Office of Regional Counsel, Room 125, U.S. Customhouse, 40 South Gay Street, Baltimore, MD 21202; Office of the Regional Counsel, U.S. Customs Service, North Central Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603; Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons requesting access to information pursuant to the Freedom of Information Act or any other statute, regulation, directive or policy to disclose such information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Requests, information, records, documents, internal Customs Service memoranda, or memoranda from other agencies and related materials regarding disclosure of the information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 552, 31 CFR Part 1, 19 CFR Part 103, 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in file folder which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified in the file folder within the metal container by the name of the person requesting disclosure.

VOL 50 ISS 141 JL 23 1985 UMI

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Office of the Regional Counsel within the Customhouse. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Customhouse broker files are retained until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, Room 125, U.S. Customhouse, 40 South Gay Street, Baltimore, MD 21202; Regional Counsel, Room 1417, U.S. Customs Service, 55 E. Monroe Street, Chicago, IL 60603; Regional Counsel, 211 Main Street, San Francisco, CA 94105.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates from the requests for information filed with the Customs Service which may pertain to any information contained in the files of the U.S. Customs Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs 00.081

SYSTEM NAME:

Dock Passes-Treasury/Customs.

SYSTEM LOCATION:

District Director's office, U.S. Customs Service, 228 Federal Building, 335 Merchant Street, Honolulu, HI 96813.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Consulate staff members, brokers, private individuals, etc.

CATEGORIES OF RECORDS IN THE SYSTEM:

Form lists following information: pass number; port; date of issue; name of individual; organizational affiliation; expiration date of pass; and vessel name.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

3 x 5 card box loose leaf binder.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Building locked during non-working hours.

RETENTION AND DISPOSAL:

Retained until expiration.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, U.S. Customs Service, 228 Federal Building, 335 Merchant Street, Honolulu, HI 96813.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Individual applicants.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .277

SYSTEM NAME:

Drivers License File-Treasury/Customs.

SYSTEM LOCATION:

Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal information furnished by employee before being issued a government drivers license. It may also include information from National Driver Register Service if they have any information on the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to National Driver Register Service to determine whether they have any information on the individual which would concern the employee's suitability for receiving a government drivers license. (b) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained on Standard Form 47 (physical fitness inquiry for motor vehicle operators) and Treasury Form 2770 (application for motor vehicle operator's ID card and operator's record). These forms are kept in a desk file.

RETRIEVABILITY:

Each set of forms for a particular employee is numbered and those numbers are shown on an index sheet as pertaining to the particular employee.

SAFEGUARDS:

The desk in which the records are kept is within an office which is locked during non-working hours.

RETENTION AND DISPOSAL:

Forms are retained in this system in accordance with the requirements of the Treasury Records Control Manual. Forms of past employees who were issued drivers licenses are periodically destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Logistics Management Specialist, Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, CA 94105.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates with, and consists solely of, information supplied by the applicants on forms SF-47 and form 2770. There is a possibility that in the future there will be a response from the National Driver Register Service on a particular applicant. At the present time there are none in this system of records.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury Customs .278

SYSTEM NAME:

Early Implementation System (EIS)-Treasury/Customs.

SYSTEM LOCATION:

The Computer is located at 1301 Constitution Avenue, Washington, D.C. 20229. Computer terminals are located at Customhouses and ports throughout the United States and at U.S. Customs Headquarters, Washington, D.C. (For addresses of Customhouses, see Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

U.S. Customs Service employees and individuals involved in the import trade.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system data base is comprised of commodity and merchandise processing information relating to Customs administration of trade laws. Certain portions contain no information about individuals. These are the Tariff Schedules of the United States Annotated (TSUSA) file, country file, criteria file for the selection of routine items, Team TSUSA file, district port file, and the entry master file. The following system files may contain information about U.S. Customs Services employees and/or individuals/companies involved in the import trade. (1) Authorized Terminals Users File: Contains randomly established five-digit identification codes and passwords assigned to Customs Service employees authorized to use the system. The file consists of the names and identification of all Customs Service employees using the remote terminals to input information into the system. It does not contain Social Security numbers. The degree of access to the system varies according to the users responsibilities in the system. (2) Importer/Broker/Consignee Bond File: Records consist of importer of record number, importer name, type of importation bond, expiration date, and surety code. The importer of record number is used as the method of accessing the file. The number is assigned by any one of three code formats according to availability and the following hierarchy. The first choice is the IRS Employer Identification Number (EIN). The vast majority of importers have the EIN because of the business necessity of it. The second alternative is the Social Security number (SSN). The third alternative is a Customs-assigned number. This file is referenced during entry processing to verify that the individual or company making entry is authorized to import and is properly bonded. (3) Broker File: A record consists of a three-digit Customs-assigned Customhouse broker number (non-SSN) and the broker name. The file is referenced during entry processing to validate the broker number and to prepare and distribute the Broker ID Performance Report to the individual or company concerned. The subject of the report is compliance with the entry filing requirements under the immediate delivery program. Information is disclosed only to the party-of-record. (4) Surety File: A record consists of a three-digit surety code (non-SSN) assigned by the Customs Accounting Division and the surety name. The file is referenced during entry processing to validate these surety codes. No information on surety company affairs is collected or disseminted in the system. (5) Liquidator File: A record consists of a Customs-assigned three-digit liquidator identification (non-SSN) and a Customs employee's name. The employee's liquidator code is input into the system as a means of maintaining quality control and an audit trial on entries liquidated. (6) Manufacturer File: The file contains only a three-digit manufacturer code number (non-SSN) and manufacturer name.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 66, 1448, 1481, 1483, 1484, 1505, and 1624.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the Bureau of the Census by providing magnetic tapes containing foreign trade data. (b) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic Disc.

RETRIEVABILITY:

By identification codes and/or name.

SAFEGUARDS:

Access to computer area is controlled by a security pass arrangement and personnel not connected with the operation of the computer are prohibited from entering. The building security is protected by a uniformed guard. At the ports of processing, terminal rooms are under close supervision during working hours and locked after close of business. The system security officer issues a unique private five digit identification code to each authorized user. The codes are changed periodically to enhance security. All computer terminals are key-locked when not in use. Access to the Customers computer from other than system terminals is prohibited by hardware controls. Users must input a unique identification code during the terminal log-in procedure to gain access to the system. The identification code is not printed or displayed at the port of processing. The system validates the user ID by transaction type, thereby limiting a system user's access to information on a "need to know" basis. A listing of identification codes of authorized users can be printed only at the computer room site by request of the security officer.

RETENTION AND DISPOSAL:

Files are periodically up-dated to reflect changes, etc., and are disposed of

VOL 50 ISS 141 JL 23 1985 UMI

in accordance with the requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Business Systems Division, Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, is responsible for all data maintained in the files.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The system data base is limited to data about individuals and/or companies incidental to the conduct of foreign trade and required by the Customs Service in administering the tariff laws and regulations of the United States. No information concerning any individual's or company's importation activity, bonds status, and compliance or noncompliance with Customs Regulations will be disclosed for non-authorized purposes to any person other than the party-of-record upon receipt of a written request.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .273

SYSTEM NAME:

Employee Debts-Treasury/Customs.

SYSTEM LOCATION:

Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees involved in transfer within the Government for which the Government is pursuing collection for overpayment of travel expenses or overpayment for maintaining uniforms.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records reflecting the documents involved in the overpayment and correspondence with the employee involved and his representative.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data is stored in a file folder located in a file cabinet under the physical security of the Operating Accountant.

RETRIEVABILITY:

Records are indexed by name.

SAFEGUARDS:

The file is located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

RETENTION AND DISPOSAL:

The file is retained until the debt is collected and then destroyed. Unusual cases are retained as a reference for similar type cases.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in the system originates from the employee, other Regions of Customs, and the Payment Section of the Financial Management Division.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .083

SYSTEM NAME:

Employee Relations Case Files—Treasury/Customs.

SYSTEM LOCATION:

Director, Personnel Management Division, U.S. Customs Service, Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records maintained on all individuals who have requested assistance in a problem, such as, Office of Workers' Compensation Programs (OWCP), leave, health and life insurance, etc.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of correspondence. Copies of initiating correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

Treasury/Customs .096

SYSTEM NAME:

Fines, Penalties and Forfeiture Control and Information Retrieval System—Treasury/Customs.

SYSTEM LOCATION:

U.S. Customs Service, Office of Regulations and Rulings, 1301 Constitution Avenue, N.W., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and businesses who have been fined, penalized or have forfeited merchandise because of violations of Customs and/or related laws or breaches of bond conditions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individuals and business names, address, personal identifying numbers, date and type of violation, parties entitled to legal notice or who are legally liable, case information, bond and petition information, and actions (administrative) taken by U.S. Customs. Also included are actions taken by violator prior to the disposition of the penalty or liquidated damage case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

(1) Magnetic disc and tape, (2) Hard copy Customs Form 5955a (Notice of Liquidated Damages Incurred and Demand for Payment) and Customs Form 151 Search/Arrest/Seizure Report.

RETRIEVABILITY:

Individual's name or case number.

SAFEGUARDS:

All inquiries are made by officers with a full field background investigation on a "need to know" basis only. Procedural and physical safeguards are utilized such as accountability and receipt records, guards patrolling the area, restricted access and alarm protection systems, special communications security, etc.

RETENTION AND DISPOSAL:

A maximum of 10 years. Erasure of disc/tapes and shredding and/or burning of hard copy customs form 5955a.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Regulations and Rulings, U.S. Customs Service, 1301 Constitution Avenue, N.W., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

RECORD SOURCE CATEGORIES:

Customs Form 5955a (Notice of Penalty or liquidated Damages Incurred and Demand for Payment) and CF 151 (Search/Arrest/Seizure Report) prepared by Customs Employees at the time and place where the violation has occurred.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .098

SYSTEM NAME:

Fines, Penalties and Forfeitures Records-Treasury/Customs.

SYSTEM LOCATION:

Customs district offices. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and firms who have been administratively charged with violations of Customs laws and regulations and other laws and regulations enforced by the Customs Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Entry documentation, notices, investigative reports, memoranda, petitions, recommendations, referrals and dispositions of fines, penalties and forfeiture cases.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended. 19 U.S.C. 66, 1618, 1624; 19 CFR Parts 171 and 172.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counselor witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (c) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in folders in file cabinets and safes.

RETRIEVABILITY:

The records are filed either by the name of the individual or chronologically with a cross reference index by the name of the individual.

SAFEGUARDS:

During non-working hours, the records are maintained in locked rooms, locked buildings and buildings guarded by uniform guards.

RETENTION AND DISPOSAL:

The records are retained for three to five years after which they are either destroyed or forwarded to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

District Directors of Customs (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information and representations supplied by importers, brokers and other agents pursuant to the entry and processing of merchandise or in the clearing of individuals or baggage through Customs. Information also includes information gathered pursuant to Customs investigations of suspected or actual violations of Customs and related laws and regulations and recommendations and information supplied by other agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .099

SYSTEM NAME:

Fines, Penalties, and Forfeiture Files (Supplemental Petitions)—Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105; Office of the Regional Counsel, Room 7422, New Federal Building, 300 North Los Angeles Street, Los Angeles, CA, 90053; Office of the Regional Counsel, U.S. Customs Service, North Central Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have filed supplemental petitions for relief from fines, penalties and forfeitures assessed for violations of the laws and regulations administered by Customs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Petitions and supplemental petitions and other documents filed by the individual; reports of investigation concerning the fine, penalty or forfeiture; and documents relating to the internal review and consideration of the request for relief and decision thereon.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; Reorganization Plan No. 1 of 1965. 19 U.S.C. 1618; 19 CFR Parts 171 and 172.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclosure to the Department of Justice or an individual United States Attorney to assist that Department or United States Attorney when suit is filed by the Government in civil prosecution of the fine, penalty or forfeiture; (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal file cabinet.

RETRIEVABILITY:

Each case file is identified in a manual alphabetical card file by the name of the petitioner and in the alphabetical file folder within the metal file cabinet by the name of the petitioner.

VOL 50 ISS 141 JL 23 1985 UMI

SAFEGUARDS:

The metal file cabinet described above is maintained within the area assigned to the Office of the Regional Counsel within the Federal Building. During non-working hours the room in which the metal file cabinet is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Supplemental petition files are retained until there is no longer any space available for them within the metal file cabinet, at which time the oldest files may be transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, 211 Main Street, San Francisco, CA 94105; Regional Counsel, Room 7422, U.S. Customs Service, 300 N. Los Angeles Street, Los Angeles, CA 90053; Regional Counsel, Room 1417, U.S. Customs Service, 55 East Monroe Street, Chicago, IL 60603.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information contained in these files is obtained from the individual petitioning for relief and from the District Director of Customs within whose jurisdiction the fine, penalty or forfeiture action lies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a, (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs 00.100

SYSTEM NAME:

Fines, Penalties and Forfeiture Records (Headquarters)—Treasury/Customs.

SYSTEM LOCATION:

Penalties Branch, Entry Procedures and Penalties Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records are maintained on persons who have been administratively charged with violating Customs and related laws and regulations and on persons who have applied for awards of compensation for providing information regarding such violations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Entry documentation, notices, investigative and other reports, memoranda of information received, petitions, recommendations, referrals and dispositions of fines, penalties and forfeiture cases and applications for awards of compensation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; 19 U.S.C. 66, 1618, 1624; 19 CFR Parts 171 and 172.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are kept in file cabinets in the central file room of the Entry Procedures and Penalties Division at U.S. Customs Service Headquarters.

RETRIEVABILITY:

The records are filed chronologically with a case number given to each file. The records are retrievable by means of an alphabetical card index system by names of individuals charged with a violation.

SAFEGUARDS:

The records are maintained in the U.S. Customs Service Headquarters building which is guarded by security police. During non-working hours, the central file room is locked and the building is guarded by security police.

RETENTION AND DISPOSAL:

The records are generally retained for five years after closing of the case. The records are then forwarded to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Penalties Branch, Entry Procedures and Penalties Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

Box 670, Nogales, AZ 85621; Customs Patrol, Room 7N-FB-05, 301 W. Congress, Tucson, AZ 85701.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons in whom Customs and/or other government agencies are interested from a law-enforcement and/or security point of view.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, alias, date of birth or age, personal data, addresses, home and business telephone number, occupation, background information, associations, license number and registration number of vehicle, vessel and/or aircraft, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where

the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information petinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files are kept in a locked metal cabinet.

RETRIEVABILITY:

Records are filed within a metal file.

SAFEGUARDS:

The files are located within an office that is locked during non-working hours. The building is guarded by uniformed Customs guards, and only authorized persons are permitted in the building.

RETENTION AND DISPOSAL:

Files are retained for a period of three (3) years after which they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, District Patrol Division, United States Custom Service, Room 200, La Marina, Old San Juan, PR 00901; Director, District Patrol Division, 600 S. Street, New Orleans, LA 70130; Chief, Air Support Branch, U.S. Customs Service, Patrol Division, PM-TUM, Homestead Air Force Base, Homestead, FL 33030; Director, Regional Patrol, 600 S. Street, New Orleans, LA 70130; District Director, Port Directors, and Division Directors within the San Diego Customs District: Intelligence Support Staff (Pacific Region), Room 7514, 300 N. Los Angeles Street, Los Angeles, CA 90053; District Patrol, 300 Ferry Street, Terminal Island, San Pedro, CA 90731; District Patrol, International and Terrace Streets, P.O. Box 670, Nogales, AZ 85621; Customs Patrol, Room 7N-FB-05, 301 W. Congress, Tucson, AZ 85701 (see Customs Appendix A).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .123

SYSTEM NAME:

Injury Notice—Treasury/Customs.

SYSTEM LOCATION:

Each Logistics Management Division in each regional Headquarter Office (see Customs Appendix A for addresses) and all offices of the District Director, North Central Region, Chicago, IL.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who sustain an injury in performance of duty as an employee of U.S. Customs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, date of birth, home address, organization, place of injury, date and hour of injury, dependents, occupation, cause of injury, nature of injury, statement of witness, supervisor's report of injury.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 19 and 24 of the Occupational Safety and Health Act of 1970; 84 Statute 1609, 1614, 29 U.S.C. 668, 673 and the provisions of Executive Order 11807.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the Department of Labor for that agency's official use. (b) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (c) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained on CA forms. The CA forms are filed in a loose leaf, alphabetical binder and placed in a metal file container.

RETRIEVABILITY:

Each CA form is identified by the name of the injured employee and filed alphabetically in a binder.

SAFEGUARDS:

The binder is placed within a metal file container located within an office that is locked during non-working hours. The building is guarded by uniformed security personnel and only authorized persons are permitted in the building.

RETENTION AND DISPOSAL:

Notice of injury reports are maintained in the employee's OPF and disposed of in accordance with the Treasury Records Control Manual. Copies maintained by the systems manager are maintained at location for two years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Each Director, Logistics Management Division, in each Customs Regional Headquarters (see Appendix A for address), each District Safety Officer, North Central Region, Chicago, IL (see Customs Appendix A for addresses of District Directors).

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates with and consists solely of information supplied by the injured employee, his supervisor, appropriate witness and attending physician on CA forms.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .125

SYSTEM NAME:

Intelligence Log—Treasury/Customs.

SYSTEM LOCATION:

U.S. Customs Air Support Branch, Patrol Division, PM-TUM, Homestead Air Force Base, Homestead, FL 33030.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are believed to be involved in activities which constitute.

VOL 50 ISS 141 JL 23 1985 UMI

or may develop into, possible violation of Customs and related laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Internal Customs Service memoranda and related materials regarding the activities of individuals, vessels, or aircraft believed to be involved in acts which are contrary to Customs and related laws.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The intelligence log is maintained within a security area.

RETRIEVABILITY:

A manual, master card index, is maintained for the entire system. This index includes name and/or numerical identifier.

SAFEGUARDS:

The information files and master card index are located within an office which is locked during non-working hours. The building is guarded by U.S. Air Force Military Police and only authorized persons are permitted in the building.

RETENTION AND DISPOSAL:

These files are retained until such time that it has been determined that there is no longer a need for their existence, at which time the oldest files are destroyed under Customs supervision.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Air Support Branch, Patrol Division, U.S. Customs, PM-TUM, Homestead Air Force Base, Homestead, FL 33030.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .127

SYSTEM NAME:

Internal Security Records System-Treasury/Customs.

SYSTEM LOCATION:

Internal Security Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; Tort Claim Investigation Files, Information relating to investigations, and index card files at each Office of Management Integrity Office. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past employees, applicants for positions that require an investigation, and others that are principals or others in an investigation, or integrity issue.

CATEGORIES OF RECORDS IN THE SYSTEM:

Security clearance records; background, tort claim, integrity investigation and related information and other Customs related investigations including individuals involved in accidents under investigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (e) To provide information to the news media in accordance with guidelines contained in 28 C.F.R. 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Investigative records are maintained on microfiche and in file folders and stored in metal security cabinets secured by government approved three-position, combination locks. Security clearance records are stored on magnetic tape with a manual back-up system.

RETRIEVABILITY:

A manual, master card index is maintained for the entire system. This index includes name and/or numerical identifier.

SAFEGUARDS:

In addition to being stored in secure metal containers with government approved, combination locks, the metal containers are located in locked rooms, the keys of which are controlled and issued to the custodians of the files. The security specialists and administrative personnel who maintain the files are

selected for their experience and afforded access only after having been cleared by a full field background investigation and granted appropriate security clearances for critical sensitive positions. Those departmental officials who may occasionally be granted access consistent with their positions to employ and concur in the granting of security clearances have also been investigated prior to filling critical-sensitive positions.

RETENTION AND DISPOSAL:

With exception of tort claim investigations, the file records are maintained as long as the subject of the investigation is employed by the U.S. Customs Service and for one (1) year after the subject terminates employment. The files are then transferred to the Federal Records Center. Tort Claim investigations are retained for five (5) years after the close of the investigation and then destroyed. Once files are transferred, they are retained for the following periods of time by the Federal Records Center and then destroyed: Background investigations—25 years, Conduct and special inquiry investigations—15 years, & Equal Employment Opportunity investigations—10 years.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Internal Security, U.S. Customs Service Headquarters, 1301 Constitution Avenue NW., Washington, D.C. 20229.

RECORD SOURCE CATEGORIES:

Sources of information are: Employers; educational institutions; police; government agencies; credit bureaus; references; neighborhood checks; confidential sources; medical sources; personal interviews; military, financial, citizenship, birth and tax records; and the applicants or employee's personal history and application forms.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H), and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2), (k)(2) and (k)(5).

Treasury/Customs .128

SYSTEM NAME:

Investigations Program Analysis—Treasury/Customs.

SYSTEM LOCATION:

U.S. Customs Service, Office of Investigations, 1301 Constitution Avenue, NW., Washington, D.C. 20229; 1719 West End Building, Room 303, Nashville, TN 37203.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Special Agents assigned to Office.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record of cases assigned to individual agent showing date assigned, status, date closed, time spent on case, arrests, dispositions of arrests, seizures, penalties, and recoveries, if any. An inventory of types of cases handled by an agent.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is contained in a printout.

RETRIEVABILITY:

Information is retrieved from the printout by case number, name of agent, and date by month and year.

SAFEGUARDS:

During non-working hours the room in which the above described printouts are located is locked.

RETENTION AND DISPOSAL:

The files are disposed of in accordance with the requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Investigations, U.S. Customs Service, 1301 Constitution Avenue, NW, Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information furnished by Customs Special Agents.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .129

SYSTEM NAME:

Investigations Record System—Treasury/Customs.

SYSTEM LOCATION:

All Office of Investigations offices located within each Customs Service Region in the United States and within each Office of Investigations office located in a foreign country. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records are maintained on individuals who may bear some necessary relevance to investigations conducted within the scope of authority of the Office of Investigations, United States Customs Service. The categories include but are not limited to: (1) Known violators of U.S. Customs laws. (2) Convicted violators of U.S. Customs and/or drug laws in the U.S. and foreign countries. (3) Fugitives with outstanding warrants, Federal or State. (4) Suspect violators of U.S. Customs or other related laws. (5) Victims of violations of the U.S. Customs or related laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

The subject records may contain any identifying or other relevant information on subject individuals which might relate to the following categories of investigations: Smuggling Investigations Branch—Smuggling, Diamonds & Jewelry; Smuggling, Liquor; Smuggling, Narcotics; Smuggling, All Other; Prohibited Importations; Navigation, Airplane and Vehicle Violations; Neutrality Violations; Illegal Exports. Regulatory Investigations Branch—Baggage Declaration Violations; Customhouse Brokers and Customs Attorneys; Applications for Licenses; Theft, Loss, Damage and Shortage; Irregular Deliveries; All Other Criminal Cases; Currency Violations. Special Investigations Branch—Organized Crime; Personnel Derelictions; Other Departments, Bureaus and Agencies; Federal Tort Claims; Personnel Background Investigations. Technical Investigations Branch—Undervaluation and False Invoicing; Petitions for Relief; Verification Investigations Branch—Drawback; Marking of Merchandise; Customs Bonds; Customs Procedures;

VOL 50 ISS 141 JL 23 1985 UMI

Collections of Duties and Penalties; Trademarks and Copyrights; Foreign Repairs to Vessels and Aircraft. Foreign Investigations Branch: Classification; Market Value: Dumping; Countervailing Duties.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; 19 U.S.C. 2072; Title 19, United States Code; Title 18, United States Code.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in both hard copy files and on microfiche which are placed in locked metal containers.

RETRIEVABILITY:

The record system is indexed on 3 × 5 file cards by the individual's name and/or identification number and by the investigative case numbers to which the information relates. The hard copy and microfiche records are retrieved by means of the investigative case numbers.

SAFEGUARDS:

All records are held in steel cabinets and are maintained according to the requirements of the United States Customs Records Manual and the United States Customs Security Manual. Access is limited by visual controls and/or a lock system. During normal working hours, files are either attended by responsible Office of Investigations employees or the file area is restricted. The office in which the records are located is locked during non-working hours and the building is patrolled by uniformed security guards.

RETENTION AND DISPOSAL:

The index cards, the hard copies and microfiche records are retained in accordance with standard Customs Service record retention and disposal procedures.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Investigations, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW, Washington, D.C. 20229.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .130

SYSTEM NAME:

Investigative Program Analysis—Treasury/Customs.

SYSTEM LOCATION:

U.S. Customs Service, Office of Investigations, 1301 Constitution Avenue, NW, Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

United States Customs Special Agents and Operations Officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Case assignment information such as case number, case hours, court hours, case description and disposition, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

(1) Magnetic tape. (2) Manual files maintained by the Office of Investigations field officer.

RETRIEVABILITY:

By name and Social Security Number of subject Customs Officer.

SAFEGUARDS:

On a "need-to-know" basis to Office of Investigations personnel only. Procedural and physical safeguards are utilized such as accountability and receipt records, guards patrolling the area, restricted access and alarm protection systems, special communication security, etc.

RETENTION AND DISPOSAL:

The records are disposed of in accordance with the requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Investigations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Supervisory Customs Special Agents when making case assignments to Special Agents or Operations Officers on foreign assignments.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .133

SYSTEM NAME:

Justice Department Case File—Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, Northeast Region, 100 Summer Street, Boston, MA 02110; Office of the Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Ave., NW., Washington, D.C., 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are parties in litigation with the United States Government or subunits or employees or officers thereof, in matters which affect or involve the United States Customs Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Litigation report requests and responses thereto, reports of investigations, internal Customs Service memoranda summarizing or relating to the matter in controversy and other background information relating to the subject matter or origin of the litigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

28 U.S.C. 507; 19 U.S.C. 1603; E.O. 6166; 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the Department of Justice or directly to United States Attorneys upon request to assist in representing the interests of the Government, the agency or officer or employee involved in the litigation, or to other agencies involved in the same or similar litigation. (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in file folder which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified in the file folder within the metal container.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Office of the Counsel. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

The files are retained until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, Northeast Region, 100 Summer Street, Boston, MA 02110; Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C., 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates with the request from the Department of Justice or directly from a United States Attorney or other Government agency or officer which results in a communication regarding the particular case. Information in this file is also derived from reports of investigation regarding the enforcement of civil or criminal statutes or regulations, administrative proceedings or any matter affecting or involving the United States Customs Service or its officers or employees.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .136

Open file.

RETRIEVABILITY:

Alphabetical listing of employees by vessel agent name.

SAFEGUARDS:

The file described is maintained in the Offices of the District Directors in North Central Region, Chicago, IL. During non-working hours the room/building in which the file is located is locked. Access limited to authorized Customs personnel.

RETENTION AND DISPOSAL:

Employee name retained for period of employment with vessel agent agency.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, as appropriate, in North Central Region, Chicago, IL (see Location above).

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Submission of data by importing carrier or his agent.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .138

SYSTEM NAME:

Litigation Issue Files-Treasury/Customs.

SYSTEM LOCATION:

Office of Assistant Chief Counsel, Customs Court Litigation, Second Floor, 26 Federal Plaza, New York, NY 10007.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Parties in litigation before the United States Customs Court (or subunits or employees or officers thereof), and other individuals with knowledge of the issues in controversy, e.g., trade witnesses, foreign or domestic manufacturers, etc.

CATEGORIES OF RECORDS IN THE SYSTEM:

Litigation report requests and responses thereto, reports of investigations, Internal Customs Service memoranda summarizing or relating to the matter in controversy and other background information relating to the subject matter or origin of the litigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 1514–1516; 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the Department of Justice upon request to assist that Department in representing the interests of the Government, or agency involved in the litigation. (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each issue file is inserted in a numerical file folder (according to issue) which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each issue filed is cross-indexed in the following card files: (a) By name of party-plaintiff; (b) by issue; and, (c) by titles of decided cases.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Office of the Assistant Chief Counsel within the Federal Building. At all times the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

These files are retained until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Record Center.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Chief Counsel, Customs Court Litigation, Second Floor, 26 Federal Plaza, New York, NY 10007.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates with the receipt of protest reports (based on information supplied by the subject individuals or by their authorized agents or attorneys) from the various Districts and/or litigation report requests from the Department of Justice which result in a written report to that Department regarding the facts of the particular case.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .140

SYSTEM NAME:

Lookout Notice-Treasury/Customs.

SYSTEM LOCATION:

Lookout files are maintained in Offices of the District and Port Directors and the District and Local offices of the Patrol Division. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Suspected violators of laws enforced by Customs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, height, weight, and any other information available on the individual at the time the notice is instituted.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The notice is printed on regular paper and then copied and stored within a file box.

RETRIEVABILITY:

Alphabetically, by name.

SAFEGUARDS:

Stored in locked filing cabinet and access is limited to administrative personnel.

RETENTION AND DISPOSAL:

Retained for two years and then destroyed on site.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Comissioner of Customs, Regional Director of Investigations, Regional Patrol Director at appropriate Region. (See Customs Appendix A.)

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .144

SYSTEM NAME:

Mail Protest File-Treasury/Customs.

SYSTEM LOCATION:

Foreign Mail Branch, 2200 NW. 72 Avenue, Miami, FL 33166; District Director of Customs: 3180 Bladensburg Rd., NE., Washington, D.C. 20018; 620 East 10th Avenue, Anchorage, AK 99501; 215 1st Avenue North, Great Falls, MT 59401; 335 Merchant, Honolulu, HI 96813; 511 NW. Broadway, Portland, OR 97209; 555 Battery Street, San Francisco, CA 94126; 909 First Avenue, Seattle, WA 98714.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have filed formal protest of the amount of duty assessed against mail parcels.

CATEGORIES OF RECORDS IN THE SYSTEM:

Letters, invoices, and other pertinent documents pertaining to protests.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

VOL 50 ISS 141 JL 23 1985 UMI

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are kept in file folders within a metal file cabinet.

RETRIEVABILITY:

Records are retrievable by name or protest number.

SAFEGUARDS:

Access is limited to appropriate personnel and the office is locked during non-working hours.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

District Director of Customs: 77 SE. 5th Street, Miami, FL 33131; 3180 Bladensburg Road, NE., Washington, D.C. 20018; 620 East 10th Avenue, Anchorage, AK 99501; 215 1st Avenue North, Great Falls, MT 59401; 335 Merchant, Honolulu, HI 96813; 511 NW. Broadway, Portland, OR 97209; 555 Battery Street, San Francisco, CA 94126; 909 First Avenue, Seattle, WA 98714.

NOTIFICATION PROCEDURE:

Treasury/Customs .155

SYSTEM NAME:

Narcotics Suspect File-Treasury/Customs.

SYSTEM LOCATION:

Customs Patrol Office, U.S. Customhouse, 40 S. Gay Street, Baltimore, MD 21202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Known violators of Federal narcotics laws. Suspected violators of Federal narcotics laws. Associates of known and suspected violators. Informants and other persons of interest to patrol officers in the performance of their duties.

CATEGORIES OF RECORDS IN THE SYSTEM:

Criminal and civil case files; information of possible violators, informant files, known suspect files, and files of information of interest to patrol officers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency,

maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's function relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in file folders and stored in metal file cabinets which are located in locked or occupied offices which are located in locked and guarded Federal Buildings.

RETRIEVABILITY:

A manual master card index is maintained for the entire system. This index includes name and/or numercial identifier.

SAFEGUARDS:

In addition to being stored in secure metal containers, the containers are maintained in offices which are either occupied or locked at all times. These offices are located in locked Federal buildings.

RETENTION AND DISPOSAL:

The file records are maintained in accordance with the disposal requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Baltimore Patrol Division, U.S. Customhouse, 40 S. Gay Street, Baltimore, MD 21202.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Notifications provided by the Office of Internal Affairs are maintained in a file folder and stored in a metal security cabinet equipped with a lock.

RETRIEVABILITY:

The file contains the name of the employee; therefore, retrievability is by the individual's name.

SAFEGUARDS:

A metal container, described above, is maintained the area assigned to Personnel Management in the One Allen Center Building. During non-working hours, the room in which the metal container is kept is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

The name file is retained until notification has been received that the investigation has been canceled or on receipt of a report of investigation from the Office of Internal Affairs.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, 500 Dallas Street, Houston, TX 77002.

RECORD SOURCE CATEGORIES:

The only source of notification that an employee has been placed under investigation is the Regional Director, Internal Affairs.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .193

SYSTEM NAME:

Operating Personnel Folder Files—Treasury/Customs.

SYSTEMS LOCATION:

Files are located in Headquarters, Regional, District, Port and other post of duty offices throughout the Customs Service depending upon post of duty of employee. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs employees, present.

CATEGORIES OF RECORDS IN THE SYSTEM:

In addition to the appropriate Personnel offices, records are also maintained by district, post, or other post of duty management on personnel matters and biographical data such as, but not limited to name, Social Security number, awards, letters of appreciation, promotions, step increases, memoranda, forms and materials related to hiring, address, pay, transfer and separation, service time, salary, phone, education, society memberships, publications, skills, chronological work history, position descriptions, reports of discussions held with employee regarding performance, copies of letters written to employee concerning performance, overtime hours, seniority status, leave, overtime earnings, productivity, locator card information, and related employment records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the public for employment and salary verification upon request. (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, and/or on index cards, and/or ledgers, and/or magnetic tape and disc.

RETRIEVABILITY:

Records are indexed by name, or Social Security number.

SAFEGUARDS:

Records are located in lockable metal file cabinets or in secured rooms with limited access. For automated records, procedural and physical safeguards are utilized, such as, accountability and receipt records, restricted access.

RETENTION AND DISPOSAL:

When the employee leaves the Customs Service through transfer or other separation, the file will immediately be forwarded to the office maintaining the Official Personnel Folder other than exact duplicates of papers already so filed. The file and its contents will then be destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division in each Region or Headquarters, or managerial official in appropriate posts of duty of employee or Headquarters. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information in this system of records comes from employee, from personnel actions as noted in official personnel folders, and from supervisor.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .161

SYSTEM NAME:

Optional Retirement List-Treasury/Customs.

SYSTEM LOCATION:

Personnel Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All employees who are eligible for optional retirement.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, date of mandatory retirement, and service computation date.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in a locked file cabinet.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Accessible only to the Personnel Officer. The area in which these records are stored is locked during non-working hours, and the building is guarded by uniformed security police.

RETENTION AND DISPOSAL:

Records are retained for two years, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information is obtained from the Employees Service Record Report.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .162

SYSTEM NAME:

Organization (Customs) and Automated Position Management System (COAPMS)—Treasury/Customs.

SYSTEM LOCATION:

Personnel Management Division, U.S. Customs Service, Washinton, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Customs employees by organizational entity.

CATEGORIES OF RECORDS IN THE SYSTEM:

Position control number and other personnel data such as Social Security number, date of birth, name, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on Mag-tape.

RETRIEVABILITY:

Records are indexed by organizational segment, code, position control number, and name.

SAFEGUARDS:

Limited access.

RETENTION AND DISPOSAL:

Records are maintained on Mag-tapes until employee separation.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, U.S. Customs Service, Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

COAPMS is composed of four basic inputs—CF–105—Position Change Form—presently prepared by the Headquarters Personnel Branch and operating offices; Post of Duty Codes-established by the Accounting Division; Ceilings-established by the Budget Division; and CF–112–a Request for PPBS Code and Standard Abbreviation of Position. In addition to these four sources, the IRS payroll tape has many inputs—1150, 1125, 50, 52, union dues, etc., and Accounting tape K from IRS.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

VOL 50 ISS 141 JL 23 1985 UMI

Treasury/Customs .163

SYSTEM NAME:

Outside Employment Requests-Treasury/Customs.

SYSTEM LOCATION:

Located in the Personnel Management Division of each Region and Headquarters and/or appropriate District, Port, or post of duty office of employee making request.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All employees engaged in outside employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Outside employment request.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

CF–3031 kept in manila folder.

RETRIEVABILITY:

By employee name.

SAFEGUARDS:

Locked file cabinet or limited access offices.

RETENTION AND DISPOSAL:

Until disengagement from outside employment or employee separation.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division in each regional office and Headquarters and/or appropriate managerial official in each port or district of employee.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Employee submission of Form CF–3031.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .165

SYSTEM NAME:

Overtime Earnings-Treasury/Customs.

SYSTEM LOCATION:

Inspection and Control Division, San Francisco District, 555 Battery Street, Room 111, San Francisco, CA 94126; Inspection and Control Division, Pacific Region, 300 N. Los Angeles Street, Los Angeles, CA 90012; Los Angeles District, Airport Division, Los Angeles International Airport, 5758 W. Century Boulevard, Los Angeles, CA 90045; District Director, 300 S. Ferry Street, Terminal Island, San Pedro, CA 90731; District Director, International and Terrace Streets, P.O. RECORD SOURCE CATEGORIES:

The information in the system originates from the individual's preparation of his travel voucher and compensation forms.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .182

SYSTEM NAME:

Penalty Case File-Treasury/Customs.

SYSTEM LOCATION:

Office of Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have submitted supplemental petitions in relation to penalties, claims for liquidated damages or forfeitures of property which are being processed by the U.S. Customs Service, Northeast Region and which have been referred to the Regional Commissioner of Customs, Northeast Region.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Reports relative to the circumstances of an alleged violation (including any Customs forms or documents relating to the incident, agents' investigative reports, seizure reports); (b) Reports relative to an individual's economic interest in a penalty case; (c) Investigative reports relative to claims made in petitions for relief; (d) Recommendations made by other Government agencies that have an interest in the case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are indexed by name of alleged violator.

SAFEGUARDS:

Open case files maintained in file cabinets with access by Regional Counsel and his staff only; closed case files maintained in locked file cabinet with keys retained by Regional Counsel and his staff only.

RETENTION AND DISPOSAL:

Retained until there is no longer any space available within metal cabinets, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Commissioner of Customs, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Exemption below.

RECORD SOURCE CATEGORIES:

The information contained in these files is received from U.S. Customs employees, reports of investigation, petitions for relief, other Government agencies with an interest in the case and members of the general public who have pertinent information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .186

SYSTEM NAME:

Personal Search-Treasury/Customs.

SYSTEM LOCATION:

Office of the Director, District Patrol, 600 South Street, New Orleans, LA 70130; District Director and Director, District Patrol Division, International Trade Center, 250 N. Water Street, Mobile, AL 36602; all Ports, North Central Region, Chicago, IL; U.S. Customs Service, Honolulu International Airport, Honolulu, HI 96819; Ports of Entry, Nogales, AZ (District).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals indicating unlawful or suspicious activity that might result in a Customs violation.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, phone number, place of business, physical description, associates, vessel, automobile, or aircraft identified with, make, year, license number and registration of vehicles, area of activity, method of operation and other relevant and necessary information on individuals suspected of activity contrary to law.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records maintained in standard Customs file folders in locked metal cabinets.

RETRIEVABILITY:

System indexed by identifying file number and manually retrieved.

SAFEGUARDS:

File maintained in locked metal file cabinet, the keys of which are controlled by the Custodian of the files. Those departmental officials who may occasionally be granted access, consistent with their positions, have been cleared by a full field background investigation and granted appropriate security clearance for critical sensitive positions. During non-working hours, the room housing the metal cabinets is locked.

RETENTION AND DISPOSAL:

Negative Search Reports are destroyed after a 5 year period. Method of disposal is shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, District Patrol Division, 600 South Street, New Orleans, LA 70130; District Directors/Port Directors as applicable, in North Central Region, Chicago, IL; District Director of Customs, P.O. Box 2748, Mobile, AL 36601; District Director of Customs, U.S. Customs Service, Honolulu, HI 96819; Port Directors at the various ports of entry in the Nogales, AZ (District).

VOL 50 ISS 141 JL 23 1985 UMI

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates with, and consists solely of information supplied by the individual being searched and the patrol officer doing the search.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .190

SYSTEM NAME:

Personnel Case File-Treasury/ Customs.

SYSTEM LOCATION:

Office of the Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; Office of the Regional Counsel, U.S. Customs Service, North Central Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603; Regional Counsel of Customs, 6 World Trade Center, New York, NY 10048; Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current or former Customs Service employees against whom disciplinary action has been proposed or taken, who have filed grievances, and who have filed complaints under the Equal Opportunity (EO) Program, in most cases where administrative proceedings have been instituted.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports of investigation into alleged employee misconduct, internal Customs Service memoranda recommending disciplinary action, documents relating to the institution or conduct of disciplinary proceedings, documents relating to the filing and administrative disposition of formal and informal grievances and documents relating to the filing and administrative disposition of EO complaints.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, United States Code; Title 5, Code of Federal Regulations; 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to the Office of Personnel Management (OPM) in connection with administrative hearings and to the Department of Justice in connection with court proceedings resulting from appeals from decisions rendered at the administrative level. (b) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted alphabetically in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified in a manual alphabetical card file by the name of the person, and each case file is similarly identified in alphabetical order within the metal container.

SAFEGUARDS:

The metal container described above is maintained within the Customs Service Building. During non-working hours, the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

These files are retained until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Record Center.

SYSTEM MANAGER(S) AND ADDRESS:

Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; Regional Counsel of Customs, Room 1417, U.S. Customs Service, 55 E. Monroe Street, Chicago, IL 60603; Regional Counsel of Customs, New York, NY 10048; Regional Counsel of Customs, 211 Main Street, San Francisco, CA 94105.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files results from investigations into alleged misconduct on the part of Customs Service employees, recommendations from appropriate Customs Service field personnel that disciplinary proceedings be instituted against Customs Service employees, the filing of grievances by Customs Service employees, the filing of EO complaints by Customs Service employees, the statements of Customs Service employees including the employees who are directly affected by the administrative proceedings, and statements or other information provided by private non-governmental individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .194

SYSTEM NAME:

Personnel/Payroll System-Treasury/ Customs.

SYSTEM LOCATION:

Located in Personnel and Financial Management Divisions of each region and headquarters. Computerized

through a Servicing Data Processing Center. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Customs employees, present and former.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain personnel data maintained primarily in the Official Personnel Folder and Payroll information such as name, Social Security number, grade, series, step, organizational codes, tax withholding information, bond purchase and issuance, emergency salaries, overtime and holiday pay, optional payroll deductions, other deductions, and all payroll information. Also in this system are records of time and attendance and leave.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (f) To disclose to furnish another Federal agency information to effect inter-agency salary offset. (g) To disclose to furnish another Federal agency information to effect inter-agency administration offset. However no IRS obtained address shall be disclosed to another Federal agency. (h) To disclose to furnish a consumer reporting agency information to obtain commercial credit reports. (i) To disclose to furnish a debt collection agency information for debt collection services. Current mailing addresses acquired from the Internal Revenue Service which become a part of this system are routinely released to consumer reporting agencies to obtain credit reports and to debt collection agencies for collection services. Routine users outside the Department are other federal agency personnel offices; the Office of Personnel Management; U.S. Department of Labor. Office of Employee Compensation; State unemployment offices; union representatives, arbitrators, and other third-parties who have responsibilities under a Customs Service-union contract or E.O. 11491, as amended, for the administration of the Federal labor-management relations program as described in the routine use; creditors; federal agencies; consumer reporting agencies to obtain credit reports; debt collection agencies; Members of Congress; next-of-kin; and voluntary guardian and other representative or successor in interest.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosure pursuant to 5 U.S.C. 552a (b)(12) and Section 3 of the Debt Collection Act of 1982; Debt information concerning a Government claim against an individual is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and Section 3 of the Debt Collection Act of 1982 (Pub. L. 97–365), to consumer reporting agencies to encourage repayment of an overdue debt.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and on mag-tape and computer printout.

RETRIEVABILITY:

Records are indexed by name or Social Security number.

SAFEGUARDS:

Records are maintained in locked files, secured rooms, or limited access.

RETENTION AND DISPOSAL:

Individual records are not in system after separation; Official Personnel Records of separated employees either are sent to new agency or to Records Center. Time and attendance records are maintained six (6) years or until after audit, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Directors, Personnel and Financial Management Division in each region and headquarters.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information is obtained from Official Personnel Folders employee management, time and attendance, and leave records.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .196

SYSTEM NAME:

Preclearance Costs-Treasury/ Customs.

SYSTEM LOCATION:

Financial Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Customs Inspectors and Foreign Service employees of the North Central Region, who are stationed at Toronto and Montreal, Canada.

CATEGORIES OF RECORDS IN THE SYSTEM:

Salaries, living allowances and benefits paid to employees who are stationed at Toronto and Montreal, Canada.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential

violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (e) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (f) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data is stored in a file folder within two metal file cabinets in the work area of the Budget Section.

RETRIEVABILITY:

The file is identified as the "Pre-clearance Record" which contains the names of all employees listed in alphabetical order with corresponding costs associated with each employee.

SAFEGUARDS:

The file is located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

RETENTION AND DISPOSAL:

The files are kept for three (3) years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, MA 02110.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in the system is obtained from the Bi-weekly Comprehensive Payroll Listing, Treasury Form 2979, supplied by the Payroll Data Center.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .197

SYSTEM NAME:

Private Aircraft/Vessel Inspection Reporting System-Treasury/Customs.

SYSTEM LOCATION:

Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Names of pilots and vessel masters arriving in the United States.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names and personal identifiers of pilots, vessel masters, and owners of vessels with appropriate registration and/or documentation numbers and characteristics, and arrival dates at port of entry.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc and tape storage; microfiche.

RETRIEVABILITY:

By individual name, private aircraft/vessel registration number; vessel name.

SAFEGUARDS:

All inquiries are made by officers with full field background investigation on a "need to know" basis only. Procedural and physical safeguards are utilized such as accountability and receipt records, guards patrolling the area, restricted access and alarm protection systems, special communications security, etc.

RETENTION AND DISPOSAL:

The records are periodically up-dated to reflect changes and maintained as long as needed, then destroyed. (Minimum of five years for aircraft arrival reports.)

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Proposed Customs Form 178 (Private Aircraft Inspection Report) which will be prepared by Customs officers, unnumbered forms prepared by vessel masters or owners who report their arrival to a United States port of entry, and other Federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k) (2).

Treasury/Customs .201

SYSTEM NAMES:

Property File-Non-Expendable-Treasury/Customs.

SYSTEM LOCATION:

Offices of District Directors, North Central Region, Chicago, IL (see Customs Appendix A); Logistics Management Division, U.S. Customs Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; Office of the District Director, San Diego, CA; Offices of the Port Directors: San Ysidro, CA; Tecate, CA; Calexico, CA; Andrade, CA; San Diego Barge Office, and the Offices of the Customs Patrol Division, San Diego, CA; San Ysidro, CA; Calexico, CA; Tecate, CA; District Directors Office, Entry Control Section (see Customs Appendix A); United States Customs Service, Room 228, Federal Building, 335 Merchant Street, Honolulu, HI 96813; Logistics Management Division, Southeast Region; U.S. Customs Service, 99 SE. 5th Street, Miami, FL 33131; Federal Building, Room 198, 511 NW. Broadway, Portland, OR 97209; Office of District Director, Administrative Officer, United States Customs Service, 555 Battery Street, Room 318, San Francisco, CA 94126.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees issued non-expendable property.

CATEGORIES OF RECORDS IN THE SYSTEM:

Receipts for badges, cap insignias, bonded warehouse keys, identification cards, Government driver's licenses, firearms and other non-expendable property.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Locked file cabinet.

RETRIEVABILITY:

Folders identified by individual's name.

SAFEGUARDS:

During non-working hours the room/building in which the file is located is locked. Access limited to authorized Customs personnel.

RETENTION AND DISPOSAL:

Until employee separates/transfers. Transfer to National Personnel Records Center (NPRC), (CPR), St. Louis, MO; thirty (30) days after employee is separated.

SYSTEM MANAGER(S) AND ADDRESS:

District Directors in the North Central Region, Chicago, IL; Director, Logistics Management Division, U.S. Customs Service, Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; District Director, Port Directors, and Division Directors within the San Diego Customs District (see Customs Appendix A); Chief, Headquarters Support Branch, Logistics Management Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229; Local Property Officer, Room 228, Federal Building, Entry Control Section, 335 Merchant Street, Honolulu, HI 96813; Director, Logistics Management Division, United States Customs Service, Southeast Region, 99 SE. 5th Street, Miami, FL 33131; District Director, Federal Building, Room 198, 511 NW. Broadway, Portland, OR 97209; Administrative Officer, U.S. Customs Service, 555 Battery Street, Room 318, San Francisco, CA 94126.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system consists of receipts of employees receiving non-expendable property.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .206

SYSTEM NAME:

Regulatory Audits of Customhouse Brokers-Treasury/Customs.

SYSTEM LOCATION:

Division of Regulatory Audit, United States Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and at each of the nine regional offices of Regulatory Audit (see Customs Appendix A for addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons licensed to conduct customhouse brokerage business pursuant to 19 U.S.C. 1641.

CATEGORIES OF RECORDS IN THE SYSTEM:

Audit reports of custom housebroker accounts and records; correspondence regarding such reports; Congressional inquiries concerning customhouse broker and disposition made of such inquiries; names of officers of customhouse brokerage firms, license numbers and dates issued and district covered.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 1641; 19 CFR Part III. 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, wher the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent

VOL 50 ISS 141 JL 23 1985 UMI

necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each customhouse broker file is inserted in alphabetical order by name of the firm in one of nine regional file folders which are filed in an unlocked drawer within a metal file cabinet. Duplicate copies are maintained at Customs Service Headquarters.

RETRIEVABILITY:

Each broker file is identified on alphabetical file locator cards which contain the name and address of the broker, the region and district in which he operates, and the number of the file drawer. In addition each regional office maintains its own alphabetical file, containing the above information, for broker activities within their region.

SAFEGUARDS:

The files described above are maintained within the area assigned to the Regulatory Audit Division within the Customs Service Building. During non-working hours, the room in which the files are located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Customhouse broker files are retained until there is no longer any space available for them at which time the oldest files are destroyed by burning or shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Regulatory Audit Division, United States Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229. Regional Director, Regulatory Audit Division at each of the nine regional offices (see Customs Appendix A for addresses).

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates from audits conducted by the regional Regulatory Audit staff, of customhouse brokers' businesses. The audits may be supplemented with information furnished by the Office of the Chief Counsel, Office of Investigations, and the Office of Regulations and Rulings. These audits include examinations of brokers business records, including all financial books of accounts, check books, and financial statements. In the event that the broker is engaged in various business enterprises such as freight forwarding and insurance, and these financial records are commingled with those financial records relating to the brokerage business, it would be necessary to examine the other business records to complete the audit.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .207

SYSTEM NAME:

Reimbursable Assignment System-Treasury/Customs.

SYSTEM LOCATION:

U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs Service employees who perform reimbursable services and parties in interest for whom reimbursable services are performed.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, Social Security number or importer of record number assigned by the Customs Service, listings of reimbursable overtime assignments of Customs employees, bills and refund checks issued to parties in interest, travel expenses incurred by Customs employees in connection with the reimbursable services.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 261, 267, and 1451; 19 CFR 24.16 and 24.17; 5 U.S.C. 301; Treasury Department Order No. 165; Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to any inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive regaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained in a computerized system utilizing magnetic tape storage techniques.

RETRIEVABILITY:

The information in this system is retrieved by the individual's Social Security number or by the individual's importer of record number.

SAFEGUARDS:

Procedural and physical safeguards are utilized such as accountability and receipt access, guards patrolling the area, restricted access and alarm systems.

RETENTION AND DISPOSAL:

The records in this system are retained in accordance with the requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Accounting Division, U.S. Customs Service Headquarters, 1301 Constitution Ave, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates with the receipt of a request, for reimbursable services form the party in interest. In addition, information in this system is derived from Customs Form 5106 (Notification of Importer's Number/Application for Importer's Number) which is filed with the Customs Service by the importer, and from Customs Form 6082 (Work Ticket) which is filed by the Customs Inspector who performed the reimbursable services.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .208

SYSTEM NAME:

Restoration of Forfeited Annual Leave Cases-Treasury/Customs.

SYSTEM LOCATION:

Located in the Personnel Management Division of each region and Headquarters according to list in Customs Appendix A.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of the U.S. Customs Service who have applied for restoration of forfeited annual leave.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employee applications for restoration of leave. Management decisions on employee applications for restoration of leave. Applicable regulations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in manila folders.

RETRIEVABILITY:

Records are indexed by name.

RETRIEVABILITY:

Indexing is by violator name.

SAFEGUARDS:

All inquiries are made by officers with full field background investigations on a "need to know" basis only. Procedural and physical safeguards are utilized such as accountability and receipt records, guards patrolling the area, restricted access and alarm protection systems, special communications security, etc.

RETENTION AND DISPOSAL:

Records are disposed of in accordance with the requirements of the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Enforcement Support, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Customs officers completing Customs Form 164 (TECS–TIB Defaulter Control).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .228

SYSTEM NAME:

Temporary Importation Violation Record—Treasury/Customs.

SYSTEM LOCATION:

Fines, Penalties and Forfeitures Section, Room 102, U.S. Customhouse, Second and Chestnut Streets, Philadelphia, PA 19106.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons making importations against Temporary Importation Bonds.

CATEGORIES OF RECORDS IN THE SYSTEM:

The record reveals the individual's or customhouse broker's name, case number assigned and date, amount of penalty incurred, mitigated sum or remission and date closed. The record results in a summary of repetitive violations by any one individual, firm or customhouse broker and disciplinary action toward reduction or elimination of violations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301: Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Temporary Importation Record Cards are filed alphabetically in an unlocked metal file cabinet.

RETRIEVABILITY:

Each record card is filed alphabetically within the metal cabinet.

SAFEGUARDS:

The metal cabinet described above is maintained within the area assigned to the Fines, Penalties and Forfeitures Section in Room 102, of the Customhouse, Philadelphia, PA; during non-working hours, access to the building and area of storage is controlled by uniformed guards.

RETENTION AND DISPOSAL:

Temporary Importation Record Cards are retained at location for three years, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

District Director of Customs, Room 102, U.S. Customhouse, Second and Chestnut Streets, Philadelphia, PA 19106.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

VOL 50 ISS 141 JL 23 1985 UMI

RECORD SOURCE CATEGORIES:

The information contained on the cards originated from liquidated damage cases instituted for failure to comply with T.I.B. provision.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .232

SYSTEM NAME:

Tort Claims Act File—Treasury/Customs.

SYSTEM LOCATION:

Office of the Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles Street, Los Angeles, CA 90053; Office of the Regional Counsel, Room 125, U.S. Customhouse, 40 S. Gay Street, Baltimore, MD 21202; Regional Counsel of Customs, 6 World Trade Center, New York, NY 10048; Office of the Regional Counsel, U.S. Customs Service, North Central Region, 55 E. Monroe Street, Room 1417, Chicago, IL 60603; Office of Regional Counsel, Suite 1220, 500 Dallas Street, Houston, TX 77002; Office of the Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Private persons who have filed or may file claims under the Federal Tort Claims Act for property damage or personal injury allegedly caused by a wrongful or negligent act or omission on the part of a Customs Service employee while acting within the scope of his employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports of Investigation regarding accidents involving Customs employees, documents relating to the administrative handling of the claims filed thereon, and documents submitted by the claimant in support of the claim.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

28 U.S.C. 2672, *et seq*; 28 CFR 14.1, *et seq*; 31 CFR 3.1, *et seq*; Treasury Department Administrative Circular No. 131, dated August 19, 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each case file is identified in the alphabetical file folder within the metal container by the name of the person who has filed or may file a claim.

SAFEGUARDS:

During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

RETENTION AND DISPOSAL:

Tort claim files are retained until there is no longer any space available for them within the metal container, at which time the oldest closed files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Counsel, Room 7422, United States Customs Service, 300 N. Los Angeles Street, Los Angeles, CA 90053; Regional Counsel, Room 125, U.S. Customhouse, 40 S. Gay Street, Baltimore, MD 21202; Regional Counsel, U.S. Customs Service, 6 World Trade Center, New York, NY 10048; Regional Counsel of Customs, Room 1417, U.S. Customs Service, 55 E. Monroe Street, Chicago, IL 60603; Regional Counsel, Suite 1220, U.S. Customs Service, 500 Dallas Street, Houston, TX 77002; Chief Counsel, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files originates with a Standard Form 95 (Claim for Damage or Injury) which is completed and filed with the Customs Service by the claimant. Using these forms as a basis, investigations are conducted by authorized Customs Service investigative personnel in order to determine the facts surrounding the claims. During these investigations information may be elicited from Customs Service employees, private persons, or any other parties who may have information regarding the facts surrounding the claims. When a claim is not filed, the information is limited to the investigative reports of the property damage or personal injury.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (k)(2).

Treasury/Customs .234

SYSTEM NAME:

Tort Claims Act File-Treasury/Customs.

SYSTEM LOCATION:

Offices of the District Directors, North Central Region, Chicago, IL 60603. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals presenting claims of damage to personal property resulting from Customs activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Written damage claims supported by estimates, bills, claim forms and internal Customs Service memoranda.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 CFR Part 3; 5 U.S.C. 301; Treasury Department Order No. 165. Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide

information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Filed in cabinets in the District Directors offices.

RETRIEVABILITY:

Folders filed in alphabetical sequence.

SAFEGUARDS:

File cabinets are located within the area assigned in the Customs office. During non-working hours the room in which the cabinets are located is locked.

RETENTION AND DISPOSAL:

Retained in District Directors offices for three years then transferred to the Federal Record Center for seven years and three months prior to destruction.

SYSTEM MANAGER(S) AND ADDRESS:

District Director as appropriate in the North Central Region, Chicago, IL. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates with a written claim submitted by the claimant, as well as information supplied on Standard Form 95 and internal Customs memoranda.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .236

SYSTEM NAME:

Training and Career Individual Development Plans—Treasury/Customs.

SYSTEM LOCATION:

Located in the Personnel Management Division of each region and headquarters and/or district, ports, and post of duty of employees.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All U.S. Customs employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records are maintained on training or other development activities completed and/or planned for individual employees, whether for programs such as Executive Development or Upward Mobility, or other special emphasis development programs. Records also include such things as, but not limited to skills, abilities, education, experience, career plans and goals, and other related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are located in file folders, and/or official personnel folder.

RETRIEVABILITY:

Records are indexed by name.

SAFEGUARDS:

Records are maintained in locked file or office.

RETENTION AND DISPOSAL:

Records are retained until separation or until employee is no longer part of a special emphasis program.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division, in each region and headquarters.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information is obtained from the employee and supervisors.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .239

SYSTEM NAME:

Training Records—Treasury/Customs.

SYSTEM LOCATION:

Personnel Management Division of each region and headquarters. Also located in districts, ports, and posts of duty.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs employees who have completed training.

CATEGORIES OF RECORDS IN THE SYSTEM:

Certificates of completion of training courses, memoranda documenting successful completion of training assignments, grades assigned by educational institutions when appropriate, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, on file cards, on Training forms, or on Mag-tape.

RETRIEVABILITY:

Records are indexed by name.

SAFEGUARDS:

Records are maintained in a locked file or room, or with limited access.

RETENTION AND DISPOSAL:

Records are maintained for up to three years after employee separates from the Service.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Management Division in each Region or Headquarters, or managerial official in appropriate posts of duty of employee.

VOL 50 ISS 141 JL 23 1985 UMI

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Information for this file is obtained from supervisors, managers, instructors, educational institutions, and/or training facilities such as the Office of Personnel Management, Department of the Treasury, etc.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .243

SYSTEM NAME:

Travel Payment System-Treasury/Customs.

SYSTEM LOCATION:

Located in Financial Management Divisions of each region and headquarters. (See Appendix A for addresses.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs Service employees who travel on official business.

CATEGORIES OF RECORDS IN THE SYSTEM:

Travel authorizations, travel vouchers, and travel advance records, which contain the employee's name, residence, place and mode of travel, travel dates, month of travel advance, expenses incurred, amount of travel advance, amount of advance outstanding and division code.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (c) To disclose records are also used from this system of records to furnish another federal agency information to effect inter-agency salary offset; (d) To disclose to furnish another federal agency information to effect inter-agency administrative offset. However, no IRS obtained address shall be disclosed to another federal agency; (e) To disclose to furnish a consumer reporting agency information to obtain commerical credit reports; (f) and to disclose to furnish a debt collection agency information for debt collection services. Current mailing addresses acquired from the Internal Revenue Service which become a part of this system are routinely released to consumer reporting agencies to obtain credit reports and to debt collection agencies for collection services.

Routine users outside the Department are other federal agency personnel offices: The Office of Personnel Management, U.S. Department of Labor, Office of Employees Compensation; State unemployment offices; union representatives, arbitrators, and other third-parties who have responsibilities under a Customs Service-union contract or E.O. 11491, as amended, for the administration of the Federal labor-management in relations program as described in the routine use; creditors; Federal agencies; consumer reporting agencies to obtain credit reports; debt collection agencies; Members of Congress; next-of-kin; and voluntary guardian and other representative or successor in interest.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a (b)(12) and Section 3 of the Debt Collection Act of 1982: Debt information concerning a Government claim against an individual is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and Section 3 of the Debt Collection Act of 1982 (Pub. L. 97-365), to consumer reporting agencies to encourage repayment of an overdue debt.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained on index cards placed within a file box, in file folders or on separate sheets of paper within a metal container and in a computer system utilizing magnetic disc storage techniques.

RETRIEVABILITY:

The information is filed alphabetically by the name of the traveling individual; each file folder is placed within the metal container alphabetically by the name of the traveling individual to whom it pertains; the separate sheets of paper are grouped in disbursement schedule number sequence by consecutive numbers and dates showing a listing of payments to travelers; the computer records are retrieved by the accounting number assigned by the Customs Service for each separate travel transaction.

SAFEGUARDS:

The room in which this system of records is located is locked during non-working hours, the building is guarded by uniformed security police, and only authorized persons are permitted within the building.

RETENTION AND DISPOSAL:

The records in this system are retained and disposed of in accordance with the requirements of the Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Directors, Financial Management Divisions in each region and headquarters. (See Appendix A for addresses.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system is derived from information supplied by the traveling individual and from organizational and accounting information maintained by the Customs Service.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .244

SYSTEM NAME:

Treasury Enforcement Communications System (TECS)—Treasury/Customs.

SYSTEM LOCATION:

Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Violators or suspected violators of U.S. Customs or related laws (some of whom have been apprehended by Customs officers); (2) Individuals who are suspected of, or who have been arrested for, thefts from international commerce; (3) Convicted violators of U.S. Customs and/or drug laws in the United States and foreign countries: (4) Fugitives with outstanding warrants—Federal or state; (5) Victims of U.S. Customs law violations; (6) Masters associated, in the capacity of ship agent or representative, with vessels in actual or suspected violation of U.S. Customs and related laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Every possible type of information which contributes to effective law enforcement may be maintained in this system of records. Records include but are not limited to records pertaining to known violators, wanted persons, lookouts (temporary and permanent), and document reference records, vessel names and search results. Information about individuals includes but is not limited to name, alias, date of birth, address, physical description, various identification numbers (i.e., seizure number), details and circumstances of a search, arrest, or seizure, case information such as merchandise and values, methods of theft, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuring the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc and tape, microfiche, and hard copy (I.e. Customs Form 153).

RETRIEVABILITY:

By name (individual or master, owner, or agent name when concerning vessel violation profile); unique identifiers, identification numbers (i.e., personal, seizure number, system identification number); cargo location code or vessel name.

SAFEGUARDS:

(1) All officers making inquiries have had a full field background investigation and are given information on a "need to know" basis only. (2) Procedural and physical safeguards are utilized such as accountability and receipt records, guards patrolling the area, restricted access and alarm protection systems, special communications security, etc.

RETENTION AND DISPOSAL:

Review is accomplished by Customs officers each time a record is retrieved and on periodic basis to see if it should be retained or modified. Since both temporary and permanent records are maintained, period of retention will vary with type of record entered. A complete review of each record in system is made annually at Headquarters. (3) The records are disposed of by erasure of magnetic tape or disc, and by shredding and/or burning of hard copy documents.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4)(G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs .248

SYSTEM NAME:

Uniform Allowances-Unit Record-Treasury/Customs.

SYSTEM LOCATION:

Financial Management Division, 99 SE 5th Street, Miami, FL 33131; Management Services Branch, Administration Division, District Director, San Juan, PR 00903; Financial Management Division, U.S. Customs Service, Northeast Region, 100 Summer Street, Boston, MA 02110.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

U.S. Customs Employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name-Record of Uniform Allowance Payments.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files are maintained in an unlocked drawer within a metal file cabinet.

RETRIEVABILITY:

Alphabet by name. Appropriation Accounting Document Number.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to the Financial Management Division within the Customs Service Building. During non-working hours, the room in which the metal container is located is locked and access to the building is controlled by uniformed guards.

RETENTION AND DISPOSAL:

These files are retained as prescribed by GAD Regulations or until there is no longer any space available for them within the metal container, at which time the oldest files are transferred to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Direction of Financial Management, 99 SE 5th Street, Miami, FL 33131; District Director, U.S. Customs Service, P.O. Box 2112, Old San Juan, PR 00903; Director, Financial Management Division, U.S.

VOL 50 ISS 141 JL 23 1985 UMI

Treasury/Customs .251

SYSTEM NAME:

Unscheduled Overtime Report (Customs Form 31)—Treasury/Customs.

SYSTEM LOCATION:

Director, Office of Operations, 6 World Trade Center, Room 508, New York, NY 10048.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Special Agents assigned to the office of Regional Director of Investigations authorized to receive unscheduled overtime remuneration.

CATEGORIES OF RECORDS IN THE SYSTEM:

Customs Form 31 enumerates the nature of overtime performed, the number of hours and the date on which the overtime was performed and the case number of investigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (b) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The information in this system is contained on CF 31, the forms are contained within a file folder and are placed in a metal file cabinet.

RETRIEVABILITY:

By name.

SAFEGUARDS:

The file cabinet is maintained within the area assigned to the Regional Director of Investigations, New York, within the Customhouse. During non-working hours the complex in which the file is located is locked and access to the building is controlled at all times by uniform guards.

RETENTION AND DISPOSAL:

The forms are destroyed after three (3) years.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Director of Investigations. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this system originates from the Special Agent who performs the unscheduled overtime.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .252

SYSTEM NAME:

Valuables Shipped Under the Government Losses in Shipment Act-Treasury/Customs.

SYSTEM LOCATION:

District Director of Customs, 610 S. Canal Street, Chicago, IL 60607.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customs employees collecting and transmitting funds to cashier for deposit.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name of employee, collection document serial numbers, amount of collection.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 300.30, Customs Accounting Manual; 5 U.S.C. 134f; 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Filed in folders with the individual's name appearing at the top thereof in a file cabinet.

RETRIEVABILITY:

Each record folder is filed by name of individual.

SAFEGUARDS:

The cabinet described above is maintained within the area assigned in the Customs office. During non-working hours the area in which the cabinet is located is secured.

RETENTION AND DISPOSAL:

Retained from three years and then forwarded to FRC for seven years retention.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, as appropriate, in the North Central Region, Chicago IL.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Data submitted by individual Customs employee involved.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .257

SYSTEM NAME:

Violators Card File-Treasury/Customs.

SYSTEM LOCATION:

Office of District Director, U.S. Customs Service, U.S. Customhouse, 101 E. Main Street, Norfolk, VA 23510.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons or firms who have violated any law administered by the U.S. Customs Service within the Norfolk District.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name of individual or firm, case number and date and section of law violated. This information is obtained from Customs Forms, 151 and 5955–A.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as Amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each card is filed alphabetically in an unlocked drawer within a metal container.

RETRIEVABILITY:

Each manual alphabetical card file is identified by the name of the person or firm who has violated any law administered by the U.S. Customs Service within the Norfolk District.

SAFEGUARDS:

The metal container described above is maintained within the area assigned to Fines, Penalties & Forfeitures Officer within the U.S. Customshouse. During non-working hours the room in which the metal container is located is locked. Security for the building is maintained by General Services Administration (GSA).

RETENTION AND DISPOSAL:

Cards are reviewed periodically and those pertaining to firms no longer in business are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

District Director of Customs, U.S. Customshouse, 101 E. Main Street, Norfolk, VA 23510.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information contained in these files is derived from Customs Form 151 (Search/Arrest/Seizure Report) and Customs Form 5955–A (Notice of Penalty or Liquidated Damages Incurred and Demand for Payment) which are prepared by the Customs Service.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs .258

SYSTEM NAME:

Violator's Case Files-Treasury/Customs.

SYSTEM LOCATION:

District Director of Customs, U.S. Customs Service, Main and Stebbins Street, St. Albans, VT 05478.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals involved in smuggling, filing false invoices, documents or statements, violators of Customs bonds.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name and address, Social Security number and physical description; alias, occupation, type of violation, previous record, driver's license, passport number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and 3 x 5 index cards.

RETRIEVABILITY:

Alphabetized by name of individual and local control number.

SAFEGUARDS:

Files are under the supervision of Fines, Penalties and Forfeitures Officer from 8 a.m. to 5 p.m., Monday through Friday. All other hours, office remains locked.

RETENTION AND DISPOSAL:

Files are maintained in the office of the Fines, Penalties, and Forfeitures Officer for a period of five years. At the conclusion of this period, they are destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, U.S. Customs Service, St. Albans, VT 05478.

VOL 50 ISS 141 JL 23 1985 UMI

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .260

SYSTEM NAME:

Warehouse Proprietor Files—Treasury/Customs.

SYSTEM LOCATION:

Offices of District Directors, North Central Region, Chicago, IL 60603. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past warehouse proprietors and employees that require an investigation and related information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Report of investigations, application and approval or denial of bond to act as warehouse proprietor and other Customs Service Memoranda. Names, addresses, Social Security numbers, and dates and places of birth of persons employed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Customs Regulations, Part 19, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and stored in file cabinets in each District Director's office within the North Central Region, Chicago, IL 60603.

RETRIEVABILITY:

Each file is identified by the name of the warehouse proprietor.

SAFEGUARDS:

The file cabinets are maintained within the area assigned to the District Director. During non-working hours the room and/or building in which the file cabinet is located is locked.

RETENTION AND DISPOSAL:

Employee name date retained for period of employment with warehouse proprietor

SYSTEM MANAGER(S) AND ADDRESS:

District Director, as appropriate in the North Central Region, Chicago, IL 60603. (See Customs Appendix A.)

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The information in this file originates from the individual applicant for warehouse proprietor's bond, from reports of investigation, and other Customs Memoranda.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2).

Treasury/Customs .262

SYSTEM NAME:

Warnings to Importers in lieu of penalty—Treasury/Customs.

SYSTEM LOCATION:

Located in the Office of the District Director, 880 Front Street, San Diego, CA 92318; Offices of the Port Directors, U.S. Border Station, San Ysidro, CA 92073; P.O. Box 189, Tecate, CA 92080; P.O. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and firms in violation of Customs' laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Brief record of violation and warning.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on 5 x 7 cards.

RETRIEVABILITY:

Alphabetically indexed.

SAFEGUARDS:

Not accessible to other than Customs officers.

RETENTION AND DISPOSAL:

The records are disposed of in accordance with the Treasury Records Control Manual.

SYSTEM MANAGER(S) AND ADDRESS:

District Director, Port Directors, and Division Directors within the San Diego Customs District. (See Customs Appendix A.)

NOTIFICATION PROCEDURES:

See Customs Appendix A.

RECORD ACCESS PROCEDURE:

See Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Access, Customs Appendix A.

RECORD SOURCE CATEGORIES:

Customs Officials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs 00.284

SYSTEM NAME:

Personnel Verification System (PVS)—Treasury/Customs.

SYSTEM LOCATION:

Office of the Comptroller, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and Regional Offices of the U.S. Customs Service. (See Customs Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Authorized Customs personnel and non-Customs personnel who have received authorization to use the Regional Communications Centers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual identifiers including but not limited to name, office address, home address, office telephone number, home telephone number, badge number, Social Security number, radio call sign, page number, organization, and unit.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

(1) Alphabetic or numerical listings or card files. (2) microfiche. (3) magnetic disc and tapes. (4) other electronic storagemedia.

RETRIEVABILITY:

By name, call sign, paging number, Social Security number, badge number, organizational code.

SAFEGUARDS:

Records are located in controlled access areas with alarm protection systems. Offices are staffed 24 hours a day, seven days a week.

RETENTION AND DISPOSAL:

Records are maintained in the system until such time as the individual is no longer authorized usage of the Regional Communications Center. Disposal is by erasure of disc/tapes, shredding and/or burning of listings or card files, and burning of microfiche.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of the Comptroller, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

NOTIFICATION PROCEDURE:

See Customs Appendix A.

RECORD ACCESS PROCEDURES:

See Access Customs Appendix A.

CONTESTING RECORD PROCEDURES:

See Customs Appendix A.

RECORD SOURCE CATEGORIES:

The sources include but are not limited to (1) the individual to whom the record relates; (2) internal Customs Service records; (3) Personnel Verification Sheet.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Customs 00.285

SYSTEM NAME:

Automated Index to Central Enforcement Files.

SYSTEM LOCATION:

Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Known violators of U.S. Customs laws. (2) Convicted violators of U.S. Customs and/or drug laws in the United States and foreign countries. (3) Suspected violators of U.S. Customs or other related laws. (4) Private yacht masters and pilots arriving in the U.S. (5) Individuals filing official U.S. Government forms 4790 (Currency and Monetary Instruments Reporting), 4789 (Currency Transaction Report), 90.22–1 (Foreign Banking Act Report).

CATEGORIES OF RECORDS IN THE SYSTEM:

A listing of Memoranda of Information Received, Reports of Investigations; Search/Arrest/Seizure Reports, Currency and Monetary Instrument Reports, Currency Transaction Reports, reports on Foreign Banking transactions, reports on Fines, Penalties, and Forfeitures, reports required by Private Aircraft Reporting System, reports required by the Private Yacht Reporting System, reports on vessel violations, investigation Program Analyst (IPA) reports relating to an individual, various other correspondence (letter, memoranda, etc.), which related to an individual in the Treasury Enforcement Communications System.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and Treasury Department Order No. 165, revised, as amended. Authority for the collection and maintenance of the report included in the system is: 19 U.S.C. 1603; 19 U.S.C.

1431; 19 U.S.C. 1624; 19 U.S.C. 66; 31 CFR Part 103.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc and tape, microfiche.

RETRIEVABILITY:

Name, personal identification numbers, Customs case number, document's central file number.

SAFEGUARDS:

(1) All Central Files users must have a full field background investigation. (2) The "need to know" principle applies. (3) Procedural and physical safeguards are utilized such as accountability and receipt records, guard patrolling restricted areas, alarm protection systems, special communication security. (4) Access is limited to all Office of Investigations terminals and all Law Enforcement Systems Division Headquarters and San Diego terminals.

RETENTION AND DISPOSAL:

Records will be maintained in the Automated Index to Central Enforcement files for as long as the associated document or microfiche is retained. Records will be destroyed by erasure of the magnetic disc and by burning or shredding the microfiche.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Office of Border Operations, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d)(1), (d)(2), (d)(3), (d)(4), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H) and (I), (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Customs 00.267

SYSTEM NAME:

Customs Automated Licensing Information System (CALIS).

SYSTEM LOCATION:

ADP Branch, U.S. Customs Service, 6 World Trade Center, New York, NY 10048.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and firms who have applied for or been granted licenses in the New York Region as customhouse brokers, or as bonded cartmen or lightermen, and officers, employees and associates of licensed customhouse brokers or licensed bonded cartmen or lightermen; individuals who have applied for or been granted approval to act as container station operators or bonded warehouse proprietors, firms which have applied for approval or been approved as container stations or bonded warehouses, and officers, employees and associates of approved container stations or approved bonded warehouses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, addresses, Social Security numbers, dates of birth, and other pertinent data extracted from Reports of Investigation, Regulatory Audit reports, Treasury Enforcement Communications System entries, and Search, Arrest, and Seizure Reports, information obtained from informants, reports from or to other law enforcement bodies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

19 U.S.C. 1621; 19 CFR Part 111, 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; 19 U.S.C. 1561; 19 CFR Part 112; 19 CFR Part 19; 19 U.S.C. 1556.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (d) To disclose information to foreign governments in accordance with formal or informal international agreements. (e) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (f) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relete to an agency's functions relating to civil and criminal proceedings. (g) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (h) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic disc.

RETRIEVABILITY:

Records can be retrieved by name or personal identification numbers and by employer's name and employer's identification numbers.

SAFEGUARDS:

Access to the office where records are maintained is controlled at all times. A password is required to gain access to records in the computer. The office where the records are maintained is locked during non-working hours. The records are available to those personnel in Operational Analysis and other appropriate Customs personnel on a "need to know" basis.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes, and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Operational Analysis Officer, U.S. Customs Service, 6 World Trade Center, Room 748, New York, NY 10048.

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed under the Privacy Act for the purpose of inspection.

CONTESTING RECORD PROCEDURES:

Since this system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual and those records, if any, cannot be inspected, the system may not be accessed under the Privacy Act for the purpose of contesting the content of the record.

RECORD SOURCE CATEGORIES:

This system contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

United States Customs Service

Appendix A

Notification procedure: Requests by an individual to be notified if the system of records contains records pertaining to him shall be in writing and directed to the Director, Regulation Control and Disclosure Law Division, Office of Regulations and Rulings, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, or to the Regional Commissioner of the region in which the records are located (see Appendix A). The requester will be notified in writing of the procedures to be followed. Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signature and those in the records may be made where the records contain the necessary signature.

Record access procedures: Requests by an individual to be notified how he can gain access to a record pertaining to him contained in a system of records, and how he can contest its content shall be in writing and directed to the Director, Regulations Control and Disclosure Law Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229 or to the Regional Commissioner of the region in which the records are located (see Appendix A). The requester will be notified in writing of the procedures to be followed.

Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signature and those in the records may be made where the records contain the necessary signature.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 91

[Docket No. 24722; Notice No. 85-14]

Nighttime VFR Weather Minimums

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice proposes to standardize the nighttime weather minimums for VFR flight in all airspace, controlled or uncontrolled. Requirements for ceiling, visibility, and distance from clouds would be the same as presently exist for controlled airspace. This amendment would minimize the risks inherent in flying during reduced ceiling and visibility.

DATE: Comments must be received on or before September 23, 1985.

ADDRESSES: Comments on the proposal may be mailed or delivered in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-204), Docket No. 24722, 800 Independence Avenue SW., Washington, D.C. 20591. Comments may be examined in the Rules Docket weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Burton Chandler, Airspace—Rules and Aeronautical Information Division, ATO-230, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, telephone (202) 426-8626.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 24722." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future notices should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

Background

In response to former FAA Administrator Helms' challenge that the aviation community take a more active role in issues concerning the FAA and the agency's response to aviation problem, a panel of 13 representatives from general aviation was formed for the purpose of recommending regulatory and nonregulatory ways by which the FAA could increase its positive influence on general aviation safety.

Short and long range goals were considered, where short range referred to recommendations that could be acted on immediately and would have an impact within 1 to 3 years. Long range referred to recommendations that could be implemented within 12 to 18 months and would have an impact within 3 to 10 years.

Under the chairmanship of Mr. John W. Olcott, Editor and Associate Publisher of *Business and Commercial Aviation Magazine*, a panel (known informally as the General Aviation Safety Panel) was constituted to include knowledgeable representatives from each major constituency within the general aviation community, as listed below:

Mr. James N. Baker, President, Baker Flying Service
Mr. Max E. Bleck, President and CEO, Piper Aircraft Corporation
Mr. John V. Brennan, President & COO, U.S. Aviation Underwriters, Inc.
Mr. Richard L. Collins, Editor, *Flying Magazine*
Mr. John H. Enders, President, Flight Safety Foundation, Inc.
Mr. Gabriel Hartl, Executive Director, Air Traffic Control Association
Dr. Richard McFarland, Avionics Engineering Center, Ohio University
Mr. John J. Sheehan, Planning Officer, Technical Policy and Plans, Aircraft Owners and Pilots Association
Mr. Preston Parish, Vice Chairman, The Upjohn Company, (Chairman, NBAA Safety & Awards Comm.)
Mr. Paul Poberezny, President, Experimental Aircraft Association, Inc.
Mr. Archie Trammell, Executive Vice President, AOPA Air Safety Foundation
Mr. A. L. Ueltschi, President & Chairman, Flight Safety International, Inc.
Mr. John W. Olcott, Editor and Associate Publisher, *Business and Commercial Aviation*

General Aviation Safety Panel Recommendation Pertaining to the Proposal

The comprehensive plan contains a recommendation to the FAA which is the subject of this NPRM.

Weather

The panel, therefore, unanimously recommend that for fixed wing aircraft, the weather minimums for all airspace, controlled or uncontrolled, at night be standardized at the requirements for ceiling, visibility, and distance from clouds that presently exist for controlled airspace. The rules for special VFR would remain unchanged.

The Current Rule

Flight visibility and distance from cloud criteria outside controlled airspace in most cases are less than for flight within controlled airspace. No provision exists to prescribe different weather minimums for a nighttime operation. For example, when 1,200 feet or less above the surface (regardless of mean sea level (MSL) altitude) within controlled airspace, flight visibility must be 3 statute miles. Required distance from clouds is 500 feet below, 1,000 feet above, and 2,000 feet horizontal. VFR flight outside controlled airspace requires 1 statute mile flight visibility and requires that distance of flight from clouds simply be clear of clouds.

When more than 1,200 feet above the surface but less than 10,000 feet MSL, within controlled airspace, flight visibility must be 3 statute miles. Required distance from clouds is 500 feet below, 1,000 feet above, and 2,000 feet horizontal. Outside controlled airspace, the requirement is 1 statute mile flight visibility and a distance from clouds of 500 feet below, 1,000 feet above, and 2,000 feet horizontal.

When more than 1,200 feet above the surface and at or above 10,000 feet MSL, flight visibility must be 5 statute miles. Required distance from clouds is 1,000 feet below, 1,000 feet above, and 1 mile horizontal.

The Proposal

Data compiled by the National Transportation Safety Board (NTSB) indicates that weather is a cause or factor in about 40 percent of fatal accidents within general aviation. Of equal significance is the fact that the classification "pilot-inadequate preflight preparation or planning" is the leading cause or factor in nonfatal accidents (12 percent) and a cause or factor in about 13 percent of fatal accidents. Often, the specific area where preparation and planning were lacking was related to weather.

Where accidents involve weather-related causes or factors, the mishap is more likely to result in a fatality. Of the 10 leading causal factors attributed to nonfatal accidents in 1979, for example, only one—unfavorable wind conditions—explicitly referred to weather. In accidents involving fatalities, however, 4 of the 10 leading causal factors related directly to weather.

Low ceiling typically is a leading causal factor in fatal accidents. In 1979, for example, it was a cause or factor in 25 percent of all fatal accidents; no other causal factor was more prevalent in mishaps involving fatalities. The second most frequent citation was "pilot-continued VFR flight into adverse weather conditions" (19 percent of 1979's fatal accidents). "Weather-fog" was the fourth most often cited causal factor (18 percent) after "pilot-failed to obtain/maintain flying speed" (19 percent). "Weather-rain" was the ninth of 10 leading causal factors for 1979 (7 percent).[1]

Since two other top 10 causal factors in fatal accidents—"pilot-inadequate preflight preparation or planning" and "pilot-improper inflight decisions or planning"—often involve the gathering or use of weather information, in fact six of the 10 leading causal factors for the year 1979 involved weather in some form.

Although specific data for 1979 are used here for emphasis (since 1979 was the year in which the lowest number of fatal accidents occurred for the period 1967 to 1980, the last year for which the panel had detailed breakdowns of data), the results presented do not vary appreciably from other years and are applicable for the present time.

To address the problems presented by low ceilings not related to IFR pilots descending below landing minimums, the panel analyzed 5 years of NTSB records of fatal accidents (1976 through 1980) where the NTSB cited the pilot for continuing visual flight rules (VFR) flight into adverse weather. The panel was particularly interested in the number of accidents that occurred where the reported ceiling was 1,000 feet or less.

During the period 1976 through 1980, 60 percent of fatal, continued VFR accidents occurred with a ceiling of 1,000 feet or less and 16 percent occurred with a ceiling of over 2,000 feet. The ceiling was unknown in 24 percent of the records. Among the accidents where the reported ceiling is 2,000 feet or less (hence the type of accident most likely to be directly related to low ceilings as opposed to some other factor such as extreme turbulence or thunderstorms), over 80 percent of the mishaps occurred with a ceiling of 1,000 or less.

Further analysis of 1980 data for fatal accidents where the pilot continued VFR flight into adverse weather conditions shows that the failure or inability to follow instrument flight rules (IFR) procedures in the presence of adverse weather was present in 95 percent of the accidents and that over 50 percent of the accidents occurred at night, even though only about 5 to 10 percent of VFR flying by general aviation pilots occur at night.

The 1980 data agree quite well with the results of an NTSB study entitled, "Special Study of Fatal, Weather-Involved General Aviation Accidents, 1964-1972."

The panel concluded that pilots should be encouraged to avoid marginal VFR conditions, where marginal is defined as any weather conditions with ceiling 1,000 feet or below and visibility 3 miles or less. Furthermore, pilots should be encouraged to obtain an instrument rating and use it whenever marginal VFR or lower conditions exist.

The suggestion was made that weather minimums for VFR flight should be standardized at 1,000 foot ceiling and 3 miles visibility for all airspace, controlled and uncontrolled. Such standardization, it was argued, would place emphasis on the risks inherent in flying with reduced ceilings and visibility.

Several members of the panel emphasized, however, that under certain conditions, the right to fly in 1 mile visibility and clear of the clouds could be exercised safely provided a pilot were able to detect cloud heights and visibility before the weather deteriorated to instrument meteorological conditions (IMC). Furhermore, they stated that detecting the onset of IMC before penetrating low ceilings and fog was very difficult, if not impossible, at night in conditions of reduced ceilings and visibility.

Economic Impact

This proposal would change the conditions of visibility and cloud cover under which it would be permissible to operate VFR during hours of darkness. The proposed conditions are more restrictive than the present regulation.

The benefits and costs of this proposal are difficult to quantify. In general, the benefits are expected to exceed costs, and this conclusion is supported by the fact that the proposal to change the regulation originated from the conclusions of a public panel, rather than from an FAA regulatory initiative.

The panel report contains statistical backup for the regulatory proposal. In addition to relying on the general data reviewed by the panel, FAA conducted a detailed review of a sample year of general aviation accidents. For purposes of the analysis, FAA reviewed briefs of fatal accidents involving weather as a cause or factor in 1977. The year 1977 was selected primarily because the total number of general aviation accidents was on the high side of the average "650 to 700" per year cited by the panel as a kind of "constant" for the decade of the 1970's.

In the sample year, there were 258 fatal accidents involving weather as a cause or factor. After eliminating accidents for the obvious reasons of hour of day, type of operation, and visibility or ceiling factors, there were 19 accidents involving 36 fatalities. This is a relevant data base for establishing benefits of the proposal. Effectiveness of the regulation is difficult to estimate, since the record is clear that present standards are frequently breached. If there is 100 percent effectiveness, and the 1977 history is taken as reasonable approximation of an average year, then the benefit of the rule would be approximately $23.4 million annually, if only the value of the 36 lives saved is counted. This estimate uses a 1983 value of life of $650,000, based on updated factors from an FAA study.

The cost of this proposal can only be estimated in a speculative fashion. In 1983 there were approximately 3.5 million night hours flown under visual meteorological conditions. The only hours which would be limited by the proposal would be those VFR operations

[1] Causal factors total more than 100 percent due to the assignment or more than one cause or factor to an accident.

VOL 50 ISS 141 JL 23 1985 UMI

which occurred within controlled airspace and within the visibility and cloud cover criteria affected. This is likely to be a small percentage of the total hours in any given year.

While it is speculative, FAA estimates that the maximum cost of this proposal is in the area of $19 million per year. This is based on an estimated delay to 175,000 trips, delaying 2.5 persons per trip for two hours, and assumes a delay cost of $21.50 per hour. Thus, FAA believes that maximum benefits exceed maximum costs. While this conclusion is somewhat speculative, it is supported by the fact that the regulatory proposal originated from a public panel rather than from an FAA regulatory initiative, and if costs were perceived to exceed benefits, it is unlikely that a public panel would recommend the change to VFR criteria.

As required under the Regulatory Flexibility Act, the FAA evaluated the impact of the proposed rule on small entities, or small commercial and public enterprises. The proposed rule applies only to flights conducted VFR in uncontrolled airspace at night. Because commercial and business-owned general aviation aircraft are virtually universally equipped for IFR operation, only an extremely small number of flights would be cancelled or delayed as a result of the proposed minimums. Commercial and business operators who conduct VFR flights in uncontrolled airspace by necessity constitute only a small fraction of the number of operators affected by the proposal. Therefore, it is certified that under the criteria of the Regulatory Flexibility Act, this regulation, at promulgation, will not have a significant economic impact on a substantial number of small entities. For the reasons given earlier in the preamble, the FAA has determined that this is not a major regulation as defined in Executive Order 12291. The FAA has determined that this action is nonsignificant as defined in Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979).

The Proposed Revision

PART 91—GENERAL OPERATING AND FLIGHT RULES

Accordingly, the Federal Aviation Administration proposes to amend Part 91 Federal Aviation Regulations (14 CFR Part 91) as follows:

1. The authority for Part 91 continues to read as follows:

Authority: 49 U.S.C. 1301(7), 1303, 1344, 1348, 1352 through 1355, 1401, 1421 through 1431, 1471, 1472, 1502, 1510, 1522, and 2121 through 2125; Articles 12, 29, 31, and 32(a) of the Convention on International Civil Aviation (61 Stat. 1180); 42 U.S.C. 4321 et seq.; E.O. 11514; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 21, 1983).

2. Section 91.105 is amended by revising paragraphs (a) and (b)

§91.105 Basic VFR weather minimums.

(a) Except as provided in §§ 91.105(b) and 91.107, no person may operate an aircraft under VFR when the flight visibility is less, or at a distance from clouds that is less than that prescribed for the corresponding altitude in the following table:

Altitude	Flight visibility (statute miles)	Distance from clouds
1,200 feet or less above the surface (regardless of MSL altitude):		
Within controlled airspace.	3	500 feet below, 1,000 feet above, 2,000 feet horizontal.
Outside controlled airspace (day).	1	Clear of clouds.
Outside controlled airspace (night).	3	500 feet below, 1,000 feet above, 2,000 feet horizontal.
More than 1,200 feet above the surface but less than 10,000 feet MSL:		
Within controlled airspace.	3	500 feet below, 1,000 feet above, 2,000 feet horizontal.
Outside controlled airspace (day).	1	500 feet below, 1,000 feet above, 2,000 feet horizontal.
Outside controlled airspace (night).	3	500 feet below, 1,000 feet above, 2,000 feet horizontal
More than 1,200 feet above the surface and at or above 10,000 feet MSL.	5	1,000 feet below, 1,000 feet above, 1 mile horizontal.

(b) When the visibility is less than 1 mile during day hours or less than 3 miles during night hours, a helicopter may be operated outside controlled airspace at 1,200 feet or less above the surface if operated at a speed that allows the pilot adequate opportunity to see any air traffic or other obstruction in time to avoid a collision.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

How To Cite This Publication: Use the volume number and the page number. Example: 50 FR 12345.

Presidential Documents

Title 3—

The President

Proclamation 5358 of July 20, 1985

Space Exploration Day, 1985

By the President of the United States of America

A Proclamation

Sixteen years ago, on July 20, 1969, American Astronauts sent a message to Earth: "The Eagle has landed." In a dramatic and compelling moment in history, the first humans had reached solid ground beyond our own planet.

To understand Earth systems we must understand our solar system and the universe beyond. Remotely controlled satellites have been sent on missions to Mars, Saturn, and Jupiter. If all goes well, the outer planets Uranus and Neptune will be studied as the Voyager spacecraft passes by in 1986 and 1989, respectively. Within the next year or so the first comet rendezvous are planned (Giacobini-Zinner and Halley), the powerful Hubble Space Telescope will be placed in orbit, and the Galileo Mission to Jupiter will be launched. Scientists around the world eagerly anticipate the results.

The space shuttle continues to demonstrate and expand its capabilities with each successive flight. Within the past year, satellites have been launched from the shuttle's bay, repaired in space, and retrieved and returned to Earth for repair. We have conducted missions in which a European-designed and built scientific laboratory—Spacelab—has flown in the shuttle bay's gravity-free environment during which data in a wide range of disciplines have been acquired, materials tested, and chemical reactions monitored.

Under NASA's direction, the next logical step in America's space program—the space station—is being planned, with development scheduled for the latter part of this decade. When it becomes operational in the early to mid-1990s, the space station will be a catalyst for expanding the peaceful uses of space for scientific, industrial, and commercial gain. The station will serve as a laboratory for materials processing and industrial and scientific research; as a permanent observatory for astronomy and Earth observations; as a storage and supply depot; and as a base from which to service other satellites or satellite clusters that will form the world's first space-based industrial park. Japan, Europe, and Canada have joined with us in partnerships that are designed to serve all our long-term interests.

Space exploration is little more than a quarter century old. In that brief period, more has been learned about the cosmos and our relation to it than in all the preceding centuries combined. The ever-increasing knowledge gained from peaceful space exploration, and the uses to which that knowledge is put, potentially benefit all those aboard Spaceship Earth. The spirit of July 20, 1969, lives on.

In recognition of the achievements and promise of our space exploration program, the Congress, by Senate Joint Resolution 154, has designated July 20, 1985, as "Space Exploration Day" and authorized and requested the President to issue a proclamation to commemorate this event.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim July 20, 1985, as Space Exploration Day. I call upon the people of the United States to observe the occasion with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of July, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 50, No. 142
Wednesday, July 24, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

7 CFR Part 800

Fees for Official Services Performed by Agencies

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: In compliance with the requirement for the periodic review of existing regulations, the Federal Grain Inspection Service (FGIS or Service) is revising its regulations under the United States Grain Standards Act, as amended, concerning the Fees for Official Services Performed by Agencies. This final rule will revise the approval requirements for agency fees and add or restate certain conditions for determining if the fees are reasonable and nondiscriminatory. In addition, it will require that fee schedules include fees for all official services which agencies are delegated or designated the authority to perform, and that fee schedules be prepared in a standard format. These changes clarify, update, and restate certain provisions so as to facilitate use of the regulations.

EFFECTIVE DATE: August 23, 1985.

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr., Information Resources Management Branch, USDA, FGIS, Room 0667 South Building, 1400 Independence Avenue, SW., Washington, D.C. 20250, telephone (202) 382-1738.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This final rule has been issued in conformance with Executive Order 12291 and Departmental Regulation 1512-1. The action has been classified as nonmajor because it does not meet the criteria for major regulation established in the Order.

Regulatory Flexibility Act Certification

Kenneth A. Gilles, Administrator, FGIS, has determined that this final rule will not have a significant economic impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because most users of the official inspection and weighing services and those entities that perform these services do not meet the requirements for small entities.

Information Collection and Recordkeeping Requirements

In compliance with the Office of Management and Budget (OMB) regulations (5 CFR Part 1320) which implement the Paperwork Reduction Act of 1980 (Pub. L. 96-511) and section 3504(h) of this Act, the information collection and recordkeeping requirements contained in this final rule have been approved by OMB. No comments concerning these requirements were received during the comment period.

Final Action

The review of the regulations concerning fees for official services performed by agencies included a determination of the continued need for and consequences of the regulations. An objective of the review was to ensure that the regulations are serving their intended purpose, the language is clear, and the regulations are consistent with FGIS policy and authority. FGIS has determined that, in general, these regulations are serving their intended purpose, are consistent with FGIS policy and authority, and should remain in effect. However, in the October 17, 1984, Federal Register (49 FR 40582), FGIS proposed certain revisions to the regulations. FGIS received seven comments to the proposed rule which allowed 60 days for public comment. FGIS proposed to revise § 800.70 by:

1. Amending paragraph (b) *Approval required* by removing the provision for interim approval of certain fee schedules, adding the requirement that only fees which meet the requirements stated in this section may be charged by an agency, and adding a general provision for case-by-case exceptions to the fee schedule approval requirements.

When the curent regulation was promulgated on March 11, 1980, an exception provision was established to provide interim approval of all agency fee schedules which were in effect on March 11, 1980. Since then, all agencies have received approval of their revised fee schedules. Therefore, this exception clause is no longer necessary.

Currently, § 800.70 provides that only fees which are approved as reasonable and nondiscriminatory may be charged by an agency. However, in reaching this determination, there are certain criteria used in applying these two standards in § 800.70 which are considered during the review for approval process. FGIS is clarifying this section to state that agency fees must meet all the requirements of § 800.70 as a condition for approval.

FGIS recognizes that all agencies may not be able to meet all of the requirements unconditionally. Therefore, FGIS is also amending the regulations to grant case-by-case exceptions to the requirements of § 800.70 if the proposed exception can be justified by the agency, and if a determination is made that the agency's fees are reasonable and nondiscriminatory. The proposed language is clarified in this final rule to specify that an agency must show good cause. These provisions reflect more clearly the Service's policy for approving agency fee schedules.

2. Adding a new paragraph (c)(4), requiring that fees be supported by sufficient information showing how they were developed. Such information is needed by FGIS to help determine whether the fees are reasonable.

3. Amending paragraph (e) *Schedule of fees to be established* by adding the requirement that fee schedules include fees for all official services which agencies are delegated or designated the authority to perform, and be in a standard format in accordance with instructions issued by the Service.

Currently, many agencies provide fees only for services which are customarily requested in their geographic area. When an applicant requests an official service which is not addressed in an agency fee schedule, the agency must revise its fee schedule and request FGIS approval of the proposed revision. Some fee revision requests woud be eliminated if each agency were required to provide a fee for all official services

VOL
50
ISS
142
JL
24
1985
UMI

which the agency is delegated or designated the authority to perform. This requirement will promote consistency among agency fee schedules and will make the schedules more informative to applicants for official services.

At present, there is not a standard fee schedule format. The inconsistencies in format among agency fee schedules impede understanding and cause misinterpretations of the fees and charges. A standard fee schedule format will provide a needed degree of consistency and clarity. Additionaly, FGIS' review of agency fee schedules would be made easier if all agencies used a standard fee schedule format.

4. Amending paragraph (f) *Request for approval of fees* by changing the request for approval time requirement to not less than 30 days in advance of the proposed effective date for the fees. Currently, agencies are required to submit requests for approval of new or revised fees to FGIS not less than 60 days in advance of the proposed effective date for the fees. However, unanticipated workload changes often require agencies to request that fee schedule revisions be effective in less than 60 days from the date of the request. FGIS proposed 30 days as representing a more reasonable time period. However, based on comments received, FGIS is retaining the current 60-day request for approval time requirement. Also, the sentence referring to case-by-case exceptions to the approval time requirement is not needed because FGIS is granting case-by-case exceptions to the requirements of § 800.70 under paragraph (b)(2).

5. Miscellaneous non-substantive grammatical and format changes are being made to § 800.70 to clarify and facilitate the use of the regulations.

The commenters, in general, supported the proposed changes. However, concern was expressed in three specific areas.

In response to the provision requiring that fees be supported by sufficient information showing how they were developed, one commenter stated that this regulation would create an additional burden on agencies which attempt to amend fee schedules. The commenter questioned the value of such fee development information to FGIS as a criterion for determining reasonable fees and the propriety of FGIS to determine what is a reasonable return on investments for a private business.

FGIS was not proposing a new requirement to be a condition for agency fee schedule approval. The current regulation requires that all fee schedule approval requests shall show in detail how the fees were developed. As such, this regulation does not impose an additional burden on agencies which attempt to amend fee schedules, as the commenter suggests. This information assists in determining whether an agency's fees are reasonable, thereby justifying fee revision requests. It also provides sufficient data upon which FGIS can ascertain whether approval of a particular fee schedule is appropriate. However, FGIS does not make determinations as to what a reasonable return on investments for a private business is. As such, the commenter's concern as to information usage in this area is unnecessary.

Four commenters opposed the provision which would have changed the request for approval time requirement from 60 days to 30 days in advance of the fee effective date. The commenters stated that a 30-day request for approval time requirement in advance of the fee effective date would not provide users of agencies' services with adequate advance notification to make necessary operational planning and budget decisions. One of the commenters also suggested that FGIS should require that fee schedule revisions become effective no sooner than 30 days after being approved by FGIS. Further, the same four commenters stated that FGIS should require agencies to provide advance notice of all fee changes to users of the agencies' services. Two of those commenters suggested that FGIS should require agencies to notify customers concurrently with any request for FGIS approval of revised fees. The other two commenters suggested that FGIS should require agenices to notify customers at least 90 days before fee revisions become effective.

FGIS proposed a 30-day period to assist agencies in meeting unanticipated workload changes which made the agencies request exceptions to the 60-day advance approval time requirement. Some comments received expressed concern with respect to applicants' advance notification to make their own necessary operational planning and budget decisions. In view of these concerns, FGIS is retaining the present 60-day approval time requirement. However, agencies still may, for good cause shown, request an exception to this requirement. The 60-day period will continue to afford agencies a longer period of time in which to inform applicants for service of proposed or approved fee schedule changes.

In any event, FGIS did not propose any requirement that agencies be required to notify applicants for service in advance of any proposed or approved fee changes. Therefore, any such amendment would not be appropriate in this final rule. Good business practice would seem to dictate that agencies notify their customers of fee changes reasonably in advance of fee changes and as such this matter may more appropriately be left to such practices due to the many variables involved in revising fee schedules.

One commenter opposed the reasonable fee criterion that fees be assessed on the basis of the average cost of performing the same or similar services at all locations served by the agency because of reasonable agency costs that differ depending upon location and their inequitable impact on users of official services. The commenter suggested that the regulations should allow the agency to assess fees on the basis of the average costs of performing the same or similar service at all locations serviced by the agency or to assess fees based on the cost of performing the service at individual specified service points.

The commenter seems to suggest that the current regulations require agencies to assess the identical total charges from all applicants for same or similar services at all locations served by the agency. However, there are variables which agencies may consider when formulating fees, such as workload fluctuations at specified service points and time and travel expenses incurred at locations away from specified service points. The current regulations are intended to assure that agencies assess the same base fee for the same or similar services at all locations within their geographic boundaries. However, the FGIS Instruction which implements these regulations permits agencies to assess minimum fees in order to gurarantee cost recovery at all locations served by the agency. Also, agencies may assess additional charges to applicants to cover expenses for time and travel at locations away from specified service points. Accordingly, the current regulations and related Instruction take into consideration the variable expenses incurred by agencies and as such do not foster an inequitable distribution of costs to applicants within an agency's geographic boundaries, as the comment suggests. Therefore, the commenter's suggestion that agencies be allowed to choose between assessing fees based on average costs or on individual specified service point costs would not be appropriate.

One comment addressed FGIS' fees and was not relevant to the regulations on fees for official services performed by agencies.

Based on the comments received and all other information available, FGIS is revising § 800.70 of the regulations as follows:

1. Amending paragraph (b) by removing the provision for interim approval of certain fee schedules, adding the requirement that only fees which meet the requirements stated in this section may be charged by an agency, and adding a general provision for case-by-case exceptions to the fee schedule approval requirements. These provisions reflect more clearly the Service's policy for approving agency fee schedules.

2. Adding a new paragraph (c)(4), requiring that fees be supported by sufficient information showing how they were developed. Such information is needed by FGIS to help determine whether the fees are reasonable.

3. Amending paragraph (e) by adding the requirement that fee schedules shall include fees for all official services which agencies are delegated or designated the authority to perform, and be in a standard format in accordance with instructions issued by the Service. These changes will provide a needed degree of consistency and clarity.

4. Removing the sentence under paragraph (f) which refers to case-by-case exceptions to the approval time requirement. Paragraph (b)(2) will establish provisions for case-by-case exceptions to the requirements of § 800.70.

5. Making miscellaneous non-substantive grammatical and format changes to clarify and facilitate the use of the regulations.

PART 800—GENERAL REGULATIONS

Fees

Accordingly, 7 CFR Part 800 of the regulations is amended by revising § 800.70 (b), (c), (d), (e)(1), and (f)(1) to read as follows:

The authority citation for Part 800 continues to read as follows:

Authority: Pub. L. 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 *et seq.*).

§ 800.70 Fees for official services performed by agencies.

* * * * *

(b) *Approval required.*—(1) *Restriction.* Only fees that meet the requirements stated in this section and are approved by the Service as reasonable and nondiscriminatory may be charged by an agency.

(2) *Exceptions.* For good cause shown by an agency, the Administrator may grant case-by-case exceptions to the requirements in this section, provided that a determination is made that the agency fees would be reasonable and nondiscriminatory.

(c) *Reasonable fees.* In determining if an agency's fees are reasonable, the Service will consider whether the fees: (1) Cover the estimated total cost to the agency of (i) official inspection services, (ii) Class X or Class Y weighing services, (iii) inspection equipment testing services, and (iv) related supervision and monitoring activities performed by the agency; (2) Are reasonably consistent with fees assessed by adjacent agencies for similar services; (3) Are assessed on the basis of the average cost of performing the same or similar services at all locations served by the agency; and (4) Are supported by sufficient information which shows how the fees were developed.

(d) *Nondiscriminatory fees.* In determining if fees are nondiscriminatory, the Service will consider whether the fees are collected from all applicants for official service in accordance with the approved fee schedule. Charges for time and travel incurred in providing service at a location away from a specified service point shall be assessed in accordance with the approved fee schedule.

(e) *Schedule of fees to be established.* (1) Each agency shall establish a schedule of fees for official services which the agency is delegated or designated the authority to perform. The schedule shall be in a standard format in accordance with the instructions. Such schedules may include fees for nonofficial services provided by the agency, but they shall be clearly identified and will not be subject to approval by the Service.

* * * * *

(f) *Request for approval of fees.*—(1) *Time requirement.* A request for approval of a new or revised fee shall be submitted to the Service not less than 60 days in advance of the proposed effective date for the fee. Failure to submit a request within the prescribed time period may be considered grounds for postponment or denial of the request.

BILLING CODE 3410–EN–M

Agricultural Marketing Service

7 CFR Part 1205

Supplemental Cotton Research and Promotion Assessment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the Cotton Board Rules and Regulations by increasing the supplemental assessment levied on upland cotton to finance a cotton research and promotion program. The change is based on the Cotton Board's recommendation to the Secretary of Agriculture that the supplemental per bale assessment be increased to six-tenths of one percent of the value of the cotton from the present rate of four-tenths of one percent. Additional funds will be used to offset the effects of increased costs and competition from synthetic fibers and foreign produced cotton, and to sustain the effectiveness of the research and promotion program.

EFFECTIVE DATE: July 24, 1985.

FOR FURTHER INFORMATION CONTACT: Naomi Hacker, Chief, Research and Promotion Staff, Cotton Division, AMS, USDA, Washington, DC 20250, 202/447–2259.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed in accordance with Executive Order 12291 and Departmental Regulation 1512–1 and has been determined not to be a "major rule" since it does not meet the criteria for a major regulatory action as stated in the Order.

William T. Manley, Deputy Administrator, AMS has certified that this action will not have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because: (i) Contributions to the support of the cotton research and promotion program are voluntary since cotton producers are entitled to a complete refund of assessments collected; (ii) the assessment will not affect the competitive position or market access of small entities in the cotton industry; (iii) the benefits of the cotton research and promotion program (stimulation of consumer demand for cotton, increased market share for cotton products) accrue to all U.S. cotton producers regardless of size or degree of support for the program; and (iv) the supplemental assessment is directly related to the current market value of the bale of cotton.

VOL

1985
UMI

Since the harvesting of the 1985 cotton crop begins in July, it is necessary to implement the increased assessment less than 30 days after the publication date to insure that a uniform rate of assessment is levied on all of the cotton handled throughout 1985. Accordingly, under the administrative provisions of 5 U.S.C. 553, good cause is found for making this action effective upon publication.

Background

The Cotton Research and Promotion Act of 1966 (7 U.S.C. 2101 *et seq.*) and the implementing Order provide for the operation and funding of a producer financed cotton research and promotion program designed to maintain and expand markets for U.S. cotton. The program is administered by a 19-member Cotton Board, appointed by the Secretary of Agriculture, which represents cotton producers in each cotton-producing state. The Cotton Board reviews research, advertising, sales, promotion and development projects and related budgets developed by Cotton Incorporated, a contracting organization established to carry out such projects (7 CFR 1205.328). The Board makes recommendations concerning these projects and budgets to the Secretary of Agriculture who has final budget approval authority.

A per-bale assessment is collected from the producer by the first buyer of the cotton and transmitted to the Cotton Board to be used to finance research and promotion projects. Cotton producers are entitled to a full refund of assessments collected from them (7 CFR 1205.520). Initially, the Cotton Research and Promotion Act of 1966 (Act) authorized a flat $1 per bale assessment. On July 14, 1976, the Act was amended (7 U.S.C. 2106(e)) to authorize a supplemental assessment to be collected in addition to the existing levy of $1 per bale that was not to exceed one percent of the value of the cotton. The Cotton Board recommended that the supplemental assessment rate be fixed at four-tenths of one percent of the value of the cotton starting with the 1977 crop (41 FR 50270). It also recommended that the Order be amended to enable the Cotton Board, with the approval of the Secretary, to increase or decrease the rate of the supplemental assessment for subsequent crops. Any such adjustment would be within the one percent limit.

These recommendations were subject to approval in a producer referendum as described in Section 8 of the Act (7 U.S.C. 2107). The referendum was conducted during the period December 13–17, 1976. The proposed amendments to the Order were approved and published in the **Federal Register** January 26, 1977 (42 FR 4813). The Cotton Board Rules and Regulations were subsequently amended to implement the supplemental assessment of four-tenths of one percent of the value of cotton effective July 15, 1977 (42 FR 35974).

Proposed Rule

The Cotton Board's recommendation to increase the supplemental assessment to six-tenths of one percent of the value of each bale of cotton was published as a proposed rule in the June 19, 1985 **Federal Register** at 50 FR 25425.

The Cotton Board's basis for recommending the increase is that additional funding for program activities as carried out by Cotton Incorporated is necessary to strengthen cotton's competitive position and to maintain and expand markets and uses for United States upland cotton. Even though the supplemental assessment is directly related to the current value of a bale of cotton, the ratio between the value of cotton and increased program costs has reduced available funds in real terms to pay for advertising, sales, research, promotion and development activities. For example, the purchasing power of the advertising dollar dropped from $1 in 1978 to 46 cents in 1984 and an estimated 41 cents in 1985. This reduced purchasing power has diminished the Cotton Board's ability to effectively fund, maintain, or expand program activities that are needed more than ever in view of increased competition from foreign growths and synthetics.

Because the basic assessment of $1 per bale of cotton handled will remain unchanged, the net effect of the increase in the supplemental assessment is to raise the average per-bale collection from approximately $2.15 to $2.75. Without the increase, severe program cutbacks would result in 1986. Also, the projected additional revenue generated by the increase will provide for a reasonable reserve and contribute to greater program funding stability from year to year.

Further, the increasing costs which need to be matched with increased funding are costs attributed to the projects carried out by Cotton Incorporated, and are not reflective of the Cotton Board's costs of administration.

Comments

Comments on the proposed rule were solicited from interested parties until July 9, 1985.

Thirteen farm organizations in cotton-producing states, the National Cotton Council, representing all segments of the cotton industry, and one individual cotton producer expressed support for the increase.

Two farm organizations in a cotton producing state and four individual cotton producers have stated they are not in favor of the increase.

Generally, the views expressed in favor of the proposal are covered in the following excerpts from three of the letters of support:

—"We realize that the current cotton economy is stressed and producers are hard pressed with increasing costs. However, in the long range it is essential to maintain a viable, effective research and promotion program to help reduce costs and develop new markets for our cotton products."

—"This additional funding is needed now more than ever due to increased costs and foreign competition and will help cotton compete with other fibers and foreign grown cotton in today's very competitive markets."

—"Inflation has eroded the funds available to the point that not only the advertising impressions are cut drastically but other essential functions are being curtailed."

Two cotton producer associations oppose the proposed increase because economic conditions are currently unfavorable for cotton producers, and because of concern over whether an increase might trigger increased refunds.

One association commented,

—"While the need for funding, and perhaps additional funding, is recognized, it is felt that the timing of this increase is especially poor. Given the present economic plight of the cotton farmer, an additional expense is simply unacceptable, no matter how desirable the increase in funding might be."

Another association cautioned,

—"Producers already are in dire financial straits and no relief is in sight. Therefore, we are concerned that increasing the producer's contribution to CI from about $2.15 to $2.75 per bale might result in a higher level of refund requests, more than offsetting the higher gross receipts."

Two producers stated that the increase would result in withdrawal of support for the program.

Final Rule

A majority of the comments, including those of the major cotton industry association, were in support of the proposed increase, and the Department recognizes the need for additional funds to assure the continuity and effectiveness of the research and promotion program. Therefore, after carefully evaluating the comments and all other relevant factors, the Department has decided to approve the Cotton Board's recommendation to increase the supplemental research and promotion assessment. The Cotton Board rules and regulations are being amended pursuant to the enabling provision in the Order (7 CFR 1205.331(b)). This amendment will not alter or limit a producer's right to obtain a refund of any assessment levied against his or her cotton.

Paragraph (b) of § 1205.510, Levy of assessment, is amended to state that the supplemental assessment shall be levied at the rate of six-tenths of one percent of the value of cotton, instead of four-tenths of one percent. This change is made in the narrative text of paragraph (b) and in the footnote to the assessment chart set forth in the same paragraph.

In addition, the assessment chart is amended by changing the figures in the column headed "Supplemental assessment dollars per bale". The changes reflect the proposed increase in the supplemental assessment. The assessment chart is used to calculate the per bale assessment levied on the current value of cotton converted to a fixed amount per bale. Use of this chart provides a simple and orderly procedure for calculating the assessment by collecting handlers who do not have computerized accounting systems.

This final rule differs from the proposed rule in one respect. The proposed rule stated that the increased assessment would be levied on cotton harvested and ginned on and after July 1, 1985. This was incorrect since the comment period for the proposed rule did not expire until July 9, 1985. The final rule, as amended, states that the increased assessment will be levied on cotton harvested and ginned on and after July 24, 1985.

As required by 1 CFR 18.20 (46 FR 1762, January 22, 1981), the following are the indexing terms for this regulation:

List of Subjects in 7 CFR Part 1205

Cotton, Administrative practice and procedure, Research and promotion, Cotton Board, Producer assessments, Producer refunds.

PART 1205—[AMENDED]

Accordingly, Part 1205 of Chapter II, title 7 of the Code of Federal Regulations is amended as shown.

1. The authority citation for Part 1205 continues to read as follows:

Authority: Sec. 15, 80 Stat. 285, 7 U.S.C. 2114; Sec. 7, 80 Stat. 281, 7 U.S.C. 2106.

2. Section 1205.510 is amended by revising paragraph (b) to read as follows:

§ 1205.510 Levy of assessment.

* * * * *

(b) A supplemental assessment for cotton research and promotion in addition to the $1 per bale assessment provided in paragraph (a) of this section, is hereby levied on each bale of upland cotton harvested and ginned on and after July 24, 1985 except cotton consumed by any governmental agency from its own production. The supplemental assessment shall be levied at the rate of six-tenths of one percent of: (1) The current value of cotton multiplied by the number of pounds of lint cotton or (2) the current value of cotton converted to a fixed amount per bale as reflected in the following assessment chart:

Assessment Chart [1]

Current value (cents per pound)	Supplemental assessment, dollars per bale
.00 to 9.99	.15
10.00 to 19.99	.45
20.00 to 29.99	.75
30.00 to 39.99	1.05
40.00 to 49.99	1.35
50.00 to 59.99	1.65
60.00 to 69.99	1.95
70.00 to 79.99	2.25
80.00 to 89.99	2.55
90.00 to 99.99	2.85
100.00 to 109.99	3.15
110.00 to 119.99	3.45

[1] Assessment is calculated on 6/10 of 1 percent of the midpoint of each 10¢ increment, based on a 500 lb bale and converted to a fixed amount per bale.

BILLING CODE 3410-02-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Part 287

Field Officers; Powers and Duties

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This final rule sets forth procedures for the issuance of subpoenas in connection with criminal and civil investigations and other immigration proceedings. The rule specifies the categories of Immigration and Naturalization officials who may issue subpoenas. The subpoena powers of immigration judges are not affected by this rule.

EFFECTIVE DATE: August 23, 1985.

FOR FURTHER INFORMATION CONTACT:

For General Information: Loretta J. Shogren, Director, Policy Directives and Instructions, Immigration and Naturalization Service, 425 I Street, NW., Washington, DC 20536, Telephone: (202) 633-3048

For Specific Information: Michael J. Heilman, Associate General Counsel, Immigration and Naturalization Service, 425 I Street, NW., Washington, D.C. 20536, Telephone: (202) 633-2620

SUPPLEMENTARY INFORMATION: This final rule revises current regulations relating to the issuance of subpoenas by Service officers. It authorizes District Directors, Deputy District Directors, Chief Patrol Agents, Deputy Chief Patrol Agents, Officers-in-Charge, Patrol Agents in Charge, Supervisory Criminal Investigators (Anti-Smuggling) and Regional Directors, Office of Professional Responsibility, to issue subpoenas in the context of criminal or civil investigations and other immigration proceedings. The subpoena-issuing authority of immigration judges is not affected by this rule. For the sake of clarity, however, this rule separates the provisions relating to subpoena-issuance by Service officials from those relating to issuance by immigration judges.

Notice of proposed rulemaking was published March 26, 1985, at 50 FR 11680 with a thirty day comment period. Only one comment was received. The commenter opposed the proposed rule and questioned the extent to which the subpoena-issuing authority was to be delegated. This comment was considered, and it was determined that adequate safeguards exist to prevent abuse of this authority.

Subsection (b)(1) is revised to make it consistent with subsection (b)(2), which describes the contents of a subpoena.

Additional categories of issuing officials have been added to the final rule: Regional Directors of the Office of Professional Responsibility, Patrol Agents in Charge and Supervisory Criminal Investigators (Anti-Smuggling). The proposed rule inadvertently omitted these categories of officials.

VOL 50 ISS 142 JL 24 1985 UMI

In accordance with 5 U.S.C. 605(b), the Commissioner of Immigration and Naturalization certifies that this rule does not have a significant impact on a substantial number of small entities.

This rule is not a major rule as defined in section 1(b) of E.O. 12291.

List of Subjects in 8 CFR Part 287

Administrative practice and procedure, Authority delegation, Crime, Immigration, Immigration and Nationality Act, Law enforcement officers, Subpoena.

Accordingly, Chapter I of Title 8 of the Code of Federal Regulations is amended as follows:

PART 287—FIELD OFFICERS: POWERS AND DUTIES

1. The authority citation for Part 287 continues to read as follows:

Authority: Secs. 103 and 287 of the Immigration and Nationality Act, as amended (8 U.S.C. 1103, 1357).

2. Section 287.4 is revised to read as follows:

§ 287.4 Subpoena.

(a) *Who may issue*—(1) *Criminal or civil investigations.* All District Directors, Deputy District Directors, Chief Patrol Agents, Deputy Chief Patrol Agents, Officers-in-Charge, Patrol Agents in Charge, Supervisory Criminal Investigators (Anti-Smuggling) and Regional Directors, Office of Professional Responsibility, may issue a subpoena requiring the production of records and evidence for use in criminal or civil investigations.

(2) *Proceedings other than naturalization proceedings*—(i) *Prior to commencement of proceedings.* All District Directors, Deputy District Directors, Chief Patrol Agents, Deputy Chief Patrol Agents, and Officers-in-Charge, may issue a subpoena requiring the attendance of witnesses or the production of documentary evidence, or both, for use in any proceeding under this chapter, other than under Part 335 of this Chapter, or any application made ancillary to the proceeding.

(ii) *Subsequent to commencement of any proceeding.* (A) In any proceeding under this chapter, other than under Part 335 of this chapter, and in any proceeding ancillary thereto, an immigration judge having jurisdiction over the matter may, upon his/her own volition or upon application of a trial attorney, the alien, or other party affected, issue subpoenas requiring the attendance of witnesses or for the production of books, papers and other documentary evidence, or both.

(B) *Application for subpoena.* A party applying for a subpoena shall be required, as a condition precedent to its issuance, to state in writing or at the proceeding, what he/she expects to prove by such witnesses or documentary evidence, and to show affirmatively that he/she has made diligent effort, without success, to produce the same.

(C) *Issuance of subpoena.* Upon being satisfied that a witness will not appear and testify or produce documentary evidence and that the witness' evidence is essential, the immigration judge shall issue a subpoena.

(D) *Appearance of witness.* If the witness is at a distance of more than 100 miles from the place of the proceeding, the subpoena shall provide for the witnesses' appearance at the Service office nearest to the witness to respond to oral or written interrogatories, unless the Service indicates that there is no objection to bringing the witness the distance required to enable him/her to testify in person.

(b) *Form of subpoena.* All subpoenas shall be issued on Form I–138.

(1) *Criminal or civil investigations.* The subpoena shall command the person or entity to which it is addressed to attend and to give testimony at a time or place specified. A subpoena shall also command the person or entity to which it is addressed to produce the books, papers, or documents specified in the subpoena. A subpoena may direct the taking of a deposition before an officer of the Service.

(2) *Proceedings other than naturalization proceedings.* Every subpoena issued under the provisions of this section shall state the title of the proceeding and shall command the person to whom it is directed to attend and to give testimony at a time and place specified. A subpoena shall also command the person to whom it is directed to produce the books, papers, or documents specified in the subpoena. A subpoena may direct the making of a deposition before an officer of the Service.

(c) *Service.* A subpoena issued under this section may be served by any person, over 18 years of age not a party to the case, designated to make such service by the District Director, Deputy District Director, Chief Patrol Agent, Deputy Chief Patrol Agent, Patrol Agent in Charge, Officer-in-Charge, Supervisory Criminal Investigator (Anti-Smuggling), and Regional Director, Office of Professional Responsibility, having administrative jurisdiction over the office in which the subpoena is issued. Service of the subpoena shall be made by delivering a copy thereof to the person named therein and by tendering to him/her the fee for one day's attendance and the mileage allowed by law by the United States District Court for the district in which the testimony is to be taken. When the subpoena is issued on behalf of the Service, fee and mileage need not be tendered at the time of service. A record of such service shall be made and attached to the original copy of the subpoena.

(d) *Invoking aid of court.* If a witness neglects or refuses to appear and testify as directed by the subpoena served upon him/her in accordance with the provisions of this section, the officer issuing the subpoena shall request the United States Attorney for the district in which the subpoena was issued to report such neglect or refusal to the United States District Court and to request such court to issue an order requiring the witness to appear and testify and to produce the books, papers or documents designated in the subpoena. If the subpoena was issued by an immigration judge, he/she shall request the District Director in the district in which the subpoena was issued to take the action referred to in the previous sentence in the event the witness neglects or refuses to appear and testify as directed by the subpoena served upon him.

Dated: July 10, 1985.

Alan C. Nelson,

Commissioner, Immigration and Naturalization Service.

BILLING CODE 4410–10–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 85–AWP–13]

Establishment of the Indian Springs Air Force Auxiliary Filed (AFAF), Indian Springs, NV, Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes a new Transition Area at Indian Springs AFAF, Indian Springs, Nevada, (1at. 36°34'58.8" N., long. 115°40'31.6" W.). This transition area is necessary to provide sufficient controlled airspace to accommodate the established TACAN instrument approaches. This action provides legal discription for future charting.

EFFECTIVE DATE: 0901 G.m.t., September 26, 1985.

FOR FURTHER INFORMATION CONTACT: Curtis Alms, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration (FAA), 15000 Aviation Boulevard, Hawthorne, California 90261; telephone number (213) 536–6649.

SUPPLEMENTARY INFORMATION:

History

On May 9, 1985, the Federal Aviation Administration proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a Transition Area at Indian Springs AFAF, Indian Springs, Nevada, to provide sufficient controlled airspace to accommodate the established TACAN instrument approaches. This action will provide legal discription for charting. Interested partles were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. This amendment is the same as that proposed in the notice. Section 71.181 of Part 71 of the Federal Aviation Regulations was published in Handbook 7400.6 dated January 2, 1985.

The Rule

This amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) will provide controlled airspace to accommodate aircraft executing the published TACAN Runway 8 and TACAN Runway 26 instrument approach procedure to Indian Springs AFAF. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A dated January 2, 1985.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended as follows:

PART 71—[AMENDED]

1. The authority citation for Part 71 is revised to read as follows:

Authority: 49 U.S.C. 1348(a) and 1354(a); 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Indian Springs Air Force Auxiliary Field Transition Area, Indian Springs, Nevada—[New]

"That airspace extending upward from 700 feet above the surface within a 5.5 miles arc of Indian Springs Air Force Auxiliary Field (AFAF), (lat. 36°34'58.8" N., long. 115°40'31.6" W.); from a point lat. 36°33'37" N., long.115°34'50" W.; to lat. 36°35'00" N., long. 115°46'28" W.; direct to a point lat. 36°35'00" N., long. 115°37'00" W.; thence to the point of beginning."

Issued in Los Angeles, California on July 9, 1985.

H.C. McClure,

Director, Western-Pacific Region.

BILLING CODE 4910–13–M

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 1

Contract Market Rule Review Procedures

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission ("Commission") is amending regulation 1.41 to provide that certain routine changes in contract market rules relating to terms and conditions of futures or option contracts will be deemed approved by the Commission pursuant to section 5 a(12) of the Commodity Exchange Act either at the time such changes are adopted by a contract market, or ten days after receipt by the Commission of a proposed change. Specifically, changes in indices other than stock indices in which futures or option contracts are traded, changes in trading hours, changes in trading months, changes in particular contract terms established by independent third parties, and other types of changes which may be designated at a later date will be deemed approved by the Commission, provided that they satisfy conditions set forth in the amendments now being adopted by the Commission. In addition, the Commission is amending regulation 1.41a to delegate to the Director of the Division of Trading and Markets and to the Director of the Division of Economic Analysis, or their respective delegees, authority to determine whether particular contract market submissions are consistent with the provisions of these amendments.

EFFECTIVE DATE: August 23, 1985.

FOR FURTHER INFORMATION CONTACT: John C. Lawton, Attorney/Advisor, Division of Trading and Markets, or Paul M. Architzel, Chief Counsel, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Telephone: (202) 254–8955 or (202) 254–6990, respectively.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 5a(12) of the Commodity Exchange Act ("Act"), 7 U.S.C. 7a(12), provides that all rules [1] of a contract market which relate to terms and conditions [2] in futures or option

[1] Commission regulation 1.41(a)(1) defines "rule" of a contract market to mean:

Any constitutional provision, article of incorporation, bylaw, rule, regulation, resolution, interpretation, stated policy, or instrument corresponding thereto, in whatever form adopted, and any amendment or addition thereto or repeal thereof, made or issued by a contract market, or by the governing board thereof or any committee thereof.

[2] Commission regulation 1.41(e)(2) defines "terms and conditions" to mean:

Any definition of the trading unit or the specific commodity underlying a contract for the future delivery of a commodity or commodity option contract, specification of settlement or delivery standards and procedures, and establishment of buyers' and sellers' rights and obligations under the contract. Terms and conditions shall be deemed to include provisions relating to the following:

(i) Quality or quantity standards for a commodity and any applicable exemptions or discounts;

(ii) Trading hours, trading months and the listing of contracts;

(iii) Minimum and maximum price limits and the establishment of settlement prices;

(iv) Position limits and position requirements;

(v) Delivery points and locational price differentials;

(vi) Delivery standards and procedures, including alternatives to delivery and applicable penalties or sanctions for failure to perform;

(vii) Settlement of the contract; and

(viii) Payment or collection of commodity option premiums or margins.

contracts traded on or subject to the rules of such a contract market must be submitted to the Commission for its prior approval. The Commission has recognized, however, that certain contract market proposals relating to terms and conditions (in particular, proposals relating to the composition and valuation of stock indices) do not usually require review and therefore may appropriately merit treatment which is different from that which is normally afforded contract market rule changes. 48 FR 49003, 49007 (October 24, 1983). Thus, the Commission has established procedures to expedite the implementation of such rule changes. *See* Commission regulation 1.41(h).

The Commission now has determined that it is appropriate to adopt similar procedures for additional types of changes in contract terms and conditions. The Commission has identified several categories of routine contract market rule amendments which, when kept within clearly defined and previously approved bounds, are unlikely to be inconsistent with any provision of the Act or regulations. Expedited implementation of such routine, non-controversial rule changes will provide exchanges with greater flexiblity in conducting their operations. In addition, the simplified procedures will conserve resources, both at the Commission and at the exchanges.

The instant amendments apply to the following categories of terms and conditions: (1) Changes in the composition, computation, or method of selection of indices, other than stock indices, in which a contract market is designated to trade futures contracts or options on futures contracts; (2) changes in lists of banks, brokers, dealers or other entities which provide price or cash market information to a contract market for purposes of computing cash settlement prices or a cash price series, or for defining deliverable supply; (3) changes in trading hours; (4) changes in trading months; (5) changes in grades or standards which are established, selected or calculated by independent third parties and which are incorporated by reference as terms of a contract; and (6) other types of changes which the Commission may specify, either in a contract designation or by separate written notification, as appropriate for similar expedited treatment. Each of these matters is discussed in greater detail below.

II. Amendments to Regulations 1.41 and 1.41a

As mentioned above, current regulation 1.41(h) provides an expedited procedure for changes in the composition, computation or method of stock selection of a stock index in which a contract market is designated to trade futures contracts or options on such futures contracts. New paragraph (i) establishes a similar expedited procedure for changes in the composition, computation or method of selection of other types of indices in which a contract market is designated to trade futures contracts or options. Such indices, for example, may be compilations of government statistics or of price quotations on a physical or non-physical commodity. As with changes in stock indices, changes in these indices will be deemed approved at the time such a change is adopted by a contract market, provided certain conditions are satisfied. First, the index must be compiled by an independent third party whose business relates to the collection or dissemination of price information and which was not formed solely for the purpose of compiling an index for use in connection with a futures or option contract.[2] Second, the change must be consistent with a rule of the contract market which has been approved by the Commission for this purpose which specifically defines or establishes standards governing the composition, computation or method of selection of the index.[4] Third, the contract market must provide the Commission with written notice of the change within five days of adoption by the contract market.

If the Commission determines that a change submitted pursuant to new paragraph (i) is not consistent with the requirements of the paragraph, the Commission will notify the contract market of the inconsistence within ten days.[5] Such a change will be treated as having been filed pursuant to Commission regulation 1.41(b) and therefore shall cease to have any effect as of the exchange's receipt of such notice from the Commission until approved by the Commission pursuant to the usual approval procedures under section 5a(12) of the Act and regulation 1.41(b).[6]

New paragraph (j) of regulation 1.41 provides that certain changes in lists of banks, brokers, dealers or other entities which provide price or cash market information to a contract market for purposes of computing cash settlement prices or a cash price series, or for defining deliverable supply will be deemed approved by the Commission at the time such changes are adopted by a contract market. Examples of this type of provision include cash settlement contracts having a settlement price determined by averaging the price quotations of persons on the approved list, or physical delivery contracts which have interest rate caps or a ranking of the quality of deliverable instruments established by such a polling procedure.

To be approved under this paragraph, again a change must be consistent with a rule of the contract market which has been approved previously by the Commission for this purpose and which establishes standards or criteria for the persons or entities qualifying for the list. In addition, the Commission must be given written notice of the change within three days after the changes are adopted by the contract market. The Commission believes that such changes, which are initiated by the exchanges themselves, can be provided to the Commission more expeditiously than the changes covered in paragraph (i) above, which are initiated by third parties.

Because market conditions may change abruptly, it may become necessary for a contract market to add or delete participants on very short notice. In this regard, changes in survey lists are similar to changes in indices and changes in trading hours, and differ from the other types of changes addressed by the instant amendments. The Commission believes that once it has approved a general rule establishing standards or criteria for inclusion on such lists, it is not necessary to require the usual rule review procedures for each addition to or deletion from such lists. Therefore, like changes in indices and changes in trading hours, and unlike the other categories, changes in survey lists subject to certain conditions will be deemed approved at the time of adoption by a contract market. Again, if the Commission determines that a change submitted under this paragraph is not consistent with the requirements of the paragraph, the Commission will notify the contract market of the inconsistency within ten days and such a change will be treated as having been filed pursuant to Commission regulation 1.41(b).

Paragraph (k) applies to changes in trading hours between 7:00 a.m. and 6:00 p.m. local time in the city where the contract market is located. The Commission believes that in most instances such changes would not be inconsistent with any provision of the Act or the Commission's regulations and, accordingly, that those changes do not require the level of review provided under the Commission's usual § 1.41(b) procedures. Therefore, changes in trading hours will be deemed approved at the close of business one business day after receipt by the Commission.

The Commission reserves the right, however, to suspend the effectiveness of a change submitted under this paragraph and to take review of the change under regulation 1.41(b). If the Commission takes such action it will notify the contract market within ten days after receipt by the Commission of the change. Although the Commission does not anticipate that it would take such action often, there may be instances where a change in trading hours could raise concerns under the Act necessitating review. For example, if trading hours were expanded so that market sensitive information, previously released outside trading hours, were to be released during trading hours, this could raise questions concerning the pricing of the contract or of market manipulation.

New paragraphs (l)–(n) of regulation 1.41 provide that changes of the types described in categories (4)–(6) above will be effective ten days after the Commission receives written notice of the change, unless the Commission notifies the contract market within the ten-day period that the submission does not comply with the relevant provisions of those paragraphs. In the event of such notification, the submission will become subject to the usual rule review procedures.

Paragraph (l) applies to changes in trading months which (i) are consistent with a previously approved rule of the contract market governing the listing of trading months, (ii) do not list a month more than 18 months in the future, and (iii) do not list a month outside the currently established cycle.[7] These conditions limit exchange discretion to well-defined bounds and retain the usual review procedure for more significant changes in the listing of contract months. For example, suppose at the time of contract market designation a rule were approved permitting the listing of a total of six trading months in the March quarterly cycle but that the contract market initially listed only three trading months. The contract market would thereafter be permitted to list up to three additional months in the March cycle following the procedures of paragraph (l). If the contract market wished to list a seventh trading month in this cycle, however, it would be required to submit the proposal under the usual § 1.41(b) procedures. Similarly, if the contract market wished to list a month falling outside the March cycle the usual § 1.41(b) procedures would apply.[8]

Paragraph (m) applies to changes in grades or standards of commodities on which futures or option contracts are based, where those grades or standards are established, selected or calculated by independent third parties and are incorporated by reference as terms of a contract. Thus, the specifications of the contract are intended to change as the third party makes changes. To be approved under this paragraph, the change must be consistent with a rule of the contract market which has been approved by the Commission for this purpose. In addition, the grade or standard must be established, selected or calculated by an independent third party for purposes other than solely for use in connection with a futures or option contract. For example, standards set by Colonial Pipeline are incorporated by reference into various petroleum product contracts. The Commission believes that typically it is not necessary to follow the usual rule review procedures for changes in such technical areas when the changes are made by independent third parties for purposes not related solely to use in a futures or option contract.

Paragraph (n) authorizes the Commission to designate additional types of changes in terms and conditions for expedited treatment. This paragraph is intended to provide the Commission with a mechanism for efficiently dealing with other categories of rule changes which may arise in the future and for which special treatment is deemed appropriate. Under this paragraph, the Commission may notify a contract market of the applicability of the special procedure at the time of contract market designation or at any other appropriate time. In the notification, the Commission will specify the conditions governing the applicability of this paragraph to the particular contract. Following such notification, any change which is consistent with the terms of the notification will become effective as provided by the Commission in its notification. In most instances, the procedure followed in paragraphs (l) and (m) is likely to be adopted (*i.e.*, effective ten days after receipt, unless the Commission informs the contract market otherwise during the ten-day period). In some instances, however, the Commission may find the procedure followed in paragraph (i) and (j) appropriate (*i.e.*, effective at the time of adoption by a contract market unless the Commission informs the contract market of an inconsistency within ten days of receipt of notice of the change). The Commission retains the right to alter or revoke the applicability of this paragraph to a particular contract at any time.

In light of new paragraphs (i)–(m), the Commission is adopting three technical amendments to existing paragraph (h) of regulation 1.41. One amendment changes the requirement that contract market notification of changes be "prompt" to a requirement that such

[2] This provision would permit the development of new indices to be used in connection with futures or option contracts where such indices are an outgrowth of an independent third party's ongoing business operations and where the new indices are subject to the same controls and standards previously established by the third party in its business operations. For example, the Standard and Poor's 100 Index did not exist prior to the development of options and futures contracts on that index. The fact that this index did not exist previously, however, did not diminish the objectivity and independence of this index as far as the Commission was concerned, for this new index was subject to the same standards and controls as the Standard and Poor's 500 Index, which did exist prior to the development of a futures contract on that index and was developed for uses other than as a basis for an option or futures contract.

[4] In order to qualify for the expedited procedure provided for in this paragraph (i), a contract market must, of course, have in place a rule specifically defining or establishing standards governing the composition, computation or method of selection of the index. Such a rule must be approved by the Commission, either at the time the contract is designated, or at a later time pursuant to the usual procedure established by section 5a(12) of the Act and Commission regulation 1.41(b). Similar general rules are required in order to be eligible for the expedited procedures set forth in paragraphs (j) and (l)-(o). In some instances, contract markets already may have such general rules in place. Rules which have previously been approved under section 5a(12) of the Act or are effective pursuant to regulation 1.53 need not be resubmitted, but notice that the exchange intends to use such a rule under these provisions must be provided to the Commission before the exchange begins to use these procedures.

[5] Time limits established by the rules the Commission is adopting today which apply to actions by the Commission may, as with existing §§ 1.41(b) and 1.41(c), be satisfied by deposit of the notification in the United States mail or by other means of written communication within the specified period. Limits which apply to actions by contract markets require receipt of the written notification by the Commission at its Washington, D.C., headquarters within the specified period.

[6] Such an event should be rare since the rules eligible for treatment under this section and the following sections are routine rule amendments instituted pursuant to a more general enabling rule. The Commission reiterates that the expedited procedures now being adopted by the Commission are not available if a rule amendment departs in any way from the standard contemplated in the general enabling rule. The contract markets must assume responsibility for assuring that a rule amendment submitted pursuant to this procedure is appropriate for such treatment

[7] For purposes of this paragraph, the Commission intends to include trading month cycles which were not explicitly approved by the Commission but which remain in effect pursuant to Commission regulation 1.53.

[8] The new procedure created by paragraph (1) will not affect the treatment of months which are listed automatically pursuant to an established cycle. For example, when the spot month expires, a new contract is automatically listed at the distant end of the cycle. Such listings are not required to be submitted for Commission approval.

notification be "within five days." Another amendment requires that changes submitted under regulation 1.41(h) be clearly labeled as such. The final amendment adds a sentence making it explicit that changes in the composition, computation, or method of stock selection of a stock index which are inconsistent with the provisions of paragraph (h) will be subject to the usual approval procedures under section 5a(12) of the Act. These amendments simply conform the procedures under paragraph (h) to those of paragraphs (i)–(n) and are consistent with existing Commission practice under paragraph (h). 48 FR 49003, 49007 (October 24, 1983).

Finally, the Commission is adding a new paragraph (a)(5) to regulation 1.41a. This amendment delegates to the Director of the Division of Trading and Markets and to the Director of the Division of Economic Analysis, or their respective delegates, authority to determine whether changes submitted under paragraphs (h)–(n) of regulation 1.41 are inconsistent with the relevant provisions of those paragraphs and to notify contract markets if such submissions are to be subject to the usual review procedures under section 5a(12).

III. Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act ("RFA"), 5 U.S.C. 601 *et seq.*, requires that agencies, in adopting rules, consider their impact on small businesses. The RFA defines the term "rule" to mean "any rule for which the agency publishes a general notice of proposed rulemaking pursuant to [5 U.S.C.] 553(b) . . ." Since, as noted below, the Commission is not required to publish a notice of proposed rulemaking in regard to the rule amendments to §§ 1.41 and 1.41(a) pursuant to § 553(b), a flexibility analysis of these amendments is not required. *See* § 601(2). *See also* §§ 603 and 604.[*]

B. Paperwork Reduction Act

Commission regulations 1.41 and 1.41a previously have been issued control numbers, pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) The amendments to those rules being adopted herein establish no new paperwork requirements. The Office of Management and Budget has been so notified and a copy of this **Federal Register** notice has been provided to that agency.

C. Notice and Comment

The Administrative Procedure Act, 5 U.S.C. 553(b), requires in most instances that a notice of proposed rulemaking be published in the **Federal Register** and that opportunity for comment be provided when an agency promulgates new regulations. Section 553(b) sets forth an exception, however, for rules of agency organization, procedure or practice. The instant amendments provide expedited procedurea for the approval of certain contract market rules. The Commission has determined that these amendments are technical and relate to internal Commission procedure and therefore that notice and comment is not required.

Section 553(b) also sets forth an exception to the requirement of notice and opportunity for public comment when the Commission for good cause finds such notice and public comment are unnecessary or contrary to the public interest. The Commission finds that notice and public comment on the rule changes announced herein are unnecessary because the changes are technical in nature and do not limit any person's substantive rights. The changes do not establish any new obligations under the Act. On the contrary these changes simplify compliance with the Act by reducing contract markets' existing obligations under section 5a(12) thereof. Furthermore the Commission finds that delay of the implementation of these rules would be contrary to the public interest because this would delay the effectiveness of contract market rules in which very limited discretion is exercised, and because it would delay the Commission's efforts to reduce its expenditures of resources in reviewing rules submissions from contract markets.

List of Subjects in 17 CFR Part 1

Commodity exchanges, Contract market rules, Rule review procedures. Delegated authority.

In consideration of the foregoing and pursuant to the authority contained in the Commodity Exchange Act and in particular, sections 4c, 5a and 8a thereof, 7 U.S.C. 6c, 7a and 12a, the Commission hereby amends Chapter I of Title 17 of the Code of Federal Regulations by revising §§ 1.41 and 1.41a as follows:

[*] A flexibility analysis would not be required in any case in this matter, since the amendments would affect contract markets, which the Commission previously has determined are not "small entities" for purposes of the RFA. Thus, these rule amendments would not have a significant economic impact on a substantial number of "small entities." *See* § 605(b).

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

1. The authority citation for Part 1 continues to read as follows:

Authority: 7 U.S.C. 2, 4, 4a, 6, 6a, 6b, 6c, 6d, 6e, 6f, 6g, 6h, 6i, 6j, 6k, 6l, 6m, 6n, 6o, 7, 7a, 8, 12a, 13a, 13a–1, 19, and 21 unless otherwise noted.

2. Section 1.41 is amended by revising paragraphs (h)(1) and (h)(2), and by adding paragraphs (h)(1)(iv), (i), (j), (k), (l), (m), and (n) to read as follows:

§ 1.41 Contract market rules; submission of rules to the Commission; exemption of certain rules.

* * * * *

(h) * * *

(1) * * *

(iii) The contract market provides the Commission with written notice of the change within five days after the change is adopted by the contract market; and

(iv) The contract market labels the written notice as being submitted pursuant to paragraph (h) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of a change in the composition, computation, or method of stock selection of a stock index, notify the contract market making that submission if it appears that the change is not consistent with the definition of the composition of, or standards governing, the stock index which has been approved by the Commission. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(i) *Other index contracts.* (1) Notwithstanding the provisions of paragraph (b) of this section, all changes in the composition, computation, or method of selection of an index other than a stock index in which a contract market is designated to trade futures or option contracts shall be deemed approved by the Commission at the time such changes are adopted by a contract market if:

(i) The index is compiled by an independent third party whose business relates to the collection or dissemination of price information and which was not formed solely for the purpose of compiling an index for use in connection with a futures or option contract;

(ii) The change is consistent with a rule of the contract market which has been approved by the Commission for this purpose, which specifically defines or establishes standards governing the composition of the index upon which designated futures or commodity options are authorized to trade;

(iii) The contract market provides the Commission with written notice of the change within five days after the change is adopted by the contract market; and

(iv) The contract market labels the written notice as being submitted pursuant to paragraph (i) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of a change in the composition, computation, or method of selection of an index, notify the contract market making the submission if it appears that the change is not consistent with the provisions of this paragraph. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(j) *Survey lists.* (1) Notwithstanding the provisions of paragraph (b) of this section, all changes in lists of banks, brokers, dealers or other entities which provide price or cash market information to a contract market for purposes of computing cash settlement prices or a cash price series, or for defining deliverable supply, shall be deemed approved by the Commission at the time such changes are adopted by a contract market if:

(i) The change is consistent with a rule of the contract market which has been approved by the Commission for this purpose and which establishes standards or criteria for the persons or entities which qualify for the list;

(ii) The contract market provides the Commission with written notice of the change within three days after the change is adopted by the contract market; and

(iii) The contract market labels the written notice as being submitted pursuant to paragraph (j) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of a change in such a list, notify the contract market making the submission if it appears that the change is not consistent with the provisions of this paragraph. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(k) *Trading hours.* (1) Notwithstanding the provisions of paragraph (b) of this section, all changes in trading hours which do not permit trading to open before 7:00 a.m. or close after 6:00 p.m. local time in the city where the contract market is located shall be deemed approved by the Commission at the close of business one business day after written notice of such a change is received by the Commission if:

(i) The change is not inconsistent with any provision of the Act or the Commission's regulations; and

(ii) The contract market labels the written notice as being submitted pursuant to paragraph (k) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of a change in trading hours, notify the contract market making the submission if it appears that the change is not consistent with some provision of the Act or the Commission's regulations. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(l) *Trading months.* (1) Notwithstanding the provisions of paragraph (b) of this section, all changes in trading months shall be deemed approved by the Commission ten days after written notice of such a change is received by the Commission if:

(i) The change is consistent with a rule of the contract market governing the listing of trading months which has been approved by the Commission;

(ii) The change does not provide for the listing of a trading month more than 18 months in the future;

(iii) The change does not provide for the listing of a trading month outside the currently established cycle of trading months; and

(iv) The contract market labels the written notice as being submitted pursuant to paragraph (l) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of a change in the listing of trading months, notify the contract market making the submission if it appears that the change is not consistent with the provisions of this paragraph. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(m) *Contract terms established by independent third parties.* (1) Notwithstanding the provisions of paragraph (b) of this section, changes in grades or standards of commodities on which futures or options contracts are based, which are established, selected or calculated by independent third parties and which are incorporated by reference as terms of a contract, shall be deemed approved by the Commission ten days after written notice of such a change is received by the Commission if:

(i) The grade or standard is established, selected or calculated by an independent third party for purposes other than solely for use in connection with a futures or options contract;

(ii) The change is consistent with a rule of the contract market which has been approved by the Commission for this purpose, and with the Act and the Commission's regulations; and

(iii) The contract market labels the written notice as being submitted pursuant to paragraph (m) of this section.

(2) The Commission will, within ten days after receipt by the Commission of notice of such a change, notify the contract market making the submission if it appears that the change is not consistent with the provisions of this paragraph. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(n) *Other changes.* (1) Notwithstanding the provisions of paragraph (b) of this section, changes in the terms and conditions of a futures or option contract other than those changes specified in paragraphs (h)–(m) of this section shall be deemed approved by the Commission at such time as the Commission shall specify if:

(i) The Commission notifies the contract market in writing, at the time of contract market designation, or such other time as the Commission may deem appropriate, that certain changes in terms and conditions may be submitted pursuant to the provisions of this paragraph;

(ii) The change is consistent with standards established by the Commission in its notification to the contract market of the applicability of this paragraph, and with the Act and the Commission's regulations; and

(iii) The contract market labels the written notice as being submitted pursuant to paragraph (n) of this section.

(2) The Commission will within ten days after receipt by the Commission of notice of a change submitted pursuant to this paragraph, notify the contract market making the submission if it appears that the change is not consistent with standards established by the Commission. Upon such notification by the Commission to the contract market, the change will be subject to the usual procedures under section 5a(12) of the Act and paragraph (b) of this section.

(3) The Commission may at any time alter or revoke the applicability of this paragraph to any particular contract.

3. Section 1.41a is amended by removing the words "Division of Economics and Education" from the section heading and from paragraphs (a), (b) and (c) and inserting in their

17 CFR Part 1

Contract Market Rule Review Procedures

AGENCY: Commodity Futures Trading Commission.

ACTION: Final Rule.

SUMMARY: The Commission is amending § 1.41b of its rules to delegate to the staff additional authority to approve proposed exchange rules where the rules are terms and conditions of a contract and are substantially identical to a rule of another contract market which has been approved previously by the Commission, or where the proposed rule is consistent with a stated Commission policy or interpretation.

EFFECTIVE DATE: August 23, 1985.

FOR FURTHER INFORMATION CONTACT: Paul M. Architzel, Chief Counsel, Division of Economic Analysis, Thomas L. Sweat, Assistant Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K. Street NW., Washington, D.C. 20581. Telephone (202) 254–6990; (202) 254–8955, respectively.

SUPPLEMENTARY INFORMATION:

On October 19, 1983 the Commission adopted Rule 1.41b, 17 CFR 1.41b (1984). Commission Rule 1.41b delegates to the Directors of the Divisions of Trading and Markets and Economic Analysis, with the concurrence of the Office of the General Counsel, the Commission's authority to approve, pursuant to section 5a(12) of the Commodity Exchange Act, 7 U.S.C. 7a(12), ("Act") two classes of proposed exchange rules. These categories of rule amendments are proposed exchange rules which relate to terms and conditions of a contract but which are non-material, or routine material amendments that are anticipated to be updated under a previously approved exchange rule.[1]

In delegating this authority the Commission stated that:

> These rules, by their nature, tend to be straight forward and are unlikely to raise significant legal or policy issues. The Commission therefore does not believe that the above-referenced classes of rules necessitate an inflexible adhesion to the procedures currently established for the affirmative rule review process. The Commission is, accordingly, modifying its regulations to facilitate implementation of these types of rules by the contract markets. Specifically, the Commission is delegating to the Directors of the Divisions of Trading and Markets and Economics and Education, to be exercised by either Director (or their designees), with the concurrence of the General Counsel, the authority to affirmatively approve certain non-material or anticipated, routine material amendments to "terms and conditions."

48 FR at 49005.

The Commission's experience with this procedure has been good. Although the majority of proposed exchange rule amendments do not fit within these two categories, this delegated procedure does result in some savings of time and Commission resources. Moreover, the increased timeliness of Commission action on these routine changes benefits the exchange by making the overall process of Commission review more efficient. The Commission believes that the benefits of this system can be extended to other categories of rules, resulting in a similar increased savings in the time and resources needed to approve such rules.[2]

The two additional categories of rules that the Commission is including in this delegation of its approval authority are: (1) proposed exchange rules that are substantially identical to a rule of another contract market that has previously been approved by the Commission, and (2) proposed exchange rules which are consistent with a previously established, specific standard or policy set by the Commission.

The first category includes rules submitted by various contract markets which may be similar because of Commission requirements or because of the similarity between certain contracts. For example, a Commision rule may require all exchanges to adopt specified rules. Or, two exchanges may have futures contracts in the same commodity and may voluntarily keep the terms and conditions consistent in order to aid arbitrage between them. In either example, once the Commission has approve one contract market's proposed rule, the staff, pursuant to this delegation, may approve rules of other contract markets which are substantially identical to the first rule approved by the Commission.

The second category of rules for which the Commission's approval authority is being delegated are those proposed exchange rules which are consistent with specific Commission policies or interpretations. For example, the Commission has formulated a formal policy on quality and locational price differentials. All proposed exchange rules which clearly meet the criteria set forth in that policy statement could be approved by the staff under this delegation. In this connection, it can be expected that the Commission will strive to formulate policies concerning the most common types of rule amendments.[3]

Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act ("RFA"), 5 U.S.C. 601 *et seq.* requires that agencies, in adopting rules, consider their impact on small businesses. Analysis of the final rule amendments to § 1.41b is not required, however, because the rule relates only to internal procedure and the Commission previously has determined that contract markets are not "small entities" for purposes of the RFA.[4] Accordingly, pursuant to section 3(a) of the RFA, 5 U.S.C. 605(b), the Chairman, on behalf of the Commission, certifies that these rules will not have a significant economic impact on a substantial number of small entities.

[1] A third category, rules which authorize the listing of option contract expirations that terminate after the three year designation of an option contract market ends, was subsequently added by the Commission. 48 FR 12518 (March 25, 1983).

[2] The Commission elsewhere in this **Federal Register** is also adopting amendment to Commission Rule 1.41, 17 CFR 1.41 which grant prior approval to certain classes of routine contract market rule amendments at the time of their adoption. In addition, the Commission is also adopting rules which provide that other categories of exchange rules are approved automatically ten days after submission to the Commission for its review, absent any contrary action. These amendments were adopted to expedite further the exchange rule review process.

[3] It should be noted that the policies or interpretations to which this delegation applies do not include Guideline No. 1, 17 CFR Part 5; Appendix A, or Guideline No. 2, Comm. Fut. L. Rep. (CCH) ¶ 6430, p. 8210. These Guidelines are general statements of the designation requirements under the Act and were not intended to provide specific guidelines for the exercise of the staff's discretion.

[4] 47 FR 18619 (April 30, 1982).

B. Paperwork Reduction Act

The amendments to Commission Rule 1.41b being adopted herein establish no new paperwork requirements pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). The Office of Management and Budget has been so notified and a copy of this **Federal Register** notice has been provided to that agency.

C. Notice and Comment

Section 553(b) of the Administrative Procedure Act, 5 U.S.C. 553(b), requires in most instances that a notice of proposed rulemaking be published in the **Federal Register** and that opportunity for comment be provided when an agency promulgates new regulations. Section 553(b) sets forth an exception, however, for rules of agency organization, procedure or practice. These amendments delegate the Commission's authority to approve certain proposed contract market rules. The Commission has determined that these amendments relate to Commission procedure and therefore notice and comment is not required.

List of Subjects in 17 CFR Part 1

Commodity exchanges; Contract market rules, Rule review procedures, Delegated authority.

In consideration of the foregoing and pursuant to the authority contained in the Commodity Exchange Act and in particular, sections 5a and 8a thereof, 7 U.S.C. 7a and 12a, the Commission hereby amends Chapter I of Title 17 of the Code of Federal Regulations by revising § 1.41b as follows:

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

1. The authority citation for Part 1 continues to read as follows:

Authority: 7 U.S.C. 2, 4, 4a, 6, 6a, 6b, 6c, 6d, 6e, 6f, 6g, 6h, 6i, 6j, 6k, 6l, 6m, 6n, 6o, 7, 7a, 8, 12a, 13a, 13a-1, 19, and 21 * * *

2. Section 1.41b is amended by revising paragraphs (a)(2) and (3) and by adding new paragraphs (a)(4) and (5) to read as follows:

§ 1.41b Delegation of authority to the Director of the Division of Trading and Markets and the Director of the Division of Economic Analysis.

(a) * * *

(2) Reflect routine modifications that are expressly required or anticipated by the specific terms of a contract market rule (such as the specification of delivery grades, growths or differentials, the listing of trading months or the modification of trading hours);

(3) Authorize the listing, in accordance with rules of the contract market which have been approved by the Commission, of option contracts that expire after the termination of the designation of that board of trade as a contract market for the trading of commodity options;

(4) Are substantially identical to a rule of another contract market which has been approved previously by the Commission pursuant to section 5a(12) of the Act; or

(5) Are consistent with a specific, stated policy, or interpretation of the Commission.

Federal Energy Regulatory Commission

18 CFR Part 37

[Docket Nos. RM84–15–001 Through –004]

Generic Determination of Rate of Return on Common Equity for Public Utilities

Issued: July 19, 1985.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order granting rehearing for purpose of further consideration.

SUMMARY: On May 20, 1985, the Federal Energy Regulatory Commission (Commission) issued a final rule establishing a generic rate of return on common equity for public utilities.

In this order the Commission grants rehearing of its decision solely for the purpose of further consideration.

EFFECTIVE DATE: July 19, 1985.

FOR FURTHER INFORMATION CONTACT: Ronald L. Rattey, Office of Regulatory Analysis, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357–8015.

SUPPLEMENTARY INFORMATION: On May 20, 1985, the Federal Energy Regulatory Commission (Commission) issued a final rule establishing a generic rate of return on common equity for public utilities. Generic Determination of Rate of Return on Common Equity for Public Utilities, 50 FR 21802 (May 29, 1985) (to be codified at 18 CFR 37).

On June 19, 1985, the Commission received four petitions for rehearing of this final rule. To have sufficient time to consider the issues raised in these petitions, the Commission grants rehearing of its final rule solely for the purpose of further consideration. This order is effective on the date of issuance. This action does not constitute a grant or denial of any petition on its merits, either in whole or part. As provided in § 385.713 of the Commission's Rules of Practice and Procedure (18 CFR 385.713), no answers to these petitions will be entertained by the Commission because this order does not grant rehearing on any substantive issue.

By the Commission.

Kenneth F. Plumb,

Secretary.

SUPPLEMENTARY INFORMATION:

Order on Direction of the Court Vacating, in Part, Order No. 399–A, and on Petitions for Rehearing and Reconsideration

Issued: July 18, 1985.

Before Commissioners: Raymond J. O'Connor, Chairman; A. G. Sousa and Charles G. Stalon.

I. Introduction

The Federal Energy Regulatory Commission (Commission) is implementing the court's decision in *Interstate Natural Gas Association of America* v. *Federal Energy Regulatory Commission*,[1] by vacating the offset mechanism required by Order No. 399–A [2] and by granting five petitions for rehearing. The Commission otherwise denies all other petitions for rehearing, reconsideration and stay of Order No. 399–A.

II. Background

On November 20, 1984, the Commission issued Order No. 399–A, which granted rehearing in part of Order No. 399.[3] Order Nos. 399 and 399–A implemented the decision of *Interstate Natural Gas Association of America* v. *Federal Energy Regulatory Commission* [4] by establishing refund procedures for overcharges resulting from adjustments to the calculation of the Btu content of gas sold under the Natural Gas Policy Act of 1978 (NGPA). On March 5, 1985, the United States Court of Appeals for the District of Columbia directed the Commission to vacate the portion of Order No. 399–A that required first sellers to offset Btu refunds against costs permitted under section 110 of the NGPA.[5] Order No. 399–A also permitted first sellers to seek a waiver of that portion of a first seller's refund obligation to the extent it is attributable to royalty interest owners and is uncollectible. The Commission received nine timely petitions for rehearing of Order No. 399–A.[6]

III. Discussion

A. The Court's Decision Prohibiting the Offset of Section 110 Allowances

The Court of Appeals quoted with approval the Commission's rationale in Order No. 399 for disallowing the offset of Btu refund obligations and section 110 charges. The court directed the Commission to vacate the offset portion of Order No. 399–A.[7]

As required by Order No. 399–A, many first sellers offset hundreds of millions of dollars of Btu refund obligations against uncontested section 110 charges in payment of Btu refunds. The Commission is now reversing that order, consistent with the instructions of the United States Court of Appeals.[8]

Those first sellers that paid the Btu refund obligation by offsetting section 110 charges must now pay the Btu refund obligation in full.[9] Refunds must be made by August 30, 1985.[10] In all cases, interest accrues on the amount to be refunded until the date of payment, in accordance with Order No. 399.[11] In addition, interstate and intrastate pipelines are required to file refund reports similar to those required in Order Nos. 399 and 399–A. These additional reports are necessary to better monitor the payment of refunds by first sellers and interstate pipelines.

B. Refund Obligations Attributable to Royalty Interest Owners

Memphis Light, Gas and Water Division, (Memphis) protests the Commission's assertion of authority in Order No. 399–A to waive payment by first sellers of that portion of a Btu refund obligation attributable to royalty interest owners that is uncollectible. Memphis argues that the Commission lacks authority to waive the imposition of strict liability for the refund on first sellers. Alternatively, Memphis argues that there is no reason to waive this refund obligation because it derives from a first seller's payment of excessive royalties.

In Order No. 399, first sellers were made guarantors of payment of the portion of the Btu refund obligation attributable to royalty interest owners, primarily because the first seller, not royalty interest owners, collected prices in excess of NGPA ceiling prices. On review, the Commission still believes it has discretion to waive payment of those portions of the refund obligation attributable to royalty interest owners, if the first seller demonstrates that the refund is uncollectible.[12] As stated in Order No. 399–A, the Commission will consider requests for a waiver on a case-by-case basis.[13]

C. Responsibility of Operators

Order No. 399 designated the operator as the one responsible for repayment of the entire refund for the time period it operated a well.[14] Specifically, the order required operators to notify all of the working interest owners of their refund obligations and to collect the refunds and pay them over to the pipelines. In addition, the Commission required operators to pay refunds owed by a defaulting working interest owner.

The Indicated Producers complain about the imposition of strict liability on a first seller that is the operator of a well for those refunds that are attributable to other working interest owners. They argue that an operator should not have to serve as a guarantor of refunds from other working interest owners that default on their portion of the refund.

The Commission recognizes that each working interest owner is a first seller and individually liable for the refund attributable to its interest in a well during the time the refund obligation accrued, as well as that portion of its refund obligation attributable to royalty interest owners. But, after further consideration of the issue, the Commission still believes it is necessary to designate the operator as the one responsible for the payment of the entire refund for the time period that the operator operated a well in order to facilitate expeditious refunds as required by the court in *INGAA–I* and *INGAA–II*.

D. Other Issues

Pitts Oil Company, Sage Energy Company, and Clayton W. Williams, Jr., Co. filed a petition requesting reconsideration of the same issues on which they sought rehearing of Order No. 399, asserting that Order No. 399–A and its predecessors failed to articulate a reasoned explanation for requiring refunds to implement the court's decision in *INGAA–I*.

As discussed in Order No. 399–A, the Commission believes that substantial equitable considerations support a discretionary order of refunds. Primarily, the consumers who paid excessive gas prices because of the incorrect measurement of the Btu content of that gas should benefit through the refund of overcharges. In any event, the opinion of the Court of Appeals in INGAA–II leaves no doubt that refunds were required to implement that Court's earlier decision in INGAA–I.[15]

To the extent petitioners have raised issues other than discussed above, the Commission believes those issues were previously considered and fully addressed in prior orders in this proceeding.

IV. Effective Date and Clearance by the Office of Management and Budget

The refund reporting requirements established in this rule are information collection requirements under the Paperwork Reduction Act [16] and subject to Office of Management and Budget (OMB) approval.[17] Hence, the reporting requirements established in paragraph (F) below and § 154.38(h)(3)(viii) of the Commission's regulations are effectiye September 23, 1985. If OMB clearance has not been received by this effective date, the Commission will issue a notice temporarily suspending the effective date of the refund reporting requirements. The remaining portions of this order are effective August 23, 1985.

V. The Commission Orders

(A) That portion of Order No. 399–A that required the offset of Btu refund obligations and section 110 charges is vacated, and those petitions for rehearing that requested this relief are granted.

(B) First sellers must make refund payments for those amounts of Btu refund obligations that were previously paid by means of offsetting section 110 charges, by August 30, 1985, in accordance with Order No. 399.

(C) The parties to the first sale transaction may choose the methods of payment of this refund, except that pipelines and first sellers may not offset Btu refunds and production-related costs permitted under section 110 of the NGPA. Those pipelines that have already begun to collect refunds by using billing adjustments without the consent of the seller can continue this method of payment only if the seller agrees. If the parties cannot agree, payment must be made in a lump-sum cash payment.

(D) Interest on Btu refunds must be calculated in accordance with § 154.102(c) and (d) of the Commission's regulations, except that any interest on Money paid into escrow is the actual interest accrued in the escrow account on the amount required to be refunded.

(E) Any filing fee applicable to a request for a waiver, as described herein, is waived.

(F) By October 15, 1985, interstate and intrastate pipelines must file sellers that made refunds, the refunded amounts that each pipeline has received, separately stated for each first seller, and indicating the principal amount and interest; and (2) the first sellers that have not made refunds, and the refund amounts due but not received by the pipeline, for each first seller, separately stating the principal amount and interest due from each first seller and the reason for nonpayment. Intrastate pipelines must file a copy of this report with the state regulatory agency having jurisdiction over such pipeline.

(G) All other petitions for rehearing, reconsideration, extension of time, and stay of Order No. 399–A are denied.

(H) In consideration of the foregoing, Part 154, Chapter I, Title 18, of the Code of Federal Regulations, is amended as set forth below.

List of Subjects in 18 CFR Part 154

Natural gas.

[4] 716 F.2d 1 (D.C. Cir. 1983), *cert. denied*, 104 S. Ct. 1618 (1984) (INGAA–I) (charges for gas must be determined by measurement of Btu's (British thermal units) under "wet" conditions rather than the "as delivered" basis promulgated by the Commission).

[5] *See* N.1, *supra*. 18 CFR 271.1104(e) (1984); *see generally*, Regulations Implementing Section 110 of the Natural Gas Policy Act of 1978 and Establishing Policy Under the Natural Gas Act, 48 Fed. Reg. 5152 (Feb. 3, 1983) (Order No. 94–A) (Final Rule and Order on Rehearing of Order No. 94). Appeal pending *sub. nom.*, Texas Eastern Transmission Corp., *et al.* v. Federal Energy Regulatory Commission, No. 83–4390 (argued March 8, 1985, 5th Cir.).

[6] American Paper Institute, Inc., Industrial Users (*i.a.*, Process Gas Consumers Group and American Iron & Steel Institute), Florida Cities, Pitts Oil Company, *et al.*, Stauffer Chemical Company, Associated Gas Distributors, Memphis Light, Gas & Water Division, BTA Oil Producers, and a group of Indicated Producers.

The Commission also received five rquests for an extension of the deadline for large first sellers to make refunds and a request to modify the refund procedures. The Commission did not extend the deadline, or modify the refund procedures, because the petitions failed to present sufficient grounds for an extension.

In addition, five petitioners sought a stay or Order No. 399–A. These requests were not granted because the Commission did not believe "justice so require[d]," 5 U.S.C. 705 (1982).

[7] INGAA–II, *supra*, at 171. The American Paper Institute, Industrial Users, Florida Cities, the Associated Gas Distributors and Stauffer Chemical Company objected to the requirement that first sellers' undisputed billings to pipeline-purchasers for section 110 allowances be offset against the first sellers' Btu refund obligation. Since the Court of Appeals' decision has afforded these petitioners the relief they sought in their petitions for rehearing, the Commission grants these petitions.

[8] The mandate issued May 20, 1985, the date of the Court of Appeals denial of the "Indicated Producers" motion for a stay. On June 3, 1985, Chief Justice Burger denied a petition for stay of the mandate.

[9] This refund payment may be in the form of one or more cash payments, or in the form of billing adjustments (if such billing adjustments are agreed to by the first seller), or a combination of these methods, as long as full payment is made by August 30, 1985.

[10] The disallowance of offsets does not affect the right of first sellers to defer payment of that portion of the Btu refund obligation attributable to royalty interest owners until actually collected or until November 5, 1986, whichever occurs first.

[11] The Indicated Producers argue that pipelines should pay the same interest rate on section 110 charges as the interest rate applicable to the Btu refunds. This issue is also mooted by the decision in INGAA–II because Btu refunds must be paid separately and distinct from section 110 charges. In any event, the interest rate applicable to Btu refunds was set by the Commission based upoo public policy considerations. In contrast, the interest rate for section 110 charges is set by contract. For this reason, these interest rates may differ.

[12] *See* Consumer Federation of America v. FPC, 515 F.2d 347, 359 (D.C. Cir. 1975).

[13] As established in Order No. 399–A, to the extent a filing fee exists for such a waiver, the Commission is waiving this filing fee.

Correction

In FR Doc. 85–16639 beginning on page 28585 in the issue of Monday, July 15, 1985, make the following correction on page 28568: In the second column, the section number "§401.501" should read "§401.510".

BILLING CODE 1505-01-M

Food and Drug Administration

21 CFR Parts 176 and 177

[Docket No. 84F–0030]

Indirect Food Additives: Paper and Paperboard Components; Polymers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of acrylic plastics as components of articles intended for use in contact with food. This action responds to a petition filed by the B.F. Goodrich Co.

DATES: Effective July 24, 1985; objections by August 23, 1985.

ADDRESS: Written objections may be sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Patricia J. McLaughlin, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of March 13, 1984 (49 FR 9472), FDA announced that a petition (FAP 4B3773) had been filed by the B.F. Goodrich Co., 500 South Main St., Akron, OH 44318, proposing that the food additive regulations be amended to provide for the safe use of the semirigid and rigid acrylic and modified acrylic plastics listed in 21 CFR 177.1010 as components of articles intended for use in contact with food.

Section 177.1010 now states that semirigid and rigid acrylic and modified acrylic plastics may be safely used as articles intended for use in contact with food, but it does not provide for the use of acrylic polymers as components of articles. The present amendment will allow the polymers listed in § 177.1010 to be used as components of articles in addition to use as whole articles intended for use in contact with food.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. FDA's regulations implementing the National Environmental Policy Act (21 CFR Part 25) have been replaced by a rule published in the Federal Register of April 26, 1985 (50 FR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an environmental assessment under 21 CFR 25.31a(a).

Any person who will be adversely affected by this regulation may at any time on or before August 23, 1985, submit to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on the objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects

21 CFR Part 176

Food additives; Food packaging; Paper and paperboard.

21 CFR Part 177

Food additives; Polymeric food packaging.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Food Safety and Applied Nutrition, Parts 176 and 177 are amended as follows:

1. The authority citation for 21 CFR Parts 176 and 177 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

PART 176—INDIRECT FOOD ADDITIVES: PAPER AND PAPERBOARD COMPONENTS

2. Part 176 is amended in § 176.170(b)(2) by alphabetically inserting a new item in the list of substances, to read as follows:

§ 176.170 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * *

(b) * * *

(2) * * *

List of substances	Limitations
* * *	* *
Acrylic and modified acrylic polymers.	Complying with § 177.1010 of this chapter.
* * *	* *

* * * * *

PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

3. Part 177 is amended in § 177.1010 by revising the introductory paragraph, the introductory texts of paragraphs (a) and (b), and paragraph (d) and by adding new paragraph (f) to read as follows:

§ 177.1010 Acrylic and modified acrylic plastics, semirigid and rigid.

Semirigid and rigid acrylic and modified acrylic plastics may be safely used as articles intended for use in contact with food, in accordance with the following prescribed conditions. The acrylic and modified acrylic polymers or plastics described in this section also may be safely used as components of articles intended for use in contact with food.

(a) The optional substances that may be used in the formulation of the semirigid and rigid acrylic and modified acrylic plastics, or in the formulation of acrylic and modified acrylic components of articles, include substances generally recognized as safe in food, substances used in accordance with a prior sanction or approval, substances permitted for use in such plastics by regulations in Parts 170 through 189 of this chapter, and substances identified in this paragraph. At least 50 weight-percent of the polymer content of the acrylic and modified acrylic materials used as finished articles or as components of articles shall consist of polymer units derived from one or more of the acrylic or methacrylic monomers listed in paragraph (a)(1) of this section.

* * * * *

(b) The semirigid and rigid acrylic and modified acrylic plastics, in the finished form in which they are to contact food, when extracted with the solvent or solvents characterizing the type of food and under the conditions of time and temperature as determined from Tables 1 and 2 of § 176.170(c) of this chapter, shall yield extractives not to exceed the following, when tested by the methods prescribed in paragraph (c) of this section. The acrylic and modified acrylic polymers or plastics intended to be used as components of articles also shall yield extractives not to exceed the following limitations when prepared as strips as described in paragraph (c)(2) of this section:

* * * * *

(d) In accordance with current good manufacturing practice, finished semirigid and rigid acrylic and modified acrylic plastics, and articles containing these polymers, intended for repeated use in contact with food shall be thoroughly cleansed prior to their first use in contact with food.

* * * * *

(f) The acrylic and modified acrylic polymers identified in and complying with this section, when used as components of the food-contact surface of an article that is the subject of a regulation in this part and in Parts 174, 175, 176, and 178 of this chapter, shall comply with any specifications and limitations prescribed by such regulation for the article in the finished form in which it is to contact food.

Dated: July 16, 1985.

John M. Taylor,

Acting Director, Center for Food Safety and Applied Nutrition.

[FR Doc. 85–17531 Filed 7–23–85; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 177

[Docket No. 84F–0329]

Indirect Food Additives; Polymers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of polyarylsulfone resins intended for use in contact with food. This action responds to a petition filed by Union Carbide Corp.

DATES: Effective July 24, 1985; objections by August 23, 1985. The Director of the Federal Register approves the incorporation by reference of certain publications at § 177.1560 effective on July 24, 1985.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Mary J. Stephens, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5740.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of October 17, 1984 (49 FR 40670), FDA announced that a petition (FAP 4B3823) had been filed by Union Carbide Corp., P.O. Box 670, Bound Brook, NJ 08805, proposing that Part 177 (21 CFR Part 177) of the food additive regulations be amended to provide for the safe use of polyarylsulfone resins intended for use in contact with food.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. FDA's regulations implementing the National Environmental Policy Act (21 FR Part 25) have been replaced by a rule published in the Federal Register of April 26, 1985 (50 CFR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an environmental assessment under 21 CFR 25.31a(a).

Any person who will be adversely affected by this regulation may at any time on or before August 23, 1985, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any

particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 177

Food additives, Incorporation by reference, Polymeric food packaging.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Food Safety and Applied Nutrition, Part 177 is amended as follows:

PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

1. The authority citation for 21 CFR Part 177 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

2. Subpart B is amended by adding new § 177.1560 to read as follows:

§ 177.1560 Polyarylsulfone resins.

Polyarylsulfone resins (CAS Reg. No. 79293–56–4) may be safely used as articles or components of articles intended for use in contact with food, at temperatures up to and including normal baking temperatures, in accordance with the following prescribed conditions:

(a) *Identity.* Polyarylsulfone resins are copolymers containing not more than 25 percent of oxy-*p*-phenylene-oxy-*p*-phenylenesulfonyl-*p*-phenylene polymer units and not less than 75 percent of oxy-*p*-phenylenesulfonyl-*p*-phenylene-oxy-*p*-phenylenesulfonyl-*p*-phenylene polymer units. The copolymers have a minimum reduced viscosity of 0.40 deciliter per gram in 1-methyl-2-pyrrolidinone in accordance with ASTM method D2857–70 (Reapproved 1977), "Standard Test Method for Dilute Solution Viscosity of Polymers," which is incorporated by reference. Copies may be obtained from the American Society for Testing and Materials, 1916 Race St., Philadelphia, PA 19103, or may be examined at the Office of the Federal Register, 1100 L St., NW., Washington, DC 20408.

(b) *Optional adjuvant substances.* The basic polyarylsulfone resins identified in paragraph (a) of this section may contain optional adjuvant substances required in the production of such basic copolymers. These optional adjuvant substances may include substances permitted for such use by regulations in Parts 170 through 179 of this chapter, substances generally recognized as safe in food, substances used in accordance with a prior sanction of approval, and substances named in this paragraph and further identified as required:

Substances	Limitations
Sulfolane	Not to exceed 0.15 percent as residual solvent in the finished basic resin.

(c) *Extractive limitations.* The finished polyarylsulfone resin when extracted for 2 hours with the following solvents at the specified temperatures yields total extractives in each extracting solvent not to exceed 0.008 milligram per square centimeter of food-contact surface: distilled water at 121 °C (250 °F), 50 percent (by volume) ethyl alcohol in distilled water at 71.1 °C (160 °F), 3 percent acetic acid in distilled water at 100 °C (212 °F), and *n*-heptane at 65.6 °C (150 °F).

Note.—In testing the finished polyarylsulfone resin use a separate test sample for each required extracting solvent.

Dated: July 16, 1985.

[Docket No. 84F–0315]

Indirect Food Additives: Polymers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of hexanedioic acid polymer with 1,3-benzenedimethanamine as a modifier for polyethylene phthalate polymers intended for use in contact with food. This action responds to a petition filed on behalf of Toyobo Co.

DATES: Effective July 24, 1985; objections by August 23, 1985.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Patricia J. McLaughlin, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of September 28, 1984 (49 FR 38362), FDA announced that a petition (FAP 4B3818) had been filed on behalf of Toyobo Co., Ltd., c/o 2347 Paddock Lane, Reston, VA 22091, proposing that the food additive regulations be amended to provide for the safe use of hexanedioic acid polymer with 1,3-benzenedimethanamine as a modifier for polyethylene phthalate polymers in 21 CFR 177.1630 intended for use in contact with food.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. FDA's regulations implementing the National Environmental Policy Act (21 CFR Part 25) have been replaced by a rule published in the **Federal Register** of April 26, 1985 (50 FR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an environmental assessment under 21 CFR 25.31a(a).

Any person who will be adversely affected by this regulation may at any time on or before August 23, 1985, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a

hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 177

Food additives, Polymeric food packaging.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, and redelegated to the Center for Food Safety and Applied Nutrition, Part 177 is amended as follows:

PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

1. The authority citation for 21 CFR Part 177 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

2. In § 177.1630 by alphabetically inserting a new item in paragraph (e)(4)(v) to read as follows:

§ 177.1630 Polyethylene phthalate polymers.

* * * * *

(e) * * *

(4) * * *

List of Substances and Limitations

(v) Modifiers:

* * * * *

Hexanedioic acid polymer with 1,3-benzenedimethanamine (CAS Reg. No. 25718–70–1) meeting the specifications in § 177.1500(b), item 10, when tested by the methods given in § 177.1500(c). The modifier is used in polyethylene terephthalate at a level not to exceed 30 percent by weight of the polyethylene terephthalate.

Chloroform-soluble extractives shall not exceed 0.08 milligram/centimeter ^{2} (0.5 milligram/inch ^{2}) of food-contact surface of the modified polyethylene terephthalate article when exposed to the following solvents at temperatures and times indicated:

(*a*) Distilled water at 49 °C (120 °F) for 24 hours;

(*b*) *n*-Heptane at 49 °C (120 °F) for 24 hours;

(*c*) 8 percent ethyl alcohol at 49 °C (120 °F) for 24 hours.

For use in contact with all types of foods except (*a*) those containing more than 8 percent alcohol, or (*b*) those at temperatures over 49 °C (120 °F).

BILLING CODE 4160–01–M

21 CFR Part 178

[Docket No. 84F–0152]

Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of decanoic acid, octanoic acid, sodium 1-octanesulfonate, and isopropyl alcohol for use on food-processing equipment and utensils, as components in sanitizing solutions. This action responds to a petition filed by Economic Labs., Inc.

DATES: Effective July 24, 1985; objections by August 23, 1985.

ADDRESS: Written objections may be sent to the Dockets Management Branch (HRA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Blondell Anderson, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5740.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of June 5, 1984 (49 FR 23242), FDA announced that a food additive petition (FAP 4H3794) had been filed by Economics Labs., Inc., Osborn Bldg., St. Paul, MN 55102, proposing that § 178.1010 *Sanitizing solutions* (21 CFR 178.1010) be amended to provide for the safe use of decanoic acid, octanoic acid, sodium 1-octanesulfonate, and isopropyl alcohol as components in a sanitizing solution for use on food-processing equipment and utensils. These components are presently regulated under § 178.1010(b)(27) for use on dairy processing equipment only.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. FDA's regulations implementing the National Environmental Policy Act (21 CFR Part 25) have been replaced by a rule published in the **Federal Register** of April 26, 1985 (50 FR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an environmental assessment under 21 CFR 25.31a(a).

Any person who will be adversely affected by this regulation may at any time on or before August 23, 1985, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading

VOL 50 ISS 142 JL 24 1985 UMI

of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 178

Food additives, Food packaging, Sanitizing solutions.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director, Center for Food Safety and Applied Nutrition, Part 178 is amended as follows:

PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

1. The authority citation for 21 CFR Part 178 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

§ 178.1010 [Amended]

2. In § 178.1010 *Sanitizing solutions* by removing the last sentence in paragraph (b)(27).

Dated: July 16, 1985.

[Docket No. 84F–0054]

Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of poly[(6-morpholino-s-triazine-2,4-diyl)[(2,2,6,6-tetramethyl-4-piperidyl)imino]hexamethylene[(2,2,6,6-tertramethyl-4-peperidyl)imino]] as a light stabilizer for polyolefins. This action responds to a petition filed by American Cyanamid Co.

DATES: Effective July 24, 1985; objections by August 23, 1985.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Room 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Rudolph Harris, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of March 20, 1984 (49 FR 10364), FDA announced that a petition (FAP 4B3780) had been filed by American Cyanamid Co., One Cyanamid Plaza, Wayne, NJ 07470, proposing that § 178.2010 (21 CFR 178.2010) be amended to provide for the safe use of poly[(6-morpholino-s-triazine-2,4-diyl)[(2,2,6,6-tetramethyl-4-piperidyl)imino]hexamethylene[(2,2,6,6-tetramethyl-4-piperidyl)imino]] as a light stabilizer for polyolefins.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. FDA's regulations implementing the National Environmental Policy Act (21 CFR Part 25) have been replaced by a rule published in the **Federal Register** of April 26, 1985 (50 FR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an environmental assessment under 21 CFR 25.31a(a).

Any person who will be adversely affected by this regulation may at any time on or before August 23, 1985, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 178

Food additives, Food packaging, Sanitizing solutions.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director of the Center for Food Safety and Applied Nutrition, Part 178 is amended as follows:

PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

1. The authority citation for 21 CFR Part 178 continues to read as follows:

Authority: Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348); 21 CFR 5.10 and 5.61.

2. In § 178.2010(b) by alphabetically inserting a new item in the list of substances to read as follows:

§ 178.2010 Antioxidants and/or stabilizers for polymers.

* * * * *

(b) * * *

Substances	Limitations
* * *	* * *
Poly[(6-morpholino-s-triazine-2,4-diyl)[(2,2,6,6-tetramethyl-4-piperidyl)imino]hexamethylene [(2,2,6,6-tetramethyl-4-piperidyl)imino]] (CAS Reg. No. 82451–48–7).	For use only: 1. At levels not to exceed 0.3 percent by weight of polypropylene complying with § 177.1520(c) of this chapter, items 1.1,1.2, and 1.3, and of ethylene polymers complying with § 177.1520(c) of this chapter, items 2.1, 2.3, and 3.1, whose specific gravity is not less than 0.94. The finished polymers are to contact food only under conditions of use D, E, F, and G described in Table 2 of § 176.170(c) of this chapter.

Substances	Limitations
	2. At levels not to exceed 0.3 percent by weight of olefin polymers complying with § 177.1520(c) of this chapter, items 2.1, 2.3, and 3.1, whose specific gravity is less than 0.94, and of olefin polymers complying with items 3.3., 3.4, 3.5, and 4.0. The finished polymers are to contact food in articles having a volume of at least 18.9 liters (5 gallons) only under conditions of use D, E, F, and G described in Table 2 of § 176.170(c) of this chapter.

21 CFR Parts 182 and 184

[Docket No. 82N–0089]

Vitamin D; Affirmation of GRAS Status With Specific Limitations as a Direct Human Food Ingredient

AGENCY: Food and Drug Adminstration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is affirming that vitamin D (when adden to food as crystalline vitamin D_2, crystalline vitamin D_3, vitamin D_2 resin, and vitamin D_3 resin) is generally recognized as safe (GRAS) with specific limitations as a direct human food ingredient. The safety of this ingredient as a food nutrient has been evaluated under the comprehensive safety review conducted by the agency.

DATES: Effective August 23, 1985. The Director of the Federal Register approves the incorporation by reference of certain publications in 21 CFR 184.1950 effective on August 23, 1985.

FOR FURTHER INFORMATION CONTACT: Lawrence J. Lin, Center for Food Safety and Applied Nutrition (HFF–335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–426–8950.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of April 19, 1983 (48 FR 16695), FDA published a proposal to affirm that two forms of vitamin D, ergocalciferol (crystalline vitamin D_2) and cholecalciferol (crystalline vitamin D_3), are generally recognized as safe (GRAS) with specific liminations for use as direct human food ingredients in conventional food [1] and infant formula. FDA published the proposal in accordance with the announced review of the safety of GRAS and prior-sanctioned food ingredients.

In accordance with § 170.35 (21 CFR 170.35), copies of the scientific literature review, mutagenic evaluations, and the report of the Select Committee on GRAS Substances (the Select Committee) on vitamin D_2 and vitamin D_3 are available for public review in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. Copies of these documents also are available for public purchase from the National Technical Information Service, as announced in the proposal.

In addition to proposing to affirm the GRAS status of the crystalline forms of vitamin D_2 and vitamin D_3, FDA gave public notice that it was unaware of any prior-sanctioned food uses for these ingredients other than for the proposed conditions of use. Persons asserting additional or extended uses in accordance with approvals granted by the U.S. Department of Agriculture or FDA before September 6, 1958, were given notice to submit proof of those sanctions, so that the safety of any prior-sanctioned uses could be determined. That notice was also an opportunity to have prior-sanctioned uses of these ingredients recognized by issuance of an appropriate regulation under Part 181—Prior-Sanctioned Food Ingredients (21 CFR Part 181), or affirmed as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate. FDA also gave notice that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert that sanction at any future time.

No reports of prior-sanctioned uses for these ingredients were submitted in response to the proposal. Therefore, in accordance with the proposal, any right to assert a prior sanction for uses of these ingredients under conditions different form those set forth in this final rule has been waived.

In the proposal, FDA expressed concern about the fact that the 1971 National Academy of Sciences/National Research Council (NAS/NRC) food ingredient survey reported that the total amount (poundage) of vitamin D_2 and vitamin D_3 available for use in food in 1970 was far in excess of the amount needed to fortify foods. Although NAS/NRC additionally reported that its survey on vitamin D_2 and vitamin D_3 did not differentiate between use in human food, in animal feed, or in dietary supplements, and probably contained inaccuracies such as failure to account for dilution of multiple strength solutions, FDA was concerned that extreme overages of this vitamin may be used in food. The agency was also concerned that impure vitamin D resins may be used in food and that there may be insufficient safety data available to support their use. The agency therefore requested specific comments on whether resinous forms of vitamin D are used in food and on the magnitude of any overages of the vitamin that are used.

Fourteen comments were received in response to the proposal. Nine comments were from manufactures of food or food ingredients, two comments were from trade associations, two comments were from universities, and one comment was from a consulting food chemist. A summary of these comments and the agency's responses to them follow:

1. Seven comments responded to the request in the proposal for information on the use of vitamin D resins in food. One comment from a food company stated that it uses only crystalline vitamin D that meets the specifications of the Food Chemicals Codex, 3d Ed. (1981). The six remaining comments indicated that vitamin D resins are currently used in food and requested that the proposal be modified to permit their continued use. These comments stated that vitamin D resins have been used in food since the 1940's, and that no safety problems have been associated with their use. The comments provided information on the methods of manufacture of vitamin D resins and information on their inactive vitamin D isomers and other impurities. One comment claimed that some of the animal studies included in the Select Committee's report were actually conducted on vitamin D resins.

FDA has reviewed the information submitted by these comments and agrees that vitamin D resins may safely be used as alternative sources of vitamin D in food. The comments have provided information demonstrating that the vitamin D resins are manufactured by the same methods that are used to synthesize the crystalline forms of the vitamin, except that the resins are not purified to their crystalline forms. The major impurities found in the resins are unreacted provitamins (ergosterol and 7-dehydrocholesterol), lumisterol, and tachysterol, with minor amounts of other photochemical products. FDA finds that the presence of these impurities in the resins is not harmful. These impurities

[1] FDA is using the term "conventional food" to refer to food that would fall within any of the 43 categories listed in § 170.3(n) (21 CFR 170.3(n)).

UMI

are the same products that are formed in animals when animals are exposed to sunlight (Ref. 1), and at the levels at which vitamin D is added to food, the impurities will be present in food in amounts that are extremely small, much lower even than the amounts that occur naturally in animals. The agency is therefore modifying the proposal to permit vitamin D_2 and vitamin D_3 resins to be added to foods as alternatives to the crystalline forms of these vitamins.

2. One comment responded to the agency's request for information about the amounts of vitamin D that are being added to foods. The comment did not provide any specific information but acknowledged that it is often necessary to add 25 percent or more vitamin D than is declared on the label to offset losses of the vitamin that may occur during the processing or the storage of food. The comment also acknowledged that overages that are added may result in a higher amount of vitamin D in food products than is declared on the label. The comment, however, did not favor establishment of an upper limit for either the amount of vitamin D added to food or the amount actually remaining in the food. The comment stated that there are many technological problems associated with the use of vitamin D in foods, and it therefore recommended that the agency allow food processors to determine the appropriate amount of overage for each food product.

As indicated in the proposal, FDA is aware that overages of vitamin D are added to foods to offset losses of the vitamin that may occur during processing or storage. The agency is also aware that vitamin D will be more stable in some foods than others, and that there is considerable variation in the expected shelf life of vitamin D in foods. The agency further recognizes that food manufacturers and processors face technical problems in mixing small amounts of vitamin D in foods (usually 0.1 part per million or less) and assaying for these small amounts of the vitamin. Finally, the agency is aware that these problems vary depending upon such factors as whether the food product is a liquid or solid.

Based on these factors, FDA concludes that it cannot establish an upper limit on the amount of vitamin D that can be added in the processing of a particular food. Food manufacturers must determine for their own products, on a case-by-case basis, the amount of vitamin D that will be lost in the processing and in the storage of a particular food before it is delivered for consumer purchase. For the use of vitamin D to be GRAS under the regulation that FDA is adopting, however, the amount of the vitamin that remains in the food at the time it is available for consumer purchase must be within the specific limitation that FDA has established for the applicable food category.

FDA is therefore not making any change in the regulation based upon this issue.

3. Four comments requested that the proposed regulations be modified to permit the interchangeable use of vitamin D_2 and vitamin D_3 in the food categories listed for each of these ingredients. The comments stated that it has been common industry practice to use either vitamin D_2 or vitamin D_3 as a source of vitamin D in foods, and that there is no safety reason to permit only vitamin D_2 for use in breakfast cereals and grain products, as provided in the proposal.

FDA agrees that at current consumption levels, there is no significant difference in the safety of vitamin D_2 and vitamin D_3, and that in most food applications, these substances may be used interchangeably as sources of vitamin D. The agency has therefore modified § 184.1950 (21 CFR 184.1950) to permit the interchangeable use of vitamin D_2 and vitamin D_3 under the specific conditions established in this regulation.

To make clear that crystalline vitamin D_2, crystalline vitamin D_3, and the less pure resinous forms of these vitamins may be used interchangeably in food, the agency has decided not to issue separate regulations affirming the GRAS status of vitamin D_2 and vitamin D_3. Instead, the agency is issuing a single regulation that affirms the GRAS status of vitamin D and that makes clear that crystalline vitamin D_2, crystalline vitamin D_3, vitamin D_2 resin, or vitamin D_3 resin may all be used as a food source of the vitamin within the specific conditions of use established in the regulation.

4. Two comments asserted that the proposal was incomplete regarding the processing and method of manufacture for vitamin D_3. The comments stated that vitamin D_3 is not only obtained from fish liver oil but is also produced from cholesterol obtained from fish oils, wool grease, lanolin, and the brains and spinal cords of animals. According to the comments, the cholesterol is chemically converted to 7-dehydrocholesterol, which in turn is irradiated with ultraviolet light to produce vitamin D_3 (cholecalciferol). One of these comments objected to the inclusion of any methods of manufacture for either vitamin D_2 or vitamin D_3 in the GRAS affirmation regulation. The comment argued that the inclusion of manufacturing methods in the regulation will inhibit development of new methods.

FDA agrees that vitamin D_3 may be safely produced by the method of manufacture described in these comments, and the agency has therefore modified the regulation to incorporate this method. However, the agency does not agree that the regulation should not contain a description of any methods of manufacture. FDA has historically included methods of manufacture in its GRAS affirmation regulations.

In the Federal Register of December 7, 1976 (41 FR 53600), the agency made clear that the descriptions of methods of manufacture included in GRAS affirmation regulations are not intended to inhibit the development of new methods or to inhibit modifications in the methods of manufacture that are included in the regulations. FDA includes methods of manufacture in GRAS affirmation regulations to define as thoroughly as possible the composition of the ingredient that has been evaluated and affirmed as GRAS (21 CFR 184.1(a)) and to differentiate it from other possible versions of the ingredient that the agency has not affirmed as GRAS.

Manufacturers who modify a method or develop a new method of manufacture will be able to determine, by comparing the new method with the methods set forth in the regulation, whether the new method introduces impurities that may require a new evaluation of the safety of the substance. Methods of manufacture also supplement the food-grade specifications for an ingredient because inclusion of these methods helps to identify potential impurities in GRAS ingredients that may not be included in their food-grade specifications.

A description of manufacturing methods is necessary in this regulation because specifications have not yet been established for the resin forms of vitamin D2 and vitamin D3.

5. Two comments objected to the adoption of specific limitations on the use of vitamin D in foods. The comments stated that food manufacturers have acted responsibly in adding vitamin D to foods, and that FDA should continue to grant flexibility to food manufacturers in using vitamin D in foods. One of the comments also stated that it is unnecessarily burdensome to petition FDA to adopt new food uses for vitamin D.

FDA disagrees with these comments. The agency's GRAS affirmation

proposal on vitamin D stated that both FDA and the Select Committee have concluded that "* * * It is not possible to determine, without additional data, whether a significant increase in consumption of vitamin D2 and vitamin D3 would constitute a dietary hazard." This conclusion makes clear the agency's and the Select Committee's concern about expanded food uses of vitamin D. The basis for this concern is the small margin of safety between the total amount of vitamin D that is added to food and the amount of the vitamin that can produce toxic effects in humans.

FDA finds that specific limitations on the use of vitamin D in food are necessary to assure that total dietary exposure to this ingredient does not increase significantly. In addition, the agency concludes that the concern about the margin of safety for this ingredient establishes an appropriate basis for requiring food manufacturers to petition the agency for GRAS affirmation or food additive approval for new food uses of this vitamin, and that adoption of such uses should not be left only to the judgment of individual food manufacturers. FDA also points out that its decision to adopt specific limitations for the use of vitamin D in food is consistent with its adoption of specific limitations for other GRAS ingredients about which the agency has had similar concerns.

FDA also does not agree that petitioning the agency for new uses of vitamin D is unnecessarily burdensome. As indicated above, the agency concludes that a petition for new food uses of vitamin D is necessary so that the agency can assure that total dietary exposure will not increase significantly, and that any increase in exposure is safe.

6. One comment, from a company that manufactures breakfast cereals, requested that FDA affirm the GRAS status of breakfast cereals that contain 100 percent of the U.S. Recommended Daily Allowance (U.S. RDA) per 1 ounce serving (1,410 International Units (IU) per 100 grams (g)). The comment stated that there is no evidence that vitamin D is unsafe when used at this level. The comment also stated that in 1981, the company reduced the amount of vitamin D in two of its breakfast cereals from 100 percent of the U.S. RDA to 50 percent of the U.S. RDA per ounce.

FDA is not affirming that the use of vitamin D at the suggested levels in breakfast cereals is GRAS. As indicated in the proposal, FDA estimates that average lifetime exposure to vitamin D, based upon those uses included in the proposal, is 200 to 300 IU per day for individuals between the ages of 2 and 65 years. This average lifetime estimate includes 25 IU per day for breakfast cereals. On the other hand, it is apparent that many individuals consume multiple servings of breakfast cereal fortified with vitamin D, and that their consumption exceeds the average intake to a significant degree. Data from the Nationwide Food Consumption Survey (Ref. 2) demonstrate that some individuals in all age groups beginning at 9 years of age or older consume more than 100 g of ready-to-eat cereal per day. For these individuals, the risk posed by increases in vitamin D levels in breakfast cereals to 705 or 1,410 IU per 100 g, as requested in this comment, is unknown. The agency therefore concludes that it cannot affirm the GRAS status of these levels of use of vitamin D without additional data demonstrating that such uses are safe.

The agency further concludes that it is the responsibility of this cereal manufacturer to demonstrate the safety of its products, and that the comment is in error in its assertion that FDA should affirm the GRAS status of these uses of vitamin D because there is no evidence to demonstrate that they are unsafe. For these reasons, the agency is maintaining the limitation of 350 IU per 100 g as the maximum level of use for vitamin D in breakfast cereals.

The agency also points out in response to the comment that cereal products that contain 705 IU vitamin D per 100 g (equivalent to 50 percent of the U.S. RDA) are foods for special dietary use, as defined in 21 CFR 101.9(a)(2). FDA does not consider these products to be conventional foods, and therefore they are not covered by this regulation.

7. Five comments requested that the proposal be modified to include certain special dietary foods and enteral formulas. The comments urged that the proposal be expanded to include such products as formulated liquid diets, meal replacements, dry diet mixes, fortified drinks and mixes, and diet bars. Two of these comments requested that the maximum level for vitamin D in these special dietary foods and enteral formulas be set at 250 IU per 100 grams, as served. One of these comments submitted food labels from some of the products.

FDA has inspected the food labels that were submitted and has carefully considered whether it has sufficient information on these products to evaluate the safety of these uses of vitamin D. The agency finds that many of the products referred to in the comments, such as weight control milk beverages and flavorings for milk, were included in the proposal under the food category milk products, as described in 21 CFR 170.3(n)(31). The level of use of vitamin D in these products is within the maximum level of use included in § 184.1450(c)(1).

However, the agency finds that enteral formulas and the other products discussed in these comments are not included in the 43 food categories identified as conventional foods in 21 CFR 170.3(n), and that the use of vitamin D in these types of products was not evaluated by the Select Committee. The agency further finds that the comments do not provide appropriate information on the amount of vitamin D contained in these products, dietary serving (portion) size for these products, or the amount of these products that will be ingested daily. The agency cannot evaluate the safety of the use of vitamin D in these products without this information. FDA is, therefore, not including these uses in this final rule.

If manufacturers of special dietary foods and enteral formulas wish to have the GRAS affirmation regulation for vitamin D amended to include use of vitamin D in their products, they should submit, in accordance with 21 CFR 170.30, a GRAS affirmation petition providing specific information on the amount of vitamin D that is contained in their products and the amount of the product that will be ingested daily.

Because no food-grade specifications exist for vitamin D_2 and vitamin D_3 resins at the present time, the agency will work with the Committee on Food Chemicals Codex of the National Academy of Sciences to develop acceptable specifications for these resins. If acceptable specifications are developed, the agency will incorporate them into this regulation at a later date. Until specifications are developed, FDA has determined that the public health will be adequately protected if vitamin D resins comply with their descriptions in the regulation and are of a purity suitable for their intended use in food (21 CFR 184.1(b)).

The agency has made editorial changes in § 184.1950(a) (1) and (2) to reflect the fact that vitamin D_2 and vitamin D_3 are made b ultraviolet irradiation of provitamin D_2 and provitamin D_3.

The agency has previously determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. FDA has not received any new information or comments that would alter its previous determination.

In accordance with the Regulatory Flexibility Act, the agency previously considered the potential effects that this rule would have on small entities, including small businesses. In accordance with section 605(b) of the Regulatory Flexibility Act, the agency had determined that no significant impact on a substantial number of small entities would derive from this action. FDA has not received any new information or comments that would alter its previous determination.

In accordance with Executive Order 12291, the agency has previously considered the potential economic effects of this final rule. As announced in the proposal, the agency has determined that the rule is not a major rule as determined by that Order. FDA has not received any new information or comments that would alter its previous determination.

The agency's findings of no economic impact and no significant impact on a substantial number of small entities, and the evidence supporting these findings, are contained in a threshold assessment which may be seen in the Dockets Management Branch (address above).

List of Subjects

21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients; Spices and flavorings.

21 CFR Part 184

Direct food ingredients; Food ingredients; Generally recognized as safe (GRAS) food ingredients; Incorporation by reference.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, Parts 182 and 184 are amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

1. The authority citation for Part 182 continues to read as follows:

Authority: Secs. 201(s), 402, 409, 701, 52 Stat. 1046–1047 as amended, 1055–1056 as amended, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 342, 348, 371); 21 CFR 5.10.

2. Part 182 is amended:

§ 182.8950 [Removed]

a. By removing § 182.8950 *Vitamin D_2*.

§ 182.8953 [Removed]

b. By removing § 182.8953 *Vitamin D_3*.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. The authority citation for Part 184 continues to read as follows:

Authority: Secs. 201(s), 402, 409, 701, 52 Stat. 1046–1047 as amended, 1055–1056 as amended, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 342, 348, 371); 21 CFR 5.10.

4. Part 184 is amended by adding new § 184.1950 to read as follows:

§ 184.1950 Vitamin D.

(a) Vitamin D is added to food as the following food ingredients:

(1) Crystalline vitamin D_3 ($C_{28}H_{44}O$, CAS Reg. No. 50–14–6), also known as ergocalciferol, is the chemical 9,10-seco(5Z,7E,22E)-5,7,10(19),22-ergostatetraen-3-ol. The ingredient is produced by ultraviolet irradiation of ergosterol isolated from yeast and related fungi and is purified by crystallization.

(2) Crystalline vitamin D_3 ($C_{27}H_{44}O$, CAS Reg. No. 67–97–0), also known as cholecalciferol, is the chemical 9,10-seco(5Z,7E,)-5,7,10(19)-cholestatrien-3-ol. Vitamin D_3 occurs in and is isolated from, fish liver oils. It is also manufactured by ultraviolet irradiation of 7-dehydrocholesterol produced from cholesterol. It is purified by crystallization. Vitamin D_3 is the vitamin D form that is produced endogenously in humans through sunlight activation of 7-dehydrocholesterol in the skin.

3. Vitamin D_2 resin and vitamin D_3 resin are the concentrated forms of irradiated ergosterol (D_2) and irradiated 7-dehydrocholesterol (D_3) that are separated from the reacting materials in paragraphs (a) (1) and (2) of this section. The resulting products are sold as food sources of vitamin D without further purification.

(b) Vitamin D_2 and vitamin D_3 as crystals meet the specifications of the Food Chemicals Codex, 3d Ed. (1981), pp. 344 and 345, which is incorporated by reference. Copies are available from the National Academy Press, 2101 Constitution Ave. NW., Washington, DC 20418, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408. FDA is developing food-grade specifications for vitamin D_2 resin and vitamin D_3 resin in cooperation with the National Academy of Sciences. In the interim, these resins must be of a purity suitable for their intended use.

(c)(1) In accordance with § 184.1(b)(2), the ingredients are used in food as the sole source of added vitamin D only within the following specific limitations:

Category of food	Maximum levels in food (as served)	Functional use
Breakfast cereals, § 170.3(n)(4) of this chapter.	350 (IU/100 grams).	Nutrient supplement, § 170.3(o)(20) of this chapter.
Grain products and pastas, § 170.3(n)(23) of this chapter.	90(IU/100 grams)	Do.
Milk, § 170.3(n)(30) of this chapter.	42 (IU/100 grams)	Do.
Milk products, § 170.3(n)(31) of this chapter.	89 (IU/100 grams)	Do.

(2) Vitamin D may be used in infant formula in accordance with section 412(g) of the Federal Food, Drug, and Cosmetic Act (the act) or with regulations promulgated under section 412(a)(2) of the act.

(3) Vitamin D may be used in margarine in accordance with § 166.110 of this chapter.

(d) Prior sanctions for these ingredients different from the uses established in this section do not exist or have been waived.

Effective date. This regulation is effective August 23, 1985.

Dated: July 2, 1985.

Joseph P. Hile,

Acting Commissioner of Food and Drugs.

[FR Doc. 85–17525 Filed 7–23–85; 8:45 am]

BILLING CODE 4160–01–M

---

21 CFR Part 524

Ophthalmic and Topical Dosage Form New Animal Drugs Not Subject to Certification; Furazolidone Aerosol Powder

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect the correct specifications for a previously approved furazolidone aerosol powder product.

EFFECTIVE DATE: July 24, 1985.

FOR FURTHER INFORMATION CONTACT: Frank G. Pugliese, Center for Veterinary Medicine (HFV–102), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4500.

SUPPLEMENTARY INFORMATION: On February 3, 1966, FDA approved, by letter, Norwich-Eaton's NADA 32–319 for a 4 percent furazolidone aerosol spray for cattle for treating bacterial eye infections and for dogs and horses for preventing or treating bacterial infections of superficial wounds. By letter of October 31, 1979, FDA approved a 10 percent formulation to replace the 4 percent formulation. FDA codified the approval in 21 CFR 524.1005 in the **Federal Register** of July 25, 1980 (45 FR 49543). However, the regulation failed to reflect the amended specification for the Norwich-Eaton product. The sponsorship of NADA 32–319 was subsequently transferred to SmithKline Animal Health Products (see 48 FR 28983; June 24, 1983). This document revises 21 CFR 524.1005 to reflect the currently approved specifications for that products.

List of Subjects in 21 CFR Part 524

Animal drugs, topical.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Part 524 is amended as follows:

PART 524—OPHTHALMIC AND TOPICAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

1. The authority citation for 21 CFR Part 524 continues to read as follows:

Authority: Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)); 21 CFR 5.10 and 5.83.

2. Section 524.1005 is amended by revising paragraphs (a) and (b) to read as follows:

§ 524.1005 Furazolidone aerosol powder.

(a) *Specifications.* The product contains either 4 or 10 percent furazolidone in inert dispersing agent and propellant.

(b) *Sponsors.* (1) See No. 000007 in § 510.600(c) of this chapter for use of the 10 percent product as in paragraph (c)(2)(i) through (iii) of this section.

(2) See No. 017135 for use of the 4 percent product as in paragraph (c)(2)(iv) of this section.

* * * * *

Dated: July 18, 1985.

Marvin A. Norcross,

Acting Associate Director for Scientific Evaluation.

BILLING CODE 4160–01–M

---

21 CFR Part 801

[Docket No. 84N–0148]

Medical Devices; Hearing Aids; Technical Data Amendments

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the technical data sections of the agency's regulation on hearing aid devices' professional and patient labeling to incorporate by reference an updated standard.

DATES: Effective January 20, 1986. The Director of the Office of the Federal Register approves the incorporation by reference of certain publications in 21 CFR 801.420 on January 20, 1986.

FOR FURTHER INFORMATION CONTACT: Joseph M. Sheehan, Center for Devices and Radiological Health (HFZ–84), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4874.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of August 14, 1984 (49 FR 32402), FDA proposed to amend its hearing aid regulation (21 CFR 801.420) to refer to the American National Standards Institute's (ANSI) updated ANSI S3.22–1982 (ASA 7–1982), "American National Standard Specification of Hearing Aid Characteristics." This updated standard is a modified version of ANSI S3.22–1976 (ASA 7–1976) which is incorporated by reference into § 801.420(c)(4) (approved by the Office of Management and Budget under control number 0910–0171).

The final rule amends § 801.420(c)(4) by incorporating by reference into the regulation the updated standard, ANSI S3.22–1982 ASA 7–1982). The final rule also requires that the User Instructional Brochure or other labeling accompanying the hearing aid include, as a minimum, the appropriate values or information for the technical data specified in § 801.420(c)(4)(i) through (xii), as those elements are defined or used in ANSI S3.22–1982 (ASA 7–1982). The final rule does not affect any other provision of § 801.420.

Comments

FDA received two comments on the proposed rule. One comment supported FDA's updating of § 801.420(c), stating that the revisions reflect timely and important scientific advances in the measurement and fitting of hearing aids. Another comment supported the proposed revisions, but argued that FDA's assessment of the economic effects of the proposed rule underestimated the cost of complying with the revisions. In the proposed rule, the agency determined that maximum cost of meeting the revised regulation for a manufacturer or distributor would be $1,000 (see 49 FR 32402). The comment claimed that $2,600 is a more realistic cost of compliance. The comment argued that compliance with the revision would require purchasing new program modules and reprogramming presently utilized testing equipment. The comment also argued that incorporating the revised technical test data into the hearing aid labeling would require costly, burdensome reprinting of labeling. For these reasons, the comment suggested that FDA could better ensure an inexpensive transition by providing a 360-day delayed effective date for the final rule, rather than the 180-day delayed effective date prescribed by FDA in the preamble to the proposed rule.

FDA disagrees with the latter comment. FDA has carefully reevaluated its assessment of the economic effect of the rule but continues to believe that only minor changes in testing procedures will be necessary. Essentially, all testing changes can be accomplished satisfactorily with existing equipment. Only § 801.420(c)(4)(ix), which establishes a tolerance level to minimize errors in measuring battery current drain in the hearing aid, might obligate persons that develop the brochure or labeling to purchase new testing equipment. As ANSI S3.22–1982 applies this section, a worst-case condition would require the developer to purchase a milliameter, an inexpensive accessory costing about $50. Because manufacturers will perform the testing and develop the user instructional brochures, FDA believes that it is highly unlikely that any distributor will need to purchase new equipment.

Additionally, FDA disagrees that any costly revisions of the User Instructional Brochure or of other labeling are necessary. Therefore, FDA concludes that a 6-month delayed effective date is adequate time for manufacturers to revise the User Instructional Brochure,

VOL 50 ISS 142 JL 24 1985 UMI

or separate labeling that accompanies the device to incorporate the updated procedures for determining technical data values, provided in these documents.

FDA concludes that its original worst-case total cost estimate of slightly more than $1 million is unchanged and reaffirms its initial determination that the rule does not require a regulatory impact analysis under Executive Order 12291. Further, in accordance with section 605(b) of the Regulatory Flexibility Act, FDA concludes that the final rule will not have a significant economic impact on a substantial number of small entities, including small businesses. Even if the agency were to accept the comment's cost figure of $2,600 per company, this would not be a substantial impact on small businesses.

List of Subjects in 21 CFR Part 801

Incorporation by reference, Labeling, Medical devices, Over-the-counter devices, Prescription devices, Requirements for specific devices.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, Part 801 is amended as follows:

PART 801—LABELING

1. The authority citation for Part 801 is revised to read as follows:

Authority: Sec. 701, 52 Stat. 1055–1056 as amended (21 U.S.C. 371) unless otherwise noted; 21 CFR 5.10, § 801.420 also is issued under secs. 201(h), (k), (m), and (n), 502, 519, 520(e), 704, 52 Stat. 1041 as amended, 1050–1051 as amended, 67 Stat. 477 as amended, 90 Stat. 564–565, 567, 575 (21 U.S.C. 321(h), (k), (m), and (n), 352, 360i, 360j(e), 374).

2. In § 801.420(c)(4) by revising the second and third sentences to read as follows:

§ 801.420 Hearing aid devices; professional and patient labeling.

* * * * *

(c) * * *

(4) * * * The determination of technical data values for the hearing aid labeling shall be conducted in accordance with the test procedures of the American National Standard Specification of Hearing Aid Characteristics, ANSI S3.22–1982 (Revision of S3.22–1978) (ASA 7–1982), which is incorporated by reference. Copies are available from the American National Standards Institute, 1430 Broadway, New York, NY 10018, or are available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408. * * *

BILLING CODE 4160-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Parts 201, 203, and 234

[Docket No. N-85-1540; FR-2127]

Mortgage Insurance; Changes to the Maximum Mortgage Limits for Single Family Residences, Condominiums and Manufactured Homes and Lots

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of revisions to FHA maximum mortgage limits for high-cost areas.

SUMMARY: This Notice is the annual complete listing of areas eligible for "high-cost" mortgage limits under certain of HUD's insuring authorities under the National Housing Act and their applicable limits. Mortgage limits are adjusted in an area when the Secretary determines that middle- and moderate-income persons have limited housing opportunities because of high prevailing housing sales prices and notice of the determination is published in the **Federal Register**.

EFFECTIVE DATE: July 24, 1985.

FOR FURTHER INFORMATION CONTACT: For single family: Brian Chappelle, Director, Single Family Development Division, Room 9270; telephone (202) 755–6720. For manufactured homes: Christopher Peterson, Director, Office of Title I Insured Loans, Room 9160; telephone (202) 755–6880; 451 Seventh Street, S.W., Washington, D.C. 20410. (Telephones are not toll-free numbers.)

SUPPLEMENTARY INFORMATION:

Background

The National Housing Act (NHA) (12 U.S.C. 1701–1749) authorizes HUD to insure mortgages for single family residences (from one- to four-family structures), condominiums, manufactured homes, manufactured home lots, and combination manufactured homes and lots. The NHA, as amended by the Housing and Community Development Amendments of 1981, permits HUD to increase the maximum mortgage limits under most of these programs to reflect regional differences in the cost of housing. In addition, sections 2(b) and 214 of the NHA provide for special high-cost limits for insured mortgages in Alaska, Guam and Hawaii.

The Housing and Urban-Rural Recovery Act of 1983 (Pub. L. 98–181, November 30, 1983) (the 1983 Act) further amended HUD's insuring authority. Of particular interest here are: (1) the authorization to insure condominiums in high-cost areas at the same levels as the high-cost limits for one-family residences insured under section 203(b) of the National Housing Act; and (2) the authorization to increase maximum loan limits under the Title I loan insurance program for combination manufactured home and lot loans and for individual lot loans in high-cost areas, so long as the percentage increase in the maximum loan limit does not exceed the percentage increase made to a one-family resident in the area authorized under section 203(b) of the NHA.

The Department implemented these provisions of the 1983 Act in related documents published in the **Federal Register** on April 11, 1984 (see 49 FR 14332, 14335, 14336), effective May 22, 1984. These documents amended the Department's rules to codify the procedure of announcing high-cost mortgage limits for single-family residences, condominiums, combination manufactured homes and lots and manufactured home lots by notice in the **Federal Register** (see the April 11, 1984 documents, amending 24 CFR 201.1504, 203.18b, 203.29, 234.27, and 234.49). In addition, the documents codified the procedure whereby a party may request an alternative mortgage limit (see the same sections cited above).

On May 22, 1984, the Department published a revised list of areas eligible for "high-cost" mortgage limits, which contained several new features. (See 49 FR 21520.) First, there was no separate listing for condominium units, since these limits are not the same as those for other one-family residences. Second, the listing included instructions on how to compute the high-cost limits for combination manufactured homes and lots and individual lots, and specified the special high-cost amounts for manufactured homes, combination manufactured homes and lots and individual lots insured in Alaska, Guam and Hawaii. And, third, it made changes to the list based on a new definition of "metropolitan area".

On December 6, 1984 (49 FR 47657) and May 8, 1985 (50 FR 19341), the Department published amendments to the "high-cost" mortgage amounts that added additional areas and further increased the limits of several previously designated high-cost areas.

This Document

In this document, the Department publishes its entire list of high-cost areas with applicable mortgage limits. It incorporates the updates published on December 6, 1984 (49 FR 47657) and May 8, 1985 (50 FR 19341).

In addition, it adds the following new high-cost areas, with applicable limits: Hamilton County, IN; Hendricks County, IN; Johnson County, IN; Marion County, IN; Lafayette Parish, LA; Feller County, CO; Fargo-Moorhead, ND–MN MSA; Sedgwick County, KS; Minnehaha County, SD; Lincoln County, SD; Pennington County, SD; Meade County, SD; Lowndes County, MS; and Galveston County, TX.

It further increases the limits for the following existing high-cost areas; Hillsborough County, NH; Bristol County, MA; Essex County, MA; Middlesex County, MA; Norfolk County, MA; Plymouth County, MA; Suffolk County, MA; Worcester County, MA; Fairfield County, CT; New Haven County, CT; Litchfield County, CT; Richmond-Petersburg, VA MSA; Salt Lake City-Ogden, UT MSA; and Phoenix, AZ MSA.

These high-cost limits are effective July 24, 1985 and supersede other published amounts in effect, to the extent they are inconsistent with figures appearing in this document.

The listing of high-cost areas appears in two parts. Part I explains high-cost limits for mortgatges insured under Title I of the National Housing Act. Part II lists each high-cost area, with applicable limits for single family residences (including condominiums) insured under sections 203(b), 234(c) and 214 of the National Housing Act.

List of Subjects

24 CFR Part 201

Fire prevention, Health facilities, Historic preservation, Home improvement, Loan programs—housing and community development, Manufactured homes, Reporting and recordkeeping requirements.

24 CFR Part 203

Home improvement, Loan programs—housing and community development, Mortgage insurance, Reporting and recordkeeping requirements, Solar energy.

24 CFR Part 234

Mortgage insurance, Reporting and recordkeeping requirements.

Accordingly, the Department publishes the revised dollar limitations as follows:

National Housing Act High Cost Mortgage Limits

I. Title I: Method of Computing Limits

A. Section 2(b)(1)(D). Combination manufactured home and lot (excluding Alaska, Guam and Hawaii):

To determine the high-cost limit for a combination manufactured home and lot loan, multiply the dollar amount in the "one family" column of Part II of this list by .80. For example, the first entry, Bristol County, MA, has a one-family limit of $90,000. The combination home and lot loan limit for Bristol County is $90,000×.80, or $72,000.

B. Section 2(b)(1)(E): Lot only (excluding Alaska, Guam and Hawaii):

To determine the high-cost limit for a lot loan, multiply the dollar amount in the "one-family" column of Part II of this list by .20. For example, the first entry, Bristol County, MA, has a one-family limit of $90,000. The lot only loan limit for Bristol County is $90,000×.20, or $18,000.

C. Section 2(b)(2). Alaska, Guam and Hawaii limits:

The maximum dollar limits for Alaska, Guam and Hawaii may be 140% of the statutory loan limits set out in section 2(b)(1).

Accordingly, the dollar limits for Alaska, Guam and Hawaii are as follows:

1. For manufactured homes: $56,700. ($40,500×140%).

2. For combination manufactured homes and lots: $75,600. ($54,000×140%).

3. For lots only: $18,900. ($13,500×140%).

II. Title II

Janet Hale,

Acting General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

[FR Doc. 85-17539 Filed 7-23-85; 8:45 am]

BILLING CODE 4210-27-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 602

[T.D. 8040]

Information Returns Required of Certain Foreign-owned Corporations, and Information Returns Required of United States Persons With Respect to Certain Foreign Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final Income Tax Regulations relating to information returns required of United States persons with respect to certain foreign corporations, and information returns required of certain foreign-owned corporations with respect to transactions with related corporations, under sections 6038 and 6038A, respectively, of the Internal Revenue Code of 1954. These regulations set forth the requirements for who must report, the information required to be reported, the time and manner for filing the information returns, and penalties for failure to report information. Changes to the applicable tax law were made by the Tax Equity and Fiscal Responsibility Act of 1982. These regulations provide the public with the guidance needed to comply with that Act.

DATES: Effective August 24, 1985. The amendments under section 6038 with respect to penalties are applicable for information required with respect to annual accounting periods of the foreign corporations ending after September 3, 1982. The remaining amendments under setion 6038 are applicable for taxable years beginning after August 23, 1985. The amendments under section 6038A are applicable for taxable years beginning after December 31, 1983.

FOR FURTHER INFORMATION CONTACT: Charles C. Saverude of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224, (Attention: CC:LR:T) (202-566-3323, not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

On December 19, 1983, the Federal Register published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 6038 and 6038A of the Internal Revenue Code of 1954 (48 FR 56076). These amendments were proposed to conform the regulations to changes made to section 6038 and the addition of section 6038A by sections 338 and 339 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 631). A public hearing was held on March 29, 1984. After consideration of all comments regarding the proposed amendments, the amendments as set forth below are adopted by this Treasury decision.

Discussion of Comments and Changes From Proposed Amendments

Sections 1.6038-2 and 1.6038A-1

Two commentors suggested that a reporting person who has "substantially complied" with the reporting rules should not be penalized for errors or omissions. In both § 1.6038-2 and § 1.6038A-1, an explicit statement to that effect is not needed because "substantial compliance," as well as other factors, may be considered in determining whether reasonable cause existed for failure to furnish some information if a penalty for such a failure is asserted. However, a provision relating to "substantial compliance" has been retained, slightly modified for clarification, in § 1.6038-2(k)(3), and the same language has been added to § 1.6038A-1(f)(3)(ii) for foreign-owned corporations. The Service anticipates that the broad range of estimates and descriptions allowed in § 1.6038A-1 for reporting of transactions will prevent most inadvertent errors from causing a technical violation if the reporting corporation has made a reasonable effort to comply.

The filing requirements for information returns under sections 6038 and 6038A have also been changed to require that duplicate returns be filed with the Philadelphia Service Center. This will facilitate use of the information in a centralized statistical analysis program (in addition to its use in audits), without the delays and additional costs to the Service of sorting, duplicating, and transferring the information received in the regional service centers for a second use in Philadelphia.

Section 1.6038-2

One comment criticized the proposal to allow other information to be required by forms. The commentor suggested that any requirement to provide additional information should be subject to notice and public comment procedures. The regulation has been modified to allow changes in the form or manner in which the prescribed information is to be reported, or to allow some items of information to be deleted, by the form, without allowing the form to require additional information.

Section 1.6038A-1

Changes have been made in paragraphs (a) and (b) to allow a group of corporations filing a consolidated income tax return to file Form 5472 on a consolidated basis, and to eliminate reporting with respect to transactions within the group. However, a reporting corporation (or group) is still required to file separately with respect to each related corporation with which it has transactions. Two commentors suggested that it might be easier to file one form (or one computer listing) for all related-corporation transactions, with details attached on a company-by-company basis if necessary. In the Service's view, adoption of that suggestion would not significantly reduce any burden of compliance, but it would reduce the usefulness of the information to the Service.

Two commentors suggested that the Service not require annual reporting of information, but rather collect it on a sample basis. This suggestion has not been adopted. Other commentors suggested that information reporting should not be required under section 6038A when a transaction must also be reported under section 6038. This suggestion has been adopted in paragraph (a)(3).

Paragraph (b)(1), defining "reporting corporation," contains an exception from reporting for corporations having no income subject to U.S. taxation. Several commentors felt that the exception should be clarified and expanded in various ways. That exception has been revised to include more situations in which reporting may not be particularly useful to the Internal Revenue Service. Banks are now excepted from reporting, as are other foreign corporations having no income except income subject to withholding or exempt from tax under the provisions of an income tax treaty.

A sentence has been added to the example in paragraph (b)(2), defining control to explain that control is attributed directly rather than proportionately, once the 50 percent ownership threshold is met.

Paragraph (b)(3) has been changed to clarify that the term "foreign person" includes a foreign government or government agency.

The definition of "related corporation" has been narrowed to eliminate reporting of transactions between corporations that join in filing a consolidated income tax return.

In paragraph (c)(1), several items of information concerning the related corporation have been deleted in response to comments that the information required was overly burdensome or not readily available to the reporting corporation. All of the items of information listed in the proposed regulations were carefully considered, and those items that are retained have been determined to be the information most necessary to the Internal Revenue Service. One commentor suggested that some of the required information may be unavailable to the reporting corporation. Inability to obtain information may be reasonable cause for failure to provide that information. If the reporting corporation shows reasonable cause for failure to provide any information, paragraph (f)(3) provides procedures for avoiding imposition of penalties.

Paragraph (c)(2) has been revised to allow the form to change the manner in which information is reported without allowing it to require new information.

In response to comments that the reporting of transactions in exact amounts would be extremely burdensome, unnecessary, and subject to potentially severe penalties for monor errors, paragraph (c)(2) has been revised to allow reporting by reasonable estimates. The term "reasonable estimate" is defined in paragraph (c)(2)(iv), providing permissible percentages of variation and a simple method for reporting small amounts, as well as allowing a reporting corporation to show by facts and circumstances that its estimates were reasonable, if not within the ranges provided.

Two comments suggested that more types of reportable service transactions were listed in paragraph (c)(2)(i)(E) than in § 1. 6038-2 (f)(11)(iv), producing a reporting burden that would discriminate against foreign-owned corporations in violation of income tax treaties. While the Service does not agree that the difference in reporting requirements would violate income tax treaty provisions, this item has nonetheless been changed to duplicate the services listed in § 1.6038-2 to avoid any appearance of discrimination.

One commentor requested that the regulations provide guidance with respect to the method for reporting amounts loaned or borrowed. In response to this, a new sentence has been added at the end of paragraph

VOL
50
ISS
142
JL
24
1985
UMI

(c)(2)(i) to provide a method for reporting those amounts, and to allow that method to be changed by forms.

A suggestion that banking transactions entered into on behalf of customers should be excluded from the information to be reported has not been adopted because banks have been excluded from reporting in general. A similar suggestion was made to exclude transactions by brokers and insurance companies on behalf of customers. This suggestion has not been adopted.

The requirements in paragraph (c)(2)(ii) for reporting transactions involving non-monetary consideration or no consideration have been revised to allow more flexibility in the manner in which transactions may be described. A description may be provided for a single transaction or a group of similar or related transactions. While a description should include all property and services transferred, the essential requirement is that it include sufficient information from which to determine the substance and size of the transaction. In reporting the value of these transactions, the reasonable estimate rules (discussed above) apply. These liberalized requirements are intended to permit one fairly brief description to be used to report a pattern of transactions for which no individual records are kept because the transactions are considered too insignificant to require compensation or because they are performed on a reciprocal basis. Also, a sentence has been added at the end of paragraph (c)(2)(ii) to clarify that description of transactions under that subdivision are not required merely because the transaction involves a transfer of some intangible property in connection with tangible property for which monetary consideration is paid or received. A transaction fitting that description may be reported under paragraph (c)(2)(i), which only requires the reporting of a dollar amount.

In paragraph (c)(2)(iii), the exception for transactions that are not required to be reported has also been expanded and simplified, and now includes nonrecognition transactions, such as like-kind exchanges under section 1031.

Two comments stated that reporting of amounts in U.S. dollars, with exchange rates used, would be irrelevant, unnecessary and unduly burdensome in light of constantly changing exchange rates. It is precisely because of changing exchange rates that the rates used are relevant and necessary. Since a rate of exchange must be used in order to translate one currency into another, the reporting corporation will always have this information.

One commentor suggested that these information returns should not be due until 6 months after the reporting corporation's income tax return is filed. The information returns are required to be filed with the income tax return because they will be used with the income tax return to determine certain areas for which closer examination may be appropriate during an audit. Separate filing would require the Internal Revenue Service to match these information returns with the reporting corporation's tax returns. Therefore, the suggestion has not been adopted.

A few commentors proposed that no reporting should be required for past years, or that reports for those years should be made in an abbreviated fashion. These final regulations require reporting for all taxable years beginning after December 31, 1983. Reporting is not required for taxable years beginning before January 1, 1984. The reasonable estimate rule for reporting amounts of transactions should help to reduce the burden of compiling information on past transactions. Information returns for taxable years ending before July 24, 1985 must be filed by November 21, 1985, or, if later, with the reporting corporation's tax return for the same taxable year.

Paragraph (f)(1) has been revised to clarify that the penalty for failure to furnish information only applies once with respect to each related corporation for each year that a report is required. Suggestions that a "substantial compliance" exception should be added to the penalty provisions have been adopted, as discussed previously. In addition, the "reasonable estimate" provisions of the reporting requirements operate, in effect, quite similarly to the substantial compliance provision to prevent imposition of a penalty if a reporting corporation has complied with those requirements. Another commentor suggested that the regulations should provide specific guidelines for determining reasonable cause for failing to provide information, for the purpose of avoiding the penalty provided. For example, the comment suggested that a reporting corporation would not know and would not be able to determine whether it was dealing with a related corporation, and therefore the regulations should provide rules specifically excepting that reporting corporation from the penalty provisions. The final regulations do not include any specific guidelines or exceptions for determining whether a failure to provide information was due to reasonable cause. This determination must be based on the facts and circumstances of each individual case. Specific guidelines may be helpful in some cases but not in others because a failure may be due to reasonable cause under some facts but not under other similar facts.

Certification of Nonapplicability of Regulatory Flexibility Act of 1980 and Executive Order 12291

The Secretary of the Treasury has certified that these regulations will not have a significant economic impact on a substantial number of small entities and are, therefore, not subject to the requirements of the Regulatory Flexibility Act of 1980 (5 U.S.C. chapter 6). Accordingly, a Regulatory Flexibility Analysis is not required and has not been prepared. These regulations will generally only affect United States persons that have significant holdings in foreign corporations and certain foreign-owned corporations that have transactions with related corporations. The Commissioner of Internal Revenue has determined that these regulations are not major regulations subject to Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required and has not been prepared.

Paperwork Reduction Act

The collection of information contained in these regulations has been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under control number 1545–0805.

Drafting Information

The principal author of these regulations is David J. Dean of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service.

However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

PART 1—[AMENDED]

Income Tax Regulations

Paragraph 1. The authority cite for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805, 26 U.S.C. 6038 and 26 U.S.C. 6038A. • • •

Sections 1.6038–2 and 1.6038A–1 also issued under 26 U.S.C. 6038 and 6038A.

Par. 2. Section 1.6038–2 is revised to read as follows:

§ 1.6038–2 Information returns required of United States persons with respect to annual accounting periods of certain foreign corporations beginning after December 31, 1962.

(a) *Requirement of return.* Every U.S. person shall make a separate annual information return with respect to each annual accounting period (described in paragraph (e) of this section) beginning after December 31, 1962, of each foreign corporation which that person controls (as defined in paragraph (b) of this section) for an uninterrupted period of 30 days or more during such annual accounting period. Such information shall not be required to be furnished, however, with respect to a corporation defined in section 1504(d) of the Code which makes a consolidated return for the taxable year. The return shall be made, with respect to annual accounting periods ending with or within the United States person's taxable year, on—

(1) Form 2952 if such taxable year ends before December 31, 1982,

(2) Form 5471 if such taxable year ends on or after December 31, 1983, or

(3) Either Form 5471 or Form 2952 if such taxable year ends on or after December 31, 1982 and before December 31, 1983.

(b) *Control.* A person shall be deemed to be in control of a foreign corporation if at any time during that person's taxable year it owns stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of shares of all classes of stock of the foreign corporation. A person in control of a corporation which, in turn, owns more than 50 percent of the combined voting power, or of the value, of all classes of stock of another corporation is also treated as being in control of such other corporation. The provisions of this paragraph may be illustrated by the following example:

Example. Corporation A owns 51 percent of the voting stock in Corporation B. Corporation B owns 51 percent of the voting stock in Corporation C. Corporation C in turn owns 51 percent of the voting stock in Corporation D. Corporation D is controlled by Corporation A.

(c) *Attribution rules.* For the purpose of determining control of domestic or foreign corporations the constructive ownership rules of section 318(a) shall apply except that:

(1) Stock owned by or for a partner or a beneficiary of an estate or trust shall not be considered owned by the partnership, estate, or trust when the effect is to consider a United States person as owning stock owned by a person who is not a United States person;

(2) A corporation will not be considered as owning stock owned by or for a 50 percent or more shareholder when the effect is to consider a United States person as owning stock owned by a person who is not a United States person; and

(3) If 10 percent or more in value of the stock in a corporation is owned, directly or indirectly, by or for any person, section 318(a)(2)(C) shall apply.

The constructive ownership rules of section 318(a) apply only for purposes of determining control as defined in paragraph (b) of this section.

(d) *U.S. person.* For purposes of section 6038 and this section, the term "United States person" has the meaning assigned to it by section 7701(a)(30) of the Code, except that—

(1) With respect to a corporation organized under the laws of the Commonwealth of Puerto Rico, such term does not include an individual who is a bona fide resident of Puerto Rico, if a dividened received by such individual during the taxable year from such corporation would be excluded from gross income under section 933(1),

(2) With respect to a corporation organized under the laws of the Virgin Islands, such term does not include an individual who is a bona fide resident of the Virgin Islands and whose income tax obligation under subtitle A (relating to income taxes) of the Code for the taxable year is satisfied pursuant to section 28(a) of the Revised Organic Act of the Virgin Islands, approved July 22, 1954 (48 U.S.C. 1842), by paying tax on income derived from all sources both within and outside the Virgin Islands into the treasury of the Virgin Islands,

(3) With respect to a corporation organized under the laws of Guam or the Northern Mariana Islands, such term does not include an individual who is a bona fide resident of Guam or the Northern Mariana Islands, respectively, and who is relieved of liability for income tax to the United States under section 935(c)(3) of the Code or section 601 of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (Pub. L. 94–241), respectively, for such individual's taxable year referred to in paragraph (e) of this section, and

(4) With respect to a corporation organized under the laws of any possession of the United States (other than Guam, the Northern Mariana Islands, Puerto Rico, or the Virgin Islands), such term does not include an individual who is a bona fide resident of such possession for the entire taxable year and whose income derived from sources within any possession of the United States is not, by reason of section 931(a), includible in gross income under subtitle A (relating to income taxes) of the Code for the taxable year.

An individual for whom an election under section 6013 (g) or (h) is in effect shall, subject to the exceptions contained in this paragraph (d), be considered a United States person for purposes of section 6038 and this section.

(e) *Period covered by return.* The information required under paragraphs (f) and (g) of this section with respect to a foreign corporation shall be furnished for the annual accounting period of the foreign corporation ending with or within the United States person's taxable year. For purposes of this section, the annual accounting period of a foreign corporation is the annual period on the basis of which that corporation regularly computes its income in keeping its books. The term "annual accounting period" may refer to a period of less than one year, where, for example, the foreign income, war profits, and excess profits taxes are determined on the basis of an accounting period of less than one year as described in section 902(c)(2). If more than one annual accounting period ends with or within the United States person's taxable year, separate annual information returns shall be submitted for each annual accounting period.

(f) *Contents of return.* The return on Form 2952 or Form 5471 shall contain so much of the following information, and in such form or manner, as the form shall prescribe with respect to each foreign corporation:

(1) The name, address, and employer identification number, if any, of the corporation;

(2) The principal place of business of the corporation;

(3) The date of incorporation and the country under whose laws incorporated;

(4) The name and address of the foreign corporation's statutory or

VOL
50
ISS
142
JL
24
1985
UMI

resident agent in the country of incorporation;

(5) The name, address, and identifying number of any branch office or agent of the foreign corporation located in the United States;

(6) The name and address of the person (or persons) having custody of the books of account and records of the foreign corporation, and the location of such books and records if different from such address;

(7) The nature of the corporation's business and the principal places where conducted;

(8) As regards the outstanding stock of the corporation—

(i) A description of each class of the corporation's stock, and

(ii) The number of shares of each class outstanding at the beginning and end of the annual accounting period;

(9) A list showing the name, address, and identifying number of, and the number of shares of each class of the corporation's stock held by, each United States person who is a shareholder owning at any time during the annual accounting period 5 percent or more in value of any class of the corporation's outstanding stock;

(10) For the annual accounting period, the amount of the corporation's:

(i) Current earnings and profits;

(ii) Foreign income, war profits, and excess profits taxes paid or accrued;

(iii) Distributions out of current earnings and profits for the period; and

(iv) Distributions other than those described in paragraph (f)(10)(iii) of this section and the source thereof: and

(11) A summary showing the total amount of each of the following types of transactions of the corporation, which took place during the annual accounting period, with the person required to file this return, any other corporation controlled by that person, or any United States person owning at the time of the transaction 10 percent or more in value of any class of stock outstanding of the foreign corporation, or of any corporation controlling that foreign corporation:

(i) Sales and purchases of stock in trade;

(ii) Purchases of tangible property other than stock in trade;

(iii) Sales and purchases of patents, inventions, models, or designs (whether or not patented), copyrights, trademarks, secret formulas or processes, or any other similar property rights;

(iv) Compensation paid and compensation received for the rendition of technical, managerial, engineering, construction, scientific, or like services;

(v) Commission paid and commissions received;

(vi) Rents and royalties paid and rents and royalties received;

(vii) Amount loaned and amounts borrowed (except open accounts resulting from sales and purchases reported under other items listed in this paragraph (f)(11) that arise and are collected in full in the ordinary course of business);

(viii) Dividends paid and dividends received;

(ix) Interest paid and interest received; and

(x) Premiums received for insurance or reinsurance.

For purposes of paragraph (f)(11) of this section, if the United States person is a bank, as defined in section 581, or is controlled within the meaning of section 368(c) by a bank, the term "transactions" shall not, as to a corporation with respect to which a return is filed, include banking transactions entered into on behalf of customers; in any event, however, deposits in accounts between a foreign corporation, controlled (within the meaning of paragraph (b) of this section) by a United States person, and a person described in paragraph (f)(11) of this section and withdrawals from such accounts shall be summarized by reporting end-of-month balances.

(g) *Financial statements.* The following information with respect to the foreign corporation shall be attached to and filed as part of the return required by this section:

(1) A statement of the corporation's profit and loss for the annual accounting period;

(2) A balance sheet as of the end of the annual accounting period of the corporation showing—

(i) The corporation's asset;

(ii) The corporation's liabilities; and

(iii) The corporation's net worth; and

(3) An analysis of changes in the corporation's surplus accounts during the annual accounting period including both opening and closing balances.

The information listed in this paragraph (g) shall be prepared in conformity with generally accepted accounting principles, and in such form and detail as is customary for the corporation's accounting records.

(h) *Method of reporting.* All amounts furnished under paragraphs (f) and (g) of this section shall be expressed in United States currency with a statement of the exchange rates used. All statements submitted on or with the return required under this section shall be rendered in the English language.

(i) *Time and place for filing return.* Returns on Form 2952 or Form 5471 required under paragraph (a) of this section shall be filed with the United States person's income tax return on or before the date required by law for the filing of that person's income tax return. District directors and directors of service centers are authorized to grant reasonable extensions of time for filing returns on Form 2952 or Form 5471 in accordance with the applicable provisions of § 1.6081–1 of this chapter. An application for an extension of time for filing a return of income shall also be considered as an application for an extension of time for filing returns on Form 2952 or Form 5471.

(j) *Two or more persons required to submit the same information*—(1) *Return jointly made.* If two or more persons are required to furnish information with respect to the same foreign corporation for the same period, such persons may, in lieu of making separate returns, jointly make one return. Such joint return shall be filed with the income tax return of any one of the persons making such joint return.

(2) *Persons excepted from furnishing information*—(i) *Conditions.* Any person required to furnish information under this section with respect to a foreign corporation need not furnish that information provided all of the following conditions are met:

(A) Such person does not directly own an interest in the foreign corporation;

(B) Such person is required to furnish the information solely by reason of attribution of stock ownership from a United States person under paragraph (c) of this section; and

(C) The person from whom the stock ownership is attributed furnishes all of the information required under this section of the person to whom the stock ownership is attributed.

(ii) *Illustrations.* The rule of this paragraph (j)(2) is illustrated by the following examples:

Example (1). A, a U.S. person owns 100 percent of the stock of M, a domestic corporation. A also owns 100 percent of the stock of N, a foreign corporation organized under the laws of foreign country Y. A, in filing the information return required by this section with respect to N Corporation, in fact furnishes all of the information required of M Corporation with respect to N Corporation. M Corporation need not file the information.

Example (2). X, a domestic corporation owns 100 percent of the stock of Y, a domestic corporation, Y Corporation owns 100 percent of the stock of Z, a foreign corporation. X Corporation is not excused by this paragraph (j)(2) from filing information with respect to Z Corporation because X Corporation is deemed to control Z Corporation under the provisions of paragraph (b) of this section without recourse to the attribution rules in paragraph (c) of this section.

(3) *Statement required.* Any United States person required to furnish information under this section with his return who does not do so by reason of the provisions of paragraph (j)(1) or (j)(2) of this section shall file a statement with his income tax return indicating that such liability has been (or, in the case of a joint return made under paragraph (j)(1) of this section, will be) satisfied and identifying the return with which the information was or will be filed and the place of filing.

(k) *Failure to furnish information*—(1) *Dollar amount penalty*—(i) *In general.* If any person required to file Form 2952 or Form 5471 under section 6038 and this section fails to furnish any information described in paragraphs (f) and (g) of this section within the time prescribed by paragraph (i) of this section, such person shall pay a penalty of $1,000 for each annual accounting period of each foreign corporation with respect to which such failure occurs.

(ii) *Increase in penalty for continued failure after notification.* If a failure described in paragraph (k)(1)(i) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to the person required to file Form 2952 or Form 5471, such person shall pay a penalty of $1,000, in addition to the penalty imposed by section 6038(b)(1) and paragraph (k)(1)(i) of this section, for each 30-day period (or fraction thereof) during which such failure continues after such 90-day period has expired. The additional penalty imposed by section 6038(b)(2) and this paragraph (k)(1)(ii) shall be limited to a maximum of $24,000 for each failure.

(iii) *Effective date.* The penalty imposed by section 6038(b) and this paragraph (k)(1) shall apply with respect to information for annual accounting periods ending after September 3, 1982.

(2) *Penalty of reducing foreign tax credit*—(i) *Effect on foreign tax credit.* Failure of a United States person to furnish, in accordance with the provisions of this section, any return or any information in any return, required to be filed for a taxable year under authority of section 6038 on or before the date prescribed in paragraph (i) of this section may affect the application of section 901 as provided in paragraph (k)(2)(ii) of this section and may affect the application of sections 902 and 960 as provided in paragraph (k)(2)(iii) of this section. Such failure may affect the application of sections 902 and 960 to any such United States person which is a corporation or to any person who acquires from any other person any portion (but only to the extent of such portion) of the interest of such other person in any such foreign corporation.

(ii) *Application of section 901.* In the application of section 901 to a United States person referred to in paragraph (k)(2)(i) of this section, the amount of taxes paid or deemed paid by such person for any taxable year, with or within which the annual accounting peroid of a foreign corporation for which such person failed to furnish information required under this section ended, may be reduced by 10 percent. However, no tax reduced under paragraph (k)(2)(iii) of this section or deemed paid under section 904(c) shall be reduced under the provisions of this paragraph (k)(2)(ii).

(iii) *Application of sections 902 and 960.* In the application of sections 902 and 960 to a United States person referred to in paragraph (k)(2)(i) of this section for any taxable year, the amount of taxes paid or deemed paid by each foreign corporation for the accounting period or periods for which such person was required for the taxable year of the failure to furnish information under this section may be reduced by 10 percent. The 10-percent reduction is not limited to the taxes paid or deemed paid by the foreign corporation with respect to which there is a failure to file information but may apply to the taxes paid or deemed paid by all foreign corporations controlled by that person. In applying subsections (a) and (b) of section 902, and in applying subsection (a) of section 960, the reduction provided by this paragraph (k)(2) shall not apply for purposes of determining the amount of accumulated profits in excess of income, war profits, and excess profits taxes.

(iv) *Reduction for continued failure after notice.* (A) If the failure referred to in paragraph (k)(2)(i) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to such United States person, then the amount of the reduction referred to in paragraph (k)(2) (ii) and (iii) of this section may be 10 percent plus an additional 5 percent for each 3-month period, or fraction thereof, during which such failure continues after the expiration of such 90-day period.

(B) No taxes shall be reduced under this paragraph (k)(2) more than once for the same failure. Taxes paid by a foreign corporation when once reduced for a failure shall not be reduced again for the same failure in their status as taxes deemed paid by a corporate shareholder. Where a failure continues, each additional periodic 5-percent reduction, referred to in paragraph (k)(2)(iv)(A) of this section, shall be considered as part of the one reduction.

(v) *Limitation on reduction of foreign tax credit.* The amount of the reduction under this paragraph (k)(2) for each failure to furnish information with respect to a foreign corporation as required under this section shall not exceed the greater of:

(A) $10,000, or

(B) The income of the foreign corporation for its annual accounting period with respect to which the failure occurs. For purposes of this section if a person is required to furnish information with respect to more than one foreign corporation, controlled (within the meaning of paragraph (b) of this section) by that person, each failure to submit information for each such corporation constitutes a separate failure.

(vi) *Offset for dollar amount penalty imposed.* The total amount of the reduction or reductions which, but for this paragraph (k)(2)(vi), may be made under this paragraph (k)(2) with respect to any separate failure, shall not exceed the maximum amount of such reductions which may be imposed, reduced (but not below zero) by the amount of the dollar amount penalty imposed by paragraph (k)(1) of this section with respect to such separate failure.

(3) *Reasonable cause*—(i) For purposes of section 6038 (b) and (c) and this section, the time prescribed for furnishing information under paragraph (i) of this section, and the beginning of the 90-day period after mailing of notice by the district director under paragraph (k)(1)(ii) and (k)(2)(iv)(A) of this section, shall be treated as being not earlier than the last day on which reasonable cause existed for failure to furnish the information.

(ii) To show that reasonable cause existed for failure to furnish information as required by section 6038 and this section, the person required to report such information must make an affirmative showing of all facts alleged as reasonable cause for such failure in a written statement containing a declaration that it is made under the penalties of prejury. The statement must be filed with the district director for the district or the director of the service center where the return is required to be filed. The district director or the director of the service center shall determine whether the failure to furnish information was due to reasonable cause, and if so, the period of time for which such reasonable cause existed. In the case of a return that has been filed as required by this section except for an omission of, or error with respect to, some of the information required, if the

VOL
50
ISS
142
JL
24
1985
UMI

person who filed the return establishes to the satisfaction of the district director or the director of the service center that the person has substantially complied with this section, then the omission or error shall not constitute a failure under this section.

(4) *Other penalties.* The information required by section 6038 and this section must be furnished even though there are no foreign taxes which would be reduced under the provisions of this section, and even though the information required may not affect the amount of any tax due under the Internal Revenue Code. For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207 of the Code.

(5) *Illustrations.* The provisions of this paragraph may be illustrated by the following examples.

Example (1). M, a domestic corporation owns 100 percent of the stock of N, a foreign corporation. Both M and N use the calendar year as a taxable year and annual accounting period, and all of the following events occur in or with respect to the 1980 taxable year. The dividend from N is the only dividend from a foreign corporation received by M during the taxable year, and the foreign taxes listed are the only foreign taxes paid or deemed paid by M and N for the taxable year. On March 15, 1981, M filed its income tax return and paid its income tax, but M did not file Form 2952 with respect to N's 1980 annual accounting period. On June 1, 1981, the district director mailed notice to M of M's failure to file Form 2952 with respect to N. On November 30, 1981, M filed a complete Form 2952 with respect to N's 1980 annual accounting period.

(a) Gains, profits, and income of N	$100,000
(b) Foreign tax paid by N with respect to such gains, profits, and income	40,000
(c) Reduction of foreign tax paid by N (for purposes of M's section 902 deemed paid credit) resulting from M's failure to file information with respect to N as required under section 6038(a) and this section: failure to file within the time prescribed in paragraph (i) of this section, 10-percent reduction; continued failure for one additional 3-month period after 90-day period after notice mailed, 5-percent reduction; total reduction, 15 percent ($40,000 times 15 percent)	6,000
(d) Foreign tax paid by N after section 6038(c)(1)(B) reduction	34,000
(e) Dividend paid by N to M	45,000
(f) Accumulated profits of N as defined in section 902(c)(1) (determined without regard to the section 6038(c)(1)(B) reduction)	100,000
(g) Accumulated profits of N as described in section 902(a) (determined without regard to the section 6038(c)(1)(B) reduction)	60,000
(h) For purposes of the section 902 credit, M is deemed to have paid the same proportion of foreign taxes paid (reduced as provided under section 6038(c)) with respect to the accumulated profits described in section 902(a) (determined without regard to the reduction provided under section 6038(c)) as the amount of the dividend (determined without regard to section 78) bears to such amount of accumulated profits	25,500

$(45,000 \div 60,000) \times 34,000 = 25,500$

M must include $25,500 in gross income as a dividend under the provisions of section 78 of the Code. This example illustrates that the reductions in foreign taxes paid by the foreign corporation provided under section 6038(c) are taken into account in determining the amount included in gross income of the domestic corporation under section 78 of the Code as foreign taxes deemed paid, but such reductions are not taken into account in computing accumulated profits for purposes of determining the portion of foreign taxes deemed paid with respect to a particular dividend. The dollar amount penalty imposed by section 6038 (b) and paragraph (k)(1) of this section does not apply with respect to information for annual accounting periods ending before September 4, 1982, and therefore does not apply to M with respect to M's failure to file Form 2952 in this example.

Example (2). The facts are the same as in example (1) except that all of the events occur in or with respect to the 1982 taxable year. On March 15, 1983, M filed its income tax return and paid its income tax, but M did not file Form 2952 or Form 5471 with respect to N's 1982 annual accounting period. On June 1, 1983, the district director mailed notice to M of M's failure to file Form 2952 or Form 5471 with respect to N. On November 30, 1983, M filed a complete Form 5471 with respect to N's 1982 annual accounting period. Under paragraph (k)(1)(i) of this section, M is subject to a penalty of $1,000. Under paragraph (k)(1)(ii) of this section, that penalty is increased by $4,000 because the failure continued for 92 days (three full 30-day periods and a fraction of a fourth 30-day period) after the end of the 90-day period following mailing of the notice by the district director bringing M's dollar amount penalty under paragraph (k)(1) of this section to $5,000. For purpose of determining the foreign tax credit available to M, there may be imposed a reduction of foreign tax paid by N of $6,000, which would be the total of reductions under paragraph (k)(2) of this section with respect to M's failure to file under section 6038 for N's 1982 annual accounting period, before application of paragraph (k)(2)(vi) of this section. Under said paragraph (k)(2)(vi), the amount of the foreign tax reduction imposed is reduced by the amount of the dollar amount penalty, leaving a foreign tax reduction penalty of $1,000 which may be imposed in addition to the $5,000 dollar amount penalty. If imposed, the $1,000 tax reduction would then be applied in the calculation of taxes deemed paid by M under section 902 as in example (1), item (c), (d), and (h).

Par. 3 There is added after § 1.6038–2 the following new section.

§ 1.6038A–1 Information returns required of certain foreign-owned corporations.

(a) *Requirement of return*—(1) *In general.* Every corporation which at any time during its taxable year is a reporting corporation (described in paragraph (b)(1) of this section) shall make a separate annual information return on Form 5472 with respect to each related corporation (described in paragraph (b)(4) of this section) with which such reporting corporation has had any transaction of the types listed in paragraph (c)(2) of this section during such taxable year.

(2) *Consolidated returns.* If a reporting corporation is a member of an affiliated group of corporations filing a consolidated income tax return, it may join in filing information returns on Form 5472 on a consolidated basis. A consolidated Form 5472 shall be filed by the common parent corporation and shall be accompanied by a copy of the group's Form 851 (Affiliations Schedule), indicating which members listed thereon are reporting on the Form 5472. A member is not required to join in filing a consolidated Form 5472 merely because other members of the group choose to file one or more Forms 5472 on a consolidated basis.

(3) *Exception.* Notwithstanding paragraph (a)(1) of this section, a reporting corporation is not required to make a return of information on Form 5472 with respect to a related corporation for a taxable year for which a U.S. person that controls the reporting corporation makes a return of information on Form 5471 that is required under section 6038 and § 1.6038–2, if that return contains information required under § 1.6038–2 (f)(11) with respect to the transactions between the reporting corporation and the related corporation for that taxable year.

(b) *Definitions*—(1) *Reporting corporation*—(i) *In general.* For purposes of section 6038A and this section, a corporation is a reporting corporation if—

(A) It is a domestic corporation or is a foreign corporation engaged in a trade or business within the United States, and

(B) It is a controlled (as defined in paragraph (b)(2) of this section) by a foreign person.

(ii) *Exceptions.* Notwithstanding paragraph (b)(1)(i) of this section, a corporation is not a reporting corporation if—

(A) It has had no transactions of the types listed in paragraph (c)(2) during the taxable year with any related corporation,

(B) It has no gross income (determined without reference to losses) for the taxable year subject to United States taxation, other than a withholding tax under section 881 of the Code, or

(C) Its sole trade or business in the United States is a banking, financing, or similar business, as defined in § 1.864–4(c)(5)(i).

(iii) *Consolidated returns.* For purposes of paragraph (c)(1)(iv) of this section only, in the case of a group of reporting corporations filing a consolidated information return under this section the term "reporting corporation" means the common parent corporation (as shown on Form 851).

(2) *Control* (i) *Generally.* A corporation shall be deemed to be controlled by a foreign person if at any time during that corporation's taxable year such foreign person owns stock possessing at least 50 percent of the total combined voting power of all classes of outstanding stock of the corporation entitled to vote, or stock possessing at least 50 percent of the total value of outstanding shares of all classes of stock of the corporation. A corporation that is controlled (by this same test) by another corporation, which in turn, is controlled by a foreign person, is also treated as being controlled by such foreign person. The provisions of this paragraph (b)(2)(i) are illustrated by the following example:

Example F, a foreign person, owns 50 percent of the voting stock of X, a domestic corporation. X owns 50 percent of the total value of shares of all classes of stock of Y, also a domestic corporation. Y is controlled by F for purposes of section 6038A and this section. Thus, control is attributed directly under section 6038A (c)(1) and this section, rather than proportionately (as is stock ownership under section 318(a)(2) and paragraph (b)(2)(ii) of this section).

(ii) *Attribution rules.* For the purpose of determining ownership of stock of domestic or foreign corporations under section 6038A and this section, the constructive ownership rules of section 318(a) shall apply, except that section 318(a)(2)(C) shall be applied by substituting the phrase "10 percent" for the phrase "50 percent".

(3) *Foreign person.* For purposes of section 6038A and this section, a foreign person is—

(i) Any individual who is not a citizen or resident of the United States, but not including any individual for whom an election under section 6013 (g) or (h) is in effect;

(ii) Any individual who is a citizen of any possession of the United States but is not otherwise a citizen of the United States and is not a resident of the United States;

(iii) Any partnership, association, company, or corporation which is not created or organized in the United States or under the law of the United States or any State thereof;

(iv) Any foreign trust or foreign estate, as defined in section 7701(a)(31); or

(v) Any foreign government (or agency or instrumentality thereof).

(4) *Related corporation.* For purposes of section 6038A and this section, a related corporation is any corporation which is a member of the same controlled group (as defined in paragraph (b)(5) of this section) as the reporting corporation. The term "member" shall include any component member, excluded member, or additional member (as defined in section 1563(b)) of the controlled group. However, the term "related corporation" does not include any corporation filing a consolidated income tax return with the reporting corporation.

(5) *Controlled group.* For purposes of section 6038A and this section, the term "controlled group" has the meaning given to such term by § 1563(a), except that—

(i) Section 1563(a)(1) shall be applied by substituting the term "at least 50 percent" for the them "at least 80 percent" each time it appears;

(ii) Section 1563(a)(2)(B) shall be applied by substituting the term "at least 50 percent" for the term "more than 50 percent" each time it appears; and

(iii) Section 1563(a)(4), (b)(2)(C), and (e)(3)(C) shall not apply.

(c) *Contents of return*—(1) *The related corporation.* The return on Form 5472 shall contain such information as the form shall prescribe, with respect to each related corporation (whether foreign or domestic) with which the reporting corporation has had a transaction of the types listed in paragraph (c)(2) of this section during its taxable year, relating to:

(i) The name and address of the corporation;

(ii) The nature of the corporation's business or businesses and the principal place or places where conducted;

(iii) Each country in which the corporation treats itself as resident for purposes of the tax laws of the country; and

(iv) The relationship of the reporting corporation to the related corporation (such as reporting corporation controls related corporation, reporting corporation is controlled by related corporation, or reporting and related corporations are under common control).

(2) *Transactions with related foreign corporations*—(i) *Transactions for which monetary consideration was paid or received.* If the related corporation is a foreign corporation, the return on Form 5472 shall contain, with respect to transactions (other than transactions excepted by paragraph (c)(2)(iii) of this section) of the reporting corporation with the related corporation, in such form or manner as the form shall prescribe, a summary showing a reasonable estimate of the total dollar amount of each of the following types of transactions for which monetary consideration (U.S. currency and/or foreign currency) was the sole consideration paid or received, during the taxable year of the reporting corporation:

(A) Sales and purchases of stock in trade;

(B) Sales and purchases of tangible property other than stock in trade;

(C) Rents and royalties paid and received (other than amounts reported under paragraph (c)(2)(i)(D) of this section);

(D) Sales, purchases, and amounts paid and received as consideration for the use of intangible property such as copyrights, designs, fomulas, inventions, models, patents, processes, trademarks, and other similar property rights;

(E) Consideration paid and received for the rendition of technical, managerial, engineering, construction, scientific, or like services;

(F) Commissions paid and received;

(G) Amounts loaned and borrowed (except open accounts resulting from sales and purchases reported under other items listed in this paragraph (c)(2)(i) that arise and are collected in full in the ordinary course of business

(H) Interest paid and received;);

(I) Premiums paid and received for insurance and reinsurance.

Amounts required to be reported under paragraph (c)(2)(i)(G) of this section shall be reported as monthly averages or outstanding balances at the beginning and end of the taxable year, as the form shall prescribe.

(ii) *Transactions involving nonmonetary consideration or no consideration.* If the related corporation is a foreign corporation, the return on

VOL
50

1985
UMI

Form 5472 shall contain a description of any transaction, or group of transactions, listed in paragraph (c)(2)(i) of this section (other than transactions excepted by paragraph (c)(2)(iii) of this section), of the reporting corporation with the related corporation, for which any consideration paid or received was other than monetary consideration described in paragraph (c)(2)(i) of this section, or for which no consideration was paid or received. A description required under this paragraph (c)(2)(ii) shall include sufficient information from which to determine the substance and approximate size of the transaction or group of transactions, and should include—

(A) A description of all property (including monetary consideration), rights, or obligations transferred from the reporting corporation to the related corporation and from the related corporation to the reporting corporation,

(B) A description of all services performed by the reporting corporation for the related corporation and by the related corporation for the reporting corporation, and

(C) A reasonable estimate of the fair market value or a statement of the nature and importance of such property (other than money), rights, obligations, or services.

A transaction for which the entire consideration paid or received by one party was monetary consideration is not required to be described under this paragraph (c)(2)(ii) even though the transaction involved the transfer of both tangible and intangible property, as long as the transfer of the intangible property was related and incidental to the transfer of the tangible property (e.g., a right to warranty services).

(iii) *Exception.* This paragraph (c)(2) shall not apply to any transaction if neither party to the transaction is a United States person (as defined in section 7701(a)(30)) and the transaction—

(A) Does not give rise to any recognized income or gain which is from sources within the United States or which is effectively connected with the conduct of a trade or business within the United States, and

(B) Does not give rise to any expense, loss, or other deduction properly allocable or apportionable to such income.

(iv) *Reasonable estimate defined*—(A) *Estimate within 25 percent of actual amount.* Any amount reported under this section is considered a reasonable estimate if such amount is at least 75 percent and not more than 125 percent of the actual amount to which the amount reported relates.

(B) *Other estimates.* If any amount reported under this section fails to meet the reasonable estimate of paragraph (c)(2)(iv)(A) of this section, the reporting corporation may, nevertheless, show that such amount is a reasonable estimate by making an affirmative showing of relevant facts and circumstances in a written statement containing a declaration that it is made under the penalties of perjury. The statement must be filed with the district director or the director of the service center where the reporting corporation's income tax return and the return on Form 5472 were filed. The district director or the director of the service center shall determine whether the amount reported was a reasonable estimate.

(v) *Small amounts.* If any actual amount required to be reported under this section does not exceed $66,667, the amount may be reported as "$50,000 or less."

(vi) *Accrued payments and receipts.* For purposes of this section, in the case of an accrual basis taxpayer, the terms "paid" and "received" shall include accrued payments and receipts, respectively.

(d) *Method of reporting.* All statements required on or with the return on Form 5472 under this section shall be rendered in the English language. All amounts of consideration or value required to be reported under this section shall be expressed in terms of United States currency, with a statement of any exchange rates used.

(e) *Time and place for filing returns*—(1) *In general.* Returns on Form 5472 required under this section shall generally be filed with the reporting corporation's income tax return for the same taxable year, and the due date (including extensions) for filing that income tax return is the due date for filing Form 5472. However, if a reporting corporation's income tax return is not timely filed (including extensions), the return on Form 5472 shall be filed with the Internal Revenue Service Center with which the reporting corporation's income tax return is required to be filed, and shall be filed on or before the date required by law (including extensions of time) for filing of such income tax return.

(2) *Taxable years ending before July 24, 1985.* Returns on Form 5472 required under this section for any taxable year ending before July 24, 1985 shall be filed either with the reporting corporation's income tax return or with the Internal Revenue Service Center or the district director with which the reporting corporation's income tax return has been filed. Returns on Form 5472 for such taxable years shall be filed on or before November 21, 1985, or, if later, with the reporting corporation's income tax return for the same taxable year on or before the date required by law (including extensions of time) for the filing of such income tax return.

(3) *Duplicate filing required.* The reporting corporation shall file a duplicate copy of each Form 5472 (at the same time as the original copy is filed) with the Internal Revenue Service Center, Philadelphia, PA 19255.

(f) *Penalty for failure to furnish information*—(1) *In general.* If a corporation required to file Form 5472 under section 6038A and this section fails to furnish any information required under paragraph (c) of this section with respect to any related corporation, within the time prescribed by paragraph (e) of this section, such corporation shall pay a penalty of $1,000 for each taxable year with respect to which such information is not timely reported. This penalty shall only be imposed on a reporting corporation once for each related corporation for each taxable year for which a failure to furnish information occurs. For purposes of this paragraph (f)(1), each member of a group of corporations filing a consolidated information return is a separate reporting corporation.

(2) *Increase in penalty for continued failure after notification.* If a failure described in paragraph (f)(1) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to the reporting corporation, that corporation shall pay a penalty of $1,000, in addition to the penalty imposed by section 6038A(d)(1) and paragraph (f)(1) of this section, for each 30-day period (or fraction thereof) during which such failure continues after such 90-day period has expired. The additional penalty imposed by section 6038A(d)(2) and this paragraph (f)(2) shall be limited to a maximum of $24,000 for such continuing failure.

(3) *Reasonable cause*—(i) For purposes of section 6038A(d) and this section, the time prescribed for furnishing information under paragraph (e) of this section, and the beginning of the 90-day period after mailing of notice by the district director under paragraph (f)(2) of this section, shall be treated as being not earlier than the last day on which reasonable cause existed for failure to furnish the information.

(ii) To show that reasonable cause existed for failure to furnish information as required by section 6038A and this section, the reporting corporation must make an affirmative showing of all facts alleged as reasonable cause for such failure in a written statement containing a declaration that it is made under the penalties of perjury. The statement must be filed with the district director for the district or the director of the service center where the return is required to be filed. The district director or the director of the service center shall determine whether the failure to furnish information was due to reasonable cause, and if so, the period of time for which such reasonable cause existed. In the case of a return that has been filed as required by this section except for an omission of, or error with respect to, some of the information required, if the person who filed the return establishes to the satisfaction of the district director or the director of the service center that the person has substantially complied with this section, then the omission or error shall not constitute a failure under this section.

(4) *Other penalties.* The information required by section 6038A and this section must be furnished even though it may not affect the amount of any tax due under the Internal Revenue Code. For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207 of the Code.

(g) *Effective date.* This regulation is effective for taxable years beginning after December 31, 1963.

PART 602—[AMENDED]

Par. 4. The authority for Part 602 is as follows:

Authority: 26 U.S.C. 7805.

Par. 5. Section 602.101(c) is amended by inserting in the appropriate place in the table § 1.6038–2 . . . 1545–0805" and "1.6038A–1 . . . 1545–0805".

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Approved: July 2, 1985.

Ronald A. Pearlman,

Assistant Secretary of the Treasury.

37 CFR Part 201 and 202

[Docket RM 84–3]

Office Organization and Procedures in Providing Information

AGENCY: Library of Congress, Copyright Office.

ACTION: Final regulations.

SUMMARY: This notice is issued to inform the public that the Copyright Office of the Library of Congress is amending 37 CFR Parts 201 and 202, concerning Office organization and procedures in providing information. In view of the 1976 revision of the Copyright Act, the citation of the statutory authority for Parts 201 and 202 of the Copyright Office Regulations is being amended. Section 201.1 has been amended to give the addresses to which various kinds of requests to the Copyright Office should be directed. Section 201.2 explains the general information that can be obtained from the Copyright Office and prescribes the conditions under which records, correspondence, and deposit material may be inspected and copied.

EFFECTIVE DATE: July 24, 1985.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, U.S. Copyright Office, Library of Congress, Washington, D.C. 20559, (202) 287–8380.

SUPPLEMENTARY INFORMATION:

1. Statutory authority. The statutory authority under which Parts 201 and 202 have been promulgated has been amended to cite the relevant section in the Copyright Act of 1976 and to give the correct citation in the statutes at large.

2. Mailing addresses. Section 201.1 presently directs that all mail and other communications be sent to the Register of Copyrights at one address. This remains the address to be used when submitting applications for registration of claims to copyright, documents for recordation, and the vast majority of communications with the Copyright Office. However, for more expeditious handling of certain kinds of requests, the Copyright Office asks that those communications be sent directly to the particular Division or Section responsible for responding to the request. The Copyright Office has amended § 201.1 to include the additional addresses.

3. Information given by the Copyright Office. Section 201.2(a)(1) presently states that the Office does not give "legal opinions or advice." This has been interpreted and applied by the Office to mean that it will not act as an attorney for members of the general public. The Office does not give *specific* advice whether certain conduct actually constitutes copyright infringement. With respect to administration of the Copyright Act in general, however, the Copyright Office must and does, interpret the Act. The courts, of course, are the final arbiters of what the law means. The wording of the present regulation is misleading and could be misinterpreted to mean that the Office has no authority to give opinions or define legal terms in the Act. This would be contrary to the opinions in a number of cases in which courts have accorded weight to Office interpretations. In order to clarify its position, the Office has amended § 201.2(a) by adding a new paragraph (3) as follows:

(3) In the administration of the Copyright Act in general, the Copyright Office interprets the Act. The Copyright Office, however, does not give specific legal advice on the rights of persons, whether in connection with particular uses of copyrighted works, cases of alleged foreign or domestic infringement, contracts between authors and publishers, or other matters of a similar nature.

4. Inspection and copying of records. Section 201.2(b) is amended to reflect the Copyright Office's policy regarding public use of in-process files.

"In-process files" are those which the Copyright Office makes for its own immediate internal use in connection with pending applications for registration or the recordation of documents and which are preliminary to the completion of the public record. These files include the Receipt-in-Process Records, Correspondence Management System Records, accounting files, open unfinished business files (U.B.), and other files of a similar nature. These files are maintained and are constantly used to facilitate the internal administrative operations of the Office in processing applications for registration and recording documents. They are not a part of the records that are required by section 705 of the Copyright Act to be open to public inspection.

As a general policy the regulations deny *direct* public access to in-process files and any of the areas where they are kept. A procedure is provided, however, whereby *information* contained in the in-process files may be obtained by anyone, following payment of applicable fees, upon request to the Information and Reference Division.

The regulations provide as an exception to the general policy of denying direct public access to in-process files that in the case of pending applications for registration and their

VOL

1985
UMI

accompanying deposits, access will be afforded without charge upon request of the copyright claimant or his/her authorized representative to those applications and deposits that were submitted for registration within the twelve month period immediately preceding the request. Likewise, access will be afforded to pending documents for recordation upon the request of at least one of the persons who executed the document or by an authorized representative of that person. These requests must be presented in the Public Information Office.

Requests for certain information contained in pending applications and documents may be made by anyone and the information will be supplied, following payment of applicable fees.. The request should be made to the Certifications and Documents Section.

5. Correspondence. A significant amendment is proposed in § 201.2(c)(1). Consistent with Copyright Office practices under the Freedom of Information Act since 1978, the amended regulation makes correspondence directly relating to rejected applications for registration and documents for which recordation was refused records that are open to public inspection.

6. Requests for copies. The Copyright Office has amended § 201.2(d)(1) to specify more precisely the information to be given when requests for copies of records are made. The regulations would retain the same conditions that must be presently satisfied when copies of copyright deposits are requested, but the proposed amendment of § 201.2(d)(2)(i) makes clear that the written authorization may also be made by the owner of any of the exclusive rights in the copyright as long as it can be documented in writing that the transfer of ownership occurred. The remaining subsections in § 201.2(d)(2) have minor non-substantive changes in wording. Section 201.2(d)(3) is new. It specifies that in responding to a request for a reproduction of a phonorecord the Office will provide "proximate reproduction," and reserves to the Office the right to substitute a monaural reproduction for a stereo, quadraphonic, or any other type of fixation of the work accepted for deposit.

* * * * *

These amendments have been issued as final regulations, effective immediately, without public comment, since they concern Office organization and procedures and are not substantive in nature. Moreover, the changes are either technical, or clarify or confirm previously announced policies regarding access to Office in-process files.

With respect to the Regulatory Flexibility Act, the Copyright Office takes the position this Act does not apply to Copyright Office rulemaking. The Copyright Office is a department of the Library of Congress and is part of the legislative branch. Neither the Library of Congress nor the Copyright Office is an "agency" within the meaning of the Administrative Procedure Act of June 11, 1946, as amended (title 5, Chapter 5 of the U.S. Code, Subchapter II and Chapter 7). The Regulatory Flexibility Act consequently does not apply to the Copyright Office since that Act affects only those entities of the Federal Government that are agencies as defined in the Administrative Procedure Act.[1]

Alternatively, if it is later determined by a court of competent jurisdiction that the Copyright Office is an "agency" subject to the Regulatory Flexibility Act, the Acting Register of Copyrights has determined that the regulations will have no significant impact on small businesses.

List of Subjects in 37 CFR Parts 201 and 202

Copyright, Copyright office.

In consideration of the foregoing, Parts 201 and 202 of 37 CFR Chapter II are amended in the manner set forth below.

PART 201—[AMENDED]

To the authority citation for Part 201 is revised to read as follows:

Authority: Sec. 702, 90 Stat. 2541; 17 U.S.C. 702, * * *

2. Section 201.1 is revised to read as follows:

§ 201.1 Communications with the Copyright Office.

(a) *In general.* Mail and other communications shall be addressed to the Register of Copyrights, Library of Congress, Washington, D.C. 20559.

(b) *Inquiries to Licensing Division.* Inquiries about filings related to the four compulsory licenses (17 U.S.C. 111, 115, 116, and 118) should be addressed to the Licensing Division, LM–454, Copyright Office, Library of Congress, Washington, D.C. 20557.

[1] The Copyright Office was not subject to the Administrative Procedure Act before 1978, and it is now subject to it only in areas specified by section 701(d) of the Copyright Act (i.e., "all actions taken by the Register of Copyrights under this title [17]," except with respect to the making of copies of copyright deposits). [17 U.S.C. 706(b)]. The Copyright Act does not make the Office an "agency" as defined in the Administrative Procedure Act. For example, personnel actions taken by the Office are not subject to APA–FOIA requirements.

(c) *Copies of records or deposits.* Requests for copies of records or deposits should be addressed to the Certifications and Documents Section, LM–402, Copyright Office, Library of Congress, Washington D.C. 20559.

(d) *Search of records.* Requests for searches of registrations and recordations in the completed catalogs, indexes, and other records of the Copyright Office should be addressed to the Reference and Bibliography Section, LM–450, Copyright Office, Library of Congress, Washington, D.C. 20559.

3. Section 201.2 is revised to read as follows:

§ 201.2 Information given by the Copyright Office.

(a) *In general.* (1) Information relative to the operations of the Copyright Office is supplied without charge. A search of the records, indexes, and deposits will be made for such information as they may contain relative to copyright claims upon application and payment of the statutory fee. The Copyright Office, however, does not undertake the making of comparisons of copyright deposits to determine similarity between works.

(2) The Copyright Office does not furnish the names of copyright attorneys, publishers, agents, or other similar information.

(3) In the administration of the Copyright Act in general, the Copyright Office interprets the Act. The Copyright Office, however, does not give specific legal advice on the rights of persons, whether in connection with particular uses of copyrighted works, cases of alleged foreign or domestic copyright infringement, contracts between authors and publishers, or other matters of a similar nature.

(b) *Inspection and copying of records.* (1) Inspection and copying of completed records and indexes relating to a registration or a recorded document, and inspection of copies or identifying material deposited in connection with a completed copyright registration may be undertaken in the Certifications and Documents Section. Since some of these materials are not stored on the immediate premises of the Copyright Office, it is advisable to consult the Certifications and Documents Section to determine the length of time necessary to produce the requested materials.

(2) It is the general policy of the Copyright Office to deny direct public access to in-process files and to any work (or other) areas where they are kept. Likewise, direct public use of computer terminal intended to access the automated equivalents of these files is not permitted.

(3) Information contained in Copyright Office in-process files may be obtained by anyone upon payment of applicable fees and request to the Information and Reference Division, in accordance with the following procedures:

(i) In general, all requests by the public for information in the in-process and open unfinished business files should be made to the Certifications and Documents Section, which upon receipts of applicable fees will give a report that provides the following for each request:

(A) the date(s) of receipt of: (*1*) The application(s) for registration that may have been submitted and is (are) in process; (*2*) the document(s) that may have been submitted for recordation and is (are) in process; (*3*) the copy or copies (or phonorecords) that may have been submitted; (B) the title of the work(s); and (C) the name of the remitter.

(ii) Such searches of the in-process files will be given priority to the extent permitted by the demands of normal work flow of the affected sections of the Copyright Office.

(4) Access will be afforded as follows to pending applications for registration, the deposit material accompanying them, and pending documents for recordation that were submitted within the twelve month period immediately preceding the request for access: (i) in the case of applications for registration and deposits accompanying them, upon the request of the copyright claimant or his/her authorized representative, and (ii) in the case of documents, upon the request of at least one of the persons who executed the document or by an authorized representative of that person. These requests should be made to the Public Information Office, and the review of the materials will be permitted there. No charge will be made for this service.

(5) In exceptional circumstances, the Register of Copyrights may allow inspection of pending applications and open correspondence files by someone other than the copyright claimant, upon submission of a written request which is deemed by the Register to show good cause for such access and establishes that the person making the request is one properly and directly concerned. The written request should be addressed to the General Counsel of the Copyright Office, Department DS, Washington, D.C. 20540.

(6) In no case will direct public access be permitted to any financial or accounting records.

(7) The Copyright Office maintains administrative staff manuals referred to as its "Compendium of Office Practices I" and "Compendium of Office Practices II" for the general guidance of its staff in making registrations and recording documents. The manuals, as amended and supplemented from time to time, are available for purchase from the National Technical Information Service (Compendium I) and the Government Printig Office (Compendium II). They are also available for public inspection and copying in the Certifications and Documents Section.

(c) *Correspondence.* (1) Official correspondence, including preliminary applications, between copyright claimants or their agents and the Copyright Office, and directly relating to a completed registration, a recorded document, a rejected application for registration, or a document for which recordation was refused is available for public inspection. Requests for reproductions of the correspondence shall be made pursuant to paragraph (d) of this section.

(2) Correspondence, application forms, and any accompanying material forming a part of a pending application are considered in-process files and access to them is governed by paragraph (b) of this section.

(3) Correspondence, memoranda, reports, opinions, and similar material relating to internal matters of personnel and procedures, office administration, security matters, and internal consideration of policy and decisional matters including the work product of an attorney, are not open to public inspection.

(4) The Copyright Office will return unanswered any abusive or scurrilous correspondence.

(d) *Requests for copies.* (1) Requests for copies of records should include the following:

(i) A clear identification of the type of records desired (for example, additional certificates of registration, copies of correspondence, copies of deposits).

(ii) A specification of whether the copies are to be certified or uncertified.

(iii) A clear identification of the specific records to be copied. Requests should include the following specific information, if possible: (A) the type of work involved (for example, novel, lyrics, photograph); (B) the registration number; (C) the year date or approximate year date of registration; (D) the complete title of the work; (E) the author(s) including any pseudonym by which the author may be known; and (F) the claimant(s); and (G) if the requested copy is of an assignment, license, contract, or other recorded document, the volume and page number of the recorded document.

(iv) If the copy requested is an additional certificate of registration, include the fee. The Certifications and Documents Section will review requests for copies of other records and quote fees for each.

(v) The telephone number and address of the requestor.

(2) Requests for certified or uncertified reproductions of the copies, phonorecords, or identifying material deposited in connection with a copyright registration of published or unpublished works in the custody of the Copyright Office will be granted only when one of the following three conditions has been met:

(i) The Copyright Office receives written authorization from the copyright claimant of record or his or her designated agent, or from the owner of any of the exclusive rights in the copyright as long as this ownership can be demonstrated by written documentation of the transfer of ownership.

(ii) The Copyright Office receives a written request from an attorney on behalf of either the plaintiff or defendant in connection with litigation, actual or prospective, involving the copyrighted work. The following information must be included in such a request: (A) The names of all the parties involved and the nature of the controversy; (B) the name of the court in which the actual case is pending or, in the case of a prospective proceeding, a full statement of the facts of the controversy in which the copyrighted work is involved; and (C) satisfactory assurance that the requested reproduction will be used only in connection with the specified litigation.

(iii) The Copyright Office receives a court order for reproduction of the deposited copies, phonorecords, or identifying material of a registered work which is the subject of litigation. The order must be issued by a court having jurisdiction of the case in which the reproduction is to be submitted as evidence.

(3) When a request is made for a reproduction of a phonorecord, such as an audiotape or cassette, in which either a sound recording or the underlying musical, dramatic, or literary work is embodied, the Copyright Office will provide proximate reproduction. The Copyright Office reserves the right to substitute a monaural reproduction for a stereo, quadraphonic, or any other type of fixation of the work accepted for deposit.

PART 202—REGISTRATIONS OF CLAIMS TO COPYRIGHT

4. The authority citation for Part 202 is revised to read as follows:

VOL 50 ISS 142 JL 24 1985 UMI

Authority: Sec. 702, 90 Stat. 2541, 17 U.S.C. 702.

Dated: July 17, 1985.

Donald C. Curran,

Acting Register of Copyrights.

[FR Doc. 85-17538 Filed 7-23-85; 8:45 am]

BILLING CODE 1401-03-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[FRL-2869-4; PP 3E2939/R778]

Pesticide Tolerance of Chlorothalonil

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the combined residues of the fungicide chlorothalonil and its metabolite in or on the raw agricultural commodity cranberries. This regulation to establish a maximum permissible level for residues of chlorothalonil in or on cranberrries was requested in a petition submitted by the Interregional Research Project No. 4 (IR-4).

EFFECTIVE DATE: Effective on July 24, 1985.

ADDRESS: Written objections, identified by the document control number [PP 3E2939/R778], may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

By mail: Donald Stubbs, Emergency Response and Minor Use Section (TS-767C), Registration Division, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460.

Office location and telephone number: Rm. 716B, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-1192).

SUPPLEMENTARY INFORMATION: EPA issued a proposed rule, published in the **Federal Register** of June 27, 1985 (50 FR 26592), which announced that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, submitted pesticide petition 3E2939 to EPA on behalf of Dr. Robert H. Kupelian, National Director, IR-4 Project and the Agricultural Experiment Stations of Massachusetts, New Jersey, Washington, and Wisconsin proposing the establishment of a tolerance for the combined residues of the fungicide chlorothalonil (tetrachloroisophthalonitrile) and its metabolite 4 hydroxy-2,5,6-(trichloroisophthalonitrile) in or on the raw agricultural commodity cranberries at 5.0 parts per million (ppm).

The pesticide is considered useful for the purpose for which the tolerance is sought. There are no regulatory actions pending against the continued registration of the pesticide. Based on the data submitted and evaluated, discussed in the proposed rule, the Agency has determined that the establishment of the tolerance will protect the public health and is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this document in the **Federal Register**, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests.

Dated: July 17, 1985.

Steven Schatzow,

Director, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, 40 CFR Part 180 is amended as follows:

1. The authority citation for Part 180 continues to read as follows:

Authority: 21 U.S.C. 346a.

2. Section 180.275 is amended by adding and alphabetically inserting the raw agricultural commodity cranberries to read as follows:

§ 180.275 Chlorothalonil; tolerances for residues.

* * * * *

Commodities	Parts per million
* * * * * *	
Cranberries	5.0
* * * * * *	

[FR Doc. 85-17622 Filed 7-23-85; 8:45 am]

BILLING CODE 6560-50-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Parts 405 and 412

[BERC-317-F]

Medicare Program; Prospective Payment System for Hospital Inpatient Services; Redesignation of Rules; Correction

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Correction of final rules.

SUMMARY: This document corrects §412.4(a)(1) of the Medicare rules by restoring content that was unintentionally omitted when the prospective payment rules were redesignated.

FOR FURTHER INFORMATION CONTACT: Luisa V. Iglesias, (202) 245-0383.

SUPPLEMENTARY INFORMATION: In FR Doc. 85-6604, published on March 29, 1985, beginning on page 12740, we used the text of 42 CFR 405.470(c)(1) as it appeared in the October 1, 1983 issue of the Code of Federal Regulations, and redesignated it as § 412.4(a)(1). We overlooked the fact that § 405.470(c)(1) had been revised by final rules published on January 3, 1984 (49 FR 314) to include reference to leave of absence from the hospital.

Accordingly, in 42 CFR 412.4, the introductory statement of paragraph (a) is reprinted without change, and paragraph (a)(1) is corrected to reflect the January 3, 1984 revision, to read as follows:

§ 412.4 Discharges and transfers.

(a) *Discharges.* A hospital inpatient is considered discharged when any of the following occurs:

(1) The patient is formally released from the hospital. (Release of the patient to another hospital as described in paragraph (b) of this section, or a leave of absence from the hospital, will not be recognized as a discharge for the purpose of determining payment under the prospective payment system.)

* * * * * *

Dated: July 17, 1985.

Peter D. Gness,

Acting Deputy Assistant Secretary for Management Analysis and Systems.

BILLING CODE 4120-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

Final Flood Elevation Determinations; Louisiana et al.

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are determined for the communities listed below.

The base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM) showing base (100-year) flood elevations, for the community. This date may be obtained by contacting the office where the maps are available for inspection indicated on the table below.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: John L. Matticks, Acting Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2767.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determinations of flood elevations for each community listed. Proposed base flood elevations or proposed modified base flood elevations have been published in the **Federal Register** for each community listed.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR Part 67. An opportunity for the community or individuals to appeal proposed determination to or through the community for a period of ninety (90) days has been provided.

The Agency has developed criteria for flood plain management in flood-prone areas in accordance with 44 CFR Part 60.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies for reasons set out in the proposed rule that the final flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, this rule is not a major rule under terms of Executive Order 12291, so no regulatory analyses have been prepared. It does not involve any collection of information for purposes of the Paperwork Reduction Act.

List of Subjects in 44 CFR Part 67

Flood insurance, Flood plains.

The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq., Reorganization Plan No. 3 of 1978, E.O. 12127.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and Flood Insurance Rate Map available at the address cited below for each community.

The modified base (100-year) flood elevations are finalized in the communities listed below. Elevations at selected locations in each community are shown. Any appeals of the proposed base flood elevations which were received have been resolved by the Agency.

Erratum

In the matter of changes in the rules relating to noncommercial, educational FM Broadcast Stations; Docket No. 20735, RM-1301, RM-1974, RM-2655.

The *Memorandum Opinion and Order* in the above entitled proceeding (FCC 85-328, Mimeo 35929) adopted June 20, 1985, released June 27, 1985, published July 9, 1985 (50 FR 27954), IS CORRECTED as follows:

1. In paragraph 61 of the text, the Commission's action is changed from "effective up adoption" to "effective upon adoption"

2. In Appendix C, 47 CFR 73.525, Table B in paragraph (d)(1), the effective radiated powers (kW) for NCE-FM Channel 203 should changed from "2.9" to "3.1" and channel 214 should change from "46.7" to "46.8"

Federal Communications Commission.

William J. Tricarico,

Secretary.

47 CFR Part 73

[MM Docket No. 84-32]

TV Broadcast Stations in Arecibo, PR et al.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns UHF TV Channel *62 to San Juan, Puerto Rico, as a replacement for noncommercial educational UHF TV Channel *74, at the request of Fundacion E Educacion Cristiana, Inc.

EFFECTIVE DATE: August 16, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

PART 73—[AMENDED]

The authority citation for Part 73 continues to read:

Authority: Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.

Memorandum Opinion and Order

In the Matter of Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Arecibo, Cayey, *San Juan*, Utuado, Puerto Rico); MM Docket No. 84-32.

Adopted: June 26, 1985.
Released: July 10, 1985.

By the Chief, Policy and Rules Division.

1. By a *Report and Order*, 50 FR 1227, published January 10, 1985, the Commission, on its own motion, amended the Table of Television Assignments for Puerto Rico to reflect the reallocation of the spectrum between 806 and 947 MHz (Channels 70-83) for land mobile use. Since no party stated an interest in applying for Channel *62, which would have been assigned as a replacement for noncommercial educational Channel *74 at San Juan, the *Report and Order* deleted the channel without assigning a substitute channel.

2. On January 28, 1985, the Fundacion E Educacion Cristiana, Inc. ("petitioner") filed a petition for reconsideration requesting that Channel *62 be assigned to San Juan, stating that it would apply for the channel. Channel *62 can be assigned to San Juan, in compliance with a site restriction of 21.6 miles east to avoid a short-spacing to a construction permit issued to Station WUSA, Channel 58 at Caguas, Puerto Rico.[1]

3. In view of the interest expressed, we believe the public interest would be served by assigning Channel *62 to San Juan as it could provide that community with its second noncommercial educational service. Accordingly, pursuant to the authority contained in sections 4(i), 5(c)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is ordered, That effective August 16, 1985, the Television Table of Assignments, § 73.606(b) of the Rules, is amended with respect to the community listed below, to read as follows:

City	Channel No.
San Juan, PR	2+, 4--, *6+, 18, 24, 30, and *62.

[1] The Association of Maximum Service Telecasters, Inc. filed comments pointing out that the site restriction of 15 miles east for Channel *62 at San Juan, as stated in the *Notice*, was insufficient.

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning this proceeding, contact Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

[Ex Parte No. 449]

Filing of Pleadings and Applications

AGENCY: Interstate Commerce Commission.

ACTION: Final rules; correction.

SUMMARY: At 48 FR 34474, July 29, 1983, the Commission published rules reflecting centralization of certain functions and responsibility of the Office of the Secretary for the receipt and docketing of all formal applications, petitions and subsequent pleadings filed in such proceedings. That notice contained an omission, which this notice corrects.

FOR FURTHER INFORMATION CONTACT: Kathleen M. King (202) 275–7428.

SUPPLEMENTARY INFORMATION: The amendatory instructions in the notice appearing at 48 FR 34474 are corrected by adding an additional instruction (15) to follow instruction (14) appearing on page 34476 to read as follows:

PART 1180—RAILROAD ACQUISITION, CONTROL, MERGER, CONSOLIDATION PROJECT, TRACKAGE RIGHTS, AND LEASE PROCEDURES

§ 1180.25 [Amended]

(15) Paragraph (f)(2) of § 1180.25 is amended by removing footnote 3.

James H. Bayne,

Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Determination of Experimental Population Status for Certain Introduced Populations of Colorado Squawfish and Woundfin

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final Rule.

SUMMARY: The U.S. Fish and Wildlife Service will introduce Colorado squawfish (*Ptychocheilus lucius*) and woundfin (*Plagopterus argentissimus*) into the Gila River drainage in Arizona and determine these populations to be "nonessential experimental" populations according to section 10(j) of the Endangered Species Act of 1973. Section 10(j) of that Act authorizes "experimental" populations of endangered species to be treated as if they were threatened.

The Service has much more discretion in devising a management program for threatened species than for endangered species, especially on matters regarding regulated taking. Accordingly, a special rule to allow take in accordance with State and Tribal law is established for these nonessential experimental populations. In addition, section 10(j) authorizes such experimental populations to be determined to be "nonessential" to the survival of the species; a nonessential experimental population is not subject to the protection of 7(a)(2) of the Act, but instead is treated under section 7 as a species proposed for listing. In the past, these fishes were widespread in the State of Arizona where they occurred in several river drainages. This action is being taken in an effort to reestablish populations of Colorado squawfish and woundfin within their historic range.

DATES: The effective date of this rule is August 23, 1985.

ADDRESSES: The complete file for this rule is available for inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, 500 Gold Avenue, SW., P.O. Box 1306, Albuquerque, New Mexico 87103.

FOR FURTHER INFORMATION CONTACT: Mr. Conrad Fjetland, Assistant Regional Director, U.S. Fish and Wildlife Service, Albuquerque, New Mexico 87103 (505/766–2323 or FTS 474–2323) or Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–2771).

SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act Amendments of 1982, Pub. L. No. 97–304, became law on October 13, 1982. Among the significant changes made by the 1982 Amendments was the creation of a new Section 10(j) which established procedures for the designation of specific populations of listed species as "experimental populations." Regulations implementing the experimental population provisions were published on August 27, 1984 (49 FR 33885). Under authorities in the Endangered Species Act (ESA) previous to the 1982 Amendments, the Service was permitted to translocate populations into unoccupied portions of a listed species' historic range when it would foster the conservation and recovery of the species. Local opposition to translocation efforts, however, severely handicapped the effectiveness of translocation as a management tool. This opposition stemmed from concerns regarding the restrictions and prohibitions on private and Federal activities affecting endangered species under sections 7 and 9 of the Act. Under section 10(j) of the 1982 Amendments, past and future translocated populations established outside the current range, but within the species' historic range, may now be designated at the discretion of the Service as "experimental." Such a designation will increase the Service's flexibility to manage these translocated populations because the Amendments provide that such experimental populations of species which are otherwise listed as endangered may be treated as threatened. The Service has much more discretion in devising management programs for threatened species than for endangered species, especially on matters regarding regulated taking. Moreover, experimental populations found to be "nonessental" to the continued existence of the species in question would not be afforded protection under section 7(a)(2) of the Act, which requires Federal agencies to refrain from activities which are likely to jeopardize the continued existence of a listed species or adversely modify its critical habitat. The individual organisms comprising the designated experimental population will be removed from an existing source or donor population only after it has been determined that their removal itself will not violate section 7(a)(2) of the ESA and complies with the permit requirements in section 10(a)(1)(A) and (d). The two species of fishes included in this determination are Colorado squawfish (*Ptychocheilus lucius*) and woundfin (*Plagopterus argentissimus*), both of which are currently listed as endangered. Donor populations for both species will come from stocks at Dexter National Fish Hatchery, and their use has been addressed under the permit and section 7 consultation for the hatchery. Dexter NFH has already demonstrated the ability to produce sufficient squawfish for the reintroduction effort, but has been less successful with woundfin production. If the Service is unable to produce the required numbers of woundfin artificially, additional adult woundfin will be gathered from the Virgin River as discussed in the Woundfin Recovery Plan. A section 7 consultation on the possible removal from the wild was completed on March 5, 1985. The biological opinion found that such removal will not jeopardize the species if the fish are removed from the intermittent stream area immediately below the Washington and Mesquite water diversions. Woundfin below these diversions become stranded and die when the river is diverted for irrigation.

Colorado squawfish were once widespread, occupying the entire Colorado River system including the Gila River system in Arizona. Squawfish were also present in tributaries of the Gila River, including the Salt, Verde, and San Pedro Rivers and likely several others. The last specimen known from Arizona waters was collected in the early 1950's and extensive sampling subsequent to that date has failed to locate specimens anywhere within the State of Arizona. The reasons for the decline of the Colorado squawfish are dewatering, dams, and competition with exotic species of fish. However, good habitat remains in the stream areas selected for the reintroduction of the Colorado squawfish and there is a good likelihood that it will become reestablished in these areas. Establishment of experimental populations of Colorado squawfish will make a significant contribution to the recovery of the species and will therefore further its conservation. The Colorado Squawfish Recovery Plan calls for reintroduction of the species into selected streams in the lower basin where the species formerly occurred. The stock of Colorado squawfish to be reintroduced will come from an existing captive-bred population and will not result in the removal of any individuals from the wild population.

Woundfin were originally distributed in the mainstream Colorado, Gila, Salt, and Virgin Rivers. Dams and dewatering have made most of these habitats unsuitable, while exotic species, especially red shiners (*Notropis lutrensis*), have outcompeted woundfin in the few remaining flowing streams. Only the Virgin River continues to maintain a woundfin population. The Service proposes to reintroduce individuals from Dexter National Fish Hatchery to stock the experimental populations. If insufficient woundfin are produced at Dexter, additional adult woundfin will be removed from the Virgin River as discussed in the Woundfin Recovery Plan. The Woundfin Recovery Plan calls for reintroduction into central Arizona streams where this species formerly occurred. The stream areas selected for reintroduction of the woundfin contain good habitat for this species, and the likelihood that these experimental populations will become established is good. If these experimental populations are successful they will make a significant contribution to the recovery of the woundfin. The release of these experimental populations will further the conservation of the species.

Summary of Comments and Recommendations

In the April 10, 1984, proposed rule (49 FR 14149) and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final rule. Appropriate State agencies, county governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. A newspaper notice was published in *The Arizona Republic* in Phoenix, Arizona, on April 25, 1984, which invited general public comments. Seventeen comments were received and are discussed below. No public hearing was requested or held.

Seven letters were received in support of the proposal. Three others expressed support of the experimental population concept, but had some reservations or requested specific changes in the proposal. Four letters were received in opposition to the proposal. Two letters received requested information, and another had no comments. Summaries of the comments and questions in these letters follow:

1. Support for the proposal was received from the American Society of Ichthyologists and Herpetologists, the Desert Fishes Council, and Arizona State University.

2. The Arizona Office of Economic Planning and Development had no comments on the proposal.

3. Two law firms responded to the proposal, one requested a copy of the draft Environmental Assessment, and the other requested copies of all comments which the Service received regarding the proposal. The requested information was sent.

4. The U.S. Forest Service supports the proposal. They submitted the following comments and questions regarding the Environmental Assessment (EA) for this action: (*C*=comment, *A*=Service response) *C.* Who will sign the Decision Notice? *A.* This final rule is signed by the Assistant Secretary of the Interior for Fish and Wildlife and Parks. *C.* Is the issue of the EA to determine the proper classification of the two species? If so, the effects of different classifications should be discussed. *A.* The issue of this EA is the proper classification of reintroduced populations of these two species. Additional clarification of the effects of different classifications has been added to the EA. *C.* The statement, in the EA, that without these reintroductions one or both of these species could become extinct in the forseeable future, is a direct contradiction to the designation of these populations as nonessential to the survival of the species. *A.* The Service agrees with this comment and has changed the wording to more accurately reflect Service intent. *C.* The Forest Service feels that they should be more involved in a cooperative preparation of the EA. *A.* The basic responsibility of preparing the EA rests with the Service. However, the Service has cooperated with the Forest Service by obtaining that agency's input in preparing the EA.

5. The U.S. Bureau of Reclamation supports the proposal and offered to help in monitoring the reintroduced populations. They expressed some doubt about the probability of success of some of the reintroductions due to habitat factors. They noted that some downstream movement could occur over dams during periods of unusually high flow, and asked that it be specified that any such fish retain their nonessential experimental status. This has been clarified in the rule. They also expressed concern over the effect of squawfish reintroductions on bald eagle food habits. The Service's response is that although the squawfish is a top fish predator, it successfully coexisted for thousands of years with the bald eagle. Razorback suckers are also being reintroduced into the Salt and Verde Rivers, and if successful, will provide added food for the eagles. If the squawfish reintroduction is successful, it is believed that the overall effect will also benefit the eagles. A Section 7 consultation on this effect was completed on January 11, 1985. The

VOL
50
ISS
142
JL
24
1985
UMI

biological opinion found that both fish species would be affected positively by the proposed action, as would the bald eagle.

6. The Arizona Game and Fish Department supports the proposal, however they feel recovery of these species would be better served by designation of these populations as essential experimental. They also noted that the recommended sites were being further evaluated in the summer 1984. The Service's response is that biologically, the survival of neither species will be dependent upon the survival of the reintroduced populations and loss of the reintroduced populations will not further jeopardize these species. Wild populations of both species appear to be stable and there are no immediate threats to that stability. Thus, nonessential designation seems more appropriate.

7. The U.S. Bureau of Land Management supports the concept of reintroduction of nonessential experimental populations of endangered species. However, they requested a change in the special rule to allow for "taking of the species incidental to activities that are otherwise lawful," to remove Section 9 prohibitions that might restrict development activities. This provision has been added to the special rule; however, taking of these species will be under the regulatory control of the State of Arizona and the White Mountain and San Carlos Apache Indian Tribes. Violation of applicable State and Tribal laws will also be a violation of the Endangered Species Act. BLM also submitted the following questions pertaining to the proposal: (*Q*-question, *A*-Service response) *Q.* Under what circumstances is informal consultation required? *A.* Informal conference is required when a Federal agency proposes to take, fund, or authorizes an action which is likely to jeopardize the continued existence of the Colorado squawfish or the woundfin. Consultation is not required for nonessential experimental populations, only an informal conference. *Q.* Do these experimental nonessential populations count toward eventual recovery and delisting? *A.* Yes. *Q.* How long will the experimental reintroduction period be, and how will its success or failure be measured? *A.* The rule sets forth a 10-year reintroduction program; however, the experimental designation will remain on these populations until each species is delisted. Success or failure will be determined by monitoring carried out by the State of Arizona. *Q.* Will woundfin reintroductions be terminated if the source population in the Virgin River is significantly reduced? *A.* Culturing woundfin at Dexter National Fish Hatchery has not succeeded as well as has squawfish culturing, but continues to improve. If Dexter is unable to produce sufficient number of woundfin, they will be taken from the Virgin River as described in the Woundfin Recovery Plan. These fish are normally trapped below irrigation diversion structures and lost when these reaches of the streams dry. The Section 7 consultation on the possibility of removal of wild stocks from the Virgin River for reintroduction concluded that such removal would not jeopardize the species. Continued monitoring of the woundfin in the Virgin River will assure that removal does not significantly reduce the population. *Q.* Under what circumstances, and how, would nonessential populations be reclassified as essential? *A.* The entire concept of the nonessential experimental designation is to assure private and governmental entities that Federal regulatory controls will be relieved on reintroduced populations. Nothing in the 1982 Amendments expressly discusses changing a designation from nonessential to essential. However, the implementing regulations do note the Congressional intent, as indicated in the House Report accompanying the Amendments, to be: "Regulations [to establish the experimental population designation or designate experimental populations] should be viewed as an agreement among the Federal agencies, the State fish and wildlife agencies and any landowners involved. Changes in the regulations should only be made after close consultation with all of the affected parties." (H.R. Rep. No. 567, 97th Cong., 2nd Sess. 34, 1982). The only action that might make the Service consider a change from a nonessential to an essential designation would be the loss of all or a significant portion of the wild populations. However, even in that extreme case, such a decision would require a rulemaking procedure involving extensive contact with Federal and State agencies, interested parties and affected landowners, publication in the **Federal Register**, and a public meeting if appropriate (50 CFR 17.81). BLM also requested that meetings be scheduled between affected land management agencies, State and county governments, and the public to discuss the reintroductions and the implementation of the action. Notification of the proposal was widespread in Arizona and the Service believes that a series of meetings were not needed on this rule since all interested parties are well informed about the proposed action. The Service has made every effort to answer BLM's questions both in writing and in person. The Service is satisfied that the regulatory requirements of section 10(j) of the Act and 50 CFR 17.81 have been satisfied.

8. The Arizona Department of Water Resources supports the concept of experimental reestablishment of these two species. However, they oppose the reintroduction of these species in any areas where there are proposed water projects contemplated at this time. The Service's response is that virtually all stretches of major streams in Arizona, including the Gila, Verde, Hassayampa, and San Francisco Rivers, have been contemplated for water development projects. Many of those projects will never be developed because the water of these systems is already fully committed. Others will be developed further to use existing water rights, but it is difficult to predict when and where which alternative of which project will be built. It is possible that projects built in the areas where reintroduced populations of woundfin and squawfish exist would have detrimental effects on those populations. However, the success of this reintroduction effort will be based on achieving a widespread population base for these species so that detrimental effects in a localized area will not appreciably reduce their overall chances for successful reestablishment.

9. The New Mexico Department of Game and Fish opposes the proposal. They submitted the following comments pertaining to the proposal: (*C*=comment, *A*=Service response) *C.* They were not contacted in the development of the proposal. *A.* Although the Service did not directly contact New Mexico Department of Game and Fish, that Department was contacted by the Arizona Game and Fish Department. Arizona requested New Mexico's input into the development of the proposal, but received no reply. It was assumed that New Mexico had no comments on the program, presumably because the reintroductions are unlikely to affect New Mexico. *C.* The upper Gila River woundfin transplant sites are not within historic range. *A.* The known historic ranges of many southwestern species, including the woundfin, are not well defined as historical collections were not always made in a thorough manner. The woundfin was collected in the Gila River drainage as far upstream as the Gila-Salt confluence. It was also collected up to 3400 feet elevation in the Verde River, about the same elevation as the Gila River reaches near the Arizona-New Mexico border. Although historical collection records from the upper Gila River are extremely spotty, there were no barriers or known habitat considerations which would have precluded woundfin from existing in those areas upstream from the Gila-Salt confluence, and it is reasonable to believe that woundfin were once spread throughout acceptable habitats in the Gila River drainage as they were in the Verde, River. This assumption is accepted by Minckley (1973 and 1979) and is accepted by State of Arizona biologists. *C.* The spikedace, another member of the tribe Plagopterini, which is a New Mexico listed species and a Federal candidate species, is found in the upper Gila River in New Mexico and may be adversely affected by the introduction of the woundfin. *A.* The spikedace is presently found in the Gila River only as far downstream as 20 miles above the New Mexico/Arizona State line, which is a separation of at least 20 miles, 3 low-head dams and an intermittent section of river from the proposed woundfin reintroduction site. In addition, the woundfin and spikedace historically coexisted in portions of the middle Gila River. Historic records show that both woundfin and spikedace were found in the Gila River near the confluence with the Salt River. The woundfin and a close relative of the spikedace, the Virgin River spinedace, still coexist in the Virgin River. *C.* The red shiner, an exotic fish, is presently found in the Gila and San Francisco Rivers at the reintroduction sites. This fish has been implicated in the decline of the woundfin through competitive interaction. *A.* The Service agrees that the presence of red shiner in the Gila and San Francisco Rivers is undesirable regarding the success of woundfin reintroductions, and their presence was considered in the selection of recommended sites. Although replacement of the woundfin by red shiner has been noted by Minckley and Deacon (1968) and by the Woundfin Recovery Plan (1984), it is not certain whether the replacement is due to competition or to habitat changes. Woundfin and red shiner have coexisted in the lower Virgin River for at least the past 10 years, indicating that such coexistence may be possible under the right conditions. Nearly every stream within historic range of the woundfin has been invaded by the red shiner, and removal of the shiner from selected reintroduction sites would be virtually impossible at worst and temporary at best. Therefore, reintroduction sites were chosen for habitat conditions favorable to woundfin with the assumption that under such conditions the woundfin can successfully resist displacement by the red shiner. Dr. W.L. Minckley, in a study of the Gila River complex done in 1979 for BLM, recommended: "The Gila River mainstream within its box canyon is considered as a prime site for reestablishment of woundfin, and it should be given priority for any program considered." *C.* The woundfin introduced into the Gila and San Francisco Rivers will migrate upstream into New Mexico and will revert to endangered status there. *A.* It is unlikely that woundfin will migrate into New Mexico. In the Gila River there are three low-head irrigation dams just inside the New Mexico border; the most downstream of which is one mile east of the State line and is 6 feet high. The second is 5 miles east of the State line and is 4 feet high. These dams form insurmountable barriers to upstream movement of woundfin unless they are purposefully carried over them by man. On the San Francisco River no natural or manmade barrier exists; however, high elevation and other habitat considerations make the San Francisco River in New Mexico marginal habitat for the woundfin. In the unlikely case that woundfin do make their way into New Mexico, this rule provides for nonessential experimental status for all populations in the Gila basin, including any individuals which spread upstream or downstream from the immediate transplant site. Migration of experimental populations outside of the area of reintroduction does not change their designation unless they mix with wild populations that are fully protected. *C.* No habitat management plan has been done for the reintroduction sites. *A.* The Woundfin Recovery Plan calls for preparation of habitat management plans for reintroduction sites as "soon as potential transplant sites are approved." However the recovery plan did not consider the use of nonessential experimental populations. The experimental nonessential designation is being used for these populations in order to minimize Federal regulations and restrictions. Therefore it is not appropriate for the Service to require the preparation of habitat management plans for these sites. Biologically, such plans are desirable; however, the decision whether such plans are implemented or not is up to the agency, organization, or individual who owns or administers the land. *C.* The regulations implementing experimental population designations have not been finalized and New Mexico feels that the experimental designation of squawfish and woundfin should be deferred until such finalization. *A.* The regulations for experimental populations have been finalized, and were published in the Federal Register on August 27, 1984. *C.* New Mexico feels that their experience concerning the transplant of the endangered whooping crane has shown that the Service cannot be trusted to live up to any agreements that are not legally binding. *A.* The Service regrets that the State of New Mexico feels that it was not treated fairly in the matter of the whooping crane, but does not think that those misunderstandings should prevent valid recovery efforts for other endangered and threatened species in New Mexico and bordering portions of other States.

10. Mobil Alternative Energy Inc. stated that they believe nonessential experimental populations are a valid recovery method. Other comments and questions submitted by them and the Service's responses follow: *Q.* What protection would the nonessential experimental populations receive under sections 7(a) (1) and (4) of the Act? *A.* Section 7(a)(1) applies to these experimental populations. It states in part that . . . "All other Federal agencies shall, in consultation with and with the assistance of the Secretary, utilize their authorities in furtherance of the purposes of this Act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to section 4 of this Act." The reintroduction of these species is obviously a conservation program for their recovery. Specific additional conservation measures are not required by section 7(a)(1). The protection provided under section 4 is discussed under the "Protective Regulations" portion of this rule. *Q.* Would formal or informal consultation be necessary for nonessential experimental populations on agency or industry projects, and what limitations would there be on commitment of resources? *A.* On nonessential experimental populations only an informal conference is required, and only if Federal action, authorization or funding is involved. This may lead to recommendations, but not to the imposition of mandatory restrictions. *Q.* Will conservation or recovery plans be developed for these and other Lower Colorado River basin species? *A.* Both of these species already have approved recovery plans. No plans for other species are currently being considered except for an overall document being prepared by the Lower Colorado River

1985
UMI

Coordination Group to tie together the various reintroduction efforts, both planned and underway. Management plans for the reintroduced populations may be written, if suitable. *Q.* Should the nonessential status of these populations ever be changed to essential, what would be the protection afforded them, and what factors could cause such a change? *A.* The Service's response is the same as found under paragraph 7. Additionally, it is noted that an "essential" experimental population has full protections under section 7(a)(2). A change from "nonessential" to an "essential" classification would not necessarily change any of the section 9 protections that apply to the experimental populations. *Q.* Will data gathered during the reintroduction and monitoring of these nonessential experimental populations be used to upgrade the status of these populations to essential or endangered if the populations fail to establish themselves successfully? *A.* No. Data gathered during monitoring will be used to determine the success of the reintroduction efforts and to provide the data necessary to delist the species, but not to provide additional protection. *Q.* If the reintroduction efforts are a success will the increased population numbers be used to delist the species? *A.* The success of such reintroductions is part of the criteria set forth in the recovery plans for downlisting and delisting these species. *Q.* Mobil asked that these comments and answers be incorporated into the rule and that it be republished as a proposal prior to finalization. *A.* The Service feels that the incorporation of information answering questions received and of changes requested is sufficient to address the concerns of Mobil and other interested parties, and that reproposal would delay the reintroduction effort unnecessarily. The major concern of Mobil appears to be the potential for change in the status of these populations from nonessential to essential or endangered status, and that these populations will be used to force mandatory restrictions on their operations. As the answers to their submitted questions indicate, such problems are not likely to arise. The nonessential experimental status is specifically designed to avoid such restrictions and to allow for recovery efforts for this species with a minimum effect on agencies, industry, and individuals.

11. Phelps Dodge Corporation submitted comments both from their Morenci Branch and from their Western General Office. Both oppose this proposal. They feel that the proposal has an "overwhelming potential" to seriously jeopardize their Morenci copper mining and processing operation and significantly impair or terminate implementation of flood control plans on the Gila and San Francisco Rivers due to the potential for the nonessential experimental populations to be upgraded and critical habitat designated at some time in the future. They believe that reintroductions should not occur in any areas where "probable designation of critical habitat could directly or indirectly jeopardize the economic well-being of the human species on the scale of counties." In addition, they feel that the proposed reintroduction site in the San Francisco River is unsuitable due to the presence of red shiner. The Service's response to the question of upgrading the status for these populations is given in paragraph 7. Upgrading of the population in the San Francisco River to essential or endangered would occur only under very extreme circumstances and critical habitat could only be designated for the woundfin in the San Francisco if that upgrade were to occur. Such designation would be subject to publication of the proposal in the Federal Register and to extensive discussions with affected organizations, groups, and individuals. Since the purpose of the nonessential experimental status was specifically to reduce restriction on agencies, industries and landowners, it would be self-defeating to propose this nonessential designation with the idea in mind of changing it in order to restrict those exact activities it was designed not to restrict. Flood control in the San Francisco and Gila Rivers may be a valid need; however, the Service believes that such future projects can be arranged to the satisfaction of all parties involved, and that nonessential experimental populations such as these should not conflict with such projects. The Phelps Dodge Morenci operation would not be jeopardized by these reintroductions because no binding restrictions could be placed on them. The Service's response to the question of red shiner is given in paragraph 9. Phelps Dodge's comments and questions were also answered directly by letter.

12. The White Mountain Apache Tribe opposes the proposal. The Tribe's objections are based upon the following comments: *C.* The Service failed to contact the Tribe during preparation of the porposal. *A.* The Tribe was not contacted prior to the proposal publication. The purpose of a proposal is exactly that—to contact the involved parties and solicit their comments, questions, information, and input. The possibility of reintroduction of squawfish into the Salt River was discussed with the Tribe several years ago, and the incorporation of the experimental population concept into the 1982 Amendments to the Act was in part a result of those discussions. *C.* The Service failed to address, in the special rule, the fact that State law has no jurisdiction over hunting and fishing on federally recognized Indian reservations, and that Arizona State license requirements and regulations do not apply within the Fort Apache Indian Reservation. Regulation of wildlife and fish on lands of the White Mountain Apache Tribe are under the jurisdiction of Tribal law. *A.* The special rule has been changed to cover applicable Tribal as well as State laws and regulations. *C.* The Tribe objects to the Statement containted in the proposal, pertaining to water rights on the Salt River, that: "Salt River Project, a private water district supplying water to metropolitan Phoenix owns most of the water rights." They point out there is presently ongoing litigation in State and Federal courts in respect to all of the water in the Salt River basin, and that the White Mountain Apache Tribe claims "prior and paramount" rights to waters in the Salt River pursuant to the Winter's Water Rights Doctrine. *A.* The Service recognizes that such litigation is in progress. The statement in question has been removed from the final rule. The Tribe's objections were also responded to directly by letter.

13. The Salt River Project supports the proposal. They expressed concern over the effect of the squawfish reintroductions in the Salt and Verde Rivers and Tonto Creek on feeding of nesting bald eagles. They recommend a section 7 review of the proposal. The Service's response to this concern is the same as found in paragraph 5.

Status of Reintroduced Populations

The reintroduced populations of Colorado squawfish and woundfin are designated as nonessential experimental populations according to the provisions of the 1982 Amendments to the Endangered Species Act. Nonessential experimental population status, plus the special rule for State or Tribal regulation of take, for the reintroduced Colorado squawfish and woundfin means that they will be subject to providions of sections 7(a) (1) and (4) of the Act and the special rule. These sections authorize Federal agencies to establish programs furthering conservation of listed species and also require Federal agencies to informally confer with the Service regarding actions which are likely to jeopardize the continued existence of the species. The restrictions on Federal agency activity in section 7(a)(2) will not apply. Justification for the "nonessential" status for the introduced experimental populations of Colorado squawfish and woundfin is as follows:

1. *Colorado squawfish.* Populations of this species are still viable in portions of the Green, Colorado, and Yampa Rivers in the upper basin. In addition, sufficient brood stock is available at Dexter NFH to produce millions of fry. Techniques for propagating and rearing this species have been developed and are in place. Reintroduction is a recovery action designed to increase the number of populations, rather than to prevent their further decline. The loss of these captive-reared specimens will not reduce the likelihood of the survival of Colorado squawfish in the wild.

2. *Woundfin.* The population in the Virgin River is relatively stable and the habitat is moderately secure. Fish numbers vary with amounts of springtime flows and irrigation practices that dewater portions of the stream, but the recovery team sees no near-future significant alteration for the Virgin River habitat. Woundfin are being held at Dexter National Fish Hatchery (NFH), and recent attempts to spawn them have been successful. These hatchery reared stocks will be used for reintroduction. If such stocks are insufficient then woundfin will be taken from the Virgin River for reintroduction. Any fish taken from the wild will be taken from adults trapped below irrigation water diversion structures. These fish normally die when the river is diverted and the stream bed dries. Therefore, the loss of the reintroduced populations will not reduce the likelihood of the survival of the woundfin in the wild. This reintroduction is an action to increase the numbers of populations of woundfin rather than an attempt to prevent their further decline.

Successful reintroduction of squawfish and woundfin may result in individuals or populations being displaced or migrating upstream or downstream from the reintroduction site. These fish would retain their nonessential experimental status. All woundfin or squawfish encountered in the Gila River drainage will derive from these reintroduced populations and as such will have a status of nonessential experimental.

Protective Regulations

Section 4(d) provides for issuance by the Secretary of protective regulations for species listed as threatened. Such regulations shall be issued when deemed "necessary and advisable to provide for the conservation of such species" and they can apply any of the prohibitions in section 9(a)(1) for endangered species of fish and wildlife to threatened species. This final rule establishes a special rule for these nonessential experimental populations. This special rule provides that regulation of taking in these populations will be governed under applicable State and Tribal laws and regulations. The State will regulate direct taking of the species through the requirement of State collecting permits. The Service has concluded that the State collection permit system is adequate to protect the species from excessive taking. A separate Federal permit system is not required to address the potential threats to the species.

Indian tribal laws require fishing licenses and limits on all fish taken. No regulations currently exist for squawfish and woundfin since none are presently found on reservation lands; however, the listed Apache trout, which is present on reservation land, is protected by tribal law.

The special rule acknowledges that incidental take of species by State and tribal-licensed recreational fishermen is not a significant threat to the species. Therefore, under this rule, incidental take would not be a violation of the Act if the fishermen returned the individual fish taken to its habitat.

Location of Reintroduced Populations

All of the sites selected for reintroduction of Colorado squawfish and woundfin are totally isolated from existing populations of these species. The nearest population of Colorado squawfish is above Lake Powell in the Green and Colorado Rivers, an upstream distance of at least 800 miles, 6 mainstream dams and 200 miles of dry riverbed from the selected release site. Woundfin are similarly isolated (450 miles distant, 200 miles of dry streambed and 5 mainstream dams from the selected release site). All reintroduction sites are within the probable historic range of these species.

Colorado Squawfish

1. *Arizona: Gila County.* Salt River from Roosevelt Dam upstream to U.S. Highway 60 bridge.

2. *Arizona: Gila and Yavapai Counties.* Verde River from Horseshoe Dam upstream to Perkinsville.

The lower segments of large streams which flow into these two sections of river may, from time to time, be inhabited by Colorado squawfish. Downstream movement of squawfish in these areas will be restricted by dams and upstream movement is limited by lack of suitable habitat.

Woundfin

1. *Arizona: Gila and Yavapai Counties.* Verde River from backwaters of Horseshoe Reservoir upstream to Perkinsville.

2. *Arizona: Graham and Greenlee Counties.* Gila River from backwaters of San Carlos Reservoir upstream to the Arizona/New Mexico State line.

3. *Arizona: Greenlee County.* San Francisco River from its junction with the Gila River upstream to the Arizona/New Mexico State line.

4. *Arizona: Gila County.* Tonto Creek, from Punkin Center upstream to Gisela.

5. *Arizona: Yavapai County.* Hassayampa River, from Red Cliff upstream to Wagoner.

The movement of woundfin beyond these areas will be limited to the lower portion of larger tributaries where suitable habitat exists. Downstream movement is limited by dams, reservoirs, and dry streambed. Upstream movement from these areas is restricted due to the absence of suitable habitat. Upstream areas are too cold and the gradient is too steep to support populations of woundfin.

Management

The Service and the Arizona Game and Fish Department plan to initiate reintroduction as soon as possible. Present plans call for annual stocking for the next 10 years. The first stocking of Colorado squawfish could consist of as many as 100,000 individuals. These could be distributed in approximately equal numbers between the 2 sites identified above. All of the fish will come from the hatchery stock which was spawned and reared in the Dexter National Fish Hatchery in Dexter, New Mexico. Future Colorado squawfish stock will also come from the hatchery. The first stocking of woundfin will consist of at least 5,000 individuals which will be distributed among the 5 areas identified above based on the available habitat in each area. Woundfin for stocking will also come from hatchery stock at Dexter National Fish Hatchery, if possible, but may also come from the Virgin River if Dexter is unable to produce sufficient numbers. Wild fish will be removed from localities in the Virgin River that traditionally become intermittent during the irrigation season, and will not exceed 25,000 fish.

The reintroducted populations will be checked annually to determine their condition. A seining survey will be used to determine population expansion or

VOL
50
ISS
142
JL

1985
UMI

contraction, reproductive success, and general health condition of the fish. This monitoring effort complies with the Service's regulatory requirements. These experimental populations of squawfish and woundfin will be treated as threatened species under all provisions of the Act other than section 7 (except for subsection (a)(1) thereof), under which they will be treated as proposed species. No person may take fish from these experimental populations, except that individual fish of these populations may be taken in accordance with applicable State or Tribal Law.

National Environmental Policy Act

An Environmental Assessment under NEPA has been prepared and is available to the public at the Albuquerque Regional Office of Endangered Species, U.S. Fish and Wildlife Service (see ADDRESSES). This assessment forms the basis for a decision that this is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (implemented at 40 CFR Parts 1500–1508).

Regulatory Flexibility Act and Executive Order 12291

The Department of the Interior has determined that this is not a major action under Executive Order 12291 and certifies that this action will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). These determinations are based on a Determination of Effects that is available at the Service's Regional Office in Albuquerque, New Mexico (see ADDRESSES). That Determination of Effects concluded that these rules will have no effect on any actions now allowed or on any proposed actions presently under consideration. The rule does not contain any information, collection, or recordkeeping requirements as defined in the Paperwork Reduction Act of 1980 (Pub. L. 96–511).

Regulations Promulgation

PART 17—[AMENDED]

Accordingly, Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations, is amended as set forth below:

1. The authority citation for Part 17 continues to read as follows:

Authority: Pub. L. 93–205, 87 Stat. 884; Pub. L. 94–359, 90 Stat. 911; Pub. L. 95–632, 92 Stat. 3751; Pub. L. 96–159, 93 Stat. 1225; Pub. L. 97–304, 96 Stat. 1411 (18 U.S.C. 1531 *et seq.*).

2. Amend § 17.11(h) by adding the following in alphabetical order under FISHES (following the existing entry) to the List of Endangered and Threatened Wildlife:

§ 17.11 Endangered and threatened wildlife.

* * * * *

(h) * * *

Species		Historic range	Vertebrate population where endangered or threatened	Status	When listed	Critical habitat	Special rules
Common name	Scientific name						
FISHES							
Squawfish, Colorado	*Ptychocheilus lucius*	U.S.A. (AZ, CA, CO, NM, NV, UT, WY), Mexico.	Salt and Verde River drainages, AZ.	XN		NA	17.84(b)
Woundfin	*Plagopterus argentissimus*	U.S.A. (AZ, NV, UT)	Gila River drainage, AZ, NM.	XN		NA	17.84(b)

3. Add the following special rule to Part 17 by adding a new § 17.84(b) as follows:

§ 17.84 Special rules—vertebrates.

* * * * *

(b) Colorado squawfish (*Ptychocheilus lucius*) and woundfin (*Plagopterus argentissimus*).

(1) The Colorado squawfish and woundfin populations identified in paragraph (6) below are experimental, nonessential populations.

(2) No person shall take the species, except in accordance with applicable State or Tribal fish and wildlife conservation laws and regulations in the following instances:

(i) For educational purposes, scientific purposes, the enhancement of propagation or survival of the species, zoological exhibition, and other conservation purposes consistent with the Act; or

(ii) Incidental to otherwise lawful activities, provided that the individual fish taken, if still alive, is immediately returned to its habitat.

(3) Any violation of applicable State or Tribal fish and wildlife conservation laws or regulations with respect to the taking of this species (other than incidental taking as described in paragraph (b)(2)(ii) of this section) will also be a violation of the Endangered Species Act.

(4) No person shall possess, sell, deliver, carry, transport, ship, import, or export, by any means whatsoever, any such species taken in violation of these regulations or in violation of applicable State or Tribal fish and wildlife laws or regulations.

(5) It is unlawful for any person to attempt to commit, solicit another to commit, or cause to be committed, any offense defined in paragraphs (b) (2) through (4) of this section.

(6) All of the sites for reintroduction of Colorado squawfish and woundfin are totally isolated from existing populations of these species. The nearest population of Colorado squawfish is above Lake Powell in the Green and Colorado Rivers, an upstream distance of at least 800 miles including 6 mainstream dams, and 200 miles of dry riverbed. Woundfin are similarly isolated (450 miles distant, 200 miles of dry streambed and 5 mainstream dams). All reintroduction sites are within the probable historic range of these species and are as follows:

Colorado Squawfish

(i) *Arizona: Gila County.* Salt River from Roosevelt Dam upstream to U.S Highway 60 bridge.

(ii) *Arizona: Gila and Yavapai Counties.* Verde River from Horseshoe Dam upstream to Perkinsville.

The lower segments of large streams which flow into these two sections of river may, from time to time, be inhabited by Colorado squawfish. Downstream movement of squawfish in these areas will be restricted by dams and upstream movement is limited by lack of suitable habitat.

Woundfin

(i) *Arizona: Gila and Yavapai Counties.* Verde River from backwaters of Horseshoe Reservoir upstream to Perkinsville.

(ii) *Arizona: Graham and Greenlee Counties.* Gila River from backwaters of San Carlos Reservoir upstream to Arizona/New Mexico State line.

(iii) *Arizona: Greenlee County.* San Francisco River from its junction with the Gila River upstream to the Arizona/New Mexico State line.

(iv) *Arizona: Gila County.* Tonto Creek, from Punkin Center upstream to Gisela.

(v) *Arizona: Yavapai County.* Hassayampa River, from Red Cliff upstream to Wagoner.

The movement of woundfin beyond these areas will be limited to the lower portion of larger tributaries where suitable habitat exists. Downstream movement is limited by dams, reservoirs, and dry streambed. Upstream movement from these areas is restricted due to the absence of habitat. Upstream areas are too cold and the gradient is too steep to support populations of woundfin.

(7) The reintroduced populations will be checked annually to determine their condition. A seining survey will be used to determine population expansion or contraction, reproduction success, and general health condition of the fish.

Dated: June 27, 1985.

J. Craig Potter,

Acting Assistant Secretary for Fish and Wildlife and Parks.

[FR Doc. 85–17398 Filed 7–23–85; 8:45 am]

BILLING CODE 4310–55–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 661

[Docket No. 50458–5048]

Ocean Salmon Fisheries off the Coasts of Washington, Oregon, and California

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: The Secretary of Commerce (Secretary) announces the closure of the non-Indian commercial salmon fishery in the fishery conservation zone (FCZ) between Cape Alava, Washington, and Leadbetter Point, Washington, effective on filing of this notice with the Office of the Federal Register, because the quota for coho salmon has been taken. The Director, Northwest Region, NMFS (Regional Director), has determined in consultation with the Washington Department of Fisheries (WDF) that the commercial fishery quota of 78,500 coho salmon for the area was reached by midnight, July 18. The intended effect is to conserve the coho salmon fishery resource.

EFFECTIVE DATE: Closure of the FCZ between Cape Alava, Washington, and Leadbetter Point, Washington, to commercial salmon fishing is effective 0001 hours, Pacific Daylight Time, July 19, 1985.

ADDRESS: Data and other information relevant to this action have been compiled in aggregate form and are available for public review at the Northwest Region, NMFS, 7600 Sand Point Way NE., Building 1, Seattle, Washington, from 8:00 a.m. to 4:30 p.m. weekdays.

FOR FURTHER INFORMATION CONTACT: Rolland A. Schmitten 206–526–6150.

SUPPLEMENTARY INFORMATION: The regulations implementing the framework amendment for the ocean salmon fisheries (49 FR 43679, October 31, 1984) specify at § 661.21(a)(1) that when a quota for the commercial or the recreational fishery, or both, for any salmon species during any period open to fishing in any portion of the fishery management area is projected by the Regional Director to be reached on or by a certain date, the Secretary will, by publishing a notice in the Federal Register, close the commercial or recreational fishery, or both, for all salmon species in the portion of the fishery management area to which the quota applies as of the date the quota is projected to be reached.

The 1985 season for the non-Indian commercial fishery for all salmon species in the FCZ between Cape Alava, Washington, and Leadbetter Point, Washington, is July 15 through the earliest of July 31 or attainment of a 78,500 coho quota or a 16,100 chinook quota (50 FR 18672, May 2, 1985). Based on the most recent catch and effort information supplied by WDF, the non-Indian commercial fishery catch in the area reached the 78,500 coho salmon quota by midnight, July 18, when WDF acted to close State waters and to prohibit further landings after a grace period of 48 hours (midnight, July 20) for landings in Washington ports. Oregon prohibits troll landings in Oregon ports from this area after midnight, July 19, 1985. The Secretary therefore issues this notice to close the non-Indian commercial fishery in the FCZ between Cape Alava, Washington, and Leadbetter Point, Washington, effective on the filing of this notice with the Office of the Federal Register. This notice does not apply to the treaty Indian troll fishery in the same area or other fisheries which may be operating in other areas.

The Regional Director consulted with the Pacific Fishery Management Council and WDF regarding this closure.

Other Matters

This action is taken under the authority of § 661.23 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 661

Fish, Fisheries, Fishing, Indians.

Dated: July 19, 1985.

Carmen J. Blondin,

Deputy Assistant Administrator for Fisheries Resource Management, National Marine Fisheries Service.

BILLING CODE 3510–22–M

50 CFR Part 663

[Docket No. 41155–4175]

Pacific Coast Groundfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of fishing restriction and boundary revision, and request for comments.

SUMMARY: NOAA issues this notice (1) establishing restrictions to reduce further the levels of fishing in 1985 for widow rockfish taken off the coasts of Washington, Oregon, and California, and (2) changing the management boundary for the *Sebastes* complex of

VOL
50
ISS
142
JL
24
1985
UMI

rockfish, and seeks public comment on these actions. These actions are authorized under regulations implementing the Pacific Coast Groundfish Fishery Management Plan and are intended (1) to reduce the probability of a fishery closure on widow rockfish before the end of the year (2) to minimize the negative impacts of current fishing restrictions on the fishing community of Coos Bay, Oregon.

DATES: The trip limit for widow rockfish will be effective at 0001 hours Pacific Daylight Time (PDT), July 21, 1985. Change to the management area for the *Sebastes* complex will be effective at 0001 hours PDT, September 1, 1985. These actions will remain in effect until modified, superseded, or rescinded. Comments on both actions will be accepted through August 8, 1985.

ADDRESSES: Submit comments on these actions to Mr. Rolland A. Schmitten, Director, Nortwest Region, National Marine Fisheries Service, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98175; or Mr. E.C. Fullerton, Director, Southwest Region, 300 South Ferry Street, Terminal Island, CA 90731.

FOR FURTHER INFORMATION CONTACT: R.A. Schmitten at 206–526–6150, E.C. Fullerton at 213–548–2575, or the Pacific Fishery Management Council at 503–221–6352.

SUPPLEMENTARY INFORMATION: Implementing regulations for the Pacific Coast Groundfish Fishery Management Plan at §§ 663.22. and 663.23 provide for inseason adjustments of fishing levels by notice published in the **Federal Register.** This action supersedes those provisions in the notice (50-FR 18668, May 2, 1985) which limited landings of widow rockfish (*Sebastes entomelas*) and the *Sebastes* complex of rockfish (all species of rockfish in the Scorpaenidae family except widow rockfish, Pacific ocean perch (S. Alutus). Shortbelly rockfish (*S. jordani*), and *Sebastolobus* species of rockfishes). The provisions for Pacific ocean perch (50 FR 18668, May 2, 1985) and for sablefish (*Anoplopoma fimbria*) (50 FR 2851, January 15, 1985) remain in effect.

The Pacific Fishery Management Council (Council) reviewed the progress of the groundfish fishery at its July 1985 meeting in Los Angeles, California. The Council's recommendations for the remainder of 1985 and actions taken by the Secretary on those recommendations are presented below. Because the vast majority of groundfish caught off Washington, Oregon, and California are taken from the fishery conservation zone (FCZ) 3–200 nautical miles offshore, all groundfish taken in ocean waters off Washington, Oregon, and California and retained or landed in violation of these restrictions will be treated as though they were taken in the FCZ, the same as in 1984.

1. Lower Trip Limits for Widow Rockfish

Council Recommendation: The Council recommended that a trip limit of 3,000 pounds (with no limit on the number of trips) should replace the current trip limit (30,000 pounds once a week with no limit on landings less than 3,000 pounds).

Rationale: The coastwide optimum yield quota (OY) for widow rockfish in 1985 is 9,300 metric tons, the same as in 1984, but 26 percent above the 1985 allowable biological catch (ABC) of 7,400 mt. When OY is reached, further landings of this species will be prohibited.

In 1985, trip limits were set in January—30,000 pounds once a week or 60,000 pounds once every two weeks—and revised in April—the bi-weekly trip limit provision was deleted. Also in April, the Council announced its intent to restrict the target fishery on widow rockfish severely if 90 percent of the OY were landed before the Council meeting on July 10, in which case the trip limit would be reduced to 3,000 pounds or 10 percent of all fish on board, whichever is less, if more than 1,000 pounds of widow rockfish were on board. However, 90 percent of OY was not projected to be reached until July 14 and at its July 10 meeting the Council recommended and adopted a trip limit of 3,000 pounds, which is simpler to implement from both an enforcement and compliance standpoint. This limit is intended to virtually eliminate target fishing on widow rockfish, while allowing small incidental catches to be landed, slowing the achievement of OY, minimizing discards, and enabling small markets for this species to be supplied as long as possible in 1985. If no action were taken, OY would be reached and the fishery closed in early August.

Secretarial Action: The Secretary concurs with the Council's recommendation and announces—

(1) No more than 3,000 pounds (round weight) of widow rockfish may be taken and retained, or landed, per vessel per fishing trip.

(2) These restrictions apply to all widow rockfish taken and retained in ocean waters (0–200 nautical miles) offshore of, or landed in, Washington, Oregon, and California.

(3) Landing of widow rockfish in the pink shrimp and spot and ridgeback prawn fisheries are governed by the regulations at § 663.28.

2. Shift in Fishing Boundaries for Sebastes Complex

Council Recommendation: The Council recommended that the boundary that currently separates the two trip limits for the *Sebastes* complex should be shifted about 30 miles to the north, from Cape Blanco, Oregon, at 42°50′ N. latitude to the north jetty of Coos Bay, Oregon, at 43°22′ N. latitude. Current trip limits are: North of Cape Blanco—15,000 pounds of the *Sebastes* complex, of which no more than 5,000 pounds may be yellowtail rockfish (*S. flovidus*), with only one landing a week above 3,000 pounds unless biweekly or twice-weekly landing options have been chosen; south of Cape Blanco—40,000 pounds per trip with no limit on the number of trips. No other change to the trip limits for the *Sebastes* complex was recommended.

Rationale: Yellowtail rockfish, found predominantly off Washington and northern Oregon, is the only species found to be biologically stressed in the multispecies *Sebastes* complex. Consequently two different area trip limits were set for this complex. The trip limit north of Cape Blanco was designed to reduce landings of yellowtail rockfish and alleviate stress on that stock. The southern, more liberal limit, which does not severely restrict normal fishing practices, was necessary to discourage a large effort shift to southern waters and thus avoid excessive harvest of other species in the complex. These limits also require that if more than 3,000 pounds of *Sebastes* complex is caught on one side of the line and possessed on the other during a fishing trip, fishermen must have notified the Oregon Department of Fish and Wildlife before leaving port on that trip. If this notification is not made, the more restrictive trip limit applies.

Coos Bay fishermen testified that these provisions caused an undue burden, the boundary at Cape Blanco is approximately 30 miles south of Coos Bay. The productive fishing grounds just south of Cape Blanco have unpredicticable weather that can rapidly become dangerous or unsuitable for fishing. As a result, fishermen may leave Coos Bay with the expectation of a 40,000 pound trip only to find unfishable conditions in the southern area. If they fish north of Cape Blanco on their return, the northern limit applies and the fuel and time spent traveling south to Cape Blanco is a large expense relative to the earnings from the trip.

Moving the line from Cape Blanco to the north jetty of Coos Bay will simplify and enhance the operations of fishermen whose *Sebastes* fishing grounds are predominantly in the vacinity of Cape Blanco. Fishermen will be able to land more of the *Sebastes* complex if the more liberal 40,000 pound trip limit is extended north to Coos Bay and the problem of not recovering expenses if unable to fish south of Cape Blanco will be alleviated. Fishermen also will have fewer transboundary declarations to make since they infrequently will fish for the *Sebastes* complex north of Coos Bay.

The Council considered these factors, hearing additional testimony that there is no known biological reason to deny this change because the amount of yellowtail rockfish taken between Coos Bay and Cape Blanco is negligible. If in place for the entire year, this 30-mile change in areas could reduce the harvest guideline for the northern area by about 800 metric tons. However, because Coos Bay is not at a statistical reporting boundary, recomputation of the harvest guideline and adjustment of the computerized data system cannot be accomplished immediately. Therefore, this line change cannot occur before September 1, 1985. Because the line change is expected to have a minimal impact on the resource and will benefit the fishery, the Council recommended moving the management line to the north jetty of Coos Bay on September 1, 1985. Changes to the harvest guideline for the *Sebastes* complex and the appropriate placement of the line, including the possibility of placing it at Cape Falcon, Oregon (at 45°46′N. latitude) will be considered for the 1986 season when the Council meets in Seattle, Washington, in November.

Secretarial Action: The Secretary concurs with the Council's recommendations and herein repeats in full for the convenience of fishermen the trip limit provisions published in the **Federal Register** (50 FR 18668 May 2, 1985) only changing "Cape Blanco" to "Coos Bay", as follows—

(1) *Definitions.*

(a) *Sebastes* complex means all rockfish managed by the FMP except Pacific ocean perch (*Sebastes alutus*), widow rockfish (*S. entomelas*), shortbelly rockfish (*S. jordani*), and *Sebastolobus* species of rockfish (which includes idiot rockfishes). The *Sebastes* complex includes yellowtail rockfish (*Sebastes flavidus*).

(b) "One-week period" means seven consecutive days beginning 0001 hours Sunday and ending 2400 hours Saturday, local time.

(c) "Two-week period" means 14 consecutive days beginning at 0001 hours Sunday and ending 2400 hours Saturday, local time.

(d) All weights are round weights, the weight of the whole fish.

(2) *General.*

(a) These restrictions apply to all fish of the *Sebastes* complex taken and retained in ocean waters (0–200 nautical miles) offshore of, or landed in, Washington, Oregon, and California.

(b) There is no limit on the number of landings under 3,000 pounds of the *Sebastes* complex allowed per week.

(c) It will be presumed that all fish of the *Sebastes* complex which are possessed or landed north of the north jetty at Coos Bay, Oregon (43°22′N. latitude), hereafter referred to as Coos Bay, were caught north of Coos Bay unless compliance with paragraph (3) can be demonstrated.

(3) *Operating both north and south of Coos Bay in a trip.* Unless compliance with this paragraph can be demonstrated, fishing for any groundfish species during a single fishing trip must occur either north or south, but not on both sides of Coos Bay if more than 3,000 pounds of the *Sebastes* complex is landed from that trip. The vessel owner or operator must notify the State of Oregon before leaving port on a fishing trip of intent to fish in one area and possess or land in the other, in which case fishing may occur both north and south of Coos Bay. If fishing occurs both north and south of Coos Bay during a single fishing trip, then the restrictions on the *Sebastes* complex caught north of Coos Bay apply.

This notification, submitted by telephone or in writing, should be made to the Oregon Department of Fish and Wildlife, Marine Regional Office, Marine Science Drive, Building No. 3, Newport, OR 97365, telephone 503–867–4741; or P.O. Box 5430, Charleston, OR 97420, telephone 503–888–5515, between 8:00 a.m. and 4:30 p.m., and other times at 503–269–5000 or 503–269–5999; or 53 Portway Street, Astoria, OR 97103, telephone 503–325–2462.

(4) *Restrictions on the Sebastes complex caught north of Coos Bay.* (a) *Weekly trip limit.* Except for the biweekly and twice weekly trip limits provided in paragraphs (4)(b) and (4)(c), no more than 15,000 pounds of the *Sebastes* complex, including no more than 5,000 pounds of yellowtail rockfish, may be taken and retained, possessed, or landed, per vessel per fishing trip in a one-week period north of Coos Bay. Only one landing of the *Sebastes* complex above 3,000 pounds may be made per vessel in that one-week period.

(b) *Biweekly trip limit.* If the appropriate agency is notified as required by this paragraph, up to 30,000 pounds of the *Sebastes* complex, including no more than 10,000 pounds of yellowtail rockfish, may be taken and retained, possessed or landed, per vessel per fishing trip in a two-week period north of Coos Bay. Only one landing of the *Sebastes* complex above 3,000 pounds may be made per vessel in that two-week period, and only if compliance with this paragraph can be demonstrated. The vessel owner or operator must notify the fishery agency of the State where the fish will be landed in order to make one landing of the *Sebastes* complex above 3,000 pounds every *two* weeks, which obligates the vessel owner and operator to use only the biweekly trip limit unless rescinded in writing.

The State of Oregon or California must receive a written notice declaring intent to use the biweekly limits before the first day of the first two-week period in which such landings are to occur; the notice is binding for entire one-month periods (two consecutive two-week periods). This notice of intent may be canceled by notifying the appropriate State in writing prior to the two-week period in which this rescission is to occur. The State of Washington must receive written notice declaring intent to use the biweekly limits postmarked at least seven days before the first day of the first two-week period in which such landings are to occur. This notice of intent may be canceled by notifying the State in writing postmarked at least seven days before the calendar month in which this rescission is to occur.

Notifications must be submitted to the Oregon Department of Fish and Wildlife, Marine Regional Office, Marine Science Drive, Building No. 3, Newport, OR 97365, telephone 503–867–4741; P.O. Box 5430, Charleston, OR 97420, telephone 503–888–5515, between 8:00 a.m. and 4:30 p.m., and other times at 503–269–5000 or 503–269–5999; 53 Portway street, Astoria, OR 97103, telephone 503–325–2462; or to the Washington Department of Fisheries, 115 General Administration Building, Olympia, WA 98504; or to the California Department of Fish and Game, Branch Office, 619 Second Street, Eureka, CA 95501.

(c) *Twice weekly trip limit.* If the appropriate agency is notified as required by this paragraph, up to 7,500 pounds of the *Sebastes* complex, including no more than 3,000 pounds of yellowtail rockfish, may be taken and retained, possessed, or landed, per vessel per fishing trip north of Coos Bay. Only two landings of the *Sebastes* complex above 3,000 pounds may be made per vessel in a one-week period, and only if compliance with this

VOL 50 ISS 142 JL 24 1985 UMI

paragraph can be demonstrated. The vessel owner or operator must notify the fishery agency of the State where the fish will be landed in order to make two landings of the *Sebastes* complex above 3,000 pounds in a one-week period, which obligates the vessel owner and operator to use only the twice weekly trip limit unless rescinded in writing.

The State of Oregon or California must receive a written notice declaring intent to use the twice weekly limits before the first day of the first one-week period in which such landings are to occur; the notice is binding for entire one-month periods (defined as two consecutive two-week periods). This notice of intent may be canceled by notifying the appropriate State in writing prior to the one-week period in which this rescission is to occur. The State of Washington must receive a written notice declaring intent to use the twice-weekly limits postmarked at least seven days before the first day of the first one-week period in which such landings are to occur. This notice of intent may be canceled by notifying the State in writing postmarked at least seven days prior to the calendar month in which this rescission is to occur. Notifications must be submitted to the same addresses given in paragraph (4)(b) of this section for biweekly trip limits.

(5) *Restrictions on the Sebastes complex caught south of Coos Bay.*

No more than 40,000 pounds of the *Sebastes* complex may be taken and retained, possessed, or landed, per vessel per fishing trip south of Coos Bay. There is no limit on the number of landings allowed per week of the *Sebastes* complex caught south of Coos Bay.

Other Fisheries

These limits for widow rockfish and the *Sebastes* complex apply to vessels of the United States, including those vessels delivering groundfish to foreign processors. Retention of these species by foreign processing vessels is limited by separate incidental retention allowances established under 50 CFR 611.70.

U.S. vessels operating under an experimental fishing permit issued under § 663.10 also are subject to these restrictions except as may be otherwise specified in the permits.

Landings of groundfish in the pink shrimp and spot and ridgeback prawn fisheries are governed by regulations at § 663.28.

Classification

The determination to impose these fishing restrictions is based on the most recent data available. The aggregate data upon which the determination is based are available for public inspection at the Office of the Director, Northwest Region (see **ADDRESSES**) during business hours until the end of the comment period.

These actions are taken under the authority of §§ 663.22 and 663.23, and are in compliance with Executive Order 12291. The actions are covered by the Regulatory Flexibility Analysis prepared for the authorizing regulations.

Section 663.23 of the groundfish regulations states that the Secretary will publish a notice of action reducing fishing levels in proposed form unless he determines that prior notice and public review are impracticable, unnecessary, or contrary to the public interest. If current fishing rates continue, the optimum yield quota for widow rockfish will be reached by the end of 1985. Prompt action to lower those fishing rates is necessary to reduce the probability of year-end closure of the widow rockfish fishery in 1985. Consequently, further delay of this action is impracticable and contrary to the public interest, and this action therefore is taken in final form effective July 21, 1985. However, prior comment will be accepted before moving the *Sebastes* complex management line north to Coos Bay.

The public has had opportunity to comment on these actions at the Groundfish Select Group, Groundfish Management Team, and Council meetings in April, June, and July 1985 that generated the management actions endorsed by the Council and the Secretary. Further public comments will be accepted for 15 days after publication of this notice in the **Federal Register**.

BILLING CODE 3510-22-M

---

50 CFR Part 681

[Docket No. 50460-5060]

Western Pacific Spiny Lobster Fisheries

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Emergency interim rule; extension of effective date.

SUMMARY: The Secretary of Commerce (Secretary) extends an emergency rule now in effect to resolve an enforcement problem for spiny lobsters in the Western Pacific. It defines a legal-sized spiny lobster by a tail-width measurement and eliminates any tolerance for undersized spiny lobsters. The intended effect is to make it easier to enforce the regulations and monitor the landings of spiny lobsters.

DATES: Suspension of the definition of *Tail width* in § 681.2 and of § 681.21 (a) and (b) is extended from July 24, 1985, to October 22, 1985. The effective date of the emergency definition of *Tail width* and of § 681.21(c) is extended from July 24, 1985, to October 22, 1985.

FOR FURTHER INFORMATION CONTACT: Robert T.B. Iverson, 808-955-8831.

SUPPLEMENTARY INFORMATION: Under section 305(e) of the Magnuson Fishery Conservation and Management Act (Magnuson Act), the Secretary issued an emergency rule (50 CFR 18264, April 30, 1985) amending the Fishery Management Plan for the Spiny Lobster Fisheries of the Western Pacific Region and its implementing regulations. This rule defined the tail-width measurement to be used to determine a legal-sized spiny lobster and eliminated the existing 15 percent tolerance for undersized lobsters in the catch. The previous method of measuring spiny lobsters proved unworkable and some fishermen were deliberately taking undersized lobsters up to the tolerance limit, as described in the preamble to the emergency rule. Public comments were invited on this rule for 30 days after filing. No comments were received.

The Western Pacific Fishery Management Council has voted to extend this emergency rule for an additional 90 days, since the conditions requiring the original emergency rule still exist.

The emergency rule is exempt from the normal review procedures of Executive Order 12291 as provided for in section 8(a)(1) of that order. This rule is being reported to the Office of Management and Budget, with an explanation of why it is not possible to follow the procedures of that order.

Proposed Rules

Federal Register
Vol. 50, No. 142
Wednesday, July 24, 1985

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 51

United States Standards for Grades of Fresh Tomatoes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This action would amend the voluntary United States Standards for Grades of Fresh Tomatoes. Industry representatives have requested that the grade standards be amended to change the size requirements and the generic size designations. Adoption of the requested changes would provide industry with size designations in line with current sizing capabilities.

DATE: Comments must be received on or before September 23, 1985.

ADDRESS: Interested persons are invited to submit written comments concerning this proposal. Comments must be sent in duplicate to the Docket Clerk, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2069, South Building, Washington, D.C. 20250. Comments should reference the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: David L. Priester, Fresh Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447-5410.

SUPPLEMENTARY INFORMATION: This rule had been reviewed under USDA Procedures and Executive Order 12291 and has been designated as a "nonmajor" rule. It would not result in an annual effect on the economy of $100 million or more. There would be no major increase in cost or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions. It would not result in significant effects on competition, employment, investments, productivity, innovations, the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

William T. Manley, Deputy Administrator, Agricultural Marketing Service has certified that this action will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act, Pub. L. 96-354 (5 U.S.C. 601), because it reflects current marketing practices.

The voluntary United States Standards for Grades of Fresh Tomatoes were last amended in March 1976. Industry representatives have requested that the standards be amended to change the size requirements and the generic size designations.

	Minimum diameter	Maximum diameter
Current		
Extra small	1 9/32	2 2/32
Small	2 1/32	2 5/32
Medium	2 5/32	2 17/32
Large	2 13/32	2 25/32
Extra large	2 21/32	3 1/32
Maximum large	3 1/32	
Proposed		
Small	2 5/32	2 17/32
Medium	2 5/32	2 25/32
Large	2 17/32	2 29/32
Extra large	2 25/32	3 1/32
Maximum large	3 1/32	

The recent introduction of commercially important varieties that tend to be characteristically oblong as opposed to the more spherical shape of traditional varieties is presenting difficulties in sizing to meet size requirements. Adoption of the proposed changes would significantly lessen this difficulty and promote more uniform trading practices.

This proposal would also add to the combination grade (U.S. No. 1—U.S. No. 2) the provision that individual containers shall not have more than 10 percent less than the percentage of the U.S. No. 1 grade specified. This provision was unintentionally omitted in a prior amendment of the standards. The reference to USDA's color photo Visual Aid TM-L-1 would be updated.

7 CFR Part 989

Raisins Produced From Grapes Grown in California; Establishment of Incoming Weight Dockage and Weight Adjustment Systems for Certain Seedless Raisins, and Addition of Incoming and Outgoing Grade Standards for Cluster Seedless Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule invites comments on the proposed establishment of: (1) A weight dockage system for certain seedless raisins which do not meet incoming maturity requirements, to mitigate the impact of tighter requirements scheduled to take effect August 1, 1985; (2) a weight adjustment system, based on moisture content, for certain seedless raisins to foster the delivery of drier raisins; and (3) incoming and outgoing grade standards for Cluster Seedless raisins to increase consumer confidence in this relatively new product. These proposals were recommended by the Raisin Administrative Committee (Committee), which works with the USDA in administering the order.

DATE: Comments must be received by August 7, 1985.

ADDRESS: Interested persons are invited to submit written comments concerning this proposal. Comments must be sent in duplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, Room 2069, South Building, Washington, D.C. 20250. Comments should reference the date and page number of this issue of the **Federal Register** and will be available for public inspection in the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Frank M. Grasberger, Acting Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, Telephone Number (202) 447-5053.

SUPPLEMENTARY INFORMATION: This proposal has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this proposal will not have a significant economic impact on a substantial number of small entities.

This proposal would amend Subpart—Supplementary Regulations (7 CFR 989.210—989.221) by revising § 989.210 and by adding §§ 989.211, 989.212, and 989.213 to establish (1) a weight dockage system for Grade B or better maturity[1] and (2) a weight adjustment system for moisture for certain seedless raisins delivered by producers to packers. It would also amend Subpart—Quality Control (7 CFR 989.701–989.702) by revising §§ 989.701 and 989.702 to establish incoming and outgoing quality standards for Cluster Seedless raisins. These subparts are operative pursuant to the marketing agreement and Order No. 989, both as amended, regulating the handling of raisins produced from grapes grown in California. The marketing agreement and order, hereinafter referred to collectively as the "order", are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). Authority for the following proposals is contained in §§ 989.58 and 989.59 of the order.

Last year changes were made in the incoming grade standards for raisins delivered by producers to packers contained in § 989.701 and the grade standards for packed raisins contained in § 989.702 to make the California raisin industry more quality competitive with foreign producers, and to increase user acceptance of California raisins (49 FR 33992). One of those changes, starting November 15, 1985, requires packed Natural (sun-dried) Seedless, Dipped Seedless, Oleate and Related Seedless, Golden Seedless, and Monukka raisins to contain at least 70 percent Grade B or better maturity raisins. The current Grade B or better standard for packed raisins is 82.5 percent. Beginning August 1, 1985, raisin lots of those varietal types delivered by producers to packers must contain a minimum of 50 percent Grade B or better maturity raisins. Raisin lots containing less than 50 percent Grade B or better maturity raisins would be off-grade and could not be acquired by raisin packers except for reconditioning or disposition as off-grade raisins.

To alleviate the impact on producers as much as possible in delivering raisins to packers, the Committee has now proposed a weight dockage system for Grade B or better maturity for those raisins delivered failing to meet the new incoming standard. Under the proposal, raisin packers could acquire lots of those varietal types of raisins with 40 to 49.9 percent Grade B or better maturity without reconditioning, but the net weight of the deliveries would be docked 2 percentage points in weight for each one percentage point the Grade B or better maturity content is less than 50 percent. The weight reduction of the lot would approximate the weight of the raisins needed to be removed from the lot by the packer during normal processing for the balance of the lot to meet the new 70 percent Grade B or better maturity taking effect on November 15, 1985. Deliveries determined to have less than 40 percent Grade B or better maturity would be off-grade and thus would have to be disposed of by the packer as off-grade, reconditioned, or returned to the producer. If these raisins were acquired under a dockage system, packers would experience higher than normal yield losses, and greater processing costs in obtaining a product that would meet the 70 percent Grade B or better maturity for packed raisins.

No changes were proposed in the incoming standards for substandard raisins[2] of those varietal types. The current tolerance for substandard raisins is 5 percent with a dockage system prescribing a 1 percent weight deduction for each 1 percent substandard in excess of 5.1 percent up to 10 percent. Deliveries with more than 10 percent are off-grade and require reconditioning before they can be acquired by packers. In the absence of reconditioning, the raisins are returned to the producer, or disposed of by packers as off-grade raisins.

The amount of dockage under the proposed dockage system for Grade B or better maturity and the system currently in effect for substandard raisins would operate concurrently under the proposal. Dockage for both categories would be calculated and the highest dockage would be applied to the net weight of the producers deliveries.

The proposed weight adjustment system for moisture is intended to encourage raisin producers to deliver

[1] For the purposes of this document Grade B or better maturity raisins are raisins which are well-matured or reasonably well-matured as defined in the U.S. Standards for Grades of Processed Raisins (7 CFR 52.1841–52.1858).

[2] For the purposes of this document, substandard raisins are raisins which are less than fairly well-matured as defined in the United States Standards for Grades of Processed Raisins (7 CFR 52.1841–52.1858).

drier Natural (sun-dried) Seedless and Monukka raisins to packers (i.e., in the 10 to 14 percent moisture range). The industry has found that higher maturity raisins of these varietal types with a moisture level in excess of 14 percent tend to sugar if held in storage for extended periods of time. Sugaring is an undesirable condition in raisins because the raisins feel gritty, rather than soft and pliable, when eaten. Increasing the storage life of raisins is important to the industry because of the industry's current burdensome supply situation and the potential for continued large productions in the immediate future. This situation will result in raisins being held for longer periods of time in the industry's reserve pools.

Under this system, growers delivering lots of raisins containing 14.1 through 16.0 percent moisture would be docked 2 pounds of raisins per ton for each 1/10 percent moisture in excess of 14 percent. Growers delivering raisins with 12.0 through 13.9 percent moisture, would receive a weight credit of 2 pounds of raisins per ton for each 1/10 percent moisture under 14.0 percent. Raisins with a moisture percentage of 10.0 through 11.9 percent would receive a weight credit of 40 pounds per ton. The weight of raisins containing less than 10 percent moisture would not be docked or adjusted because such raisins are difficult to hydrate, damage in processing, and result in increased packer processing costs. There would be no dockage or adjustment on raisins containing 14 percent moisture.

The moisture adjustment calculations will be made when applicable prior to the application of substandard or Grade B or better maturity dockage.

Last year, the Committee exempted 10 tons of Cluster Seedless raisins from all order requirements pursuant to § 989.60 of the order. Cluster Seedless raisins are sun-dried Thompson Seedless grapes which are marketed unstemmed and left in bunches. About 3 to 4 tons were marketed under this exemption. Experiments were conducted to determine the grade and condition standards which could be applied to Cluster Seedless raisins. As a result of marketing experience gained last year, and experimentation on quality requirements, 100 tons were approved for exemption from volume controls for the 1985 season. However, the Committee recommended that incoming and outgoing standards for Cluster Seedless raisins should be established under the order to assure consumers of a quality product and help expand markets for this new product. Also, this would allow the industry another year's experience before recommending standards to the Department to be established in the United States Standards for Processed Raisins.

List of Subjects in 7 CFR Part 989

Marketing agreements and orders, Grapes, Raisins, and California.

1. The authority citation for 7 CFR Part 989 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 989.210 of Subpart—Supplementary Regulations (7 CFR 989.210–989.221) is revised to read as follows:

Subpart—Supplementary Regulations

§ 989.210 Handling of varietal types of raisins acquired pursuant to a weight dockage and/or weight adjustment (moisture) system.

(a) *General.* A handler may acquire as standard raisins lots of Natural (sun-dried) Seedless, Golden Seedless, Dipped Seedless, Oleate and Related Seedless, Monukka, Sultana, Zante Currant and Muscat (including other raisins with seeds) raisins under the weight dockage and/or weight adjustment (moisture) provisions described in §§ 989.211, 989.212, and 989.213. The creditable weight of each lot of raisins acquired in this manner shall be that obtained by multiplying the net weight of the raisins in the lot by the applicable factor(s) from the appropriate dockage and/or weight adjustment (moisture) table(s) included in those sections.

(b) *Free and reserve tonnage percentages.* Whenever free and reserve percentages are designated for raisins of the varietal types specified in paragraph (a) of this section for a crop year, such percentages shall be applicable to the creditable weight of any lot of such raisins acquired by a handler pursuant to a weight dockage and/or weight adjustment (moisture) system.

(c) *Reserve tonnage.* A handler may hold as reserve tonnage raisins, any lot, or portion thereof, of raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage and/or weight adjustment (moisture) system: *Provided,* That only the creditable weight of such lot, or portion thereof, may be applied by the Committee against the handler's reserve tonnage obligation.

(d) *Assessments.* Assessments on any lot of raisins of the varietal types specified in paragraph (a) of this section acquired by a handler pursuant to a weight dockage and/or weight adjustment (moisture) system shall be applicable to the free tonnage portion of the creditable weight of such lot.

(e) *Payments for services on reserve tonnage.* Payment to a handler for services performed by him with respect to reserve tonnage raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage and/or weight adjustment (moisture) system shall be made on the basis of the creditable weight of such lot and at the applicable rate specified for such services in § 989.401 of Subpart—Schedule of Payments.

(f) *Identification.* Any lot of raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage and/or weight adjustment (moisture) system shall be so identified by the inspection service affixing to one container on each pallet, or to each bin, in such lot, a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed to the container or bin until the raisins are processed or disposed of as natural condition raisins. The control card shall only be removed by, or under the supervision of an inspector of, the inspection service, or authorized Committee personnel.

(g) *Application of dockage and/or weight adjustment (moisture) factor(s).* The weight adjustment factor for moisture shall be applied to the net weight of raisins acquired, prior to application of the dockage factor for substandard or maturity. A lot of raisins acquired which may be subject to both a substandard and maturity dockage factor shall have only the highest of the two dockage factors applied to determine the creditable weight.

3. A new § 989.211 is added to Subpart—Supplementary Regulations (7 CFR 989.210–989.221) to read as follows:

§ 989.211 Weight adjustment (moisture) system.

(a) *General.* Natural (sun-dried) Seedless, and Monukka raisins containing from 14.1 percent through 16.0 percent moisture or from 10.0 percent through 13.9 percent moisture may be acquired by a handler under a weight adjustment system. The creditable weight of each lot of raisins acquired under this adjustment system shall be obtained by multiplying the net weight of the raisins in the lot by the applicable factor prescribed in paragraph (b) or (c) of this section.

(b) *Adustment table for Natural (sun-dried) Seedless and Monukka raisins with 14.1 percent through 16.0 percent moisture:*

Percent moisture	Adjustment factor
16.0	.980

4. A new § 989.212 is added to Subpart—Supplementary Regulations (7 CFR 989.210—989.221) to read as follows:

§ 989.212 Substandard docket.

(a) *General.* Subject to prior agreement between handler and tenderer, Natural (sun-dried) Seedless, Dipped Seedless, Oleate and Related Seedless and Monukka raisins containing from 5.1 through 10.0 percent, by weight, of substandard raisins may be acquired by a handler under a weight dockage sysem. A handler also may, subject to prior agreement, acquire as standard raisins any lot of Muscat (including other raisins with seeds), Sultana, and Zante Currant raisins containing more than 12 percent, by weight, of substandard raisins under a dockage system. The creditable weight of each lot of raisins acquired under the substandard dockage system shall be obtained by multiplying the applicable net weight or créditable weight (weight determined by applyng the applicable weight adjustment factor for moisture), of the lot of raisins by the applicable dockage factor from the appropriate dockage table prescribed in paragraph (b) or (c) of this section.

(b) *Substandard dockage table applicable to Natural (sun-dried) Seedless, Dipped Seedless, Oleate and Related Seedless, and Monukka raisins.*

49.3	.986
49.2	.984
49.1	.982
49.0	.980

(') No dockage.
NOTE. Percentages less than the last percentage shown in the table shall be expressed in the same increments as the foregoing, and the dockage factor for each such increment shall be .002 less than the dockage factor for the preceding increment. No dockage shall apply to lots of raisins containing 39.9 percent or less well-matured or reasonably well-matured raisins.

6. The preamble of § 989.701 and § 989.701(a) of Subpart—Quality Control (7 CFR 989.701–989.702) are revised to read as follows:

Subpart—Quality control

§ 989.701 Minimum grade and condition standards for natural condition raisins.

Effective pursuant to § 989.58, raisins meeting the varietal standards hereinafter set forth shall be considered as standard raisins and those failing to meet such standards shall be considered as off-grade raisins. Where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as a mixed lot and as standard raisins if they meet for each defect the most restrictive requirements for the varietal types of raisins comprising the lot. In the event layered Muscats (including other raisins with seeds) or Cluster Seedless raisins are commingled within their containers with loose Muscats (including other raisins with seeds) or loose Cluster Seedless raisins respectively, the entire lot shall be considered as loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins. The raisins shall be considered as standard raisins if the lot as a whole meets the minimum standards for loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins: *Provided,* That with respect to the requirements peculiar to a varietal type such as possessing characteristic color, flavor, or odor, the raisins shall be considered as meeting such requirements if they have been properly prepared as raisins. In each category, only those raisins which have been properly dried and cured in original natural condition, are free from active infestation, and are in such condition that they are capable of being received, stored, and packed without undue deterioration or spoilage. shall be considered as storable raisins.

(a) *Natural (sun-dried) Seedless and Monukka raisins.* Natural condition Natural (sun-dried) Seedless and Monukka raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins; (3) shall contain not more than 5 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and shall also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method, except that there shall be no maximum moisture content for Cluster Seedless raisins; and (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee, and that with respect to Cluster Seedless raisins, in addition to the above requirements the raisins shall be fairly free from shattered (or loose end) berries, and be uniformly cured; shall contain 30 percent or more "2 Crown" or larger size berries; and shall be of such quality and condition that when processed in accordance with good commercial practice will, except for moisture content, meet the minimum standards for processed raisins established by the Committee.

* * * * *

7. Section 989.702(g) of Subpart—Quality Control (7 CFR 989.701–989.702) is revised and a new § 989.702(h) is added to read as follows:

§ 989.702 Minimum grade standards for packed raisins.

* * * * *

(g) *Cluster Seedless raisins.* (1) *Description.* Raisins referred to as "Cluster Seedless raisins" means the raisins have not been detached from the main bunch. Cluster Seedless raisins shall at least meet the requirements of Grade B prescribed in this paragraph. The processed raisins are prepared from clean, sound, dried grapes; are stored or cleaned, or both, and are washed with water to assure a wholesome product.

(2) *Grades.* (i) Grade A is a quality of Cluster Seedless raisins that have similar varietal characteristics; have a good typical color; have a good characteristic flavor; are uniformly cured and show development characteristics of raisins prepared from well-matured grapes; contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of the raisins, exclusive of stems and branches, are "2 Crown" size or larger and meet the additional requirements as outlined in the table in subparagraph (2)(iv) of this paragraph.

(ii) Grade B is the quality of the Cluster Seedless raisins that have similar varietal characteristics; have a reasonably good typical color; have a good characteristic flavor; are uniformly cured and show characteristics of raisins prepared from reasonably well-matured grapes: contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of raisins, exclusive of stems and branches, are "2 Crown" size or larger and meet the additional requirements as outlined in the table in subparagraph (2)(iv) of this paragraph.

(iii) Substandard is the quality of Cluster Seedless raisins that fail to meet the requirements of Grade B.

(iv) Allowances for defects in Cluster Seedless raisins:

Defects	Marketing order grade A	Marketing order grade B
	Maximum (percent by weight)	
Sugared	5	10
Discolored, damaged, or moldy. Provided these limits are not exceeded:	5	7
Damaged	3	4
Moldy	2	3
Substandard Development and Undeveloped.	2	5
Shattered (or loose) individual berries and small clusters of 2 or 3 berries each.	Practically free	Reasonably free
	Appearance or edibility of product.	
Slightly discolored or damaged by fermentation or any other defect not described above.	May not be affected	May not be more than slightly affected
Grit, sand, or silt	None of any consequence may be present that affects the appearance or edibility of the product.	

(h) A handler may grind raisins which do not meet the minimum grade standards prescribed in paragraph (a) through (g) of this section because of mechanical damage or sugaring, into a raisin paste.

Dated: July 18, 1985.

Thomas R. Clark,

Acting Director, Fruit and Vegetable Division.

7 CFR Parts 1032 and 1050

Milk in the Southern Illinois and Central Illinois Marketing Areas; Proposed Suspension of Certain Provisions of the Orders

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed suspension of rules.

SUMMARY: This notice invites written comments on a proposal to suspend certain diversion provisions of the Southern Illinois and Central Illinois orders that relate to how much milk may be moved directly from farms to nonpool plants and still be priced under the orders. The proposed action would remove the limits on such movements of milk under each of the orders during August 1985. The action was requested by Prairie Farms Dairy, Inc., a cooperative association that represents producers who supply each of the markets. The cooperative contends that the action is necessary to assure the efficient disposition of an increasing supply of milk production by producers who have regularly supplied the fluid milk needs of the respective markets.

DATE: Comments are due not later than July 31, 1985.

ADDRESS: Comments (two copies) should be sent to: Dairy Division, AMS, Room 2968, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: John F. Borovies, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture Washington, D.C. 20250, (202) 447–2089.

SUPPLEMENTARY INFORMATION: William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this proposed action would not have a significant economic impact on a substantial number of small entities. Such action would lessen the regulatory impact of the order on certain milk handlers and would tend to ensure that dairy farmers would continue to have their milk price under the orders and thereby receive the benefits that accrue from such pricing.

VOL
50
ISS

JL
24
1985
UMI

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), the suspension of the following provisions of the orders regulating the handling of milk in the Southern Illinois and Central Illinois marketing areas is being considered for the month of August 1985:

1. In 7 CFR Part 1032 (Sourthern Illinois) in § 1032.13(b)(2), the words "on any day during the months of May, June, and July during the months of August and December for not more than 12 days of production of producer milk by such producer, and in any other month for not more than 8 days of production of producer milk by such producer".

2. In 7 CFR Part 1050 (Central Illinois):

a. In § 1050.13(d)(1), the words "During May, June and July".

b. In § 1050.13, paragraphs (d) (2) (3), (4) and (5).

All persons who want to send written data, views or arguments about the proposed suspension should send two copies of them to the Dairy Division, AMS, Room 2968, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 7 days from the date of publication of this notice in the **Federal Register**. The period for filing comments is limited because a longer period would not provide the time needed to complete the required procedures to make the suspension effective for August 1985.

The comments that are received will be made available for public inspection in the Dairy Division during normal business hours (7 CFR 1.27(b)).

Statement of Consideration

The proposed suspension would remove the limits on the amount of milk that may be moved directly from farms to nonpool plants and still be priced under the Southern Illinois and Central Illinois orders during August 1985. During August, such movements of milk to nonpool plants under the Southern Illinois order are limited to not more than 12 days' production of a producer. Under the Central Illinois order, diversions to nonpool plants may not exceed the number of days of production that is received at pool plants, provided that the total quantity of producer milk diverted does not exceed 35 percent of the amount of milk physically received at pool plants.

The suspension was requested by Prairie Farms Dairy, Inc., a cooperative association that supplies milk to handlers regulated under each of the orders. The cooperative association contends that the action is necessary to assure the efficient disposition of an increasing supply of milk to nonpool manufacturing plants for use in manufactured products. The cooperative indicates that milk production is significantly above year-earlier levels and that a greater proportion of the available milk supplies will have to be shipped to manufacturing plants than can be accommodated under the current diversion provisions of the orders. The cooperative indicates that a relaxation of the diversion provisions will permit the efficient disposition of available milk supplies during August and provide market participants with sufficient time to evaluate the production and sales relationships for the markets to make appropriate marketing adjustments prior to September. In the absence of a suspension action, it is likely that costly and inefficient movements of milk would have to be made solely for the purpose of pooling the milk of dairy farmers who have regularly supplied the fluid milk needs of the respective markets.

List of Subjects in 7 CFR Parts 1032 and 1050

Milk marketing orders, Milk, Dairy products.

The authority citation for 7 CFR Parts 1032 and 1050 continues to read as follows:

Authority: (Secs. 1–19, 48 Stat. 31, as amended ; U.S.C. 601–674).

7 CFR Part 1036

[Docket No. AO–179–A49]

Milk in the Eastern Ohio-Western Pennsylvania Marketing Area; Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of public hearing on proposed rulemaking.

SUMMARY: This hearing is being held to consider several proposals to amend the Eastern Ohio-Western Pennsylvania milk order. The principal proposals would establish a single Class I price differential throughout the marketing area and within Pennsylvania at the present Zone 2 price level and reduce the pooling requirements for cooperative balancing plants. Other proposals would relax certain requirements related to the limits on the amount of milk that may be moved directly from producer farms to nonpool manufacturing plants and allow temporary revision of pooling requirements for pool supply and cooperative balancing plants when temporary aberrations occur in the market's supply-demand conditions. Proponents contend that the modifications are needed to reflect changed marketing conditions.

DATE: The hearing will convene at 9:30 a.m. on August 7, 1985.

ADDRESS: The hearing will be held at the Holiday Inn Strongsville, 15471 Royalton Road, Strongsville, Ohio 44136, (212) 238–8800.

FOR FURTHER INFORMATION CONTACT: Maurice M. Martin, Marketing Specialist Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–7311.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Notice is hereby given of a public hearing to be held at the Holiday Inn Strongsville, 15471 Royalton Road, Strongsville, Ohio 44136, beginning at 9:30 a.m., on August 7, 1985, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

Actions under the Federal milk order program are subject to the "Regulatory Flexibility Act" (Pub. L. 96–354). This act seeks to ensure that, within the statutory authority of a program, the regulatory and information requirements are tailored to the size and nature of small businesses. For the purpose of the Federal order program, a small business will be considered as one which is independently owned and operated and which is not dominant in its field of operation. Most parties, subject to a milk order are considered as a small business. Accordingly, interested parties are invited to present evidence on the probable regulatory and informational impact of the hearing proposals on small businesses. Also, parties may suggest modifications of these proposals for the purpose of tailoring their applicability to small businesses.

Proposal No. 1 would eliminate the present pricing zones of the marketing area. However, the proposal does not open for consideration at the hearing any changes in the presently defined marketing area.

List of Subjects in 7 CFR Part 1036

Milk Marketing Orders, Milk, Dairy products.

The authority citation for Part 1036 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

The proposed amendments, as set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Milk Marketing, Inc.

Proposal No. 1

Amend § 1036.2, *Eastern Ohio-Western Pennsylvania marketing area.* by deleting "Zone 1" in paragraph (a), "Zone 2" in paragraph (b), "Zone 3" in paragraph (c), and "Zone 4" in paragraph (d).

Proposal No. 2

Amend § 1036.7(b), *Pool Plant*, to provide that:

The percentages specified in this paragraph may be increased or decreased by up to 10 percentage points by the director of the Dairy Division if he/she finds that such revision is necessary to obtain needed shipments or to prevent uneconomic shipments. Before making such a finding, the Director shall investigate the need for revision either on his/her own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the Director shall issue a notice stating that revision is being considered and invite data, views or arguments in favor of or in opposition to the proposed revision.

* * * * *

Proposal No. 3

Amend § 1036.7 by deleting the present provisions of paragraph (d) and substituting the following:

Section 1036.7 Pool plant.

* * * * *

(d) A plant(s) operated by a cooperative association, if, during the month, 35 percent or more of the producer milk of members of the association is delivered to distributing pool plants or to nonpool plants when a Class II or Class III classification is not requested. Deliveries for qualification purposes may be made directly from the farm or by transfer from such association's plant. The 35 percent delivery requirement may be met for the current month or it may be met on the basis of deliveries during the preceding 12 month period ending with the current month.

(1) In order for such plant(s) to attain pool status they must also:

(i) Be approved by a duly constituted health authority to handle milk for fluid consumption;

(ii) Have pool status requested by the cooperative association;

(iii) Not qualify as a pool plant under this or any other Federal order as a distributing plant or a supply plant.

(2) The delivery requirements in this paragraph may be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he/she finds that such revision is necessary to obtain needed shipments or to prevent uneconomic shipments. Before making such a finding, the Director shall investigate the need for revision on either his/her own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the Director shall issue a notice stating that revision is being considered and invite date, views, or arguments in favor of or in opposition to the proposed revision.

* * * * *

Proposal No. 4

In § 1036.7, suspend the language in the first sentence of paragraph (d) that reads "is not less than 65 percent in any month of September through April and not less than 50 percent in any other month" until the proceeding on proposal No. 3 is completed.

Proposal No. 5

In § 1036.13, revise paragraphs (f)(1)(ii) and (f)(2)(ii) to read as follows:

Section 1036.13 Producer milk.

* * * * *

(f)(1)(ii) The plant operator may divert an aggregate quantity of milk of producers not exceeding 40 percent of the producer milk received at or diverted from such pool plant.

(f)(2)(ii) The cooperative association may divert an aggregate quantity of milk not exceeding 40 percent of the producer milk that the cooperative association causes to be delivered to pool plants or diverted therefrom.

* * * * *

Proposal No. 6

In § 1036.50(a) change "$1.85" to "$1.80."

Proposal No. 7

Revise § 1036.52 *Plant location adjustments for handlers* by deleting paragraph (a) and changing "At a plant outside the marketing area," to "At a plant outside of Pennsylvania and outside the marketing area," in the beginning of paragraph (b) of that section.

Proposed by National Farmers Organization

Proposal No. 8

In § 1036.7 revise paragraph (d) to read as follows:

(d) A plant(s) operated by a cooperative association if during the month 40 percent or more of the producer milk of members of the association is delivered to pool distributing plants either directly from the farm or by transfer from such association's plant(s), subject to the following conditions:

(1) The cooperative requests pool status for such plant(s);

(2) The 40 percent delivery requirement may be met for the current month or it may be met on the basis of delivery during the preceding 12 month period ending with the current month;

(3) The plant is approved by a duly constituted health authority to handle milk for fluid consumption; and

(4) The plant does not qualify as a pool plant pursuant to paragraph (a) or (b) of this section or pursuant to similar provisions of another Federal order applicable to a distributing plant or supply plant.

Proposal No. 9

In § 1036.7 add a new paragraph (f) to read as follows:

(f) The percentage requirement in paragraphs (b) and (d) of this section may be adjusted monthly by the Secretary in multiples of 5 percentage points: *Provided*, that the adjusted percentage shall not exceed the lesser of the average total Class II and Class III utilization during the immediately preceding 12 months or 50 percent.

Proposal No. 10

In § 1036.13 revise the beginning of paragraphs(e) and (f) to read as follows:

(e) During March through August . . .;

(f) During September through February except December . . .

VOL 50 ISS 142 JL 24 1985 UMI

Proposal No. 11

In § 1036.13 revise paragraph (f) subparagraph (2) to read as follows:

(2) In any month of September through November and January through February a cooperative association may divert an aggregate quantity of milk not exceeding 40 percent of the producer milk that the cooperative association caused to be physically received at or diverted from pool plants during the month.

Proposed by the Dairy Division, Agricultural Marketing Service

Proposal No. 12

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, C. Mack Endsley, P.O. Box 30128, Cleveland, Ohio 44130, or from the Hearing Clerk, Room 1079, South Building, United States Department of Agriculture, Washington, D.C. 20250, or may be inspected there.

Copies of the transcript of testimony taken at the hearing will not be available for distribution through the Hearing Clerk's Office. If you wish to purchase a copy, arrangement may be made with the reporter at the hearing.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceeding. For this particular proceeding, the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture
Office of the Administrator, Agricultural Marketing Service
Office of the General Counsel
Dairy Division, Agricultural Marketing Service (Washington Office only)
Office of the Market Administrator, Eastern Ohio-Western Pennsylvania Marketing Area.

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, D.C., on July 19, 1985.

William T. Manley,

Deputy Administrator, Marketing Program.

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 85-AWP-27]

Proposed Alteration and Redefinition of the Control Zone and Transition Area, Lihue, HI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter and redefine the control zone and transition area at Lihue, Hawaii. The realignment of the controlled airspace is required to contain all IFR operations at Lihue Airport, Lihue, Hawaii. This action is necessary to ensure segregation of aircraft using approach procedures in instrument weather conditions and other aircraft operating in visual weather conditions.

DATES: Comments must be received on or before August 31, 1985.

ADDRESS: Send comments on the proposal in triplicate to: Federal Aviation Administration, Manager, Airspace and Procedures Branch, AWP-530, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009-2007.

The official docket may be examined in the Office of the Western-Pacific Regional Counsel, Room 6W14, at 15000 Aviation Boulevard, Hawthorne, California.

An informal docket may be examined during normal business hours at the Airspace and Procedures Branch, Room 6E4, at the above address.

FOR FURTHER INFORMATION CONTACT: Curtis Alms, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Hawthorne, California 90261; telephone (213) 536-6649.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submiting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 85-AWP-27." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination at the address listed above, both before and after the closing date for comments. A report summarizing each substantive public contact with the FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM'S

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Airspace and Procedures Branch, 15000 Aviation Boulevard, Hawthorne, California 90261. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to § 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to provide realignment of the Lihue Airport, Lihue, Hawaii, Control Zone and the Lihue, Hawaii, Transition Area to accommodate aircraft executing IFR arrival and departure operations at Lihue Airport, Lihue, Hawaii. Sections 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations were republished in Handbook 7400.8A dated January 2, 1985.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones, Transition areas.

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the FAR as follows:

1. The authority citation for Part 71 is revised to read as follows:

Authority: 49 U..C. 1348(a) and 1354(a); 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. Section 71.171 is amended as follows:

Lihue Airport, Lihue, Hawaii, Control Zone—[Revised]

"Within a 5-mile radius of Lihue Airport (lat. 21°58'46" N., long. 159°20'31" W.); beginning at lat. 21°54'30" N., long. 159°22'20" W.; thence clockwise to lat. 22°03'00" N., long. 159°22'00" W.; to lat. 22°06'30" N., long. 159°21'00" W.; to lat. 22°05'20" N., long. 159°15'30A" W.; to lat. 21°57'00" N., long. 159°16'40" W.; to lat. 21°50'20" N., long. 159°15'30" W.; to lat. 21°49'20" N., long. 159°22'00" W.; thence to the point of beginning."

3. Section 71.181 is amended as follows:

Lihue Airport, Lihue, Hawaii, Transition Area—[Revised]

"That airspace extending upward from 700 feet above the surface beginning at lat. 22°03'30" N., long. 159°15'30" W.; thence clockwise via the 8-mile radius circle of the Lihue Airport (lat. 21°58'46" N., long. 159°20'31" W.); to lat. 21°53'20" W., long. 159°15'50" W.; to lat. 21°57'00" N., long. 159°16'40" W.; thence to the point of beginning."

Issued in Los Angeles, California on July 9, 1985.

H.C. McClure,

Director, Western Pacific Region.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 37

[Docket No. RM85-19-000]

Generic Determination of Rate of Return on Common Equity for Public Utilities; Proposed Rulemaking

Issued: July 19, 1985.

AGENCY: Federal Energy Regulatory Commission; DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission hereby institutes a proceeding under Part 37 of its regulations. The purpose of this proceeding is to determine an estimate of the average cost of common equity for the jurisdictional operations of public utilities for the year ending June 30, 1985 and a quarterly indexing procedure to establish benchmark rates of return on common equity for use in individual rate cases.

DATES: Any person wishing to participate in this proceeding must file a notice of intent by August 2, 1985. Initial comments addressing the issues in this proceeding are due on or before August 30, 1985 and reply comments are due on or before September 30, 1985.

ADDRESSES: All filings should reference Docket No. RM85-19-000 and should be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Ronald L. Rattey, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357-8015.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Federal Energy Regulatory Commission (Commission) is instituting the second annual proceeding under Part 37 of its regulations. In this proceeding, the Commission will determine (1) the average cost of common equity for the jurisdictional operations of public utilities[1] for the year ending June 30, 1985 (hereinafter "base year") and (2) a quarterly indexing procedure to establish benchmark rates of return on common equity for use in individual rate cases. These determinations will be advisory only.

[1] The term "public utility" and "electric utility" are used interchangeably.

II. Background

In July 1984, the Commission amended its regulations by adding procedures for determining benchmark rates of return on common equity for jurisdictional electric utilities and for applying them in individual cases.[2] Essentially the procedures provide that the Commission have annual proceedings to determine the average cost of common equity and a method for updating this cost estimate quarterly until the next proceeding.

The benchmark rates of return established in the first two annual proceedings are advisory only. They should provide guidance to parties and serve as a point of departure for the Commission in setting allowed rates of return. The record in each case will determine the weight accorded these rates of return.

The benchmark rates of return resulting from the third annual proceeding, however, will be given the status of a rebuttable presumption. In other words, it will be presumed that the allowed rate of return in an individual rate case should be the benchmark rate of return in effect at the time of filing. The three conditions under which the benchmark may be rebutted are (1) a showing of significantly different than average risk, (2) a settlement by the parties based on a different rate of return, or (3) a finding of undue discrimination requiring a different rate of return.

These procedures are intended to produce more accurate and consistent rate of return decisions, to involve the Commission on an ongoing basis in a consideration of the financial and operating circumstances of the industry, and, ultimately, to reduce the resources devoted to this issue by applicants, intervenors and the Commission.

The Commission concluded its first annual proceeding in Docket No. RM84-15-000 with the issuance of Order No. 420.[3] In that proceeding, the Commission estimated that the average cost of common equity for the jurisdictional operations of public utilities during the year ending June 30, 1984 was 15.31 percent. The Commission also chose a quarterly indexing procedure for updating the cost of common equity and establishing benchmark rates of return. Using its quarterly indexing procedure,

[2] Generic Determination of Rate of Return on Common Equity for Electric Utilities, 49 FR 29,946 (July 25, 1984) (Docket No. RM80-36-000) (Final Rule) (Order No. 389) (issued July 18, 1984).

[3] Generic Determination of Rate of Return in Common Equity for Public Utilities, 50 FR 21,802 (May 29, 1985) (Docket No. RM84-15-000) (Final Rule) (Order No. 420) (issued May 20, 1985).

VOL 50 ISS 142 JL 24 1985 UMI

the Commission then estimated the cost of common equity for the first calendar quarter of 1985 at 14.46 percent. This rate is the basis for the "advisory" benchmark rate of return applicable to rate filings made during July 1985. The quarterly indexing procedure will also be used to determine "advisory" benchmark rates of return applicable to rate filings made through January of 1986.

The Commission now wishes to estimate the cost of common equity for the "base year" ending June 30, 1985 and to reaffirm or modify the quarterly indexing procedure adopted in the first annual proceeding. The base year cost estimate will provide the basis for the quarterly "advisory" benchmark rates of return applicable to rate filings made from February of 1986 through January of 1987. Also, by comparing this cost estimate with the cost of common equity estimates calculated by using the current quarterly indexing procedure, the Commission can evaluate the reasonableness of its indexing procedure.

For this second proceeding, the Commission proposes:[4]

(1) To place primary reliance on the discounted cash flow (DCF) method for estimating the market required rate of return on common equity;

(2) To use an industry average flotation cost adjustment (reflecting issuance costs only) to the market required rate of return; and

(3) To use a quarterly indexing procedure based on changes in the median dividend yield for a sample of 100 electric utilities.

III. Discussion

A. Market Required Rate of Return

The Commission proposes to place primary reliance on the discounted cash flow (DCF) method for estimating the market required rate of return on common equity. In particular, the Commission proposes to rely on the following constant growth DCF model to determine the average market required rate of return for electric utilities for the year ended June 30, 1985:[5]

$$K = \frac{D_0 (1+.5g)}{P_0} + g$$

Where

K = market required rate of return

$\frac{D_0}{P_0}$ = current dividend yield (current annual dividend rate divided by current market price)

g = dividend growth rate

$(1+.5g)$ = dividend adjustment factor for quarterly dividend payments

The Commission believes that the adjustment to the current dividend rate embodied in this model best approximates the average amount of dividends paid to (and received by) investors during the first year. In this way, it reasonably adjusts the continuous version of the DCF model for the reality of quarterly dividend payments.

The Commission also proposes that the following procedures be used to compute the dividend yield for the base year estimate of the market required rate of return as well as for the quarterly indexing procedure.[6]

First, the Commission proposes to use the same sample of 100 electric utilities used in its first annual proceeding for three reasons.[7] First, the sample is representative of the electric utility industry as a whole. Second, the relevant price and dividend data are generally available for all of these companies. Finally, the data is readily accessible from more than one source.

Second, the Commission proposes to continue using the following screening criteria in each quarterly calculation to ensure that the data for each company is available and that it can reasonably be employed in a mechanical fashion without producing distorted statistics. That is, companies will be dropped from the sample if:

(i) The company's common stock, through merger or other action, no longer is publicly traded, or

(ii) The company has decreased or omitted a common dividend payment in the current or prior three quarters, or

(iii) The Commission determines on a case-by-case basis that some other occurrence causes the dividend yield for that company to be substantially misleading and bias the resulting quarterly average.

The first screen ensures data availability. If a company is no longer publicly traded, it will not have a current market price (and yield). The second screen eliminates companies whose data would probably be inappropriate in a constant growth DCF model. The third screen gives the Commission the discretion to further eliminate atypical companies when necessary.

The Commission further proposes that the appropriate dividend yield for the industry average cost determination be the median dividend yield for the 100 company sample.[8] The rationale for using the median is based on one of the objectives of the generic approach being to minimize adjudication of the rate of return issue. The Commission believes that the distribution of dividend yields (and, by inference, the distribution of the cost of common equity) for electric utilities is skewed rather than symmetrical. Under this circumstance, the dividend yields (and, presumably, the cost of common equity) for a greater number of utilities is closer to the median than the mean. The median evenly splits utilities so that 50% have dividend yields above the median and 50% have dividend yields below. The Commission also believes that, compared to the mean, the median is less likely to be affected by extreme values in the data.[9]

In computing the dividend yield for each company, the Commission proposes that the dividend rate be the "indicated dividend rate," which is the last declared quarterly dividend times four. This rate approximates the rate at which most companies are paying dividends. The price used in the calculation would be the simple average of the three monthly high and low prices for the quarter. This provides a reasonable estimate of the average price at which the individual stocks were sold during the quarter. The Commission proposes that the median of the quarterly dividend yields for the sample utilities calculated in this manner be used for the base year cost determination and for the quarterly indexing procedure. Of course, the base year cost would use the average of four quarterly dividend yields.

In estimating the (constant) growth rate that would apply to the base year determination of the cost of common equity and serve as a basis for the fixed parameters in the quarterly indexing procedure, the Commission proposes to rely primarily on a fundamental analysis type of approach. That is, it intends to examine and evaluate the two components of dividend growth: Growth from retention of earnings (br) and growth from sales of new common stock (sv).[10] The Commission also intends to look at other methods for estimating the expected growth, including non-constant growth rates, but primarily as corroboration for its basic evaluation using of fundamental analysis.

The Commission requests comments on the above proposals. Are there reasons for the Commission to depart from placing primary reliance on the DCF method? Are the proposals for the model chosen and for determining the components reasonable?

Commenters are especially directed to provide estimates of the market required rate of return using the proposed DCF model and to support all estimates with corroborative evidence. To the extent that alternative models are proposed, commenters are requested to provide a comprehensive explanation of the method and major assumptions used to derive its estimate of the market required rate of return.

B. Flotation Costs

The Commission believes that the utilities should be compensated only for issuance expenses, that is, the out-of-pocket expenses for underwriting, legal work and publishing. This represents a continuation of the Commission's existing policy on flotation costs.[11] The Commission also believes that any adjustment to the market required rate of return should reflect recovery of only the average annual costs, that is, only the costs associated with new stock issues. In addition, it belives that an industry average adjustment to the market required rate is the best way of dealing with these costs since they have a relatively small quantitative impact, the adjustment is subject to forecasting errors, and overrecovery and underrecovery of these costs by individual utilities are offset over time.

The Commission proposes to estimate the adjustment to the required rate of return for flotation costs using the following formula:

$$k^* = \frac{fs}{(1+s)}$$

Where:

k^* = flotation cost adjustment to required rate of return

f = industry average flotation cost as a percent of offering price

s = proportion of new equity expected to be issued annually to total common equity

This formula estimates an adjustment that reflects the average annualized amount of flotation costs incurred by utilities. The resulting adjustment factor would be added to the required rate of return as determined above.

The Commission requests that commenters submit estimates of the parameters in the above formula for estimating the appropriate flotation cost adjustment to the market required rate of return for the base year ending June 30, 1985.

C. Jurisdictional Risk Issue

In the first annual proceeding, the Commission found the record inconclusive on the issue of risk in jurisdictional vis-a-vis retail electric operations. It stated:

> Lower regulatory risks were suggested by some commenters primarily by reference to the relatively high overall ratings, given to the Commission by two investment firms, Merrill Lynch and Salomon Brothers, and by a review of specific Commission policies, such as construction work in progress and tax normalization. On the other hand, the Commission recognizes that regulatory risk may be offset by other types of risks and that it may be a type of risk that can be eliminated through diversification within a portfolio of other stocks.[12]

The Commission further found that no commenter presented a reasonable basis for determinig the appropriate adjustment, if there is a risk difference.

The Commission requests that commenters provide evidence on the issue of whether there is a difference in risk, an estimate of the difference in the cost of common equity due to such difference, if any, between jurisdictional and retail electric operations and an explanation of how that estimate was derived.

D. Quarterly Indexing Procedure

In Docket No. RM84-15-000, the Commission amended Part 37 of its regulations to include § 37.9 which is a quarterly indexing procedure for determining benchmark rates of return on common equity for the jurisdictional operations of electric utilities. The Commission proposes to adopt the same procedure for the current proceeding and requests comments on any changes that would improve the procedure.

In summary, the adopted indexing procedure ties the cost of common equity to changes in utility dividend yields. The benchmark rates of return are set equal to the cost of common equity except where the quarter-to-quarter change in the cost is greater than 50 basis points. The initial benchmark rate established in each annual proceeding, however, will not be subject to the 50 basis point cap.

The dividend yield index is set as the median dividend yield for the 100 company sample for the most recent calendar quarter prior to the period to which the benchmark is intended to apply. The procedures for determining the median dividend yield are the same as those described above with reference to the estimation of the base year cost of common equity. This dividend yield will be used in a formula whose parameters are determined through the base year cost determination. The formula is essentially the DCF model referred to above, adjusted for flotation costs:

$k = a(y) + b$

Where

k = average cost of common equity

$y = \frac{D_0}{P_0}$ = current dividend yield (current dividend rate divided by current market price),

a = 1 + .5g or one plus one-half the growth rate (to adjust the current dividend yield for quarterly dividend payments), and

b = the expected dividend growth rate (g, assumed constant between annual proceedings) plus adjustments for flotation costs and jurisdictional risks, where appropriate.

Commenters are invited to offer changes to any and all aspects of this quarterly indexing procedure.

IV. Regulatory Flexibility Act

The Regulatory Flexibility Act (Act) requires Federal agencies to consider whether the rule, if promulgated, will have a "significant economic impact on a substantial number of small entities." Nearly all of the jurisdictional utilities which must comply with the rule proposed here are too large to be considered "small entities" within the

---

[4] Commenters are urged to review the final rule in the first annual proceeding, n. 3, above, for more discussion of the rationale for these proposals.

[5] This is consistent with Order No. 420, 50 FR 21,802, 21,804. However, the Commission does not wish to restrict commenters from presenting other approaches. Other methods can provide useful corroborative evidence. Further, the Commission does not want to foreclose consideration of improvements in existing alternatives or any new and innovative analyses as may be developed in the future.

[6] Order No. 420, 50 FR 21,802, 21,806.

[7] *Id.* at 21,831.

[8] In Docket No. RM84-15-000, the Commission estimated the median dividend yield for each of the four quarters of the base year and then averaged them for the year. The Commission proposes to adopt this same procedure in this proceeding.

[9] Order No. 420, 50 FR 21,802, 21,814.

[10] Growth from retained earnings, or internal growth, is a function of the expected return on common equity (r) and the expected retention ratio (b). Growth from common stock sales, or external growth, is a function ofhow much stock is expected to be sold (s) and at what price relative to book value (v).

[11] Order No. 420, 50 FR 21,802, 21,806. The Commission invites commenters to address other types of flotation costs in their comments to this proceeding. The Commission notes that, in Docket No. RM80-15-000, it found the record inconclusive on the existence of market pressure and market break costs and rejected any adjustment for such costs.

[12] 50 FR 21,802, 21,809.

VOL 50 ISS 142 JL 24 1985 UMI

meaning of the Act.[13] Also, since the utilities regulated by the Commission hold exclusive selling rights within their service areas and are presumed to be natural monopolies, they dominate their respective fields of operation and cannot be considered to be "small entities" as the term is defined in the Act. The Commission certifies, therefore, that the Act is not applicable to this rule because it will not affect a "substantial number of small entities."

V. Comment Procedures

Interested persons are invited to submit written comments on the issues presented in this notice to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. Any person wishing to participate in this proceeding should file a notice of intent by August 2, 1985. Each person submitting a notice of intent should include his or her name and address and also the name, mailing address and telephone number of one person to whom communications concerning the notice may be addressed. The Commission will establish a service list of those persons who submit such notices of intent and send it to everyone on the list.

Initial comments are due on or before August 30, 1985 and reply comments are due on or before September 30, 1985. So as to conserve time and avoid unnecessary expense, the Commission urges persons with similar interests to file joint comments. Comments should refer to Docket No. RM85–19–000 on the outside of the envelope and all documents submitted to the Commission. Fourteen conformed copies should be submitted along with the original. Participants are also requested to send a copy of their initial and reply comments to everyone else on the service list. Written comments will be placed in the Commission's public files and will be available for public inspection during regular business hours at the Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426 (202/357–8055).

List of Subjects in 18 CFR Part 37

Electric power rates, Electric utilities, Rate of Return.

[13] The Act defines a "small entity" as a small business, a small not-for-profit enterprise, or a small governmental jurisdiction. 5 U.S.C. 601(6) (1982). A "small business" is defined, by reference to Section 3 of the Small Business Act, as an enterprise which is "independently owned and operated and which is not dominant in its field of operation." 15 U.S.C. 632(a) (1982).

(Federal Power Act, 16 U.S.C. 792–825r (1982); Department of Energy Organization Act, 42 U.S.C. 7101–7352 (1982))

In consideration of the foregoing, the Commission proposes to amend Chapter I, Title 18, Code of Federal Regulations.

By direction of the Commission.

Kenneth F. Plumb,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 2

[Docket Nos. 84P–0231 and 84P–0268]

Chlorofluorocarbon Propellants in Self-Pressurized Containers; Proposed Essential Uses

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to add to the list of products containing a chlorofluorocarbon for an essential use metered-dose nitroglycerin human drugs and metered-dose cromolyn sodium human drugs, both administered by oral inhalation. The agency is taking this action in response to citizen petitions submitted by the manufacturers of these two products. Each manufacturer requested that its product be added to the list of uses considered essential and established that its product provides unique health benefits unavailable without the use of a chlorofluorocarbon.

DATE: Comments by September 23, 1985.

ADDRESS: Written comments to the Docket Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Ed Fatha, Center for Drugs and Biologics (HFN–364), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–6490.

SUPPLEMENTARY INFORMATION:

I. Background

Under § 2.125 (21 CFR 2.125), any food, drug, device, or cosmetic in a self-pressurized container that contains a chlorofluorocarbon propellant for a nonessential use is adulterated or misbranded, or both, under the Federal Food, Drug, and Cosmetic Act (the act). This prohibition is based on scientific research indicating that chlorofluorocarbons may reduce the amount of ozone in the stratosphere and thereby increase the amount of ultraviolet radiation reaching the earth. An increase in ultraviolet radiation may increase the incidence of skin cancer, change the climate, and produce other adverse effects of unknown magnitude on humans, animals, and plants.

Section 2.125(d) exempts from the adulteration and misbranding provisions of § 2.125(c) certain products containing chlorofluorocarbon propellants which FDA determines provide a unique health benefit that would not be available without the use of a chlorofluorocarbon. These products are referred to in the regulation as essential uses of chlorofluorocarbon and are listed in § 2.125(e).

Under § 2.125(f), a person may petition the agency to request additions to the list of uses considered essential. To demonstrate that the use of a chlorofluorocarbon is essential, the petition must be supported by an adequate showing that: (1) there are no technically feasible alternatives to the use of a chlorofluorocarbon in the product; (2) the product provides a substantial health, environmental, or other public benefit unobtainable without the use of the chlorofluorocarbon; and (3) the use does not involve a significant release of chlorofluorocarbons into the atmosphere or, if it does, the release is warranted by the benefit conveyed.

II. Petitions Received by FDA

FDA has received two petitions requesting additions to the list of chlorofluorocarbon uses considered essential. These two petitions, submitted under § 2.125(f) and Part 10 (21 CFR Part 10), are on file and may be seen in the Dockets Management Branch (address above).

One petition was submitted by William H. Rorer, Inc. It requests that § 2.125(e) be amended to include metered-dose glyceryl trinitrate human drugs administered by oral inhalation as an essential use of chlorofluorocarbon. Because the "established name" for glyceryl trinitrate is nitroglycerin, the latter name will be used in this document. The petition contains a discussion supporting the position that there are no technically feasible alternatives to the use of chlorofluorocarbon in the product. The petition states that only a chlorofluorocarbon can result in a product that is stable and that dispenses the required number of doses with acceptable accuracy, reproducibility, and uniformity. In addition, the petition states that the use of a chlorofluorocarbon propellant is much less flammable than the highly flammable hydrocarbon propellant. The petition also states that the product provides a substantial health benefit that would not be obtainable without the use of the chlorofluorocarbon. In this regard, the petition contains data to support the use of this product by an angina pectoris patient. The petition contends that the delivery system and convenient size of the product would allow the patient to easily use the product and obtain quick relief during an attack without having to open a bottle and fumble with small tablets. The petition also asserts that the use of this product would not involve a significant release of chlorofluorocarbon propellants into the atmosphere because only 49.25 milligrams (mg) would be released per dosage.

The second petition was submitted by Fisons Corp. This petition requests that § 2.125(e) be amended to include metered-dose cromolyn sodium human drugs administered by oral inhalation. The petition contains a detailed discussion supporting the position that there are no technically feasible alternatives to the use of chlorofluorocarbon in the product. It includes data showing that the turbo-inhaler delivery system currently being marketed requires considerable skill to use, making it unsuitable for adults suffering poor inspirational capacity, handicapped and elderly patients, as well as for small children. In addition, the petition asserts that other delivery systems, such as a hand-operated pump, or compressed or other gases could not provide as safe and uniform dispersal of the drug in proper size particles as a chlorofluorocarbon propellant. Also, the petition states that the product provides a substantial health benefit that would not be obtainable without the use of a chlorofluorocarbon. In this regard, the petition contains data to support the use of the product as a prophylactic agent by a wide range of asthma patients, including the handicapped, the elderly, and young children. Further, the petition states that the aerosol formulation would result in a substantial decrease in total drug exposure to the patient. The petition also asserts that metered-dose cromolyn sodium drug product would not result in a significant release of chlorofluorocarbon propellants into the atmosphere because less than 136.6 mg would be released per dosage.

III. FDA's Review of the Petitions

Based on its review of the petitions, the agency tentatively agrees that the use of metered-dose nitroglycerin and metered-dose cromolyn sodium provide special benefits for angina pectoris patients and asthmatic patients, respectively. Further, FDA tentatively agrees that the benefits these products provide would be unavailable without the use of chlorofluorocarbons. Therefore, FDA proposes to amend § 2.125(e) to include metered-dose nitroglycerin human drugs administered by oral inhalation and metered-dose cromolyn sodium human drugs administered by oral inhalation as essential uses of chlorofluorocarbon propellants.

IV. Impact

The agency has determined under 21 CFR 25.24(a)(8) (April 26, 1985; 50 FR 16636) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA has carefully analyzed the regulatory impact and regulatory flexibility of the proposed rule in accordance with Executive Order 12291 and the Regulatory Flexibility Act (Pub. L. 96–354). The proposed rule would merely add two drug products to the list of products containing a chlorofluorocarbon as essential uses, thereby permitting the manufacturing and marketing of these drug products. Therefore, the agency has determined that the proposed rule is not a major rule as defined in Executive Order 12291. Further, the agency certifies that the proposed rule, if implemented, will not have a significant impact on a substantial number of small entities, as defined by the Regulatory Flexibility Act.

Interested persons may, on or before September 23, 1985. Submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 2

Administrative practice and procedure, Cosmetics, Drugs, Foods.

Therefore, under the Federal Food, Drug, and Cosmetic Act, and under authority delegated to the Commissioner of Food and Drugs, it is proposed that Part 2 be amended as follows:

PART 2—GENERAL ADMINISTRATIVE RULINGS AND DECISIONS

1. The authority citation for 21 CFR Part 2 continues to read as follows:

Authority: Sec. 701, 52 Stat. 1055–1056 as amended (21 U.S.C. 371), unless otherwise noted.

2. In § 2.125 by adding new paragraph (e)(10) and (11) to read as follows:

§ 2.125 Use of chlorofluorocarbon propellants in self-pressurized containers.

* * * * * *

(e) * * *

(10) Metered-dose nitroglycerin human drugs administered by oral inhalation.

(11) Metered-dose cromolyn sodium human drugs administered by oral inhalation.

* * * * * *

Dated: July 1, 1985.

Mervin H. Shumate,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–01–M

21 CFR Part 680

[Docket No. 84N–0349]

Additional Standards for Miscellaneous Products; Allergenic Products; Proposed Amendment of Additional Standards

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to amend the additional standards for allergenic products by adding a reference in the additional standards to the potency test requirement applicable to all biological products under the general biological products standards. The proposed amendment would be consistent with the reference in the additional standards for allergenic products to other testing requirements in the general biological regulations, such as identity, safety, and sterility testing. The proposed amendment also provides by regulation for the use of potency testing of allergenic products based on official potency standards, as such standards become available. FDA is also proposing to remove from its regulations the specific potency test procedure for short ragweed pollen extracts.

DATES: Written comments by September 23, 1985.

UMI

FDA is proposing that any final rule based on this proposal be effective 30 days after the date of its publication in the **Federal Register.**

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: M. Christine Anderson, Center for Drugs and Biologics (HFN–853), Food and Drug Administration, 8800 Rockville Pike, Bethesda, MD 20205, 301–496–4204.

SUPPLEMENTARY INFORMATION: The additional standards for specific biological products are prescribed under 21 CFR Parts 620 through 680. The additional standards for allergenic products under 21 CFR Part 680 contain specific requirements that supplement the general requirements for all biological products under 21 CFR Part 610 and the current good manufacturing practice requirements under 21 CFR Parts 210 and 211. Sections 610.1 and 610.10 of the general biological regulations require that manufacturers perform a potency test on each lot of licensed biological product before it is released for commercial distribution.

FDA is proposing to amend the additional standards for allergenic products by adding to § 680.3 *Tests* new paragraph (e) *Potency.* Section 680.3 already requires that allergenic products meet the general biological testing provisions of 21 CFR Part 610 as those provisions concern identity, safety, and sterility testing. For consistency, proposed new § 680.3(e) would refer to the general potency requirements under § 610.10. Proposed new § 680.3(f) would refer to the recordkeeping requirements related to the tests performed under § 680.3.

Historically, FDA has permitted manufacturers to label allergenic products with an unstandardized potency level based on a simple weight of allergen to volume of extracting fluid ratio (W/V) or a determination of the protein nitrogen units (PNU) in each lot of manufactured product. Those allergenic products that have potency levels based on W/V or PNU must include the phrase "no U.S. Standard of Potency" on the label. The W/V or PNU determinations are not reliable measures of biological or allergenic activity. FDA believes, consistent with the recommendations of the Panel on Review of Allergenic Extracts (50 FR 3112; January 23, 1985), that these designations should be replaced as soon as practicable by a designation that reflects allergenic activity.

Thus far, only hymenoptera venom extracts and short ragweed pollen extracts have been standardized for potency and their allergenic activity determined by all manufacturers of the products. However, approximately 1,800 to 2,000 generic allergenic products are marketed. Therefore, FDA believes that it is impractical to codify a description of each new specific potency test procedure for a product as the procedure is developed, such as the procedure in § 680.4 for short ragweed pollen extract. Because the standardization of each class of licensed biological product is a major task for both FDA and manufacturers of allergenic products, the agency has conducted workshops on standardization to assist manufacturers in the development of potency procedures for their products (see 45 FR 76251 and 48 FR 52772). Those workshops have included discussion of methods of protein measurement, radial immunodiffusion tests, radioallergosorbent tests, isoelectric focusing, and skin testing. FDA will consider conducting more workshops when they are needed to assist manufacturers in performing specific potency tests for allergenic products.

Under proposed § 680.3(e), FDA would require that the potency of allergenic products be based on the standardization of an allergenic component or other active ingredient of the product. After the standardized procedure has been discussed in one or more workshops, has appeared in scientific publications, or has been discussed with individual manufacturers, the Director, Office of Biologics Research and Review, Center for Drugs and Biologics, would notify each affected manufacturer in writing of the new standardized procedure. This notification would allow a reasonable time period for manufacturers to begin potency testing based on the new procedure or revisions to an existing standardized procedure and to obtain FDA's approval for conforming amendments to the product license application, including those for appropriate potency labeling and lot release requirements based on the standard. Proposed § 680.3(e) does not affect the applicability of § 610.9 *Equivalent methods and processes* to the potency test requirements for allergenic products (see 49 FR 15186; April 18, 1984). Under § 610.9, manufacturers may present evidence to FDA, in the form of a product license amendment, for use of an equivalent potency test method that will provide equal or greater assurances of safety, purity, potency, and effectiveness of the allergenic product than the assurances provided by any standardized test method.

As shown above, when FDA adopts an official standardized potency test method for an allergenic product, each licensed manufacturer must submit to FDA, and FDA approve, appropriate amendments to its license application showing that the recommended method (or an approved alternative method) is used and that labeling is revised if necessary. When FDA adopts such a standardized official potency test, FDA intends to publish in the **Federal Register** a notice of availability of the official recommended method, under procedures established at 21 CFR 10.90(b10).

Section 680.4 requires the standardization of short ragweed pollen extracts based on a determination of the quantity of the major allergen (antigen E) that is present in each lot of the product. The method for performing antigen E testing is included in each manufacturer's license application. Section 680.4 is the only codified requirement for a specific standardized potency test for an allergenic product. Because FDA is proposing new § 680.3(e) and (f), FDA is proposing to remove § 680.4 *Short ragweed pollen extracts.* This codified requirement for one product would be unnecessary, because the antigen E requirements for short ragweed pollen extracts would be replaced by the requirements in proposed § 680.3(e).

At the time any final rule is published based on this proposed rule, FDA would make available its recommended test procedures for short ragweed pollen extracts as authorized in 21 CFR 10.90(b)(10) of its administrative practices and procedures regulations. The recommended test procedures would be in a document entitled "Docket No. 84S–0344 Recommended Methods for Short Ragweed Pollen Extracts" available for public examination at the Dockets Management Branch (address above). FDA also advises that if the codified requirements for short ragweed pollen extracts are removed from the regulations, short ragweed pollen extract, or any mixed product containing short ragweed pollen extract as a component, will continue to be subject to the requirements of the present § 680.4, because the present antigen E requirements will be the official potency test requirements for short ragweed pollen extracts authorized under § 680.3(e) and such testing now is required by product licensing procedures.

Pertinent background data, on which the agency relies in proposing these amendments, have been furnished to those persons known to be interested in manufacturing allergenic products, and a copy is on public display in the Dockets Management Branch. These data include in vitro and skin test procedures that are being used or that are presently being considered by FDA for use as official potency tests.

The agency has determined pursuant to 21 CFR 25.24(c)(10) (April 26, 1985; 50 FR 16636) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required. (A final rule revising FDA's policy and procedures under the National Environmental Policy Act was published in the **Federal Register** of April 26, 1985 (50 FR 16636).)

Paperwork Reduction Act

Section 680.3 contains collection of information requirements already submitted to and approved by the Office of Management and Budget (OMB) under section 3507 of the Paperwork Reduction Act of 1980. The requirements of § 680.3 express the requirements of 21 CFR 211.165, 211.167, 211.188, and 211.194 (OMB control number 0910–0139), as those requirements apply to allergenic products tests. Organizations and individuals desiring to submit comments on the collection of information requirements should direct them to FDA's Dockets Management Branch and to the Office of Information and Regulatory Affairs, OMB, New Executive Office Bldg., Rm. 3208, Washington, DC 20503, Attn: Bruce Artim.

FDA has examined the regulatory impact and regulatory flexibility implications of the proposed regulations in accordance with Executive Order 12291 and the Regulatory Flexibility Act (Pub. L. 96–354). Specifically, FDA is proposing to identify in the additional standards for allergenic products the potency test requirement under § 610.10 and the requirements in various sections in Parts 210 and 211 that apply to all licensed biological products. Therefore, the immeidate effect of the proposed rule is neutral, i.e., it neither adds nor removes requirements from the standards for any biological product. Only when official potency standards become available for a specific allergenic product would the proposed rule have an impact on any of the 18 licensed manufacturers of allergenic products. When a potency standard becomes available, the official potency test would be based on the standard. Proposed paragraphs (e) and (f) of § 680.3 thus specify how the already existing general requirements for testing potency and recording the results can be met with respect to allergenic products. Therefore, the agency concludes that the proposed rule is not a major rule as defined in Executive Order 12291. Further the agency certifies that the proposed rule will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act.

Interested persons may, on or before Septemer 23, 1985, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 680

Biologics.

Therefore, under the Public Health Service Act and under the authority delegated to the Commissioner of Food and Drugs, it is proposed that Part 680 be amended as follows:

PART 680—ADDITIONAL STANDARDS FOR MISCELLANEOUS PRODUCTS

1. The authority citation for 21 CFR Part 680 is revised to read as follows:

Authority: Sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262); 21 CFR 5.10.

2. In § 680.3 by reserving paragraph (d) and adding new paragraphs (e) and (f) to read as follows:

§ 680.3 Tests.

* * * * *

(d) [Reserved]

(e) *Potency.* The potency of each lot of each Allergenic Product shall be determined as prescribed in § 610.10 of this chapter. When a specific allergen of a product becomes standardized and upon written notification to manufacturers by the Director, Office of Biologics Research and Review, the Official potency test shall be a determination of the quantity of standardized allergen or other active ingredient in the product.

(f) *Records.* The records related to the testing requirements of this section shall be prepared and maintained as required by §§ 211.165, 211.167, 211.188, and 211.194 of this chapter (OMB control number 0910–0139).

§ 680.4 [Removed]

3. By removing § 680.4 *Short ragweed pollen extracts.*

Dated July 2, 1985.

Joseph P. Hile,

Acting Commissioner of Food and Drugs.

UMI

petition filed by the Knogo Corporation (RM–4427). The intended effect is to provide the public additional time to properly respond to comments filed on the Notice since most raise technical issues of certain complexity.

DATES: Reply comments are now due by July 23, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Liliane M. Volcy, Office of Science & Technology, Washington, D.C. 20554, tel: (202) 653–8247.

SUPPLEMENTARY INFORMATION: The Notice of Proposed Rule Making was published in the **Federal Register** on May 9, 1985, 50 FR 19551.

Order Extending Time To File Reply Comments

In the matter of the amendment of Part 15 of the Commission's Rules to permit the operation of low power communication devices in the 1.6–10 MHz band; Gen. Docket 85–129, Rm–4427.

Adopted: July 9, 1985.
Released: July 15, 1985.
By the Chief Scientists.

1. On May 1, 1985, the Commission released a *Notice of Proposed Rule Making (Notice)* in this proceeding. The *Notice* specified filing deadlines of June 24, 1985, for comments and July 9, 1985, for reply comments.

2. Pursuant to 47 CFR 1.46(b), the Knogo Corporation (Knogo), on July 3, 1985 requested a two-week extension of the deadline for filing reply comments. Knogo asserts that there is insufficient time to properly respond to the comments filed on the *Notice*, especially since most comments raise technical issues of certain complexity.

3. We recognize the concern of Knogo and that additional time may be needed to gather relevant information in order to respond adequately to all comments. Because of the importance of this proceeding, and our desire to have the most definitive response possible, an extension of time to July 23, 1985, for filing reply comments is hereby ordered, pursuant to the authority granted by 47 CFR 0.241(d).

Robert S. Powers,
Chief Scientist.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

July 19, 1985.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable: (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) An indication of whether section 3504(h) of Pub. L. 96–511 applies, (9) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, Room 404–W Admin. Bldg., Washington, D.C. 20250, (202) 447–2118.

Comments on any of the items listed should be submitted directly to: Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503, ATTN: Desk Officer for USDA.

If you anticipate commenting on a submission but find that preparation time will prevent you from doing so promptly, you should advise the OMB Desk Officer of your intent as early as possible.

Federal Crop Insurance Corporation

[Doc. No. 2591S]

Claim for Indemnity; Interest Payments

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Notice of Current Interest Rate.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) publishes, for the information of the general public, this notice of the current interest rate to be computed on indemnity payments not made within a specified time under the authority contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: This notice, and the interest rate cited herein, is effective beginning July 1, 1985, and ending on December 31, 1985.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: This notice provides, for the information of all interested parties, the current interest rate to be applied by FCIC to late paid indemnities, and is applicable from July 1, 1985, to December 31, 1985.

Background

Although FCIC attempts to make all indemnity payments within 30 days of the filing of a proper claim, data processing backlog and the need for further investigation have on some occasions, delayed payment past the targeted date. FCIC believes, on those occasions where the delay is due to procedural requirements of FCIC and through no fault of the insured, that FCIC should pay interest on the net

VOL
50
ISS
142
JL
24
1985
UMI

amount eventually found to be due the insured.

The interest payment, as outlined herein, will be effective for the second half of the 1985 crop year, beginning on July 1, 1985.

Pursuant to section 12 of the Contract Disputes Act the Secretary of the Treasury is responsible for computing and publishing the interest rate to be used in cases under that Act.

The interest rate established by the Secretary of the Treasury (as published in the **Federal Register** on July 3, 1985 at 50 FR 27525) for the six-month period beginning July 1, 1985 and ending December 31, 1985, and applicable by FCIC to late paid indemnities to policyholders during the period, beginning July 1, 1985 is 10⅜% (ten and three eighths) per centum per annum.

Dated: July 16, 1985.

Approved by:

Peter F. Cole,

Secretary, Federal Crop Insurance Corporation.

BILLING CODE 3410-08-M

Food and Nutrition Service

National Average Minimum Value of Donated Foods for the Period July 1, 1985, Through June 30, 1986

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces the value of donated foods or, where applicable, cash in lieu thereof, to be given in the 1986 school year for each lunch served by schools participating in the National School Lunch Program or as commodity schools and for each lunch and supper served by institutions participating in the Child Care Food Program.

EFFECTIVE DATE: July 1, 1985.

FOR FURTHER INFORMATION CONTACT: Beverly King, Chief, Program Administration Branch, Food Distribution Division, Food and Nutrition Service, U.S. Department of Agriculture, Alexandria, Virginia 22303, (703) 756-3660.

SUPPLEMENTARY INFORMATION: This action, which implements mandatory provisions of sections 6(e), 14(f), and 17(h) of the National School Lunch Act (the Act), has been reviewed under Executive Order 12291 and Secretary's Memorandum No. 1512. It has been classified as "nonmajor", because it meets none of the three criteria in the Executive Order; the action will not have an annual effect on the economy of $100 million or more, will not cause a major increase in costs, and will not have a significant impact on competition, employment, productivity, innovation, or the ability of U.S. enterprises to compete.

The action has also been reviewed with regard to the requirements of Pub. L. 96-354, the Regulatory Flexibility Act of 1980. Robert E. Leard, Administrator, Food and Nutrition Service, has determined that it will not have a significant economic impact on a substantial number of small entities. The purpose of the action is to notify States of the level of donated-food assistance to be provided during the 1986 school year.

This notice imposes no new reporting and recordkeeping provisions that are subject to Office of Management and Budget review.

Section 6(e) of the Act establishes the national average value of donated-food assistance to be given to States for each lunch served in the National School Lunch Program at 11.00 cents per meal. This amount is subject to annual adjustment as of July 1 of each year to reflect changes in the Price Index for Food Used in Schools and Institutions. Section 17(h) of the Act provides that the same value of assistance in donated foods for school lunches shall also be established for lunches and suppers served in the Child Care Food Program. Notice is hereby given that the national average minimum value of donated foods or cash in lieu thereof, per lunch under the National School Lunch Program (7 CFR Part 210) and per lunch and supper under the Child Care Food Program (7 CFR Part 226) shall be 11.75 cents for the period July 1, 1985, through June 30, 1986.

The Price Index for Food Used in Schools and Institutions is computed on the basis of five major food components in the Bureau of Labor Statistics' Producer Price Index (cereal and bakery products; meats, poultry and fish; dairy products; processed fruits and vegetables; and fats and oil). Each component is weighted using the same relative weight as determined by the Bureau of Labor Statistics. The value of food assistance is adjusted each July 1 by the annual percentage change in a three-month simple average value of this Price Index for March, April and May. The three-month average of the Price Index decreased by 1.6 percent, from a revised value of 265.0 for March, April and May of 1984 to an initial value of 260.8 for the same three months in 1985. When computed on the basis of unrounded data and rounded to the nearest one-quarter cent, the resulting national average for the period July 1, 1985, through June 30, 1986, will be 11.75 cents per meal. This constitutes a .25 per lunch decrease over the rate in effect for the 1985 school year. This small drop in the level of assistance can largely be attributed to falling producer prices in the meat, poultry, and fish category. The March-May 1985 Price Index for this category, which comprises about half the Index, fell by 5.0 percent between 1984 and 1985.

Section 14(f) of the Act provides that commodity-only schools shall be eligible to receive donated foods equal in value to the sum of the national average value of donated foods established under section 6(e) of the Act and national average payment established under section 4 of the Act. Such schools are eligible to receive up to 5 cents of this value in cash for processing and handling expenes related to the use of such foods. Commodity-only schools are defined in section 12(d)(8) of the Act as "schools which do not participate in the school lunch program under this Act but which receive commodities made available by the Secretary for use in nonprofit lunch programs".

In interim regulations published on April 15, 1982 (47 FR 15978-86) to implement the provisions of section 14(f), it was indicated that the term "commodity shcools" will be used for such schools instead of "commodity-only schools".

For the 1986 school year, commodity schools shall be eligible to receive donated-food assistance valued at 24.25 cents for each lunch served. This amount is based on the sum of the section 6(e) level of assistance announced in this notice and the adjusted section 4 minimum national average payment factor for school year 1986 announced by the Department on July 9, 1985 (50 FR 27995). The section 4 factor for commodity schools does not include the 2-cents per lunch increase for lunches served in the second preceding year free or at reduced prices, since that increase is applicable only to schools participating in the National School Lunch Program.

(Catalog of Federal Domestic Assistance Nos. 10.550, 10.555, and 10.558)

Authority: Secs. 6, 14 and 17 of the National School Lunch Act, as amended, 42 U.S.C. 1755, 1762a, 1766.

Dated: July 18, 1985.

Soil Conservation Service

Little Lost River Flood Control RC&D Measure Plan and Environmental Impact Statement, Idaho

AGENCY: Soil Conservation Service, Agriculture.

ACTION: Notice of Availability of a Record of Decision.

FOR FURTHER INFORMATION CONTACT: Stanley N. Hobson, State Conservationist, Soil Conservation Service, 304 North 8th Street, Rm. 345, Boise, Idaho 83702, telephone (208) 334-1601.

Notice: Stanley N. Hobson, responsible Federal official for projects administered under the provisions of Pub. L. 87-703, (16 U.S.C. 590 a-f,q.) in the State of Idaho, is hereby providing notification that a record of decision to proceed with the installation of the Little Lost River Flood Control RC&D measure plan is available. Single copies of this record of decision may be obtained from Stanley N. Hobson at the above address.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.901—Resource Conservation and Development—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Dated: July 16, 1985.

James N. Habiger,

Acting State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

International Trade Administration

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with § 301.5(a) (3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 6:30 a.m. and 5:00 p.m. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Docket No. 85-228. Applicant: University of Rochester, 70 Goler House, Rochester, NY 14620. Instrument: Electron Microscope, Model EM 902 with Accessories. Manufacturer: Carl Zeiss Inc., West Germany. Intended use: The instrument will be used for investigations in the field of neurosciences with concentrated efforts on the identification, localization, and quantitation of neurotransmitters (norepinephrine, dopamine, serotonin, enkephalins, substance P, GABA, acetylcholine, and others) and their receptors. Application received by Commissioner of Customs: June 17, 1985.

Docket No. 85-229. Applicant: The Ohio State University, 484 W. 12th Avenue, Columbus, OH 43210. Instrument: STEM-SE attachments with Ion Getter Pumps. Manufacturer. Carl Zeiss, West Germany. Intended use: The articles are accessories to an existing electron microscope which is to be used for studies of a variety of different groups of microoganisms and a number of toxic metals such as cadmium, mercury and chromium the interaction between the biologic system and the heavy metals either at the surface of the cell or inside the cell structure will be investigated Application received by Commissioner of Customs: June 17, 1985.

Docket No. 85-230. Applicant: Columbia University, Department of Biological Sciences, 500 Fairchild Building, New York, NY 10027. Instrument: ASID 10 Scanning Image Observation Device and TV Camera System. Manufacturer: JEOL, Inc., Japan. Intended use: The articles are electron microscope attachments These attachments will be used to increase the capabilities of the microscope in performing biological research. In particular, the reconstruction of nervous tissue from serial electron micrographs will be enhanced by these attachments by allowing the alignment of serial sections in the machine before they are photographed. Application received by Commissioner of Customs: June 17, 1985

Docket No. 85-231. Applicant: University of Maryland, Department of Zoology, College, Park, MD 20742. Instrument: Electron Microscope, Model EM 10CA with Accessories. Manufacturer. Carl Zeiss, West Germany. Intended use: The instrument is intended to be used for the investigation of the molecular basis of membrane excitability, particularly the voltage gating merchanism. Many important biological processes function because of the existence of excitable membranes. In order to understand how excitable membranes function, it is necessary to understand how an electric field controls or gates these membrane channels. Application received by Commissioner of Customs: June 17, 1985.

Docket No. 85-232. Applicant: LDS Hospital (Intermountain Health Care, Inc.), Eighth Avenue & C Street, Salt Lake City, UT 84143. Instrument: Electron Microscope, Model JEM-100SX with Accessories. Manufacturer: JEOL, Ltd., Japan. Intended use: The instrument will be used to examine various types of biological specimens during the following clinical uses:

(1) Transmission electron microscopy to establish diagnosis in human diseases.

(2) Research on the ultrastructural alterations occurring in the lungs of experimental animals and man with acute respiratory distress syndrome.

(3) Studies of the alterations of macrophage cell surfaces occurring during macrophage activation and participation in tumor killing.

In addition, the instrument may be used as an educational tool for pathology residents and research fellows. Application received by Commissioner of Customs: June 19, 1985.

Docket No. 85-233. Applicant: The University of South Carolina, Department of Chemistry, Columbia, SC 29208. Instrument: Interferometer, Model IZMO5. Manufacturer: Bomem, Canada. Intended use: The instrument will be used in experiments involving the recording of the low frequency infrared spectra of some vinyl methoxy molecules and substituted allyl balides in the vapor phase at a resolution of 0.002 cm^{-1}. The objective will be to analyze the data in order to determine the potential function governing the asymmetric internal rotation in these molecules. In addition, the instrument will be used in various chemistry courses to instruct Ph.D. students in analyzing high resolution fourier transform spectra, and interpreting the results. Application received by Commissioner of Customs: June 24, 1985.

Docket No. 85-234. Applicant: University of Massachusetts, Amherst, Polymer Science & Engineering Department, GRT Room 701, Amherst, MA 01003. Instrument: Electron Microsope, Model JEM-2000FX. Manufacturer: JEOL, Ltd., Japan. Intended use: The instrument is intended to be used for studies of synthetic and natural polymers and composites utilizing polymers as a basic component. Examples include polyethylene fibers and films, biaxial formed polypropylene, polydiacetylene, polyparaphenylene benzobisthiazole fibers, polyparaxylene single crystals, synthetic phospholipids and PEEK-graphite, epoxy-PBT, nylon-PBT

composites. These materials cover a wide range of structures from amorphous (e.g. epoxies) to single crystal (e.g. polyparaxylene). The instrument will also be used for graduate level instruction and research in the Department of Polymer Science and Engineering and as part of the Materials Research Laboratory. In addition, the instrument will be used in short courses to teach the basic principles of electron microscopy as they apply to a wide range of research topics in materials science. Application received by Commissioner of Customs: June 24, 1985.

Docket No. 85-235. Applicant: University of Washington, Seattle, WA 98195. Instrument: Electron Microscope, Model EM 410LS with Accessories. Manufacturer: Philips Electronic Instruments, Inc., The Netherlands. Intended use: Studies of biological tissue, particularly nervous tissue, including brain and nerves. Experiments to be conducted will include: visualization of substructural elements associated with neural development and degeneration; fine structural effects on brain cells of mercury poisoning; identification of neural and cell processes associated with induced neurological disease conditions such as epilepsy and characterization of the ultrastructural basis of neurotransmitter localization in normal brain and after surgical manipulation. Application received by Commissioner of Customs: June 25, 1985.

Docket No. 85-236. Applicant: University of Colorado Health Sciences Center, 4200 E. 9th Avenue, Denver, CO 80262. Instrument: Electroencephalographic Power Spectral Analyzer, Model CME-100. Manufacturer: Japan Systems, Inc., Japan. Intended use: The instrument is intended to be used for both clinical and basic research. The three protocols to be pursued are (1) monitoring power spectra EEG while progressively reducing cerebral blood flow through exsanguination as followed by hydrogen clearance electrodes in a rabbit model, (2) monitoring power spectral EEG during acute focal cerebral ischemia treated with hyperdynamic therapy in a simian model and (3) monitoring patients in the OR during acute clamping of the carotid artery for many different surgical procedures such as endarterectomy and base of skull surgeries. Application received by Commissioner of Customs; June 25, 1985.

Docket No. 85-237. Applicant: University of Pennsylvania, Department of Biology/G7, 217 Leidy Labs, Philadelphia, PA 19104-4288. Instrument: Electron Microscope, Model EM 410LS with Accessories. Manufacturer: Philips Electronic Instruments, Inc., The Netherlands. Intended use: The instrument is intended to be used in general experiments relating to the structure and function of muscle fiber. Application received by Commissioner of Customs: June 27, 1985.

BILLING CODE 3510-DS-M

National Oceanic and Atmospheric Administration

Marine Mammals; Issuance of Permit; Brent S. Stewart, Hubbs Marine Research Institute

On May 14, 1985, notice was published in the **Federal Register** (50 FR 20119) that an application had been filed by Brent S. Steward (P278B) Hubbs Marine Research Institute, 1700 South Shores Road, San Diego, California 92109 for a Scientific Research Permit to take up to sixty (60) Pacific harbor seals (Phoca vitulina richardii) annually for four (4) years.

Notice is hereby given that on July 17, 1985 as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit for the above taking subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731

Dated: July 17, 1985.

Richard B. Roe,

Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1985; Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to Procurement List.

SUMMARY: This action adds to Procurement List 1985 a service to be provided by workshops for other severely handicapped.

EFFECTIVE DATE: July 24, 1985.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: C.W. Fletcher, (703) 557-1145.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Addition to the Procurement List of the service listed below was published in the **Federal Register** on April 18, 1985 (50 FR 15474). Two comments were received in response to this notice. One commenter, the current contractor, indicated that the proposed addition represented ten percent of the firm's annual sales, and that only a small percentage of its income was from private sector contracts. Another commenter confirmed the impact on the current contractor and its inability to penetrate the private sector market. The Committee considered the comment received as well as other pertinent information and determined that the addition of this service to the Procurement List would not cause severe impact on the current contractor.

Addition

After consideration of the relevant matter presented, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77 and 41 CFR 51-2.6.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the service listed.

c. The action will result in authorizing small entities to provide the service procured by the Government.

Accordingly, the following service is hereby added to Procurement List 1985:

Janitorial/Custodial, Naval Resale and Support Office, Fort Wadsworth, Staten Island, New York

C.W. Fletcher,

Executive Director.

[FR Doc. 85-17564 Filed 7-23-85; 8:45 am]

BILLING CODE 6820-33-M

Procurement List 1985; Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1985 a commodity to be produced by workshops for the blind and other severely handicapped.

Comments must be received on or before: August 28, 1985.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77 and 41 CFR 51-2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action.

Addition

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity to Procurement List 1985, October 19, 1984 (49 FR 41195):

Commodity

Cloth, Abrasive: 5350-00-187-6296

C. W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. QF85-585-000, etc.]

Air Products Manufacturing Corp. et al.; Small Power Production and Cogeneration Facilities; Qualifying Status; Certificate Applications, etc.

July 18, 1985.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Take notice that the following filings have been made with the Commission.

1. Air Products Manufacturing Corp.

[Docket No. QF85-585-000]

On July 1, 1985, Air Products Manufacturing Corp., (Applicant) of P.O. Box 538, Allentown, Pennsylvania 18105, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in Pasadena, Texas. It will consist of a gas turbine generating unit with supplementally fired waste heat recovery boiler. The steam output will be utilized for chemical processes at the Pasadena facility. The primary energy source of the facility will be natural gas. The electric power production capacity will be 3.8 MW. The facility will be installed by December 1985.

2. Baldwin Park Unified School District

[Docket No. QF85-589-000]

On July 5, 1985, Baldwin Park Unified School District, (Applicant) of 3699 N. Holly Avenue, Baldwin Part, California 91706, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at the Baldwin Park High School, Baldwin Park, California. It will consist of a reciprocating engine/generator unit. Heat recovered from the engine exhaust and cooling jacket water will be used to heat the school swimming pool. The electric power production capacity of the facility will be 67.2 kW. The primary energy source will be natural gas. The installation of the facility will begin in August 1985.

3. Baldwin Park Unified School District

[Docket No. QF85-590-000]

On July 5, 1985, Baldwin Park Unified School District, (Applicant) of 3699 N. Holly Avenue, Baldwin Park, California 91706, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at the Sierra Vista High School, Baldwin Park California. It will consist of a reciprocating engine/generator unit. Heat recovered from the engine exhaust and cooling jacket water will be used to heat the school swimming pool. The electric power production capacity of the facility will be 67.2 kW. The primary energy source will be natural gas. The installation of the facility will begin in August 1985.

4. Munson Geothermal, Inc.

[Docket No. QF85-591-000]

On July 3, 1985, Munson Geothermal, Inc., (Applicant) of Field Office, Suite F, 162 Hubbard Way, Reno Nevada 89502, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The 10 MW Brady project will be located about 60 miles east of Reno in churchill County, Nevada. The facility will use a binary cycle to generate electric power from a liquid dominated geothermal resource as a primary energy source. The applicant is scheduled to initially install 6 MW of which 20 percent will be owned by Hydra-Co Enterprises Ltd., a subsidiary of Niagara Mohawk Power Company.

5. Onsite Energy

[Docket No. QF85-560-000]

On June 24, 1985, Onsite Energy (Applicant), of 10951 Sorrento Valley Road, Suite II-S, San Diego, California 92121 submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at the Capistrano by the Sea Hospital & Clinic at San Diego, California. The facility will contain a reciprocating engine generator and heat recovery unit. The thermal energy will be used in space and water heating and also in the absorption chillers for air conditioning. The primary energy source will be natural gas. The electric power production capacity of the facility will be 60 kW. The facility is expected to be operational on August 1, 1985.

6. Thermo Electron Energy Systems

[Docket No. QF85-566-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Conway, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 108 million kilowatt-hours of energy will be produced annually.

7. Thermo Electron Energy Systems

[Docket No. QF85-567-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Troy, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 106 million kilowatt-hours of energy will be produced annually.

8. Thermo Electron Energy Systems

[Docket No. QF85-568-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Fitzwilliam, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 108 million kilowatt-hours of energy will be produced annually.

9. Thermo Electron Energy Systems

[Docket No. QF85-569-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Antrim, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 108 million kilowatt-hours of energy will be produced annually.

10. Thermo Electron Energy Systems

[Docket No. QF85-570-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Bethlehem, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 108 million kilowatt-hours of energy will be produced annually.

11. Thermo Electron Energy Systems

[Docket No. QF85-579-001]

On June 24, 1985, Thermo Electron Energy Systems (Applicant), of 101 First Avenue, Waltham, Massachusetts 02254, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Campton, New Hampshire and will consist of a solid fuel boiler and condensing steam turbine/generators. The primary source of energy will be biomass in the form of wood waste and whole tree chips. The electric power production capacity of the facility will be 12,000 kW. Approximately 108 million kilowatt-hours of energy will be produced annually.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17499 Filed 7-23-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP85-672-000]

Algonquin Gas Transmission Corp., Complainant, v. Distrigas Corp. and Distrigas of Massachusetts Corp., Respondents; Complaint

July 17, 1985.

Take notice that on June 28, 1985, Algonquin Gas Transmission Company (Algonquin), 1284 Soldiers Field Road, Boston, Massachusetts, 02135, filed in Docket No. CP85-672-000 a complaint pursuant to sections 4, 5, 7, 8, and 15 of the Natural Gas Act and section 385.206 of the Commission's Regulations (18 CFR 385.206). Algonquin requests that all matters relating to compliance with a floor-price condition in temporary certificates issued to Distrigas of Massachusets Corporation (DOMAC), as well as all matters relating to the operation of the condition, be set for expedited hearing and that the Commission require DOMAC to file and serve on all parties in Docket Nos. CP85-487-000 and CP85-488-000, within three days, a full report showing in detail how it has implemented the floor-price condition imposed by the Commission. Algonquin's requests are more fully set forth in the complaint that is on file with the Commission and open to public inspection.

On May 9, 1985, in Docket Nos. CP85-487-000 and CP85-488-000, 31 FERC ¶ 61,166, the Commission issued temporary certificates to DOMAC to make distress sales of imported Algerian liquefied natural gas (LNG) at negotiated rates in order to alleviate an excess supply of LNG in its storage tanks in Everett, Massachusetts. The temporary certificates expire on September 30, 1985. The temporary certificates impose floor and ceiling prices on DOMAC. A floor price was adopted "[b]ecause of [the Commission's] concern that [the sale] may result in unfair competition with other gas suppliers of DOMAC's potential customers . . . ." The temporary certificates further require that DOMAC submit a report requiring, among other things, indentification of the purchasers and DOMAC's sale price.

On June 7, 1985, DOMAC filed a report that stated that it sold LNG to three customers. The principal LNG sale customer was Boston Gas Company (Boston Gas). Algonquin states that the contract between DOMAC and Boston Gas reveals that Boston Gas will purchase some or all of DOMAC's excess LNG at a price one cent per MMBtu below the price on a daily basis of the alternative gas supply Bonton Gas would otherewise purchase. Algonquin further states that the alternative gas supply mentioned in the DOMAC-Boston Gas contract is gas from Algonquin. As a result, Algonquin claims, it is harmed because its sales are displaced by DOMAC's LNG sale. Algonquin alleges that there is no information in the report filed by DOMAC that would permit the Commission to verify DOMAC's compliance with the floor-price condition of the temporary certificates.

Any person desiring to be heard or to make any protest with reference to said complaint shall on or before July 29, 1985, file with the Federal Energy Regulatory Commission, Washington, DC, 20428, a motion to interevene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. DOMAC's and Distrigas Corporation's answer to the complain shall also be due on or before July 29, 1985.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. ER85-622-000, etc.]

Centel Corporation-Kansas et al.; Electric Rate and Corporate Regulation Filings

Take notice that the following filings have been made with the Commission:

I. Centel Corporation-Kansas

[Docket No. ER85-622-000]

July 18, 1985.

Take notice that on July 5, 1985 Centel Corporation-Kansas (Centel) tendered for filing a revised Rate Service Schedule 85-D for Off-Peak Service to generating and distribution municipals (the Firm Municipals).

This filing is a supplement to Docket No. ER85-375-000 as filed on March 18, 1985. This filing does not change the requested additional Revenue of $809,094 which was the basis for the $8,090.94 filing fee as filed and paid.

Comment date: July 30, 1985, in accordance with Standard Paragraph E at the end of this notice.

2. Maine Yankee Atomic Power Company

[Docket No. ES85-46-000]

July 16, 1985.

Take notice that on June 28, 1985, Maine Yankee Atomic Power Company, (the "Company") tendered for filing an application, pursuant to Section 204 of the Federal Power Act, seeking authority to issue on or before August 1, 1986, Bank Notes and Commercial Paper maturing one year or less after the date of issuance in an aggregate principal amount not exceeding $21,000,000 outstanding at any time.

Comment date: July 26, 1985, in accordance with Standard Paragraph E at the end of this notice.

3. Public Service Company of New Mexico

[Docket No. ER83-298-003]

July 18, 1985.

Take notice that on July 1, 1985, Public Service Company of New Mexico (PNM) tendered for filing a refund report. PNM said that it did not collect any amounts from the City of Gallup, New Mexico in excess of the settlement rates under Service Schedule B, and thus it did not owe, nor did it pay, any refunds.

Comment date: July 29, 1985, in accordance with Standard Paragraph H at the end of this notice.

4. Utah Power and Light

[Docket Nos. ER83-427-003, ER83-428-002, and EL85-16-000]

July 18, 1985.

Take notice that on July 1, 1985, Utah Power and Light Company tendered for filing six copies of a Revised Compliance Report which supplement Utah Power and Light Company's Compliance Report filed on November 26, 1984, with respect to Brigham City Corporation, Nephi City Corporation and Town of Levan.

The revised Compliance Filing reflects adjustments made to resolve the protest filed by the above customers on December 19, 1984. The additional amounts paid to Nephi City and the Town of Levan were shown as credits on their billings, copies of which are

VOL
50

1985
UMI

enclosed. The adjustment for Brigham City was paid by Check No. 279731 on March 13, 1985.

Comment date: July 29, 1985, in accordance with Standard Paragraph H at the end of this notice.

Standard Paragraphs:

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

H. Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before the comment date. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ES85-50-000]

Central Maine Power Co.; Application for Authority to Issue Bank Notes and Commercial Paper

July 12, 1985.

Take notice that on June 28, 1985, Central Maine Power Company (Applicant) filed an application, pursuant to section 204 of the Federal Power Act, seeking authority to issue on or before August 1, 1986, Bank Notes and Commercial Paper maturing one year or less after the date of issuance in an aggregate principal amount not exceeding $105,800,000 outstanding at any time.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Commission, 825 North Capitol Street NE., Washington, DC. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before July 26, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project Nos. 3968-003 and 8975-000]

Charles A. Doyle and Rick Bosetti; Availability of Environmental Assessment and Finding of No Significant Impact

July 19, 1985.

In accordance with the National Environmental Policy Act of 1969, the Office of Hydropower Licensing, Federal Energy Regulatory Commission (Commission), has reviewed the applications for exemptions listed below and have assessed the environmental impacts of the proposed developments.

Project No.	Project Name	State	Water body	Nearest town	Applicant
3968-003	Montgomery Creek	CA	Montgomery Creek	Montgomery Creek	Charles A. Doyle.
8975-000	Silver Springs	CA	Silver Springs	Big Bend	Rick Bosetti.

Environmental assessments (EA's) were prepared for the above proposed projects. Based on independent analyses of the above actions as set forth in the EA's, the Commission's staff concludes that these projects would not have significant effects on the quality of the human environment. Therefore, environmental impact statements will not be prepared.

Copies of the EA's are available for review in the Commission's Division of Public Information, Room 1000, 825 North Capitol Street NE., Washington, DC 20426.

[Project No. 4414-001]

East Bay Municipal Utility District et al.; Surrender of Preliminary Permit

July 19, 1985.

Take notice that East Bay Municipal Utility District, Calaveras County, Calaveras County Water District, and Calaveras Public Utility District, Permittees for the Upper Mokelumne River (Railroad Flat Dam Site) Project, FERC No. 4414, have requested that their preliminary permit be terminated. The preliminary permit for Project No. 4414 was issued on October 25, 1982, and would have expired on September 30, 1985. The project would have been located on South Fork and Middle Fork Mokelumne River in Calaveras County, California.

The Permittees filed the request on June 24, 1985, and the preliminary permit for Project No. 4414 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sundary or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following the day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

BILLING CODE 6717-01-M

[Docket No. TA85-4-4-000 and TA85-4-4-001]

Granite State Gas Transmission, Inc.; Proposed Changes in Rates

July 17, 1985.

Take notice that on July 11, 1985, Granite State Gas Transmission, Inc. (Granite State), 120 Royall Street, Canton, Massachusetts 02021 tendered for filing with the Commission the following revised tariff sheet pursuant to the purchased gas cost adjustment provision in its FERC Gas Tariff, First Revised Volume No. 1 containing adjusted changes in rates for effectiveness on July 1, 1985:

Substitute Eleventh Revised Sheet No. 7

Granite State states that it filed its regular purchased gas cost adjustment on June 4, 1985 for effectiveness on July 1, 1985, which has been accepted, subject to certain conditions. According to Granite State, since it made its filing, several changes occurred that have the effect of further reducing its cost of gas, effective July 1, 1985. One of its suppliers, Consolidated Gas Transmission Corporation made an out-of-period purchased gas cost adjustment filing on June 13, 1985 for effectiveness on July 1. (Docket Nos. TA85-2-22-000, *et al.*) Also, according to Granite State, it has arranged for two (2) advantageous purchases of gas under special marketing programs that will reduce its average cost of gas. Further, Granite State states that it estimated the July 1, 1985 effective rate of another supplier, Boundary Gas, Inc., and later information available on June 24, 1985 resulted in a lower rate than originally estimated.

It is stated that the filing is made pursuant to the purchased gas cost adjustment provision in section XIX of the General Terms and Conditions of its tariff. Granite State further states that the rate changes are applicable to wholesale sales to its two affiliated distribution company customers: Bay State Gas Company (Bay State) and Northern Utilities, Inc. (Northern Utilities). According to Granite State, the effect of the proposed gas cost adjustments is a decrease of $11,030,556 annually in rates for sales to Bay State and a decrease of $2,112,915 annually for sales to Northern Utilities.

Granite State also tendered for filing the following revised tariff sheets in its FERC Gas Tariff, Original Volume No. 2, for effectiveness September 1, 1985:

Third Revised Sheet No. 17
Third Revised sheet No. 27

According to Granite State, the foregoing tariff sheets are filed pursuant to the authority granted in the certificate authorization issued in *Granite State Gas Transmission, Inc.* 21 FERC ¶ 61,199 (1982) that authorized Granite State to track changes in the rate of Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) under Rate Schedule T-130 pursuant to which Tennessee renders a transportation service for Granite State. Granite State further states that Tennessee has submitted a settlement in Docket Nos. RP80-97, *et al.* which, *inter alia*, provides for a reduction in its Rate Schedule T-130 rate that Granite State proposes to track in the above tendered tariff sheets.

According to Granite State, copies of the filing were served upon its customers and the regulatory commissions of the States of Maine, Massachusetts and New Hampshire.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with sections 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214). All such motions or protests should be filed on or before July 25, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file

VOL 50 ISS 142 JL 24 1985 UMI

with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[EL85-38-000]

Idaho Power Co.; Petition for Declaratory Order

July 18, 1985.

Public notice is given that Idaho Power Company (IPC) filed a petition for a declaratory order with the Federal Energy Regulatory Commission on November 27, 1984. The petition seeks a Commission order approving an agreement between IPC and the State of Idado that would define water rights held by IPC at the following licensed hydropower projects on the Snake River and its tributaries: FERC Project Nos. 18 (Twin Falls), 503 (Swan Falls), 1975 (Bliss), 2955 (C.J. Strike), 2061 (Lower Salmon), 2726 (Upper and Lower Malad), 2777 (Upper Salmon), and 2778 (Shoshone Falls).

A dispute has arisen over the extent of IPC's water rights for these projects. In particular, the issue was raised by the Governor of the State of Idaho in the relicensing proceedings for the Swan Falls Project No. 503. Under the terms of that license, issued December 22, 1982 (21 FERC ¶ 62,519) the Governor was given an opportunity to submit recommendations for placing conditions in the license for water management purposes. The Governor subsequently recommended that the Swan Falls license be conditioned so as to allow subordination of the project water rights for the benefit of future upstream agricultural irrigation uses consistent with the State Water Plan approved in 1977. That plan would provide for the eventual withdrawal of water from the Snake River to a level that would reduce the minimum daily flow to 3,300 cubic feet per second. IPC opposed the request.

The State of Idaho, through the Governor and the Attorney General, later came to an agreement with IPC that the parties believe will assure a sufficient supply of water IPC's licensed projects and at the same time subordinate water rights in excess of this level to future beneficial upstream uses. The agreement was dated October 25, 1984, and filed with the Commission as an attachment to the petition for declaratory order referred to above. The petition requests the Commission to declare that the agreement between the parties would be in the public interest.

Two motions to intervene and a protest have been filed with respect to the petition. On January 9, 1985, the National Marine Fisheries Service (NMFS) requested intervention and stated that is was unclear how the agreement would affect instream flows for improved migration, spawning and rearing of salmon and steelhead, including but not limited to the system-wide Water Budget flows provided under the Fish and Wildlife Program of the Northwest Power Planning Council. On January 18, 1985, the Golden Eagle Audubon Society filed a resolution urging the Commission to reject the agreement to subordinate IPC's water rights at Swan Falls and to conduct a detailed environmental analysis thereof, including the individual and cumulative effects. On April 1, 1985, the Idaho Natural Resources Legal Foundation, Inc. (INRLF) filed a motion to intervene on generally the same grounds as those expressed by NMFS. NMFS and INRLF were granted intervention by operation of the Commission's regulations 15 days after their submittals.

Anyone may file comments, protests, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214 (1984). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intevene in accordance with the Commission's rules may become a party to the proceeding. All comments, protests or motions to intervene must be filed with the Commission on or before August 30, 1985. Any filing must bear in all capital letters the title "COMMENTS", "PROTEST" or "MOTION TO INTERVENE", as applicable, and the Docket No. of this notice. Send the documents to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, DC, 20426. A copy of any motion to intervene must also be served on IPC and the above-named intervenors. The petition for declaratory order is available in the Commission's public files. A copy may also be obtained from IPC.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP85-171-000]

Mississippi River Transmission Corp. Petition for Authority To Institute Special Billing Procedure and for Waiver of PGA Procedures

July 17, 1985.

Take notice that on July 10, 1985, Mississippi River Transmission Corporation (MRT) transmitted for filing its Petition for Authority to Institute Special Billing Procedure and for Waiver of PGA Procedures. MRT states that the purpose of the special billing procedure is to recover from its customers Order No. 94 "production-related costs" made to its pipeline suppliers.

It is said the special billing procedure is necessary to avoid undesirable market distortions and inequitable allocation of costs among MRT's customers. MRT proposes to invoice the Order 94 retroactive costs based on the ratio of each customer's purchases during the retroactive period to the total of all customer purchases from MRT during that period. Payments to MRT would be made in either lump sum or under an optional, twelve month billing procedure.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of this chapter. All such motions or protests must be filed on or before July 25, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc. 85-17509 Filed 7-23-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. SA85-39-000]

Northwest Central Pipeline Corp., Petition for Exemption and Interim Relief

Issued: July 17, 1985.

On June 13, 1985, Northwest Central Pipeline Corporation (Northwest Central) filed with the Director, Office of Pipeline and Producer Regulation, pursuant to section 206(d) of the Natural Gas Policy Act of 1978 and § 282.206(b) of the Commission's regulations, a petition for exemption from the Commission's incremental pricing regulations issued under section 201 of the NGPA. Northwest Central requests an interim and permanent exemption from its obligation under Title II of the NGPA to impose incremental pricing surcharges for nonexempt natural gas which it sells to the Bareco Division of Petrolite Corporation (Petrolite). Petrolite purchases gas from Northwest Central for boiler fuel use in the manufacture of food-grade microcrystalline and paraffin waxes at its Barnsville, Oklahoma plant.

In support of its request for interim relief, Northwest Central states that the incremental pricing surcharge levied on Petrolite will cause that company's gas cost to rise above the price offered by Northwest Central's competition, Transok Pipeline Company, which is not subject to the Commission's incremental pricing program. Northwest Central states that Petrolite has indicated it will purchase gas based upon the lowest available cost. As a result, Northwest Central alleges that without an exemption from the requirements of incremental pricing, it could lose the sales currently being made to Petrolite and that the loss of such sales will force Northwest Central's high-priority customers to bear a greater portion of its fixed costs. Interim relief was granted by order of the Director issued on July 15, 1985, in this docket.

The procedures applicable to the conduct of this proceeding are set forth in Rules 1101-1117 (Subpart K) of the Commission's rules of practice and procedure. Any person desiring to participate in this proceeding must file a motion to intervene in accordance with Rule 1105. All motions to intervene must be filed within 15 days after publication of this notice in the Federal Register.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17510 Filed 7-23-85; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 3553-004]

Rauniker, Inc.; Surrender of Exemption From Licensing

July 19, 1985.

Take notice that Rauniker, Inc., Exemptee for the Lowell Water Power Project No. 3553, requested by letter dated June 11, 1985, that its exemption be terminated because the financial market makes the project infeasible, and that the project is located in an area with a low cost, coal fired power base with surplus capacity. The exemption was issued on September 24, 1982, and an extension of time of six months was granted on May 9, 1984, and December 18, 1984, which required construction of the project to start by September 20, 1984, and March 20, 1985, respectively, pursuant to Article 3 of the exemption. The project would have been located on Spring River and Shoal Creek in Cherokee County, Kansas. No construction of the project works has been performed, and no conditions are needed concerning the restoration of Federal and non-Federal lands pursuant to § 4.95(b) of the Commission's regulations.

The Exemptee filed the request on June 21, 1985, and the exemption for Project No. 3553 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.2007, in which case the exemption shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. CP85-577-014 et al.]

Trunkline Gas Company et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Trunkline Gas Company

[Docket No. CP85-577-014]

July 19, 1985.

Take notice that on June 12, 1985, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP84-577-014 a request pursuant to Section 7 of the Natural Gas Act and Section 157.205 of the Regulations under the Natural Gas Act for authorization to make an off-system sale of natural gas. It is explained that the request is pursuant to authorization received in the Commission's order issued October 29, 1984, in Docket No. CP84-577-000, authorizing a sales for take-or-pay relief program (STOPR), all as more fully set forth in the request which is on file with the Commission and open for public inspection.

Applicant proposes to make an off-system sale of gas to Long Island Lighting Company (Long Island Lighting), a local distribution company. Pursuant to the terms of a service agreement dated May 28, 1985, between Applicant and Long Island Lighting, Applicant would deliver up to 85,000 Mcf of gas per day, on an interruptible basis, to Transcontinental Gas Pipe Line Corporation (Transco), for the account of Long Island Lighting, at an existing point of interconnection between Applicant and Transco at Ragley, Beauregard Parish, Louisiana, it is stated. It is indicated that Transco would then transport the gas to Long Island Lighting.

Applicant indicates that Long Island Lighting would use the gas for system supply for resale within its service area. It is stated that the sales price which Long Island Lighting would pay Applicant is $2.8417 per dt equivalent of gas. It is stated that the sales price consists of Applicant's average cost of gas, the GRI surcharge, and an added margin pursuant to the authorization in the STOPR order.

It is stated that the service is conditioned upon the availability of capacity sufficient to provide service without detriment to Applicant's existing customers. The term of the service under the authorization sought herein would be from the date of the first delivery, with termination to coincide with the expiration under the STOPR program, it is indicated.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

2. Arkla Energy Resources, a division of Arkla, Inc.

[Docket No. CP85-657-000]

July 17, 1985.

Take notice that on June 27, 1985, Arkla Energy Resources, a division of Arkla, Inc. (Arkla), P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP85-657-000 a request pursuant to Section 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Derby Refining Company (Derby) under the certificate issued in Docket Nos. CP82-384-000 and CP82-384-001 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Arkla proposes to transport from Pope and Johnson Counties, Arkansas, up to 3,575 Mcf of gas per peak day, 2,405 Mcf per average day, and 877,825 Mcf per year for use in Derby's industrial plant near Wichita, Kansas. Arkla states that the terms of the proposed transportation service is until May 1, 1986.

VOL 50 ISS 142 JUL 24 1985 UMI

Arkla states that it would charge the currently applicable transportation rate in accordance with its ECOSHARE Transportation Rate Schedule or Rate Schedule No. TRG–1, FERC Gas Tariff, First Revised Volume No. 2. The transportation agreement provides for initial rates of 34.84 cents per MMBtu for transportation under Rate Schedule TRG–1 of released gas delivered in Arkla's gathering facilities, 53.38 cents per MMBTu for transportation of other gas delivered into Arkla's gathering facilities, and 34.84 cents per MMBtu for transportation of gas delivered into Arkla's transmission system.

Arkla also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Arkla would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

Panhandle Eastern Pipe Line Company

[Docket No. CP85–659–000]

July 19, 1985.

Take notice that on June 28, 1985, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85–659–000 a request pursuant to Section 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Harbison-Walker Refractories (Harbison-Walker) under its certificate issued in Docket No. CP83–83–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in its request on file with the Commission and open to public inspection.

Panhandle requests authority to transport gas on behalf of Harbison-Walker pursuant to a transportation agreement dated May 14, 1985, among Panhandle, Harbison-Walker and East Ohio Gas Company (East Ohio). Panhandle indicates that the agreement provides for Panhandle to receive a transportation quantity of up to 750 Mcf of gas per day, on an interruptible basis, at an existing point of interconnection between Panhandle and Graham Oil and Gas, Ltd.—Drilling Partnership 80 B., *et al.*, (Seller) in Dewey County, Oklahoma. Panhandle states that it would then transport and redeliver such gas, less a four percent reduction for fuel, to East Ohio at an existing point of receipt in Maumee, Ohio and that East Ohio in turn would make ultimate delivery to Harbison-Walker for its end use at its facilities in Windham, Ohio. Panhandle proposes to provide the requested service for a term expiring on the earlier of eighteen months from the date of the contract (May 14, 1985) or the termination date of authorization pursuant to Subpart F of 18 CFR Part 157.

Panhandle also requests flexible authority to add or delete sources of supply or receipt/delivery points if such altered service is on behalf of the same end-user, at the same end-user location, within the maximum daily and annual volumes authorized in this docket. Panhandle indicates that following the addition or deletion of any gas supplies or receipt or delivery points, it will file with the Commission certain information within thirty (30) days following the implementation of such changes.

Panhandle states that it would charge Harbison-Walker the rates provided by its Rate Schedule OST, including the Gas Research Institute surcharge. Panhandle estimates that the annual volume, peak day volume and average day volume of gas would be 270,000 Mcf, 750 Mcf and 750 Mcf, respectively, and that the volumes represent the total gas requirements for Harbison-Walker's plant.

Panhandle has submitted a letter from East Ohio indicating that it has sufficient capacity to transport the gas without detriment to its other customers and a statement from the producer-supplier indicating that the gas to be transported was not committed or dedicated to interstate commerce prior to November 8, 1978, and that the sale price does not exceed the maximum lawful price under the Natural Gas Policy Act of 1978.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

4. Tennessee Gas Pipeline Company, A Division of Tenneco Inc.

[Docket No. CP85–108–001]

July 19, 1985.

Take notice that on June 24, 1985, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP85–108–001 an amendment to its pending application filed November 13, 1984, in Docket No. CP85–108–000 pursuant to section 7(c) of the Natural Gas Act so as to reflect certain changes in the proposed construction and operation of pipeline and appurtenant facilities in offshore and onshore Texas, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Tennessee states that in its application filed in Docket No. CP85–106–000, it proposed to construct and operate approximately 65 miles of 24-inch mainline extending from an interconnection on Tennessee's mainline system in Refugio County, Texas, to a terminus in Mustang Island Block 847 (MU 847). Tennessee also proposed to construct three laterals extending from the proposed offshore mainline.

Tennessee's amended application states that in order for it to take into account certain adjustments in the location and estimates of gas supply in the Texas Offshore Pipeline System (TOPS) area, it now proposes to construct and operate approximately 61 miles of 20-inch pipeline extending from its Texas system in Refugio County, Texas, via MU 847 to its terminus in MU A–31. Tennessee also proposes to acquire from Tenneco Oil Company (TOC), at a total cost of $64,000, two eight-inch risers which would be installed in MU 847 are prefabricated onshore. It is stated that this would reduce the cost of installation of the risers and reduce future risk of damage from barges and supply vessels since onshore installation permits internal attachment to the platforms versus external attachment when the work is done after the platforms are in place offshore.

Tennessee further states that the proposed facilities are required to attach reserves in at least 21 offshore blocks in the North Padre and Mustang Island areas of offshore Texas in which TOC, Amoco Production Company, Pennzoil Producing Company, and Gulf Oil Company have interests. It is also stated that Tennessee and TOC have entered into a letter of intent whereby gas produced from TOC's leases would be committed for purchase and transportation in TOPS. In addition to the above interests, Tennessee states that Sonat Exploration Company and Phillips Petroleum Company (Phillips) have discovered natural gas and are developing MU 791 and Exxon Corporation and Phillips have discovered natural gas and are developing MU 886. It is explained that Tennessee is also negotiating for the purchase of these interests.

Tennessee estimates that the blocks in the TOPS area contain proven and risk adjusted potential reserves of 520,600,000 Mcf of gas with a maximum annual deliverability of 241,900 Mcf per day. It is indicated that the proposed facilities, including two laterals proposed to be constructed later under Tennessee's blanket certificate authorization in Docket No. CP82–413–000 are designed with a maximum capacity of 285,000 Mcf per day. The estimated cost of the system, it is explained, is $51,657,000 and the facilities would be ready for service during 1986–1987 winter heating season, a period which would coincide with a decline in Tennessee's system supplies. Tennessee states that it would finance the estimated cost of facilities initially from general funds and/or borrowing under its revolving credit agreement.

Comment date: August 9, 1985, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

5. United Gas Pipe Line Company

[Docket No. CP85–496–000]

July 19, 1985.

Take notice that on May 7, 1985, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP85–496–000, as supplemented June 7, 1985, and June 28, 1985, a request pursuant to Section 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport gas on behalf of Bishop Pipeline Corporation (Bishop), which is acting as an agent for Allied Corporation-Chemical Sector (Allied), to be used for low-priority boiler fuel by Allied at its Chesterfield plant located in Hopewell, Virginia, under its cetificate issued in Docket No. CP82–430–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request, as supplemented, on file with the Commission and open to public inspection.

United proposes to transport up to 7,500 Mcf of natural gas per day on behalf of Bishop. It is stated that United would receive the gas at the interconnection of United's and Bishop's facilities in St. Martin Parish, Louisiana. United would redeliver such gas for Bishop's account at the interconnection of United's and Columbia Gulf Transmission Corporation's (Columbia Gulf) facilities in Vermilion Parish, Louisiana. It is also stated that Columbia Gas Transmission Company (Columbia Gas) would receive the gas from Columbia Gulf and redeliver it to Commonwealth Pipeline and Commonwealth Services, the distributor serving Allied. United states that it would charge Bishop 11.09 cents per Mcf as set forth in United's Rate Schedule IT.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs:

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not with drawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–17496 Filed 7–23–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket Nos. CP85–621–000, et al.]

ANR Pipeline Co. et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. ANR Pipeline Company

[Docket No. CP85–621–000]

July 17, 1985.

Take notice that on June 17, 1985, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP85–621–000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continued transportation of natural gas for various end-users, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

ANR proposes to continue fifteen transportation services originally commenced under Sections 157.205 and 157.209 of the Commission's Regulations. ANR proposes to continue the transportation services through December 31, 1986.

ANR proposes to continue the transportation services listed below:

Name of end-user	Prior notice authorization	Proposed transportation volumes (Mcf per day)
Gulf States Utilities	CP84–121–000	50,000
Bethlehem Steel Corp., Inc.	CP84–172–000	65,000
ARMCO, Inc.	CP84–305–000	42,000
Gen Corp	CP84–347–000	3,000
3M Corp	CP84–288–000	7,000
Westvaco Corp	CP84–301–000	4,500
Gates Rubber Co	CP84–353–000	500
Briggs, a Division of the Celotex Corp	CP84–413–000	1,000
Sohio Chemical Co	CP84–453–000	50,000
Union Texas Petroleum Corp	CP84–548–000	15,000
Anchor Glass Corp	CP84–576–000	3,500
Fostoria Glass Container Corp	CP84–695–000	1,000
Sohio Oil Co	CP84–727–000	12,000
Vulcan Materials Co	CP85–45–000	14,000
Butler Manufacturing Co	CP85–371–000	500

ANR states that it would charge rates provided by its Rate Schedule EUT–1. ANR also indicates that transportation service by other pipelines is required to move the gas from the seller to the end-user. ANR requests waiver of § 284.122(b)(1) of the Commission's

Regulations on behalf of all third party intrastate shippers to permit the transportation services by ANR to be accomplished. ANR also advises that the local distribution companies providing complementary transportation service would do so pursuant to appropriate state authority.

Comment date: August 7, 1985, in accordance with Standard Paragraph F at the end of this notice.

2. Columbia Gas Transmission Corporation

[Docket No. CP84-458-001]

July 17, 1985.

Take notice that on June 28, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in Docket No. CP84-458-001 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to continue to transport natural gas on behalf of Mead Corporation (Mead) under the certificate issued in Docket No. CP83-76-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

By request noticed on June 20, 1984 in Docket No. CP84-458-000, pursuant to the prior notice and protest procedure set forth in § 157.205 of the Commission's Regulations, Columbia was authorized to transport up to 2.2 billion Btu equivalent of natural gas per day through May 1, 1985 to Mead's Chillicothe, Ohio, plant.

Columbia Transmission proposes to continue the above-described transportation through October 31, 1985 on the same terms and conditions as the existing transportation authority.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

3. Columbia Gas Transmission Corporation

[Docket No. CP84-607-001]

July 17, 1985.

Take notice that on July 9, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in Docket No. CP84-607-001 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to continue the transportation of natural gas on behalf of Yenkin-Majestic Paint Corporation (Yenkin-Majestic) under the certificate issued in Docket No. CP83-76-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

By request noticed on August 10, 1984, in Docket No. CP84-607-000, pursuant to the prior notice and protest procedure set forth in § 157.205, Columbia was authorized to transport up to 70 million Btu equivalent of natural gas per day through May 31, 1985, to Yenkin-Majestic's Columbus, Ohio, plant, subject to Columbia's Rate Schedules TS-1 and/or TS-2, as applicable.

Columbia proposes to continue the above-described transportation through October 31, 1985, pursuant to a May 3, 1985, gas transportation agreement on the same terms and conditions as originally authorized in Docket No. CP84-607-000.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

3. Columbia Gas Transmission Corporation

[Docket No. CP85-666-000]

July 17, 1985.

Take notice that on July 1, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in Docket No. CP85-666-000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon two storage observation wells, all as more fully set forth in the application on file with the Commission and open to public inspection.

Columbia proposes to abandon Well No. H-110 in Dundee storage field located in Schuyler County, New York. Columbia states that the well has been used for observation purposes since 1954, is in deteriorated condition and is no longer required for the operation of Dundee storage field. Columbia also proposes to abandon Well No. 4206 in Pavonia storage field located in Ashland County, Ohio. Columbia states that it has been requested by the Board of Commissioners of Ashland County, Ohio, to plug Well No. 4206 due to a landfill project in the area surrounding this well. Columbia states that the well has been used for pressure observation purposes for several years and is no longer required for the operation of Pavonia Storage Field. Neither of the above wells would be replaced, it is stated.

Comment date: August 7, 1985, in accordance with Standard Paragraph F at the end of this notice.

5. Columbia Gas Transmission Corporation.

[Docket No. CP85-688-000]

July 16, 1985.

Take notice that on July 10, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP85-688-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Genstar Stone Products, Div. of FLintkote Co., Subsidiary of Genstar Products (Genstar) under the certificate issued in Docket No. CP83-76-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Columbia proposes to transport up to 1 billion Btu equivalent of natural gas per day for Genstar through October 31, 1985. Columbia states that the gas to be transported would be purchased from Raines Oil & Gas Corporation (Raines) and would be used as process gas in Genstar's Cockeysville, Maryland, plant.

Columbia states that it would receive up to 1 billion Btu equivalent of natural gas per day delivered into its pipeline system at an existing interconnection in Morgan County, Ohio, and would redeliver such gas to Baltimore Gas & Electric Company, the distribution company serving Genstar.

Columbia states that it would charge one of the following rates in its Rate Schedule TS-1 of its FERC Gas Tariff for the transportation service: (1) 29.93 cents per Mcf for gas received from receipt points other than Leach, Kentucky, provided the volumes are within the distributor's total daily entitlements (TDE), and (2) 41.27 cents per million Btu for gas received from receipt points other than Leach, Kentucky, if the volumes are in excess of the seller's customers' TDEs. Columbia further states it would retain 2.43 percent of the total quantity of gas delivered into its system for company-use and unaccounted-for gas. In addition, Columbia states it would collect the General R&D Funding Unit of the Gas Research Institute for all quantities transported under the transportation arrangement.

Columbia also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by Genstar. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Columbia would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 30, 1985, in accordance with Standard Paragraph G at the end of this notice.

6. K N Energy, Inc.

[Docket No. CP85-661-000]

July 17, 1985.

Take notice that on June 28, 1985, K N Energy, Inc. (K N), P.O. Box 15265, Lakewood, Colorado 80215, filed in Docket No. CP85-661-000 a request pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate sales taps for the delivery of natural gas to certain end users under its certificate issued in Docket Nos. CP83-140-000, CP83-140-001 and CP83-140-002 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

K N proposes to construct and operate three sales taps to end users located along its jurisdictional pipeline as identified below:

Customer	Location of tap	Approximate quantity to be sold (Mcf)		End use of gas
		Peak day	Annual	
Resident/Occupant 85-42 Wick Grain Company	Lane Co., Kansas	2	120	Domestic.
Resident/Occupant 85-43 Hubert Stucius	Thayer Co., Nebraska	2	120	Do.
Resident/Occupant 85-44 Phyllis K. Rueb	Cheyenne Co., Kansas	2	120	Do.

K N states that the proposed sales taps are not prohibited by its existing tariffs and that the additional taps would not have a significant impact on K N's peak day and annual deliveries. It is asserted that the natural gas delivered and sold by K N to the various end users would be priced in accordance with the currently filed rate schedules authorized by the applicable state or local regulatory body having jurisdiction.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

7. Natural Gas Pipeline Company of America

[Docket No. CP85-654-000]

July 18, 1985.

Take notice that on June 27, 1985, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP85-654-000 a request pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authority to transport natural gas for Olin Corporation (Olin) under the certificate issued in Docket No. CP82-402-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Natural proposes to transport up to 3.5 billion Btu equivalent of natural gas per day on an interruptible basis for Olin. Natural proposes to render the service until the earlier of an effective date of a final rule in Docket No. RM85-1-000, or until October 31, 1985. Natural states that Olin has entered into a gas sales agreement to purchase gas from Panhandle Trading Company and that such gas was not committed or dedicated to interstate commerce on November 8, 1978. Natural would receive natural gas for the account of Olin at an interconnection of facilities between Natural and Panhandle Eastern Pipe Line Company in Moultrie County, Illinois and transport and redeliver such gas for Olin's account at an existing interconnection of facilities between Natural and Northern Illinois Gas Company in Livingston County, Illinois for ultimate redelivery to Olin's plant in Joliet, Illinois, it is explained. Olin will use the gas for the processing of Phosphate products it is stated. Natural states that it would retain 0.7 percent of the volumes received to compensate for gas lost and unaccounted for and for gas used as fuel. Natural also requests flexibile authority to add and/or delete sources of gas and/or receipt points in performance of the service. Natural states that any changes made under the flexible authority would be on behalf of the same end-user, at the same end-use location, and would remain within the levels requested herein.

Natural would charge Olin a transportation charge of 2.8 cents per million Btu received for Olin's account plus the Gas Research Institute's surcharge, it is explained.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

8. Panhandle Eastern Pipe Line Company

[Docket No. CP85-640-000]

July 17, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Panhandle Eastern), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85-640-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Reinforced Plastics Division of DiversiTech General Inc. (Reinforced Plastics) under the certificate issued in Docket No. CP83-83 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle Eastern proposes to transport up to 2,000 Mcf of natural gas per day on an interruptible basis for Reinforced Plastics for 18 months should the Commission extend the end-user transportation program beyond June 30, 1985. Panhandle Eastern indicates that the gas to be transported would be purchased from Yankee Resources, Inc. (Yankee) and that it would receive said volumes at its Union Texas Chaney Dell plant in Major County, Oklahoma and Phillips Kingfisher plant in Kingfisher County, Oklahoma. Panhandle Eastern states it would transport and deliver said volumes, less a 4 percent retainer to Indiana Gas Company (Indiana Gas) in Grant County, Indiana. Panhandle Eastern further states that Indiana Gas would make ultimate delivery of said volumes to Reinforced Plastics for use in its boilers in its Marion, Indiana, facility.

Panhandle Eastern states that it commenced this transportation service on May 1, 1985 under the automatic authorization of section 157.209 of the Natural Gas Policy Act of 1978. Panhandle Eastern indicates that it would charge Reinforced Plastics 42.0 cents for each Mcf of natural gas transported with existing contract demand (CD) and 87.0 cents for each Mcf that exceeds that volume, which is in accordance with its Rate Schedule On-System Transportation System (OST). In addition, Reinforced Plastic would pay a Gas Research Institute surcharge, if applicable, it is stated.

Panhandle Eastern also requests flexible authority to add or delete receipt/delivery points associated with

sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Panhandle Eastern would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

9. Tennessee Gas Pipeline Company, a Division of Tenneco Inc.

[Docket No. CP85-622-000]

July 17, 1985.

Take notice that on June 17, 1985, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP85-622-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of the National Railroad Passenger Corporation (Amtrak), an industrial end-user, under the certificate issued in Docket No. CP82-413-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Tennessee proposes to transport up to 3,120 MMBtu equivalent of natural gas per day on an interruptible basis for Amtrak for a term which is being negotiated. Tennessee indicates that the gas to be transported would be purchased from P&O Falco, Inc., and that it would receive said gas at its Lakeside dehydration purchase meter station in Chautauqua County, New York. Tennessee would transport the gas to The Southern Connecticut Gas Company (Southern Connecticut) at Tennessee's Trumbull sales meter station in Fairfield County, Connecticut. Southern Connecticut would transport the gas to Amtrak's New Haven Connecticut, maintenance yard for use as steam and electric power generation.

Tennessee indicates that it would charge Amtrak 17.14 cents for each Mcf of natural gas transported which is in accordance with its Rate Schedule ITEU. In addition, Amtrak would pay a Gas Research Institute surcharge, if applicable. Further Tennessee states that it would retain 3.10 percent of the volumes it receives for its system use, gas lost and unaccounted for.

Tennessee also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by Amtrak. The flexible authority requested is to apply only to points related to sources of gas supply, and not to delivery points in the market area. Tennessee will file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not increase those quantities.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

10. Texas Gas Transmission Corporation

[Docket No. CP85-623-000]

July 17, 1985.

Take notice that on June 17, 1985, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP85-623-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas for an eligible end-user under the certificate issued in Docket No. CP82-407-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Assuming the Commission extends the blanket end-user program, Texas Gas requests authorization to transport beyond the primary term ending June 30, 1985, to October 31, 1985, up to 3.2 billion Btu of low-priority natural gas per day on an interruptible basis on behalf of Indiana Gas Company, Inc. (Indiana Gas), as agent for United States Gypsum Company (U.S. Gypsum), for ultimate delivery to U.S. Gypsum at its Shoals, Indiana, plant. Texas Gas states that it is possible for 1,168,000 million Btu of low-priority gas to be transported on an annual basis.

Texas Gas proposes to charge for its service the rate provided in its Rate Schedule TSC 3 for Rate Schedule G sales customers on file with the Commission, which is currently 21.90 cents, and the legally effective GRI surcharge of 1.25 cents.

Texas Gas indicates that the proposed transportation would be rendered through the use of existing facilities.

Texas Gas also indicates that the gas would be used for manufacture of wallboard and the calcinning of gypsum rock in U.S. Gypsum's Shoals, Indiana, plant. U.S. Gypsum has purchased its gas supplies from EnTrade Corporation, in a first sale, and such gas was not dedicated to interstate commerce on November 8, 1978, it is explained.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

11. Texas Gas Transmission Corporation

[Docket No. CP85-631-000]

July 17, 1985.

Take notice that on June 21, 1985, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP85-631-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of United Cities Gas Company (United Cities), as agent for Goodyear Tire and Rubber Company (Goodyear), under the certificate issued in Docket No. CP82-407-000 pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Texas Gas proposes to transport beyond the primary term ending June 30, 1985, to October 31, 1985, up to 6,000 MMBtu equivalent of natural gas per day, on an interruptible basis, for ultimate delivery to Goodyear at its Union City, Tennessee, plant. Goodyear is said to estimate its average daily requirement for this gas to be 3,000 MMBtu and to estimate its annual requirement for this gas to be 1,000,000 to 1,400,000 MMBtt.

Texas Gas proposes to charge for its service the rate provided in its Rate Schedule TSC 2 for Rate Schedule G sales customers, which is currently 19.50 cents, and the GRI surcharge of 1.25 cents.

Texas Gas indicates that the proposed transportation by Texas Gas would be rendered through the use of existing facilities.

Texas Gas also indicates that the gas would be used for process steam (boiler fuel for fire manufacturing) in Goodyear's Union City plant. Goodyear has purchased its gas supplies from UCG Energy Corporation, it is explained.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

12. Texas Gas Transmission Corporation

[Docket No. CP85-632-000]

July 17, 1985.

Take notice that on June 21, 1985, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP85-632-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Memphis Light, Gas and Water Division (Memphis), as agent for Ralston Purina Company (Ralston Purina), under the certificate issued in Docket No. CP82-407-000 pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Texas Gas proposes to transport beyond the primary term ending June 30, 1985, to October 31, 1985, up to 3,000 MMBtu equivalent of natural gas per day, on an interruptible basis, for ultimate delivery to Ralston Purina at its Memphis, Tennessee plant. The gas would be used for drying, process heat, and steam, it is explained. It is said to be possible for 1,095,000 MMBtu of gas to be transported on an annual basis.

Texas Gas proposes to charge for its service the rate provided in its Rate Schedule TSC 1 for Rate Schedule G sales customers which is currently 16.26 cents, and the GRI surcharge of 1.25 cents.

Texas Gas indicates that the proposed transportation would be rendered through the use of existing facilities.

Ralston Purina is said to have purchased the gas from Bishop Pipeline, an intrastate pipeline.

Comment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

13. Transcontinental Gas Pipe Line Corporation

[Docket No. CP85-677-000]

July 17, 1985.

Take notice that on July 5, 1985, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1296, Houston, Texas 77251, filed in Docket No. CP85-677-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport end-user gas on behalf of Lithium Corporation of America (Lithium) under the authorization issued in Docket No. CP82-426-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Transco proposes to transport on a peak day 3,900 dt equivalent; on an average day 2,600 dt equivalent; and on an annual basis 910,000 dt equivalent of gas for use at Lithium's chemical manufacturing plant in Bessemer City, North Carolina (Bessemer plant), for a term expiring October 31, 1985. It is stated that the natural gas to be transported would be purchased from GHR Energy Corporation (GHR), and would be used for process fuel and boiler fuel. It is stated that Transco would receive the gas at (1) the existing interconnection with GHR at Agua Dulce, Nueces County, Texas, (2) the existing interconnection with Valero Transmission Company in LaSalle County, Texas, (3) the existing interconnection with GHR at Miranda Prospect, Duval County, Texas and (4) the tailgate of the Katy Exxon gas plant in Waller County, Texas, and would redeliver on an interruptible basis, equivalent quantities (less quantities retained for compressor fuel and line loss make-up) to existing points of delivery with Public Service of North Carolina (Public Service). In turn, Public Service would redeliver such gas to the Bessemer plant.

Transco states that it would charge Lithium the currently applicable transportation rate in accordance with its Rate Schedule T-II, FERC Gas Tariff, Second Revised Volume No. 1. In addition, Transco states that it would apply its current transportation policy to the subject transportation which, among other things, requires that Lithium periodically provide Transco with affidavits which state that the subject transportation is not displacing sales which Transco would otherwise make under any of its firm sales rate schedules.

Transco states that Lithium is considering alternatives in the sources of supply of natural gas for delivery to the Bessmer plant. Transco further states that such modifications may involve different suppliers and/or changes in receipt/delivery points, but would not involve any increase in peak day, average day or annual volumes to be transported by Transco. Transco also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Transco will file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Transco asserts that any changes made pursuant to such flexible authority would be on behalf of the same end user, Lithium, for use at the same end-use locations and would remain within

daily and annual volume levels proposed herein.

Coment date: September 3, 1985, in accordance with Standard Paragraph G at the end of this notice.

14. Trunkline Gas Company

[Docket No. CP85-665-000]

July 16, 1985.

Take notice that on July 1, 1985, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85-665-000 a request pursuant to § 157.205 of the Commission's regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Allied Corporation, Chemical Sector (Allied) under the certificate issued in Docket No. CP83-84-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Trunkline proposes to transport up to 1,500 Mcf of natural gas per day for Allied through the earlier of (1) eighteen months from the effective date of transportation agreement, (2) termination of authorizations as provided by Subpart F of 18 CFR Part 157, or (3) termination of the agreement by either of the parties. Trunkline states that the gas to be transported would be purchased from Bishop Pipeline Corporation (Bishop) and would be used for boilers, calciners, dryer, incinerator and miscellaneous process use in Allied's plant in Metropolis, Illinois.

Trunkline indicates that it would receive up to 1,500 Mcf of natural gas per day delivered into its pipeline system at existing interconnections with Bishop's designees in Goliad and Hidalgo Counties, Texas and St. Mary Parish, Louisiana, and would then redeliver such gas to United Cities Gas Company (United Cities) a jurisdictional customer of Trunkline, in Massac County, Illinois. It is stated that United Cities would then deliver the gas to Allied's Metropolis, Illinois plant.

Trunkline states that it would charge Allied a rate set forth in Trunkline's Rate Schedule IT, which is currently (1) 32.85 cents per Mcf for gas received in Golaid County, Texas, (2) 40.75 cents per Mcf for gas received in Hidalgo County, Texas, and (3) 24.95 cents for gas received in St. Mary Parish, Louisiana. Trunkline indicates that these rates include the General R & D Funding Unit of the Gas Research Institute.

Trunkline also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by Allied. The flexible

VOL 50 ISS 142 JL 24 1985 UMI

authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Trunkline would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 30, 1985, in accordance with Standard Paragraph G at the end of this notice.

15. United Gas Pipe Line Company

[Docket No. CP85-629-000]

July 17, 1985.

Take notice that on June 20, 1985, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP85-629-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing transportation of natural gas for Arco Oil and Gas Company, a Division of Atlantic Richfield Company (Arco), on an interruptible basis, under a gas transportation agreement dated January 25, 1985, all as more fully set forth in the application on file with the Commission and open to public inspection.

The agreement is said to provide for Arco to cause delivery of an aggregate total quantity of 6,000 Mcf of natural gas per day to United from various sources located in Panola County, Texas, through existing facilities. United would transport and redeliver the gas for Arco to an existing interconnection between the facilities of United and Arco near Southern Natural Gas Company's 10-inch Carthage line in Carthage Field, Panola County, Texas. United is proposing to transport the gas for a primary term ending January 15, 1987, and year to year thereafter.

United states that for each Mcf redelivered, United will charge Arco an amount equal to United's type I Rate (Rate Schedule IT) which includes a component for gas consumer in the operation of United's pipeline system. Currently, such rate is 11.09 cents per Mcf.

Comment date: August 7, 1985, in accordance with Standard Paragraph F at the end of this notice.

16. United Gas Pipe Line Company

[Docket No. CP85-649-000]

July 17, 1985.

Take notice that on June 26, 1985, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP85-649-000 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the consolidation of deliveries presently made at two delivery points to Zapata Haynie Corporation (Zapata) in Moss Point, Mississippi, to deliver the total volume at one point and for permission and approval to abandon the other points, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

United proposes to deliver a maximum daily quantity of 2,700 Mcf of gas to Zapata at the Moss Point delivery point instead of 1,500 Mcf at Moss Point and 1,200 Mcf at the Fish Meal delivery point. It is stated that the Fish Meal delivery point was used to serve a processing plant owned by Seacoast Products, Inc., which has now been acquired by Zapata. It is further stated that Zapata has requested, in a letter dated February 5, 1985, that United consolidate the two delivery points and eliminate the unnecessary facilities at the Fish Meal point.

United explains that the metering facilities would be removed at a cost of $1,200, with a salvage value of $2,145. It is asserted that the proposed abandonment would not result in a termination of service to any United's customers.

Comment date: August 7, 1985, in accordance with Standard Paragraph F at the end of this notice.

17. Westar Transmission Company, a Division of Cranberry Pipeline Corporation

[Docket No. CP82-396-001

July 17, 1985.

Take notice that on June 28, 1985, Westar Transmission Company, a Division of Cranberry Pipeline Corporation (Westar), P.O. Box 90, Amarillo, Texas 79189, filed in Docket No. CP82-396-001 a petition to amend the order issued October 8, 1982, in Docket No. CP82-396-000 pursuant to Section 7 of the Natural Gas Act so as to substitute Westar Transmission Company, a Division of Cranberry Pipeline Corporation, as the certificate holder in the docket in place of Westar Transmission Company, a Division of Pioneer Corporation (Pioneer), in order to reflect the change in ownership of the underlying Hinshaw facilities. Westar also requests that the Commission carry forward to it from Pioneer the Hinshaw exemption under Section 1(c) of the Natural Gas Act authorized by the Commission for Pioneer. The proposals are more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Westar states that effective September 29, 1984, the assets of Pioneer were acquired by Cranberry Pipeline Corpration and that Pioneer was redesignated Westar.

It is stated that by order issued October 8, 1982, the Commission issued to Pioneer a certificate under Section 7(c) of the Natural Gas Act and § 284.222 of the Commission's Regulations granting Pioneer blanket authorization with respect to its West Texas System to transport, sell and assign natural gas in interstate commerce as if Pioneer were an intrastate pipeline under the Natural Gas Policy Act of 1978. It is asserted that the Commission determined in that order that Pioneer is a Hinshaw pipeline exempt from the Commission's jurisdiction under section 1(c) of the NGA.

Comment date: August 7, 1985, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPP-180680; FRL-2868-5]

Florida Department of Agriculture and Consumer Services; Receipt of Application for Emergency Exemption To Use Fluridone; Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a request for an emergency exemption from the Florida Department of Agriculture and Consumer Services (hereafter referred to as "Applicant") to use the unregistered herbicide fluridone in 333 acres of Hygrophila-infested drainage and flood control canals. EPA is soliciting comment before making a decision whether or not to grant the exemption.

DATE: Comments must be received on or before August 8, 1985.

ADDRESS: Three copies of written comments, bearing the identification notation "OPP-180680," should be submitted by mail to:

By mail: Jim Tompkins, Registration Division (TS-767C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

Office location and telephone number: Rm. 716 B, Crystal Mall 2, 1921 Jefferson Davis Highway, Arlington, VA. (703-557-1192).

SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may at his discretion, exempt a State agency from any provisions of FIFRA if he determines that emergency conditions exist which require such exemption.

The Applicant has requested the Administrator to issue a specific exemption to permit the use of the herbicide fluridone (CAS 59756-60-4) in Hygrophila-infested drainage and flood control canals in Florida. Information in accordance with 40 CFR 166 was submitted as part of this request.

The Applicant claims that Hygrophila (*Hygrophila polysperma* (Roxb)) has been rapidly expanding its range and developing increasingly troublesome infestations in the drainage and flood control canals of South Florida since 1980. The dense infestations which form when Hygrophilia grows under East Coast conditions severely restrict the operation and effectiveness of the flood control systems of the affected water management districts by clogging drainage canals and closing pump intake passages. The water management areas affected by the Hygrophilia infestations protect densely populated residential areas in South Florida. During periods of heavy rainfall, the almost instantaneous response of the drainage system is essential to prevent flooding in densely populated residential areas. Last year, several thousand dollars of structural damage was done to pumping stations due to mats of Hygrophilia on intake screens.

The Applicant states that laboratory studies indicate that currently registered herbicides are not highly effective in controlling Hygrophila. Field applications of diquat and endothall have only suppressed to a degree the Hygrophilia infestations and have not led to acceptable control of the problem. Control by mechanical equipment is not satisfactory because only a minor amount of the growth can be removed, and there are no rights-of-way for passage of machinery in urban areas. In addition, fragments are broken off the parent plants, each of which can develop into a new plant and spread the problem to adjacent areas.

The Applicant proposes to use a single application of four pounds active ingredient per treated acre or a split treatment of two applications at a rate of two pounds active ingredient per treated acre to control Hygrophila. The products Sonar AS (4 lbs. a.i./gal) or Sonar 5P (2 lbs. a.i./40 pound container), manufactured by Elanco Products Company, a Division of Eli Lilly and Company, is proposed to be used.

The use season is from June through November. The areas to be treated in the proposed program would be man-made drainage and flood control canals in the following water management districts: Broward County Water Management Division (40 acres), Central Broward Drainage District (10 acres), Coral Springs Improvement District (52 acres), Hollywood Reclamation District (6 acres), Lake Worth Drainage District (150 acres), Old Plantation Water Control District (50 acres), and South Florida Water Management District (25 acres).

Fluridone is currently an unregistered pesticide. A request for registration of Sonar for management of aquatic weeds in fresh water ponds, lakes, reservoirs, drainage canals, irrigation canals and rivers is currently pending before the Agency.

This notice does not constitute a decision by EPA on the application itself. Use of an unregistered chemical

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information (CBI)." Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR Part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. All written comments will be available for inspection in Rm. 236 at the address given above from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT:

In person, bring comments to: Rm. 236, CM#2, 1921 Jefferson Davis Highway Arlington, VA.

under section 18 of FIFRA has been determined to be of national interest and therefore, the Agency has decided that public notice and opportunity for public comment pursuant to 40 CFR 166.10 is called for as a part of the informal adjudication for specific exemptions. Accordingly, interested persons may submit written views on this subject to the Program Management and Support Division at the address above. The comments must be received on or before August 8, 1985, and should bear the identifying notation "OPP–180680." All written comments filed pursuant to this notice will be available for public inspection in Rm. 236, Crystal Mall No. 2 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. The comment period has been shortened in order to allow the Agency to make a timely decision regarding this application.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption request by Florida.

Dated: July 12, 1985.

Clarification of Pleading Cycle for Petitions for Reconsideration of Special Access Cost Order

On June 19, 1985, a listing of Petitions for Reconsideration filed in rulemaking proceedings was published in the **Federal Register** (Report #1519, 50 FR 25463). That listing erroneously included a petition for reconsideration of the March 8, 1985 Special Access Cost Order in CC Docket No. 83–1145, Phases I and II, Part I, filed by Satellite Business Systems (SBS). Previous notice of this petition had been published on May 22, 1985, 50 FR 21118. This earlier notice explained that SBS's petition had been inadvertently omitted from an even earlier listing of petitions for reconsideration, published on May 10, 1985, 50 FR 19805. The pleading cycle established for oppositions in the May 10 notice remains unchanged. Oppositions were due on May 28, 1985. No other pleading cycle has been established.

BILLING CODE 6730–01–M

FEDERAL RESERVE SYSTEM

Bank of New England Corp. et al.; Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and §225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than August 15, 1985.

A. **Federal Reserve Bank of Boston** (Richard E. Randall, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. *Bank of New England Corporation,* Boston, Massachusetts; to acquire through its subsidiary BNE Holding Corporation, Boston, Massachusetts, 100 percent of the voting shares of Maine National Corp., Portland, Maine, thereby indirectly acquiring Maine National Bank, Portland, Maine.

B. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *Citizens Bancorp of Lawrence,* Moulton, Alabama; to become a bank holding company by acquiring 100 percent of the voting shares of The Citizens Bank, Moulton, Alabama.

2. *Great American Corporation,* Baton Rouge, Louisiana; to acquire 100 percent of the voting shares of State Bank & Trust Company of Golden Meadow, Golden Meadow, Louisiana.

C. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *F & M Merger Corporation,* Kaukauna, Wisconsin; to become a bank holding company by acquiring 100 percent of the voting shares of WCB Corporation, Omro, Wisconsin, thereby indirectly acquiring Winnbago County Bank, Omro, Wisconsin.

D. Federal Reserve Bank of Dallas (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222;

1. *Crown Bancshares, Inc.,* San Antonio, Texas; to become a bank holding company by acquiring 100 percent of the voting shares of Crown Bank, N.A., San Antonio, Texas, a *de novo* bank.

2. *Thornton Bancshares, Inc.,* Thornton, Texas; to become a bank holding company by acquiring 99.166 percent of the voting shares of First State Bank, Thornton, Texas.

Board of Governors of the Federal Reserve System, July 18, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210–01–M

Bankers Trust New York Corp.; Application To Engage de Novo in Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo,* either directly or through a subsidiary, in a nonbanking activity. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 16, 1985.

A. **Board of Governors of the Federal Reserve System,** William W. Wiles, Secretary) Washington, D.C. 20551:

1. *Bankers Trust New York Corporation,* New York, New York; to engage through its subsidiary, BT Futures Corp., New York, New York, in the activities of the execution and clearance of stock index futures contracts and options thereon, and other financially-related index futures contracts that are now or may be offered from time to time on the major commodity exchanges, for nonaffiliated persons. This application may be inspected at the Federal Reserve Bank of New York. These activities have been approved by Board Order as permissible for bank holding companies. *J.P. Morgan & Co. Incorporated,* 71 Federal Reserve Bulletin 751 (1985).

Board of Governors of the Federal Reserve System, July 18, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Statement of Organization, Functions and Delegations of Authority

Part A, Office of the Secretary, of the Statement of Organization, Functions and Delegations of Authority of the Department of Health and Human Services is amended. Chapter AMM (Office of Management Analysis and Systems) as last amended at 49 FR 35423 on September 7, 1984, and Chapter AMN (Office of Finance) as last amended at 49 FR 35424 on September 7, 1984 are amended to reflect the transfer and renaming of the Division of Financial Systems Applications from the Office of Finance to the Office of Management Analysis and Systems. The changes to these chapters are as follows:

(1) Chapter AMN—

(a) Amend Section AMN 10, Organization, by deleting "Division of Financial Systems Applications (AMN 4)."

(b) Amend Section AMN.20, Functions, by deleting, in its entirety, Subsection 4.

(2) Chapter AMM—

(a) Amend Section AMM.20, Functions, by adding the following paragraph to Subsection AMM.20B, Office of Computer and Information Systems:

(d) Division of Systems Applications is responsible for:

(1) Designing, developing, implementing, and maintaining assigned computer-based system applications. This includes, for example, the Departmental Accounting System, the Departmental Payment Management System, and related subsystems, software, and procedures for Departmentwide use.

(2) Assuring that applications are properly integrated where feasible to improve the timeliness and accuracy of administrative and management information, and to promote efficient and effective use of resources.

(3) Developing and recommending policies for managing the design, development, modification, and maintenance of assigned computer-based systems and the acquisition of associated resources.

(4) Developing and maintaining systems specifications and software, and supporting the users/program sponsors in the acquisition of the software and hardware necessary to meet approved Departmental requirements.

(5) Performing all data base management and administration functions for assigned systems.

(6) Assuring the physical and data security of assigned systems, and conducting risk analyses as necessary.

(7) Serving as a technical expert an adviser to the Operating Divisions, the Staff Divisions, and the Regions on the computer aspects (hardware, data base systems, software, telecommunications) of administrative and management information systems.

(8) Supporting users/program sponsors in the development and maintenance of near and long-term ADP plans for the development and operation of assigned systems.

Dated: July 16, 1985.

John J. O'Shaughnessy,

Assistant Secretary for Management and Budget.

BILLING CODE 4120-03-M

Public Health Service

Health Resources and Services Administration; Grants

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice regarding grants to Health Systems Agencies (HSAs)—Determination of Population of Health Service Areas.

SUMMARY: This notice provides the population figures the Department will use when it determines the amount of grants to health systems agencies.

SUPPLEMENTARY INFORMATION: Section 1516 of the Public Health Service Act (added by the National Health Planning and Resources Development Act of 1974, Pub. L. 93-641 and the Health and Resources Development Amendments of 1979, Pub. L. 96-79), authorizes the Secretary of Health and Human Services to make grants (hereinafter referred to as "planning grants") to health systems agencies to assist them in meeting their costs of operation. The amount of the planning grant to each health systems agency is determined in accordance with a formula set forth in amended section 1516, and is based upon a determination by the Secretary of the population of the health service area to be served by each agency. The governing regulations, at 42 CFR 122.205, provide that the Secretary will determine the population of the areas based upon the latest available estimate from the Department of Commerce, and will publish annually, in the **Federal Register** a list of health service areas and their populations. The populations of the health service areas are to be published prior to the final allocation of funds in each fiscal year.

In accordance with the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97-35) the Governors of ten States (Alabama, Florida, Indiana, Kentucky, Louisiana, Maine, Missouri, Nebraska, South Dakota, and Texas) have requested and received approval from the Secretary for their States to be designated under section 1536 of the Act. Therefore, the attached population figures exclude the HSAs in these States since they have been eliminated in accordance with section 1536. Additionally, pursuant to section 1536 of the Act, certain States (Hawaii and Rhode Island), do not health service areas established within them or health systems agencies designated for them, but are nonetheless eligible to receive planning grants under section 1516 based in part upon their population. This Notice sets forth the populations of Hawaii and Rhode Island as of July 1, 1982, on the same basis as for health service areas.

The Secretary of Health and Human Services has determined, for purposes of the determination of planning grants for health systems agencies for Fiscal Year 1985, that the population of the health service areas and the areas designated under section 1536 are to be derived from the population counts for the countries and incorporated places based on the Bureau of Census, Publication Series P-26, Number 82-1-SC through 82-50-SC, "1982" Population Estimates for Counties and Incorporated Places," for July 1, 1982. The population counts for Puerto Rico and he outlying areas are based on the Bureau of Census, Publication Series P-25, Number 960, "Estimates of Puerto Rico and the Outlying Areas," for July 1, 1983. These population reports furnish the latest available census population counts for the population of States by counties, incorporated places, and selected minor jurisdictions which are on a comparable, uniform, and consistent basis as needed for the derivation of population totals for health service areas. Data from the Department of Treasury, Office of Revenue Sharing, "Census Tribal Population List", were used to make adjustments of the population of health service areas in Arizona and the health service area that includes portions of Arizona, New Mexico, and Utah.

Accordingly, as described above, the Secretary has made the following determination of the populations of the health service areas and areas designated under section 1536.

Dated: July 17 1985.

John H. Kelso,

Acting Administrator.

BILLING CODE 4160-15-M

Health Education Assistance Loan Program; "Maximum Interest Rates for Quarter Ending September 30, 1985 and Rate of Insurance Premium"

Section 727 of the Public Health Service Act (42 U.S.C. 294) authorizes the Secretary of Health and Human Services to establish a Federal program of student loan insurance for graduate students in health professionals schools.

A. Section 60.13(a)(4) of the program's implementing regulations (42 CFR Part 60, previously 45 CFR Part 128) provides that the Secretary will announce the interest rate in effect on a quarterly basis.

The Secretary announces that for the period ending September 30, 1985, two interest rates are in effect for loans executed through the Health Education Assistance Loan (HEAL) program.

1. For loans made before January 27, 1981, the variable interest rate is 11⅞ percent. Using the regulatory formula (45 CFR 128.13(a) (2) and (3)), in effect prior to January 27, 1981, the Secretary would normally compute the variable rate for this quarter by finding the sum of the fixed annual rate (7 percent) and a variable component calculated by subtracting 3.50 percent from the average bond equivalent rate of 91-day U.S. Treasury bills for the preceding calendar quarter (7.78 percent), and rounding the result (11.28 percent) upward to the nearest ⅛ percent (11⅜ percent). However, the regulatory formula also provides that the annual rate of the variable interest rate for a 3-month period shall be reduced to the highest one-eighth of 1 percent which would result in an average annual rate not in excess of 12 percent for the 12-month period concluded by those 3 months. Because the average rage of the 4 quarters ending September 30, 1985 is not in excess of 12 percent, there is no necessity for reducing the interest rate. For the previous 3 quarters the variable interest at the annual rate was as follows: 11⅞ percent for the quarter ending December 31, 1984; 11¾ percent for the quarter ending March 31, 1985; and 12 percent for the quarter ending June 30, 1985.

2. For fixed rate loans executed during the period of July 1, 1985 through September 30, 1985, and for variable rate loans executed after January 27, 1981, the interest rate is 11⅜ percent. Using the regulatory formula (42 CFR 60.13(a)(3)), in effect since January 27, 1981, the Secretary computes the maximum interest rate at the beginning of each calendar quarter by determining the average bond equivalent rate for the 91-day U.S. Treasury bills during the preceding quarter (7.78 percent); adding 3.50 percent (11.28 percent); and rounding that figure to the next higher one-eight of 1 percent (11⅜ percent).

B. Section 60.14(b) of the regulations provides that the date of the insurance premium shall not exceed 2 percent per year of the loan principal and that the Secretary will announce the rate of the insurance premium on a quarterly basis through a notice published in the **Federal Register.**

The Secretary announces that for the period ending September 30, 1985, the rate of the insurance premium continues to be 2 percent per year of the loan principal for loans executed through the HEAL program.

(Catalog of Federal Domestic Assistance No. 13.108, Health Education Assistance Loans)

Dated: July 17, 1985.

John H. Kelso,

Acting Administrator.

BILLING CODE 4160-15-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

For the Use and Distribution of the Mescalero Apache Tribe Indian Judgment Funds in Docket 89-79L Before the United States Claims Court

July 11, 1985.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary for Indians Affairs by 209 DM 8.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), as amended, requires that a plan be prepared and submitted to Congress for the use and distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated on November 2, 1984 in satisfaction of the award granted to the Mescalero Apache Tribe before the United States Claims Court in Docket 89-79L. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated February 11, 1985 and was received (as recorded in the *Congressional Record*) by the Senate on February 25, 1985, and by the House of Representatives on March 7, 1985. The plan became effective on June 9, 1985 as provided by the 1973 Act, as amended by Pub. L. 97-458, since a joint resolution disapproving it was not enacted.

The plan reads as follows:

For the Use of the Judgment Funds Awarded to the Mescalero Apache Tribe in Docket 89-79L before the United States Claims Court

The funds appropriated on November 2, 1984, in satisfaction of a judgment granted to the Mescalero Apache Tribe in Docket 89-79L by the United States Claims Court, less attorney fees and litigation expenses, and including all interest and investment income accrued, shall be used as herein provided.

The Mescalero tribal governing body shall utilize the funds to apply on loans from the First Interstate Bank and the Sierra Blanca Ski Enterprises. Any funds remaining shall be utilized by the tribal governing body on a budgetary basis for operating expenses or for social and economic programs subject to the approval of the Secretary of the Interior.

None of the funds made available under this plan for programming shall be subject to Federal or State income taxes, nor shall such funds nor their availability be considered as income or resources nor otherwise utilized as the basis for denying or reducing the financial assistance or other benefits to which such households or members would otherwise be entitled under the Social Security Act or, except for benefits in excess of $2,000, any Federal or federally assisted programs.

Hazel E. Elbert,

Acting Deputy Assistant Secretary, Indian Affairs.

BILLING CODE 4310-02-M

Plan for the Use and Distribution of the San Pasqual Band's Judgment Funds in Docket 80-A Before the United States Claims Court

July 11, 1985.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary for Indian Affairs by 209 DM 8.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), as amended, requires that a plan be prepared and submitted to Congress for the use and distribution of funds appropriated to pay a judgment of the Indian Claim Commission or Court of Claims to any Indian tribe. Funds were appropriated on January 3, 1984, in satisfaction of the award granted to the San Pasqual Band of Indians before the United States Claims Court in Docket 80-A. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated December 31, 1984, and was received (as recorded in the *Congressional Record*) by the Senate on January 25, 1985, and by the House of Representatives on January 21, 1985. The plan became effective on April 27, 1985, as provided by the 1973 Act, as amended by Pub. L. 97-458, since a joint resolution disapproving it was not enacted.

The plan reads as follows:

The funds of the San Pasqual Band appropriated January 3, 1984, in Docket 80-A before the United States Claims Court, less attorney fees and litigation expenses, and including all interest and investment income accrued, shall be used and distributed as follows:

Per Capita Payment Aspect

Eighty (80) percent of the funds shall be distributed in the form of per capita payments by the Secretary of the Interior (hereinafter the "Secretary") in sums as equal as possible to all tribal members born on or prior to and living on the effective date of this plan.

Programing Aspect

Twenty (20) percent of the funds, and any amount remaining from the per capita payment provided above, shall be invested by the Secretary and utilized by the tribal governing body on a budgetary basis, subject to the approval of the Secretary, for tribal social and economic development programs.

General Provisions

The per capita shares of living, competent adults shall be paid directly to them. The shares of decreased individual beneficiaries shall be determined and distributed in accordance with 43 CFR Part 4, Subpart D. The shares of legal incompetents and minors shall be handled as provided in the Act of October 19, 1973, 87 Stat. 466, as amended.

None of the funds distributed per capita or made available under this plan for programing shall be subject to Federal or State income taxes, nor shall such funds nor their availability be considered as income or resources nor otherwise utilized as the basis for denying or reducing the financial assistance or other benefits to which such household or member would otherwise be entitled under the Social Security Act or, except for per capita shares in excess of $2,000, any Federal or federally assisted programs.

Hazel E. Elbert,

Acting Deputy Assistant Secretary, Indian Affairs.

BILLING CODE 4310-02-M

Bureau of Land Management

[CA 14313]

Exchange of Public and Private Lands in Trinity and Humboldt Counties and Order Providing for Opening of Public Lands; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of issuance of land exchange conveyance document and order providing for opening of public lands.

SUMMARY: The purpose of this exchange was to acquire non-Federal lands within the Six Rivers National Forest for more effective management by the Forest Service U.S. Department of Agriculture. The land acquired in this exchange will be opened to such forms of disposition as may be by law by made of national forest lands. The public interest was well served through completion of this exchange.

EFFECTIVE DATE: June 19, 1985.

FOR FURTHER INFORMATION CONTACT: Viola Andrade, California State Office, (916) 978-4815.

VOL 50 ISS 142 JL 24 1985 UMI

SUPPLEMENTARY INFORMATION: The United States issued an exchange conveyance document to Paul Orban on June 19, 1985, under the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2756; 43 U.S.C. 1716), for the following described land:

Humboldt Meridian, California

T. 1 S., R. 5 E.,
Sec. 10, NE¼NW¼ and N½NE¼;
Sec. 15, NW¼SW¼.

Comprising 160 acres of private land in Humboldt County.

In exchange for these lands, the United States acquired the following described land from Paul Orban:

Humboldt Meridian, California

T. 1 S., R. 6 E.,
Sec. 5, SW¼SW¼;
Sec. 8, W½NW¼ and NW¼SW¼.

Comprising 160 acres of public land in Trinity County.

Upon acceptance of title to the private land describe above, they became part of the Six Rivers National Forest and are subjet to all the laws, rules, and regulations applicable thereto.

At 10 a.m. on August 23, 1985, the lands shall be open to such forms of disposition as may by law be made of national forest lands.

Inquiries concerning the land should be addressed to the Forest Supervisor, Six Rivers National Forest, 507 F Street, Eureka, CA 95501.

Dated: July 15, 1985.

Sharon N. Janis,

Chief, Branch of Lands & Minerals Operations.

[FR Doc. 85-17596 Filed 7-23-85; 8:45 am]

BILLING CODE 4310-40-M

Public Information Request for the Green River-Hams Fork Federal Coal Region, Colorado and Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management wishes to determine leasing interest in all areas available for further leasing consideration within the Green River-Hams Fork Federal Coal Region.

DATE: Public input is welcome through October 1, 1985.

ADDRESS: Public input should be submitted to the Chief, Branch of Solid Minerals, Bureau of Land Management (CO-921), 2020 Arapahoe Street, Denver, Colorado 80205.

FOR FURTHER INFORMATION CONTACT: Kenneth Smith, Branch of Solid Minerals, Bureau of Land Management (CO-921), at the above address, telephone (303) 294-7139.

SUPPLEMENTARY INFORMATION: By Federal Register notice on May 13, 1985, the Bureau of Land Management requested re-expressions of coal leasing interest on the coal tracts under leasing consideration in the *Draft Environmental Impact Statement, Green River-Hams Fork Federal Coal Region, Round Two, August 1983.* In response, the Bureau received re-expressions of interest for some of the tracts and unsolicited expressions of interest for additional tracts. In order to fully assess the leasing interest through the region, the Bureau would like to know the degree to which additional leasing interest exists beyond the existing tracts. The public, therefore, is invited to indicate regional leasing interest where areas are available for leasing considerations. Those parties that submitted letters in response to the May 13, 1985, notice do not need to provide additional input, unless their interest changes.

The areas available for leasing consideration are set out in Bureau land use plans. The Bureau's Rawlins, Rock Springs and Craig District Offices can supply these plans for the region.

Information received in response to this notice will be furnished to the Green River-Hams Fork Regional Coal Team. The team is expected to review this information in the development of Federal coal leasing recommendations for the Secretary of the Interior, provided that the Secretary decides to continue coal activity planning under the Federal Coal Management Program.

Kannon Richards,

State Director.

BILLING CODE 4310-JB-M

Montana; Decision To Drop Sleeping Giant, MT, From Wilderness Study Status

AGENCY: Bureau of Land Management, Montana State Office, Interior.

ACTION: Notice of Decision to Drop Sleeping Giant, Montana from Wilderness Study Status.

SUMMARY: This action is based on a Solicitor's Opinion dated March 18, 1982, which advised that lands acquired by exchange or other acquisition authority after October 21, 1976, are not subject to section 603 of FLPMA, BLM Wilderness Study. Therefore, the Sleeping Giant area (Inventory Number MT-075-111) is not subject to Wilderness and will not be further studied for wilderness.

SUPPLEMENTARY INFORMATION: The Sleeping Gian unit originally consisted of 11 scattered parcels of public land totalling 6,858 acres. Intermixed with the public land were privately owned and State of Montana owned parcels. As the contiguous federal lands were less than 5,000 acres, the area was dropped from further wilderness review in the Intitial Inventory of August 1979. with the culmination of a land exchange that transferred to federal control 5,718 acres of privately owned land located in the Sleeping Giant area, and the need to clarify the wilderness review of the area for the ongoing Headwaters Resoruce Management Plan, BLM chose to initiate an intensive inventory of Sleeping Giant.

The inventory was announced in the Federal Register Vol. 46: No. 142: July 24, 1981, and completed in August 1981. Further study, however, was dependent on a forthcoming Interior Department Solicitor's Opinion on the issue of wilderness study on post-FLPMA acquired lands. The March 16, 1982, opinion stated that BLM was not required to conduct wilderness review on lands acquired after October 21, 1976, the date of FLPMA. The Sleeping Giant area will not be studied further for wilderness. For further information, contact Jack McIntosh, Butte District Manager, 106 N. Parkmont, P.O. Box 3388, Butte, Montana 59701; telephone: (406) 494-5059.

Marvin LeNoue,

Acting Stote Director.

July 15, 1985.

BILLING CODE 4310-DN-M

[OR-39055]

Oregon; Proposed Withdrawal and Reservation of Lands and Opportunity for Public Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Department of the Army has filed an application to withdraw approximately 380 acres of public land for the U.S. Army Central Oregon Test Facility. This notice closes the land to surface entry and mining, but not mineral leasing, pending final action on the application.

FOR FURTHER INFORMATION CONTACT: Champ Vaughan, BLM, Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, (Telephone: 503-231-6905).

SUPPLEMENTARY INFORMATION: On June 27, 1985, a petition was filed by the Department of the Army to withdraw the following described public lands from settlement, sale location, or entry under the general land laws, including the mining laws, subject to valid existing rights:

Willamette Meridian

T. 15 S., R. 14 E.,
Sec. 31, SE¼ and the portion of the E½SW¼ lying easterly of the easterly right-of-way line of the Frank McCaffery County Road.
T. 18 .S, R. 13 E.,
Sec. 11, SE¼.

The areas described aggregate approximately 380 acres in Crook and Deschutes Counties, Oregon.

The purpose of the proposed withdrawal is to protect the Central Oregon Test Facility of the U.S. Army Electronics Research and Development Command involving two separate parcels located near Bend and Redmond in central Orgeon.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the undersigned officer within 90 days from the date of publication of this notice. If the State Director, Bureau of Land Management, determines that a public meeting will be held, the time and place will be announced.

The application will be processed in accordance with the regulations aet forth in Title 43 CFR Part 2300.

For a period of 90 days from the date of publication of this notice, in the Federal Register, the lands will be segregated as specified above unless the application is rejected or the withdrawal is approved to that date. The temporary uses which will be permitted during the segregative period are leases, licenses, permits, and disposal of mineral or vegetative resources other than under the mining laws.

Dated: July 15, 1986.

Champ C. Vaughan, Jr.,

Acting Chief, Branch of Lands and Minerals.

BILLING CODE 4310-33-M

Roswell District Grazing Advisory Board; Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Roswell District Advisory Board Meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Roswell District Grazing Advisory Board.

DATE: Wednesday, August 21, 1985, beginning at 10:00 a.m. A public comment period will be held following the last agenda item.

Location: BLM Roswell District Office, 1717 West Second St., Roswell, NM 88201.

FOR FURTHER INFORMATION CONTACT: Dave L. Mari, Associate District Manager or Guadalupe G. Martinez, Public Affairs Specialist, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201 (505) 622-9042.

SUPPLEMENTARY INFORMATION: The proposed agenda will include: (1) Wilderness Update; (2) Recommendation of FY 86 Range Improvement Projects; (3) Status of FY 85 Range Improvement Projects; (4) East Roswell Grazing Decisions Update; (5) Slide Presentation—Prescribed Burn; (6) Antelope Habitat Study; and (7) Expenditure of 8100 funds. The meeting is open to the public. Interested persons may make oral statements to the Board during the public comment period or may file written statements. Anyone wishing to make an oral statement should notify the Associate District Manager by August 12, 1985. Summary minutes will be maintained in the District Office and will be available for public inspection during regular business hours within 30 days following the meeting. Copies will be available for the cost of duplication.

Francis R. Cherry, Jr.,

District Manager.

BILLING CODE 4310-FB-M

[U-44429]

Utah; Notice of Proposed Reinstatement of Terminated Oil and Gas Lease; Duchesne County

In accordance with Title IV of the Federal Oil and Gas Royalty Management Act (Pub. L. 97-451), a petition for reinstatement of competitive oil and gas lease U-44429 for lands in Duchesne County, Utah, was timely filed and required rentals and royalties accuring from March 1, 1985, the date of termination, have been paid.

The lessee has agreed to new terms for rentals at rates of $10 per acre and royalties at rates of not less than 16⅔ percent, computed on a sliding scale 4 percentage points over the competitive royalty schedule attached to the lease. The $500 administrative fee has been paid and the lessee has reimbursed the Bureau of Land Management for the cost of publishing this Notice.

Having met all the requirements for reinstatement of lease U-44429 as set out in section 31 (d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188), the Bureau of Land Management is proposing to reinstate this lease, effective March 1, 1985, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Orval L. Hadley,

Chief, Branch of Lands and Minerals Operations.

Montana; Filing of Plats of Survey

AGENCY: Bureau of Land Management, Montana State Office.

ACTION: Notice of Filing of Plats of Survey.

SUMMARY: Plats of survey of the lands described below accepted June 7, 1985, were officially filed in the Montana State Office effective 8 a.m. on June 28, 1985.

Principal Meridian, Montana

T. 31 N., R. 31 E.

The plat represents the dependent resurvey of a portion of the seventh Auxiliary Guide Meridian East, through Township 31 North, a portion of the north boundary, and a portion of the subdivisional lines; and the survey of the subdivision of sections 5 and 6, Township 31 North, Range 31 East, Principal Meridian, Montana. The area described is in Phillips County.

Principal Meridian, Montana

T. 30 N., R. 37 E.

The plat represents the dependent resurvey of a portion of the north boundary, a portion of the subdivisional lines; and the survey of the subdivision of sections 2 and 11, Township 30 North, Range 37 East, Principal Meridian, Montana. The area described is in Valley County.

These surveys were executed at the request of the Lewistown District Office for the Administrative needs of the Bureau.

EFFECTIVE DATE: June 28, 1985.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, 222 North 32nd Street, P.O. Box 36800, Billings, Montana 59107.

Dated: July 8, 1985.

BILLING CODE 4310-DN-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-213]

Certain Fluidized Bed Combustion Systems; Grant of Respondents' Application for Interlocutory Review of Administrative Law Judge's Order No. 4, Denial of Complainant's and the Commission Investigative Attorney's Applications for Interlocutory Review of Order No. 4, and Termination of Investigation

AGENCY: International Trade Commission.

ACTION: Grant of respondents ASEA STAL Inc., and ASEA STAL AB's (collectively referred to as Stal Laval) application to review Order No. 4, denial of complainant's Wormser Engineering, Inc. (Wormser) and the Commission investigative attorney's (IA) applications to review Order No. 4 and termination of investigation.

SUMMARY: The Commission granted Stal Laval's application for review of those portions of the administrative law judge's (ALJ) Order No. 4 relating to the question of the effect of an agreement to arbitrate disputes arising under a license on the Commission's exercise of jurisdiction in this investigation. The Commission denied Stal Laval's request for oral argument on this issue. The Commission denied Wormser's and the IA's applications for review of the issue of whether the Commission can find patent infringement and grant a remedy on the basis of a contract for sale and imminent importation of an identifiable product. The Commission determined to terminate this investigation.

FOR FURTHER INFORMATION CONTACT: Catherine R. Field, Esq., Office of General Counsel, telephone 202-523-0189.

SUPPLEMENTARY INFORMATION: On January 10, 1985, the Commission voted to institute the above-captioned investigation to determine whether there was a violation of section 337 in the unlawful importation into the United States of certain fluidized bed combustion systems, or in their sale, by reason of alleged: (1) Infringement of claims 1, 4, 5, or 8 of U.S. Letters Patent 4,279,205; (2) infringement of claims 1, 2, 4, or 5 of U.S. Letters Patent 4,303,023; (3) misappropriation of trade secrets, and (4) fraudulent inducement to enter into a license agreement, the effect or tendency of which is to destroy or substantially injure an efficiently and economically operated industry in the United States and/or prevent the establishment of such an industry.

On February 11, 1985, respondents ASEA STAL Inc., and ASEA STAL AB (collectively referred to as Stal Laval) filed a motion to dismiss the investigation for lack of subject matter jurisdiction and the existence of an agreement to subject all disputes concerning the licensing agreement at issue to arbitration. The IA and complainant Wormser opposed the motion.

The ALJ considered Stal Laval's motion for dismissal as a motion for summary determination, and on March 21, 1985, denied the motion. Order No. 4. All three parties to the investigation sought permission to request interlocutory review of Order No. 4. On April 15, 1985, the ALJ granted the motions and stated that any party may file an application for review of Order No. 4 pursuant to § 210.70(b) of the Commission's rules.

Stal Laval, Wormser, and the IA all filed requests for review of at least portions of Order No. 4. Stal Laval sought review on the arbitration and jurisdictional issues and requested that the Commission hear oral argument on these issues. Wormser and the IA sought review on the issue of whether the Commission can find patent infringement and grant a remedy based upon a contract for sale and imminent importation of an identifiable product.

The authority for the Commission's action is contained in section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and §§ 210.51 and 210.70(b) of the Commission's Rules of Practice and Procedure. (49 FR 46123 (Nov. 23, 1984); to be codified at 19 CFR 210.51 and 210.70(b)).

Copies of the Commission's Action and Order, the ALJ's orders and all other nonconfidential documents files in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0161. The Commission's opinion in this matter will be issued shortly.

By order of the Commission.

Issued: July 18, 1985.

Kenneth R. Mason,

Secretary.

[FR Doc. 85-17567 Filed 7-23-85; 8:45 am]

BILLING CODE 7020-02-M

[Investigative No. 337-TA-219]

Certain Porch, Patio and Lawn Gliders; Initial Determination Terminating Respondent on the Basis of Settlement Agreement

AGENCY: U.S International Trade Commission.

ACTION: Notice is hereby given that the Commission has received an initial determination from the presiding officer in the above-captioned investigation terminating the following respondent on the basis of a settlement agreement: Sa'Di Bros. Co., Inc.

SUPPLEMENTARY INFORMATION: This investigation is being conducted pursuant to section 337 of the Tariff Act of 1930 (19 U.S.C. 1337). Under the Commission's rules, the presiding officer's initial determination will become the determination of the Commission thirty (30) days after the date of its service upon the parties, unless the Commission orders review of the initial determination. The initial determination in this matter was served upon the parties on July 16, 1985.

Copies of the initial determination, the settlement agreement, and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0161.

Written comments: Interested persons may file written comments with the Commission concerning termination of the aforementioned respondent. The original and 14 copies of all such comments must be filed with the Secretary to the Commission, 701 E Street, NW., Washington, D.C. 20436, no later than 10 days after publication of this notice in the Federal Register. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request confidential treatment. Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why confidential treatment should be granted. The Commission will either accept the submission in confidence or return it.

FOR FURTHER INFORMATION CONTACT: Ruby J. Dionne, Office of the Secretary, U.S. International Trade Commission, telephone 202-523-0176.

Issued: July 19, 1985.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-220]

Certain Spring Retainers for Garage Door Hardware; Commission Decision Not To Review Initial Determination Terminating Respondent on the Basis of a Settlement Agreement and Terminating the Investigation

AGENCY: International Trade Commission.

ACTION: Decision not to review initial determination granting respondent's motion to terminate the investigation on the basis of a settlement agreement.

SUMMARY: The Commission has determined not to review the presiding officer's initial determination (ID) (Order No. 5) granting respondent's motion (Motion No. 220-3) to terminate the investigation on the basis of a settlement agreement. The ID, which was issued on June 11, 1985, terminates the investigation with respect to LCB Industries (LCB), the only respondent, and, therefore, terminates the entire investigation.

FOR FURTHER INFORMATION CONTACT: Carol McCue Verratti, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-0079.

SUPPLEMENTARY INFORMATION: On May 31, 1985, respondent LCB moved for the termination of the investigation on the basis of a settlement agreement. Complainants Halco Spring & Manufacturing Co., Inc. and Holmes-Hally Industries filed a notice of concurrence joining the motion on June 3, 1985. The Commission investigative attorney also joined the motion on June 3, 1985. No petitions for review or comments from Government agencies or the public were received.

Authority for the Commission's action is contained in Commission rule 210.53 (49 FR 46123 (Nov. 23, 1984); to be codified at 19 CFR 210.53).

Copies of the ID and other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, DC 20436, telephone 202-523-0161.

Issued: July 12,

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigations Nos. 701-TA-251 through 253 (Preliminary) and 731-TA-271 through 274 (Preliminary)]

Certain Welded Carbon Steel Pipes and Tubes From India, Taiwan, Turkey, and Yugoslavia

AGENCY: International Trade Commission.

ACTION: Institution of preliminary countervailing duty and antidumping investigations and scheduling of a conference to be held in connection with the investigations.

SUMMARY: The Commission hereby gives notice of the institution of preliminary countervailing duty investigations Nos. 701-TA-251, 252, and 253 (Preliminary) under section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from India, Turkey, and Taiwan, respectively, of certain welded carbon steel pipes and tubes [1] which are alleged to be subsidized by those countries. As provided in section 703(a), the Commission must complete preliminary countervailing duty investigations in 45 days, or in this case by August 30, 1985.

The Commission also gives notice of the institution of preliminary antidumping investigations Nos. 731-TA-271, 772, 273 and 274 (Preliminary) under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from India, Turkey, Taiwan, and Yugoslavia, respectively, of certain welded carbon steel pipes and tubes [1] which are alleged to be sold in the United States at less than fair value. As provided in section 733(a), the Commission must complete preliminary antidumping investigations in 45 days, or in this case by August 30, 1985.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and B (19 CFR Part 207), and Part 201, subparts A through E (19 CFR Part 201, as amended by 49 FR 32569, Aug. 15, 1984).

EFFECTIVE DATE: July 16, 1985.

FOR FURTHER INFORMATION CONTACT: Judith Zeck (202-523-0339), Office of Investigations, U.S. International Trade Commission, 701 E Street NW., Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-724-0002.

[1] For purposes of these investigations, the term "certain welded carbon steel pipes and tubes" covers welded carbon steel pipes and tubes of circular cross section, 0.375 inch or more but not over 16 inches in outside diameter, provided for in items 610.3206, 610.3209, 610.3231, 610.3234, 610.3241, 610.3242, 610.3243, 610.3252, 610.3254, 610.3256, 610.3258, and 610.4925 of the *Tariff Schedules of the United States Annotated (TSUSA)*. Prior to Apr. 1, 1984, these pipes and tubes were provided for in TSUSA items 610.3206, 610.3209, 610.3231, 610.3232, 610.3241, 610.3244 and 610.3247.

VOL 50 ISS 142 JL 24 1985 UMI

SUPPLEMENTARY INFORMATION:

Background

These investigations are being instituted in response to petitions filed on July 16, 1985, by counsel for the individual producer members of the subcommittees on standard and line pipe of The Committee on Pipe and Tube Imports.

Participation in the Investigation

Persons wishing to participate in the investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's rules (19 CFR 201.11), not later than seven (7) days after publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Chairwoman, who will determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Service List

Pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d)), the Secretary will prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to these investigations upon the expiration of the period for filing entries of appearance. In accordance with § 201.16(c) of the rules (19 CFR 201.16(c), as amended by 49 FR 32569, Aug. 15, 1984), each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service.

Conference

The Commission's Director of Operations has scheduled a conference in connection with these investigations for 9:30 a.m. on August 7, 1985, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, DC. Parties wishing to participate in the conference should contact Judith Zeck (202–523–0339) not later than August 5, 1985 to arrange for their appearance. Parties in support of the imposition of countervailing and/or antidumping duties in these investigations and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

Written Submissions

Any person may submit to the Commission on or before August 12, 1985, a written statement of information pertinent to the subject of the investigations, as provided in § 207.15 of the Commission's rules (19 CFR 207.15). A signed original and fourteen (14) copies of each submission must be filed with the Secretary to the Commission in accordance with § 201.8 of the rules (19 CFR 201.8, as amended by 49 FR 32569, Aug. 15, 1984). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired must be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of section 201.6 of the Commission's rules (19 CFR 201.6, as amended by 49 FR 32569, Aug. 15, 1984).

Authority: These investigations are being conducted under authority of the Tariff Act of 1930, title VII. This notice is published pursuant to § 207.12 of the Commission's rules (19 CFR 207.12).

Issued: July 19, 1985.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

[332–204]

Competitive Assessment of the U.S. Commuter and Business Aircraft Industries

AGENCY: International Trade Commission.

ACTION: Scheduling of public hearing and postponement of deadline for filing written submissions.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah Lakomirak, Machinery & Equipment Division, Office of Industries, U.S. International Trade Commission, Washington, D.C. 20436 (telephone 202–523–0131).

SUPPLEMENTARY INFORMATION:

Background

The Commission instituted the investigation on its own motion for the purpose of gathering information on the competitive position of the U.S. and foreign commuter and business aircraft industries. The study will assess the impact of the growing competition from imports on the U.S. commuter and business aircraft industries, explore the related development of further competition in overseas markets, and examine the steps taken in response to this increased competition.

Public Hearing

A public hearing in connection with investigation No. 332–204 has been scheduled for 10:00 a.m., on August 27, 1985, to be continued on August 28, 1985, if required, at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. All persons shall have the right to appear by counsel or in person, to present information, and to be heard. Requests to appear at the public hearing should be filed with the Secretary, United States International Trade Commission, 701 E Street, NW., Washington, D.C., 20436, not later than the close of business (5:15 p.m.), August 13, 1985. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs. The deadline for filing prehearing briefs is August 15, 1985.

Written Submissions

In lieu of or in addition to appearances at the public hearing, interested parties are invited to submit written statements concerning the investigation. Commercial or financial information which a party desires the Commission to treat as confidential must be submitted on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of § 201.6 of the Commission's *Rules of Practice and Procedure* (19 CFR 201.6). All written submissions, except for confidential business information, will be made available for inspection by interested persons. To be assured of consideration by Commission, written statements should be received no later than August 15, 1985. All submissions should be addressed to the Secretary at the Commission's office in Washington, D.C.

Posthearing briefs must be submitted not later than the close of business on September 3, 1985. A signed original and 14 true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.6 of the Commission's Rules (19 CFR 201.8).

Hearing-impaired persons are advised that information on this matter can be obtained by contacting our TDD terminal on (202) 724–0002.

Notice of the Commission's institution of the investigation was published in the

Federal Register of January 23, 1985 (50 F.R. 3036).

Issued: July 15, 1985.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

[Investigation No. 303–TA–16 (Preliminary)]

Lime Oil From Peru

Determination

On the basis of the record[1] developed in the subject investigation, the Commission determines, pursuant to section 303 of the Tariff Act of 1930 (19 U.S.C. 1303), that there is no reasonable indication that an industry in the United States is materially injured, or threatened with material injury, or that the establishment of an industry in the United States is materially retarded,[2] by reason of imports from Peru of lime oil, provided for in item 452.38 of the Tariff Schedules of the United States, which are allegedly subsidized by the Government of Peru.

Background

On May 29, 1985, a petition was filed with the Commission and the Department of Commerce on behalf of Parman Kendall, Inc., Goulds, FL, alleging that an industry in the United States is materially injured or threatened with material injury by reason of duty-free imports from Peru of lime oil which are subsidized by the Government of Peru. Accordingly, effective May 29, 1985, the Commission instituted preliminary countervailing duty investigation No. 303–TA–16 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of June 5, 1985 (50 FR 23778). The conference was held in Washington, DC, on June 21, 1985, and all persons who requested the opportunity were permitted to appear in person or by counsel. The Commission's determination in this investigation was made in an open "Government in the Sunshine" meeting held on July 10, 1985.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on July 15, 1985. The views of the Commission are contained in USITC Publication 1723 (July 1985), entitled "Lime Oil from Peru: Determination of the Commission in Investigation No. 303–TA–16 (Preliminary) Under the Tariff Act of 1930, Together With the Information Obtained in the Investigation."

Issued: July 17, 1985.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

[Report to the President on Investigation No. TA–201–55]

Nonrubber Footwear

Determination

On the basis of information developed during the course of investigation No. TA–201–55, the Commission determines that footwear, provided for in terms 700.05 through 700.45, inclusive 700.56, 700.72 through 700.83, inclusive, and 700.95 of the Traffic Schedules of the United States (hereafter referred to as nonrubber footwear), is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.[1]

Background

The Commission instituted the present investigation effective December 31, 1984, following receipt of a resolution by the Senate Committee of Finance. The Committee's resolution requested an investigation under section 201(b)(1) of the Trade Act of 1974 to determine "whether increasing imports of nonrubber footwear are a substantial cause of serious injury or the threat thereof to the domestic industry producing a like or directly competitive product." The Committee's resolution, and this investigation, cover all footwear provided for in items 700.05 through 700.45, inclusive 700.56, 700.72 through 700.83 inclusive, and 700.95 of the Tariff Schedules of the United States.

The Commission gave notice of this investigation and of a public hearing to be held in connection with the investigation by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of January 30, 1985 (50 FR 4278). A public hearing was held in Washington, DC, on April 16–18, 1985, and all persons who requested the opportunity were permitted to appear in person or through counsel.

This report is being furnished to the President in accordance with section 201(d)(1) of the Trade Act. The information in the report was obtained from fieldwork and interviews by members of the Commission's staff, responses to Commission questionnaires, information from other Federal agencies, testimony at the public hearing, briefs submitted by interested parties, the Commission's files, and other sources.

The Commission transmitted its determination in this investigation to the President on July 1, 1985. The views of the Commission are contained in USITC Publication 1717 (July 1, 1985), entitled "Nonrubber Footwear: Report to the President on Investigation No. TA–201–55 Under Section 201 of the Trade Act of 1974."

Issued: July 1, 1985.

By order of the Commission:

Kenneth R. Mason,

Secretary.

[FR Doc. 85–17569 Filed 7–23–85; 8:45 am]

BILLING CODE 7020–02–M

[731–TA–127, 128, and 129 (Preliminary) (Remand)]

Thin Sheet Glass From Switzerland, Belgium, and the Federal Republic of Germany

Determination

Based upon the petition filed in Investigations Nos. 731–TA–127–129 (Preliminary),[1] the Commission

---

[1] The "record" is defined in § 207.2(i) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(i)).

[2] Chairwoman Stern determines that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury.

[1] Commissioners Eckes, Lodwick, and Rohr determine that such footwear is being imported into the United States in such increased quantities as to be a substantial cause of serious injury to the domestic industry producing articles like or directly competitive with the imported articles. Chairwoman Stern and Vice Chairman Liebeler determine that such footwear is being imported into the United States in such increased quantities as to be a substantial cause of the threat of serious injury to the domestic industry producing articles like or directly competitive with the imported articles.

[1] Pursuant to the order of the U.S. Court of International Trade (CIT) in Jeannette Sheet Glass Corp. v. United States, 607 F. Supp. 123 (1985), the Commission has made its redetermination consistent with the standards set forth in Republic Steel Corp. v. United States, 591 F. Supp. 640 (1984), *motion for reconsideration denied*, —F. Supp.—, slip op. 85–27 (March 11, 1985). Thus, we have based our determinations solely on the allegations contained in the petition.

VOL 50 ISS 142 JL 24 1985 UMI

determines[2] that as of May, 1983, the date of the Commission's initial determination regarding thin sheet glass from Belgium, Switzerland and the Federal Republic of Germany, there is a reasonable indication that an industry in the United States producing regular quality thin sheet glass in materially injured or threatened with material injury by reason of imports allegedly sold at less than fair value (LTFV). The determination in this matter is made pursuant to the order of the U.S. Court of International Trade entered March 22, 1985, in *Jeannette Sheet Glass Corp.* v. *United States*.[3]

Background

On March 16, 1983, counsel for Jeannette Sheet Glass Corp. filed a petition with the Commission and the Department of Commerce alleging that imports of thin sheet glass from Switzerland, Belgium, and the Federal Republic of Germany are being sold in the United States at LTFV, and that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise. Accordingly, effective March 16, 1983, the Commission instituted preliminary investigations under section 733(a) of the Act (19 U.S.C. 1673b(a)).

On May 2, 1983, the Commission[4] determined that there was no reasonable indication that an industry in the United States was materially injured or threatened with material injury by reason of imports of regular quality thin sheet glass from Belgium, Switzerland, and the Federal Republic of Germany.[5] On May 17, 1983, Jeannette Sheet Glass Corp. appealed the Commission's determinations to the U.S. Court of International Trade (CIT).

On March 22, 1985, the CIT remanded the case to the Commission and ordered the Commission to (1) reconsider its preliminary negative determinations respecting material injury and threat of material injury in conformity with the standard for preliminary determinations set forth in *Republic Steel* and in conformity with the court's decision in this case, and (2) report its findings and redeterminations to the court within thirty days after the date of entry of the order.

In conformity with the court's order, the Commission has applied the *Republic Steel* standard and considered whether the petition raises the possibility of material injury or threat of material injury.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on July 12, 1985. The views of the Commission are contained in USITC Publication 1727 (July 1985), entitled "Thin Sheet Glass from Switzerland, Belgium, and The Federal Republic of Germany: Determinations of the Commission in Investigations Nos. 731–TA–127, 128, and 129 (Preliminary) (Remand) Under the Tariff Act of 1930, Together With the Petition Filed in These Investigations."

Issued: July 19, 1985.

By order of the Commission:

Kenneth R. Mason,

Secretary.

[FR Doc. 85–17568 Filed 7–23–85; 8:45 am]

BILLING CODE 7020–02–M

[2] Vice Chairman Liebeler, Commissioner Lodwick, and Commission Rohr did not participate in the Commission's prior investigation.

[3] Chairwoman Stern affirms her earlier decision that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports of this sheet glass from Belgium, Switzerland and the Federal Republic of Germany allegedly sold at less than fair value. Chairwoman Stern notes, however, that she based her prior determinations on the record as a whole that was developed during that investigation.

[4] Commissioners Eckes and Haggart.

[5] Commissioner Stern dissenting.

[Investigation No. 337–TA–194]

Certain Aramid Fiber; Commission Decision To Review Initial Determination and Affirm Administrative Law Judge; Schedule for Filing of Written Submissions on Remedy, the Public Interest, and Bonding; Extension of Administrative Deadline for Completion of Investigation

AGENCY: International Trade Commission.

ACTION: Commission Decision to Review Initial Determination and Affirm Administrative Law Judge.

SUMMARY: Notice is hereby given that the Commission determined to review a portion of the presiding administrative law judge's (ALJ) initial determination (ID) that there is a violation of section 337 of the Tariff Act of 1930 in the above-captioned investigation. The Commission determined to review the ID and affirm the ALJ with respect to his determination that U.S. Letters Patent 3,767,756 (the '756 patent) is valid. The Commission determined not to review the remainder of the ID. Thus the Commission has concluded that there is a violation of section 337 in this investigation.

Authority: The authority for the Commission's action is contained in section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and in §§ 210.52–210.56 of the Commission's Rules of Practice and Procedure. (49 FR 46123 (Nov. 23, 1984); to be codified at 19 CFR 210.53–210.56).

FOR FURTHER INFORMATION CONTACT: Catherine R. Field, Esq., Office of the General Counsel, United States International Trade Commission, telephone 202–523–0189.

SUPPLEMENTARY INFORMATION: On May 9, 1985, the presiding administrative law judge (ALJ) issued an initial determination (ID) finding that there is a violation of section 337 of the Tariff Act of 1930 in the unauthorized importation into the United States, and in the sale of certain aramid fibers manufactured abroad by a process which, if practiced in the United States, would infringe claim 13 of the '756 patent, with the tendency to substantially injure an industry, efficently and economically operated, in the United States.

On June 3, 1985, respondents AKZO N.V., ENKA B.V., ARAMIDE MAATSCHAPPIJ v.o.f., and AKZONA, Inc. (collectively referred to as Akzo) filed a petition for review of this ID. Complainant E.I. Du Pont de Nemours and Company (Du Pont) and the Commission investigative attorneys (IA) filed responses opposing Akzo's petition for review on June 10, 1985. The Commission did not receive any comments from Government agencies.

Written Submissions

Inasmuch as the Commission has found that a violation of section 337 has occurred, it may issue (1) an order which could result in the exclusion of the subject articles from entry into the United Staters and/or (2) cease and desist orders which could result in one or more respondents being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions which address the form of relief, if any, which should be ordered. In addition, the parties making written submissions should address the following issues: (1) Should any exclusion order that the Commission may issue cover articles incorporating aramid fiber produced abroad by means of a process that infringes the '756 patent, (2) possible procedures for identifying such articles, and (3) any other potential problems in enforcing such an order. In addition, written submissions should address the issue of whether a hearing before the ALJ and/or the Commission is necessary on the issues of remedy, the public interest, and bonding.

If the Commission contemplates some form of relief, it must consider the effect of that relief upon the public interest. The factors which the Commission will consider include the effect that an exclusion order and/or a cease and desist order would have upon (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) the U.S. production of articles which are like or directly competitive with those which are the subject of the investigation, and (4) U.S. consumers. The Commission is therefore interested in receiving written submissions concerning the effect, if any, that granting relief would have on the public interest.

If the Commission orders some form of relief, the President has 60 days to approve or disapprove the Commission's action. During this period, the subject articles would be entitled to enter the United States under a bond in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is therefore interested in receiving written submissions concerning the amount of the bond which should be imposed.

The parties to the investigation and interested Government agencies are requested to file written submissions on the issues of remedy, the public interest, and bonding. Complainant and the Commission investigative attorney are also requested to submit a proposed exclusion order and/or a proposed cease and desist order for the Commission's consideration. Persons other than the parties and Government agencies may file written submission addressing the issues of remedy, the public interest, and bonding. Written submissions on remedy, the public interest, and bonding must be filed not later than the close of business on the day which is fourteen (14) days after publication of this notice in the **Federal Register**. Reply written submissions must be filed not later than the close of business on the day which is twenty-one (21) days after publication of this notice in the **Federal Register**.

Extension of Administrative Deadline

The Commission has previously declared this investigation more complicated and extended the administrative deadline by 10 weeks, i.e., until August 1, 1985, 49 FR 4618 (1984). Because of the relatively short time remaining before expiration of that deadline and the need to make findings on the remedy, public interest, and bonding issues, the Commission has extended the administrative deadline for completion of this investigation to October 1, 1985.

Commission Hearing

The Commission will decide whether a public hearing is necessary in this investigation after reviewing the written submissions on remedy, the public interest, and bonding.

Additional Information

Persons submitting written submissions must file the original document and 14 true copies thereof with the Office of the Secretary on or before the deadline stated above. Any persons desiring to submit a document (or a portion thereof) to the Commission in confidence must request confidential treatment unless the information has already been granted such treatment by the ALJ. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. Documents containing confidential information approved by the Commission for confidential treatment will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Secretary's Office.

Notice of this investigation was published in the **Federal Register** of May 23, 1984.

Copies of the Commission's Action and Order, its Opinion, and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, DC 20436, telephone 202–523–0161.

Issued: July 15, 1985.

By order of the Commission.

BILLING CODE 7020–02–M

[Investigation No. 731–TA–206 (Final)]

Fabric And Expanded Neoprene Laminate From Japan

Determination

On the basis of the record [1] developed in the subject investigation, the Commission determines,[2] pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)), that an industry in the United States is materially injured by reason of imports from Japan of fabric and expanded neoprene laminate, provided for in items 335.81, 335.82, 359.50, and 359.60 of the Tariff Schedules of the United States, which have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV).

Background

The Commission instituted this investigation effective March 15, 1985, following a preliminary determination by the Department of Commerce that imports of fabric and expanded neoprene laminate from Japan were being sold at LTFV within the meaning of section 731 of the Act (19 U.S.C. 1673). Notice of the institution of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 24, 1985 (50 FR 16165). The hearing was held in Washington, DC, on June 11, 1985, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on July 12, 1985. The views of the Commission are contained in USITC Publication 1721 (July 1985), entitled "Fabric and Expanded Neoprene Laminate from Japan: Determination of the Commission in Investigation No. 731–TA–206 (Final) Under the Tariff Act of 1930, Together With the Information Obtained in the Investigation."

Issued: July 16, 1985.

retarded, by reason of imports from Canada of molded pulp egg filler flats, classified under item 256.70 of the Tariff Schedules of the United States, which have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV).

Background

The Commission instituted this investigation effective January 16, 1985, following a preliminary determination by the Department of Commerce that imports of molded pulp egg filler flats from Canada were sold at LTFV within the meaning of section 731 of the Act (19 U.S.C. 1673). Notice of the institution of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of February 21, 1985 (50 FR 7238). A notice revising the Commission's schedule for the conduct of the investigation was published in the **Federal Register** of March 6, 1985 (50 FR 4135). The hearing was held in Washington, DC, on June 13, 1985, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on July 15, 1985. The views of the Commission are contained in USITC Publication 1724 (July 1985), entitled "Molded Pulp Egg Filler Flats from Canda: Determination of the Commission in Investigation No. 731–TA–201 (Final) Under the Tariff Act of 1930, Together With the Information Obtained in the Investigation.

INTERSTATE COMMERCE COMMISSION

[Docket No. MC–F–16291]

Aluminum Company of America—Continuance in Control—Rea Magnet; Corrected Notice [1]

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed exemption.

SUMMARY: Aluminum Company of America (Alcoa), a non-carrier holding company and Rea Magnet Wire Company, Inc. (Rea Magnet), a wholly-owned subsidiary which seeks initial carrier authority under Docket No. MC–183733, have filed a petition for exemption under 49 U.S.C. 11343(e) to allow Alcoa to continue in control of Rea Magnet upon Rea Magnet obtaining motor carrier status. Alcoa presently controls four short-line railroads, the Bauxite and Northern Railway Company, the Massena Terminal Railroad Company, the Point Comfort and Northern Railway Company, and the Rockdale Sandow & Southern Railroad Company as well as two motor carriers, the Buckeye Molding Company (Buckeye) (No. MC–153900) and the Penn Way Trucking Company (Penn Way) MC–180522). Approval for Alcoa's existing control of Buckeye and Penn Way was obtained in prior proceedings docketed as Nos. MC–F–15741 and MC–F–16017 respectively. As a result of Alcoa's continued control of Rea Magnet, once the latter becomes a regulated carrier, Alcoa will then be in control of seven common carriers. Continuance in control of a carrier, by a person that is not a carrier but that controls any number of carriers, may be carried out only under Commission regulation or under an exemption from regulation. See 49 U.S.C. 11343(a)(5) 11343(e).

DATES: Comments must be received by August 2, 1985.

ADDRESSES: Send comments (an original plus 10 copies) referring to Docket No. MC–F–16291 to:

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

(2) Petitioners' representative: Paula J. Jesion, Esq., Sullivan & Associates, 180 North Michigan Avenue, Suite 1700, Chicago, IL 60601.

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: Alcoa and Rea Magnet seek exemption under 49 U.S.C. 11343(e) and the Commission's regulation in Ex Parte No. 400 (Sub-No. 1), *Procedures for Handling Exemptions Filed by Motor Carriers of Property, Under 49 U.S.C. 11343*, 367 I.C.C. 113 (1982), 47 FR 53303 (November 24, 1982).

A copy of the petition may be obtained from petitioners' representative, or it may be inspected at the Washington, DC office of the Interstate Commerce Commission during normal business hours.

Decided: July 19, 1985.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

James H. Bayne,

Secretary.

[Docket No. MC–F–16372]

Burlington Northern Inc.—Control Exemption—Monkem Company, Inc.; Corrected Notice [1]

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Exemption.

SUMMARY: Burlington Northern Inc. (BNI), a noncarrier holding company which controls Burlington Northern Railroad Company (BNRR), a class I railroad, Burlington Northern Motor Carriers (BNMC), a wholly-owned noncarrier subsidiary of BNI, and Monkem Company, Inc. (Monkem) a motor carrier subject to Commission regulation, have filed a petition for exemption under 49 U.S.C. 11343(e) in connection with an agreement between BNMC and Monkem under which Monkem would become a wholly-owned subsidiary of BNMC. As a result of the transaction BNI would control two common carriers: Monkem and BNRR. Acquisition of control of a carrier by a person that is not a carrier but that controls any number of carriers may be carried out only under Commission regulation or under an exemption from regulation. *See* 49 U.S.C. 11343(a)(5) and 11343(e).

DATE: Comments must be received by August 2, 1985.

ADDRESSES: Send comments (an original plus 10 copies) referring to Docket No. MC–F–16372 to:.

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423; and

(2) Petitioner's representative: Herbert J. Martin, Esq., Crowell & Moring, 1100 Connecticut Avenue, NW., Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: BNI, BNMC, and Monkem seek exemption under 49 U.S.C. 11343(e) and the Commission's regulation in Ex Parte No. 400 (Sub-No. 1), *Procedures for Handling Exemption Filed by Motor Carriers of Property Under 49 U.S.C. 11343, 367 I.C.C. 113 (1983)*, 47 FR 53303 (November 24, 1982).

A copy of the petition may be obtained from petitioners' representative, or it may be inspected at the Washington, DC office of the Interstate Commerce Commission during normal business hours.

Decided: July 19, 1985.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

DEPARTMENT OF LABOR

Employment and Training Administration

Federal-State Unemployment Compensation Program Unemployment Insurance Program Letter Interpreting the Work-Training and Work-Relief Exemption

Section 3304(a)(6)(A) of the Federal Unemployment Tax Act (FUTA) requires, as one of several conditions for certain tax credits to employers, that employees of State and local government entities and certain nonprofit organizations be covered by State unemployment insurance (UI) laws. However, section 3309(b)(5), FUTA permits exemptions from this mandatory coverage for participants in unemployment work-relief and work-training programs.

Since this exemption was enacted in Federal law, issues and questions have arisen in several States as to what constitutes an unemployment work-relief or work-training program. We have addressed those issues and questions as they arose several times over the years.

However, in recognition of the need for a more formal statement of the criteria, the Department proposes to issue an Unemployment Insurance Program Letter (UIPL). Comments on the UIPL may be submitted in writing on or before 45 days from the date of publication of this Notice in the **Federal Register.**

Submit comments to Carolyn M. Golding, Director, Unemployment Insurance Service, U.S. Department of Labor, Room 7112, Patrick Henry Building, 601 "D" Street, NW., Washington, D.C. 20213.

Dated: July 17, 1985.

Roberts T. Jones,

Acting Deputy Assistant Secretary of Labor.

CLASSIFICATION: UI.
CORRESPONDENCE SYMBOL: TEURL.
Expiration Date: March 31, 1987.

Directive: Unemployment Insurance Program Letter No.
To: All State Employment Security Agencies
From: Barbara Ann Farmer Acting Administrator for Regional Management
Subject: Interpretations of section 3309(b)(5), FUTA, Work-Relief or Work-Training Program Exceptions to Section 3304(a)(6)(A), FUTA, Coverage Requirement

1. *Purpose.* To provide an interpretation of section 3309(b)(5) of the Federal Unemployment Tax Act Act (FUTA) which permits an exception to coverage requirements of section 3304(a)(6)(A), FUTA, for services performed as part of an unemployment work-relief or work-training program by individuals receiving such work-relief or work-training.

2. *References.* Sections 3304(a)(6)(A), 3309(a), 3309(b)(5), 3306(c)(7), and 3306(c)(8) of the Federal Unemployment Tax Act (FUTA).

3. *Background.* Section 3304(a)(6)(A), FUTA, requires State unemployment insurance (UI) laws to provide for coverage of services to which section 3309(a)(1), FUTA, applies. Section 3309(a)(1), FUTA, applies to services performed for certain nonprofit organizations and to practically all services for State and local government entities, with certain permitted exceptions to both requirements. Section 3309(b)(5), FUTA, states one of those exceptions. If an unemployment work-relief or work-training program is assisted or financed in whole or in part by any Federal agency or an agency of a State or a political subdivision of a State, then services performed as part of such programs by individuals receiving work-relief or work-training *may* be exempted by State law from the mandatory UI coverage requirement. States are not precluded from covering such services; they are simply not required to provide such coverage in their laws as a condition for conformity with section 3304(a)(6)(A), FUTA.

Over the years, questions have arisen many times about what constitutes a work-relief or work-training program for purposes of this exemption. State legislation has sometimes presented potential issues based on an incomplete understanding of the work-relief exemption. It is apparent that an interpretation of the exemption provided by section 3309(b)(5), FUTA, is needed.

4. *Interpretation.* As Federal law provides, an unemployment work-relief or work-training program must be assisted or financed in whole or in part by a Federal or State agency or a political subdivision of a State before services performed by individuals receiving such work relief or work training may be exempted from coverage.

A. In order to qualify for the exemption provided by section 3309(b)(5), FUTA, an unemployment work-relief or work-training program must have as a minimum the following characteristics:

(1) There is an employer-employee relationship which is not based on normal economic considerations;

(2) Qualifications for the jobs take into account as indispensable factors the economic and social status of the applicants;

(3) The products or services are secondary to providing financial assistance, training, or work-experience to individuals to relieve them of their unemployment or povery, or to reduce their dependence upon various measures of relief, even though the work may be meaningful or serve a useful public purpose, and

(4) The program is financed or assisted in whole or in part by a Federal agency or a State or a political subdivision thereof.

B. Such an unemployment work-relief or work-training program will also have one or more of the following characteristics:

(1) The wages, hours, and conditions of work are not necessarily commensurate with those prevailing in the locality for similar work;

(2) The jobs did not, or rarely did, exist before the program began (other than under similar programs);

(3) The services furnished, if any, are in the public interest and are not otherwise provided by the employer or its contractors; and

5. *Action Required.* State employment security agencies should take the actions appropriate to assure that the State's UI law is consistent with Federal requirements as interpreted herein.

6. *Inquiries.* Direct questions to the appropriate regional office.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Humanities; Agency Information Collection Activities Under OMB Review

AGENCY: National Endowment for the Humanities.

ACTION: Notice.

SUMMARY: The National Endowment for the Humanities (NEH) has sent to the Office of Management and Budget (OMB) the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATE: Comments on this information collection must be submitted on or before August 23, 1985.

ADDRESSES: Send comments to Ms. Ingrid Foreman, Management Assistant, National Endowment for the Humanities, Administrative Service Offices, Room 202, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506 (202) 786-0233 or Mr. Joseph Lackey, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, NW., Room 3208, Washington, D.C. 20503 (202) 935-7316.

FOR FURTHER INFORMATION CONTACT: Ms. Ingrid Foreman, National Endowment for the Humanities, Administrative Services Offices, Room 202, 1100 Pennsylvania Avenue, NW., Washington, D.C. 20506 (202) 786-0233 from whom copies of the form and supporting documents are available.

SUPPLEMENTARY INFORMATION:

Category: Extension of OMB Expiration Date
Title: NEH Performance Reporting Requirements
Form Number: n/a
Frequency of Collection: Varies—Occasional, Quarterly, Semi-Annually and Annual
Respondents: All NEH Grantees
Use: Provide information on project expeditures
Estimated Number of Respondents: 3,000 maximum
Estimated Hours for Respondents to Provide Information: 3

This entry is not subject to 44 U.S.C. 3504(h).

Susan Metts,
Acting Director of Administration.

Design Arts Advisory Panel (Overview Section) meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Design Arts Advisory Panel (Overview Section) to the National Council on the Arts will be held on August 8, 1985, from 9:00 a.m.-5:00 p.m. in room 730 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, D.C.

A portion of the meeting will be open to the public on August 8, 1985, from 9:30 a.m.-2:00 p.m. and from 3:00 p.m.-5:00 p.m. The topics for discussion will be Budget History, FY 85 Projects, Five-Year Plan and FY 87 Guidelines.

The remaining session of this meeting on August 8, 1985, from 2:00 p.m.-3:00 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c)(4), (6) and 9(b) of the section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 682-5433.

John H. Clark,
Director, Office of Council and Panel Operations, National Endowment for the Arts.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-269 et al.]

Arkansas Power and Light Co. (Arkansas Nuclear One, Unit No. 1) et al; Request for Action Under 10 CFR 2.206

Notice is hereby given that, by a Petition dated June 11, 1985, John F. Doherty requested issuance of an order under 10 CFR 2.202 to the licensees of the following Babcock and Wilcox facilities to show cause why the operating licenses for those facilities should not be suspended or revoked until the problem identified in IE Information Notice 85-38 is resolved: Arkansas Nuclear One, Unit No. 1; Rancho Seco Nuclear Generating Station; Crystal River Unit No. 3 Nuclear Generating Plant; Oconee Nuclear Station, Units Nos. 1, 2 and 3; and Three Mile Island Nuclear Station, Unit 1. The IE Notice concerned loose parts which had been found to obstruct certain control rod drive mechanisms at the Davis-Besse facility of the Toledo Edison Company.

The Petition is being treated pursusnt to 10 CFR 2.206 of the Commission's regulations and, accordingly, appropriate action will be taken on the request within a reasonable time. A copy of the Petition is available for inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the local public document room for each affected facility as follows:

Arkansas Nuclear One, Unit No. 1, Tomlinson Library, Arkansas Tech University, Russellville, Arkansas 72801
Rancho Seco Nuclear Generating Station, Sacramento City-County Library, 828 I Street, Sacramento, California
Crystal River Unit No. 3 Nuclear Generating Plant, Crystal River Public Library, 668 N.W. First Avenue, Crystal River, Florida
Oconee Nuclear Station, Units Nos. 1, 2 and 3, Oconee County Library, 501 West Southbroad Street, Walhalla, South Carolina
Three Mile Island Nuclear Station, Unit No. 1, Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburgh, Pennsylvania 17126

Dated at Bethesda, Maryland, this 17th day of July 1985.

For the Nuclear Regulatory Commission.

Harold R. Denton,
Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket No. 50-155]

Consumers Power Co. (Big Rock Point Plant); Exemption

I

The Consumers Power Company (the licensee) is the holder of Facility Operating License No. DPR-6 which authorizes the operation of the Big Rock Point Plant, located in Charlevoix County, Michigan. This license provides, among other things, that it is subject to all rules, regulations and Orders of the Commission now or hereafter in effect.

II

Section 50.44(c)(3)(iii) of 10 CFR Part 50 requires, among other things, that high point vents be provided for the reactor coolant system, for the reactor vessel head, and for other systems required to maintain adequate core cooling if the accumulation of noncondensible gases would cause the loss of function of these systems. Section 50.44(c)(3)(iii) requires that these vents be provided by the end of the first scheduled outage beginning after July 1, 1982 and that the outage be of sufficient duration to permit required modifications. The existing Reactor Depressurization System (RDS) at Big Rock Point is capable of venting both the reactor coolant system and the reactor vessel. However, the emergency condenser at Big Rock Point is the highest point of the reactor coolant system and would not function if it were filled with noncondensible gases. By letter dated July 1, 1982, Consumers Power Company notified the NRC that high point vents had been installed on the emergency condenser, that preoperational testing had not been completed, and that further analysis had shown the usefulness of high point vents to be limited.

Subsequently, by letter dated April 19, 1983, the licensee requested an exemption to 10 CFR 50.44(c)(3)(iii) such that the required schedule for installation of the high point vents would be extended for the Big Rock Point Plant. The licensee also asked for an exemption from the requirement to install high point vents on the emergency condenser. The schedular exemption was granted by the NRC on August 12, 1983, and extended the

VOL
50
ISS
142
JL
24
1985
UMI

schedule for installation of high point vents until the first scheduled outage which begins after the completion of the Systematic Evaluation Program Integrated Assessment for Big Rock Point. This exemption now addresses the need to install high point vents at Big Rock Point.

The licensee's April 19, 1983 submittal gave the following explanation of why high point vents on the emergency condenser should not be required for Big Rock Point based upon the unique design of the plant.

10 CFR 50.44(c)(3)(iii) and NUREG–0737, Item II.B.1 require that remotely operated high point vents be provided for systems required to maintain adequate core cooling following small-break LOCA's if the accumulation of non-condensible gases would cause the loss of function of these systems, e.g., isolation condensers. At Big Rock Point, the emergency condenser is used for heat removal in the case of loss of the normal condenser, e.g., a loss of off-site power. However, the emergency condenser is not used, nor is any credit taken for its use, following core uncovery and actuation of the reactor depressurization system (RDS). . . . A small-break LOCA results in actuation of the RDS. For accidents that result in generation of non-condensible gases, the RDS would vent these gases to the containment building. The RDS and post-incident system provide the heat removal capability in this situation. The emergency condenser is not needed, or is not designed to be used during core damage situations in which the RDS is actuated.

The NRC reviewed the licensee's justification during the Big Rock Point Integrated Assessment. In order to generate significant amounts of hydrogen, the reactor core must become uncovered for a substantial period of time. After venting of noncondensibles, the emergency condenser could still not be used to cool the core unless reactor water level was restored to cover the core and system pressure remained high so that steam temperatures were substantially higher than emergency condenser shell side cooling water. Since the Big Rock Point Plant has no high pressure injection system, there is little possibility of recovering reactor water level while reactor coolant system pressure remains high since the low head core spray pumps could not inject water into the system at pressure. In accidents of this type at Big Rock Point, the reactor depressurization system (RDS) would be actuated to vent the primary system to the containment building. The RDS is single-failure proof and consists of four separate vent paths, three of which must function to reduce pressure rapidly enough to assure that the low pressure core spray pumps can provide adequate core cooling. However, the actuation of any one of the four values would vent all noncondensibles from the reactor vessel and reactor coolant system. The opening of a single valve would ultimately reduce reactor pressure to the point at which the core spray pumps could provide cooling water, but some core damage would have already occurred. Thus, the staff agrees with the licensee's conclusion that the emergency condenser is not likely to be useful in accidents which might result in the generation of noncondensible gas. The staff concludes that an exemption to 10 CFR 50.44(c)(3)(iii) should be granted such that the installation of high point vents on the emergency condenser is not required at Big Rock Point.

III

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, an exemption is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest. Therefore, the Commission hereby grants an exemption from the requirement of 10 CFR 50.44(c)(3)(iii) that high point vents be installed on the emergency condenser.

Pursuant to 10 CFR 51.32, the Commission has determined that the issuance of this exemption will have no significant impact on the environment (July 8, 1985, 50 FR 27865).

This exemption is effective upon issuance.

Dated at Bethesda, Maryland, this 17th day of July 1985.

For the Nuclear Regulatory Commission.

Hugh L. Thompson, Jr.,

Director, Division of Licensing.

BILLING CODE 7590–01–M

Draft Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a new guide planned for its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, CE 407–4 (which should be mentioned in all correspondence concerning this draft guide), is entitled "Criticality Safety for Handling, Storing, and Transporting LWR Fuel Outside Reactors" and is intended for Division 3, "Fuels and Materials Facilities." It is being developed to provide guidance on procedures acceptable to the NRC staff for preventing criticality accidents in operations involving light water reactor fuel outside reactors. This draft guide endorses ANSI/ANS–8.17–1984, "Criticality Safety Criteria for the Handling, Storage, and Transportation of LWR Fuel Outside Reactors."

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review and do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Comments on both drafts should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch, by September 20, 1985.

Although a time limit is given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 18th day of July 1985.

Guy A. Arlotto,

Director, Division of Engineering Technology, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–M

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Department Circular—Public Debt Series—No. 22–85]

Treasury Notes of July 31, 1987, Series X–1987

Washington, July 18, 1985.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of Chapter 31 of Title 31, United States Code, invites tenders for approximately $9,250,000,000 of United States securities, designated Treasury Notes of July 31, 1987, Series X–1987 (CUSIP No. 912827 SM 5), hereafter referred to as Notes. The Notes will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1 The Notes will be dated July 31, 1985, and will accrue interest from that date, payable on a semiannual basis on January 31, 1986, and each subsequent 6 months on July 31 and January 31 through the date that the principal becomes payable. They will mature July 31, 1987, and will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next-succeeding business day.

2.2. The Notes are subject to all taxes imposed under the Internal Revenue Code of 1954. The Notes are exempt from all taxation now or hereafter imposed on the obligation or interest thereof by any State, any possession of the United States, or any local taxing authority, except as provided in 31 U.S.C. 3124.

2.3. The Notes will be acceptable to secure deposits of Federal public monies. They will not be acceptable in payment of Federal taxes.

2.4. Notes in registered definitive form will be issued in denominations of $5,000, $10,000, $100,000, and $1,000,000. Notes in book-entry form will be issued in multiples of those amounts. Notes will not be issued in bearer form.

2.5. Denominational exchanges of registered definitive Notes, exchanges of Notes between registered definitive and book-entry forms, and transfers will be permitted.

2.6. The Department of the Treasury's general regulations governing United States securities apply to the Notes offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20239, prior to 1:00 p.m., Eastern Daylight Saving time, Wednesday, July 24, 1985. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, July 23, 1985, and received no later than Wednesday, July 31, 1985.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is $5,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield.

3.3. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than $1,000,000. A noncompetitive bidder may not have entered into an agreement, nor make an agreement to purchase or sell or otherwise dispose of any noncompetitive awards of this issue prior to the deadline for receipt of tenders.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and are on the list of reporting dealers published by the Federal Reserve Bank of New York, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are permitted to submit tenders only for their own account.

3.5. Tenders for their own account will be received without deposit from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from all others must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.6. Immediately after the deadline for receipt of tenders, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established, at a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.500. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent

VOL 50 ISS 142 JL 24 1985 UMI

to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance of their bids. Those submitting noncompetitive tenders will be notified only if the tender is not accepted in full, or when the price at the average yield is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of Notes specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in section 3.5. must be made or completed on or before Wednesday, July 31, 1985. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Monday, July 29, 1985. In addition, Treasury Tax and Loan Note Option Depositaries may make payment for the Notes allotted for their own accounts and for accounts of customers by credit to their Treasury Tax and Loan Note Accounts on or before Wednesday, July 31, 1985. When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted are not required to be assigned if the new Notes are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new Notes are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (Notes offered by this circular) in the name of (name and taxpayer identifying number)". Specific instructions for the issuance and delivery of the new Notes, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment must be delivered at the expense and risk of the holder.

5.4. Registered definitive Notes will not be issued if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (e.g., an individual's social security number or an employer identification number) is not furnished. Delivery of the Notes in registered definitive form will be made after the requested form of registration has been validated, the registered interest account has been established, and the Notes have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, to issue and deliver the Notes on full-paid allotments, and to maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may at any time supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and, therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

Carole Jones Dineen,

Fiscal Assistant Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

TIME AND DATE: 9:30 a.m., Tuesday, July 23, 1985.

LOCATION: Room 456, Westwood Towers Building, Bethesda, Maryland.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED: FY 87 priorities.

The Commission will continue its consideration of the Fiscal Year 87 priorities.

The Commission decided that agency business required holding this meeting without the normal advance notice.

FOR A RECORDED MESSAGE CONTAINING THE LATEST AGENDA INFORMATION, CALL: 301-492-5709.

CONTACT PERSON FOR ADDITIONAL INFORMATION: Sheldon D. Butts, Office of the Secretary, 5401 Westbard Ave., Bethesda, Md. 20207 301-492-6800.

Sheldon D. Butts,

Deputy Secretary.

July 19, 1985.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is herby given that at 4:38 p.m. on Thursday, July 18, 1985, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to:

(A)(1) Receive bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in Eskridge State Bank, Eskridge, Kansas, which was closed by the State Bank Commissioner for the State of Kansas on Thursday, July 18, 1985; (2) accept the bid for the transaction submitted by Flint Hills Bank of Eskridge, Eskridge, Kansas, a newly-chartered state nonmember bank; (3) approve the applications of Flint Hills Bank of Eskridge, Eskridge, Kansas, for Federal deposit insurance and for consent to purchase certain assets and assume the liability to pay deposits made in Eskridge State Bank, Eskridge, Kansas; and (4) provide such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to facilitate the purchase and assumption transaction; and

(B) Adopt a resolution making funds available for the payment of insured deposits made in the First National Bank of Darrouzett, Darrouzett, Texas, which was closed by the Senior Deputy Comtroller for National Operations, Office of the Comtroller of the Currency, on Thursday, July 18, 1985.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Mr. Michael A. Mancusi, acting in the place and stead of Director H. Joe Selby (Acting Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a close meeting pursuant to subsections (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5) U.S.C. 552b (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: July 19, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL RESERVE SYSTEM

Board of Governors

TIME AND DATE: 11:00 a.m., Monday, July 29, 1985,

PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, NW., Washington, D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Proposed purchase of computers within the Federal Reserve System.

2. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.

3. Any items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board: (202) 452-3204. You may call (202) 452-3207, beginning at approximately 5 p.m. two business days before this meeting, for a recorded announcement of bank and bank holding company applications scheduled for the meeting.

Dated: July 19, 1985.

James McAfee,

Associate Secretary of the Board.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Federal Policy on Distribution of Potassium Iodide Around Nuclear Power Sites for Use as a Thyroidal Blocking Agent

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Issuance of Federal Policy—correction.

SUMMARY: The Federal Radiological Preparedness Coordinating Committee (FRPCC) is publishing this notice to provide guidance to State and local agencies responsible for radiological emergency planning and preparedness regarding the distribution of potassium iodide for use as a thyroidal blocking agent by the general public in the vicinity of nuclear power plants. The Federal Emergency Management Agency (FEMA) chairs the FRPCC, thereby assuming the responsibility for this publication.

In FR Doc. 85–14810 beginning on page 25624 in the issue of Thursday June 20, 1985, the statement of Federal Policy was inadvertently not included. The complete policy is stated herein. In addition, a portion of the Supplementary Information has been deleted because it was inconsistent with previously published Food and Drug Administration policy.

FOR FURTHER INFORMATION CONTACT: Gerard W. Smith, Technological Hazards Division, Office of National and Technological Hazards Programs, State and Local Programs and Support, Federal Emergency Management Agency, 500 C Street SW., Washington, D.C. 20472 202–646–2869.

SUPPLEMENTARY INFORMATION:

Background

This guidance on distribution of potassium iodide as a thyroidal blocking agent to the general public in the vicinity of nuclear power plants is part of a Federal interagency effort coordinated by the Federal Emergency Management Agency (FEMA) for the Federal Radiological Preparedness Coordinating Committee (FRPCC). FEMA issued a final regulation in the Federal Register of March 11, 1982, (47 FR 10758), which reflected governmental reorganizations and reassigned agency responsibilities for radiological incident emergency response planning. 44 CFR 351 A responsibility assigned to the Department of Health and Human Services (HHS) and in turn delegated to the Food and Drug Administration (FDA) is the responsibility to provide guidance to State and local governments on the use of radioprotective substances and prophylactic use of drugs (e.g. potassium iodide) to reduce radiation dose to specific organs including dosage and projected radiation exposures at which such drugs should be used.

In the Federal Register of June 29, 1982 (47 FR 28158), FDA published recommendations for State and local agencies regarding the projected radiation dose to the thyroid gland at which State and local health officials should consider the use of potassium iodide.

The guidance published here contains the rationale on the use of potassium iodide for emergency workers and institutionalized individuals. It also incorporates the considerations that should be made in deciding to implement the distribution and use of potassium iodide for the general population. The decisions on distribution and use of potassium iodide for thyroidal blocking to protect the public health and safety resides with the State and, in some cases, local health authorities. It suggests that any decision by State and local authorities to use potassium iodide should be based on the site environment and conditions at the time of an emergency for the specific operating commercial nuclear power plant and should include detailed plans for distribution, administration, and medical assistance.

The Federal position with regard to the predistribution or stockpiling of potassium iodide for use by the general public is that it should not be required.

Policy on Distribution of Potassium Iodide Around Nuclear Power Sites for Use as a Thyroidal Blocking Agency

The purpose of this document is to provide Federal policy and guidance with regard to distribution of potassium iodide (KI) and its usage as a thyroid blocking agent around operating nuclear power sites. The issue has been addressed in terms of two components of the population that might require or desire potassium iodide use: (1) Emergency workers and institutionalized individuals, and (2) general population. This guidance is advisory to State and local governments who, within the limits of their authority, should consider these recommendations in the development of emergency plans and in determining appropriate actions to protect the general public. In summary, the policy recommends the stockpiling or distribution of KI during emergencies for emergency workers and institutionalized persons, but does not recommend requiring predistribution or stockpiling for the general public. The bases for these recommendations are given below. It is recognized, however, that options on the distribution and use of KI rests with the States, and hence, the policy statement permits State and local governments, within the limits of their authority, to take measures beyond those recommended or required nationally.

The U.S. Nuclear Regulatory Commission (NRC) and the *Federal Emergency Management Agency (FEMA) have already issued guidance* to State and local authorities as well as licensees of operating commercial nuclear power plants in NUREG–0654/FEMA–REP–1, Rev. 1, *recommending* the *stockpiling* and *distribution* during emergencies of KI for thyroidal blocking *to emergency workers* and to *institutionalized individuals.* That recommendation is endorsed as an available protective action in the event of an incident at a nuclear power plant. Thyroid blocking for emergency workers and institutionalized individuals was recommended because:

(1) These individuals would be more likely to be exposed to the radioiodine in an airborne radioactive release from the plant in the event of an accident;

(2) The number of individuals involved at any site is relatively small and requires a limited supply of KI that can be readily distributed;

(3) The storage, distribution, and administration of KI can be readily controlled;

(4) The known sensitivity to potassium iodide of this limited number of individuals can be reviewed; and

(5) These individuals can be readily monitored for adverse side effects by medical personnel.

The Federal position with regard to the predistribution or stockpiling of potassium iodide for use by the general public is that it should not be required. While valid arguments may be made for the use of KI, the preponderance of information indicates that a nationwide requirement for the predistribution or stockpiling for use by the general public would not be worthwhile. This is based on the ability to evacuate the general population and the cost effectiveness of a nationwide program which has been analyzed by the NRC and DOE National Laboratories (NUREG/CR–1433). While the use of KI can clearly provide additional protection in certain circumstances, the assessment of the effectiveness of KI and other protective actions and their implementation problems indicates that the decision to use KI (and/or other protective actions) should be made by the States and, if appropriate, local authorities on a site specific basis.

It is important to stress that the use of potassium iodide in a radiation emergency is not a panacea in that it does not block the uptake of other radionuclides and does not protect against external radiation. Furthermore, its use needs to be balanced against the cost and effectiveness of other protective measures such as sheltering and evacuation. This recommendation is made in full recognition of the potential positive effects of the drug, action by the FDA permitting KI over-the-counter sales, and the authority of State and local health officials to elect to distribute and use the drug based on the specific needs of individual sites.

The use of KI is effective as a thyroidal blocking agent in reducing accumulation by the thyroid gland of radioiodine which has entered the body through inhalation or ingestion. Radioiodine accumulation in the thyroid can be reduced to less than 10 percent of what it would be without a blocking agent by a daily oral intake of (130 milligrams for adults, 65 milligrams for infants) KI providing administration is started before or immediately after the exposure to the radioiodine, and treatment continues for at least 48 hours beyond the time of the last exposure. This effectiveness decreases to less than 50 percent blocking of the radioiodine uptake, if administration of the KI is delayed until 4 hours after an acute ingestion or inhalation.

It is recognized that the *options on distribution and use* of KI for thyroidal blocking to protect the public health and safety *resides with* the *State* and, *in some cases, local health authorities.* Therefore, with the exception of Federal agency and utility personnel, the decision for use of KI during an actual emergency by the general public is the responsibility of these authorities. In deciding whether to distribute and use KI for the general population, *these authorities must consider a number of factors.*

One of the considerations in deciding whether to implement the distribution and use of KI for the general population is that KI blocking effectively reduces the radiation exposure of only the thyroid gland. While this is an important contribution to the health and safety of the individual, it is not nearly as effective as measures which protect the total body of the individual from radioactivity. Both in-place sheltering and precautionary evacuations can reduce the exposure to the thyroid and total body. The use of KI for thyroidal blocking is not an effective means by itself for protecting individuals from the radioactivity in an airborne release resulting from a nuclear power plant accident and, therefore, should only be considered in conjunction with sheltering, evacuation, or other protective methods.

The Food and Drug Administration (FDA) has evaluated the medical and radiological risks of administering KI for thyroidal blocking under these emergency conditions and has concluded that it is safe and effective and has approved over-the-counter sale of the drug for this purpose. FDA guidance states that risks from the short term use of relatively low doses of KI for thyroidal blocking in a radiation emergency are outweighed by the risks of radioiodine induced thyroid nodules or cancer at a projected dose to the thyroid gland of 25 rem or greater. Since FDA has authorized the nonprescription sale of KI, it is *legally available to individuals who,* based on their own personal analysis, *choose to have the drug immediately available.*

Other considerations and problems to be evaluated by the State and local authorities in deciding whether to institute this program include: (1) Whether the KI should be distributed to the population before an accident occurs or as soon as possible after an accident occurs; (2) whether the risks of exposure to radioactivity will be lower if the evacuation of the general population is initiated or if the general population is sheltered and the administration of KI initiated; (3) how the KI will be distributed during the emergency; (4) what medical assistance will be available to assist the individuals who may have some adverse reaction to KI; (5) how medical authorities will advise the population to take KI and under what circumstances this advice will be given; (6) if KI is predistributed, what assumptions should be made about its actual availability and use in the event of an incident; (7) how the authorities will provide KI to transient populations; and (8) whether use of other respiratory protection (e.g., dust masks, or breathing through wet towels) may be equally effective, especially in conjunction with sheltering.

In summary, the use of KI to prevent radioidine from accumulating in the thyroid gland can be an effective ancillary protective action during a nuclear power plant accident. However, many factors make stockpiling and/or pre-distribution to the general public questionable. Whether KI should be stockpiled and distributed to the general public around a particular site depends on local conditions. Additionally, decisions on its use or the use of alternative protective measures during an emergency depends on accident and environmental conditions that may prevail at the time. Any decision by State and local authorities to use KI should be based on the conditions and site environment for the specific operating commercial nuclear power plant and should include detailed plans for distribution, administration, and medical assistance. The following reference are intended to assist State and local authorities in decisions related to use of KI.

LIST OF PUBLIC LAWS

Last List July 22, 1985
This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

S.J. Res. 154/Pub. L. 99–67
To designate July 20, 1985, as "Space Exploration Day". (July 19, 1985; 99 Stat. 165)
Price: $1.00

H.R. 1373/Pub. L. 99-68
To designate the wilderness in the Point Reyes National Seashore in California as the Phillip Burton Wilderness. (July 19, 1985; 99 Stat. 166)
Price: $1.00

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 50, No. 143
Thursday, July 25, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 6

Section 22 Dairy Import Quotas; Assessment of Fees for Administering Import Licenses

AGENCY: Office of the Secretary, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the regulations (7 CFR 6.20–6.32) governing the importation under license of certain dairy articles which are subject to quotas proclaimed under the authority of section 22 of the Agricultural Adjustment Act of 1933, as amended, to provide for the assessment of a fee to reimburse the Department of Agriculture for the costs of administering the licensing system.

EFFECTIVE DATE: August 26, 1985.

FOR FURTHER INFORMATION CONTACT: Phillip J. Christie, Head, Import Licensing Group, Dairy, Livestock and Poultry Division, Room 6616 South Building, Department of Agriculture, Washington, D.C. 20250, (202) 447–5270.

SUPPLEMENTARY INFORMATION:

Background

Regulations promulgated by the Department of Agriculture and codified at 7 CFR 6.20–6.32 provide for the issuance of licenses to importers of certain dairy articles which are subject to quotas proclaimed by the President pursuant to section 22 of the Agricultural Adjustment Act of 1933, as amended (7 U.S.C. 624). Those dairy articles may only be entered into the United States by or for the account of a person or firm to whom such licenses have been issued and only in accordance with the terms and conditions of such licenses and the regulations.

The licenses are issued on a calendar year basis and each license authorizes the license holder to import a specified quantity and type of dairy article from a specified country. The use of licenses by the license holder to import dairy articles is monitored by the Department of Agriculture and the U.S. Customs Service.

Section 501, Pub. L. 82–137, 65 Stat. 290, as amended (31 U.S.C. 9701), commonly referred to as the Independent Offices Appropriation Act (the "IOAA"), provides that it is the sense of Congress that each service or thing of value provided by an agency of the U.S. Government is to be self-sustaining to the extent possible. Section 501 of the IOAA authorizes agencies to prescribe regulations establishing a charge for a service or thing of value provided by the agency. Circular A–25 (September 23, 1959), as amended, issued by the Bureau of the Budget, the predecessor to the Office of Management and Budget, provides that executive agencies should recover the cost of services or benefits provided to persons by the agency.

The dairy import licensing system administered by the Department of Agriculture confers special benefits to the license holder above and beyond those which accrue to the public at large. It has been determined that the public interest would be served by the establishment of a fair and equitable fee to be charged license holders to reimburse the Department of Agriculture for the costs of staff services rendered in processing applications for licenses, computer equipment and operations necessary to provide dairy import licenses to importers and to ensure that quota articles are entered only in accordance with such licenses, supervisory hours devoted to management of the licensing system and other miscellaneous costs involved in administration of the dairy import licensing system.

Therefore, this rule implements section 501 of the IOAA and Circular A–25 by providing for the assessment of fees on licenses issued to licensees to import dairy articles in order to cover the cost to the Department of Agriculture of the administration of the dairy import licensing system. Under this rule, the Licensing Authority shall determine the amount of the fee to be charged per license each year based upon the cost of administering the dairy import licensing system for the prior calendar year.

To the extent practicable, the fee for each license will be announced by the Licensing Authority no later than July 31 of the year preceding the year for which the fee is to be charged and will be set out in a notice filed with the **Federal Register** detailing the basis of the fee.

Discussion of Comments

A proposed rule amending 7 CFR Part 6, Subpart—section 22 Import Quotas (7 CFR 6.20–6.32), was published in the **Federal Register** on May 15, 1985 (50 FR 20220). A 30-day comment period ended on June 14, 1985. Three letters containing comments were submitted to USDA regarding the proposed rule. All of the comments were considered in preparing this final rule.

Section 6.33 License Fee.

All three comments received were opposed to the charging of the fee on a per-license-issued basis. Two of these comments suggested that the total cost of administering the licensing system be divided by the total pounds of all the quotas to determine a cents per pound cost for issuing the licenses. The cents per pound could then be applied to the size of the license thereby giving the fee for that license. The third comment felt that an allocation of costs on a per-license-issued basis was particularly burdensome on small importers. A two tier fee system was suggested whereby a licensee receiving one unit of license, such as 10,000 pounds, would pay a flat rate while holders of larger licenses of more than one unit would pay a substantially higher fee.

After review of these comments, it has been determined that the final rule should not be changed to provide for the charging of the fee on a per pound basis or in accordance with the two tier system suggested. The purpose of the fee established by this rule is to reimburse the Department of Agriculture for the costs of the administration of the dairy import licensing system. A fee charged on the basis of the amount of pounds of quota articles approved for each licensee would not closely reflect the costs incurred by the Department on behalf of a particular licensee since the costs of processing one license with a large quota amount could be less expensive than the costs of processing

VOL 50 ISS 143 JL 25 1985 UMI

several licensees for another licensee with an equivalent quota amount. A fee charged for each license issued, without regard to the quota amount involved, will be fair and equitable since such charge will ensure that the fee charged each licensee will closely reflect the cost incurred by the Department on behalf of that licensee. Furthermore, the cost per license is not expected to be high enough to burden small importers. However, the method of fee allocation will be kept under review by the Department.

One change has been made in the final rule. Section 6.33(b) of the proposed rule provided that the fee would be announced by the Licensing Authority no later than July 31 of the year preceding the year for which the fee is to be assessed. This announcement was designed to ensure that persons applying for licenses would be aware of the license fee to be charged prior to issuance of the licenses. However, since this final rule will not be effective prior to July 31 and since the requisite information necessary to calculate costs of administering the licensing system may not always be available by July 31 of each year, section 6.33(b) of the final rule has been changed to provide that, to the extent practicable, the Licensing Authority will announce the fee prior to July 31 of the year preceding the year for which the fee is to be assessed.

No other changes have been made in the final rule.

Rulemaking Matters

This final rule has been reviewed under USDA procedures required by Executive Order 12291 and Departmental Regulation 1512–1 and has been classified as "not major" since the final rule will not have any of the significant effects specified in those documents.

Furthermore, to the extent, if any, that the provisions of the Regulatory Flexibility Act (5 U.S.C. 601) apply to this rule, I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

An evaluation of the impact of this rule on the environment was made and, based on this evaluation, it has been determined that this action is not a major federal action and will have no foreseeable adverse effects on the quality of the human environment. Consequently, no environmental impact statement is necessary for this final rule.

Final Rule

List of Subjects in 7 CFR Part 6

Section 22, Imports, Import quotas, dairy products.

PART 6—[AMENDED]

Accordingly, 7 CFR Part 6, Subpart—section 22 Import Quotas is amended as follows:

1. The authority citation for 7 CFR Part 6, Subpart—section 22 Import Quotas, is revised to read as follows:

Authority: Sec. 3, Pub. L. 897, 80th Cong., 2nd Sess., 62 Stat. 1248, as amended (7 U.S.C. 624); Secs. 701, 703, Pub. L. 96–39, 93 Stat. 268, 272; Part 3 of the Appendix to the Tariff Schedules of the United States (19 U.S.C. 1202; Sec. 501, Pub. L. 82–137, 65 Stat. 290, as amended (31 U.S.C. 9701), unless otherwise noted.

2. 7 CFR Part 6, Subpart—section 22 Import Quotas, is amended by adding a new § 6.33 to read as follows:

§ 6.33 License fee.

(a) A fee will be charged for each license issued to a person by the Licensing Authority to reimburse the Department for the costs of administering the licensing system under this regulation.

(b) The fee for each license will be determined by dividing the cost of administering the licensing system (determined in accordance with paragraph (c) of this section) by the average number of licenses issued per year for the three years immediately preceding the year for which the fee is to be assessed. To the extent practicable, the fee will be announced by the Licensing Authority no later than July 31 of the year preceding the year for which the fee is to be assessed. The fee will be set out in a notice filed with the Federal Register.

(c) The Licensing Authority shall determine the costs (both incurred and estimated) of administering the licensing system for the calendar year preceding the year for which the fee is to be charged using the following criteria:

(1) The cost of staff and supervisory hours devoted directly to administering the licensing system;

(2) The cost of the computer on-line entry system used to administer the licensing system; and

(3) Other miscellaneous costs directly related to administering the licensing system.

(d) The fee each license is due upon the date of issuance of the license and must be paid by the licensee no later than May 15 of the year for which the license is issued or such date as may be specified in the announcement issued by the Licensing Authority in accordance with paragraph (b) of this section. The fee for any license issued after April 15 of any year must be paid by the licensee no later than 30 days from the date of issuance of the license. Fee payments shall be made by check or money order payable to the Treasurer of the United States.

(e) If the fee for a license is not paid by the licensee by the final payment date, (1) the authority of the licensee to import any article under such license held by the licensee will be automatically suspended by the Licensing Authority until the fee has been paid or arrangements satisfactory to the Licensing Authority have been made for the payment of such fee, and (2) the licensee's eligibility for licenses to enter any article will be subject to revocation and suspension in accordance with § 6.29 (b)(3).

Signed this 19th of July 1985.

John R. Block,

Secretary of Agriculture.

[FR Doc. 85–17681 Filed 7–24–85; 8:45 am]

BILLING CODE 3410–10–M

Agricultural Marketing Service

7 CFR Part 908

[Valencia Orange Reg. 353, Amdt. 1; Valencia Orange Reg. 354]

Valencia Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: Amendment 1 of Regulation 353 increases the quantity of fresh California-Arizona Valencia oranges that may be shipped to market during the period July 19–25, 1985. Regulation 354 establishes the quantity of such fruit that may be shipped to market during the period July 26–August 1, 1985. The amendment and regulation are needed to provide for orderly marketing of fresh Valencia oranges for the periods specified due to the marketing situation confronting the orange industry.

DATE: Regulation 353, Amendment 1 (§ 908.653) is effective for the period July 19–July 25, 1985. Regulation 354 (§ 908.654) is effective for the period July 26–August 1, 1985.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone: 202–447–5975.

SUPPLEMENTARY INFORMATION:

Findings

These rules have been reviewed under USDA procedures and Executive Order 12291 and have been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that these actions will not have a significant economic impact on a substantial number of small entities.

The amendment and the regulation are issued under Marketing Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The actions are based upon the recommendation and information submitted by the Valencia Orange Administrative Committee (VOAC) and upon other available information. It is hereby found that these actions will tend to effectuate the declared policy of the act.

The amendment and the regulation are consistent with the marketing policy for 1984–85. The committee met publicly on July 16, 1985, to consider the current and prospective conditions of supply and demand and recommended a quantity of Valencia oranges for the specified weeks. The committee reports the demand for Valencia oranges has improved, and prices are stable.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553), because there is insufficient time between the date when information upon which these regulations are based became available and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the amendment and the regulation at an open meeting. To effectuate the declared policy of the act, it is necessary to make the regulatory provisions effective as specified, and handlers have been notified of the amendment and regulation and their effective dates.

List of Subjects in 7 CFR Part 908

Marketing agreements and orders, California, Arizona, Oranges (Valencia).

PART 908—[AMENDED]

1. The authority citation for Part 7 CFR Part 908 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 908.653 is added to read as follows:

§ 908.653 Valencia Orange Regulation 353.

The quantities of Valencia oranges grown in California and Arizona which may be handled during the period July 19, 1985, through July 25, 1985, are established as follows:

(a) *District 1:* 280,000 cartons;

(b) *District 2:* 420,000 cartons;

(c) *District 3:* Unlimited cartons.

3. Section 908.654 is added to read as follows:

§ 908.654 Valencia Orange Regulation 354.

The quantities of Valencia oranges grown in California and Arizona which may be handled during the period July 26, 1985, through August 1, 1985, are established as follows:

(a) *District 1:* 273,000 cartons;

(b) *District 2:* 427,000 cartons;

(c) *District 3:* Unlimited cartons.

Dated: July 19, 1985.

Thomas R. Clark,

Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

7 CFR Part 981

Handling of Almonds Grown in California; Changes in Administrative Rules and Regulations Concerning Roadside Stands and Quality Control

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule adds a new section to the administrative rules and regulations established under the Federal marketing order for California almonds to clarify the term "at retail at a roadside stand" used in § 981.13 of the order. This change will give the almond industry clear-cut standards for use in enforcing the order's roadside stand exemption. This rule also changes the quality control provisions of the administrative rules and regulations to extend the date by which handlers of California almonds must dispose of their inedible 1984 crop almonds from July 31, 1985 to August 31, 1985. This change will give handlers additional time to process the record large 1984 crop.

EFFECTIVE DATE: July 25, 1985.

FOR FURTHER INFORMATION CONTACT: Frank M. Grasberger, Acting Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250 (202) 447–5053.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

It is found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register (5 U.S.C. 553). Clarification of the term "at retail at a roadside stand" is intended to provide the Almond Board of California with standards to use in determining which growers with roadside stand sales are exempt under the Federal marketing order for California almonds. The Almond Board of California should have the opportunity to utilize these standards as soon as possible.

The change in the date by which handlers must dispose of their inedible 1984 crop almonds should be made effective as soon as possible so that handlers can plan their forthcoming operations. This change provides handlers with additional flexibility with which to process their 1984 crop almonds.

Notice of this action was published in the May 29, 1985, issue of the Federal Register (50 FR 21853), and interested persons were afforded an opportunity to submit written comments through June 13, 1985. At the request of the California Farm Bureau, the comment period was reopened (50 FR 25994) through June 26, 1985. One comment was received in favor of the proposals.

This final rule adds a new § 981.413 to Subpart—Administrative Rules and Regulations (7 CFR 981.401–981.474; 50 FR 16451 and 24174) and amends § 981.442(a)(5) of that subpart. Section 981.413 is issued pursuant to § 981.13 of the marketing agreement and Order No. 981 (7 CFR 981), both as amended, regulating the handling of almonds grown in California and hereinafter referred to collectively as the "order." Section 981.442(a)(5) is issued under § 981.42(a) of the order. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The actions taken herein are based on two unanimous recommendations of the Almond Board of California, hereinafter referred to as the "Board," which works with USDA in administering the order.

VOL
50
ISS
143
JL
25
1985
UMI

Section 981.13 of the order currently exempts from the definition of "handlers"any grower who sells only almonds of his/her own production at retail at a roadside stand of his/her own operation. This action adds a new § 981.413 to the administrative rules and regulations established under the order to clarify the term "at retail at a roadside stand." Pursuant to this action, exempt retail sales at roadside stands are limited to sales for home use which are not intended for resale and which are not in excess of 100 pounds net kernel weight to any one customer per day. Sales of almonds at certified farmers' markets in compliance with Section 1392 of the regulations of the California Department of Food and Agriculture also are construed as "roadside" sales for the purpose of § 981.13 where these two conditions are met.

The Board believes that this clarification is needed because at present there is no limitation on the quantity of almonds eligible for the roadside stand sales exemption. Some growers reportedly are selling truckloads of almonds at roadside stands and claiming the exemption. These large sales cannot be regarded as retail sales and therefore, should not be exempt. This action will provide the Board with definitive standards by which to determine which growers with roadside stand sales are exempt from the handler requirements of the order.

Section 981.42(a) of the order and § 981.442(a)(4) of the administrative rules and regulations currently require handlers to report to the Board the weight of inedible kernels in each variety of almonds they receive. This weight must be accumulated during processing and delivered to the Board or Board-accepted crushers, feed manufacturers, or feeders. Section 981.442(a)(5) currently requires that this disposition obligation must be met no later than July 31 succeeding the crop year in which the obligation was incurred.

This action amends § 981.442(a)(5) to extend the date by which handlers must dispose of their inedible 1984 crop almonds from July 31, 1985, to August 31, 1985. The Board believes that this change is needed to give handlers an additional month to process the record large 586.1 million pound 1984 almond crop. The change applies to 1984 crop almonds only.

After consideration of all relevant matter presented, including the Board's recommendation, the favorable comment received, and other available information, it is further found that to change Subpart—Administrative Rules and Regulations (7 CFR 981.401–981.474; 50 FR 16451 and 24174) by adding a new § 981.413 and by amending § 981.442(a)(5) will tend to effectuate the declared policy of the act.

List of Subjects in 7 CFR Part 981

Marketing Agreements and Orders, Almonds, California.

PART 981—[AMENDED]

1. The authority citation for 7 CFR Part 981 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

Section 981.413 is added to Subpart—Administrative Rules and Regulations (7 CFR 981.401–981.474; 50 FR 16451 and 24174), and § 981.442(a)(5) of that subpart is amended as follows:

2. A new § 981.413 is added to read as follows:

§ 981.413 Roadside stand exemption.

The term "at retail at a roadside stand" as used in § 981.13 shall be defined to mean sales for home use and not for resale which are not in excess of 100 pounds net kernel weight to any one customer per day. Sales of almonds at certified farmers' markets in compliance with Section 1392 of the regulations of the California Department of Food and Agriculture shall be construed as "roadside" sales for the purpose of § 981.13 where these conditions are met.

§ 981.442 [Amended]

3. The last sentence in § 981.442(a)(5) is amended by changing the period to a colon and inserting immediately thereafter the following: "*Provided*, That for 1984 crop almonds, that date shall be August 31."

Dated: July 19, 1985.

Thomas R. Clark,

Acting Director, Fruit and Vegetable Division.

Food Safety and Inspection Service

9 CFR Part 327

[Docket No. 83–040C]

Importation of Meat and Poultry Products; Refused Entry Product

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Final rule; correction.

SUMMARY: This document corrects a final rule published in the **Federal Register** on May 13, 1985, establishing new procedures for handling imported products to decrease the likelihood that "refused entry" meat and poultry products will enter into the United States.

FOR FURTHER INFORMATION CONTACT: Irwin Dubinsky, Acting Director, Policy Office, Policy and Planning Staff, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6735.

SUPPLEMENTARY INFORMATION: On May 13, 1985, the Food Safety and Inspection Service published a final rule in the **Federal Register** (50 FR 19906) amending certain sections under Parts 327 and 381 of the Federal meat and poultry products inspection regulations.

This document corrects an error appearing on page 19907 of the May 13, 1985, **Federal Register** which listed the incorrect section number and heading for the regulation under Part 327. The correct section number and heading should read: § 327.13 Foreign products offered for importation; reporting of findings to customs; handling of articles refused entry.

All other information contained in the final rule remains unchanged.

Done at Washington, DC, on: July 17, 1985.

L. L. Gast,

Acting Administrator, Food Safety and Inspection Service.

[FR Doc. 85–17618 Filed 7–24–85; 8:45 am]

BILLING CODE 3410–DM–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 85–CE–26–AD; Amdt. 39–5106]

Airworthiness Directives; Cessna Model T303 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD), AD 85–11–05, applicable to Cessna Model T303 airplanes and codifies the corresponding emergency AD letter dated May 31, 1985, into the **Federal Register**. This AD requires installation of a placard prohibiting flight into known icing until the rudder is modified per Cessna Single Engine Service Bulletin MEB85–7, Revision 1, dated June 28, 1985.

EFFECTIVE DATE: July 31, 1985, to all persons except those to whom it has already been made effective by priority letter from the FAA dated May 31, 1985.

Compliance: As prescribed in the body of the AD.

ADDRESSES: Cessna Single Engine Service Bulletin MEB85–7, Revision 1, dated June 28, 1985, applicable to this AD may be obtained from the Cessna Aircraft Company Customer Services, P.O. Box 1521, Wichita, Kansas 67201. A copy of the information is also contained in the Rules Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Mr. Douglas W. Haig, Aerospace Engineer, FAA, ACE–120W, Room 100, 1801 Airport Road, Wichita, Kansas 67209; Telephone (316) 946–4409.

SUPPLEMENTARY INFORMATION: This AD is necessary because reports have been received of rudder vibration during flights in icing conditions on Cessna Model T303 airplanes. While the Model T303 airplane is flutter free for non-icing conditions, an instability between the fin and rudder is predicted by analysis when ice build-up occurs to the extent that it disturbs the airflow over the rudder. Even though this instability is not predicted to be violent or explosive, the FAA has determined that since there is a potential flutter situation with these airplanes, they should not be operated in conditions conducive to flutter onset. The AD, therefore, requires the immediate installation of a placard prohibiting flight into known icing conditions until the rudder is modified per the kit identified in Cessna Single Engine Service Bulletin MEB85–7, Revision 1, dated June 28, 1985, on these T303 airplanes on which the Cessna known icing equipment is installed (as listed in the Equipment List in the Airplane Flight Manual). This service bulletin was not called out in the emergency AD letter because it was not available at that time. However, since the service kit has been subsequently developed, the service bulletin incorporating it is now being included in the codified release of the AD as an alternate means of compliance.

The FAA determined that this is an unsafe condition that may exist in other airplanes of the same type design, thereby necessitating the AD. It was also determined that an emergency condition existed, that immediate corresponding action was required and that notice and public procedure thereon was impractical and contrary to the public interest. Accordingly, the FAA notified all known registered owners of the airplanes affected by this AD by priority mail letter dated May 31, 1985. The AD became effective immediately to these individuals upon receipt of that letter and is identified as AD 85–11–05. Since the unsafe condition described therein may still exist on other Cessna Model T303 airplanes, the AD is being published in the **Federal Register** as an amendment to Part 39 of the Federal Aviation Regulations (14 CFR Part 39) to make it effective to all persons who did not receive the letter notification. Because a situation still exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and contrary to the public interest, and good cause exists for making this amendment effective in less than 30 days.

The FAA has determined that this regulation is an emergency regulation that is not major under section 8 of the Executive Order 12291. It is impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed may be obtained by contacting the Rules Docket at the location under the caption "**ADDRESSES.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aviation safety, Aircraft, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the FAR as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

2. By adding the following new AD:

Cessna: Applies to Cessna Model T303 (serial numbers T30300001 thru T30300315) airplanes certificated in all categories.

Compliance: Required before further flight, unless already accomplished.

To prevent possible flutter of the vertical stabilizer that could cause the loss of the vertical stabilizer and/or airplane control, accomplish the following:

(a) Fabricate and install adjacent to the anti-ice system switches the following placard using letters of a minimum 0.10 inch in height:

"FLIGHT INTO KNOWN ICING PROHIBITED" and operate the airplane in accordance with this limitation.

(b) Insert a copy of this AD in front of the airplane limitation section in the Airplane Flight Manual.

(c) The requirements of paragraphs (a) and (b) of this AD may be accomplished by the holder of a pilot certificate issued under Part 61 of the Federal Aviation Regulations (FAR) on any airplane owned or operated by him. The person accomplishing these actions must make the appropriate aircraft maintenance record entry as prescribed by FAR 43.9.

(d) The placard required in paragraph (a) may be removed and flight into known icing conducted for those airplanes on which the Cessna known icing equipment is installed (as listed in the Equipment List in the Airplane Flight Manual) when the rudder is modified in accordance with Cessna Single Engine Service Bulletin MEB85–7, Revision 1, dated June 28, 1985.

(e) An equivalent means of compliance with this AD may be used if approved by the Manager, Aircraft Certification Office, Federal Aviation Administration, 1801 Airport Road, Room 100, Mid-Continent Airport, Wichita, Kansas 67209; Telephone (316) 946–4400.

All persons affected by this directive may obtain copies of the documents referred to herein upon request to the Cessna Aircraft Company Customer Services, Post Office Box 1521, Wichita, Kansas 67201, or FAA, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

This amendment becomes effective on July 31, 1985, to all persons except those to whom it has already been made effective by priority letter from the FAA dated May 31, 1985, and is identified as AD 85–11–05.

Issued in Kansas City, Missouri, on July 16, 1985.

Edwin S. Harris,

Acting Director, Central Region.

[FR Doc. 85–17610 Filed 7–24–85; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket Number 85–ACE–05]

Revocation of Transition Area—Humboldt, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revokes the Humboldt, Nebraska, transition area. It was anticipated that instrument approaches would be made to the Humboldt, Nebraska, Municipal Airport utilizing the Pawnee City VORTAC as a navigational aid. The transition area was established based on this VORTAC. However, traffic data indicates that no instrument approaches

VOL 50 ISS 143 JL 25 1985 UMI

have been made into the Humboldt Municipal Airport for the past two years. Therefore, the transition area is unnecessary.

EFFECTIVE DATE: September 26, 1985.

FOR FURTHER INFORMATION CONTACT: Dale R. Carnine, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-540, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374-3408.

SUPPLEMENTARY INFORMATION: The City of Humboldt, Nebraska, has taken action to abandon one of their two runways, and to eliminate all runway lights. Also, traffic data indicates that no instrument approaches were made into Humboldt during 1983 and 1984. Therefore, the transition area is no longer necessary and is being revoked. Accordingly, the FAA hereby releases that airspace below 700 feet above the ground level for other than instrument flight operations. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A, dated January 2, 1985.

Discussion of Comments

On Page 19949 of the Federal Register dated May 13, 1985, the FAA published a Notice of Proposed Rulemaking, which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to revoke the transition area at Humboldt, Nebraska. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received a a result of the Notice of Proposed Rulemaking.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

PART 71—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) amends Part 71 of the FAR (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. By amending Section 71.181 as follows:

§ 71.181 [Amended]

Humboldt, Nebraska

Revoke transition area.

This amendment becomes effective at 0901 GMT September 26, 1985.

Issued in Kansas City, Missouri, on July 16, 1985.

Edwin S. Harris,
Director, Central Region.

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 200

[Release No. 34-22246]

Delegation of Authority to the Director of the Division of Market Regulation

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending its rules governing delegation of authority in order to allow the Director of the Division of Market Regulation to affirm determinations of the Securities Investor Protection Corporation (SIPC) that certain broker-dealers are not members of SIPC and to extend the time period for acting on SIPC determinations.

EFFECTIVE DATE: August 26, 1985.

FOR FURTHER INFORMATION CONTACT: France Maca, Esq., Division of Market Regulation (202) 272-2789.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission ("Commission") today announced the amendment, effective thirty days after publication in the **Federal Register**, of its rules under the Securities Exchange Act of 1934 (the "Act")(15 U.S.C. 78a et seq. as amended) governing delegation of authority to the Director of the Division of Market Regulation (17 CFR 200.30-3). The amendment authorizes the Director of the Division of Market Regulation to affirm determinations made by SIPC, pursuant to section 3(a)(2)(A)(i) of the Securities Investor Protection Act of 1970 ("SIPA"), that certain broker-dealers are not members of SIPC and to extend for a period not exceeding 90 days from the date of filing of such determinations by SIPC the period during which the determinations must be affirmed, reversed or amended.

Discussion

Section 3(a)(2) of SIPA provides that, with certain exceptions, all broker-dealers registered pursuant to section 15(b) of the Securities Exchange Act of 1934 are members of SIPC. One of those exceptions is for broker-dealers whose "principal business, in the determination of SIPC, taking into account business of affiliated entities, is conducted outside the United States and its territories and possessions." Pursuant to section 3(a)(2)(B), SIPC must then file its determination with the Commission. Under section 3(a)(2)(B), the Commission, within thirty days of SIPC's filing, or within such longer period as the Commission may designate of not more than ninety days after the date of SIPC's filing if it finds such longer period to be appropriate and publishes its reasons for so finding, must "consistent with the public interest and the purposes of [SIPA], affirm, reverse, or amend [SIPC's determination]."

The Commission believes that (1) extension of the time frame in which to act on SIPC's determinations that a broker-dealer conducts its business outside the United States, its territories and possessions and therefore is not a SIPC member and (2) affirmation of SIPC's determinations would not raise significant policy issues. Moreover, Commission review results in additional delays and expenditures of time and resources by the Commission and its staff. Therefore, the Commission believes it appropriate to delegate to the Director of the Division of Market Regulation the authorty to affirm SIPC's determinations that certain broker-dealers are not SIPC members and to extend the time period for acting on SIPC's determinations.

The Commission finds that there will be no burden on competition imposed by the amendment not necessary or appropriate in furtherance of the Act. Furthermore, the Commission finds that the foregoing action relates solely to agency management, procedures and practice, and accordingly, that notice and prior publication for comment under the Administrative Procedure Act (5 U.S.C. 553) are not necessary. This action, taken pursuant to 15 U.S.C. 78d-1, as amended, becomes effective thirty days after publication in the **Federal Register.**

List of Subjects in 17 CFR Part 200

Administrative practice and procedures, Freedom of information, Privacy, Securities.

The Securities and Exchange Commission, pursuant to the Act, and particularly sections 2 and 23 thereof (15 U.S.C. 78b and 78w), the Delegation of Functions Act, (15 U.S.C. 78d-1), hereby adopts an amendment to 17 CFR 200.30-3.

Text of Amendment

The Commission hereby amends Title 17, Chapter II of the Code of Federal Regulations as follows:

PART 200—ORGANIZATION; CONDUCT AND ETHICS; INFORMATION AND REQUESTS

1. The authority citation for Part 200 is revised to read as follows:

Authority: Secs. 19, 23, 48 Stat. 85, 901, as amended, sec. 20, 49 Stat. 833, sec. 319, 53 Stat. 1173, Secs. 38, 211, 54 Stat. 841, 855; 15 U.S.C. 77s, 78w, 79t, 77sss, 80a-37, 80b-11.

Sec. 200.30-3(e) is also issued under Sec. 2, 89 Stat. 97, as amended (15 U.S.C. 78b).

2. By redesignating paragraph (e) of § 200.30-3 as paragraph (f) and adding new paragraph (e) as follows:

§ 200.30-3 Delegation of Authority to Director of Division of Market Regulation.

* * * * *

(e) With respect to the Securities Investor Protection Act of 1970, as amended, 15 U.S.C. 78aaa, et. seq., pursuant to Section 3(a)(2)(B) of the Securities Investor Protection Act of 1970, to (1) extend for a period not exceeding 90 days from the date of the filing of the determination by the Securities Investor Protection Corporation ("SIPC") that a registered broker-dealer is not a SIPC member because it conducts its principal business outside the United States and its territories and possessions, the period during which the Commission must affirm, reverse or amend any determination by SIPC and (2) affirm such determination filed by SIPC.

* * * * *

By the Commission.

John Wheeler,
Secretary.

July 17, 1985.

Food and Drug Administration

21 CFR Part 25

[Docket No. 79N-0335]

National Environmental Policy Act; Policies and Procedures; OMB Approval of Requirements

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the Office of Management and Budget (OMB) has approved the collection of information requirements concerning its regulations governing environmental impact considerations. The agency is amending those regulations to reflect OMB's approval.

EFFECTIVE DATE: July 25, 1985.

FOR FURTHER INFORMATION CONTACT: John C. Matheson, Center for Veterinary Medicine (HFV-310), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1880.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of April 26, 1985 (50 FR 16636), FDA revised its regulations governing environmental impact considerations (21 CFR Part 25). In that document (50 FR 16656), FDA announced that it had submitted the final rule to OMB for approval of the collection of information requirements contained in §§ 25.23(c), 25.31a, 25.31c, and 25.31e.

OMB has approved the collection of information requirements under OMB control number 0910-0190. This document announces OMB's approval.

Because these amendments are nonsubstantive, notice and public procedure and delayed effective date are unnecessary (5 U.S.C. 553b (B) and (d)).

List of Subjects in 21 CFR Part 25

Environmental impact statements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, Parts 25 is amended as follows:

PART 25—ENVIRONMENTAL IMPACT CONSIDERATIONS

1. The authority citation for 21 CFR Part 25 continues to read as follows:

Authority: Sec. 701, 52 Stat. 1055-1056 as amended (21 U.S.C. 371); secs. 351, 354-361, 58 Stat. 702 as amended (42 U.S.C. 262, 263b-264); sec. 102(2)(C), 83 Stat. 853 (42 U.S.C. 4332); 40 CFR Parts 1500-1508; Executive Order 11514 as amended by Executive Order 11991; Executive Order 12114, unless otherwise noted.

§§ 25.23, 25.31a, 25.31c, 25.31e [Amended]

2. In § 25.23 *Actions that are excluded from the requirement to prepare an environmental assessment*, § 25.31a *Environmental assessment for proposed approval of FDA-regulated products—Format 1*, § 25.31c *Environmental assessment format for extramural contracts, grants, or other research agreement—Format 3*, and § 25.31e *Environmental assessment for destruction of condemned, enjoined, detained, or recalled articles—Format 5* by adding at the end of each section the parenthetical statement "(Collection of information requirements approved by the Office of Management and Budget under control number 0910-0190.)"

Dated: July 19, 1985.

Marvin H. Shumate,
Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

21 CFR Parts 522 and 556

Animal Drugs, Feeds, and Related Products; Ivermectin Injection

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by Merck Sharp & Dohme Research Laboratories providing for safe and effective use of IVOMEC ™ (ivermectin) injection in reindeer for treatment and control of warbles. The regulations are also amended to establish the tolerance and safe concentrations for drug residues in edible reindeer tissue.

EFFECTIVE DATE: July 25, 1985.

FOR FURTHER INFORMATION CONTACT: Adriano R. Gabuten, Center for Veterinary Medicine (HFV-135), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4913.

SUPPLEMENTARY INFORMATION: Merck Sharp & Dohme Research Laboratories, Division of Merck & Co. Inc., Rahway, NJ 07065, filed supplemental NADA 128-409 providing for subcutaneous use of IVOMEC ™ (ivermectin) injection in reindeer for treatment and control of warbles (*Oedemagena tarandi*). The supplement incorporates data and information in Public Master File (PMF)

VOL 50 ISS 143 JL 25 1985 UMI

3895, for which a notice of availability of certain safety, effectiveness, and environmental data for use in support of NADA's concerning use of ivermectin in reindeer published in the Federal Register of December 24, 1984 (49 FR 49941). The drug is currently approved for intramuscular use in horses and subcutaneous use in cattle (21 CFR 522.1192).

The supplemental NADA is approved. The regulations are amended to reflect the approval and to establish a tolerance for the marker residue and safe concentrations for total residues of ivermectin in edible reindeer tissue. The basis for approval is discussed in the freedom of information summary.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), filed under PMF 3895. FDA's regulations implementing the National Environmental Policy Act (21 CFR Part 25) have been replaced by a rule published in the Federal Register of April 26, 1985 (50 FR 16636, effective July 25, 1985). Under the new rule, an action of this type would require an abbreviated environmental assessment under 21 CFR 25.31a(b)(4).

List of Subjects

21 CFR Part 522

Animal drugs, Injectable.

21 CFR Port 556

Animal drugs, Foods, Residues.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Parts 522 and 556 are amended as follows:

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

1. The authority citation for 21 CFR Part 522 continues to read as follows:

Authority: Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)); 21 CFR 5.10 and 5.83.

2. In § 522.1192 by revising the heading of paragraph (a)(2) and adding new paragraph (d)(3) to read as follows:

§ 522.1192 Ivermectin injection.

(a) * * *

(2) *Cattle and reindeer.* * * *

* * * * * *

(d) * * *

(3) *Reindeer*—(i) *Amount.* 10 milligrams per 50 kilograms (110 pounds) body weight.

(ii) *Indications for use.* It is used in reindeer for treatment and control of warbles (*Oedemagena tarandi*).

(iii) *Limitations.* For subcutaneous use only. Not for intramuscular use. Do not treat reindeer within 56 days of slaughter. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

PART 556—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

3. The authority citation for 21 CFR Part 556 is revised to read as follows:

Authority: Sec. 512, 82 Stat. 343–351 (21 U.S.C. 360b); 21 CFR 5.10 and 5.83.

§ 556.344 [Amended]

4. In § 556.344 *Ivermectin*, by changing "cattle" to "cattle and reindeer" wherever it appears.

Dated: July 18, 1985.

Lester M. Crawford,

Director, Center for Veterinary Medicine.

BILLING CODE 4160-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD 09–85–18]

Special Local Regulations: Toledo Formula I Grand Prix

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: Special local regulations are being adopted for the Toledo Formula I Grand Prix. This event will be held on the Maumee River on 31 August 1985 from 10:00 a.m. (EDT) until 4:30 p.m. on 01 September 1985. The regulations are needed to provide for the safety of life on navigable waters during the event.

EFFECTIVE DATE: These regulations become effective on 31 August 1985 and terminate on 01 September 1985.

FOR FURTHER INFORMATION CONTACT: MSTC Cary H. Lindsay, Office of Search and Rescue, Ninth Coast Guard District, 1240 E 9th St., Cleveland, OH 44199, (216) 522–4420.

SUPPLEMENTARY INFORMATION: A notice of proposed rule making has not been published for these regulations and they are being made effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impractical. The application to hold this event was not received until July 12, 1985, and there was not sufficient time remaining to publish proposed rules in advance of the event or to provide for a delayed effective date. This has been an annual event for many years and no negative comments have been received concerning the holding of the event in the past.

Drafting Information

The drafters of this regulation are MSTC Cary H. Lindsay, project officer, Office of Search and Rescue and LCDR A.R. Butler, project attorney, Ninth Coast Guard District Legal Office.

Discussion of Regulations

The Arts Commission of Greater Toledo will sponsor the Toledo Formula I Grand Prix to be conducted on the Maumee River on 31 August and 01 September 1985. This event will have an estimated 25 Formula I outboard racers which could pose hazards to navigation in the area. Vessels desiring to transit the regulated area may do so only with prior approval of the Patrol Commander (Officer-in-Charge, U.S. Coast Guard Station, Toledo, OH).

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Regulations

In consideration of the foregoing, Part 100 of Title 33, Code of Federal Regulations, is amended as follows:

1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46(c)(5) and 33 CFR 100.35.

2. Part 100 is amended to add a temporary section 100.35–0918 to read as follows:

§ 100.35–0918 Toledo Formula I Grand Prix.

(a) *Regulated Area:* That portion of the Maumee River lying between the Cherry Street Bridge and the Anthony Wayne Bridge.

(b) *Special local Regulations:* (1) The above area will be closed to all vessel navigation or anchorage from 10:00 AM (EDT) until 5:00 PM on 31 August 1985 and from 1:45 PM to 4:30 PM on 01 September 1985.

(2) Vessels desiring to transit the restricted area may do so only with prior approval of the Patrol Commander and when so directed by that officer. Vessels will will be operated at a no wake speed to reduce the wake to a minimum and in a manner which will not endanger participants in the event or any other craft. These rules shall not apply to participants in the event or vessels of the patrol, in the performance of their assigned duties.

(3) A succession of sharp, short signals by whistle or horn from vessels patrolling the areas under the direction of the U.S. Coast Guard Patrol Commander shall serve as a signal to stop. Vessels signaled shall stop and shall comply with the orders of the Patrol Vessel; failure to do so may result in expulsion from the area, citation for failure to comply, or both.

(4) This section is effective from 10:00 AM (EDT) on 31 August 1985 until 4:30 PM on 01 September 1985.

Dated: July 18, 1985.

B.K. Schaeffer,

Captain, U.S. Coast Guard, Chief of Staff, Ninth Coast Guard District.

[FR Doc. 85–17703 Filed 7–24–85; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 110

[CGD8–85–02]

Anchorage Ground, Lower Mississippi River

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending the anchorage regulations on the Lower Mississippi River by establishing a permanent anchorage in the vicinity of Kenner, Louisiana, called the Lower Kenner Bend Anchorage. This action is necessary to provide needed additional anchorage space for deep draft vessels.

EFFECTIVE DATE: August 26, 1985.

FOR FURTHER INFORMATION CONTACT: LCDR L.L. Hereth, Port Safety Officer, Captain of the Port, New Orleans, LA, U.S. Coast Guard, 4640 Urquhart Street, New Orleans, LA 70117, Tel: (504) 589–7118.

SUPPLEMENTARY INFORMATION: On April 16, 1985, the Coast Guard published a notice of proposed rulemaking in the Federal Register for these regulations (50 FR 14940). Interested persons were requested to submit comments. No comments were received.

Drafting Information

The drafters of these regulations are LTJG K.D. Christopher, project officer, c/o Commander, Eighth Coast Guard District (mps) and LT R.M. Wallar, project attorney, Eighth Coast Guard District Legal Office.

Discussion of Comments

No comments were received on the notice of proposed rulemaking. The Coast Guard believes, however, that, because of a considerable increase in commercial development on the Lower Mississippi River the establishment of the Lower Kenner Bend Anchorage is needed to increase anchorage space. In addition, establishing the Lower Kenner Bend Anchorage will reduce overcrowding of the anchorages between New Orleans and Baton Rouge. The greater the occupancy of the anchorage, the closer together vessels must anchor. Because of the limited maneuverability of most merchant vessels, the risk of accident increases as vessels anchor closer to each other.

Six comments were received on the Invironmental Assessment: five statements of no objection and one statement of no objection with the stipulation that no cargo operations be conducted at the anchorage. The Coast Guard proposed establishing the Lower Kenner Bend Anchorage in the interests of navigation safety. The control of "nuisance" factors arising from cargo transfer operations such as noise or dust should be regulated and controlled at the local or state level.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and non-significant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. This anchorage is not expected to have any significant effect on navigation and therefore it is determined that the impact will be minimal. It is believed, however, that any economic impacts provided by this regulation are expected to be positive as the establishment of this anchorage should decrease vessel transit time and facilitate midstream cargo operations.

Since the impact of this proposal is expected to be minimal, the Coast Guard certifies that they will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 110

Anchorage grounds.

Final Regulations

PART 110—[AMENDED]

In consideration of the foregoing, Part 110 of Title 33, Code of Federal Regulations is amended as follows:

1. The authority citation for Part 110 continues to read as follows:

Authority: 33 U.S.C. 471; 2030, 2035, and 2071; 49 CFR 1.46 and 33 CFR 1.05–1(g).

2. In § 110.195, paragraph (a) is amended by redesignating paragraphs (a)(17) through (a)(29) as (a)(18) through (a)(30) and by adding a new paragraph (a)(17), to read as follows:

§ 110.195 Mississippi River below Baton Rouge, LA including South and Southwest Passes.

(a) * * *

(17) Lower Kenner Bend Anchorage. An area 0.8 miles in length along the right descending bank of the river, 700 feet wide, extending from mile 113.5 to mile 114.3 above Head of Passes.

* * * * * *

Dated: July 15, 1985.

Clyde T. Lusk, Jr.,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

BILLING CODE 4910-14-M

---

33 CFR Part 117

[CGD3 84–33]

Drawbridge Operation Regulations; Mantua Creek, NJ

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of Consolidated Rail Corporation (CONRAIL), and New Jersey Department of Transportation (NJ DOT), the Coast Guard is changing the regulations governing the Mantua Creek railroad and Route 44 highway drawbridges, respectively. Both bridges cross Mantua Creek at Paulsboro, New Jersey. This change permits both bridges to open on advance notice at all times from December through the last day of February. This change is being made because of minimal openings during the

VOL 50 ISS 143 JL 25 1985 UMI

applicable periods. This action will relieve the bridge owners of the burden of having a person constantly available to open the draws and still provide for the reasonable needs of navigation.

EFFECTIVE DATE: These regulations become effective on August 26, 1985.

FOR FURTHER INFORMATION CONTACT: Williams C. Heming, Bridge Administrator, Third Coast Guard District (212) 668-7994.

SUPPLEMENTARY INFORMATION: On April 4, 1985, the Coast Guard published proposed rules (50 FR 13389) concerning this amendment. The Commander, Third Coast Guard District, also published the proposal as a Public Notice dated April 17, 1985. In each notice interested persons were given until May 20, 1985 to submit comments.

Drafting Information

The drafters of this notice are Lucas A. Dlhopolsky, project manager, and Mary Ann Arisman, project attorney.

Discussion of Comments

One oral and three written comments were received. The proposed rule would have allowed the CONRAIL railroad bridge to open on four hours advance notice from 11 p.m. to 7 a.m. from March through November and would have permitted both bridges to open on four hours notice at all times from December through the last day of Feburary.

The person making the oral response indicated that the mariners using the marina and boating ramp upstream of the railroad bridge would have their access to the Delaware River restricted by implementation of the 11 p.m. to 7 a.m. restrictions from March through November. It was stated that during the period of April through October, 22 boats are moored at the marina located between the two bridges and that on the weekend some 20 to 40 additional boats make use of the launching facility at this marina. Boats have, on many occasions, experienced mechanical difficulty or heavy weather and have been delayed returning or have requested assistance from the marina after 11:00 p.m. The bridge opening logs for the railroad bridge for 1983 show 7 openings during the 11 p.m. to 7 a.m. time period between March and November. However, this does not present an accurate record of vessel traffic as the logs and statements by the draw tenders also indicate that the railroad bridge was normally left in the open position from about noon until 3 a.m daily. Based on the comments received and the fact that the bridge is closed only for a few trains per day, The Coast Guard is not implementing the proposed four-hour advance notice requirement from 11 p.m. to 7 a.m. during the recreational boating season.

One respondent objected to the draw tender being taken off the Route 44 (ALT 130) bridge and two others wanted full time draw tender service on both bridges so that the public could use the creek whenever they wished. The Route 44 bridge presently is not manned from 11:00 p.m. to 7:00 a.m. all year round because of limited bridge use during these hours. In addition, this bridge is upstream of the marina which generates most of the recreational vessel traffic and it has a vertical clearance of five feet at mean high water. This rulemaking would not alter the existing provision requiring four hours notice from 11 p.m. to 7 a.m. for the Route 44 bridge but would permit the owners of both bridges to open them only on four hours notice at all times from December through February when the waterway is normally frozen or has limited use. Mariners can still obtain openings upon four hours notice during this period. The CONRAIL bridge logs for 1983 show 12 openings from December through February. The logs for the Route 44 bridge show there were only four openings between 1982 and 1984 from December through February and all were in 1982. This number of openings does not warrant the constant presence of a draw tender at either bridge during the winter months especially since openings can be obtained by providing the four hours notice. Accordingly, the winter advance notice requirements for both bridges is being implemented as proposed.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact of this regulation has been found to be so minimal that a full regulatory evaluation is unnecessary. This is because the waterway is used only by recreational vessels and these regulations will provide for their reasonable needs. The regulations will also provide for the reasonable needs of the recreational boat marinas located between the two bridges. Vessels operating outside the months the draws would open on signal will be required to give advance notice to receive an opening. This is not expected to pose a major inconvenience or significantly impact such vessels due to the infrequency of such openings. Since the economic impact of these regulations is expected to be minimal, the Coast Guard certifies that they will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

In consideration of the foregoing, Part 117 of Title 33, Code of Federal Regulations, is amended as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority:—33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-1(g).

2. Section 117.729 is revised to read as follows:

§ 117.729 Mantua Creek.

(a) The draw of the CONRAIL railroad bridge, mile 1.4 at Paulsboro, shall open on signal except, that from December 1 to March 1 the draw shall open on signal at all times upon four hours notice.

(b) The draw of the S.R. 44 bridge, mile 1.7, at Paulsboro, shall open on signal from March 1 through November 30 from 7 a.m. to 11 p.m., and shall open on signal at all other times upon four hours notice.

Dated: July 15, 1985.

P.A. Yost,

Vice Admiral, U.S. Coast Guard Commander, Third Coast Guard District.

[FR Doc. 85-17698 Filed 7-24-85; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 117

[CGD13 85-01]

Drawbridge Operation Regulations; Duwamish Waterway at Seattle, WA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the King County Department of Public Works, the Coast Guard is changing the regulations governing the Fourteenth (Sixteenth) Avenue South highway bridge across the Duwamish Waterway, mile 3.8, at Seattle, Washington, by changing morning closed period times to conform with changes in peak flows of vehicular traffic. This change is being made because peak periods of vehicular traffic have shifted slightly since the original closed periods were established. This action will accommodate the needs of vehicular traffic and still provide for the reasonable needs of navigation.

EFFECTIVE DATE: These regulations become effective on August 26, 1985.

FOR FURTHER INFORMATION CONTACT: John E. Mikesell, Chief, Bridge Section, Aids to Navigation Branch (Telephone: (206) 442-5864).

SUPPLEMENTARY INFORMATION: On March 14, 1985 the Coast Guard published proposed rules (50 FR 10250) concerning this amendment. The Commander, Thirteenth Coast Guard District, also published the proposal as a public notice dated March 27, 1985. In each notice interested persons were given until April 29, 1985 to submit comments.

Drafting Information

The drafters of this notice are: John E. Mikesell, project officer, and Lieutenant Commander Judith M. Hammond, project attorney.

Discussion of Comments

There were no responses to the Federal Register notice. One response was received to the public notice. The response, from a Federal agency, offered no objection to the proposed change.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulations and non-significant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. With an average of only five openings a day, the extension of the existing morning closed period by one-half hour is expected to have little or no economic impact on vessels using the waterway. Over a three-month period, only nine openings occurred during the period from 6:30 a.m. to 7:00 a.m., an average of three openings per month. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR 261

[SW-FRL-2869-3]

Identification and Listing of Hazardous Waste; Mobile Incineration System

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is today granting a final exclusion for the solid wastes that will be generated by EPA's Mobile Incineration System located in McDowell, Missouri, from the list of hazardous wastes contained in 40 CFR § 261.31. This action responds to a delisting petition submitted under 40 CFR §§ 260.20 and 260.22 to exclude a waste on a "site-specific basis" from the hazardous waste list. The effect of this action is to exclude those wastes generated by EPA's Mobile Incineration System from listing as hazardous wastes under 40 CFR Part 261.

EFFECTIVE DATE: July 25, 1985.

ADDRESS: The public docket for this final exclusion is located in Room S–212, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, and is available for viewing from 9:00 a.m. to 4:00 p.m. Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: RCRA Hotline, toll free at (800) 424–9346, or at (202) 382–3000. For technical information, contact Dr. Doreen Sterling, Office of Solid Waste (WH–562B), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 475–6775.

SUPPLEMENTARY INFORMATION: On June 5, 1985, EPA proposed to exclude certain wastes generated by EPA's Mobile Incineration System located in McDowell, Missouri, from the list of hazardous wastes (See 50 FR 23721). This proposed rule was in response to a petition submitted by EPA's Releases Control Branch (RCB), located in Edison, N.J., (pursuant to 40 CFR 260.20 and 260.22) to exclude these wastes from hazardous waste control. The RCB argued that the wastes did not meet the criteria for which they were orginally listed. The petitioner also has provided information in order for the Agency to consider whether any other toxicants are present in the waste at levels of regulatory concern.[1] In addition, RCB further provided data to demonstrate that the wastes do not exhibit any of the hazardous waste characteristics.

The purpose of today's action is to make final that proposal, effective immediately. More specifically, today's rule allows this facility to manage these wastes as non-hazardous, pursuant to the conditions specified below (See also 50 FR 23721).

I. Environmental Protection Agency (Releases Control Branch)

A. Proposed Exclusion

The Environmental Protection Agency's Releases Control Branch (RCB), located in Edison, New Jersey, has petitioned the Agency to exclude from the list of hazardous wastes the process wastewater, the rotary kiln ash, the filter media generated from a cleanable high efficiency air filter (CHEAF) particulate scrubber, and other solids [2] removed from the wastewater which will be generated during the field demonstration of EPA's Mobile Incineration System (MIS) at the Denney Farm site in McDowell, Missouri. These wastes are presently listed as EPA Hazardous Waste Nos. F020, F023, F026, F027 and F028. Approximately 450,000 gallons of wastewater and 1200 tons of total solids are expected to be generated during the field demonstration of the MIS.

RCB claimed that the wastewater and other solids generated during the trial burn of the MIS did not meet the criteria for which the waste was listed nor contained any additional toxic constituents which could cause the waste to be hazardous. RCB also claimed that the waste did not exhibit any of the characteristics of a hazardous waste. RCB further claimed that the waste that will be incinerated during the field demonstration was of the same origin as the waste incinerated during the trial burn and, consequently, the resultant wastewater and other solids generated during the field demonstration will also be non-hazardous. To support their claim, RCB submitted: (1) Documentation that the waste incinerated during the trial burn and the waste that will be incinerated during the field demonstration were derived from the same source, (2) a detailed description of the MIS, (3) characterization data on the material incinerated during the trial burn, and (4) analytical results on the wastewater and solids generated during the trial burn. RCB reported that neither CDDs, CDFs[3] nor any other toxic organic constituent were detected in the wastewater or solids generated during the trial burn of the MIS. Based on the data submitted by the petitioner, however, the Agency was unable to determine whether mercury, selenium, or chromium could present a hazard in the wastewater or solids; mercury leachate analyses were not performed and the detection limit used for selenium analyses was too high. For chromium, the EP results were highly variable.

The Agency, therefore, proposed to grant an exclusion to RCB for the residues (including process wastewater) that will be generated during the field demonstration of EPA's MIS at the Denney Farm site in McDowell, Missouri, provided the wastewater and solids were tested using the EP toxicity test for mercury, selenium and chromium before disposal and that levels of these metals be below the levels proposed by the Agency.

B. Agency Response to Public Comments

Two comments were received regarding our proposed decision to exclude the hazardous waste generated by EPA's Mobile Incineration System located in McDowell, Missouri, from the list of hazardous wastes contained in 40 CFR 261.31. One commenter first commended EPA's Releases Control Branch for its work in advancing incineration technology and for preparing the Petition for Exclusion. The commenter, however, has concerns regarding the interpretation of the regulations which led to the petition being submitted. More specifically, the commenter does not believe that incinerator residue (*i.e.*, the scrubber water) is derived from the listed waste but rather *results from* the incineration of the wastes. In particular, they argue that the scrubber water exhibits fundamentally different chemical and physical properties than the organic wastes which are incinerated; in addition, they argue that the scrubber water (comprised primarily of water and sodium or calcium chloride) bears no structural relationship to the hydrocarbons which are incinerated. Consequently, they believe there is no basis to say that the scrubber water is derived from the listed waste. The commenter also believes that the delisting process creates unreasonable restrictions on the operation of incinerators; they believe that few persons would be willing to incinerate dioxin-containing wastes if they must go through the delisting process. Therefore, they request that our interpretation that incineration residues are "derived from listed wastes" be modified so as to provide more incentive for these wastes to be incinerated.

We disagree with the commenter that the residues from the incineration process are not "derived from" the process. See, for example, 45 FR at 33096, May 19, 1980, where we state "Paragraph (c) establishes a similar rule with respect to solid wastes generated by . . . . treatment—including leachate and treatment residues . . . . and incinerator ash. Here, too, it is reasonable to assume that these wastes, which are *derived from* hazardous waste, are themselves hazardous." The Agency cannot accept the commenter's argument that the residues are different in composition and structural relationship and thus are not considered "derived from". If the commenter

[1] The Hazardous and Solid Waste Amendments of 1984 require the Agency in evaluating delisting petitions to consider all factors (including additional constituents) for which there is a reasonable basis to believe that their presence could cause the waste to be hazardous.

[2] The other solids include particulates collected from the secondary combustion chamber and sludge which is collected from the air pollution control equipment sumps and from the clarifier on the process water purge steam treatment system. The carbon filters are not included in the other solids category and hence are not a subject of this notice.

[3] CDDs/CDFs—all isomers of tetra-, penta-, and hexachloro-dibenzo-p-dioxins and -dibenzofurans, respectively.

believes that the wastes are different (and more importantly, non-hazardous), the Agency has provided a mechanism to exclude these wastes from regulatory control—namely, the delisting process.

The commenter believes that this progress requires extensive analysis and considerable time for regulatory review. We believe that normally such precautions need be taken to ensure their proper management. Nevertheless, based on the information provided by RCB and other incineration facilities, we are considering modifying the hazardous waste rules to designate as hazardous (rather than acute hazardous) wastes derived from the incineration or thermal treatment of certain dioxin-containing waste. These residues would still be considered hazardous, and subject to general waste management standards, but they would not be subject to the special management standards for most dioxin-containing wastes. Such a change should encourage (or at least not discourage) persons from incinerating dioxin-containing wastes.

The second commenter, although supporting the Agency's action proposing to delist the wastes from the MIS, expressed concern that the Agency is establishing "benchmarks" for evaluating future delisting petitions in three areas:

1. A 99.9999% Destruction and Removal Efficiency (DRE) (six 9s) for *all* constituent wastes, dioxin as well as other.

2. Minimum heat values of 14,500 Btu/lb.

3. Continuous monitoring for carbon monoxide (CO), carbon dioxide (CO_2), oxygen (O_2) and nitric oxides (NO_x).

The Agency does not view the above specifications as minimum requirements for future delisting but rather as specific conditions that must be maintained by the MIS in order to comply with their hazardous waste incinerator permit. The six 9s DRE is based upon the incineration of Principal Organic Hazardous Constituents (POHCs) of equivalent or higher thermal stability than CDDs and CDFs; this level of destruction and removal is only required for dioxin wastes and not other RCRA hazardous wastes. The minimum heat value of 14,500 Btu/lb. and continuous monitoring of CO, CO_2, O_2, and NO_x are conditions placed on the MIS to ensure compliance with the six 9s DRE and also with existing air quality standards. These conditions will not automatically be specified for all future delisting petitions.

C. Final Agency Decision

The Agency believes that RCB has successfully demonstrated that the MIS has effectively destroyed the CDDs, CDFs, and other toxic organic constituents present in the waste. The Agency does not at this point have enough information to determine the hazardousness of the wastewater and solids with respect to chromium, selenium, and mercury. Normally, the Agency would require additional testing before making a decision. Based on the extreme toxicity of CDDs and CDFs, the evidence that the MIS has effectively destroyed these constituents in the waste, and the fact that the MIS does not have enough wastewater storage capacity to continue incineration operations without discharge of the wastewater (for which an exclusion is necessary), the Agency believes that in this instance, it is an environmentally sound decision to grant an exclusion on a one-time basis with conditions to ensure that the wastes are found not to have mercury, selenium or chromium at levels of concern prior to disposal.

The conditions of the exclusion are as follows:

(1) MIS's performance must be continuously monitored in order to ensure efficient destruction of the wastes, (*i.e.*, comply with test burn parameters as specified in the MIS permit).

(2) A grab sample must be taken of each tank of wastewater generated during the field demonstration and tested using the EP toxicity test for mercury, selenium, and chromium. If mercury, selenium, and chromium EP leachate test results do not exceed 0.03, 0.14, and 0.68 ppm, respectively, the wastewater will be considered non-hazardous.

(3) Grab samples must be taken from each drum of ash or soil and composited daily. A core sample must also be collected from each CHEAF roll. An EP toxicity test must be performed on these samples and the leachate analyzed for mercury and selenium. If mercury leachate values do not exceed 0.044 ppm in the ash and CHEAF media and selenium values do not exceed 0.22 ppm in the ash and CHEAF media, those respective wastes will be considered non-hazardous. Analyses for mercury, selenium, and chromium would be performed according to the methodology specified in the test methods manual, SW–846. If RCB can demonstrate through representative sampling (on a minimum of 10 samples) that the selenium, mercury, and chromium leachate levels generated from the solids are below the levels established in the contingencies specified in (2) and (3) above, the Agency may propose to eliminate these conditions.

The EP leachate values specified above are based on the volume of the waste and the use of the VHS model (50 FR 7896–7900, February 26, 1985). Although the VHS model is not as yet final, the Agency does not believe that any changes in the model made in response to comments would change the Agency's decision to grant this exclusion.

In the June 12, 1985, correction notice (50 FR 24657), the Agency stated that our decision to delist these wastes would apply to all wastes generated (*i.e.*, incineration residues) after June 5, 1985. Upon reflection, the Agency has determined that the exclusion should not be effective until this final rule is published. This will have no effect on this exclusion since the RCB does not expect to burn the dioxin-containing waste and, thus, generate the incineration residues until a final decision is reached.

II. Effective Date

Section 3010(b) of RCRA provides that EPA's hazardous waste regulations and revisions to the regulations take effect six months after promulgation. The purpose of this requirement is to allow persons handling hazardous waste sufficient lead time to perpare to comply with major new regulatory requirements. Today's amendment, however, reduces, rather than increases, the existing requirements for persons generating hazardous waste. If the amendments promulgated today do not become effective for six months after promulgation, there would be an unnecessary disruption in the MIS's operation. In light of the hardship that would be imposed by an effective date six months after promulgation and the fact that such a deadline is not necessary to achieve the purpose of Section 3010, EPA believes it is appropriate to make this rule effective immediately. In addition, for the reasons stated above, EPA believes that under 5 U.S.C. 553(d) this rule may be made effective immediately.

III. Regulatory Impact

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This proposal to grant an exclusion is not major since its effect is to reduce the overall costs and economic impact of EPA's hazardous waste management regulations. This reduction is achieved by excluding wastes generated at a specific facility from EPA's list of hazardous wastes.

thereby enabling the facility to treat its waste as non-hazardous.

IV. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. §§ 602–612, whenever an Agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (*i.e.*, small businesses, small organizations, and small governmental jurisdictions). The Administrator may certify, however, that the rule will not have a significant economic impact on a substantial number of small entities.

This amendment will not have an adverse economic impact on small entities since its effect will be to reduce the overall costs of EPA's hazardous waste regulations. Accordingly, I hereby certify that this proposed regulation will not have a significant economic impact on a substantial number of small entities. This regulation, therefore, does not require a regulatory flexibility analysis.

V. List of Subjects in 40 CFR Part 261

Hazardous waste, Recycling.

Dated: July 18, 1985.

Jack W. McGraw,

Acting Assistant Administrator.

For the reasons set out in the preamble, 40 CFR Part 261 is to be amended as follows:

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

1. The authority citation for Part 261 continues to read as follows:

Authority: Secs. 1006, 2002(a), 3001, and 3002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. of 1976, as amended (42 U.S.C. 6905, 6912(a), 6912, and 6922).

2. In Appendix XI, add the following wastestreams in alphabetical order:

Appendix XI—Wastes Excluded Under §§ 260.20 and 260.22.

TABLE 1.—WASTES EXCLUDED FROM NON-SPECIFIC SOURCES

Facility	Address	Waste description
EPA's Mobile Incineration System.	Denney Farm Site; McDowell, MO.	(a) Wastes excluded from non-specific sources: Process wastewater, rotary kiln ash, CHEAF media, and other solids (except spent activated carbon) (EPA Hazardous Waste Nos. F020, F022, F023, F026, F027, and F028) generated during the field demonstration of EPA's Mobile Incinerator at the Denney Farm Site in McDowell, Missouri, after July 25, 1985, so long as: (1) the incinerator is functioning properly; (2) a grab sample is taken from each tank of wastewater generated and the EP leachate values do not exceed 0.03 ppm for mercury, 0.14 ppm for selenium, and 0.68 ppm for chromium; and (3) a grab sample is taken from each drum of soil or ash generated and a core sample is collected from each CHEAF roll generated and the EP leachate values of daily composites do not exceed 0.044 ppm in ash or CHEAF media for mercury or 0.22 ppm in ash or CHEAF media for selenium.

DEPARTMENT OF TRANSPORTATION

Coast Guard

46 CFR Part 10

[CGD 77–064]

Licensing of Pilots; Manning of Vessels—Pilots

AGENCY: Coast Guard, DOT.

ACTION: Final rule; correction of effective date.

SUMMARY: On June 24, 1985, the Coast Guard published a Final Rule at 50 FR 26106 regarding the licensing of pilots, effective July 24, 1985. Section 10.07–9(e) provides that if an individual holding a first class pilot's license or endorsement does not satisfactorily complete a physical examination within 90 days prior to the anniversary date of the issuance of the license, the license or endorsement is invalid as of the anniversary date and the individual may not operate under the authority of that license or endorsement until a physical examination has been completed. The 90 day provision was intended to provide flexibility in scheduling physical examinations in recognition of the employment practices in the merchant marine.

In order to provide sufficient time to schedule and complete a physical examination within 90 days prior to the anniversary date of the issuance of the license without undue hardship to license holders, the effective date for § 10.07–9(e) is delayed to January 1, 1986.

Holders of a pilot license or endorsement with an anniversary date after January 1, 1986, must satisfactorily complete a physical examination within 90 days prior to that anniversary date.

The effective date for the final rule appearing in column one of page 26106 of the Federal Register issue of June 24, 1985, is corrected to read as follows:

EFFECTIVE DATE: July 24, 1985, except for § 10.07–9(e) which is effective January 1, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. John J. Hartke, Office of Merchant Marine Safety (G–MVP/12), Room 1210, U.S. Coast Guard Headquarters, 2100 Second Street, S.W., Washington, D.C. 20593, (202) 426–2985.

Dated: July 23, 1985.

J.W. Kime,

Commodore, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Correction

In FR Doc. 85–16048, beginning on page 27589 in the issue of Friday, July 5, 1985, make the following corrections:

1. On page 27590, in the first column, in section 552.270–2, the first word in the tenth line of the GSAR provision should read "offers".

2. On page 27593, in the first column, the number of the last subpart heading in the table of sections for Part 570 should read "570.7".

3. Also on page 27593, in the second column, in section 570.101, the first word in the third line of paragraph (c) should read "interests".

4. On page 27597, in the first column, in section 570.502, the third word in the seventh line of paragraph (b)(3)(ii) should read "firm".

5. On page 27598, in the second column, in section 570.602–2, the fourth word in the eighth line of paragraph (c)(3) should read "of".

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 1

[OST Docket No. 1; Amdt. 1–203]

Organization and Delegation of Powers and Duties; Fiscal Year 1985 Interstate Cost Estimate

AGENCY: Office of the Secretary; DOT.

ACTION: Final rule.

SUMMARY: This amendment delegates to the Administrators of the Federal Highway Administration (FHWA) and the Urban Mass Transportation Administration (UMTA) all functions vested in the Secretary by Public Law 98–229 apportioning certain funds for construction of the Interstate Highway System in Fiscal Year 1985 and increasing amounts available for emergency highway relief. These all relate to matters administered by FHWA and UMTA.

DATE: The effective date of this amendment is March 9, 1984.

FOR FURTHER INFORMATION CONTACT: Robert I. Ross, Office of the General Counsel, C–50, Department of Transportation, Washington, DC (202) 426–4723.

SUPPLEMENTARY INFORMATION: Since this amendment relates to Departmental management, procedures, and practice, notice and comment on it are unnecessary and it may be made effective in fewer than thirty days after publication in the **Federal Register**.

This statute approves the Interstate Cost Estimate factors necessary to apportion $2 billion in Interstate construction funds and approves the Interstate Substitution Cost Estimate factors necessary to apportion $330 million in Interstate transfer funds for highway and transit projects. Also, it provides an additional $150 million for fiscal year 1984 in emergency relief highway funds. All of these functions are being delegated to FHWA, except the authority to apportion funds for Interstate substitute transit projects, which is being delegated to UMTA.

List of Subjects in 49 CFR Part 1

Authority delegations (government agencies), Organization and functions (government agencies).

PART 1—[AMENDED]

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended as follows:

1. The authority citation for 49 CFR Part 1 continues to read as follows:

Authority: Secs. 3, 9, Department of Transportation Act (49 U.S.C. 1652 and 1657(e)), unless otherwise noted.

2. Section 1.48 is amended by adding a new paragraph (bb), and the introductory text of the section is repeated for the convenience of the reader, to read as follows:

§ 1.48 Delegations to Federal Highway Administrator.

The Federal Highway Administrator is delegated authority to—

* * * * *

(bb) Carry out the functions vested in the Secretary by Pub. L. 98–229, 98 Stat. 55, insofar as it relates to apportioning certain funds for construction of the Interstate Highway System in Fiscal Year 1985, apportioning certain funds for Interstate substitute highway projects, and increasing amounts available for emergency highway relief.

3. Section 1.51 is amended by adding at the end thereof a new paragraph (n), and the introductory text of the section is repeated for the convenience of the reader, to read as follows:

§ 1.51 Delegations to Urban Mass Transportation Administrator.

The Urban Mass Transportation Administrator is delegated authority to exercise the functions vested in the Secretary by:

* * * * *

(n) Section 2 of Pub. L. 98–229, 98 Stat. 55, insofar as it relates to apportioning certain funds for Interstate substitute transit projects.

Issued in Washington, DC, on July 1, 1985.

Elizabeth H. Dole,

Secretary of Transportation.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 85-ACE-07]

Proposed Designation of Transition Area—Minneapolis, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This Notice proposes to designate a 700-foot transition area at Minneapolis, Kansas, to provide controlled airspace for aircraft executing a new instrument approach procedure to the Minneapolis City County Airport, Minneapolis, Kansas, utilizing the Salina VORTAC as a navigational aid. This proposed action will change the airport status from VFR to IFR.

DATE: Comments must be received on or before August 30, 1985.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Manager, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-540, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374-3408.

The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas City, Missouri.

An informal docket may be examined at the Office of the Manager, Operations, Procedures and Airspace Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Dale L. Carnine, Airspace Specialist, Operations, Procedures, and Airspace Branch, Air Traffic Division, ACE-540, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374-3408.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106. All communications received on or before the closing date for comments will be considered before action is taken on the proposed amendment. The proposal contained in this Notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures and Airspace Branch, 601 East 12th Street, Kansas City, Missouri 64106, or by calling (816) 374-3408.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRMS should also request a copy of Advisory Circular No. 11-2A which describes the application procedure.

Discussion

The FAA is considering an amendment to Subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) by designating a 700-foot transition area at Minneapolis, Kansas. To enhance airport usage, a new instrument approach procedure is being developed for the Minneapolis, Kansas, City County Airport utilizing the Salina VORTAC as a navigational aid. This navigational aid will provide new navigational guidance for aircraft utilizing the airport. The establishment of a new instrument approach procedure based on this navigational aid entails designation of a transition area at Minneapolis, Kansas, at and above 700 feet above ground level within which aircraft are provided air traffic control service. Transition areas are designed to contain IFR operations in controlled airspace during portions of the terminal operation, and while transiting between the terminal and enroute environment. The intended effect of this action is to ensure segregation of aircraft using the approach procedure under Instrument Flight Rules (IFR), and other aircraft operating under Visual Flight Rules (VFR). This action will change the airport status from VFR to IFR. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A, dated January 2, 1985.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

The Proposed Amendment

Part 71

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) proposes to amend Part 71 of the FAR (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.65.

2. By amending Section 71.181 as follows:

Minneapolis, Kansas

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Minneapolis City County Airport (Latitude 39°05'41"N; Longitude 97°43'13"W); within five miles either side of the Salina, Kansas VORTAC 341° radial extending from 10 NM SE of the airport to the 6.5 mile radius area, excluding that portion which overlies the Salina, Kansas, transition area.

Issued in Kansas City, Missouri, on July 16, 1985.

Edwin S. Harris,
Director, Central Region.

Food and Drug Administration

21 CFR Part 882

[Docket No. 85M-0056]

Neurological Devices; Premarket Approval of the Implanted Intracerebral Subcortical Stimulator for Pain Relief

AGENCY: Food and Drug Administration.

ACTION: Proposed rule; opportunity to request change in classification..

SUMMARY: The Food and Drug Administration (FDA) is proposing to require the filing of a premarket approval application (PMA) or a notice of completion of a product development protocol (PDP) for the implanted intracerebral/subcortical stimulator for pain relief, a medical device. The agency also is summarizing its proposed findings on: (1) the degree of risk of illness or injury designed to be eliminated or reduced by requiring the device to meet the statute's approval requirements, and (2) the benefits to the public from the use of the device. In addition, FDA is announcing an opportunity for interested persons to request the agency to change the classification of the device based on new information.

DATES: Comments by September 23, 1985; requests for a change in classification by August 9, 1985.

ADDRESS: Written comments or requests for a change in classification are to be submitted to the Docket Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Robert F. Munzner, Center for Devices and Radiological Health (HFZ-430), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7226.

SUPPLEMENTARY INFORMATION:

Background

Section 513 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360c) requires the classification of medical devices into one of three regulatory classes: Class I, general controls; class II, performance standards; of class III, premarket approval. As a general rule, devices that were on the market before May 28, 1976, the date of enactment of the Medical Device Amendments of 1976 (the amendments) (Pub. L. 94-295), and devices marketed on or after that date that are substantially equivalent to such devices, have been, or are being, classified by FDA. For the sake of convenience, this preamble refers to both the devices that were on the market before May 28, 1976, and the substantially equivalent devices that were marketed on or after that date as "preamendments devices."

Sections 501(f), 513, and 515(b) of the act (21 U.S.C. 351(f), 360c, and 360e(b)), taken together, establish as a general requriement that a preamendments device that FDA has classified into class III is subject, in accordance with section 515 of the act, to premarket approval. (As an alternative procedure for premarket approval, section 515(f) of the act provides for development of a PDP, the last stage of which is for FDA to declare that a PDP has been completed.) A preamendments class III device may be commercially distributed without a filed PMA or a notice of completion of a PDP until 90 days after FDA's promulgation of a final rule requiring premarket approval for the device. Also, such a device is exempt from the investigational device exemption (IDE) regulations (21 CFR Part 812) until the date stipulated by FDA in the final rule requiring premarket approval for that device. A device that was not in commercial distribution before May 28, 1976, or that has not been found by FDA to be substantially equivalent to such a device, is requried to have an approved PMA or a declared completed PDP in effect before it may be marketed.

Section 515(b)(2)(A) of the act provides that a proceeding for the promulgation of a final rule to require premarket approval shall be initiated by publication of a notice of proposed rulemaking containing: (1) The proposed rule, (2) proposed findings with respect to the degree of risk of illness or injury designed to be eliminated or reduced by requiring the device to have an approved PMA or a declared completed PDP and the benefit to the public from the use of the device, (3) an opportunity for the submission of comments on the proposed rule and the proposed findings, and (4) an opportunity to request a change in the classification of the device based on new information relevant to the classification of the device.

Section 515(b)(2)(B) of the act provides that if FDA receives a request for a change in the classification of the device within 15 days of the publication of the notice, FDA shall, within 60 days of the publication of the notice, consult with the appropriate FDA advisory committee and publish a notice either denying the request or announcing its intent to initiate a proceeding to reclassify the deivice under section 513(e) of the act. If FDA does not initiate such a proceeding, section 515(b)(3) of the act provides that FDA shall, after the close of the comment period on the proposed rule and consideration of any comments received, promulgate a final rule to requrie premarket approval, or publish a notice terminating the proceeding. If FDA terminates the proceeding, FDA is required to initiate a proceeding to reclassify the device under section 513(e) of the act, unless the reason for termination is that the deivce is a banned device under section 516 of the act (21 U.S.C. 360f).

If a proposed rule to require premarket approval for a preamendments device is make final, section 501(f) of the act mandates that a PMA or a notice of completion of a PDP for any such device be filed within 90 days of the date of promulgation of the final rule, or 30 months after final classification of the device, whichever is later. If a PMA or a notice of completion of a PDP for such a device is not filed by the later of the two dates, commerical distribution of the device is required to cease. The device may, however, be distributed for investigational use if the manufacturer, importer, or other sponsor of the device complies with the IDE regulations. If a PMA or a notice of

VOL 50 ISS 143 JL 25 1985 UMI

completion of a PDP has not been filed, and there is not any IDE in effect, the device is deemed to be adulterated within the meaning of section 501(f)(1)(A) of the act, and subject to seizure and condemnation under section 304 of the act (21 U.S.C. 334). Shipment of the device in interstate commerce will be subject to injunction under section 302 of the act (21 U.S.C. 332), and the individuals responsible for such shipment will be subject to prosecution under section 303 of the act (21 U.S.C. 333).

The act does not permit an extension of the 90-day period after promulgation of a final rule within which an application or notice is requried to be filed. The House Report on the amendments states that "the thirty month 'grace period' afforded after classification of a device into class III * * * is sufficient time for manufacturers and importers to develop the data and conduct the investigations necessary to support an application for premarket approval." H. Rept. 94–853, 94th Cong., 2d Sess. 42 (1976).

Classification of the Implanted Intracerebral/Subcortical Stimulator for Pain Relief

In the **Federal Register** of September 4, 1979 (44 FR 51772), FDA issued a final rule (21 CFR 882.5840) classifying the implanted intracerebral/subcortical stimulator for pain relief into class III. The preamble to the proposal to classify the device (43 FR 55720; November 28, 1978) included the recommendation of the Neurological Devices Panel (formerly the Neurological Device Section of the Respiratory and Nervous System Devices Panel) (the Panel), an FDA advisory committee, regarding the classification of the device. The Panel's recommendation included a summary of the reasons the device should be subject to premarket approval and identified certain risks to health presented by the device. The Panel also recommended under section 513(c)(2)(A) of the act that a high priority for the application of section 515 of the act be assigned to the implanted intracerebral/subcortical stimulator for pain relief. The preamble to the final rule classifying the device advised that the earliest date by which a PMA for the device (or a notice of completion of a PDP) could be required was May 28, 1982, or 90 days after promulgation of a rule requiring premarket approval for the device, whichever occurred later.

In the **Federal Register** of September 6, 1983 (48 FR 40272), FDA published a notice of intent to initiate proceedings to require premarket approval of 13 preamendments class III devices assigned a high priority by FDA for the application of premarket approval requirements. Among other things, the notice describes the factors FDA takes into account in establishing priorities for initiating proceedings under section 515(b) of the act for promulgating final rules requiring that preamendments class III devices have approved PMA's or declared completed PDP's. Using these factors, FDA has determined that the implanted intracerebral/subcortical stimulator for pain relief, identified in § 882.5840(a), has a high priority for initiating a proceeding to require premarket approval. Accordingly, FDA is commencing a proceeding under section 515(b) of the act to require that the implanted intracerebral/subcortical stimulator for pain relief have an approved PMA or a PDP that has been declared completed.

Dates New Requirements Apply

In accordance with section 515(b) of the act, FDA is proposing to require that a PMA or a notice of completion of a PDP be filed with the agency for the implanted intracerebral/subcortical stimulator for pain relief within 90 days after promulgation of any final rule based on this proposal. An applicant whose device was in commercial distribution before May 28, 1976, or has been found by FDA to be substantially equivalent to such a device, will be permitted to continue marketing the implanted intracerebral/subcortical stimulator for pain relief during FDA's review of the PMA or notice of completion of the PDP. FDA intends to review any PMA for the device within 180 days, and any notice of completion of a PDP for the device within 90 days, of the date of filing. FDA cautions that under section 515(d)(1)(B)(i) of the act, FDA may not enter into an agreement to extend the review period for a PMA unless the agency finds that "* * * the continued availability of the device is necessary for the public health."

FDA intends that, under § 812.2(d), the preamble to any final rule based on this proposal will stipulate that as of the date on which a PMA or notice of completion of a PDP is required to be filed, the exemptions in § 812.2(c) (1) and (2) from the requirements of the IDE regulations for preamendments class III devices will cease to apply to any implanted intracerebral/subcortical stimulator for pain relief: (1) Which is not legally on the market on or before that date or (2) which is legally on the market on or before that date but for which a PMA or notice of completion of a PDP is not filed by that date, or for which PMA approval has been denied or withdrawn.

If a PMA or a notice of completion of a PDP for the implanted intracerebral/subcortical stimulator for pain relief is not filed with FDA within 90 days after the date of promulgation of any final rule requiring premarket approval for the device, commercial distribution of the device will be required to cease. The device may be distributed for investigational use only if the requirements of the IDE regulations regarding significant risk devices are met. The requirements for significant risk devices include submitting an IDA application to FDA for its review and approval. An approved IDE is required to be in effect before an investigation of the device may be initiated or continued. FDA, therefore, cautions that IDE applications should be submitted to FDA at least 30 days before the end of the 90-day period to avoid interrupting investigations.

Description of Device

The implanted intracerebral/subcortical stimulator for pain relief is a device that applies electrical current to subsurface areas of the brain to treat severe intractable pain. The device consists of an implanted radiofrequency (RF) receiver, electrodes that are placed within the brain, a pocket-sized external RF transmitter, and an external coil (antenna). The RF pulses are transmitted via the antenna through the skin to the subcutaneously placed RF receiver, which converts the RF energy to electrical impulses. The impulses are delivered via lead wires to the electrodes in the brain.

The electrodes are implanted in the brain through a burr hole in the skull. The receiver is implanted under the skin through an incision. A tunnel is made beneath the skin to accommodate the lead wires that extend from the receiver to the electrodes.

Proposed Findings With Respect to Risks and Benefits

As required by section 515(b) of the act, FDA is publishing its proposed findings regarding: (1) The degree of risk of illness or injury designed to be eliminated or reduced by requiring the implanted intracerebral/subcortical stimulator for pain relief to have an approved PMA or a declared completed PDP, and (2) the benefits to the public from the use of the device.

Degree of Risk

Damage to neural tissue. The electrical current used for stimulation and the presence of the electrode may cause injury to brain tissue. Charge densities used to treat patients cannot

be determined from published reports of clinical studies. Animal studies indicate that by using low charge densities, electrical injury to brain tissue can be minimized. Mortimer et al. studied the effects of electrical stimulation on the blood brain barrier of cats and concluded that the upper limit for safe stimulation is 0.05 watt per square inch when biphasic electrical pulses are used (Ref. 24). Pudenz investigated the degree of neural damage caused by electrically stimulating the cerebral cortex of cats. The author found that some amount of neural damage is consistently produced if the charge per phase of the stimulus pulse is 0.45 microcoulomb (μC) or greater (Ref. 27). Recently, Yuen et al. found that neural damage in the cerebral cortex of cats increased proportionally as the charge density per phase increased over the range of 40 to 400 μC per square centimeter per phase (Ref. 39).

Two authors have published studies of autopsy material taken from patients who had been implanted with deep brain stimulators. Gybels et al. reported on a series of five cancer patients who were followed for 2 weeks to 17 months (average 7 months) after implantation (Ref. 14). All patients showed histological reactions to the electrode, including necrosis, mesenchymal reactions, glial reactions, and inflammatory reactions with giant cells. Three of the five patients were autopsied after 6 to 17 months, and showed chromatolysis of neurones in the target area and mild gliosis. These histological reactions were atrtibuted to chronic stimlation. Boivie and Meyerson reported pathological findings in a group of five cancer patients autopsied 3 weeks to 17 months after implantation (Ref. 8). In four of these patients, small lesions resembling old infarcts were observed along the electrode tracks. The lesions were characterized by slight gliosis and mild neuronal reactions extending 0.5 to 0.7 millimeter (mm) beyond the track. A thin fibrous sheath surrounded the electrode tracks in three of the four patients. The results of the very small studies by Gybels et al. (Ref. 14) and by Boivie and Meyerson (Ref. 8) indicate that histological reaction to the presence of the electrodes may be mild. These studies, however, reported findings on a total of only 10 patients.

Several undesirable neurological effects have been reported in patients treated with deep brain stimulation. Dieckmann and Witzmann reported lesions in the target points in 3 of 46 patients (7 percent) (Ref. 12). Coagulated brain tissue was removed with an electrode from a fourth patient. The authors attribute their finding to "inappropriate" (i.e., continuous) stimulation by the patients. Richardson and Akil, in their study of long-term effects of stimulation of the periventricular gray matter, reported fogging of blurring of vision in five of eight patients (63 percent) (Ref. 33). In a second series of 30 patients, these same authors reported emotional changes, vertigo, and hemiparesis in 7 patients (23 percent) (Ref. 31). Mundinger and Salamao reported oculomator or other undesirable paresthesias and focal seizures in 3 of 32 patients (9 percent) (Ref. 25). Plotkin reported contralateral paresthesias in 1 of 48 patients (2 percent) which persisted even after removal of the electrodes (Ref. 26). Ray and Burton reported major motor seizures in 1 of 28 patients (4 percent) (Ref. 28).

Surgical complications. Implantation of the device requires two operations. In the first one, burr holes are cut into the skull under the local anesthetic. Electrodes are inserted stereotaxically through the holes in the skull and placed into selected areas of the brain (target points). X-rays are used to verify the placement of the electrodes. The wires from the electrodes extend through the scalp and are attached directly to the stimulator. If the stimulation is not effective when current is applied, the electrodes are moved to target points that are effective. Alternatively, new electrodes may be inserted. When effective stimulation is achieved, a second operation is performed under general anesthesia to implant the receiver and the lead wires.

Complications may occur because of these surgical procedures. Because implantation surgery involves the brain, the complications are usually serious. Inserting an electrode into the brain can puncture blood vessels. Intraventricular hemorrhage has been reported in up to 5 percent of patients (Refs. 12, 17, 25, and 26). Several authors have reported infections, including meningitis, in 3 to 4 percent of their patients (Refs. 2, 12, 17, and 26). Richardson and Akil, however, reported meningitis in 3 of 30 patients (10 percent) (Ref. 31). An additional patient in this group had an "infected device." Ray and Burton, in a series of 22 patients, reported 1 death during surgery, but did not give any information about the rate of infection (Ref. 28).

Electrode migration. Implanted electrodes can spontaneously move from their original position, or they can be dislodged by a blow to the head. Electrode movement may cause damage to brain tissue or produce stimulation of other areas of the brain which may result in undesirable neurological effects. Additional surgical procedures may be required to remove and replace or to reposition electrodes that have moved from the original target points.

Several authors have reported electrode migration in 2 to 17 percent of their patients (Refs. 2, 12, 17, 25, 28, 28, 31, 33, and 37). Turnbull et al. reported electrode dislodgement in 3 of 18 patients (17 percent) (Ref. 37). In one of these patients, dislodgement resulted in aberrant motor responses, permanent sensory deficits, and seizures.

Tolerance. Tolerance to stimulation may develop (Refs. 17, 23, 26, and 31) and has been reported to occur in 30 percent of patients in whom the device was implanted (Ref. 35). Such patients require ever-increasing periods of stimulation to relieve their pain. Continuous stimulation has been reported to cause damage to brain tissue (Ref. 20).

Patients who become tolerant to deep brain stimulation will also demonstrate tolerance to pharmacological opiates. When such tolerance occurs, the patient will not be able to relieve his or her pain with electrical stimulation or with narcotic analgesics. There is evidence, however, that discontinuance of stimulation for a period of time in conjunction with oral administration of L-tryptophan may reverse this tolerance (Refs. 16, 19, 28, 30, and 35).

Skin erosion. Erosion of the skin can occur in the scalp over the area where the electrodes exit from the cranium or can occur over the site of the receiver.

Erosion has been stated by Shiner to be a significant problem (Ref. 35). Adams and Hosobuchi consider erosion of hardware through the scalp to be the most troublesome source of infection (Ref. 2). They reported that scalp erosion necessitated removal of the entire device in 3 of 39 patients (8 percent).

Cerebrospinal fluid leakage. Cerebrospinal fluid (CSF) may leak out where electrode wires pass through the dura. CSF leakage is a risk common to devices implanted in the central nervous system (Refs. 10, 11, and 20). CSF leakage requires reoperation to correct the condition.

Tissue toxicity. The surface material of the implanted receiver, lead wires, or electrodes may not be biocompatible. There have not been any reports of patient injuries due to improper materials used in the device. Although the types of materials used in the device are generally thought to be biocompatible, it is possible that contaminants may be introduced during the manufacture of the device, or that some of the materials may have

VOL
50
ISS
143
JL
25
1985
UMI

unknown constituents that can cause subtle changes that have not been recognized in the reported studies.

Benefits of the Device

The implanted intracerebral/subcortical stimulator for pain relief has been reported to provide relief from peripheral chronic pain syndromes resulting from carcinomas, failed low backs, nerve entrapments, and phantom limb syndromes (Refs. 8, 14, 17, 25, 26, 28, 31, 32, 35, and 37). Cooper et al. treated six patients and reported that deep brain stimulation may reverse chronic neurologic deficits such as hemiparesis, dystonia, torticollis, tremor, speech impairments, and epilepsy (Ref. 9). Heath et al. reported using up to 125 stainless steel or silver ball electrodes per patient in 75 patients with schizophrenia, epilepsy, depression, Parkinson's disease, narcolepsy, and intractable pain of various etiologies; clinical results, however, were not discussed (Ref. 15).

Some investigators have reported successful treatment of pain of central origins, e.g., thalamic syndromes, brain stem infarction, and spinal cord injury (Refs. 25 and 32). Other authors, however, have concluded that the device is probably not beneficial in treating central pain (Refs. 26, 29, and 39).

The most frequently used stimulation targets are the periventricular gray region near the posterior wall of the third ventricle, the periaqueductal gray region, and the sensory nuclei of the thalamus. Following the discovery that naloxone would reverse stimulation-produced analgesia, Akil et al. demonstrated that endogenous opiates are released into the fluid of the third ventricle following stimulation of the periventricular gray region (Refs. 6 and 7). Further, Hosobuchi et al. demonstrated a 50 to 300 percent increase in *Beta*-endorphins with stimulation of the periaqueductal gray region (Ref. 18).

Although electrical stimulation of both the periaqueductal gray and periventricular gray matter appears to produce opiate-mediated analgesia, stimulation in these areas may produce unpleasant or intolerable side effects. For example, Richardson and Akil observed that stimulation of periaqueductal gray matter may produce feelings of smothering, blurred vision, nausea, or vertigo (Refs. 30, 32, and 33). Thoden et al. discovered that stimulation of the medial thalamus may produce unpleasant paresthesias, headache, increased pain, or nausea (Ref. 36). Some researchers have reported pain relief with stimulation within the internal capsule (Refs. 2, 3, and 17), although there is not any indication that endogenous opiates are produced when this area is stimulated (Refs. 18, 23, and 38).

Reports on the incidence of beneficial effects from electrical stimulation of the brain vary greatly. Success rates of 70 to 80 percent were reported in studies conducted by Richardson and Akil (Ref. 33), Plotkin (Ref. 26), Turnbull et al. (Ref. 37), Mundinger and Salamao (Ref. 25), and Ray and Burton (Ref. 28), whereas Gybels reported only one "good" result in eight patients (Ref. 13). Gybels et al. later reported one "good" result in a series of five patients (Ref. 14). Criteria for assessing patient improvement are not consistent from study to study, and many authors do not describe patient evaluation methods. For these reasons, the success rates reported in various studies may not be comparable.

It has been shown that the location of the stimulating electrode is critical (Ref. 1), and it was initially suggested that the discrepancy between Gybels' results in five patients (Ref. 14) and the results reported in other studies could be explained by small differences in electrode position. However, Gybels et al. obtained autopsy material from the five patients on which they reported in 1980 (Ref. 14). Anatomical and pathological examinations revealed that the electrodes were accurately positioned in the target points in four of these five patients; yet only one of the five patients had obtained good pain relief during the study.

Patient selection. Patient selection is an important factor in predicting benefit from the implanted intracerebral/subcortical stimulator for pain relief. Several investigators used a morphine saturation test to screen potential patients. Plotkin reports that if morphine produces analgesia in a patient, and naloxone reverses the effect, there is a good probability that the patient will benefit from deep brain stimulation (Ref. 26). Plotkin's report of successful treatment of 38 of 48 patients tends to support this position. Seven of the 10 patients whose treatment was unsuccessful had not been screened by the morphine test. When they were tested after failing at deep brain stimulation, the responses of all seven patients indicated that they were not good candidates for the procedure.

Discussion of Risks and Benefits

The electrodes of the implanted intracerebral/subcortical stimulator for pain relief have to penetrate the brain. Published reports indicate that there is a substantial risk of hemorrhage which could result in death or physical disruption of brain tissue. In turn, such disruption could resutl in permanent neurological deficits such as seizures, hemiparesis, visual impairment, emotional changes, nausea, vertigo, or undesirable paresthesias. Meningitis has been reported as a serious complication of the procedure. Migration of the electrodes from the original target area can render the device ineffective and may damage other brain tissue. As a result, additional surgery may be required to replace, remove, or reposition the electrodes.

It cannot be determined from the published literature whether the stimulation current being applied with the device is safe for neural tissue. Coagulation of brain tissue and production of lesions in target points have been reported to be the result of continuous electrical stimulation with the intracerebral/subcortical stimulator for pain relief.

Although several authors have attempted to explain the highly variable clinical results obtained with the device, the question of the effectiveness of the device has not been resolved (Refs. 8 and 14). Animal studies have revealed a number of areas in the brain which could produce analgesia (Refs. 1, 4, 5, 21, and 22). Published reports, however, indicate that there is not any consensus as to which target point, when stimulated, will provide the best pain relief. Meyerson reports that the medio-basal part of the posterior thalamus is the preferred site (Ref. 23). Thoden et al. prefer the medial thalamus (Ref. 36). Plotkin and others have found that periventricular gray matter provides the best pain relief (Refs. 12, 26, 30, and 33). Adams and Hosobuchi have used the internal capsule (Ref. 2). Hosobuchi now favors use of the periaqueductal gray matter (Ref. 16), even though Richardson concluded in 1977 that stimulation of this area produced noxious and intolerable side effects (Ref. 30).

Plotkin as well as Richardson has concluded that pain secondary to the damaged central nervous system or deafferentation (e.g., thalamic syndromes) does not respond well to deep brain stimulation (Refs. 26 and 29). Adams, however, reports that thalamic or pseudothalamic syndrome or paraplegia pain is relieved by this treatment (Ref. 3). Two investigators reported effective treatment of conditions other than intractable chronic pain with deep brain stimulation (Refs. 6 and 7). These findings have not been reported by others.

FDA believes that use of the implanted intracerebral/subcortical stimulator carries a significant risk of hemorrhage and permanent damage to brain tissue which can result in permanent, debilitating, or fatal neurological complications. This risk appears to be inherent in the implantation procedure. Damage to brain tissue caused by the stimulating current has been reported, and FDA believes that proper stimulation parameters for the device have not been established. Damage to brain tissue also has been reported as a result of electrode migration. Although two small studies, each with five patients, indicate that histological damage resulting from the physical presence of the electrode may be minor, FDA believes that additional pathological data are required to determine the probable extent of tissue reaction.

Published reports indicate that the implanted intracerebral/subcortical stimulator may provide pain relief for selected patients, but that the device may not be suitable for treating certain patients or all types of pain. FDA believes that additional data are required to explain the variable clinical results obtained to date with the device.

FDA classified the implanted intracerebral/subcortical stimulator for pain relief into class III because insufficient information existed to determine that general controls would provide reasonable assurance of the safety and effectiveness of the device or to establish a performance standard to provide such assurance. FDA has weighed the probable benefits to health from the use of the device and believes that the studies discussed throughout this document present evidence of significant risks associated with the use of the device and raise questions about whether probable benefits from use of the device outweigh the risk of illness or injury from such use. Accordingly, FDA believes that the implanted intracerebral/subcortical stimulator for pain relief should undergo premarket approval to establish conditions of use that will minimize risks to patients and to determine whether the risks of using the device are balanced by the benefits to the patient.

Opportunity to Request a Change in Classification

Before requiring the filing of a PMA or a notice of completion of a PDP for a device, FDA is required by section 515(b)(2)(A)(iv) of the act and § 860.132 of FDA's regulations governing classification of devices (21 CFR 860.132) to provide an opportunity for interested persons to request a change in the classification of the device based on new information relevant to its classification. The legal standard governing reclassification under section 513(e) of the act and § 860.123 is discussed in detail in the preambles to FDA's proposed rules to reclassify daily wear spherical contact lenses consisting of rigid gas permeable plastic materials and daily wear optically spherical (soft) contact lenses from class III into class I (47 FR 53402, 53411; November 26, 1982).

A request for a change in the classification of the implanted intracerebral/subcortical stimulator for pain relief is to be in the form of a reclassification petition containing the information required by § 860.123, including new information relevant to the classification of the device, and shall, under section 515(b)(2)(B) of the act, be submitted by August 9, 1985.

The agency advises that to assure timely filing of any such petition, any request should be submitted to the Dockets Management Branch (address above) and not to the address provided in § 860.123(b)(1). If a timely request for a change in classification of the implanted intracerebral/subcortical stimulator for pain relief is submitted, the agency will by September 23, 1985, after consultation with the appropriate FDA advisory committee and by an order published in the Federal Register, either deny the request or give notice of its intent to initiate a change in the classification of the device in accordance with section 513(e) of the act and § 860.130 of the regulations.

Environmental Impact

The agency has determined under 21 CFR 25.24(a)(8) (April 26, 1985; 50 FR 16636) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Economic Impact

FDA has examined the economic consequences of this proposed rule in accordance with the criteria in section 1(b) of Executive Order 12291 and has found that the proposal would not be a major rule as specified in the Order. The agency believes that only three small firms will be affected by this proposed rule. Therefore, the agency certifies under the Regulatory Flexibility Act (Pub. L. 96–354) that the proposed rule would not have a significant economic impact on a substantial number of small entities. An assessment of the economic impact of any final rule based on this proposal has been placed on file in the Dockets Management Branch (address above) and may be seen by interested persons between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 882

Medical devices, Neurological devices.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that Part 882 be amended as follows:

PART 882—NEUROLOGICAL DEVICES

1. The authority citation for 21 CFR Part 882 is revised to read as follows:

Authority: Secs. 513, 701(a), 52 Stat. 1055, 90 Stat. 540–546 (21 U.S.C. 360c, 371(a)); 21 CFR 5.10; §§ 882.5820(c) and 882.5840(c) also issued under secs. 501, 515, 520(g), 52 Stat. 1049–1050 as amended, 90 Stat. 552–559, 569–571 (21 U.S.C. 351, 360e, 360j(g)).

2. In § 882.5840 by adding a new paragraph (c), to read as follows:

§ 882.5840 Implanted intracerebral/subcortical stimulator for pain relief.

* * * * *

(c) *Date premarket approval application (PMA) or notice of completion of a product development protocol (PDP) is required.* A PMA or a notice of completion of a PDP is required to be filed with FDA on or before (date to be 90 days after date of promulgation of final rule) for any implanted intracerebral/subcortical stimulator for pain relief that was in commercial distribution before May 28, 1976, or that has on or before (date to be 90 days after date of promulgation of final rule) been found to be substantially equivalent to an implanted intracerebral/subcortical stimulator for pain relief that was in commercial distribution before May 28, 1976. Any other implanted intracerebral/subcortical stimulator for pain relief shall have an approved PMA or a declared completed PDP in effect before being placed in commercial distribution.

Interested persons may, in or before September 23, 1985, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Interested persons may, on or before August 9, 1985, submit to the Dockets Management Branch written requests to change the classification of the implanted intracerebral/subcortical stimulator for pain relief. Two copies of any requests are to be submitted, except that individuals may submit one copy. Comments or requests are to be identified with the docket number found in brackets in the heading of this document. Received comments and requests may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 26, 1985.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 85–17652 Filed 7–24–85; 8:45 am]

BILLING CODE 4160–01–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 950

Proposed Modifications to the Wyoming Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Reopening of public comment period.

SUMMARY: OSM is reopening the period for review and comment on modified portions of the Wyoming permanent regulatory program. On November 28, 1984 (49 FR 46755), OSM announced a public comment period and procedures for requesting a public hearing on the substantive adequacy of a proposed amendment to the Wyoming permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977 (SMCRA) submitted by Wyoming on October 2, 1984. The amendment submitted by Wyoming consisted of proposed provisions to implement a blaster training, examination and certification program as required by 30 CFR Part 850. OSM is reopening the comment period to allow the public an opportunity to comment on revised material relating to the proposed amendment submitted by Wyoming on July 2, 1985.

DATE: Written comments not received on or before 4:00 p.m. on August 26, 1985 will not necessarily be considered.

FOR FURTHER INFORMATION CONTACT: Mr. William Thomas, Director, Casper Field Office, Office of Surface Mining Reclamation and Enforcement, Freden Building, 935 Pendell Boulevard, Mills, Wyoming 82644; Telephone: (307) 261–5824.

ADDRESSES: Written comments should be mailed or hand delivered to Mr. William Thomas, Director, Casper Field Office, Office of Surface Mining, Freden Building, 935 Pendell Boulevard, Mills, Wyoming 82644.

Copies of the revised material submitted by Wyoming and other relevant documents are available for review at the Casper Field Office and the Office of the State regulatory authority listed below, Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding holidays. Each requestor may receive, free of charge, one single copy of the proposed amendment by contacting the OSM Casper Field Office listed above or one of the following:

Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 5124, 1100 "L" Street, NW., Washington, D.C. 20240

Wyoming Department of Environmental Quality, Land Quality Division, Herschler Office Building, 122 W. 25th Street, Cheyenne, Wyoming 82002

SUPPLEMENTARY INFORMATION: The general background on the permanent regulatory program, the State program approval process, the Wyoming program, and the conditional approval can be found in the Secretary's Findings and conditional approval published in the November 26, 1980 Federal Register (45 FR 78637).

On October 12, 1984, the State of Wyoming submitted to OSM an amendment to its approved permanent regulatory program. The amendment submitted by the Wyoming Department of Environmental Quality, Land Quality Division was proposed provisions to implement a blaster training, examination and certification program as required by 30 CFR Part 850.

The November 28, 1984 Federal Register announced receipt of the proposed modification by OSM as well as a public comment period. In that some notice, OSM announced that a public hearing would be held only if requested. No requests were received and no hearing was held.

On March 5, 1985, the State of Wyoming was notified of three issues that were identified as a result of OSM's review of the October 12, 1984 submission. The three areas of concern were as follows: Improper use of an oral examination to test certain potential blasters; inadequate provisions concerning the blasters responsibility to maintain certification; and a typographical error.

In the course of revising the proposed blaster certification program, the State of Wyoming received additional comments as a result of the State's public comment period. The comments necessitated revisions to the proposed regulations which required concurrance by the Wyoming Environmental Quality Council (EQC). Due to the above development, the State, on April 2, 1985, requested that OSM delay action on processing the Wyoming blaster certification amendment until EQC approval was granted.

On July 2, 1985, Wyoming submitted a revised blaster certification program in response to OSM's concerns of March 5, 1985, and comments received during the State's public comment period. The revised material is intended to replace the material submitted to OSM on October 12, 1984. Therefore, OSM is reopening the comment period in order to allow the public an opportunity to review and comment on the revised material submitted to OSM by the State on July 2, 1985.

Specifically, OSM is seeking comment on whether the revised program amendment submitted by Wyoming on July 2, 1985, satisfies the criteria for approval of State program amendments at 30 CFR 732.15 and 732.17 and is no less effective than the Federal regulations.

List of Subjects in 30 CFR Part 950

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Dated: July 19, 1985.

Carl C. Close,

Acting Assistant Director, Program Operations and Inspection.

BILLING CODE 4310–05–M

DEPARTMENT OF DEFENSE

Department of the Air Force

32 CFR Part 806b

[Air Force Regulation 12–35]

Privacy Act of 1974; Air Force Privacy Act Program

AGENCY: Department of the Air Force (DAF), DOD.

ACTION: Proposed rule.

SUMMARY: The Air Force proposes two new general exemption rules to be added to the existing exemption rules for its systems of records to the Privacy Act of 1974. These new rules are for system F125 AF A, Correction and Rehabilitation Records, for that portion located at the 3320th Correction and Rehabilitation Squadron, and system F125 ATC A, Management Information and Research System (MIRS). Notices for these systems were published in the Federal Register on 21 June 1985 beginning at 50 FR 25745. An exemption is needed since these records pertain to individuals who are in confinement or rehabilitation at an Air Force or Federal correctional facility as a result of conviction by courts martial for violation of federal law. These exemptions will only be applicable during the period the individual is in confinement or rehabilitation.

DATE: Comments must be received on or before August 26, 1985.

ADDRESS: Comments should be sent to HQ USAF/DAQD, Pentagon, Washington, DC 20330–5024.

FOR FURTHER INFORMATION CONTACT: Mr. Jon Updike, HQ USAF/DAQD(S), the Pentagon, Washington, DC, telephone: (202) 694–3431.

SUPPLEMENTARY INFORMATION: These systems of records, which contain law enforcement, confinement and rehabilitation records, will be exempted from certain portions of the Privacy Act of 1974, Title 5, United States Code, section 552a(j)(2), but only for the period while the individual is confined or in rehabilitation under the jurisdiction of the 3320th Correction and Rehabilitation Squadron.

List of Subjects in 32 CFR Part 806b

Privacy.

PART 806b—AIR FORCE PRIVACY ACT PROGRAM

This proposed amendment, if adopted will revise 806b.10 of Title 32, CFR to read as follows:

VOL 50 ISS 143 JL 25 1985 UMI

§ 806b.10 General and specific exemptions claimed.

(a) General Exemptions. The following systems of records are exempt under 5 U.S.C. 552a(j)(2):

(1) Counterintelligence Operations and Collections Records, F124 AF A.

(2) Criminal Records, F124 AF C.

(3) Incident Investigation Files, F125 AF SP E.

(4) Investigative Support Records, F124 AF D.

(5) Correction and Rehabilitation Records, F125 AF A (that portion maintained by the 3320th Correction and Rehabilitation Squadron, but only for the period the individual is confined or in rehabilitation at an Air Force or Federal correctional facility).

(6) Management Information and Research System (MIRS), F125 ATC A (but only for the period the individual is confined or in rehabilitation at an Air Force or Federal correctional facility).

Patricia H. Means,

OSD Federal Register Liaison Officer, Department of Defense.

July 22, 1985.

BILLING CODE 3810-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD 8-85-14]

Drawbridge Operation Regulation; Tickfaw River, LA

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Louisiana Department of Transportation and Development (LDOTD), the Coast Guard is considering a change to the regulation governing the operation of the swing span bridge over the Tickfaw River, mile 7.2 on LA22 at Killian, Livingston Parish, Louisiana. The change would require that at least four hours advance notice be given for an opening of the draw between 11 p.m. and 7 a.m. Outside these hours, the bridge would continue to open on signal. Presently, the draw is required to open on signal at all times. This proposal is being made because of the infrequent requests for opening the draw during the proposed advance notice period. This action should relieve the bridge owner of the burden of having a person constantly available at the bridge to open the draw from 11 p.m. to 7 a.m., while still providing for the reasonable needs of navigation.

DATE: Comments must be received on or before September 9, 1985.

ADDRESS: Comments should be mailed to Commander (obr), Eighth Coast Guard District, 500 Camp Street, New Orleans, Louisiana 70130. The comments and other materials referenced in this notice will be available for inspection and copying in Room 1115 at this address. Normal office hours are between 8:00 a.m. and 3:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Perry Haynes, Chief, Bridge Administration Branch, at the address given above, telephone (504) 589-2965.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgment that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Eighth Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. This proposed regulation may be changed in the light of comments received.

Drafting Information

The drafters of this notice are Perry Haynes, project officer,and Steve Crawford, project attorney.

Discussion of Proposed Regulation

Vertical clearance of the bridge in the closed position is 5.0 feet above high water and 6.9 feet above water. Navigation through the bridge consists of shrimp/fish boats, pleasure craft and houseboats. Data submitted by the LDOTD show that this traffic through the bridge is infrequent during the proposed advance notice period, as follows:

(1) In 1984, between 11 p.m. and 7 a.m., the proposed advance notice period, there were 48 bridge openings—an average of 4.0 openings per month or an average or one opening every eight days. In 1983, for the same time period, there were 52 bridge openings—an average of one opening every seven days.

Considering the few openings involved, the Coast Guard feels that the current on site attendance at the bridge between 11 p.m. and 7 a.m. is not warranted and that the bridge can be placed on four hours advance notice for an opening during that period. This will provide relief to the bridge owner, while still providing for the reasonable needs of navigation. Outside this eight hour period, the bridge would continue to open on signal.

The advance notice for opening the draw would be given by placing a collect call at any time to the LDOTD District Office in Hammond, Louisiana, telephone (504) 345-7390. From afloat, this contact may be made by radiotelephone through a public coast station.

The LDOTD recognizes that there may be an unusual occasion to open the bridge on less than four hours notice for an emergency or to operate the bridge on demand for an isolated but temporary surge in waterway traffic, and has commited to doing so if such an event should occur.

Economic Assessment and Certification

This proposed regulation is considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034: February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. The basis for this conclusion is that very few vessels pass this bridge during the proposed advance notice period, as evidenced by the 1984 and 1983 opening statistics which show that between 11 p.m. and 7 a.m. the bridge averaged one opening about every seven or eight days. These few vessels can reasonably give four hours advance notice for a bridge opening by placing a collect call to the bridge owner at any time. Mariners requiring the bridge openings are mainly repeat users of the waterway and scheduling their arrival at the bridge at the appointed time during the proposed advance notice period should involve little or no additional expense to them. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 117

Bridges.

Proposed Regulation

In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46 and 33 CFR 1.05-1(g).

2. Section 117.506 is revised to read as follows:

§ 117.506 Tickfaw River.

The draw of the S22 bridge, mile 7.2 at Killian, shall open on signal; except that, from 11 p.m. to 7 a.m. the draw shall open on signal if at least four hours notice is given. During the advance notice period, the draw shall open on less than four hours notice for an emergency and shall open on signal should a temporary surge in waterway traffic occur.

Dated: July 12, 1985.

Clyde T. Lusk, Jr.,

Rear Adminral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

[FR Doc. 85-17699 Filed 7-24-85; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 117

[CGD 1-85-3R]

Drawbridge Operation Regulations; Charles River, MA

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: Existing regulations require that the highway bridge at mile 1.0 and the railroad bridge at mile 0.8 be opened on signal, except that between 6:15 a.m. and 9:10 a.m. and between 4:15 p.m. and 7:40 p.m., except Sundays and legal holidays observed in the locality, the draws need not be opened for the passage of vessels. The proposed amendment would fix the afternoon closure period between 3:15 p.m. and 6:30 p.m. for the highway bridge and between 4:15 p.m. and 6:30 p.m. for the railroad bridge.

DATE: Comments must be received on or before September 9, 1985.

ADDRESS: Comments should be submitted to and will be available for examination between 8:00 a.m. and 4:00 p.m., Monday through Friday, except holidays, at the Office of the Commander (or), First Coast Guard District, 150 Causeway Street, Boston, MA, 02114-1396 (617-223-0645).

FOR FURTHER INFORMATION CONTACT: William J. Naulty, Chief, Bridge Branch, First Coast Guard District, Boston, MA 02114 (617-223-0645).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their name and address, identifying the bridge and give reasons for their concurrence with or for any recommended change in the proposal.

The Commander, First Coast Guard District will evaluate all comments received and decide on the final course of action. The proposed regulations may be changed in light of the comments received.

Drafting Information: The principal persons involved in drafting this proposal are: William J. Naulty, Chief Bridge Branch, First Coast Guard District, and Lieutenant Commander James M. Collin, Project Attorney, Assistant Legal Officer, First Coast Guard District.

Discussion of Proposed Regulations: The time of peak afternoon vehicular traffic over the Metropolitan District Commission's Msgr. McGrath Highway bridge occurs between 3:15 p.m. and 6:30 p.m. The existing afternoon closure period for the bridge (4:15 p.m. to 7:40 p.m.) is no longer effective as the bridge must be opened for navigation during the first hour of the peak traffic period. Railroad operations peak between 4:30 p.m. and 6:30 p.m. This is a shorter period than the closure permitted by existing regulations (4:15 p.m. to 7:40 p.m.).

The proposed amendment would shorten the closure periods of the highway and the railroad bridge and increase the unrestricted use of the waterway for the boating interests on the Charles River.

Economic Assessment and Certification: These proposed regulations have been reviewed under the provision of Executive Order 12291 and have been determined not to be a major rule. In addition, these proposed regulations are considered to be nonsignificant in accordance with guidelines set out in Policies and Procedures for Simplification, Analysis and Review of Regulations (DOT Order 2100.5 of 5-22-80). As explained above, an economic evaluation has not been made since its impact is expected to be minimal. In accordance with sec. 605(b) of the Regulatory Flexibility Act, it is certified that these rules, if promulgated, would not have a significant economic impact on a substantial number of small entities.

Bridges

Proposed Regulations: In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33 Code of Federal Regulations as follows:

PART 117—DRAWBRIDEGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499, 49 CFR 1.46, and 33 CFR 1.05-1(g).

2. Section 117.591 is amended by revising paragraphs (c) and (e) to read as follows:

§ 117.591 Charles River.

* * * * *

(c) The draws of the Massachusetts Bay Transportation Authority railroad bridge, mile 0.8 at Boston, shall open on signal; except that from 6:15 a.m. to 9:10 a.m. and 4:15 p.m. to 6:30 p.m., excluding Sundays and legal holidays observed in the locality, the draws need not be opened for the passage of vessels.

* * * * *

(e) The draw of the Metropolitan District Commission bridge, mile 1.0 at Boston, shall open on signal; except that, from 6:15 a.m. to 9:10 a.m. and 3:15 p.m. to 6:30 p.m. excluding Sundays and legal holidays observed in the locality, the draw need not be opened for the passage of vessels.

Vol. 50, No. 143
Thursday, July 25, 1985

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Land Uses; Permits for Electric Power Transmission

Notice of decision to grant easement for power line construction through the Cleveland National Forest. This decision is effective July 18, 1985. Notice of Availability of the FEIS (EIS No. 830608) was published in the Federal Register Vol. No. 228, page 53163, Friday, November 25, 1984.

The Regional Forester for the Pacific Southwest Region of the United States Forest Service, Department of Agriculture, has issued a decision to grant an easement to the Southern California Edison Company (SCE) across National Forest lands in Orange and Riverside counties in California, for the purpose of constructing, operating, and maintaining a proposed 500 KV power transmission line from Valley Substation near Hemet, California to Serrano Valley Substation near Orange, California.

Record of Decision, Forest Service, Pacific Southwest Region, Davers-Valley 500 KV, Serrano-Valley 500 KV and Serrano-Villa Park 220 KV Transmission Line Project, Cleveland National Forest, Orange and Riverside Counties, California

Decision

This is my decision to grant an easement to the Southern California Edison Company (SCE) across National Forest lands for the purpose of constructing, operating, and maintaining a 500 KV power transmission line from Valley Substation near Hemet, California to Serrano Substation near Orange, California. This decision is in response to an application for an easement submitted by SCE on November 5, 1981 (CPUC A 59982) and is based on public need as demonstrated by the SCE, and as reported in a joint environmental impact statement/report (FEIS/FEIR) prepared by the California Public Utilities Commission (CPUC) and the Forest Service dated August, 1984. The right-of-way is 6.56 miles in length and includes 127.4 acres of National Forest land.

The Valley-Serrano line is a portion of a 500 KV line that is planned for construction from Devers Substation in Riverside County to Serrano Substation in Orange County. Within the Valley-Serrano portion of the line potentially crossing National Forest lands, four basic alternative corridors were analyzed, plus the alternative of not permitting a power transmission corridor. The corridors are identified as the Canyon, Proposed, Buildable and the Hoeger routes. Detailed descriptions and maps illustrating the alternatives may be found in the FEIS/FEIR, and the Decision and Order issued by the CPUC on October 3, 1984. The CPUC, in responding to the SCE application for a license for powerline construction, has joined with the Forest Service in conducting the environmental analysis on National Forest lands. Following the State of California administrative process regarding licensing for powerlines, the CPUC has issued a Decision and Order (October 3, 1984) for a license to SCE for the CPUC Environmentally Preferred route, which includes the Proposed alternative across the Cleveland National Forest.

The Proposed alternative was considered the best and environmentally preferred alternative, when compared with the others because:

1. The Canyon route had fire safety and geologic problems so severe that they were considered factors of overriding concern. While there were some positive benefits to this route from the standpoint of reduced conflict with proposed developments and aesthetics, the overriding concerns make it an unacceptable alternative.
2. The Proposed route is preferred over both the Hoeger and Buildable routes because the Hoeger and Buildable routes both parallel Santiago Canyon, a visually sensitive area.
3. The Proposed route is preferred over the Hoeger and Buildable routes because it affects less structures, particularly in the zones nearest the powerline.
4. Even though the Hoeger and Buildable avoid much of the western edge of the Temescal Valley, the Proposed route is preferred because it would significantly affect fewer existing and pending land use developments than the other routes.
5. The Proposed route has fewer severe impacts on visually sensitive areas than the Hoeger or Buildable routes and is therefore preferrable from the standpoint of aesthetics.
6. The proposed route crosses fewer miles and impacts fewer acres of National Forest land than either the Hoeger or Buildable routes.

The Proposed route is the best and environmentally preferred alternative, but the Forest Service considers both the Proposed and Buildable routes as acceptable when related solely to effects on National Forest land. The CPUC, as a result of their procedure to determine the best overall route, have certified the Proposed route. Granting a right-of-way across National Forest lands on the Proposed route is consistant with the license issued by the CPUC, and with National Forsest Land Use Plans.

Copies of the Final Environmental Statement are available for review at the CPUC Offices, 350 McAllister St., Room 5060, San Francisco, CA 94102 and in Los Angeles at 107 South Broadway; Forest Service offices in Corona, San Diego, and San Francisco; at the SCE business offices in the vicinity of the proposed project; and at public libraries in Riverside and Orange Counties.

All practical means to mitigate environmental effects on National Forest resources have been identified and disclosed in the FEIS/FEIR. The location of the corridor per ae, within and adjacent to the National Forest, is a primary mitigation action. Within the corridor on National Forest land, exact tower siting, use of helicopters for construction and maintenance (in lieu of building roads for access), and use of non-specular materials mitigate key watershed and visual effects. Mitigation measures identified in the FEIS/FEIR will be required as a condition of the right-of-way document.

This decision is subject to administrative review in accordance with the provisions of 36 CFR 211.18.

The right-of-way will be granted no sooner than August 30, 1985.

Dated: July 18, 1985.

Zane G. Smith, Jr.,

Regional Forester, Pacific Southwest Region.

BILLING CODE 3410-11-M

Sawtooth National Recreation Area Wilderness Study Area; Report Hearing Announcement

Notice is hereby given that a public hearing will be held, beginning at 7:30 p.m., August 29, 1985, at the Canyon Springs Inn, 1357 Blue Lakes Blvd. North Twin Falls, Idaho. The hearing concerns a proposal for future management of approximately 390,000 acres of undeveloped and unimproved area within the Sawtooth National Recreation Area, Sawtooth National Forest. The area is within Custer, Blaine, and Boise Counties in the State of Idaho.

A description of the proposal is contained within the Draft Environmental Impact Statement for the Sawtooth National Forest Land and Resource Management Plan, which can be obtained from the Forest Supervisor.

The public hearing is being held in addition to five public meetings on the Plan to meet the requirements of Pub. L. 92-400, which established the Sawtooth National Recreation Area in 1972.

Individuals and organizations may express their views orally at the hearing, or may submit written comments by October 5 for inclusion in the official record. Written comments should be sent to the Forest Supervisor at 1525 Addison Avenue East, Twin Falls, Idaho 83301, (208) 737-3200.

Dated: July 15, 1985.

William H. McCrum,

Deputy Regional Forester Administration.

BILLING CODE 3410-11-M

Proposed Rock Creek/Muddy Creek Reservoir Site, Routt National Forest, CO, Intent To Prepare an Environmental Impact Statement

In response to receipt of a Special Use Application from the Colorado River Water Conservation District, the U.S. Department of Agriculture, Forest Service, will prepare an Environment Impact Statement (EIS) for a proposal to construct and operate a reservoir on the Yampa Ranger District of the Routt National Forest. Agency scoping meetings have identified alternate sites located on private and Bureau of Land Management lands near Kremmling, Colorado.

At present, 5 alternatives will be studied in detail in the EIS. These are:

(1) No Action.

(2) Muddy Creek Site near Kremmling, Colorado, with 100,000 acre feet total storage capacity and 2,100 surface acres.

(3) Muddy Creek Site near Kremmling, Colorado, with 40,000 acre feet total storage capacity and 1,050 surface acres.

(4) Rock Creek Site near Gore Pass on State Highway 134 with 54,000 acre feet total storage capacity and 1,150 surface acres.

(5) Rock Creek Site near Gore Pass on State Highway 134 with 70,000 acre feet total storage capacity and 1,350 surface acres.

The Bureau of Land Management, Bureau of Reclamation, Army Corps of Engineers, and the Colorado Division of Wildlife are cooperating agencies in the preparation of this Environmental Impact Statement. Additional cooperating agencies may be named. Other Federal, State, and local agencies; potential developers; and other individuals or organizations who may be interested in or affected by the decision will be invited to participate in the scoping process. This process will include:

1. Identification of potential issues.
2. Identification of issues to be analyzed in depth.
3. Elimination of insignificant issues or those which have been covered by a previous environmental review.
4. Determination of potential cooperating agencies and assignment of responsibilities.

The Forest Supervisor will hold public meetings at the following locations:

Wednesday, July 31, 1985, 7:30 p.m., Kremmling, CO., Community Fair Grounds, east end of town just off Highway 40 in large white metal building

Thursday, August 1, 1985, 7:30 p.m., Yampa, CO., Ladies Aid Hall, 1 block east of library

Friday, August 2, 1985, 3:00 p.m., Lakewood, CO., Denver Federal Center, 6th Ave. & Kipling, Building 20, Bureau of Reclamation Conference Room, 2nd floor, Corridor E 2400.

Jack Weissling, Forest Supervisor, Routt National Forest, is responsible for environmental analysis and documentation on the project and will be the responsible official if a special use permit is issued for a site on the Routt National Forest.

James Torrence, Regional Forest, Rocky Mountain Region, will be the responsible official for an authorizing easement provided the site is on National Forest System lands.

Knnon Richards, State Director, Bureau of Land Management, will be the responsible official for an authorizing easement provided the site is located on public lands.

The draft EIS is expected to be completed by June 1986 ready for public review. The final EIS is scheduled to be completed by November of 1986.

Written comments should be sent to Jack Weissling, Forest Supervisor, Routt National Forest, 29587 West U.S. 40, Suite 20, Steamboat Springs, Colorado 80487, by August 31, 1985.

Questions about the proposed action and EIS should be directed to Jim Jaminet, Recreation and Lands Forester, Routt National Forest, Yampa Ranger District, phone 303-638-4516.

Dated: July 19, 1985.

Jack Weissling,

Forest Supervisor, Routt N.F.

Canned Tuna From the Philippines; Final Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Final results of Administrative Review of Countervailing Duty Order.

SUMMARY: On March 8, 1985, the Department of Commerce published the preliminary results of its administrative review of the countervailing duty order on canned tuna from the Philippines. The review covers the period August 1, 1983, through December 31, 1983, and 22 programs.

We gave interested parties an opportunity to comment on the preliminary results. After considering all of the comments received, we determine the total bounty or grant during the period of review to be 0.23 percent *ad valorem*, a rate the Department considers to be *de minimis*.

EFFECTIVE DATE: July 25, 1985.

FOR FURTHER INFORMATION CONTACT: Peggy Clarke or Christopher Beach, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On March 8, 1985, the Department of Commerce ("the Department") published in the Federal Register (50 FR 9474) the preliminary results of its administrative review of the countervailing duty order on canned tuna from the Philippines (48 FR 50134, October 31, 1983). The Department has

VOL
50
ISS
143
JL
25
1985
UMI

now completed that administrative review, in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of Review

Imports covered by the review are shipments of Philippine tuna packed and preserved in any manner, not in oil, in airtight containers. Such merchandise is currently classifiable under items 112.3020, 112.3040, and 112.3400 of the Tariff Schedules of the United States Annotated.

The review covers the period August 1, 1983, through December 31, 1983, and 22 pregrams: (1) An exemption from import taxes (Article 48(f) of the Ornibus Investments Code); (2) an income tax deduction for labor and raw materials (Aritticle 48(b) of the Code); (3) tax credit for indirect taxes (Article 48(a) of the Code); (4) export packing credits; (5) an income tax deduction for overseas offices (Article 49(f)); (6) an income tax deduction for new brand names (Articles 48(e) and 49(g)); (7) an income tax deduction for export traders (Article 49(d)); (8) an income tax deduction for financial assistance (Article 49(e)); (9) government bank loans (Article 51); (10) private bank loans (Article 52); (11) equity investment by insurance companies (Article 52); (12) employee equity investment (Article 53); (13) tax credits for net local content; (14) tax credits for net local value; (15) preferential loan guarantees; (16) government equity investment; (17) foreign equity investment; (18) various financial services by the Export Credit Insurance and Guarantee Corporation; (19) various financial and marketing assistance by the Institute for Export Development; (20) an offsetting export tax; (21) preferential access to foreign exchange; and (22) World Bank import funding.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results. We received received written comments from the Tuna Canners Association of the Philippines, the Government of the Republic of the Phlippines, and the Association of Food Industries Tuna Group ("the respondents"), and from Starkist, Inc., a domestic producer.

Comment 1: Starkist argues that the Department's chosen benchmark for comparing export packing credits to the cost of alternative non-subsidized financing is incorrect because: (1) Apparently without reason, the Department used a short-term interest rate for lower-cost secured loans; (2) the benchmark rate appears inappropriately to include subsidized or preferential loans; and (3) the Department's simple average of monthly rates does not capture the true differential between the preferential and commercial loans, because the benchmark rates are not weighted to reflect the disproportionate levels of export packing credits taken in various months.

Department's Position: The Department's practice in establishing a benchmark for short-term preferential loans is to use a national average of interest rates charged by banks to borrowers of average creditworthiness for comparible financing. Because export packing credits are based on exporters' presentation of letters of credit, we compare them to other short-term secured loans.

In establishing a benchmark, we looked at several alternatives: The weighted-average of short-term secured loans as reported in the Philippine Central Bank's annual report; an average of individual banks' prime rates published in Philippine newspapers; and the prime rate from Morgan Guaranty's *World Financial Markets*. We rejected the prime rates because they were not applicable to borrowers of average creditworthiness. The Central Bank rate is an average from several Philippine banks weighted by the volume of their individual lendings in each month. Although, we cannot know with certainty that the banks reported accurate figures to the Central Bank, nor that the reported rates did not include subsidized loans, our practice is to use a national average of all comparable commercial financing, preferably from a published source. Given the existing information, we believe that the rates published by the Central Bank are the most reliable estimates available of the cost of comparable commercial borrowing.

Finally, we do not agree that we should weight our annual commercial average by the volume of preferential borrowing in each month. Doing so would make our average benchmark a hypothetical industry specific, rather than national, average. Further, we did not find any indication that the exporters took a disproportionate share of the export packing credits in any particular months of the year.

Comment 2: Starkist argues that the Department's methodology understates the export packing credits' *ad valorem* benefit by using as the denominator "five-twelfths of the exports for the year," instead of the lower actual exports during the period of review.

Department's Position: We disagree. We do not have monthly export figures for the companies. The available Census Bureau import statistics (from the IM 146s) are not comparable because they are based on the date of entry into the United States rather than on the date of export from the Philippines. There may be significant lags between the two dates. It is therefore reasonable to use our calculated average. Further, the Department found nothing to indicate that more or less tuna was shipped during the review period than during the rest of the year.

Comment 3: Starkist argues that the Department has allowed the respondents to skew the results in their favor by converting their sales in dollars to pesos using an inappropriate average annual official exchange rate. Starkist explains that the black market rate was higher than the official exchange rate in 1983; and that to use the average annual official exchange rate favors the respondents.

Department's Position: The Department used either the exchange rate at which the companies recorded their sales or, if the companies recorded their exports in dollars, it used an official average exchange rate for the year. To the extent that we have used an average rate and the petitioner criticizes that practice, it is true that exchange rates did fluctuate over the year. However, all programs were allocated over the full year (or a portion of the year). Therefore, the Department properly used an average exchange rate.

In general, the Department prefers to use, as we did in this case, an exchange rate that reflects actual commercial practice in the country under examination. Moreover, using the official rate for calculating the average rate does not favor the respondents. The black market rate was higher (*i.e.*, more pesos to the dollar). Thus, if we used this to convert the sales figures to pesos those peso sales would be larger. Since these sales figures are our denominators when calculating the *ad valorem* benefit, a larger peso figure would lower the *ad valorem* benefit, not increase it as Starkist believes.

Comment 4: Starkist argues that the Department inadaquately examined the priority-access foreign exchange program instituted in 1983 by the Philippine government. The Department should have gone beyond merely aksing whether or not the program was used in the review period, and determined that the program provided a countervailable benefit in a later period. The Department should have included the program in establishing a deposit rate in this review for future entries.

Department's Position: The Department did examine the foreign exchange program and found that canned tuna exporters did not use the program during the review period. While the program came into existence in 1983, it was not in effect until 1984. Further, Circular 1030, effective October 15, 1984, repealed the program. Since the program was not used during the review period and no longer exists, there is no reason to consider it for either assessment or cash deposit purposes in this review. We will consider the program in any review of 1984, if one is requested.

Comment 5: Starkist argues that because the Government of the Philippines no longer collects an export tax of 2 percent *ad valorem*, tuna exporters receive a *de facto* subsidy which the Department should countervail.

Department's Position: The Philippine government's asserted purpose for this export tax, specifically for canned tuna, was to offset any potential countervailable subsidy received by exporters. However, we did not accept the tax as an offset to our calculated net subsidy, and therefore are not concerned with its non-collection.

Comment 6: Starkist argues that the Department's review of only a five month period is inappropriate and should be expanded to cover a full year of entries. The five months covered by the review took place during the height of a financial crisis in the Philippines. The atypical nature of the period would lead to the establishment of an inappropriate duty deposit rate.

Department's Position: Neither the Congress, in the Tariff Act, nor the Department, in the Commerce Regulations, has stipulated the length of a review period. Generally, the Department attempts to review a 12 month period because company books and government statistics are maintained on that basis. However, because the first review period begins with a particular event (suspension of liquidation) the Department may review less that 12 months to ensure that the time period established for that review and future reviews will coincide with respondents' books and records.

Comment 7: The respondents argue that the Department erred is using, as a benchmark for the export packing credits, the weighted/average interest rate for secured loans of one year or less published by the Philippine Central Bank (*see also* Comment 1). The rate is based on data from only eight of the country's 34 banks. The loan portfolios of those eight may not be representative of all 34. The reported data may not be reliable even for those eight. Further, the published rate is an average for all types of loans with maturities of less than one year to all borrowers. Such an average neither reflects that fact that export packing credits have an initial maturity of 90 days, nor that banks establish commercial lending rates based on their experience with particular borrowers. In the absence of a representative national average rate, the Department must use the average interest rate on all short-term loans, other that export packing credts, for all tuna companies verified during the review period. The Department has already verified all necessary information.

Department's Position: We disagree. It is the Department's policy to use a national average interest rate whenever possible for short-term loans. In the original investigation, the Department used an industry-specific rate because a national average interest rate was not available. The benchmark interest rate now selected by the Department is based on the most reliable information available. Further, we note that the rate published in the Central Bank's Annual Report is consistent with the other available published interest rates. Since there is no consistency in the terms of the export packing credits, the Department believes that the weighted-average interest rate for all short-term secured loans is the most comparable benchmark available.

Comment 8: Respondents argue that the Department erroneously included Purefoods in its calculation of the benefit from the exemption from import taxes (Article 48(f) of the Code). As the Department verified, the benefit Purefoods received under this program was for meat processing, not tuna canning. Therefore, the Department should adjust its calculations for this program accordingly.

Department Position: We agree and have corrected our calculations. The Department now finds the benefit from this program to be 0.02 percent *ad valorem*.

Final Results of Review

After considering all of the comments received, we determine the total bounty or grant to be 0.23 percent *ad valorem* for the period of review. The Department considers any rate less than 0.50 percent *ad valorem* to be *de minimis*.

The Department will instruct the Customs Service not to assess countervailing duties for shipments of the merchandise entered, or withdrawn from warehouse, for consumption on or after August 16, 1983, the date of the preliminary affirmative determination (48 FR 37051), and exported on or before December 31, 1983.

The Department will instruct the Customs Service to waive cash deposits of estimated countervailing duties, as provided by section 751(a)(1) of the Tariff Act, on all shipments of the merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. This deposit waiver shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Traffic Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: July 19, 1985

C. Christopher Parlin,

Acting Deputy Assistant Secretary, Import Administration.

Partially Closed Meeting of FIFRA Scientific Advisory Panel

Correction

In FR Doc. 15104, beginning on page 25783, in the issue of Friday, June 21, 1985, make the following correction:

On page 25783, third column, ninth and tenth lines from the bottom of the page, "items 2 and 3" should read "item 2".

BILLING CODE 1505–01–M

FEDERAL COMMUNICATIONS COMMISSION

Hearings In Turner Broadcasting/CBS Inc. Transfer

July 11, 1985.

The Commission has before it an application filed by Turner Broadcasting System (TBS) for transfer of control of CBS Inc. (CBS), petitions to deny the application filed by CBS and several others, oppostions to the petitions to deny filed by TBS and others, and replies to those oppositions.

To facilitate review of this matter and to allow the Commission an opportunity to explore further the issues raised in the pleadings, the Commission will conduct hearings on August 1–2, 1985, following the schedule set forth below. Hearings will be held in the meeting room, 1919 M St. NW. Room 856. These presentations will neither constitute nor substitute for an evidentiary hearing to the extent one might be required by the Communications Act. Parties are asked to give particular attention in their presentations to the following issues:

1. Does TBS possess the requisite financial qualifications with respect to the proposed transfer?

2. What, if any, substantial and material facts are disputed by the parties as to the financial showings made by TBS?

3. What Commission rules or policies as to diversity of information sources or other related policies or rules are affected by the proposed transfer?

4. What, if any, substantial and material facts are disputed by the parties as to the issues raised in Question No. 3?

5. What Commission policies or rules respecting economic competition are affected by the proposed transfer of control?

6. What, if any, substantial and material facts are disputed by the parties as to the issues raised in Question No. 5?

The schedule for the hearings is as follows:

August 1

CBS 10:00 a.m.–11:00 a.m.
TBS 11:00 a.m.–noon
CBS Affiliates 2:00 p.m.–3:00 p.m.
Nonaffiliated Parties in Support of Turner 3:00 p.m.–4:00 p.m.

August 2

Nonaffiliated Parties in Support of CBS Opposition 9:00 a.m.–10:00 a.m.
Joint CBS/TBS Panel and Summary by CBS and TBS 10:30 a.m.–12:15 p.m.

CBS, TBS, and the CBS Affiliates are invited to make opening statements of 20 minutes each during their initial time periods. These parties are free during the hearings to refer particular questions to spokespersons other than counsel in the case. The CBS Affiliates are asked to elect one or two spokespersons for their group and that individual or those individuals will be invited to make opening statements of 20 minutes total duration. CBS and TBS will be given 10 minutes each to make concluding statements during the final scheduled session. All others who have filed in this proceeding and who wish to appear on the "Nonaffiliated Parties" panels should submit a request in writing to William Tricarico, Secretary, FCC, by close of business July 22, 1985. By subsequent Public Notice, these parties will be advised of the time allotted to each.

Parties making formal statements in the hearings are asked to submit written texts of their statements to the Secretary's Office by close of business July 30, 1985. The Commission will utilize the format generally applied to oral arguments, i.e., formal time-keeping will be observed, and parties may be questioned by Commissioners during their presentations.

Questions concerning this Public Notice should be referred to Roy Stewart at (202) 632–6993 or Alan Aronowitz at (202) 632–6357.

William J. Tricarico,

Secretary, Federal Communications Commission.

Federal Advisory Committee for the 1987 ITU World Administrative Radio Conference for the Mobile Services; Meeting Place

July 19, 1985.

The third meeting of the Federal Advisory Committee for the 1987 Mobile World Administrative Radio Conference will be held on Tuesday, October 1, 1985, at 9:30 a.m. in the Commission Meeting Room 856, 1919 M Street, NW., Washington, D.C.

The meeting agenda is:

1. Approval of meeting agenda.

2. Approval of the summary record of the May 28, 1985, meeting.

3. (a) Discussion of agenda adopted by the ITU Administrative Council for the 1987 Mobile WARC.

(b) Review of Steering Group action assigning agenda items to Ad Hoc Groups for study and development of draft proposals.

4. Progress reports from Ad Hoc Group Chairman including future work plans.

5. Other business.

6. Selection of next meeting date.

Anyone desiring further information should contact Gordon Hempton, FCC/PRB at (202) 632–7073. These meetings are open to the public.

William J. Tricarico,

Secretary, Federal Communications Commission.

BILLING CODE 6712–01–M

FEDERAL MARITIME COMMISSION

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, D.C. Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in section 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 202–010025–006.
Title: Red Sea Rate Agreement.
Parties:
Barber Blue Sea Line
Maersk Line
Nedlloyd Lijnen, B.V. (S.A.G.)
Synopsis: The proposed amendment would eliminate any restrictions against service contracts and space charters with non-members pertaining to the carriage of cars and light vehicles. The parties have requested a shortened review period.

Agreement No.: 213–010786.
Title: Costa/Transatlantica Space Charter and Sailing Agreement.
Parties:
Costa Armatori S.p.A.
Compania Transatlantica Espanola, S.A.
Synopsis: The proposed agreement would permit the parties to schedule sailings and charter space on each others vessels for the transportation of cargo between ports in Italy, France, Spain (including the Canary Islands) and Portugal, on the one hand, and ports in Puerto Rico, on the U.S. Gulf Coast and U.S. Atlantic Coast south of and including Jacksonville, Florida, on the other hand; and between interior or coastal points served via such ports.

Agreement No.: 228–010787.
Title: Equipment Interchange Agreement Between A. P. Moeller-Maersk Line and Totem Ocean Trailer Express, Inc.
Parties:
A. P. Moeller-Maersk Line.
Totem Ocean Trailer Express, Inc.
Synopsis: The proposed agreement would permit the parties to exchange empty and loaded equipment in connection with a nonexclusive transshipment agreement between the parties involving cargo moving between Alaska and the Far East.

Agreement No.: 218–010788.
Title: Nonexclusive Transshipment Agreement Between A. P. Moeller-Maersk Line and Totem Ocean Trailer Express, Inc.
Parties:
A. P. Moeller-Maersk Line.
Totem Ocean Trailer Express, Inc.
Synopsis: The proposed agreement would establish a nonexclusive transshipment arrangement between the parties in the trade between points in Alaska and points in the Far East, with transshipment at Seattle or Tacoma, Washington.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

July 19, 1985.

Background

Notice is hereby given of the submission of proposed information collection(s) to the Office of management and Budget (OMB) for its review and approval under the Paperwork Reduction Act (Title 44 U.S.C. Chapter 35) and under OMB regulations on Controlling Paperwork Burdens on the Public (5 CFR Part 1320). A copy of the proposed information collection(s) and supporting documents is available from the agency clearance officer listed in the notice. Any comments on the proposal should be sent to the OMB desk officer listed in the notice. OMB's usual practice is not to take any action on a proposed information collection until at least ten working days after notice in the Federal Register, but occasionally the public interest requires more rapid action.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Officer—Cynthia Glassman—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3822)

OMB Desk Officer—Robert Neal—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3208, Washington, D.C. 20503 (202-395-6880)

Request for OMB Approval to Implement

1. Report title: Criminal Referral Form
Agency form number: FR 2230
OMB Docket number: 7100-0212
Frequency: Event-generated
Reporters: State member banks, bank holding companies and Edge and Agreement Corporations
Small businesses are affected.

General description of report: This information collection is voluntary (12 U.S.C. 248(a)(1), 625, and 1844(c)) and is given confidential treatment (5 U.S.C. 552a(2), 5 U.S.C. 552(b)(7)).

This report has been jointly designed by the federal financial institutions supervisory agencies, the Department of Justice, and the F.B.I. It is needed to detect and to track suspected criminal misconduct in financial institutions.

Board of Governors of the Federal Reserve System, July 19, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Susquehanna Bancshares, Inc., et al.; Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the Offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than August 15, 1985.

A. **Federal Reserve Bank of Philadelphia** (Thomas K. Desch, Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *Susquehanna Bancshares, Inc.*, Lititz, Pennsylvania; to acquire 100 percent of the voting shares of The Citizens National Bank of Greencastle, Greencastle, Pennsylvania; and to merge with FNT Bancorp, Inc., Sunbury, Pennsylvania, thereby indirectly acquiring First National Trust Bank, Sunbury, Pennsylvania.

B. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *City Financial Corp. of Tampa*, Tampa, Florida; to become a bank holding company by acquiring 100 percent of the voting shares of City Bank of Tampa, Tampa, Florida, a *de novo* bank.

2. *NKB, Inc.*, North Miami Beach, Florida; to become a bank holding company by acquiring 100 percent of the voting shares of The Skylake State Bank, North Miami Beach, Florida.

C. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Tri City Bankshares Corporation*, Oak Creek, Wisconsin; to retain 2.28 percent of the voting shares of First National Bank of Eagle River, Eagle River, Wisconsin.

D. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *United New Mexico Financial Corporation*, Albuquerque, New Mexico; to acquire 100 percent of the voting shares of Gallup Bancshares, Inc., Gallup, New Mexico, thereby indirectly acquiring First State Bank of Gallup, Gallup, New Mexico.

Board of Governors of the Federal Reserve System, July 19, 1985.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 85-17638 Filed 7-24-85; 8:45 am]

BILLING CODE 6210-01-M

U.S. Bancorp; Application To Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 13, 1985.

A. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 101 Market Street, San Francisco, California 94105:

1. *U.S. Bancorp*, Portland, Oregon; to engage *de novo* directly in data processing activities by providing the use of hardware and software to other financial institutions, including banks, to facilitate switching of transactions between network members. Such services will be offered to other institutions only under written agreements.

Board of Governors of the Federal Reserve System, July 19, 1985.

James McAfee,

Associate Secretary of the Board.

GENERAL ACCOUNTING OFFICE

Procurements by Bid Protest

AGENCY: General Accounting Office.

ACTION: Notice of review of bid protests regarding procurements by the Architect of the Capitol.

SUMMARY: On December 20, 1984, the General Accounting Office published in the **Federal Register** (49 FR 49,917) its Bid Protest Regulations, effective January 15, 1985. This notice advises that the Architect of the Capitol has agreed to have the General Accounting Office consider protests concerning his procurements under § 21.11 of the Bid Protest Regulations.

EFFECTIVE DATE: July 25, 1985.

FOR FURTHER INFORMATION CONTACT: James W. Vickers, Managing Attorney, General Accounting Office, 441 G Street, NW., Washington, D.C. 20548; telephone (202) 275-9740.

SUPPLEMENTARY INFORMATION: Pursuant to § 21.11, "Nonstatutory Protests", the General Accounting Office may consider protests concerning procurements by agencies of the government other than federal agencies as defined in § 21.0(b) if the agency agrees in writing to have its protests decided by the General Accounting Office.

The Architect of the Capitol has advised the General Accounting Office that he wishes our Office to consider protests concerning his procurements.

Charles A. Bowsher,

Comptroller General of the United States.

GENERAL SERVICES ADMINISTRATION

Agency Information Collection Under Review by the Office of Management and Budget; Application of Eleemosynary Institution

AGENCY: Office of Policy and Management Systems, GSA.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the General Services Administration (GSA) requests the Office of Management and Budget (OMB) to review an existing information collection.

ADDRESSES: Send comments to Franklin S. Reeder, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to William W. Hiebert, GSA Clearance Officer, General Services Administration (ATRAI), Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Audrey Harris, Office of Property Management (703-557-1234).

SUPPLEMENTARY INFORMATION:

a. *Purpose.* GSA Form 18 is required to request the donation of forfeited distilled spirits, wine, or malt beverages. It is used to determine an institution's eligibility to receive such donations under 26 U.S.C. 5688(a).

b. *Annual reporting burden.* Respondents and responses 40, hours 10.

c. *Copies of proposal.* Copies may be obtained from the Directives and Reports Management Branch (ATRAI), Room 3007, GS Building, Washington, DC 20405 (202-566-0666).

Dated: July 16, 1985.

Johnny T. Young,

Acting Director, Information Management Division.

BILLING CODE 6820-24-M

VOL 50 ISS 143 JL 25 1985 UMI

Federal Telecommunications Standards

AGENCY: Office of Information Resources Management, General Services Administration.

ACTION: Notice of adoption of standard.

SUMMARY: The purpose of this notice is to announce the adoption of an Interim Federal Telecommunications Standard (INT–FED–STD). INT–FED–STD 1031, "Telecommunications: General Purpose 37-Position and 9-Position Interface Between Data Terminal Equipment and Data Circuit-terminating Equipment" is approved by the General Services Administration for optional use by Federal agencies and will be published.

FOR FURTHER INFORMATION CONTACT: Mr. Edward Greene, Office of Technology and Standards, National Communications System, telephone (202) 692–2124.

SUPPLEMENTARY INFORMATION:

1. The General Services Administration (GSA) is responsible, under the provisions of the Federal Property and Administrative Services Act of 1949, as amended, for the Federal Standardization Program. On August 14, 1972, the Administrator of General Services designated the National Communications System (NCS) as the responsible agent for the development of telecommunications standards for NCS interoperability and the computer-communication interface.

2. On August 10, 1984, a notice was published in the **Federal Register** (49 FR 32115) that a proposed draft Interim Federal Telecommunication Standard entitled "Telecommunications: General Purpose 37-Position and 9-Position Interface Between Data Terminal Equipment and Data Circuit-terminating Equipment" was being proposed for optional Federal use.

3. The justification package, as approved by the National Security Council, was presented to GSA by NCS with a recommendation for adoption of the standard. These data are a part of the public record and are available for inspection and copying at the Office of Technology and Standards, National Communications System, Washington, DC 20305–2010.

4. The approved Interim Federal Standard adopts Electronic Industries Association (EIA) Standard RS–449, "General Purpose 37-Position and 9-Position Interface for Data Terminal Equipment and Data Circuit-terminating Equipment Employing Serial Binary Data Interchange" for optional use by Federal agencies. EIA Standard RS–449 specifies the functional and mechanical interface characteristics for data terminal equipment (DTE) and data circuit-terminating equipment (DCE) used primarily in data communication applications over analog telecommunications networks.

5. Interested parties may purchase the standard from GSA, acting as agent for the Superintendent of Documents. Copies are for sale at the GSA Specifications Unit (WFSIS), Room 6039, 7th and D Streets SW. Washington, DC 20407; telephone (202) 472–2205.

Dated: June 10, 1985.

Frank J. Carr,

Assistant Administrator, Office of Information Resources Management.

Interim Federal Standard: INT–FED–STD 1031

Date: May 29, 1985.

Announcing an Interim Federal Standard, "Telecommunications: General Purpose 37-position and 9-position Interface Between Data Terminal Equipment and Data Circuit-terminating Equipment".

Authority. Federal Standards in the "telecommunications" area are developed by the Office of the Manager, National Communications System. These Federal Standards are approved and issued by the General Services Administration pursuant to the Federal Property and Administrative Services Act of 1949, as amended. The use of INT–FED–STD 1031 is optional for all Federal agencies. It is expected that this interim standard will be replaced with a new standard conforming to Integrated Services Digital Network (ISDN) procedures and utilizing the 8-position Common Physical Interface as soon as a mature international standard evolves in this area.

Name of Standard. "Telecommunications: General Purpose 37-position and 9-position Interface Between Data Terminal Equipment and Data Circuit-terminating Equipment"

Description. INT–FED–STD 1031 adopts Electronic Industries Association (EIA) Standard RS–449, General Purpose 37-position and 9-position Interface for Data Terminal Equipment and Data Circuit-terminating Equipment Employing Serial Binary Data Interchange". EIA Standard RS–449 specifies the functional and mechanical interface characteristics for data terminal equipment (DTE) and data circuit-terminating equipment (DCE) used primarily in data communication applicants over analog telecommunications networks.

Objectives

Interoperability. To facilitate interoperability between telecommunications facilities and systems of the Federal Government and compatibility of these facilities and systems, at the computer-communications interfaces, with data processing equipment.

Application. An "Interim Federal Standard" is a potential Federal standard issued in temporary form for optional use by all Federal agencies. This standard is optional and may be used by all Federal agencies in the design and procurement of DTEs and DCEs used in data communication applications over analog telecommunications networks.

Referenced Documents. The following documents of the issue in effect on the date of invitation for bids or request for proposals form a part of this standard to the extent specified herein:

(a) Electronic Industries Association (EIA) Standard RS–449, General Purpose 37-position and 9-position Interface for Data Terminal Equipment and Data Circuit-Terminating Equipment Employing Serial Binary Data Interchange.

(b) EIA Industrial Electronic Bulletin No. 12, Application Notes on Interconnection Between Interface Circuits Using RS–449 and RS–232–C.

(c) Federal Standard (FED–STD) 1020A, Telecommunications: Electrical Characteristics of Balanced Voltage Digital Interface Circuits.

(d) Federal Standard (FED–STD) 1030A, Telcommunications: Electrical Characteristics of Unbalanced Voltage Digital Interface Circuits.

Basic Requirements. With the inclusion of the additional requirements listed below, this standard adopts in its entirety EIA Standard RS–449. Pursuant to the requirements of Federal Standards 1020A and 1030A, the electrical characteristics of balanced and unbalanced line generators and receivers of DTEs and DCEs shall be as specified in EIA standards RS–422 and RS–423 respectively.

Additional Requirements. Depending on the specific application, DTEs and DCEs compliant with this standard must also comply with one of the following additional requirements.

(a) For applications where interoperation is required with equipment conforming to EIA Standard RS–232–C, generators on all Category I circuits shall conform to Federal Standard 1030A and the provisions described by EIA Industrial Electronics Bulletin No. 12 shall be met.

(b) For applications where interoperation is required with equipment conforming to MIL–STD–188C or MIL–STD–188–100 (unbalanced low level interface), generators on all Category I circuits shall conform to Federal Standard 1030A (MIL–STD–188–114, unbalanced circuits) and shall have an option which will allow changing the signal sense from the negative mark to positive mark.

(c) For all new applications where a transition capability from either RS–232–C or MIL–STD–88C/MIL–STD–188–100 is not required, all provisions of RS–449 apply. Category I circuits may implement either FED–STD 1020A or FED–STD 1030A as prescribed in 6.11 of RS–449. When FED–STD 1020A is employed for MIL–STD–188 applications, the additional provisions of MIL–STD–188–114 shall apply.

Effective Date. Federal agencies may use this interim standard effective immediately. This interim standard will be automatically cancelled effective January 1, 1989 unless reconfirmed.

Preparing Activity. National Communications System, Office of Technology and Standards, Washington, DC 20305–2010.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alcohol, Drug Abuse, and Mental Health Administration

Alcohol, Drug Abuse, and Mental Health Advisory Board; Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (5 U.S.C. Appendix I), the Alcohol, Drug Abuse, and Mental Health Administration announces establishment by the Secretary of Health and Human Services, on July 2, 1985, of the following advisory committee:

Designation: Alcohol, Drug Abuse, and Mental Health Advisory Board.

Purpose: The Board shall periodically assess the national needs for alcoholism, alcohol abuse, drug abuse, and mental health services and the extent to which those needs are being met by the State, local, and private programs, and programs, receiving funds under Title V and Part B of Title XIX of the Public Health Service Act. The Board shall provide advice to the Secretary and the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, respecting these activities to assist in guiding national strategies aimed at the amelioration of alcohol, drug abuse, and mental health problems.

Expiration date' This charter is effective through July 2, 1987.

Dated: July 22, 1985.

Donald Ian Macdonald, M.C.,

Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

Centers for Disease Control

Cooperative Agreements; Studies of the Transmission of Human T-Lymphotropic Viruses Type III (HTLV-III) Among Prostitutes, Select Heterosexual Populations, and Recipients of Blood Transfusion From HTLV-III Seropositive Blood Donors; Availability of Funds for Fiscal Year 1985

The Center for Disease Control (CDC) announces that funds are available for Fiscal Year 1985 for competitive applications for cooperative agreements for collaborative studies in the following areas: I. Determination of the prevalence of HTLV–III antibody in a population of female prostitutes; II. Definition of the spread of HTLV–III infection in selected populations of heterosexuals; and III. A study of recipients of blood transfusion from HTLV–III seropositive blood donors. These studies are authorized by section 301(a) of the Public Health Service Act (42 U.S.C. 241(a)), as amended. The Catalogue of Federal Domestic Assistance Number is 13.118. Eligible applicants are described for each cooperative agreement.

I. Objectives and Collaborative Activities for a Study of the Transmission of HTLV–III Among Prostitutes

A. Objectives

1. To determine the prevalence of HTLV–III infection, as measured by HTLV–III antibody, among female prostitutes. For purposes of this study, a female prostitute is considered to be a woman who has provided sexual services for money or other consideration to males in the past twelve (12) months.

2. To correlate seropositivity with behavioral characteristics among female prostitutes.

B. Cooperative Activities

1. Recipient Activities

a. Design and conduct a study to measure the prevalence of HTLV–III infection in a population of female prostitutes. Prepare a statistical sampling design and determine sample size needed to obtain meaningful results.

b. Design and establish a data-management system for the study.

c. Identify, locate, and enroll an appropriate sample of female prostitutes who are willing to participate in a study to measure the extent of HTLV–III infection in this population. Participants should be obtained from several different sources, such as sexually transmitted disease clinics, practices of physicians known to treat prostitutes, etc.

d. Interview for sexual and drug use history, provide physical examinations for AIDS, and obtain serologic specimens from all study participants.

e. Provide or arrange for counseling of participants based on their serologic test results and clinical findings.

f. Analyze data and publish study results.

2. Centers for Disease Control Activities

a. Assist in the development of the protocol, the design of the study, training of interviewers, and pretesting of instruments.

b. Assist in designing a data management system.

c. Perform all or a portion of the laboratory tests.

d. Assist in data analysis and in the presentation of study findings.

Eligible Applicants

Eligible applicants are the official public health agencies of State, city, county, city-county, district and territorial governments, and other public and private organizations which are able to enroll female prostitutes and conduct follow-up activities.

Reports

Progress reports will be submitted by the recipient on a quarterly basis for the first year, due 30 days after each quarter, and semiannually, due 30 days after semiannual period, thereafter. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

Approximately $250,000 will be available to fund 1–3 cooperative agreements. Applications should be submitted for a 1-year budget period and 2-year project period. Continuation awards within the project period will be made by CDC on the basis of satisfactory progress in meeting project objectives and on the availability of funds. Funding estimates outlined above

VOL 50 ISS 143 JL 25 1985 UMI

may vary and are subject to change due to budgetary uncertainties. Cooperative agreement funds may be used to support personnel and to purchase supplies and services directly related to conducting a study of the prevalence of HTLV–III infection among female prostitutes. Funds may not be used to support construction or renovation costs.

Evaluation and ranking of applications will be based on the following factors;

1. The ability of the applicant to enroll and conduct follow-up activities on an appropriate sample of female prostitutes from different sources such as sexually transmitted disease (STD) clinics and the practices of physicians known to treat prostitutes.

2. The details of how the applicant plans to develop and implement a study of female prostitutes, describing how the women will be identified and enrolled and follow-up meaures.

3. A plan that will protect the rights of individual study participants and encourage their participation in the study.

4. Understanding of study objectives and the purpose of the cooperative agreement.

5. Description of current activities in HTLV–III research and how current activities will be applied to achieving the objectives of the study.

6. The size, qualifications, and time allocation of the proposed staff and the availability of facilities to be used during the study.

7. How the project will be administered.

8. A proposed schedule for accomplishing the activities of the cooperative agreement, including time frames.

II. Objectives and Collaborative Activities for a Study to Define the Spread of HTLV–III Infection in Selected Populations of Heterosexuals

A. Objectives

1. To ascertain the prevalence of HTLV–III infection in populations of heterosexual adults who are not known to be at increased risk for AIDS (e.g., persons who are not intravenous drug users or hemophiliacs or who were not born in countries with an increased incidence of AIDS).

2. To determine the risk factors for HTLV–III infection in heterosexual individuals who are HTLV–III seropositive

B. Cooperative Activities

1. Recipient Activities

a. Design and conduct a study to determine the prevalence of HTLV–III infection in a population of heterosexual adults.

b. Identify, locate and test for HTLV–III antibody a population of heterosexual adults who agree to participate in a study to measure the extent of HTLV–III infection in this population. These persons should not have been born in a country with an increased incidence of AIDS and should not have a history of hemophilia or intravenous drug use.

c. For seropositive persons, provide physical examinations, obtain serum for repeat serologic testing by ELISA and Western blot methods and interview for AIDS risk factors. Classify these persons into a mutually exclusive hierarchy that includes persons who report belonging to known risk groups, persons whose sexual partners belong to known risk groups, and persons with "no identified risk."

d. For persons who are repeatedly seropositive and have "no identified risk," reinterview to elicit other behavioral characteristics, such as sexual activity, occupation, and contact with AIDS patients, that could be risk factors for HTLV–III infection. Obtain similar interviews from seronegative "control" patients who have been matched by age and sex with the seropositive patient. Necessary sample size should be discussed in the proposal and appropriate statistical power calculations presented.

e. With the cooperation of patients who are repeatedly seropositive and have no apparent risk factors for HTLV–III infection, provide serologic testing and physical examinations to all known sexual partners.

f. Design and establish a data management system for the study.

g. Provide or arrange for counseling for participatants based on the findings of the study.

h. Analyze all data from the study and publish findings.

2. Centers for Disease Control Activities

a. Assist in the development of the study protocol and the design of the interview instrument, including training and pretesting as necessary by the applicant.

b. Assist in designing a data management system.

c. Provide reference laboratory testing, if needed.

d. Assist in data analysis and in the presentation of study findings.

Evaluation and ranking of applications will be based on the following factors:

1. The ability of the applicant to screen heterosexual adults for HTLV–III antibody and find an adequate number of persons who are repeatedly seropositive, but have "no identified risk" for infection. It may be necessary to use high-volume facilities, such as clinics for sexually transmitted diseases on blood banks, to achieve this sample size.

2. The details of how the applicant plans to develop and implement a study of HTRLV–III infection in a population of heterosexuals describing how they will be identified and enrolled and follow-up measures.

3. The applicant's understanding of the study objectives and the prupose of the cooperative agreement.

4. The applicant's current activities in HTLV–III research and how they will be applied to achieving the objectives of the study.

5. The size qualifications, and time allocation of the proposed staff and the availability of facilities to be used during the study.

6. How the project will be administered.

7. A proposed schedule for accomplishing the activities of the cooperative agreement including time frames.

Eligible Applicants

Eligible applicants are the official public health agencies of State, city, county, city-county, district and territorial governments, and other public, private and non-profit organizations which are able to enroll and follow a population of heterosexuals.

Reports

Progress reports will be submitted by the recipient on a quarterly basis for the first year, due 30 days after each quarter, and semiannually, due 30 days after semiannual period, thereafter. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

Approximately $225,000 will be available to fund 1–2 cooperative agreements. Applications shuld be submitted for a 1-year budget period and 2-year project period. Continuation awards within the project period will be made by CDC on the basis of satisfactory progress in meeting project objectives and on the availability of funs. Funding estimates outlined above may very and are subject to change due to budgetary uncertainties.

Cooperative agreement funds may be used to supoort personnel and to purchase supplies and services directly related to conducting a study of the spread of HTLV-III infection in selected populations of heterosexuals. Funds may not be used to support construction or renovation costs.

III. Objectives and Collaborative Activities for a Study of Recipients of Blood Components from Donors Subsequently Found Seropositive for Antibody to HTLV–III in a Blood Bank Screening Program

A. Objectives

1. To determine the risk of HTLV–III infection in persons transfused with blood or blood products of donors subsequently found reactive on HTLV–III ELISA testing of two or more serum specimens.

2. To determine if the result of the (a) ELISA assay, (b) Western blot assay, and (c) HTLV–III culture of the donor may be predictive of the degree for risk of HTLV–III transmission to previous recipients.

B. Cooperative Activities

1. Recipient Activities

a. Design and conduct a study of the transmission of HTLV–III infection from repeatedly reactive donors to recipients of blood transfusions derived from previous donations. Prepare a statistical sampling design and determine sample size needed to obtain meaningful results.

b. Identify, contact, and enroll an appropriate number of blood donors repeatedly reactive on HLTV–III ELISA testing of at least two serum specimens obtained at different times.

c. Identify, contact, and enroll an appropriate number of living recipients of blood who received transfusion during the 2-year period prior to the laboratory identification of these seropositive donors.

d. Interview, provide physical examinations, and obtain blood specimens from recipients.

e. Perform laboratory tests, including the Western Blot analysis, T-lymphocyte subsets, and lymphocyte culture for HTLV–III on al specimens found positive by ELISA in both donors and recipients.

f. Design and establish a data management system for the study.

g. Provide or arrange for counseling for participants based on the findings of this study.

h. Analyze data and publish study results.

2. Centers for Disease Control Activities

a. Assist in the development of the study protocol, in the design of the study instrument, and in pretesting as is necessary by the applicant.

b. Perform all or a portion of the laboratory studies.

c. Assist in designing a data management system.

d. Assist in data analysis and in the presentation of study results.

Eligible Applicants

Eligible applicants are public or non-profit organizations that operate blood collection centers that are able to identify blood donors repeatly reactive on HTLV–III ELISA testing.

Reports

Progress reports will be submitted by the recipient on a quarterly basis for the first year, due 30 days after each quarter, and semiannually, due 30 days after semiannual period, thereafter. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

Approximately $60,000 will be available to fund 1 cooperative agreement. Applications should be submitted for a 1-year budget period and 2-year project period.

Continuation awards within the project period will be made by CDC on the basis of satisfactory progress in meeting project objectives and on the availability of funds. Funding estimates outlined above may vary and are subject to change due to budgetary uncertainties. Cooperative agreement funds may be used to support personnel and to purchase supplies and services directly related to conducting a study of recipients of blood components from donors subsequently found seropositive for antibody to HTLV–III in a blood bank screening program. Funds may not be used to support construction or renovation costs.

Evaluation and ranking of applications will be based on the following factors:

1. The ability of the applicant to identify an appropriate number of blood donors found repeatedly reactive on HTLV–III ELISA testing on two separate serum specimens.

2. The details of how the study will be implemented, describing how the recipients will be contacted, enrolled and followed.

3. The ability to perform required laboratory analysis including Western blot testing, lymphocyte subsets, and culture for HTLV–III or to demonstrate an adequate system of specimen transfer to the CDC.

4. The applicant's understanding of the study objectives and the purpose of the cooperative agreement.

5. The applicant's current activities in HTLV–III research and their relationship with other investigators in the areas who may participate in the project.

6. The size, qualifications, and time allocation of the proposed staff and the availability of facilities to be used during the study.

7. How the project will be administered.

8. A proposed schedule for accomplishing the activities of the cooperative agreement including time frames.

Content of Application

All applications must include a separate narrative for each study which summarizes:

1. The background and need for project support, including information that relates to factors by which the applications will be evaluated.

2. The objectives of the proposed project which are consistent with the purpose of the cooperative agreement and which are measurable and time phased.

3. The methods which will be used to accomplish the objectives. Of special importance in Study No. I will be the methods utilized to identify, contact, and enroll female prostitutes into the study. In Study No. II, special importance will be attached to the methods utilized in enrolling heterosexual adults who are not known to be at risk for AIDS. In Study No. III, the ability of the blood bank to enlist the cooperation of donors and recipients to participate in a study of this nature is considered crucial to the success of the study.

4. The methods which will be used to evaluate the success of study components.

5. Any other information that will support the request for assistance.

Submission of Applications

The original and one copy of the application must be submitted on or before 4:30 p.m. (e.d.t.) August 12, 1985, to Leo A. Sanders, Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., Room 321, Atlanta, Georgia, 30305.

Applications shall be considered as meeting the deadline if they are either:

1. Received on or before the deadline date, or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants should request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a

VOL
50
ISS
143
JL
25
1985
UMI

commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

3. Late Applications—Applications which do not meet the criteria in either paragraphs 1. or 2. immediately above are considered late applications and will not be considered in the current competition.

Applications are not subject to the review requirements of the National Health Planning and Resources Development Act of 1974, as amended, and are not subject to Intergovernmental review pursuant to Executive Order 12372.

Information on application procedures, copies of application forms, and other material may be obtained from Nancy Bridger, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., Room 321, Altanta, Georgia 30305, or by calling (404) 262–6575 or FTS 236–6575. Technical assistance may be obtained from the following individuals: Project No. I, William W. Darrow, Ph. D.; Project No. II, Harold W. Jaffe, M.D.; Project No. III, John W. Ward, M.D; AIDS Activity, Center for Infectious Diseases, Center for Disease Control, Atlanta, Georgia 30333, telephone (404) 329–3162 or FTS 236–3162.

Dated: July 16, 1985.

William E. Muldoon,

Director, Office of Program Support, Centers for Disease Control.

BILLING CODE 4160-18-M

Cooperative Agreements for; Community-Based Demonstration Project for Acquired Immunodeficiency Syndrome (AIDS) Prevention and Risk Reduction and Innovative Projects for AIDS Risk Reduction; Availability of Funds for Fiscal Year 1985

Introduction

The Centers for Disease Control (CDC) announces the availability of funds for Fiscal Year 1985 for competitive applications for cooperative agreements in the following two areas: I. Community-Based Demonstration Project for Acquired Immunodeficiency Syndrome (AIDS) Prevention and Risk Reduction and II. Innovative Projects for AIDS Risk Reduction. These projects are authorized by section 301(a) of the Public Health Service Act (42 U.S.C. 241(a)), as amended. The Catalog of Federal Domestic Assistance Number is 13.118.

Background

The acquired immunodeficiency syndrome continues to grow as a major public health problem in the United States. Through June 1985, more than 11,000 cases have been reported and more than 5,400 persons have died from AIDS. The virus (Human T-Lymphotrophic Virus-Type III (HTLV–III)) that causes AIDS is transmitted sexually, through contaminated needles, through blood and blood components, and perinatally. A serologic test for HTLV–III antibody has been developed, and its use on donated blood and plasma will decrease the risk of AIDS for transfusion recipients and hemophiliacs. However, these two groups account for only 2 percent of reported AIDS cases. In the absence of an AIDS vaccine or therapy, the basis for AIDS prevention in other groups is a thorough understanding of the risk factors for HTLV–III infection and efforts to change the behaviors which contribute to those factors. Significant gaps still exist in the understanding to risk factors for HTLV–III infection, and the behaviors which contribute to those factors are complex and difficult to change.

I. Information Specific to Community-Based Demonstration Project for AIDS Prevention and Risk Reduction

A. Purpose

The purpose of this comprehensive community-based demonstration project for AIDS prevention and risk-reduction is to design, implement, and evaluate an intensive program in a well-defined geographic/political subdivision to:

1. Determine the prevalence of HTLV–III infection in high-risk groups;
2. Determine the prevalence of HTLV–III infection in the general population;
3. Determine the current level of knowledge of HTLV–III infections and attitudes concerning AIDS among groups at risk;
4. Assess current risk-associated behavior among such high-risk populations as homosexuals and intravenous drug users;
5. Promote and carry out multifaceted educational programs intended to persuade individuals to take action to remain uninfected, and prevent transmission to others, if infected;
6. Promote and carry out programs to counsel seropositive and seronegative individuals;
7. Document steps taken to implement multifaceted education and counseling programs;
8. Evaluate programmatic efforts to prevent the spread of HTLV–III infection and change risk-associated behavior;
9. Provide learning opportunities for other State and local personnel that are planning, implementing, or evaluating AIDS health education/risk reduction programs.

B. Cooperative Activities

1. Recipient Activities

a. Design and conduct seroprevalence studies to determine the prevalence of HTLV–III infection in groups at risk and in the general population.

b. Design and conduct studies to determine current knowledge of HTLV–III infection and attitudes concerning AIDS among groups at risk as well as baseline data on risk-associated behaviors of individuals within these groups.

c. Develop and distribute written and audiovisual materials with accurate information on AIDS, risk factors, prevention guidelines, and community resources available.

d. Develop, promote, and conduct programs, presentations, group discussions, and other activities designed to promote awareness of AIDS risk situations and support for prevention measures.

e. Promote and carry out programs to counsel seropositive and seronegative individuals.

f. Repeat studies to document whether and to what extent changes in the understanding of AIDS risk factors and risk-associated behaviors have occurred.

g. Repeat seroprevalence study to monitor changes in the prevalence of HTLV–III infection in groups at risk.

h. Monitor trends in other illnesses which are sensitive indicators of behavior change in populations at risk (e.g. reportable sexually transmitted infections, hepatitis B, and non-A, non-B).

i. Evaluate and revise programmatic efforts in reaction to changes in behavior and infection with HTLV–III.

j. Provide information and insight for use in the development of curricula and other learning opportunities to train personnel from other State and local programs.

2. Centers for Disease Control Activities

a. Collaborate in the design of the initial and followup seroprevalence studies for HTLV–III infection in groups at risk and in the general population.

b. Collaborate in the design of the initial and followup studies of individuals at risk, and provide consultation regarding data-collection instruments and procedures.

c. Participate in the analysis of information gathered from studies.

d. Provide up-to-date scientific information regarding the natural history of AIDS, sensitivity and specificity of serologic tests, and national program for the prevention of AIDs and the transmission of HTLV–III infections.

e. Provide on-site technical involvement in planning, operating, and evaluating prevention activities.

f. Develop course curricula, training materials, job aids, and other learning opportunities to train personnel from other State and local programs.

C. Eligible Applicants

Eligible applicants are the official public health agencies of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and American Samoa, which have reported at least 75 cases of AIDS meeting the CDC surveillance case definition:

1. Presence of reliably diagnosed disease at least moderately indicative of underlying cellular immune deficiency (e.g., Kaposi's sarcoma in patients who are less than 60 years of age or patients with *Pneumocystis carinii* pneumonia or other opportunistic infections); and
2. Absence of known causes of underlying immune deficiency and of any other reduced resistance reported to be associated with the disease.

D. Availability of Funds

Approximately $400,000 to $500,000 will be available in Fiscal Year 1985 to fund one cooperative agreement. It is expected that the initial cooperative agreement award will begin on or about September 30, 1985, and will be funded for 12 months in a 1- to 4-year project period. Continuation awards within the project period will be made on the basis of satisfactory progress in meeting project objectives and on the availability of funds. Funding estimates outlined above may vary and are subject to change.

E. Review and Evaluation Criteria

Applications will be reviewed and evaluated according to the following criteria:

1. The applicant's understanding of AIDS prevention activities and the purpose of the cooperative agreement.
2. The ability of the applicant to identify experienced, qualified personnel and a satisfactory description of how they will supervise, coordinate, and operate the program.
3. The establishment of objectives which are consistent with the stated purpose of the cooperative agreement, and which are specific, measurable and time phased.
4. Evidence of the ability of the applicant to generate community cooperation and support for AIDS prevention activities and maintain close collaboration and working relationships with activities and maintain close collaboration and working relationships with community-based organizations serving the interests of groups at risk for AIDS.
5. The quality and scope of the applicant's current activities in AIDS information and education.
6. The quality to the applicant's proposed plan to determine current prevalence and knowledge of HTLV–III infection in groups at risk as well as how the applicant will assess current risk-associated behavior of individuals within these groups.
7. The quality of the applicant's proposed plan to promote behaviors designed to persuade individuals to remain uninfected, and prevent transmission to others if infected.
8. The soundness and potential operational impact of the overall approach.
9. An evaluation plan which specifies the method and instruments of measurement to be used.
10. The willingness to participate in technology transfer to personnel from other States and local communities.
11. The capability or plan of the applicant to maintain maximum confidentiality of all records related to clinical laboratory results on individuals and/or studies with personal identifiers.
12. The extent to which the budget is reasonable and consistent with the intended use of the cooperative funds.

II. Information Specific to Innovative Projects for Aids Risk Reduction

A. Purpose

The purpose of the innovative projects for AIDS risk-reduction is to stimulate the development of unique and innovative approaches for the prevention of HTLV–III transmission, and to evaluate the effectiveness of these approaches. The approaches to be developed should be directed toward persons infected with HTLV–III, or at risk of acquiring such infection. These persons include homosexual and bisexual men, heterosexual persons with at least one infected sex partner, women of child-bearing age with evidence of infection, users of intravenous drugs, or others potentially at risk.

Applicants may focus on components of innovative risk-reduction approaches, such as targeted education for individuals and groups at high risk of AIDS and other sexually transmitted diseases, techniques to motivate individuals to act according to information they receive, and other creative aspects of risk-reduction behavior.

The social setting for which the proposed innovative risk reduction approaches might be developed could include individuals, small groups, or larger units of analysis.

B. Cooperative Activities

1. Recipient Activities

a. Assess levels of knowledge, personal beliefs, and/or recent experiences regarding exposures to persons with AIDS, life-style changes, and HTLV–III infections in the population to be studied.

b. Select a sample of the population for more intensive study of the proposed risk-reduction approach.

c. Design and implement an innovative risk-reduction program and report the number of individuals who participate.

d. Measure knowledge, attitudes, behavioral intentions and behaviors before, during, and after participation in the risk reduction program.

e. Compare knowledge, attitudes, behavioral intentions and/or self-reported behaviors of the individuals who participate and those who do not (a control group).

2. Centers for Disease Control Activities

a. Collaborate in the design of the study, and provide consultation regarding data-collection instruments and procedures, data analysis of information gathered, and preparation of a final report.

b. Provide up-to-date scientific information regarding the natural history of HTLV–III, sensitivity and specificity of serologic tests, and other aspects of preventing transmission of HTLV–III infections.

C. Eligible Applicants

Eligible applicants are the official public health agencies of State and local governments (including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and American Samoa) and other public or nonprofit private community organizations, educational institutions

VOL 50 ISS 143 JL 25 1985 UMI

or other organizations that can demonstrate the capability to work in close cooperation with State or local health departments on the prevention and control of AIDS.

D. Availability of Funds

Approximately $600,000 to $700,000 will be available in Fiscal Year 1985 to fund two to three cooperative agreements ranging from approximately $200,000 to $300,000. It is expected that the initial cooperative agreements will begin on or about September 30, 1985, and will be funded for 12 months in a 1- or 3-year project period. Continuation awards within the project period will be made on the basis of satisfactory progress in meeting project objectives and on the availability of funds. Funding estimates outlined above may vary and are subject to change.

E. Review and Evaluation Criteria

Applications will be reviewed and evaluated according to the following criteria:

1. Evidence of the applicant's understanding of the objectives of HTLV–III prevention activities, and the rationale for innovative risk-reduction proposals.

2. Successful outcomes from the applicant's involvement in previous projects designed to prevent HTLV–III infections, other infections transmitted sexually, or other lifestyle related health problems.

3. Evidence of the ability of the applicant to generate community cooperation and support for AIDS prevention research activities and maintain close collaboration and working relationships with community-based organizations serving the interests of groups at risk for AIDS.

4. The extent to which technical expertise in the following areas is available: HTLV–III antibody testing, research design, and data analysis.

5. Evidence that a qualified and experienced research team will be available to test hypotheses.

6. The selection of an appropriate study population and an adequate description of the characteristics of the population to be investigated.

7. A clear statement of objectives consistent with the stated purpose of the cooperative agreement and which are specific, measurable, and time phased.

8. Demonstration that the proposed approach will achieve objectives.

9. Demonstration that proposed project has potential for interrupting transmission of HTLV–III.

10. The adequacy of the evaluation plan to detect effects of the proposed project to reduce transmission of HTLV–III and document the impact of the program.

11. The extent to which the budget is reasonable and consistent with the intended use of the cooperative funds.

Information Applicable to Cooperative Agreement Programs in I. and II. Above

Reporting Requirements—Progress reports are required on a quarterly basis and are due 30 days after the end of each quarter. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

Guidelines for Application Narrative—Applications must include a narrative which details the following:

A. The background and need for project support, including information that relates to factors by which the applications will be evaluated.

B. The objectives of the proposed project which are consistent with the purpose of the cooperative agreement and which are measurable and time phased.

C. The methods which will be used to accomplish the objectives.

D. The methods which will be used to evaluate the success of the project.

E. Any other information that will support the request for assistance.

F. Fiscal information, including narrative justification, pursuant to utilization of awarded funds in a manner consistent with the purpose and objectives of the project.

Submission of Applications—The original and two copies of the application must be submitted to Leo A. Sanders, Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, N.E., Room 321, Atlanta, Georgia, 30305, on or before 4:30 p.m. (e.d.t.) August 30, 1985.

A. *Deadline:* Applicantions shall be considered as meeting the deadline if they are either:

1. Received on or before the deadline date, or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

B. *Late Applications:* Applications which do not meet the criteria in A. 1. or 2. above are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

C. *Review Requirements:* Applications are not subject to the review requirements of the National Health Planning and Resources Development Act of 1974, as amended, and are not subject to Intergovernmental review pursuant to Executive Order 12372.

D. *Where to Obtain Additional Information:* Information on application procedures, copies of application forms, and other material may be obtained from Nancy Bridger, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road NE., Room 321, Atlanta, Georgia 30305, or by calling (404) 262–6575 or FTS 236–6575. Technical assistance may be obtained from Willard Cates, M.D., M.P.H., Division of Sexually Transmitted Diseases, Center for Prevention Services, Centers for Disease Control, Atlanta, Georgia 30333, telephone (404) 329–2552 or FTS 236–2552.

Dated: July 19, 1985.

William E. Muldoon,

Director, Office of Program Support Centers for Disease Control.

Food and Drug Administration

[Docket No. 85D–0108]

Draft Guideline for Submitting Supporting Documentation in Drug Applications for the Manufacture of Drug Substances; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Notice: extension of comment period.

SUMMARY: The Food and Drug Administration (FDA) is extending the comment period for the notice announcing the availability of a draft guideline "Draft Guideline for Submitting Supporting Documentation in Drug Applications for the Manufacture of Drug Substances." FDA is taking this action in response to a request from a foreign pharmaceutical firm for an extension of the comment period.

DATE: Comments by August 26, 1985.

ADDRESS: Requests for a copy of the draft guideline and written comments regarding the draft guideline to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Buford Poet, Center for Drugs and Biologics (HFN–102), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4330.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of April 25, 1985 (50 FR 16350), FDA issued a notice announcing the availability of a draft guideline entitled "Draft Guideline for Submitting Supporting Documentation in Drug Applications for the Manufacture of Drug Substances." The guideline is intended to furnish pharmaceutical manufacturers with guidance in submitting to FDA adequate information on the production and control of new drug substances.

FDA is making the draft guideline available for public comment to assist it in developing a final guideline. The guideline is one of several guidelines that FDA is developing to provide assistance to pharmaceutical firms in implementing the revisions of the new drug and antibiotic regulations, published in the **Federal Register** of February 22, 1985 (50 FR 7452), and the proposed revisions of the investigational new drug regulations, published in the **Federal Register** of June 9, 1983 (48 FR 26720).

In response to the notice of availability, FDA received a request for a 30–day extension of the comment period.

FDA has determined that its schedule for issuing the guideline in final form would not be unduly delayed by a 30-day extension of the comment period, and that such an extension to receive additional comments would be in the public interest. Accordingly, the period for submission of comments is extended to August 26, 1985.

Interested persons may, on or before August 26, 1985, submit written comments on the draft guideline to the Dockets Management Branch (address above). These comments will be considered in determining whether further amendments to or revisions of the draft guideline are warranted. Comments should be in two copies, except that individuals may submit single copies, identified with the docket number found in brackets in the heading of this document. The draft guideline and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday. Requests for a single copy of the draft guideline should be sent to the Dockets Management Branch.

Dated: July 19, 1985.

Mervin H. Shumate,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–01–M

Health Resources and Services Administration

Redesignation of Illinois Health Service Area 7 and 8

Agency: Health Resources and Services Administration, Public Health Service, HHS.

For Further Information Contact: John F. Belin, Director, Division of Agency Operations and Management, BHMORD, 5600 Fishers Lane, Room 9A–19, Rockville, Maryland 20857, 301–443–6680.

Action: This notice announces the decision by the Secretary of Health and Human Services upon reconsideration of the decision announced in the **Federal Register** on August 13, 1984 (49 FR 32259) denying a request by the Governor of Illinois that the boundaries of Illinois health service areas 7 and 8 be revised by removing DuPage County from area 7 and adding it to area 8. The decision by the Secretary is to approve the Governor's redesignation request.

Accordingly, effective on September 13, 1985, the boundaries of Illinois health service areas 7 and 8 are revised as follows:

Illinois

Health service area 7 is the geographic area comprised of Suburban Cook County. Health service area 8 is the geographic area comprised of the following counties: DuPage, Kane, Lake, and McHenry.

The effective date of September 13, 1985, has been chosen for ease of administration, since the current grant under section 1516 of the Act for the Suburban Cook/DuPage Health Systems Agency, Inc., will expire on September 12.

Dated: July 19, 1985.

John H. Kelso,

Acting Administrator, HRSA.

Bureau of Land Management

Moab District Grazing Advisory Board; Meeting

July 18, 1985.

AGENCY: Bureau of Land Management, Moab, Interior.

ACTION: Moab District Grazing Advisory Board Meeting.

SUMMARY: Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Moab District Grazing Advisory Board will be held on August 28, 1985. The meeting will begin at 10:30 a.m. in the conference room of the

VOL 50 ISS 143 JL 25 1985 UMI

Bureau of Land Management District Office at 82 East Dogwood, Moab, Utah 84532.

The agenda for the meeting will include:

1. Grazing Advisory Board's Prioritization of Allotment Project Packages.
2. Status of the Grand Resource Management Plan.
3. Update on the San Juan Resource Area's Planning Efforts.
4. Discussion of Actual Use Reports.
5. Progress Report on the San Rafael Soil/Vegetation Inventory.
6. Update on the Grazing Fee Status.
7. Update on the BLM/USFS Interchange.

The meeting is open to the public. Interested persons may make oral statements to the Board between 2 p.m. and 3 p.m. on August 28, 1985 or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 970, Moab, Utah 84532, by August 23, 1985.

Summary minutes of the Board meeting will be maintained in the District Office and will be available within thirty (30) days following the meeting.

Kenneth V. Rhea,

Acting District Manager.

BILLING CODE 4310-DQ-M

[W-0248350]

Wyoming; Proposed Continuation of Reclamation Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Reclamation proposes a 434.63 acre withdrawal for the Meeks Cabin Dam and Reservoir continue for an additional 100-year term. The lands remain closed to surface entry and the mining laws. They have been and will remain open to mineral leasing.

DATE: Comments should be received by October 23, 1985.

ADDRESS: Comments should be sent to: Chief, Branch of Land Resources, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82003.

FOR FURTHER INFORMATION CONTACT: Scott Gilmer, Wyoning State Office, (307) 772-2089.

The Bureau of Reclamation proposes that the existing withdrawal made by Public Land Order 3511, dated December 7, 1964, be continued for an additional 100-year term, pursuant to section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751, 43 U.S.C. 1714, insofar as it affects the following described lands:

Sixth Principal Meridian

Wasatch National Forest

T. 12 N., R. 117 W.,
Sec. 10, NE¼SE¼SE¼, S½SE¼SE¼;
Sec. 14, W½NW¼NE¼, NW¼, W½SW¼, W½E½SW¼, N½NE¼NE¼SW¼;
Sec. 22, E½E¼ of lot 1, E½NE¼, E½E½NE¼SE¼.

The area described contains 434.63 acres in Uinta County.

The purpose of the withdrawal is to protect the capital investments for the Meeks Cabin Dam and Reservoir and the recreational areas. The withdrawal segregates the lands from surface entry and the mining laws, but not from mineral leasing.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments in connection with the proposed withdrawal may present their views in writing to the Chief, Branch of Land Resources, in the Wyoming State Office.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing potential demand for the land and its resources. A report will also be prepared for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued, and if so, for how long. The final determination of the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

David J. Walter,

Acting State Director.

BILLING CODE 4310-22-M

National Public Lands Advisory Council; Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Meeting of the National Public Lands Advisory Council.

SUMMARY: Notice is hereby given that the National Public Lands Advisory Council will meet August 22-24, 1985, at the Owyhee Plaza Hotel, 1109 Main Street, Boise, Idaho. The meeting hours will be 8:00 a.m. to 5:00 p.m., on Friday, the 23rd, and 8:00 a.m. to 12:00 noon on Saturday, the 24th. On Thursday, August 22, Council members will participate in a field tour of BLM-managed lands in Western Idaho. The proposed agenda for the meeting is:

Friday, August 23: Morning: The State view of public land management in Idaho: Discussion of BLM/Forest Service Grazing Fee Study; Panel discussion on BLM's Wilderness Program; Meeting of Council subcommittees (Renewable Resources, Lands, Energy and Minerals, and Administrative/Legislative). Afternoon: Public Statement Period; Report on previous Council resolutions and discussion of agenda for future Council meetings; meeting of Council subcommittees.

Saturday, August 24: Morning: Final meetings of Council subcommittees; Discussion of subcommittee recommendations and passing of Council resolutions.

All meetings of the Council will be open to the public. Opportunity will be provided for members of the public to make oral statements to the Council, beginning at 1:00 p.m., Friday, August 23. Speakers should address specific national public lands issues on the meeting Agenda and are encouraged to submit a copy of their written testimony prior to oral delivery. Please send written comments by August 16 to the Bureau of Land Management's Idaho State Office at the address listed below. Depending on the number of people who wish to address the Council, it may be necessary to limit the length of oral presentations.

DATES: August 23 and 24—Council Meeting. August 23—Public Statements.

ADDRESS: Copies of public statements should be mailed by August 16 to: Director, Idaho State Office (912), Bureau of Land Management, 3380 Americana Terrace, Boise, Idaho 83706.

FOR FURTHER INFORMATION CONTACT: Karen Slater, Washington, D.C. Office, BLM, telephone (202) 343-2054; or Kris Long, Public Affairs Specialist, Idaho State Office, BLM, telephone (208) 334-1406.

SUPPLEMENTARY INFORMATION: The Council advises the Secretary of the Interior through the Director, Bureau of Land Management, regarding policies and programs of a national scope related to public lands and resources under the jurisdiction of BLM.

July 19, 1985.

[(NM 56609 (OK)), (NM 56610), (NM 56612 (OK))]

Public Land Sale in Coal, LeFlore and Pittsburg Counties, OK

AGENCY: Bureau of Land Management, Interior.

ACTION: Sale of Public Land Encompassing 1.95 Acres in Coal, LeFlore, and Pittsburg Counties, Oklahoma.

SUMMARY: The following described lands have been examined and identified as suitable for disposal by sale under section 203 of the Federal Land Policy and Management Act (FLPMA) of 1976 (90 Stat. 2743, 43 U.S.C. 1701) at no less than the appraised fair market value:

Tract	Legal description	Acres	Value
	Coal County (CO)		
CO-3	T. 1 S., R. 10 E., I.M., sec. 14: Lehigh Townsite, block 328, lot 6.	0.32	$2.50
	LeFlore County (LF)		
LF-1	T. 5 N., R. 26 E., I.M., sec. 19: Heavener Townsite, block 60.	.08	2.50
LF-9	T. 9 N., R. 25 E., I.M., sec. 20: lot 1.	0.56	25.00
	Pittsburg County (PT)		
PT-11	T. 5 N., R. 16 E., I.M., sec. 6: NW¼SE¼ (within).	1.09	150.00

Aggregating 1.95 acres.

The identified tracts are being offered at direct sale to the following adjoining land owners at the indicated appraised fair market value:

Tract	Name	Residence
CO-3	Leonard E. Linton	Lehigh, OK.
LF-1	John Bateman	Heavener, OK.
LF-9	Hercel Hickman	Panama, OK.
PT-11	Ralph D. Lalli	Krebs, OK.

The identified parties are the only adjoining land owners and they control all legal access to these tracts. The tracts will be incorporated into the agricultural operations of these land holders. The tracts will be disposed of if the offer to purchase the land is refused by the adjoining land holders.

The proposed sale is consistent with the Bureau's planning system and the FLPMA of 1976. Public interest will be served by disposition of these isolated tracts that are difficult and uneconomical to manage as part of the public lands, and are not suitable for management by another Federal department or agency.

The lands will not be offered for sale until 60 days after the date of this notice. Patents, when issued, will contain the following reservations:

1. All minerals (or partial or specific mineral interests, where applicable) shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals. A more detailed description of this reservation, which will be incorporated in the patent document, is available for review at this Bureau of Land Management office.
2. The sale of the lands will be subject to all valid existing rights and reservations of record.

For a period of 45 days after the date of issuance of this Notice, interested parties may submit comments to the District Manager, Tulsa District Office, 6136 East 32nd Place, Tulsa, Oklahoma, 74135. Objections will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

ADDRESS: Comments and suggestions should be sent to: District Manager, Bureau of Land Management, Tulsa District Office, 6136 East 32nd Place, Tulsa, OK 74135.

FOR FURTHER INFORMATION CONTACT: Hans Sallani, telephone (405) 231-5491.

Jim Sims,

District Manager.

BILLING CODE 4310-FB-M

[NM 56613 (OK)]

Public Land Sale in Latimer County, OK

AGENCY: Bureau of Land Management, Interior.

ACTION: Sale of Public Land Encompassing 77.82 Acres in Latimer County, Oklahoma.

SUMMARY: The following described lands have been examined and identified as suitable for disposal by sale under section 203 of the Federal Land Policy and Management Act (FLPMA) of 1976 (90 Stat. 2743, 43 U.S.C. 1701) at no less than the appraised fair market value of $19,500.00:

Tract	Legal description	Acres plus accretions
	Latimer County (LT)	
LT-2 and LT-3	T. 6 N., R. 21 E., I.M., sec. 31, NE¼SW¼, and lot 3.	77.82

The proposed sale is consistent with the Bureau's planning system and the FLPMA of 1976. Public interest will be served by disposition of these isolated tracts that are difficult and uneconomical to manage as part of the public lands, and are not suitable for management by another Federal department or agency.

Patents, when issued, will contain the following reservations:

1. All minerals (or partial or specific mineral interests, where applicable) shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals. A more detailed description of this reservation, which will be incorporated in the patent document, is available for review at this Bureau of Land Management office.
2. The sale of the lands will be subject to all valid existing rights and reservations of record.
3. The tracts will be subject to a floodplain restriction under Executive Order 11988.
4. The successful bidder agrees that he takes the real estate subject to the existing grazing use of Mr. Vernon D. Lyons, holder of grazing authorization

VOL 50 ISS 143 JL 25 1985 UMI

No. 0757. The rights of Mr. Lyons to graze domestic livestock on the real estate according to the conditions and terms of grazing authorization No. 0757 shall cease on February 28, 1991. The successful bidder is entitled to receive annual grazing fees from Mr. Lyons in an amount not to exceed that which would be authorized under the Federal grazing fee published annually in the Federal Register.

The patent to parcel number LT-2 (section 31) will contain a wetland protection patent restriction. The type, location, and size of the wetland will appear in the patent as well as the following restrictive language:

In accordance with section 209 of the FLPMA of 1976, 43 U.S.C. 1718 (1976) and section 4 of Executive Order 11990 (1978), 3 Code of Federal Regulations 121 (1978), the patentee's use of the patented lands is restricted as follows:

1. Restrictions on use of wetlands contained in applicable Federal, state, or local wetlands regulations are incorporated hereby as if set forth fully herein.

2. The patentee may not use the patented land, or authorize its use, in such a manner that would directly or indirectly result in an adverse alteration of the wetland characteristics or category of that portion of the lands identified above as wetlands.

The patent restrictions are binding upon the patentee and his successors, heirs, and assigns.

The identified tracts will be sold under modified competitive bidding procedures. Bidding will be restricted to the adjacent land owners. The designated bidders for the identified tracts are as follows: Mr. C.C. Gillespie, Mr. C.D. Hague, Mr. Wayne Grogan, Ms. Vera N. Melone, Mr. Vernon D. Lyons, Jeffie Cannon Estate, Mr. Kenneth T. Gwin, Mr. Elmer Lyons, Mr. Jefferson D. Reed, Mr. Vern Mendenhall, and Mrs. Florence Johnston. Federal law requires that bidders be United States citizens or, in the case of a corporation, subject to the laws of any state of the United States. Bidders (adjacent land owners) will also be required to submit a deed with their bid in order to show proof of ownership to adjacent lands. Failure to submit bids by any of the above named bidders shall constitute a waiver of such right. Modified competitive bidding procedures are being used to recognize historical land uses, consideration for the lack of legal access to these tracts, and the needs of adjacent land owners.

The tracts offered for disposal will be sold by sealed bid. Sealed written bids will be considered only if received by the Bureau of Land Management, Oklahoma Resource Area Headquarters, 200 N.W. Fifth Street, Room 548, Oklahoma City, Oklahoma, 73102, prior to 10:00 a.m., Monday, September 23, 1985. The tract numbers should be printed on the lower left hand corner of the mailing envelope (example, Land Sale—Tract LT-2 and LT-3). Each written sealed bid must be accompanied by a certified check, postal money order, bank draft, or cashiers check made payable to the Department of the Interior, Bureau of Land Management, for at least twenty percent of the amount bid. The written, sealed bids will be opened and publicly declared at the beginning of each sale. If two or more envelopes containing valid bids of the same amount are received, the determination of which is to be the highest bid shall be by supplemental sealed bids.

Once a high bid is accepted, the successful bidder shall sumbit the remainder of the full bid price within 180 days of the sale. Failure to pay the full bid price within 180 days shall result in cancellation of the sale of the tracts, and the deposit shall be forfeited and disposed of as other receipts of sale. All bids will be either returned, accepted, or rejected within 30 days of the sale date.

If Tracts LT-2 and LT-3 are not sold to the identified adjacent land owners, they will be available for sale by sealed bid on a first come basis for a period of three months, beginning on September 26, 1985 and ending at the close of business on December 26, 1985.

DATE: For a period of 46 days after the date of issuance of this Notice, interested parties may submit comments to the District Manager, Tulsa District Office, 6136 East 32nd Place, Tulsa, Oklahoma, 74135. Objections will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

ADDRESS: Comments and suggestions should be sent to: District Manager, Bureau of Land Management, Tulsa District Office, 6136 East 32nd Place, Tulsa, OK 74135.

BILLING CODE 4310-FB-M

[A 997]

Arizona; Partial Cancellation of Withdrawal Application

July 19, 1985.

The Bureau of Reclamation, Department of the Interior, filed withdrawal application A 997 on May 12, 1967, which was published July 18, 1967 as FR Doc. 67-8213 on Pages 10518 and 10519. This application is hereby cancelled insofar as it affects the following described lands:

Gila and Salt River Meridian, Arizona

T. 5 N., R. 1 E.,
Sec. 23, S½N½NE¼, S½NE¼, NW¼;
Sec. 24, W½W½SW¼NW¼.

The area described contains 290 acres in Maricopa County, Arizona.

The lands have been classified pursuant to the Recreation and Public Purposes of Act of June 14, 1926, 44 Stat. 741, as amended; 43 U.S.C. 869 et seq., as the result of the filing of Application A 17979 by the Maricopa County Flood Control District. The land will continue to be segregated from settlement, sale, location, or entry under the public land laws, including the mining laws (30 U.S.C. Ch. 2), but not the mineral leasing laws.

Any questions concerning these lands should be directed to the District Manager, Phoenix District Office, 2015 West Deer Valley Road, Phoenix, Arizona 85027, telephone number (602) 863-4464.

John T. Mezes,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-32-M

Colorado; Canon City District Advisory Council; Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of meeting.

SUMMARY: A meeting of the Canon City District Advisory Council will be held on Wednesday and Thursday, August 21 and 22, 1985. The council will meet from 1 p.m. to 5 p.m. on August 21, at the Holiday Inn, 333 Santa Fe Avenue in Alamosa, Colorado. A field trip will be conducted on August 22, departing the Holiday Inn at 8 a.m to view mining activities and range management issues on public lands. The tour will conclude at approximately 2 p.m. The public is invited to participate on the tour but must arrange their own transportation. The meeting agenda will include:

1. Protested decisions in the Northwest Resources Area Resource Management Plan/Environmental Impact Statement.
2. Proposed BLM-FS Interchange.
3. Northeast Resource Area Special Review of Realty actions.
4. Fire Management
5. Budget outlook for the 1986 fiscal year.
6. Reports by Area Managers on current programs.
7. Public presentations to the Council (open invitation).

The meeting is open to the public. Persons interested may make oral presentations to the Council between 1:30 p.m. and 2:30 p.m. Wednesday, August 21, 1985 or they may file written statements for the Council's consideration.

The District Manager may limit the length of oral presentations depending on the number of people wishing to speak.

ADDRESS: Anyone wishing to make a presentation to the Council orally or in writing are requested to notify the District Manager, Bureau of Land Management, P.O. Box 311, 3080 East Main, Canon City, Colorado 81212 by August 19, 1985.

SUPPLEMENTARY INFORMATION: Summary minutes of the meeting will be available for public inspection and reproduction during regular working hours at the District Office approximately 30 days following the meeting.

FOR FURTHER INFORMATION CONTACT: Glenn Wallace, (303) 275-0631.

BILLING CODE 4310-GG-M

Realty Action; Non-Competitive Sale of Public Land in Baxter County, AR

AGENCY: Bureau of Land Mangement, Interior.

ACTION: Notice of Realty Action—Non-competitive Sale, Public Lands, Baxter County, Arkansas.

SUMMARY: The following described land has been examined and identified as suitable for disposal by sale under the provisions of section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713), at no less than fair market value. The appraised fair market value will be available no less than 30 days prior to sale date.

5th Principle Meridian

T. 20 N., R. 12 W.,
Sec. 10, W½, W½, SW¼, NW¼, NE¼, SE¼.

The described land aggregate .625 acres in Baxter County, Arkansas.

The land is being offered as a direct sale to the adjacent landowner. Sale of this land will not occur until at least 60 days after the date of this notice. The subject land is located in northern Arkansas in Baxter County. The land is a small isolated parcel not suitable for management by other Federal agencies.

The land is difficult and uneconomic for the Bureau to manage. The proposed sale is consistent with the Bureau's planning system. Terms and conditions: The terms and conditions applicable to the sale are as follows:

1. All minerals will be reserved to the United States together with the right to explore, prospect for, mine, or remove same under applicable law and regulations;

2. The sale of these lands will be subject to all valid existing rights and reservations of record.

Publication of this Notice will segregate the subject land from all appropriations under the public land laws, but not the mineral leasing laws. This segregation will terminate upon the issuance of a patent, or 18 months from the date of this Notice, or upon publication of a Notice of Termination.

Detailed information concerning the sale, including the environmental assessment and land report, is available for review at the BLM office listed below.

For a period of 45 days after the date of issuance of this notice, the public and interested parties may submit comments to the District Manager, Jackson District Office, P.O. Box 11348, Jackson, Mississippi 39213. Comments will be evaluated by the District Manager, who may vacate or modify this Realty Action. Telephone: (601) 960–4405.

Donald L. Libbey,

District Manager.

Sale of Public Lands in Washington County, UT

AGENCY: Bureau of Land Management, Interior.

ACTION: Under Section 203 of the Federal Land Policy and Management Act of 1976 (43 USC 1713) public land described as follows is proposed for sale by competitive bidding at no less than the appraised fair market value:

Legal description	Acres	Appraised value	Parcel
T. 37 S., R. 16 W., SLB&M			
Sec. 3, NE¼SE¼, S½SE¼	120	$12,000	1
Sec. 8:			
NE¼NE¼	40	10,000	2
SW¼NE¼	40	10,000	3
SE¼NE¼	40	10,000	4
Sec. 9, NW¼NW¼	40	10,000	5
Sec. 10, W½NW¼	80	14,000	6
Sec. 10, N½NE¼, SE¼NE¼	120	12,000	7
Sec. 11, NW¼	160	16,000	8
Total acres	640		

The lands described are hereby segregated from all forms of appropriation under the public land laws, including the mining laws, pending disposition of this action.

SUMMARY: The purpose of the sale is to dispose of public land that is difficult and uneconomical to manage by a government agency.

DATES: Comments should be submitted to the address listed below by September 16, 1985. The sale will be held on September 24, 1985 at 10:00 a.m.

ADDRESS: Detailed information concerning the sale, including bidding procedures, is available at the Beaver River Resource Area Office, 444 South Main, Cedar City, Utah 84720 (801) 586–2458. The sale will be held at the same address.

SUPPLEMENTARY INFORMATION: The terms and conditions applicable to the sale are:

1. The sale will be for the surface estate only. Minerals will remain with the United States Government.

2. There is reserved to the United States, a right-of-way for ditches or canals constructed by the authority of the United States, Act of August 30, 1890, 26 Stat. 391, 43 USC 945.

3. Title transfer will be subject to valid existing rights.

4. Pursuant to CFR 2711.1–3, the sale of parcels 1, 7 and 8 will be conditioned upon continued grazing by the current permittee (Alma Holt) until February 28, 1989, which is the expiration date of this current grazing permit.

5. If the tract of public land is not sold pursuant to this notice, it will remain available for sale on a continuing basis until sold or until withdrawn from the market.

Any comments or objections received during the comment period will be evaluated and the District Manager may vacate or modify this realty action. In the absence of any objections, this realty action notice will be the final determination of the Department of the Interior.

Dated: July 18, 1985.

Morgan S. Jensen,

District Manager.

INTERNATIONAL TRADE COMMISSION

Agency Form Submitted for OMB Review

AGENCY: International Trade Commission.

ACTION: In accordance with the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the Commission has submitted a proposal for the collection of information to the Office of Management and Budget for review.

Purpose of information collection: The proposed information collection is for use by the Commission in connection with investigation No. 332–216, Competitive Assessment of the U.S. Forging Industry, instituted under the authority of section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)).

SUMMARY OF PROPOSALS:

(1) Number of forms submitted: three
(2) Title of form: Competitive Assessment of the U.S. Forging Industry—Questionaries for U.S. Producers, Importers, and Purchasers
(3) Type of request: new
(4) Frequency of use: nonrecurring
(5) Description of respondents: firms which produce, import, or purchase forged products
(6) Estimated number of respondents: 364
(7) Estimated total number of hours to complete the forms: 9,060
(8) Information obtained from the form that qualifies as confidential business information will be so treated by the Commission and not disclosed in a manner that would reveal the individual operations of a firm.

Additional information or comment: Copies of the proposed form and supporting documents may be obtained from Dennis Rapkins, (USITC, tel. no. 202–523–0438). Comments about the proposals should be directed to the Office of Information and Regulatory Affairs of OMB, Office of Management and Budget, New Executive Office Building, Washington, DC 20503, Attention: Francine Picoult, Office of Information and Regulatory Affairs, Desk Officer for U.S. International Trade Commission. If you anticipate commenting on a form but find that time to prepare comments will prevent you from submitting them promptly you should advise OMB of your intent within two weeks of the date this notice appears in the **Federal Register**. Ms. Picoult's telephone number is 202–395–7231. Copies of any comments should be provided to Charles Ervin (United States International Trade Commission, 701 E Street, NW., Washington, D.C. 20436).

By order of the Commission.

Issued: July 22, 1985.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB–55 (Sub-No. 151X)]

Seaboard System Railroad Co.; Abandonment Exemption in Claiborne County, TN; Exemption

Applicant has filed a notice of exemption under 49 CFR Part 1152 Subpart F—*Exempt Abandonments* to abandon approximately 2.50 miles of rail line between mileposts CV–220.00 and CV–222.50, near Cumberland Gap in Claiborne County, TN.

Applicant has certified (1) that no local traffic has moved over the line for at least 2 years and that no overhead traffic moves over the line, and (2) that no formal complaint filed by a user of rail service on the line (or by a State or local governmental entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or any U.S. District Court, or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected pursuant to *Oregon Short Line R. Co.-Abandonment-Goshen*, 360 I.C.C. 91 (1979).

The exemption will be effective August 24, 1985 (unless stayed pending reconsideration). Petitions to stay must be filed by August 5, 1985 and petitions for reconsideration, including environmental, energy, and public use concerns, must be filed by August 14, 1985 with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Charles M. Rosenberger, Seaboard System Railroad, Inc., 500 Water Street, Jacksonville, FL 32202.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

A notice to the parties will be issued if use of the exemption is conditioned upon environmental or public use conditions.

Decided: July 16, 1985.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

James H. Bayne,

Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF JUSTICE

[AAG/A Order No. 8–85]

Privacy Act of 1974; Notice of a Modified System of Records

Pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Office of Legal Policy, Department of Justice, will modify a system of records last published on December 9, 1981, in **Federal Register** Volume 46, page 60333, and identified as the "United States Judges Record System, JUSTICE/OLP–002." Specifically, the Office of Legal Policy proposes to add new routine uses.

The new routine uses will permit disclosure to members of the judicial branch of the Federal Government; to any civil or criminal law enforcement authorities; to officials and employees of the White House or any Federal agency; to Federal, State, and local licensing agencies or associations; and in a proceeding before a court or adjudicative body. The new routine uses, which are more fully described in the system notice reprinted below, have been italicized for public convenience.

Address and submit any comments to Thomas F. O'Leary, Assistant Director, General Services Staff, Room 6314, Justice Management Division, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530 by August 26, 1985.

Since the new routine uses are compatible with the purposes for which this system is maintained, the Department will not be submitting a report to the Office of Management and Budget and the Congress.

Dated: May 20, 1985.

W. Lawrence Wallace,

Acting Assistant Attorney General for Administration.

JUSTICE/OLP–002

SYSTEM NAME:

United States Judges Records System

SYSTEM LOCATION:

Office of the Legal Policy United States Department of Justice: 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses every United States Judge except those appointed to the United States Court of Military Appeals and Tax Court.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records consists of records folders which may contain up to five sections. The personnel section contains general, personnel-type information and includes such items as biographical sketches, oaths of office, copies of commissions, nomination letter, qualifications statements, letters of recommendation, and copies of notification of appointment. The character section contains completed or portions of on-going background investigations and matters related thereto. The Congressional section contains Congressional and other political type recommendations regarding appointment. The complaint section contains correspondence from individuals or groups complaining about officer holders. The protest section contains correspondence, if any exists, protesting the appointment of candidates.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Generally, these records are used only for internal Department of Justice purposes. Prior to appointment, routine uses would include those specified for the Presidential Appointee Candidate Record System.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of

VOL 50 ISS 143 JL 25 1985 UMI

a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is subject of the record.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use of the National Archives and records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Release of information to the Judicial Branch of the Federal Government: Information may disclosed to members of the judicial Branch of the Federal Government in response to a specific request where disclosure appears relevant to the authorized function of the recipient judicial office of the court.

Release of information to civil or criminal law enforcement agencies: Information may be disclosed to any civil or criminal law enforcement agency, whether Federal, State, local, or foreign, which requires information relevant to a civil or criminal investigation.

Release of information to agencies regarding the hiring or retention of employees: Information may be disclosed to officials and employees of the White House or any Federal agency which requires information relevant to an agency decision concerning the hiring, appointment, or retention of an employee; the issuance of a security clearance; the execution of a security or suitability investigation; the classification of a job; or the issuance of a grant or benefit.

Release of information to Federal, State, and local licensing agencies: Information may be disclosed to Federal, State, and local licensing agencies or associations which require information concerning the suitability or eligibility of an individual for a license or permit.

Release of information before a court or adjudicative body: Information may be disclosed in a proceeding before a court or adjudicative body before which the Office of Legal Policy is authorized to appear when (a) the Office of Legal Policy, or any subdivision thereof, or (b) any employee of the Office of Legal Policy in his or her official capacity, or (c) any employee of the Office of Legal Policy in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where the Office of Legal Policy determines that the litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by the Office of Legal Policy to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

These records are maintained in paper folders.

RETRIEVABILITY:

Information is retrieved by use of the name of the judge, as these records are filed alphabetically.

SAFEGUARDS:

These records are maintained in cabinets stored in a locked room.

RETENTION AND DISPOSAL:

The personnel section of the folders of United States Supreme Court Judges are sent to the National Archives upon the death of the judge. All other sections are retained indefinitely as are the entire records folders of all other United States Judges.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Attorney General; Office of Legal Policy, United States Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

NOTIFICATION PROCEDURE:

Address all inquiries to the System Manager. These records will be exempted from subsections (d)(1) and (e)(1) of section 552a, Title 5, United States Code, by the Attorney General under the authority of 5 U.S.C. 552a(k)(5) to the extent therein permitted.

RECORD ACCESS PROCEDURES:

A request for access to non-exempt portions of records from this system should be directed orally or in writing to the System Manager. When requests are in writing, the envelope and letter should be marked 'Privacy Access Request.'

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment(s) to the information.

RECORD SOURCE CATEGORIES:

Non-exempt sources of information contained in this system include the general public, organizations, associations, the subjects of the records themselves, government agencies as appropriate, and other interested parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (d)(1) and (e)(1) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

BILLING CODE 4410-01-M

Office of Juvenile Justice and Delinquency Prevention

Missing Children's Assistance Act Final Program Priorities

AGENCY: Office of Juvenile Justice and Delinquency Prevention, Justice.

ACTION: Notice of final program, Priorities for Missing Children's Assistance Act.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is publishing its final program priorities for making grants and contracts under the Missing Children's Assistance Act, Title IV of the Juvenile Justice and Delinquency Prevention Act of 1974, for Fiscal Year 1985.

FOR FURTHER INFORMATION CONTACT: Michelle Easton, Coordinator, Missing Children's Program, Office of Juvenile Justice and Deliquency Prevention, 633 Indiana Avenue NW., 20531, (202) 724-7655.

SUPPLEMENTARY INFORMATION:

Responsibility for establishing annual research, demonstration, and service program priorities for making grants and contracts pursuant to section 406 of the Missing Children's Assistance Act rests with the Administrator of the Office of Juvenile Justice and Deliquency Prevention. As required by the Act, the Administrator announced his proposed program priorities on May 10, 1985, and accepted public comments on these priorities for sixty days. The proposed funding priorities were established as required by the Missing Children's Assistance Act, in consultation with the Missing Children's Advisory Board appointed by the Attorney General. The Administrator is now announcing the establishment of the final Funding priorities.

The final Funding priorities follow:

1. National Incidence Study to Determine the Numbers of Missing Children. This study will attempt to determine for a given year the number of children reported missing. This will include children who are missing because they are victims of abductions, including victims of stranger abductions, victims of parental abductions, and other kinds of abductions. The study will also attempt to determine the number of children who are missing because they are runaways, because they are "throwaways", because their whereabouts are unkown to their legal custodians for even a short period of time, or for other reasons. The study will also attempt to determine how many of these types of missing children are recovered each year.

2. National Study of Law Enforcement Agencies Policies and Practices regarding Missing Children and Homeless Youth.

This will be a comprehensive national study of Law Enforcement Agencies' Practices used to handle missing and homeless children cases.

The study is designed to identify the most effective police methods of handling reports, investigations and follow up on missing and homeless children, and to complement other forthcoming initiatives in the Missing Children's Assistance Act Programs.

3. Assistance to the Federal Law Enforcement Training Center at Glynco for a Training Program for Handling Missing and Exploited Children Cases.

Funds from the Missing Children's Assistance Act appropriation will be used to assist in the development of the curriculum on missing and exploited children taught at Glynco. Model investigative practices for law enforcement officers will be taught at Glynco with an emphasis on sighting specific police department examples of successful applications.

4. Research.

The following three areas will be explored:

A. The relationship between missing and abducted children and sexual exploitation.

B. The psychological consequences of abduction and sexual exploitation.

C. The child victim as witness.

After a thorough assessment of the research that currently exists, the research that is currently being done and the research that is being planned, specific projects in these areas will be announced.

Addition to Proposed Funding Priorities

5. Training Program for Practitioners Involved with missing and exploited children.

This program will be designed to educate and train practitioners in community agencies, institutions and organizations on all aspects of the issue of Missing and Exploited Children.

6. Assistance to State Clearinghouses for Missing and Exploited Children.

This program will provide a small amount of funds to states which have legislatively established state operated clearinghouses. These will be small one time awards for two years, designed to encourage states to establish clearinghouses and to operate data collection systems in a uniform manner. Compilation of accurate and relevant statistics and cooperation with the National Center for Missing and Exploited Children and other OJJDP-sponsored research initiatives will be among the responsibilities required of those states which receive the Federal assistance.

7. Assistance to Private Voluntary Organizations.

This will be a competition designed to award one-time grants to nonprofit private organizations working on the issue of missing and exploited children. These are groups that are engaged in education activities, prevention activities, information dissemination activities, materials collection activities and other activities related to Missing and Exploited Children.

Deletion from Proposed Funding Priorities

Deleted from the Proposed Funding Priorities published on May 10, 1985 is technical assistance to private voluntary organizations for their operation and management. This assistance will not be funded by the Administrator under the authority of section 406(a) of The Missing Children's Assistance Act but rather under section 404(b) of the Missing Children's Assistance Act and therefore is no longer listed as a Funding priority for purposes of the notice.

Discussion of Comments

The proposed Program Priorities for the Missing Children's Assistance Act were published in the Federal Register on May 10, 1985 (50 FR 19817). Written comments were received from some 25 National, Regional, and Local organizations and individuals within the 60 day comment period. All comments have been considered by the OJJDP in the issuance of these final program priorities. A majority of the respondents commented very favorably upon the proposed priorities.

The following is a summary of the substantive comments and the response by OJJDP.

1. National Incidence Study

The comments about this study were very positive. Several commentators stressed the importance of clearly defining, delineating and identifying the various types and categories of missing children prior to undertaking the survey.

Responses: OJJDP intends to carefully consider and evaluate all aspects of the design of the Incidence Study prior to the start of the study. OJJDP will seek expert advice on the many involved in doing this study including: sampling design and procedures which will maximize chances of locating an incident and from which reliable national estimates of the incidence and prevalence of missing children in the population can be developed, best methods for the implementation of the survey; legal and ethical issues to consider in the administration of the survey; as well as more precise definitions of the categories of missing children.

2. Law Enforcement Assistance

Comment: One commentator was concerned that law enforcement agencies do not keep much information on runway children, and that such information is kept informally rather than entered into computer data bases.

Response: The nature of information law enforcement agencies keep on runaways and how they keep it is one of the items that the national study of law enforcement policies and practices will determine. To date no such national survey has been conducted of the law enforcement role in identification, location and recovery of missing children. The statutory definition of missing children is interpreted to include runaway children since they are assumed to be a risk of exploitation. By focusing primarily on local law enforcement agencies practices for handling missing children (including runaways, homeless youth, parental abduction and kidnapping, stranger abduction and kidnapping, potential accident victims, lost children, and others,) we anticipate having for the first time empirically-based information which can be used in formulating recommendations for improvements in police practices.

Comments: Several commentators noted that in addition to the information the police practices survey will be

VOL 50 ISS 143 JL 25 1985 UMI

gathering, there is also a need for more training of law enforcement in handling of missing and exploited children cases.

OJJDP had added to the Funding priorities the training of practitioners involved in the issue of missing and exploited children. This is listed above as Funding Priority 5.

3. Research

Comments: Several commentators mentioned areas within the three general research areas listed in the proposed Funding priorities on which they believe OJJDP should concentrate.

Response: OJJDP is currently conducting assessments of research currently being done, research that has already been completed, and research planned in order to determine the appropriate focus and research strategy for each of the three funding priority areas. Public comments on the proposed funding priorities are being carefully considered now, and will be considered concurrently with the results of the assessments.

Comment: Several commentators expressed concern the OJJDP coordinate with other federal agencies in order in minimize the possibility of duplication in areas of research.

Response: OJJDP assessments of research in the three designated areas are intended to insure that new research builds on previous studies; to eliminate the possibility of such duplication, and to maximize opportunities for collaboration.

4. Technical Assistance to PVO's

The Administrator has determined that technical assistance to Private Voluntary Organizations will not be a Funding priority under section 406 (a) of the Missing Children's Assistance Act. The Adminstrator intends to fund such a technical assistance program under section 404 (b) of the Missing Children's Assistance Act.

Comments: Several commentators expressed concern that assistance to private organizations would be given only in the form of technical assistance rather than through grants.

Response: The Administrator has added a funding priority of grant assistance to private voluntary organizations. This is listed above as Funding priority number 7.

5. Other Comments on Proposed Funding Priorities

Comments: Several commentators was concerned that the proposed priorities did not address prevention/education programs.

Response: The final priorities listed above include State Clearinghouses, grants to private voluntary organizations, as well as training programs and will have a substantial impact in the prevention/education area.

Comments: Several commentators expressed concern that the proposed Funding priorities did not address specifically enough issues regarding runaways, throwaways, homeless youth and street youth.

Response: Title III of the OJJFP Act addresses this population. In addition the statutory definition of missing children in section 403 of the Missing Children's Assistance Act covers in large part the above listed categories of missing children. Consequently where appropriate, a project or program for missing children will include these categories of missing children.

Dated: July 18, 1985.

Approved:

Alfred S. Regnery,

Administrator, Office of Juvenile Justice and Delinquency Prevention.

[FR Doc. 85-17653 Filed 7-24-85; 8:45 am]

BILLING CODE 4410-18-M

National Study of Law Enforcement Agencies' Policies and Practices Regarding Missing Children and Homeless Youth

AGENCY: Office of Juvenile Justice and Deliquency Prevention (OJJDP), Justice.

ACTION: Notice of reissuance of solicitation for applications originally issued on June 14, 1985, (Vol. 50 FR 24915), to conduct a comprehensive national study of law enforcement agencies' practices regarding the handling of missing children and homeless youth. This study is being undertaken in order to guide future training, technical assistance and public education programs addressing the problems of missing children and homeless youth.

SUMMARY: The Office of Juvenile Justice and Deliquency Prevention (OJJDP), pursuant to sections 404(b)(3) and 406(a)(5) of the Juvenile Justice and Deliquency Prevention Act of 1974, as amended, is sponsoring a comprehensive national study of law enforcement agencies' policies and procedures for handling reports of missing children and for identifying and recovering children and youth who may be missing, or, homeless and at risk of exploitation.

Public agencies and *private not-for-profit* organizations which can demonstrate the capability to design and carry out this study are invited to submit applications to enter into a cooperative agreement with the OJJDP.

OJJDP will select the applicant which presents the most cost effective and innovative approach, and which best demonstrates the organizational capability, knowledge of and experience in the field of applied research in the area of law enforcement policy and research relating to missing children. The project period is for up to twenty-four months, during which three distinct surveys of law enforcement practices will be conducted. Applicants are invited to present alternative design strategies to that proposed in this solicitation. Applicants are encouraged to present cost-competitive proposals.

Summary of changes: Pursuant to statutory provisions (section 406(a)) which restrict the Administrator from making grants to or entering into contracts with profit-making organizations, such organizations are not eligible to be primary recipients of this cooperative agreement. Participation by profit-making organizations is permissible only as contractors to other eligible applicants, provided that adequate justification for their involvement be presented.

The project period has been extended from eighteen months up to twenty-four months and time frames have been modified to reflect this change. The budget amount has been eliminated to encourage the submission of comprehensive, cost-competitive proposals. The deadlines for submission of applications has been extended to August 30, 1985, and for receipt of letters of intent from those still intending to submit applications is August 9, 1985.

I. Introduction and Background

The problem of missing children has become a focus of national concern because it is a problem of national proportions. It is estimated that hundreds of thousands of children are missing from their homes each year for varying periods of time. While most of these children eventually return home, many become victims of physical or sexual abuse and in some cases even homicide.

The U.S. Congress took important steps to address this problem by passing the Missing Children Act in 1982 and, in 1984, the Missing Children's Assistance Act Title IV of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended. In June 1984, the National Center for Missing and Exploited Children (NCMEC) was established as part of the Federal government's commitment to the issue of missing children.

The NCMEC serves as a clearinghouse of information and assistance concerning missing children and the criminal and sexual exploitation of children. Nationwide awareness campaigns are conducted to let families know what to do if a child is missing. Through its toll free number (1-800-843-5678), the Center helps coordinate information on missing and exploited children, which may lead to the location and recovery of a missing child. The Center is linked to the FBI's National Crime Information Center's Missing Person File (NCIC/MPF). The Center also provides training for law enforcement personnel to assist them in recognizing when a runaway is a victim of abuse, and how to obtain help for that child. It helps law enforcement agencies to understand the link between the runaway child and the crimes of theft, drug abuse, prostitution and pornography.

In order to maximize the effectiveness of the Missing Children's Act and the National Center for Missing and Exploited Children, it is necessary to overcome some of the prevalent problems facing national efforts of law enforcement, citizen groups and private organizations in responding to the problem. The following impediments present significant challenges in understanding the nature and extent of the problem itself and identification of effective strategies to respond to it:

1. Fragmented and incomplete sources of information on missing children nationwide;
2. Lack of uniformity in defining "missing children" for purposes of law enforcement intervention;
3. Inconsistencies within and across jurisdictions in term of follow-up of particular missing children cases such as parental kidnapping, runaways and homeless youth; and
4. Lack of profiles on the types of missing children themselves, the circumstances of their disappearance, and their experiences while missing.

II. Research Strategy

In response to the Congressional mandate to establish annual research, demonstration and service strategies for making grants and contracts pursuant to section 406 of the Missing Children's Assistance Act, the Administrator of the OJJDP has established program priorities which have been announced in this edition of the Federal Register.

A. Overall Strategy

This solicitation to conduct a National Study of Law Enforcement Agencies Policies and Practices for Handling Missing Children and Homeless Youth is the first component of this comprehensive strategy of research, program development and technical assistance. It is intended to identify the most effective police methods of handling reports, investigations and follow-up and to complement other initiatives that are forthcoming.

The other major research projects include:

1. National Incidence Study to Determine the Actual Numbers of Missing Children. This will study determine for a given year the number of children under the age of 18 who are reported missing, including the numbers of such children who are victims of abductions by strangers, parental kidnappings and the number of children who are recovered each year. It will also determine the number of children whose whereabouts are unknown to their legal custodians because they are runaways, or missing for other reasons. It is anticipated that this effort, which will survey households, will gather important data regarding the numbers and characteristics of all incidents of missing children—both those reported and unreported—and should provide valuable information on the circumstances and the duration of the absences, the child's experience, and assistance to the youth and family.

2. The Relationship between Missing and Abducted Children and Sexual Exploitation. Following an assessment of the literature on sexual exploitation of children, a research project will be undertaken to gather more factual information of the correlation between missing children and their risk of sexual exploitation and its consequences.

3. Psychological Consequences of Abduction and Sexual Exploitation of Children. Research is needed in this area to identify effective methods for treating children who have been victims of abduction and sexual exploitation and for helping the parents and child return to normalcy after the event.

4. The Child Victim as Witness. Children are serving more frequently as witnesses in trials of their accused abductors and abusers. Research is needed on the effectiveness of children as witnesses, the negative effects of the proceeding on children as well as other aspects of the child victim as witness.

B. Proposed Strategy for the National Study of Law Enforcement Agencies' Policies and Practices for Handling Missing Children and Homeless Youth

The following *proposed* research strategy for conducting the National Study of Law Enforcement Agencies' Policies and Practices for Handling Missing Children and Homeless Youth is offered as one potential means for accomplishing the goals and objectives of this research (See section III of the solicitation.) Applicants are invited to present alternative strategies which promise to achieve the objective of the research. Therefore, where specific numbers of sites or cases are proposed herein, applicants should comment on the feasibility and suitability of these target numbers and, if needed, offer viable alternatives which will enhance the likelihood of getting reliable, comprehensive and representative information within the timeframes and resource limitations of the project

The Law Enforcement Study is designed to be conducted in three sequential phases.

Phase I: Phase I will begin with a national mail survey which will provide the broadest geographic coverage but the least level of detail on actual law enforcement practices. In this phase it is anticipated that a nationally representative sample of *at least 500* full service law enforcement agencies will be selected for survey. The types of information to be gathered are discussed below in section III.A. of this solicitation. The results of this phase will serve two purposes: to provide general descriptive data on law enforcement policies, procedures and preliminary estimates of the numbers of reported missing children's cases; and, to guide the selection of jurisdictions in subsequent phases of the research. Applicants will be asked to identify types of questions that would yield productive information in this phase of the research.

Phase II: The second phase should begin by the ninth month of the project period. This phase will consist of on-site interviews with personnel from *up to* 100 law enforcement agencies in the initial sample. The second sample of agencies should be chosen to reflect a wide range of police practices, geographic characteristics and rates of missing children reports based upon the initial data from Phase I. The specific kinds of information sought in this phase, are outlined in section III.B., and will be more detailed than the first phase. For successful implementation of this phase two major considerations need to be addressed in the application: (1) The ability of the interviewer to obtain both cooperation from the department and reliable data on actual practices; and (2) the need to develop data collection instruments that capture actual practices within the juridiction and allow for cross-jurisdictional comparison of decision-making.

VOL 50 ISS 143 JL 25 1985 UMI

Phase III: While the focus of Phases I and II is almost exclusively the law enforcement agency and its practices, Phase III will focus on the missing children cases themselves within the context of the operating policies and procedures. Ten law enforcement jurisdictions will be selected for participation in the study. This phase will involve intensive case-tracking of all calls and reports of missing children, regardless of whether a call meets the operational criteria for an official investigation. For example, a call which involves a report by a parent that a 13 year old son has been missing for eight hours and whose whereabouts is unknown would become part of the data base for follow-up. Even if there is a 24-hour requirement for police intervention in such cases, this case would be followed to determine the eventual return of the youth and circumstances surrounding his disappearance and recovery. The purpose of this component is to provide documentation on all cases reported to the police and to establish profiles of youth and their experience. Interviews with families and the youth are expected to build a systematic, prospective data base on missing children cases. This component will be designed to complement data collection of the National Incidence Study described in section II.A. It will also be correlated with survey efforts by the Department of Health and Human Services, Administration for Children, Youth and Families, of its Runaway and Homeless Youth Program.

It is anticipated that the ten jurisdictions will be identified and case tracking will commence *no later* than Spring of 1987 and continue to allow for sufficient time to elapse (up to six months) to follow at least two hundred cases per jurisdiction. The type of information to be gathered is outlined in section III C. of the solicitation. Of critical importance to this phase is the cooperation and commitment of the local law enforcement agencies selected and the persons involved in on-site data collection. Applicants will be asked to address this issue in their proposal.

A major factor in studying law enforcement agencies' practices through the methods described above is the sensitivity of jurisdictions regarding the identity of the agency and the individuals and families cooperating with the research. It is the position of this agency that all questionnaires, interviews and other data gathered from law enforcement agencies through this study will remain confidential. Reports on the results will be written so as not to divulge the sources of specific location of information. Those agencies that have been identified as having exemplarly policies and procedures, community relations, training and other programs will be the only exceptions to this policy. These will be so noted only with the expressed permission of the appropriate executive official in the jurisdiction. Data collected on individual subjects of research, such as missing children and family members are subject to 28 CFR Part 22 Confidentiality of Identifiable Research and Statistical Information.

III. Program Goals and Objectives

Goals of the National Study are: To systematically describe the role of law enforcement agencies both in responding to reports of missing children and in the identification and recovery of these children. This comprehensive national study will focus primarily on local law enforcement agencies' practices including their utilization of state and federal information resources such as the National Crime Information Center/ Missing Persons File (NCIC/MPF) and the Unidentified Deceased File (UDF). The scope of the study includes law enforcement's handling of all categories of missing children as well as homeless youth. It is expected that the knowledge gained from this study will contribute to our understanding of the extent and nature of the problem of missing children nationwide and to help identify effective responses at the Federal, State and local level to missing children and homeless youth.

Objectives: To achieve these goals several objectives have been identified which are specifically related to the three components of the study which will be carried out in sequential phases.

A. Phase I: National Mail Survey of 500 Law Enforcement Agencies

1. To document and describe existing policies and practices of law enforcement agencies with respect to handling reports of missing children, particularly in the area of record keeping—i.e., classification; definitions; recording, case management and validation procedures; reporting to other agencies, etc.

2. To identify operational criteria for (1) classification of missing children reports; and (2) law enforcement responses to various categories of missing children by age and suspected reasons for the child's disappearance.

3. To estimate national incidence of the number of missing children reported to law enforcement agencies for a given year from this national representative sample of law enforcement agencies by type of case.

4. To determine the level of utilization of the Missing Persons File and the Unidentified Deceased File in the NCIC for both recording and recovery of missing children; and to determine to what extent state or local statutes or regulations mandate the use of such resources.

5. To determine the level of awareness and utilization of the National Center for Missing and Exploited Children (NCMEC) resources for reporting and seeking leads and the locating and recovery of missing children and apprehension of their abductors.

6. To identify potential impediments to law enforcements' ability to recover and return missing children to their families, particularly runaways.

a. Runaways,
b. Homeless youth,
c. Parential adbuction/kidnapping,
d. Stranger abduction/kidnapping,
e. Potential accident victims,
f. Lost children; and
g. Other.

3. To collect more detailed information on actual law enforcement practices related to the identification, location, apprehension, custody, and return of missing children (listed above), with particular attention to those runaways who apparently have not been reported missing (chronic runaways, throwaways) and homeless youth.

4. To solicit recommendations from police regarding ways in which current policies and procedures could be improved to overcome obstacles to investigation, location, recovery, etc. of missing children within and across jurisdictions.

5. To identify law enforcement agencies which have established effective working/operational relationships with other public and private sector agencies in the identification, protection and recovery of missing children.

6. To better understand the role of the missing person function within the law enforcement bureaucracy in order to improve the responsiveness of law enforcement personnel to reports of missing children; or, to improve public awareness of the limitations of the law enforcement agency's capability in responding to such reports.

The purpose of this second component is to develop a more systematic body of data on actual investigative practices along with an understanding of the reasons for such practices. This information will be very useful in the implementation of recommendations from the overall study; as well as in training and technical assistance.

C. Phase III: Intensive Case-Tracking in Ten Law Enforcement Agencies

1. To establish profiles of each of the categories of missing children in terms of:

a. Characteristics of the youth reported missing;
b. Characteristics of the event (duration, type, distance away etc.);
c. Official response and recording; and
d. Child's experience while away in terms of exploitation, protection, means of sustenance, etc.

2. To "observe" law enforcement procedures for the identification, location, protection and recovery of missing children, including the use of state and national information networks, as well as private service agencies.

The purpose of the Phase III component of the national survey is to create a multi-jurisdicitional baseline of information on all reports of missing children in selected jurisdictions for purposes of comparison with conventional wisdom in the field, and if possible, for documenting the effectiveness of various methods for achieving a high rate of safe recoveries, investigating and locating of missing children. In addition, the design of the data collection instruments for tracking and follow-up of the cases will complement those in the National Incidence Study in order to generate a large sample of comparable cases for descriptive and analytical purposes, and particularly for comparing profiles of reported and unreported cases of missing children.

IV. Major Responsibilities of the Successful Applicant

The organization selected to conduct this research project will be responsible for all aspects of the successful implementation and completion of all functions and activities of the study, whether carried out directly or contracted to other organizations or individuals, and, for the development of all products.

The successful applicant will be responsible for:

A. Activities and Functiions

1. Developing a comprehensive research design for all phases of the study project as outlined in this solicitation including:

a. Uniform definitions of terminology consistent with the legislation for all survey instruments and interviews;
b. A sampling plan for each component;
c. Data collection instruments and protocols for each;
d. Pre-testing data collection instruments and protocols; and
e. Data analysis plans.

2. Identifying criteria for the selection of the 100 interview sites and the 10 intensive case-tracking sites.

3. Funding and managing the ten intensive site's data collection efforts.

4. Collecting data on all facets of the study with specific plans for:

a. Assuring a high response rate for the national mail survey;
b. Gaining access to law enforcement personnel for Phase II onsite interviews and to records and information in Phase III.
c. Selection and training of on-site interviewers and case-tracking data collectors, and other measures to assure uniformity and quality control in the data collection process; and
d. Receipt, editing and maintaining the confidentiality of data.

5. Convening two meetings of an Advisory Group composed of not more than four experts in the fields of research, law enforcement policy development, and missing children, for the purpose of reviewing research plans and activities.

6. Preparing all quarterly financial and progress reports required by this agency.

B. Products

The following products will be developed by the research organization:

1. An advance report on the findings of the Phase I mail survey within two months of completion of the Phase I survey;

2. An advance report on the findings of the on-site Phase II interview survey within two months of the completion of the Phase II survey;

3. An advance report on the findings from Phase III within two months of the completion of the Phase III survey;

4. A comprehensive final report on the entire study within 24 months of the award date which is suitable for nationwide dissemination.

5. In addition to the specified reports, up to three special issues papers on topics to be identified in the application and developed subject to the approval of OJJDP.

6. Preparation of public use data tapes with all potential identifiers stripped, and with full documentation suitable for secondary analysis.

7. All programmatic quarterly progress reports.

As a cooperative agreement—as opposed to a grant or contact—the OJJDP will work collaboratively with the recipient and will approve major decisions throughout the course of the project including the final research design and methodology, definitions of terminology, criteria for site selection, advisory board members, subjects of topical reports, etc. Any and all sole source subcontracting in excess $10,000 (with the exception of clerical support services) by the successful applicant is subject to prior agency approval.

V. Eligibility Requirements

Applications are invited from public agencies and private not-for-profit organizations only. For-profit organizations are not eligible for funding under Title IV Missing Children's Assistance Act and therefore will not be considered for receipt of the cooperative agreement as a single applicant or as a co-applicant with another eligible organization.

Applicant organizations may choose to submit joint proposals with other organizations as long as one organization is designated in the application as the applicant and any co-applicants are designated as such. Together co-applicants must meet the eligibility requirements specified in A. and B.

The applicant must have experience in the following areas in order to be eligible for consideration:

A. Prior experience in the design and implementation of national surveys on law enforcement policies, procedures and practices; and

B. Demonstrated knowledge of the issues associated with law enforcements' handling cases of missing children, runaways, homeless youth and victimization of children in general.

The applicant must have the management and financial capability to effectively implement a project of this size and scope. Applicants who fail to demonstrate that they have the capability to manage this program will be ineligible for funding consideration.

VI. Project Period

A. *One cooperative agreement will be awarded.*

B. *The initial period for the project is up to 24 months.* Based on the need for and the availability of funds, the performance of the cooperative agreement recipient, a six months supplemental may be awarded. The funding level for the extension period would be based upon the scope of the work desired.

VII. Application Requirements

All applicants must submit a completed Standard Form 424,

VOL
50
ISS
143
JL
25
1985
UMI

Application for Federal Assistance (SF 424), including a program narrative, a detailed budget, and a budget narrative. All applications must include the following information outlined in this section VII of the solicitation in Part IV, Program Narrative of the application. The program narrative shall not exceed 70 double-spaced pages in length.

In submitting applications which contain more than one organization, the relationships among the parties must be set forth in the application. As a general rule, organizations which describe their working relationship in the development of products and the delivery of services as primarily cooperative or collaborative in nature will be considered as co-applicants. Those organizations which are primarily procuring services or products from another organization would not be considered as co-applicants. In the event of a co-applicant submission, one co-applicant must be designed as the payee to receive and disburse project funds and be responsible for the supervision and coordination of the activities of the other co-applicants. Under this arrangement each organization would agree to be jointly and severally responsible for all project funds and services. Each co-applicant must sign the SF-424 and indicate their acceptance of the conditions of joint and several responsibility with the other co-applicants.

Applications which include non-competitive contracts for the provision of specific services must include a sole source justification for any procurement in excess of $10,000.

A. Organizational Capability

Applicants must demonstrate that they are eligible to compete for this cooperative agreement on the basis of the eligibility criteria established in section V. of this solicitation.

I. Organizational Experience

Applicants must concisely describe their organizational experience with respect to the eligibility criteria specified in section V above. Applicants must demonstrate how their organizational experience and capabilities will enable them to achieve the goals and objectives of this initiative. Applicants are invited to submit prior survey and other work products.

2. Financial Capability

In addition to the assurances provided in Part V, Assurances (SF-424), applicants must also demonstrate that their organization has or can establish fiscal controls and accounting procedures which assure that Federal funds available under this agreement are disbursed and accounted for properly. Applicants who have not previously received federal funds will be asked to submit a copy of the Office of Justice Assistance, Research and Statistics (OJARS) Accounting System and Financial Capability Questionnaire (OJARS Form 7120/1). Copies of the form will be provided in the application kit and must be prepared and submitted along with the application. Other applicants may be requested to submit this form. *All* questions are to be answered regardless of instructions (section C.1.b. note). The CPA certification is required *only* of those applicants who have not previously received Federal funding.

B. Realization of Research Strategy, Goals and Objectives

Applicants shall concisely present proposed strategy for conducting this study which demonstrates that it has a high probability of attaining the goals and objectives of the research within the parameter set forth in the solicitation. Applicants must demonstrate their understanding and ability to carry out the program design by providing a clear and concise Preliminary Research Design and Program Implementation Plan to carry out the functions and activities of the project. As specified in section VII.B, the Plan must address organizational, methodological, substantive, coordination, administrative and budget issues and must include the following components:

I. Preliminary Research Design

This section of the application will be the principal means for the applicant to demonstrate their substantive knowledge of survey research, law enforcement organizations, and missing children. Applicants must:

a. Present a concise discussion of the major substantive—i.e., legal, administrative, implementation, etc.—issues affecting law enforcement's response to missing children and homeless youth and how this research program can make a contribution to resolving those issues.

b. Present a preliminary research design including a discussion of sampling criteria and plans for each of the three phases of the study; identification of critical issues for consideration and inclusion in the design of the data collection instruments and protocols for each component. Applicants must specifically address the issues raised in Section II.B.

c. Discuss anticipated products and indicate how the major substantive issues addressed by this study will be incorporated in the research products.

2. Implementation Plan

Applicants shall describe how they will allocate the available resources to implement the strategy presented in their application. Applicants must develop an implementation plan which addresses the activities and functions described in section IV.A. Major Responsibilities of the Successful Applicant. The plan must include:

a. An annotated organizational chart depicting the roles and describing the responsibilities of key organizational/functional components;

b. A list of key personnel responsible for managing and implementing the three major components of the program. Applicants must present detailed position descriptions, qualifications, and selection criteria for each position. This documentation and individuals' resumes may be submitted as appendices to the application.

c. A concise discussion of the coordination, data access and administration issues related to the program design and how their proposal would address these issues.

d. A detailed time-task plan for the 24-month project period, clearly identifying major milestones. This must include designation of organizational responsibility and a schedule for the completion of the products identified in section IV.B.

C. Budget

Applicants shall provide a 24-month budget with a detailed justification for all costs, including the bases for computation of these costs. Applications submitted by Co-applicants and/or those containing contracts(s) must include detailed budget for each organization's expenses. Applicants should highlight innovative, cost-effective measures of their proposal.

VIII. Procedures and Criteria for Selection

All applications will be evaluated and rated based on the extent to which they meet the following weighted criteria. Applications will be reviewed in terms of their responsiveness to the specifications in the solicitation, their organizational capability to achieve the goals and objectives of the study, their attention to substantive issues in the design and their innovativeness in responding to strategic issues in the implementation of the study.

A. Organizational Capability (10 Points)

The extent and quality of organizational experience in the design and implementation of national studies of law enforcement policies, procedures and actual practices. Special consideration will be given to experience in research associated with the handling of missing children, runaways, homeless youth and child victimization in general.

The presence and extent of adequate fiscal controls and accounting procedures to ensure that the applicant can effectively implement a project of this size and scope, and the ensure the proper disbursal and accounting of federal funds.

B. Project Staff (15 Points)

The extent and relevance of the experience and qualifications of staff identified to manage and implement this initiative, including staff to be hired through contracts. The clarity and appropriateness of position descriptions, required qualifications and selection criterial relative to the specific functions set out in the preliminary research design and implementation plan.

C. Preliminary Research Design (35 Points)

Responsiveness of the proposal to issues related to the research strategy. Proposals will be evaluated in terms of their understanding of both the substantive issues and the goals and objectives of the study; the clarity, comprehensiveness, appropriateness and innovativeness of their preliminary research design and sampling plan for accomplishing the objectives of this initiative; and , the potential utility of research products. Particular attention will be paid to the presentation of critical issues for consideration and inclusion in the design of data collection instruments for each component. Special consideration will be given for innovative responses to the data collection issues raised in section II.B.

D. Implementation Plan (20 Points)

Appropriateness of allocation of resources to accomplish the goals and objectives of the study within the 24-month project period. Particular attention will be paid to the clarity and reasonableness of the time-task plan which identifies organizational, and individuals' roles and responsibilities for the completion of significant tasks and development of products.

E. Budget (20 Points)

Applicants must include a 24-month budget with a detailed narrative justifying the costs as specified in section VII.D. Applications will be rated based on the cost-competitiveness, completeness, reasonableness and appropriateness of the budget in relation to the tasks to be accomplished.

Applications will be evaluated by a peer review panel. The application which receives the highest total score on the above criteria will be recommended for funding to the Administrator, OJJDP, provided that required changes in the application can be successfully negotiated. The final decision will be made by the OJJDP Administrator.

IX. Deadline for Submission of Applications

One signed original and three copies of the application must be mailed or delivered to the Office of Juvenile Justice and Delniquency Prevention (OJJDP), Room 782, 633 Indiana Avenue, NW, Washington, D.C. 20531, by 5:30 p.m. on August 30, 1985. Those applications mailed to the above address must be postmarked on or before August 30, 1985 by the U.S. Postal Service. The necessary forms for applications may be obtained by writing to OJJDP. Those who have already received the original application kit do not need another one. Questions regarding the solicitation may be directed to Barbara Allen-Hagen, 202/724-5929.
